**AMERICAN PETRO-HUNTER INC.****Notes to the financial statements**

**For the three months ended March 31, 2005**

**1. BASIS OF PRESENTATION AND GOING CONCERN**

The accompanying unaudited financial statements have been prepared by the Company pursuant to the rules and regulations of the Securities and Exchange Commission ("SEC") and, in the opinion of management, include all adjustments (consisting of normal recurring accruals) necessary for fair presentation of financial position, results of operations and cash flows for the interim periods. Certain information and footnote disclosures normally included in financial statements prepared in accordance with United States generally accepted accounting principles have been condensed or omitted pursuant to the rules and regulations of the SEC. The Company believes that the disclosures contained herein are adequate to make the information presented not misleading. The statements of operations for the three months ended March 31, 2005 are not necessarily indicative of the results to be expected for the full year. These unaudited financial statements should be read in conjunction with the audited financial statements and accompanying notes included in the Company's 2004 Annual Report on Form 10-KSB for the year ended December 31, 2004.

As of March 31, 2005, the Company has not reached a level of operations which would finance day-to day activities. These financial statements have been prepared on the assumption that the Company is a going concern, meaning it will continue in operation for the foreseeable future and will be able to realize assets and discharge liabilities in the ordinary course of operations. Different bases of measurement may be appropriate when a company is not expected to continue operations for the foreseeable future. The Company's continuation as a going concern is dependent upon its ability to attain profitable operations and generate funds therefrom and/or raise equity capital or borrowings sufficient to meet current and future obligations. The Company incurred losses from operations of \$14,212 and \$5,100 for the three month periods ended March 31, 2005 and 2004 respectively. The Company had working capital deficiencies of \$332,822 as of March 31, 2005 and \$177,133 as of March 31, 2004. These conditions give rise to substantial doubt about the Company's ability to continue as a going concern.

The Company entered into a promissory note financing of \$50,000 at an interest rate of 10% per annum. The holders of the promissory notes at their option are entitled at any time commencing one year after the closing date until maturity, to convert any or all of the principal amounts of the notes (including interest) into common stock of the Company at \$0.05 per share. In addition, the holders of the promissory notes will receive 1,000,000 share purchase warrants to purchase common stock of the Company until February 25, 2008 at \$0.15 per share. To date the Company has received \$25,000 of this financing.

4.

#### **DEFERRED COMPENSATION**

On March 5, 2004, the Company issued 465,000 shares of the Company's common stock, valued at \$0.12 per share, being the fair value at the time of issuance, totalling \$57,000 to the Company's directors and attorney for services provided. As of March 31, 2005, total fees and expenses charged to these shares was \$54,254 (March 31, 2004 - \$40,554). #### **COMPARATIVE FIGURES**

Certain comparative figures have been reclassified to conform with the current quarter's presentation.

Item 2 - Management Discussion and Analysis

(a) Liquidity

The Company is experiencing illiquidity and has been dependent upon shareholders and directors to provide funds to maintain its activities. At March 31, 2005, the balance of funds loaned by the shareholders amounted to \$33,004, which is included in accounts payable. In addition, two directors advanced \$14,647 to the Company, of which \$3,796 was repaid during the quarter ended March 31, 2005, leaving a balance owing to directors of \$9,888, which is included in accounts payable. There are no specific terms of repayment.

(b) Capital Resources

The Company had a working capital deficiency of \$332,822 at March 31, 2005. As noted above, the Company is receiving funding from shareholders and directors.

(c) Results of Operations

For the three-month period ended March 31, 2005, the Company incurred a net loss of \$14,212.

Administration expenses for the three-month period amounted to \$14,212 compared to \$5,100 in the same period of 2004. mainly due to timing differences in completion of year-end financial statements, as the 2004 statements and 10KSB were filed in late April, 2004, so that accounting, legal and other expenses related thereto were primarily recorded in the second quarter of 2004. The Company also recorded larger foreign exchange gains and adjustments in the 2004 first quarter, due to fluctuations in exchange rates for expenses denominated in Canadian dollars.

(d) Stock Options

During the 2005 three-month period, 3,000 stock options to purchase shares of the Company were cancelled. The Company currently has 800,000 stock options outstanding priced at \$0.15 with an expiry date of October 31, 2006.
