(c) Exhibits

99.1 News Release dated October 24, 2002

ITEM 9. REGULATION FD DISCLOSURE

The information in this document includes forward-looking statements that are made pursuant to the Safe Harbor Provisions of the Private Securities Litigation Reform Act of 1995. Forward-looking statements, and the business prospects of Pioneer Natural Resources Company (the "Company"), are subject to a number of risks and uncertainties which may cause the Company's actual results in future periods to differ materially from the forward-looking statements. These risks and uncertainties include, among other things, volatility of oil and gas prices, product supply and demand, competition, international operations and associated international political and economic instability, government regulation or action, litigation, the costs and results of drilling and operations, the Company's ability to replace reserves or implement its business plans, access to and cost of capital, uncertainties about estimates of reserves, quality of technical data, and environmental risks. These and other risks are described in the Company's 2001 Annual Report on Form 10-K and Quarterly Reports on Form 10-Q that are available from the Company or the Securities and Exchange Commission.

Within this Current Report on Form 8-K, the following oil and gas terms have specific meanings: "Bbl" means a standard barrel of 42 United States gallons; "MMBtu" means one million British thermal units; "Mcf" means one thousand cubic feet and is a measure of gas volume; and, "NYMEX" means The New York Mercantile Exchange.

On October 24, 2002, the Company issued a news release that is attached hereto as exhibit 99.1. The news release announced the Company's financial and operating results for the three and nine month periods ended September 30, 2002,

Edgar Filing: PIONEER NATURAL RESOURCES CO - Form 8-K

and provides an operational update, the Company's fourth quarter 2002 financial outlook, based on current expectations, and supplemental commodity hedge information.

The following table summarizes, as of October 24, 2002, the Company's (i) open oil hedge positions, (ii) open gas hedge positions and (iii) deferred gains and losses on terminated commodity hedges. Deferred gains and losses on terminated commodity hedges will be recognized as increases or decreases to the oil or gas revenues of the periods in which the hedges were originally scheduled to mature.

3
