NET SAVINGS LINK, INC. AND SUBSIDIARY
Notes to the Unaudited Consolidated Financial Statements

1. Nature of Operations and Continuance of Business

The unaudited interim consolidated financial statements included herein have been prepared by Net Savings Link, Inc. and its wholly owned subsidiary Global Distribution Network, Inc. (collectively, "NSL" or the "Company") in accordance with accounting principles generally accepted in the United States of America and the rules of the Securities and Exchange Commission. We believe that all adjustments, consisting of normal recurring adjustments, necessary for a fair presentation of financial position and the results of operations for the interim periods presented have been reflected herein and that the disclosures made are adequate to make the information not misleading. The results of operations for interim periods are not necessarily indicative of the results to be expected for the full year. Notes to the consolidated financial statements which would substantially duplicate the disclosure contained in the audited financial statements as would be required to be reported in Form 10-K have been omitted.

2. Going Concern

NSL's financial statements are prepared using Generally Accepted Accounting Principles applicable to a going concern that contemplates the realization of assets and liquidation of liabilities in the normal course of business. However, NSL has generated minimal revenue and accumulated significant losses since inception. As of February 28, 2015, company has accumulated deficit of $997,847 and a working capital deficit of $436,062. All of these items raise substantial doubt about its ability to continue as a going concern. Management's plans with respect to alleviating the adverse financial conditions that caused management to express substantial doubt about the NSL's ability to continue as a going concern are as follows:

In order to fund the start-up of operations during the year ended November 30, 2014, NSL entered into several financing transactions and continues to try to raise funds in 2015. The continuation of NSL as a going concern is dependent upon its ability to generating profitable operations that produce positive cash flows. If NSL is not successful, it may be forced to raise additional debt or equity financing.

There can be no assurance that NSL will be able to achieve its business plans, raise any more required capital or secure the financing necessary to achieve its current operating plan. The ability of NSL to continue as a going concern is dependent upon its ability to successfully accomplish the plan described in the preceding paragraph and eventually attain profitable operations. The accompanying financial statements do not include any adjustments that might be necessary if the Company is unable to continue as a going concern.

3. Convertible Promissory Notes Payable

During the period ended February 28, 2015, the holder of two Convertible Promissory Notes elected to convert a total of $51,670 in principal and $2,016 in interest into 1,021,410,000 shares of the Company's common stock at conversion prices of between $0.00003 to $0.00012 per share.

During December 2014, NSL issued an Unsecured Convertible Promissory Note for $104,000 (the "December 2014 Convertible Promissory Note"). The December 2014 Convertible Promissory Note is unsecured, due approximately nine months from the date of issuance, accrues interest at 8% per annum and is convertible into shares of NSL's common stock at any time at the option of the holder. The December 2014 Convertible Promissory Note is convertible at a discount from market of 55% of the average of the three lowest bid prices during the fifteen trading days prior to the conversion date.

4. Derivative Liabilities

NSL analyzed the conversion options embedded in the Convertible Promissory Notes for derivative accounting consideration under ASC 815, Derivatives and Hedging, and determined that the instruments embedded in the above referenced convertible promissory notes should be classified as liabilities and recorded at fair value due to their being no explicit limit to the number of shares to be delivered upon settlement of the conversion options. Additionally, the above referenced convertible promissory notes contain dilutive issuance clauses. Under these clauses, based on future issuances of NSL's common stock or other convertible instruments, the conversion price of the above referenced convertible promissory notes can be adjusted downward. Because the number of shares to be issued upon settlement of the above referenced convertible promissory notes cannot be determined under this instrument, NSL cannot determine whether it will have sufficient authorized shares at a given date to settle any other future share instruments.

During the period ended February 28, 2015, two Convertible Promissory Notes became convertible into shares of the Company's common stock. The fair value of the conversion options was determined to be $267,374 using a Black-Scholes option-pricing model. Upon the date the Convertible Promissory Notes became convertible, $106,000 was recorded as debt discount and $161,374 was recorded as day one loss on derivative liability.

During the period ended February 28, 2015, $53,686 in principal and accrued interest on Convertible Promissory Notes was converted into common stock, $194,049 in related derivative liability was extinguished through a charge to paid-in capital and $124,236 was recorded as a net gain on mark-to-market of the conversion options and warrants.

The following table summarizes the derivative liabilities included in the balance sheet at February 28, 2015:

Derivative liabilities November 30, 2014	$390,020
Day one loss due to convertible debt	161,373
Debt discount	106,000
Reclassification of derivative liability to additional paid-in capital due to promissory note conversions	(194,049)
Gains on change in fair value	(285,609)
Balance at February 28, 2015	$177,735

The following table summarizes the loss on derivative liabilities included in the income statement for the period ended February 28, 2015:

Day one loss due to convertible debt	$(161,373)
Gains on change in fair value	285,609
Gain on derivative liabilities	$124,236

NSL valued its derivatives liabilities using the Black-Scholes option-pricing model. Assumptions used during the period ended February 28, 2015 include (1) risk-free interest rates between 0.02% to 1.51%, (2) lives of between 0 and 4.26 years, (3) expected volatility of between 421% to 925%, (4) zero expected dividends, (5) conversion prices as set forth in the related instruments, and (6) the common stock price of the underlying share on the valuation dates.

5. Common Stock

During the three months ended February 28, 2015, the Company issued 1,021,410,000 shares of common stock for $51,670 of convertible debt and $2,016 of accrued interest, or $0.0001 per share.

Table of Contents

6. Financial Instruments

ASC 820, Fair Value Measurements (ASC 820) and ASC 825, Financial Instruments (ASC 825), requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. It establishes a fair value hierarchy based on the level of independent, objective evidence surrounding the inputs used to measure fair value. A financial instrument's categorization within the fair value hierarchy is based upon the lowest level of input that is significant to the fair value measurement. It prioritizes the inputs into three levels that may be used to measure fair value:

Level 1 - Level 1 applies to assets or liabilities for which there are quoted prices in active markets for identical assets or liabilities.

Level 2 - Level 2 applies to assets or liabilities for which there are inputs other than quoted prices that are observable for the asset or liability such as quoted prices for similar assets or liabilities in active markets; quoted prices for identical assets or liabilities in markets with insufficient volume or infrequent transactions (less active markets); or model-derived valuations in which significant inputs are observable or can be derived principally from, or corroborated by, observable market data.

Level 3 - Level 3 applies to assets or liabilities for which there are unobservable inputs to the valuation methodology that are significant to the measurement of the fair value of the assets or liabilities.

NSL's financial instruments consist principally of cash, accounts payable, and accrued liabilities. Pursuant to ASC 820 and 825, the fair value of cash is determined based on "Level 1" inputs, which consist of quoted prices in active markets for identical assets. The recorded values of all other financial instruments approximate their current fair values because of their nature and respective maturity dates or durations.

The following table sets forth by level with the fair value hierarchy the Company's financial assets and liabilities measured at fair value on February 28, 2015:

	Level 1	Level 2	Level 3	Total
Assets				
None	$ -	$ -	$-	$-
Liabilities				
Derivative financial instruments	$ -	$ -	$177,735	$177,735

7. Subsequent Events

During March 2015, the Company issued 207,750,000 shares of common stock for $7,250 of debt and $1,060 of accrued interest, or $0.00004 per share.

During March 2015, the Company issued its Chief Executive Officer 1,000,000 shares of Series A preferred stock for accrued wages of $67,000 and repayment of a short-term loan of $2,000.

During April 2015, the Company entered into an employment agreement with it Vice President of Operations. The employment agreement provides for an annual salary of $79,000 per year, participation in future stock incentive programs, 1,750,000 share of the Company's Series A preferred stock and the issuance of 10,000,000 shares of the Company's common stock.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS.

FORWARD-LOOKING STATEMENTS

This Management's Discussion and Analysis of Financial Condition and Results of Operations (MD&A) contains forward-looking statements that involve known and unknown risks, significant uncertainties and other factors that may cause our actual results, levels of activity, performance or achievements to be materially different from any future results, levels of activity, performance or achievements expressed, or implied, by those forward-looking statements. You can identify forward-looking statements by the use of the words may, will, should, could, expects, plans, anticipates, believes, estimates, predicts, intends, potential, proposed, or continue or the negative of those terms. These statements are only predictions. In evaluating these statements, you should consider various factors which may cause our actual results to differ materially from any forward-looking statements. Although we believe that the exceptions reflected in the forward-looking statements are reasonable, we cannot guarantee future results, levels of activity, performance or achievements. Therefore, actual results may differ materially and adversely from those expressed in any forward-looking statements. We undertake no obligation to revise or update publicly any forward-looking statements for any reason.

Table of Contents

Going Concern

We have not attained profitable operations and are dependent upon obtaining financing to pursue any extensive acquisitions and activities. For these reasons, our auditors stated in their report on our audited financial statements that they have substantial doubt that we will be able to continue as a going concern without further financing.

Off-Balance Sheet Arrangements

We have no significant off-balance sheet arrangements that have or are reasonably likely to have a current or future effect on our financial condition, changes in financial condition, revenues or expenses, results of operations, liquidity, capital expenditures or capital resources that are material to stockholders.

Future Financings

We will continue to rely on equity sales of our common shares in order to continue to fund our business operations. Issuances of additional shares will result in dilution to existing stockholders. There is no assurance that we will achieve any additional sales of the equity securities or arrange for debt or other financing to fund planned acquisitions and exploration activities.

Employment Agreement

On April 5, 2015, we entered into an employment agreement with David M. Pecoraro ("Pecoraro") employing Pecoraro as Vice President of Operations. Mr. Pecoraro has no previous experience functioning as an executive officer of a public company. Pecoraro will be paid a salary of $79,000.00 per year plus compensation for overtime hours. Overtime hours means the total hours worked in a day or week in excess of the maximum allowed, as defined by local statute, for a work day or work week.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK.

We are a smaller reporting company as defined by Rule 12b-2 of the Securities Exchange Act of 1934 and are not required to provide the information under this item.

ITEM 4. CONTROLS AND PROCEDURES.

Under the supervision and with the participation of our management, including the Principal Executive Officer and Principal Financial Officer, we have evaluated the effectiveness of our disclosure controls and procedures as required by Exchange Act Rule 13a-15(b) as of the end of the period covered by this report. Based on that evaluation, the Principal Executive Officer and Principal Financial Officer have concluded that these disclosure controls and procedures are not effective because procedures were not in place to provide for timely, complete, accurate reporting of events. The foregoing was a result of our president's lack of experience with his reporting and disclosure obligations, lack of proper segregation of duties due to limited personnel, and a lack of formal review process that includes multiple levels of review, resulting in audit adjustments related to the derivative liability account, accounting of the Company's convertible debt instruments and conversions and bad debt. Our president is committed to educating himself through the seminars and consulting with attorneys to become fully knowledgeable with his obligations. In addition, currently there are no written policies or procedures that clearly define the roles in the disclosure and reporting process.

There were no changes in our internal control over financial reporting during the quarter ended February 28, 2015 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.
