(5) Stock-based Compensation:

The Company accounts for stock-based compensation to employees using the intrinsic value method. Accordingly, compensation cost for stock options to employees is measured as the excess, if any, of the quoted market price of the Company's common stock at the date of the grant over the amount an employee must pay to acquire the stock.

The following table illustrates the effect on net income and earnings per share if the Company had applied the fair value recognition provisions of FASB Statement No. 123, Accounting for Stock-Based Compensation, to stock-based employee compensation.

		Nine Mor Septer		er 30,

The fair value of these options was estimated at the date of grant using the Black-Scholes option-pricing model with the following weighted average assumptions used for grants after 1998, expected volatility of 70% to 96%, risk-free rate of 3.9% to 6.6%, no dividend yield and expected life of 5 to 8 years.

Item 2.

MANAGEMENT'S DISCUSSION AND ANALYSIS OR PLAN OF OPERATION Results of Operations

Quarter ended September 30, 2004 vs 2003:

Sales for the third quarter of 2004 increased by \$ 789,778 or 14.5% when compared to the corresponding quarter of 2003. This was the result of a \$ 209,447 increase in jewelry sales and a \$ 580,331 increase in precious metals sales. These changes were due to a nation-wide improvement in the retail environment and price increases in precious metal products. Pawn service fees increased by 46.1% due to an increase in loan volume. Cost of sales increased primarily due to the increase in sales. Gross margins decreased from 21.4% in 2003 to 20.32% in 2004 due to the increase in sales of precious metal products. Selling, general and administrative expenses increased \$ 102,163 or 11.5% during the 2004 quarter due primarily to higher payroll and related cost.

Income taxes are provided at the corporate rate of 34% for both 2004 and 2003

Loss from discontinued operations during 2004 and 2003 in the amount of \$ 73,864 and \$ 58,239 net of income taxes is the combined results of three subsidiaries of the Company, DLS Financial Services, Inc., eye media, inc. and Silverman Consultants, Inc. The operations of these companies have been discontinued.

Nine months ended September 30, 2004 vs 2003:

Sales for the nine months ended September 30, 2004 increased by \$ 2,939,456 or 18.1% when compared to the corresponding period of 2003. This was the result of a \$ 1,573,869 increase in jewelry sales and a \$ 1,365,587 increase in precious metals sales. These changes were due to a nation-wide improvement in the retail environment and price increases in precious metal products. Pawn service fees increased by 25.2% due to an increase in loan volume. Cost of sales increased primarily due to the increase in sales. Gross margins were 19.7% in 2003 compared to 19.6% in 2004. Selling, general and administrative expenses increased \$ 169,471 or 6.5% for the first nine months of 2004 due primarily to higher payroll and related costs.

Income taxes are provided at the corporate rate of 34% for both 2004 and 2003

Loss from discontinued operations during 2004 and 2003 in the amount of \$ 151,965 and \$ 117,042 net of income taxes is the combined results of three subsidiaries of the Company, DLS Financial Services, Inc., eye media, inc. and Silverman Consultants, Inc. The operations of these companies have been discontinued.

Liquidity and Capital Resources

The Company's short-term debt totaled \$2,782,603 as of September 30, 2004. The ability of the Company to finance its operations and working capital needs are dependent upon management's ability to negotiate extended terms or refinance its short-term debt. The Company has historically renewed, extended or replaced short-term debt as it matures and management believes that it will be able to do so in the future as short-term debt matures.

Management of the Company expects capital expenditures to total approximately \$50,000 during the balance of 2004. It is anticipated that these expenditures will be funded from working capital.

From time to time, management has adjusted the Company's inventory levels to meet seasonal demand or in order to meet working capital requirements. Management is of the opinion that if additional working capital is required, additional loans can be obtained from individuals or from commercial banks. If necessary, inventory levels may be adjusted or a portion of the Company's investments in marketable securities may be liquidated in order to meet working capital requirements.
