#### SELECTED PRO FORMA CONSOLIDATED FINANCIAL INFORMATION

Effective July 1, 2009, Commercial Mutual Insurance Company ("CMIC") converted (demutualized) from an advance premium cooperative insurance company to a domestic stock property and casualty insurance company. Upon the effectiveness of the conversion, CMIC's name was changed to Kingstone Insurance Company ("KICO"). As of June 30, 2009, Kingstone held two surplus notes issued by CMIC in the aggregate principal amount of \$3,750,000. Previously accrued and unpaid interest on the notes as of June 30, 2009 was approximately \$2,246,000. Pursuant to the plan of conversion, Kingstone acquired a 100% equity interest in KICO in consideration of the exchange of the \$3,750,000 principal amount of surplus notes of CMIC. In addition, Kingstone forgave all accrued and unpaid interest of \$2,246,000 on the surplus notes as of the date of conversion.

The following unaudited condensed consolidated pro forma financial information consolidates the historical consolidated statements of income and consolidated balance sheet of Kingstone and the historical consolidated statements of income and consolidated balance sheet of KICO. These historical financial statements were prepared in conformity with accounting principles generally accepted in the United States of America ("GAAP"). The unaudited condensed consolidated pro forma financial information has been prepared using the assumptions described in the notes thereto.

The unaudited condensed consolidated pro forma financial information below should be read in conjunction with the notes thereto and the historical consolidated financial statements of Kingstone included in its Annual Report on Form 10-K for the year ended December 31, 2008 and Quarterly Report on Form 10-Q for the six months ended June 30, 2009. This unaudited condensed consolidated pro forma financial information is presented for informational purposes only and is not necessarily indicative of the financial position or results of operations of the consolidated company that would have actually occurred had the acquisition been effective during the periods presented or of the future financial position or future results of operations of the consolidated company. The consolidated financial information as of June 30, 2009 and December 31, 2008 and for the periods presented may have been different had the companies actually been consolidated as of that date or during those periods due to, among other factors, possible revenue enhancements, expense efficiencies and integration costs. Additionally, as discussed in Note 1, the actual allocation of the purchase price to the acquired assets and liabilities may vary materially from the assumptions used in preparing the unaudited condensed consolidated pro forma financial information.

# Kingstone Companies, Inc. Notes to Unaudited Condensed Consolidated Pro Forma Financial Statements

#### 1. BASIS OF PRESENTATION

The unaudited condensed consolidated pro forma financial information gives effect to the acquisition as if it had occurred on June 30, 2009 and December 31, 2008 for the purposes of the unaudited condensed consolidated pro forma balance sheet at June 30, 2009 and December 31, 2008, and at January 1, 2009 and 2008 for the purposes of the unaudited condensed consolidated pro forma statements of income for the six months ended June 30, 2009 and the year ended December 31, 2008. The unaudited condensed consolidated pro forma financial information has been prepared by the Company's management and is based on Kingstone's historical consolidated financial statements and CMIC's historical consolidated financial statements. Certain amounts from the Company's historical consolidated financial statements have been reclassified to conform to the CMIC presentation.

This unaudited condensed consolidated pro forma financial information is prepared in conformity with GAAP. The unaudited condensed consolidated pro forma balance sheets as of June 30, 2009 and December 31, 2008, and the unaudited condensed consolidated pro forma statements of income for the year ended December 31, 2008 and the six months ended June 30, 2009, have been prepared using the following information:

- a. Unaudited historical consolidated financial statements of Kingstone as of June 30, 2009 and for the six months ended June 30, 2009:
- b. Unaudited historical consolidated financial statements of CMIC as of June 30, 2009 and for the six months ended June 30, 2009;
  - c. Audited historical consolidated financial statements of Kingstone for the year ended December 31, 2008;
  - d. Audited historical consolidated financial statements of CMIC for the year ended December 31, 2008; and
- e. Such other supplementary information as considered necessary to reflect the acquisition in the unaudited pro forma condensed consolidated financial information

The pro forma adjustments reflecting the acquisition of KICO under the purchase method of accounting are based on certain estimates and assumptions. The fair value of CMIC's assets and liabilities have been valued by an independent appraiser as of June 30, 2009. The final allocation of the purchase price may differ as a result of the realization of assets and estimates used in the calculation of loss reserves. Therefore, it is likely that the actual adjustments may differ from the pro forma adjustments and it is possible the differences may be material. Kingstone's management believes that its assumptions provide a reasonable basis for presenting all of the significant effects of the acquisition of KICO and that the pro forma adjustments give appropriate effect to those assumptions and are properly applied in the unaudited pro forma condensed consolidated financial information.

The unaudited condensed consolidated pro forma financial information does not include the anticipated financial benefits or expenses from such items as expense efficiencies or revenue enhancements arising from the acquisition nor does the unaudited condensed consolidated pro forma financial information include restructuring and integration costs to be incurred by Kingstone.

The unaudited condensed consolidated pro forma financial information is not intended to reflect the results of operations or the financial position that would have resulted had the acquisition been effected on the dates indicated and if the companies had been managed as one entity. The unaudited condensed consolidated pro forma financial information should be read in conjunction with the historical consolidated financial statements of Kingstone included in Kingstone's Annual Report on Form 10-K for the year ended December 31, 2008 and unaudited consolidated financial statements of Kingstone included in Kingstone's Quarterly Report on Form 10-Q for the six months ended June 30, 2009, as well as the historical consolidated financial statements of CMIC.

#### 2. PURCHASE PRICE AND FINANCING CONSIDERATIONS

As of June 30, 2009, Kingstone held two surplus notes issued by CMIC in the aggregate principal amount of \$3,750,000. Previously accrued and unpaid interest on the notes as of June 30, 2009 was \$2,246,461. Pursuant to the plan of CMIC's conversion (demutualization), Kingstone acquired a 100% equity interest in KICO in consideration of the exchange of the \$3,750,000 principal amount of surplus notes of CMIC. In addition, Kingstone forgave all accrued and unpaid interest of \$2,246,461 on the surplus notes as of the date of conversion. The aggregate purchase price of \$5,996,461 was less than the \$11,398,321 fair value of KICO's net assets acquired, resulting in a bargain purchase of \$5,401,860. Transaction costs related to acquisition were expensed as incurred.

#### Allocation of Purchase Price (a):

Purchase Price	\$5,996,461
Book value of CMIC at June 30, 2009	2,010,171
Conversion of surplus notes to common stock	5,996,461
Fair value adjustments, net of taxes based on appraisal	
of CMIC's identifiable assets at June 30, 2009	3,391,689
Fair value of net assets acquired, net of taxes	11,398,321
Excess of fair value of assets acquied over purchase price (bargain purchase price)	\$(5,401,860)

(a) The purchase price is allocated to balance sheet assets acquired (including identifiable intangible assets arising from the acquisition) and liabilities assumed based on their estimated fair value. The fair value adjustments to the CMIC historical consolidated balance sheet in connection with the acquisition are described below in Note 3.
