Explanatory note: This amendment is being filed to update information regarding the anticipated scope of a restructuring plan announced in April 2009, including a reduction in our estimate of the charges for the restructuring plan.

Item 2.05 Costs Associated with Exit or Disposal Activities.

On April 30, 2009, we filed a Current Report on Form 8-K to report that, on April 29, 2009, we had committed to a business restructuring plan intended to reduce our operating cost structure over the remainder of 2009. These reductions were intended to help us realize a profitable annualized business model reflecting significantly reduced operating costs in line with revenue expectations driven by current economic conditions.

Under the business restructuring plan announced on April 30, 2009, we expected to reduce our global work force by approximately 12%, affecting most areas of the company. The charges for the restructuring plan were expected to be in a pre-tax range of \$15.0 million to \$17.0 million, all to be charged in 2009. We anticipated that substantially all of the costs would be severance related and would be cash expenditures.

We now expect that, under this restructuring plan, we will reduce our global work force by approximately 10%, affecting most areas of the company. We expect the total charges for the restructuring plan, as modified by this change, to be in a pre-tax range of \$11.0 million to \$13.0 million. We have recorded approximately \$9.5 million through the third quarter of 2009. We expect approximately \$2.0 million to be recorded in the fourth quarter of 2009, with the remainder expected to be recorded in the first quarter of 2010.

Item 7.01 Regulation FD Disclosure.

In Item 2.05 above, we updated our disclosure regarding a restructuring plan relating to a reduction of our global work force, as described more fully in Item 2.05 above. In Item 2.05, also we updated the anticipated pre-tax restructuring costs expected to result from the actions described in Item 2.05.

When completed, we estimate that the actions described in Item 2.05 of this Current Report are expected to result in annualized cost savings of approximately \$17 million to \$19 million. These savings would be in addition to the annualized savings of approximately \$14 million to \$16 million expected to result from the restructuring plan announced in January 2009 relating to our sales organization and other business functions, announced on January 8, 2009, and reported in a Current Report on Form 8-K filed on that date.
