NOTE 1 OVERVIEW

Forward Industries, Inc. (“Forward” or the “Company”) was incorporated under the laws of the State of New York and began operations in 1961 as a manufacturer and distributor of specialty and promotional products. The Company designs, markets, and distributes carry and protective solutions, primarily for hand held electronic devices. The Company’s principal customer market is original equipment manufacturers, or “OEMs” (or the contract manufacturing firms of these OEM customers), that either package their products as accessories “in box” together with their branded product offerings, or sell them through their retail distribution channels. The Company’s OEM products include carrying cases and other accessories for medical monitoring and diagnostic kits and a variety of other portable electronic and non-electronic products (such as sporting & recreational products, bar code scanners, smartphones, GPS location devices, tablets, and firearms). The Company’s OEM customers are located in the Americas, the EMEA Region, and the APAC Region. The Company does not manufacture any of its OEM products and sources substantially all of its OEM products from independent suppliers in China (refer to Note 8 – Buying Agency and Supply Agreement).

On June 21, 2012, the Company determined to exit its global retail business and focus solely on growing its OEM business. The decision to eliminate the Retail division was primarily driven by the longer than estimated path to bring it to profitability and the strong top line growth and cost rationalizations in the OEM business. The Retail business is presented as discontinued operations.

On December 30, 2014, the Company held its 2014 annual meeting of shareholders (the “2014 Annual Meeting”) primarily for the purpose of electing either a slate of directors proposed by the then-incumbent board of directors or a slate of directors proposed by Terence Bernard Wise, a director and significant shareholder in the Company at the time. At the 2014 Annual Meeting, the Company’s shareholders voted for the election of the slate of directors proposed by Mr. Wise, which resulted in the turnover of a majority of the Company’s directors.

In the opinion of management, the accompanying condensed consolidated financial statements presented in this Quarterly Report on Form 10-Q reflect all normal recurring adjustments necessary to present fairly the financial position and results of operations and cash flows for the interim periods presented herein, but are not necessarily indicative of the results of operations for the year ended September 30, 2015. These condensed consolidated financial statements should be read in conjunction with the Company’s audited consolidated financial statements included in its

Annual Report on Form 10-K for the fiscal year ended September 30, 2014, and with the disclosures and risk factors presented herein and therein, respectively. The September 30, 2014 condensed consolidated balance sheet has been derived from the audited consolidated financial statements.

NOTE 2 ACCOUNTING POLICIES

Accounting Estimates

The preparation of the Company's condensed consolidated financial statements in conformity with accounting principles generally accepted in the United States of America ("U.S. GAAP") requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting periods. Actual results could differ from those estimates and assumptions.

Basis of Presentation

The accompanying condensed consolidated financial statements include the accounts of Forward Industries, Inc. and its wholly owned subsidiaries (Forward US, Forward Switzerland, Forward HK (inactive) and Forward UK (inactive)). All significant intercompany transactions and balances have been eliminated in consolidation.

Reclassifications

Certain prior period amounts have been reclassified to conform to the current period presentation.

FORWARD INDUSTRIES, INC. AND SUBSIDIARIES

NOTE 2 ACCOUNTING POLICIES (CONTINUED)

Income Taxes

The Company accounts for its income taxes in accordance with U.S. GAAP, which requires, among other things, recognition of future tax benefits and liabilities measured at enacted rates attributable to temporary differences between financial statement and income tax bases of assets and liabilities and to net tax operating loss carry-forwards to the extent that realization of these benefits is more likely than not. As of March 31, 2015, there was no change to our assessment that a full valuation allowance was required against all net deferred tax assets. Accordingly, any deferred tax provision was offset by an equal and opposite change to the valuation allowance.

6% Senior Convertible Preferred Stock

Temporary Equity

The 6% Senior Convertible Preferred Stock was classified as temporary equity in accordance with Accounting Standards Codification (“ASC”) 480-10-s99 - Distinguishing Liabilities from Equity – Overall – SEC Materials and Accounting Series Release (“ASR”) 268 – Presentation in Financial Statements of “Redeemable Preferred Stock”, as the redemption feature was not solely within the control of the Company.

Warrants

In accordance with ASC 815-40 – Derivatives and Hedging – Contracts in Entity’s Own Equity, the Company’s warrants were initially classified as a liability, at fair value, as a result of a related registration rights agreement that contained certain requirements for registering the underlying common shares, but had no provision for penalties upon the failure

to register. At each balance sheet date, this liability's fair value was re-measured and adjusted with the corresponding change in fair value recorded in the condensed consolidated statements of operations and comprehensive (loss) income. As of March 31, 2014, the underlying shares were registered and the liability was marked-to-the-market and reclassified to equity.

Preferred Stock Accretion

As of the issuance date, the carrying amount of the convertible preferred stock was less than the redemption value. As a result of the Company's determination that redemption was probable (See Note 4 – Shareholders' Equity – 6% Senior Convertible Preferred Stock and Warrants), the carrying value was increased by periodic accretions so that the carrying value would equal the redemption amount at the earliest redemption date. Such accretion is recorded as a preferred stock dividend.

Revenue Recognition

The Company generally recognizes revenue from product sales to its customers when: (1) title and risk of loss are transferred (in general, these conditions occur at either point of shipment or point of destination, depending on the terms of sale); (2) persuasive evidence of an arrangement exists; (3) the Company has no continuing obligations to the customer; and (4) collection of the related accounts receivable is reasonably assured.

Share-Based Payment Expense

The Company recognizes employee and director share-based compensation in its condensed consolidated statements of operations and comprehensive (loss) income at the grant-date fair value of stock options and other equity-based compensation. The determination of stock option grant-date fair value is estimated using the Black-Scholes option-pricing model, which includes variables such as the expected volatility of the Company's share price, the exercise behavior of its grantees, interest rates, and dividend yields. These variables are projected based on the Company's historical data, experience, and other factors. In the case of awards with multiple vesting periods, the Company has elected to use the graded vesting attribution method, which recognizes compensation cost on a straight-line basis over each separately vesting portion of the award as if the award was, in-substance, multiple awards. Refer to Note 5 – Share Based Compensation. In addition, the Company recognizes share-based compensation to non-employees based upon the fair value, using the Black-Scholes option pricing model, determined at the deemed measurement dates over the related contract service period.

FORWARD INDUSTRIES, INC. AND SUBSIDIARIES**NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS****(Unaudited)****NOTE 2 ACCOUNTING POLICIES (CONTINUED)****Recent Accounting Pronouncements**

In July 2013, the Financial Accounting Standards Board (“FASB”) issued ASU 2013-11, “Income Taxes (Topic 740): Presentation of an Unrecognized Tax Benefit When a Net Operating Loss Carryforward, a Similar Tax Loss, or a Tax Credit Carryforward Exists.” This ASU addresses the requirements regarding the financial statement presentation of an unrecognized tax benefit within ASC Topic 740 for the purpose of providing consistency between the financial reporting of U.S. GAAP entities. Generally, this ASU provides guidance for the preparation of financial statements and disclosures when a net operating loss carryforward, a similar tax loss, or a tax credit carryforward exists. This ASU is effective for annual periods and interim periods within those annual periods beginning after December 15, 2013 and did not have a material impact on the Company’s condensed consolidated financial statements or disclosures.

NOTE 3 DISCONTINUED OPERATIONS

On June 21, 2012, the Company determined to exit its global retail business and focus solely on growing its OEM business. The decision to eliminate the Retail division was primarily driven by the longer than estimated path to bring it to profitability and the strong net sales growth and cost rationalizations in the OEM business. Accordingly, the results of operations for the Retail division have been recorded as discontinued operations in the accompanying condensed consolidated financial statements for the periods presented. The Company has completed its exit of its Retail business. Summarized operating results of discontinued operations are presented in the following table:

	For the Three Months Ended March 31,		For the Six Months Ended March 31,	
	2015	2014	2015	2014
Net sales	\$ -	\$ -	\$ -	\$ -

(Loss) income from discontinued operations, net	\$ -	\$ (18,395)) \$ 198,963	\$ (13,786)

The Company had \$280,000 of accounts receivable relating to overdue payments pursuant to a Settlement Agreement and General Release (“Settlement Agreement”) executed on July 3, 2013 between the Company and G-Form LLC (“G-Form”) in exchange for certain retail inventories, the Company’s cooperation with certain administrative matters, and a mutual general release. Due to the age of the accounts receivable and G-Form’s non-responsiveness to the Company’s communication related to the matter, the Company established a full reserve for this receivable as of September 30, 2014. In December 2014, the Company recovered \$200,000 from a third party, which was recognized as other income during the six months ended March 31, 2015.

NOTE 4 SHAREHOLDERS’ EQUITY

6% Senior Convertible Preferred Stock

In the event of a liquidation (or deemed liquidation, as described below) of the Company, the holders of the Company’s 6% Senior Convertible Preferred Stock, par value \$0.001 per share (“Convertible Preferred Stock”), shall receive in preference to the holders of common stock and any junior securities of the Company an amount (the “Liquidation Preference”) equal to (i) \$1.965 (the “Original Issue Price”) per each outstanding share of Convertible Preferred Stock (subject to adjustment upon the occurrence of certain customary events), plus (ii) any accrued but unpaid dividends. A Change of Control of the Company (as defined in the Certificate of Amendment) will be treated as a liquidation at the option of the holders of a majority of the Convertible Preferred Stock, provided that the amount paid to holders of Convertible Preferred Stock in such event will be equal to 101% of the Original Issue Price, plus accrued but unpaid dividends.

FORWARD INDUSTRIES, INC. AND SUBSIDIARIES

(Unaudited)

NOTE 4 SHAREHOLDERS' EQUITY (CONTINUED)

6% Senior Convertible Preferred Stock (continued)

Dividends on the Convertible Preferred Stock were payable, on a cumulative basis, in cash, at the rate per annum of 6% of the Liquidation Preference (as defined below) and were payable quarterly, in arrears, on each March 31, June 30, September 30 and December 31, commencing on September 30, 2013. The Company was prohibited from paying any dividend with respect to shares of common stock or other junior securities in any quarter unless full dividends were paid on the Convertible Preferred Stock in such quarter.

At the December 30, 2014 Annual Meeting, the shareholder vote resulted in the turnover of a majority of the Board members, which represented a Change of Control pursuant to the terms of the Convertible Preferred Stock. On December 31, 2014, the Company determined to recognize the balance of the accretion and bring the Convertible Preferred Stock carrying value up to its redemption value due to the likelihood of the holders requesting redemption. On January 9, 2015, the Company received a notice of deemed liquidation from a majority of the outstanding Convertible Preferred Stockholders in which they requested redemption of their Convertible Preferred Stock. On February 23, 2015 the Company paid an aggregate \$1,287,737 to the Convertible Preferred Stockholders, in order to redeem all of the outstanding shares of Convertible Preferred Stock.

Dividends on the Convertible Preferred Stock totaled approximately \$2,000 and \$19,000 for each of the three months ended March 31, 2015 and 2014, respectively, and totaled approximately \$21,000 and \$38,000 for the six months ended March 31, 2015 and 2014, respectively. These dividends, in addition to the accretion, totaled approximately \$2,000 and \$48,000 for the three months ended March 31, 2015 and 2014, respectively, and \$476,000 and \$96,000 for the six months ended March 31, 2015 and 2014, respectively. As of March 31, 2015 and September 30, 2014, the carrying value of the Convertible Preferred Stock was \$0 and \$833,365, respectively, and is included on the Company's condensed consolidated balance sheets as temporary equity.

Stock Repurchase

In September 2002 and January 2004, the Board authorized the repurchase of up to an aggregate of 486,200 shares of outstanding common stock. Under those authorizations, through March 31, 2015, the Company repurchased an aggregate of 223,614 shares at a cost of approximately \$485,000. In November 2014, the Company repurchased and retired an aggregate of 10,340 shares of its outstanding restricted common stock at a cost of approximately \$12,000, in connection with the vesting of employee restricted stock awards, wherein certain employees surrendered a portion of their award in order to fund certain tax withholding obligations.

Retirement of Treasury Stock

On December 5, 2014, the Board of Directors approved the retirement of 706,410 shares of existing treasury stock.

Stock Option Awards

Effective January 15, 2015, in connection with the Company's former Chief Executive Officer's voluntary termination, previously outstanding unvested stock options to purchase an aggregate of 83,334 shares of common stock at exercise prices ranging from \$1.59 to \$5.31 per share that would have been forfeited pursuant to their original terms were modified such that the options vested on January 28, 2015. In connection with the "improbable to probable" modification, the Company recorded a credit of approximately \$(31,000) during the three and six months ended March 31, 2015. See Note 7 for additional details in connection with the termination.

The fair value of each stock option on the date of grant was estimated using the Black-Scholes option-pricing formula applying the following assumptions:

	Six Months Ended March 31, 2014	
Risk free interest rate	1.86	%
Expected term (years)	6.00	
Expected volatility	63.2	%
Expected dividends	0	%
Estimated annual forfeiture rate	10	%

There were no options granted during the three and six months ended March 31, 2015. There were no options granted during the three months ended March 31, 2014. During the six months ended March 31, 2014, the Company granted 32,500 stock options at a weighted average grant date fair value of \$0.90 per share.

Stock Option Awards (continued)

The expected term represents the period over which the stock option awards are expected to be outstanding. The Company utilizes the “simplified” method to develop an estimate of the expected term of “plain vanilla” employee option grants. The Company based the risk-free interest rate used in its assumptions on the implied yield currently available on U.S. Treasury zero-coupon issues with a remaining term equivalent to the award’s expected term. The volatility factor used in the Company’s assumptions is based on the historical price of its stock over the most recent period commensurate with the expected term of the award. The Company historically has not paid any dividends on its common stock and had no intention to do so on the date the share-based awards were granted.

The Company recognized compensation expense of approximately \$(48,000) and \$35,000 in continuing operations for stock option awards in its condensed consolidated statements of operations and comprehensive (loss) income for the three months ended March 31, 2015 and 2014, respectively, and \$(37,000) and \$66,000 for the six months ended March 31, 2015 and 2014, respectively.

As of March 31, 2015, there was approximately \$6,000 of total unrecognized compensation cost related to unvested stock option awards, which is expected to be recognized over the remainder of the weighted average vesting period of 0.9 years.

Basic (loss) income per share data for each period presented is computed using the weighted-average number of shares of common stock outstanding during each such period. Diluted (loss) income per share data is computed using the weighted-average number of common and dilutive common-equivalent shares outstanding during each period. Dilutive common-equivalent shares consist of (a) shares that would be issued upon the exercise of stock options and warrants, computed using the treasury stock method, (b) shares that would be issued upon the conversion of convertible preferred stock and (c) shares of non-vested restricted stock. Net (loss) income from continuing operations per basic and diluted share for the three and six months ended March 31, 2015 and 2014 is net of preferred stock cash dividends and accretion.

NOTE 7 COMMITMENTS AND CONTINGENCIES**Former CEO Agreement**

Effective January 15, 2015, the Company's Chief Executive Officer ("Former CEO") voluntarily resigned from his position and entered into an agreement with the Company, pursuant to which the Former CEO agreed to waive all payments under his Employment Agreement and all future claims against the Company. The Former CEO will also receive a cash payment of \$7,852 in lieu of shares of restricted stock of the Company that would otherwise vest on November 8, 2015. In addition, the Former CEO will retain certain other ancillary benefits for limited periods. The agreement includes customary confidentiality, non-solicitation, non-competition, non-disparagement and release provisions. As of March 31, 2015, the remaining obligation to the Former CEO of approximately \$98,000 is reflected as an accrual in the condensed consolidated balance sheet.

Former CFO Agreement

On February 16, 2015, the Company entered into a settlement agreement and mutual release with the Company's former Chief Financial Officer ("Former CFO"), James McKenna, in connection with a lawsuit filed by Mr. McKenna on August 26, 2014 in the U.S. District Court for the Southern District of New York against the Company and then-directors Frank LaGrange Johnson, Robert Garrett, John F. Chiste, Timothy Gordon and Owen P.J. King (the "SDNY Lawsuit"), alleging purported claims of retaliation for whistleblowing under the Dodd-Frank Act, breach of contract and breach of the covenant of good faith and fair dealing all as against the Company, and a single claim for tortious interference with contract as against the individual defendants. The complaint sought an unspecified amount of monetary consequential damages and punitive damages. Pursuant to the agreement, Mr. McKenna and the Company have agreed to settle and release all disputes or claims against the other party related to the SDNY Lawsuit and any such disputes or claims arising out of Mr. McKenna's employment with the Company, without an admission of liability or wrongdoing. The Agreement, as amended, terminates on September 11, 2015, subject to renewal. Terence Bernard Wise, a director of the Company, is a principal of Forward China. In addition, Jenny P. As compensation for its services to the Company, LCA was entitled to advisory fees, comprised of an asset-based fee and a performance fee, as provided in the Investment Management Agreement. No performance fee was payable for any annual period in which the Account NAV at the end of such annual period was below the highest Account NAV at the end of any previous annual period. In addition to such advisory fees, the Company reimbursed LCA for certain investment and operational expenses. The Company didn’t recognize any advisory fee expense during the three and six months ended March 31, 2015, and recognized approximately \$3,000 and \$6,000, respectively, during the three and six months ended March 31, 2014, related to asset-based or performance fees which are included in continuing operations in the accompanying condensed consolidated statements of operations and comprehensive (loss) income.

As of March 31, 2015, there were no other such actions or proceedings, either individually or in the aggregate, other than described below, that the Company believes would be material to its business, if decided adversely to its interests.

The complaint sought an unspecified amount of monetary consequential damages and punitive damages. See Note 7 – Commitments and Contingencies – Former CFO Agreement for the details of the settlement agreement and mutual release.

Business Overview

Trends and Economic Environment

In June 2012, the Company made the strategic decision to focus solely on its core OEM business. Initially, we implemented several key restructuring measures in order to improve our operating performance and return the Company to profitability. These actions included replacing our legacy sourcing and quality assurance infrastructure with a variable lower cost solution through our use of an exclusive Asia-based sourcing agent (see Note 8 in our Notes to Condensed Consolidated Financial Statements) and rationalizing our fixed operating expenses, including office closures and headcount reductions. Our financial results for the 2015 Period and the 2014 Period, reflect the impact of these restructuring measures.

We remain challenged by a highly concentrated customer base and product offering, especially with respect to our Diabetic Products line, where we operate in a price sensitive environment in which we continue to experience volatility in demand and downward pricing pressure from our major Diabetic Products customers. We continue to be challenged by rising costs from our China-based supplier base, which causes our gross margins to narrow when we are not able to fully pass cost increases through to customers. Our dedicated Asia-based sourcing agent has made meaningful progress in areas such as quality assurance and overall operational performance, which has better positioned us with our customers. However, there was no expansion of our supplier base during the 2015 Period and 2014 Period. As a result, our ability to effectively push back against such rising material costs may diminish.

Variability of Revenues and Results of Operation

Because a high percentage of our sales revenues is highly concentrated in a few large customers, and because the volumes of these customers' order flows to us are highly variable, with short lead times, our quarterly revenues, and consequently our results of operations, are susceptible to significant variability over a relatively short period of time.

Change of Directors and Officers

On December 30, 2014, the Company held its 2014 Annual Meeting primarily for the purpose of electing either a slate of directors proposed by the then-incumbent Board of Directors or a slate of directors proposed by Terence Bernard Wise, a director and significant shareholder in the Company at the time. At the 2014 Annual Meeting, the Company's shareholders voted for the election of the slate of directors proposed by Mr. Wise, which resulted in the turnover of a majority of the Company's directors. Following the 2014 Annual Meeting, (a) our incumbent President and Chief Executive Officer voluntarily resigned and we executed an agreement with him which superseded his employment agreement; (b) the new board appointed an Interim President; and (c) we entered into a settlement agreement and mutual release with the Company's former Chief Financial Officer. In connection with the incumbent Chief Executive Officer's departure, we cancelled the month-to-month New York Office Services Agreement at a savings of \$12,700 per month and we cancelled the Investment Management Agreement.

The then-incumbent Board of Directors engaged professional services, including a proxy advisory solicitation service and supplementary legal representation, in order to facilitate the election of and promote its slate of director nominees. Such expenses, which were borne by the Company, significantly increased our 2015 first quarter expenses. In addition, the incumbent team was conducting an accelerated search process to identify attractive acquisition targets and the related financing to fund such acquisitions and the professional services associated with that effort also significantly increased our 2015 first quarter expenses.

Critical Accounting Policies and Estimates

This management's discussion and analysis of financial condition and results of operations is based upon or derived from the unaudited condensed consolidated financial statements included in this Quarterly Report on Form 10-Q, which have been prepared in accordance with accounting principles generally accepted in the United States of America. The preparation of these financial statements requires us to make estimates and assumptions that are believed to be reasonable under the circumstances. There can be no assurance that actual results will not differ from those estimates and such differences could be significant.

We discuss the material accounting policies that are critical in making these estimates and judgments in our Annual Report on Form 10-K for the fiscal year ended September 30, 2014, under the caption "Management's Discussion and Analysis - Critical Accounting Policies and Estimates". There has been no material change in critical accounting policies or estimates since September 30, 2014.

Recent Accounting Pronouncements

In July 2013, the FASB issued ASU 2013-11, "Income Taxes (Topic 740): Presentation of an Unrecognized Tax Benefit When a Net Operating Loss Carryforward, a Similar Tax Loss, or a Tax Credit Carryforward Exists." This ASU addresses the requirements regarding the financial statement presentation of an unrecognized tax benefit within ASC Topic 740 for the purpose of providing consistency between the financial reporting of U.S. GAAP entities. Generally, this ASU provides guidance for the preparation of financial statements and disclosures when a net operating loss carryforward, a similar tax loss, or a tax credit carryforward exists. This ASU is effective for annual periods and interim periods within those annual periods beginning after December 15, 2013 and did not have a material impact on the Company's condensed consolidated financial statements or disclosures.

RESULTS OF OPERATIONS FOR THE 2015 QUARTER COMPARED TO THE 2014 QUARTER

Loss from Continuing Operations

Loss from continuing operations in the 2015 Quarter was \$0.7 million compared to a loss of \$0.3 million in the 2014 Quarter. The 2015 Quarter loss is primarily due to an increase in general and administrative expenses, primarily due to costs associated with litigation costs, settlements with the former CFO and CEO, and, to a lesser extent, a decline in gross profit driven by rising product costs and competitive pricing.

Main Components of Loss from Continuing Operations

(thousands of dollars)

	2015 Quarter		2014 Quarter	Increase (Decrease)
Net sales	\$ 7,247	\$	6,700	\$ 547
Gross profit	1,352		1,404	(52)
Sales and marketing expenses	696		725	(29)
General and administrative expenses	1,337		812	525
Other expense, net	7		149	(142)
Loss from continuing operations	\$ (688)	\$	(282)	\$ (406)

Loss from continuing operations attributable to common shareholders per basic and diluted share was \$0.08 and \$0.04 for the 2015 Quarter and 2014 Quarter, respectively.

Net Sales

Net sales in the 2015 Quarter increased \$0.5 million, or 7%, to \$7.2 million from \$6.7 million in the 2014 Quarter primarily due to higher sales of Other Products and to a lesser extent Diabetic Products. The tables below set forth sales by channel, product line, and geographic location of our customers for the periods indicated:

Net Sales for 2015 Quarter

(millions of dollars)

	APAC	Americas	EMEA	Total*

	APAC	Americas	EMEA	Total*
Diabetic products	\$ 2.4	\$ 1.4	\$ 2.0	\$ 5.8
Other products	0.3	0.5	0.2	0.9
Total net sales	\$ 2.7	\$ 1.9	\$ 2.2	\$ 6.7

*Tables may not total due to rounding.

Diabetic Product Sales

We design to the order of, and sell carrying cases for blood glucose diagnostic kits directly to OEMs (or their contract manufacturers). The OEM customer or its contract manufacturer packages our carry cases in box as a custom accessory for the OEM's blood glucose testing and monitoring kits, or to a lesser extent, sells them through its retail distribution channels.

Sales of Diabetic Products increased \$0.1 million to \$5.9 million in the 2015 Quarter, from \$5.8 million in the 2014 Quarter. This increase was primarily due to higher sales of legacy programs with 3 of our largest Diabetic Products customers (Diabetic customers B, C, and D). The increase was offset, in part, by a decline in sales to a major Diabetic Products' customer (Diabetic customer A) and our other Diabetic Products customers.

The following table sets forth our sales by Diabetic Products customers for the periods indicated:

	(millions of dollars)			
	2015	2014		Increase
	Quarter	Quarter		(Decrease)
Diabetic Customer A	\$ 2.0	\$ 2.3	\$	(0.3)
Diabetic Customer B	0.9	0.8		0.1
Diabetic Customer C	1.9	1.6		0.3
Diabetic Customer D	1.0	0.8		0.2
All other Diabetic Customers	0.0	0.3		(0.3)
Totals*	\$ 5.9	\$ 5.8	\$	0.1

*Tables may not total due to rounding.

Sales of Diabetic Products represented 82% of our total net sales in the 2015 Quarter compared to 86% of our total net sales in the 2014 Quarter.

Other Product Sales

We design and sell cases and protective solutions to OEMs for a diverse array of portable electronic devices (such as bar code scanners, GPS devices, cellular phones, tablets and cameras), as well as a variety of other products (such as sporting and recreational products and firearms) on a made-to-order basis that are customized to fit the products sold by our OEM customers.

Sales of Other Products increased approximately \$0.5 million to \$1.4 million in the 2015 Quarter from approximately \$0.9 million in the 2014 Quarter. The increase was primarily due to a rise in sales to two customers, a barcode scanner customer accounted for \$0.2 million and an electronics device customer accounted for \$0.2 million. Lesser fluctuations in several other customer accounts between 2015 Quarter and 2014 Quarter were not individually material.

Sales of Other Products represented 18% of our net sales in the 2015 Quarter compared to 14% of our total net sales in the 2014 Quarter.

Gross Profit

Gross profit decreased less than \$0.1 million, or 4%, to \$1.4 million in the 2015 Quarter from \$1.4 million in the 2014 Quarter. As a percentage of sales, our gross profit declined to 19% in the 2015 Quarter, compared to 21% in the 2014 Quarter.

The gross profit decrease was driven primarily by a year over year decline in sales margins. In the 2015 Quarter, sales in Europe grew 16% to \$2.5 million and sales in the Americas grew 19% to \$2.2 million. However, Asia-Pacific sales decreased 5% to \$2.7 million. The deterioration in gross profit is mostly due to competitive pricing and rising product costs.

Sales and Marketing Expenses

Sales and marketing expenses decreased \$29 thousand, or 4 %, to \$696 thousand in the 2015 Quarter compared to \$725 thousand in the 2014 Quarter, primarily due to reduced spending on office supplies and computer expenses. A sales office in California was closed for restructuring purposes which also provided for savings to a lesser extent. Fluctuations in other components of Sales and Marketing Expenses were not material individually or in the aggregate.

General and Administrative Expenses

General and administrative expenses increased \$0.5 million, or 65%, to \$1.3 million in the 2015 Quarter from \$0.8 million in the 2014 Quarter, due primarily to the following:

- \$0.4 million increase in professional fees (primarily attorney's fees) related to the legal support and representation surrounding employment litigation and other legal matters;
- \$0.3 million related to the accrual for employment settlements with the separations of the former CFO and CEO; and
- offset in part by a reduction of Share-Based Compensation expense of \$0.1 million and a reduction of salaries and wages of \$0.1 million.

Fluctuations in other components of General and Administrative Expenses were not individually material.

Other Expense

Other expense, net, consisting primarily of realized and unrealized losses on investments in marketable securities and the change in the fair market value of warrant liabilities, was \$7 thousand in the 2015 Quarter compared to \$149 thousand in the 2014 Quarter.

RESULTS OF OPERATIONS FOR THE 2015 PERIOD COMPARED TO THE 2014 PERIOD

(Loss) Income from Continuing Operations

Loss from continuing operations in the 2015 Period was \$2.4 million compared to income of \$65 thousand in the 2014 Period. The 2015 Period loss is primarily due to an increase in general and administrative expenses, primarily due to costs associated with the proxy contest, litigation costs, settlements with the former CFO and CEO, and, to a lesser extent, a decline in gross profit driven by rising product costs and competitive pricing.

	Main Components of (Loss) Income from Continuing Operations (thousands of dollars)

Loss from continuing operations attributable to common shareholders per basic and diluted share was \$0.34 and \$0.01 for the 2015 Period and 2014 Period, respectively.

Net Sales

Net sales in the 2015 Period increased \$0.1 million, or 1 %, to \$15.2 million from \$15.1 million in the 2014 Period primarily due to higher sales of Diabetic Products, which was offset, in part, by lower sales of Other Products. The tables below set forth sales by channel, product line, and geographic location of our customers for the periods indicated:

Diabetic Product Sales

We design to the order of, and sell carrying cases for blood glucose diagnostic kits directly to, OEMs (or their contract manufacturers). The OEM customer or its contract manufacturer packages our carry cases in box as a custom accessory for the OEM's blood glucose testing and monitoring kits, or to a lesser extent, sell them through their retail distribution channels.

Sales of Diabetic products increased \$0.5 million, to \$12.7 million in the 2015 Period, from \$12.2 million in the 2014 Period. This increase was primarily due to higher sales of legacy programs to 3 major diabetic customers (Diabetic Customer A, Diabetic Customer C, and Diabetic Customer D). The increase was offset, in part, by a decline in sales of legacy programs to a major Diabetic Products customer (Diabetic customer B) and our other Diabetic Products customers.

The following table sets forth our sales by Diabetic Products customer for the periods indicated.

	(millions of dollars)		
	2015	2014	Increase
	Period	Period	(Decrease)
Diabetic Customer A	\$ 4.8	\$ 4.6	\$ 0.2
Diabetic Customer B	1.7	2.0	(0.3)
Diabetic Customer C	3.9	3.1	0.8
Diabetic Customer D	2.3	2.0	0.3
All other Diabetic Customers	0.1	0.5	(0.4)

*Tables may not total due to rounding.

Sales of carrying cases for blood glucose monitoring kits represented 84% and 81% of our total net sales in the 2015 Period and 2014 Period, respectively.

Other Product Sales

We design and sell cases and protective solutions to OEMs for a diverse array of portable electronic devices (such as smartphones, tablets, GPS devices, and bar code scanners), as well as a variety of other products (such as firearms, sporting, and other recreational products) on a made-to-order basis that are customized to fit the products sold by our OEM customers.

Sales of Other Products decreased approximately \$0.4 million to \$2.5 million in the 2015 Period from \$2.9 million in the 2014 Period. This decrease was primarily due to a \$0.3 million decline in sales to a GPS customer, which contributed \$0.2 million to net sales in the 2015 Period. In addition, a \$0.2 million decline in sales to both a recreational products customer and a camera customer, which contributed \$0.2 million and \$0.3 million, respectively, to net sales in the 2015 Period, also contributed to the decrease in Other Products sales. These declines were offset, in part, by an increase in sales to an electronics devices customer of \$0.3 million, which contributed \$0.3 million to net sales in the 2015 Period. Lesser fluctuations in several other customer accounts between 2015 Period and 2014 Period were not individually material.

Sales of Other Products represented 16% and 19% of our net sales in the 2015 Period and 2014 Period, respectively.

Gross Profit

Gross profit decreased \$0.3 million, or 10%, to \$2.9 million in the 2015 Period from \$3.2 million in the 2014 Period. As a percentage of sales, our gross profit declined to 19% in the 2015 Period, compared to 21% in the 2014 Period.

The gross profit decrease was driven primarily by a year over year decline in sales margins. In the 2015 Period, sales in Europe grew 9% to \$5.2 million. However, Americas sales decreased 5% to \$5.8 million and Asia-Pacific sales decreased 4% to \$4.2 million. The deterioration in gross profit is mostly due to competitive pricing and rising product costs.

Sales and Marketing Expenses

Sales and marketing expenses increased \$0.1 million, or 3%, to \$1.4 million in the 2015 Period compared to \$1.3 million in the 2014 Period. This increase was primarily due to higher personnel costs, and higher travel and

entertainment costs. Personnel costs increased \$20 thousand, or 2%, in the 2015 Period primarily as a result of the accrual for severance packages for the individuals affected by the reduction in workforce. Travel and entertainment expenses increased \$20 thousand, or 13%, in the 2015 Period primarily due to increased intercontinental travel for sales support and development. Increases in other components of Sales and Marketing Expenses were not material, individually, or in the aggregate.

General and Administrative Expenses

General and administrative expenses increased \$2.1 million, or 128% to \$3.8 million in the 2015 Period from \$1.7 million in the 2014 Period due primarily to the following:

- \$1.4 million increase in professional fees (primarily attorney's fees) related to the legal support and representation surrounding the proxy defense, employment litigation and other legal matters;
- \$0.9 million related to the employment settlements with the separations of the former CFO and CEO; and
- offset in part by a reduction of Share-Based Compensation expense of \$0.1 million and a reduction of salaries and wages of \$0.2 million.

Fluctuations in other components of General and Administrative Expenses were not individually material.

Other Expense

Other expense, net, consisting primarily of realized and unrealized losses on investments in marketable securities and the change in the fair market value of warrant liabilities, was \$117 thousand in the 2015 Period compared to \$174 thousand in the 2014 Period.

RESULTS OF DISCONTINUED OPERATIONS FOR THE 2015 PERIOD COMPARED TO THE 2014 PERIOD

Income from discontinued operations was \$199 thousand in the 2015 Period compared to a loss of \$14 thousand in the 2014 Period. In the 2015 Period, we assigned our rights to a judgment against G-Form for a cash payment of \$0.2 million.

LIQUIDITY AND CAPITAL RESOURCES

Our primary potential sources of liquidity are our operations and financing activities. The primary go forward demands on our working capital should be: i) operating losses, should they occur, and ii) accounts receivable and inventories arising in the ordinary course of business. Historically, our sources of liquidity have been adequate to satisfy working capital requirements arising in the ordinary course of business. We anticipate that our liquidity and financial resources for the next twelve months will be adequate to manage our operating and financial requirements.

However, in the near term, we anticipate having to fund approximately \$0.3 million of remaining severance and related benefits to our former CEO and former CFO.

At March 31, 2015, our current ratio (current assets divided by current liabilities) was 2.4; our quick ratio (current assets less inventories divided by current liabilities) was 1.9; and our working capital (current assets less current liabilities) was \$6.5 million. As of such date, we had no short or long-term debt outstanding.

During the six months ended March 31, 2015 and 2014, our sources and use of cash were as follows:

Cash Flows from Operating Activities

During the 2015 Period, we used \$3.4 million of cash from operations, which is derived from a net loss of \$2.2 million, offset by \$0.1 million for non-cash credits, plus net cash used in working capital items of \$1.3 million. Cash used for working capital items consisted primarily of pay downs of accounts payable, accrued expenses and other current liabilities (including due to Forward China) of \$1.8 million, partially offset by an increase in accounts receivable of \$0.5 million.

During the 2014 Period, we used \$0.3 million of cash in operations, which consisted of net income of \$50 thousand, supplemented by \$0.3 million of non-cash credits (primarily change in the fair value of the warrant liability and share based compensation), and a net use of cash for working capital items of \$0.6 million. Cash used for working capital items consisted of a pay down of accounts payable of \$0.4 million, plus increases in accounts receivable and inventories of \$0.2 million and \$60 thousand, respectively.

Cash Flows from Investing Activities

In the 2015 Period, net cash provided by investing activities was \$0.9 million, which was primarily related to the liquidation of marketable equity securities due to the cancellation of the Investment Management Agreement.

In the 2014 Period, net investing activities used \$0.2 million, which primarily consisted of \$5.4 million used for purchases of marketable equity securities and \$5.2 million generated from sales of marketable equity securities.

Cash Flows from Financing Activities

In the 2015 Period, net financing activities used \$1.3 million, which primarily consisted of \$1.3 million used to fully redeem the 6% Senior Convertible Preferred Stock.

In the 2014 Period, net financing activities used \$38 thousand to pay dividends on the 6% Senior Convertible Preferred Stock.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

ITEM 4. CONTROLS AND PROCEDURES

Our management is responsible for establishing and maintaining a system of disclosure controls and procedures (as defined in Rule 13a-15(e) under the Exchange Act) that is designed to ensure that information required to be disclosed by the Company in the reports that we file or submit under the Exchange Act is recorded, processed, summarized and reported, within the time periods specified in the Commission's rules and forms. Disclosure controls and procedures include, without limitation, controls and procedures designed to ensure that information required to be disclosed by an issuer in the reports that it files or submits under the Exchange Act is accumulated and communicated to the issuer's management, including its principal executive officer or officers and principal financial officer or officers, or persons performing similar functions, as appropriate to allow timely decisions regarding required disclosure.

In accordance with Exchange Act Rule 13a-15(b), our management, under the supervision and with the participation of our Principal Executive and Financial Officer, performed an evaluation of the effectiveness of the Company's disclosure controls and procedures as of the fiscal quarter covered by this Quarterly Report on Form 10-Q. Based on that evaluation, the Company's Principal Executive and Financial Officer concluded that the Company's disclosure controls and procedures were effective, as of the end of the 2015 Quarter, to provide reasonable assurance that information required to be disclosed in the Company's reports filed or submitted under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the Commission's rules and forms.

Changes in Internal Control

Our management, with the participation of our Principal Executive and Financial Officer, performed an evaluation required by Rule 13a-15(d) of the Exchange Act as to whether any change in our internal control over financial reporting (as defined in Rule 13a-15(f) under the Exchange Act) occurred during the 2015 Period. Based on that evaluation, our Principal Executive and Financial Officer concluded that there were no changes in our internal control over financial reporting during the 2015 Period.

Limitations of the Effectiveness of Controls and Procedures

A control system, no matter how well conceived and operated, can provide only reasonable, not absolute, assurance that the objectives of the control system are met. Because of the inherent limitations of any control system, no evaluation of controls can provide absolute assurance that all control issues, if any, within a company have been detected.

PART II. OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

From time to time, we may become a party to legal actions or proceedings in the ordinary course of business. As of March 31, 2015, there were no other such actions or proceedings, either individually or in the aggregate, other than described below, that we believe would be material to our business, if decided adversely to our interests.

On July 15, 2014, Terence Bernard Wise, one of our directors, filed a derivative complaint in Supreme Court of the State of New York, New York County, against then-directors (now former directors) Frank LaGrange Johnson, Robert Garrett, John F. Chiste, Timothy Gordon and Owen P.J. King, also naming us as a nominal defendant, alleging breaches of fiduciary duty and seeking declaratory and injunctive relief (both preliminary and final), including a temporary restraining order ("TRO"), preventing our now-former Board from pursuing any extraordinary action that would alter our capital structure without shareholder approval. The court rejected Mr. Wise's request for a TRO and Mr. Wise then withdrew his request for preliminary injunctive relief. Mr. Wise subsequently amended his complaint to add additional allegations of breach of fiduciary duties and allegations of breach of director duties under various provisions of New York's Business Corporation Law. On April 13, 2015, upon motion submitted by our counsel and counsel to Mr. Wise, the First Department issued a stipulation and order of discontinuance with prejudice to dismiss this case.

On August 26, 2014, James McKenna, our former Chief Financial Officer, filed a lawsuit in the U.S. District Court for the Southern District of New York against us and our then-directors (now former directors) Frank LaGrange Johnson, Robert Garrett John F. Chiste, Timothy Gordon and Owen P.J. King, asserting retaliation and whistleblowing claims under the Dodd-Frank Act, and claims for breach of contract and breach of the covenant of good faith and fair dealing against us, and a single claim for tortious interference with contract against the individual defendants.

On February 16, 2015, we entered into a settlement agreement and mutual release (the Settlement Agreement) with Mr. McKenna in connection with this lawsuit. Pursuant to the Settlement Agreement, we agreed with Mr. McKenna to settle and release all disputes or claims against each other related to the lawsuit and any such disputes or claims arising out of Mr. McKenna's employment with us, without an admission of liability or wrongdoing. Under the Settlement Agreement, Mr. McKenna received a cash payment of \$315,000, representing 18 months' salary at the rate specified in Mr. McKenna's Amended Employment Agreement, signed between us and Mr. McKenna and dated October 26, 2012. Mr. McKenna also received approximately \$375,000 in legal fees, back pay, prior out-of-pocket benefits, taxes and penalties on his 401(k) loan, and accrued paid time off, in addition to 35,000 restricted stock units vesting immediately. The Settlement Agreement includes customary non-disparagement and release provisions.
