Item 8.01 Other Events.

Chicago Bridge & Iron Company N.V. (the “Company” or “CB&I”) is filing this Current Report on Form 8-K to reflect the impact on the Company’s Form 10-K for the year ended December 31, 2016 (the “2016 Form 10-K”) of treating the Company’s Capital Services Operations and Technology Operations as discontinued operations.

Discontinued Operations—On February 27, 2017, the Company entered into a definitive agreement to sell its “Capital Services Operations” (primarily comprised of the Company’s former Capital Services reportable segment). The Capital Services Operations provided comprehensive and integrated maintenance services, environmental engineering and remediation, construction services, program management, and disaster response and recovery services for private-sector customers and governments. The Company completed the sale of the Capital Services Operations on June 30, 2017. The Company considered the Capital Services Operations to be a discontinued operation in the first quarter of 2017, as the divestiture represented a strategic shift and would have a material effect on its operations and financial results.

In July 2017, the Company initiated a plan to market and sell its “Technology Operations” (primarily comprised of its former Technology reportable segment and its “Engineered Products Operations”, representing a portion of its Fabrication Services reportable segment). The Technology Operations provides proprietary process technology licenses and associated engineering services, catalysts and engineered products, primarily for the petrochemical and refining industries, and offers process planning and project development services and a comprehensive program of aftermarket support. The Company considered the Technology Operations to be a discontinued operation in the third quarter 2017 as the anticipated divestiture represented a strategic shift and would have a material effect on its operations and financial results.

McDermott/CB&I Combination—On December 18, 2017, the Company entered into a business combination agreement (the “Combination Agreement”) with McDermott International, Inc. (“McDermott”) to combine in an all-stock transaction whereby McDermott stockholders will own approximately 53% of the combined company and the Company’s shareholders will own approximately 47% (the “Combination”). Under the terms of the Combination Agreement, the Company’s shareholders would be entitled to receive 2.47221 shares of McDermott common stock for each share of the Company’s common stock (or 0.82407 shares if McDermott effects a planned three-to-one reverse stock split prior to closing), together with cash in lieu of fractional shares and subject to any applicable withholding taxes. As a result of the Combination Agreement, on December 18, 2017, the Company amended its senior credit facilities to, among other things, allow the Company to suspend its previous plan to market and sell its Technology Operations and allow for the Combination. Although the Company has suspended its plan to sell the Technology Operations, such operations are presented as a discontinued operation for purposes of this recast 2016 Form 10-K information because the Combination Agreement was effected subsequent to the filing of the Company’s Form 10-Q for the quarter ended September 30, 2017 (the “2017 Third Quarter Form 10-Q”) and this recast information is being provided prior to the filing of the Company’s Form 10-K for the year ended December 31, 2017 (the “2017 Form 10-K”). The Company anticipates the Technology Operations will be presented as a continuing operation in its 2017 Form 10-K.

Revised 2016 Form 10-K Sections—The following items of the 2016 Form 10-K are being revised (collectively, the “Revised Sections”) as reflected in Exhibit 99.1 to this Current Report on Form 8-K:

Part II, Item 6. Selected Financial Data;

Part II, Item 7. Management’s Discussion and Analysis of Financial Condition and Results of Operations; and

Part II, Item 8. Financial Statements and Supplementary Data.

The Revised Sections are revised only to reflect the Company’s results as if the discontinued operations criteria for the Capital Services Operations and Technology Operations had been met during the periods being presented. With exception of the subsequent events footnote to the Company’s financial statements within the revised Part II, Item 8, the Revised Sections do not reflect events occurring after the filing of the Company’s 2016 Form 10-K and do not modify or update the disclosures therein in any way, other than as specifically required to reflect the discontinued operations presentation. Further, the revisions do not purport to update the Management’s Discussion and Analysis of Financial Condition and Results of Operations, including the consolidated Company outlook, contained in the 2016 Form 10-K, for any information, uncertainties, transactions, risks, events or trends occurring, or known to management, other than for the changes based on the discontinued operations. Other than the Revised Sections filed

with this Current Report on Form 8-K, all other information in the 2016 Form 10-K remains unchanged and has not been otherwise updated for events occurring after the filing of the 2016 Form 10-K and continues to speak only as of the original filing date.

More recent information, including Risk Factors and Forward-Looking Statements, is contained in the Company's 2017 Third Quarter Form 10-Q and other filings made by the Company with the SEC. These SEC filings contain important information regarding events, developments and updates affecting the Company and its expectations, including those that have occurred since the filing of the 2016 Form 10-K. Accordingly, the revised Management's Discussion and Analysis of Financial

Condition and Results of Operations should be read in conjunction with these revised Financial Statements and related notes thereto, the 2016 Form 10-K, the 2017 Third Quarter Form 10-Q, and other filings made by the Company with the SEC.
