PART I

Item 1. Description of Business.

Business Development.

Organization and Charter Amendments.

Energrouop Technologies Corporation, (the "Company"), was incorporated under

Edgar Filing: ENERGROUP TECHNOLOGIES CORP - Form 10KSB

the laws of the State of Utah on March 21, 1985, under the name of Great Lakes Funding, Inc.

The Company's initial authorized capital was \$50,000.00, consisting of 50,000,000 shares of one mill (\$.001) par value common voting stock.

On January 9, 1986, the Articles of Incorporation were amended to change the name from Great Lakes Funding, Inc., to Energroup Technologies Corporation.

On October 1, 1999, the Articles of Incorporation were amended to reflect a 20 to 1 reverse split of the Company's issued and outstanding common stock, while retaining the current authorized capital and par value, with appropriate adjustments in the stated capital accounts and capital surplus accounts; provided, however, that no stockholder, computed on a per stock certificate or record basis on the effective date hereof, currently owning 100 or more shares was reduced to less than 100 shares as a result of the reverse split and that no stockholder owning less than 100 shares, on the per stock certificate or record basis on the effective date hereof, was affected by the reverse split.

Material Changes in Control Since Inception and Related Business History.

Business.

The Company was engaged in the manufacturing of interfacing devices used in microprocessors-based control systems for heating, ventilation and air conditioning systems. These operations proved unsuccessful, and the Company ceased such operations over ten years ago.

Other than the above-referenced matters and seeking and investigating potential assets, property or businesses to acquire, the Company has had no material business operations for over ten years. The Company may begin the search for the acquisition of assets, property or business that may benefit the Company and its stockholders, once the Board of Directors sets guidelines of industries in which the Company may have an interest.

The Company is unable to predict the time as to when and if it may actually participate in any specific business endeavor, and will be unable to do so until it determines the particular industries to the Company.

Risk Factors.

In any business venture, there are substantial risks specific to the particular enterprise which cannot be ascertained until a potential acquisition, reorganization or merger candidate has been identified; however, at a minimum, the Company's present and proposed business operations will be highly speculative and be subject to the same types of risks inherent in any new or unproven venture, and will include those types of risk factors outlined below.

Extremely Limited Assets; No Source of Revenue. The Company has virtually no assets and has had no revenue for over the past ten years or to the date hereof. Nor will the Company receive any revenues until it completes an acquisition, reorganization or merger, at the earliest. The Company can provide no assurance that any acquired business will produce any material revenues for the Company or its stockholders or that any such business will operate on a profitable basis. Although management intends to apply any proceeds it may receive through the issuance of stock or debt to a suitable acquisition, subject to the criteria identified above, such proceeds will not otherwise be designated for any more specific purpose. The Company can provide no assurance that any use

Edgar Filing: ENERGROUP TECHNOLOGIES CORP - Form 10KSB

or allocation of such proceeds will allow it to achieve its business objectives.

Absence of Substantive Disclosure Relating to Prospective Acquisitions. Because the Company has not yet identified any assets, property or business that it may acquire, potential investors in the Company will have virtually no substantive information upon which to base a decision whether to invest in the Company. Potential investors would have access to significantly more information if the Company had already identified a potential acquisition or if the acquisition target had made an offering of its securities directly to the public. The Company can provide no assurance that any investment in the Company will not ultimately prove to be less favorable than such a direct investment.

Unspecified Industry and Acquired Business; Unascertainable Risks. To date, the Company has not identified any particular industry or business in which to concentrate its acquisition efforts. Accordingly, prospective investors currently have no basis to evaluate the comparative risks and merits of investing in the industry or business in which the Company may acquire. To the extent that the Company may acquire a business in a high risk industry, the Company will become subject to those risks. Similarly, if the Company acquires a financially unstable business or a business that is in the early stages of development, the Company will become subject to the numerous risks to which such businesses are subject. Although management intends to consider the risks inherent in any industry and business in which it may become involved, there can be no assurance that it will correctly assess such risks.

Uncertain Structure of Acquisition. Management has had no preliminary contact or discussions regarding, and there are no present plans, proposals or arrangements to acquire any specific assets, property or business. Accordingly, it is unclear whether such an acquisition would take the form of an exchange of capital stock, a merger or an asset acquisition.

Risks of "Penny Stock." The Company's common stock may be deemed to be "penny stock" as that term is defined in Reg. Section 240.3a51-1 of the Securities and Exchange Commission. Penny stocks are stocks (i) with a price of less than five dollars per share; (ii) that are not traded on a "recognized" national exchange; (iii) whose prices are not quoted on the NASDAQ automated quotation system (NASDAQ-listed stocks must still meet requirement (i) above); or (iv) in issuers with net tangible assets less than \$2,000,000 (if the issuer has been in continuous operation for at least three years) or \$5,000,000 (if in continuous operation for less than three years), or with average revenues of less than \$6,000,000 for the last three years.

There has been no "established public market" for the Company's common stock during the last five years. At such time as the Company completes a merger or acquisition transaction, if at all, it may attempt to qualify for quotation on either NASDAQ or a national securities exchange. However, at least initially, any trading in its common stock will most likely be conducted on the OTC Bulletin Board of the NASD under the symbol "ENGR". Section 15(g) of the Securities Exchange Act of 1934, as amended, and Reg. Section 240.15g-2 of the Securities and Exchange Commission require broker-dealers dealing in penny stocks to provide potential investors with a document disclosing the risks of penny stocks and to obtain a manually signed and dated written receipt of the document before effecting any transaction in a penny stock for the investor's account. Potential investors in the Company's common stock are urged to obtain and read such disclosure carefully before purchasing any shares that are deemed to be "penny stock." Moreover, Reg. Section 240.15g-9 of the Securities and Exchange Commission requires broker-dealers in penny stocks to approve the account of any investor for transactions in such stocks before selling any penny stock to that investor. This procedure requires the broker-dealer to (i) obtain from the investor information concerning his or her financial situation, investment experience and investment objectives; (ii) reasonably determine, based on that information, that transactions in penny stocks are suitable for

Edgar Filing: ENERGROUP TECHNOLOGIES CORP - Form 10KSB

the investor and that the investor has sufficient knowledge and experience as to be reasonably capable of evaluating the risks of penny stock transactions; (iii) provide the investor with a written statement setting forth the basis on which the broker-dealer made the determination in (ii) above; and (iv) receive a signed and dated copy of such statement from the investor, confirming that it accurately reflects the investor's financial situation, investment experience and investment objectives. Compliance with these requirements may make it more difficult for investors in the Company's common stock to resell their shares to third parties or to otherwise dispose of them.

The Company's Form 211 Application was accepted March 17, 2005 by the NASD and is now listed on the OTC Bulletin Board under the symbol "ENRG".

The integrated disclosure system for small business issuers adopted by the Securities and Exchange Commission in Release No. 34-30968 and effective as of August 13, 1992, substantially modified the information and financial requirements of a "Small Business Issuer," defined to be an issuer that has revenues of less than \$25 million; is a U.S. or Canadian issuer, is not an investment company, and if a majority-owned subsidiary, the parent is also a small business issuer, provided, however, an entity is not a small business issuer if it has a public float (the aggregate market value of the issuer's outstanding securities held by non-affiliates) of \$25 million or more. The Company is deemed to be a "small business issuer."

The Securities and Exchange Commission, state securities commissions and the North American Securities Administrators Association, Inc. ("NASAA") have expressed an interest in adopting policies that will streamline the registration process and make it easier for a small business issuer to have access to the public capital markets.

Sarbanes-Oxley Act.

Edgar Filing: ENERGROUP TECHNOLOGIES CORP - Form 10KSB

On July 30, 2002, President Bush signed into law the Sarbanes-Oxley Act of 2002 (the "Sarbanes-Oxley Act"). The Sarbanes-Oxley Act imposes a wide variety of new regulatory requirements on publicly-held companies and their insiders. Many of these requirements will affect us. For example:

- * Our chief executive officer and chief financial officer must now certify the accuracy of all of our periodic reports that contain financial statements;
- * Our periodic reports must disclose our conclusions about the effectiveness of our disclosure controls and procedures; and
- * We may not make any loan to any director or executive officer and we may not materially modify any existing loans.

The Sarbanes-Oxley Act has required us to review our current procedures and policies to determine whether they comply with the Sarbanes-Oxley Act and the new regulations promulgated thereunder. We will continue to monitor our compliance with all future regulations that are adopted under the Sarbanes-Oxley Act and will take whatever actions are necessary to ensure that we are in compliance.

Item 2. Description of Property.

The Company has no assets, property or business; its principal executive office address and telephone number are the business office address and telephone number of its majority shareholder, Duane S. Jenson, and are currently provided at no cost. Because the Company has had no business, its activities have been limited to keeping itself in good standing in the State of Utah. These activities have consumed an insignificant amount of management's time; accordingly, the costs to Mr. Jenson of providing the use of his office and telephone have been minimal.

Item 3. Legal Proceedings.

The Company is not a party to any pending legal proceeding. To the knowledge of management, no federal, state or local governmental agency is presently contemplating any proceeding against the Company. No director, executive officer or affiliate of the Company or owner of record or beneficially of more than five percent of the Company's common stock is a party adverse to the Company or has a material interest adverse to the Company in any proceeding.

Edgar Filing: ENERGROUP TECHNOLOGIES CORP - Form 10KSB

Item 4. Submission of Matters to a Vote of Security Holders.

During the year ended December 31, 2004, no matter was submitted to a vote of the Company's securities holders, whether through the solicitation of proxies or otherwise.

PART II

Item 5. Market for Common Equity and Related Stockholder Matters.

Equity Compensation Plans.

The Company does not currently have nor does it intend on implementing an Equity Compensation Plan.

Market Information.

The Company's common stock was listed on the OTC Bulletin Board of the National Association of Securities Dealers ("NASD") on March 17, 2005 under the symbol "ENRG". There is currently no established "public market" for shares of common stock of the Company. Management does not expect any public market to develop unless and until the Company completes an acquisition or merger. In any event, no assurance can be given that any market for the Company's common stock will develop or be maintained.

Holders.

The number of record holders of the Company's common stock as of the date of this Report is approximately 163.

Purchasers of Equity Securities by the Small Business Issuer and Affiliated Purchasers.

None; not applicable.

Dividends.

The Company has not declared any cash dividends with respect to its common stock and does not intend to declare dividends in the foreseeable future. The future dividend policy of the Company cannot be ascertained with any certainty, and until the Company completes any acquisition, reorganization or merger, as to which no assurance may be given, no such policy will be formulated. There are no material restrictions limiting, or that are likely to limit, the Company's ability to pay dividends on its common stock.

Sales of "Unregistered" and "Restricted" Securities Over The Past Three Years.

On September 24, 1999, the Company issued 1,698,000 "unregistered" and "restricted" common shares to Jenson Services, Inc., in consideration of payment of \$1,698 of expenses incurred on behalf of the Company. These shares were issued at par value, one mill (\$0.001).

Edgar Filing: ENERGROUP TECHNOLOGIES CORP - Form 10KSB

On September 24, 1999, the Company issued 500,000 "unregistered" and "restricted" common shares to James Doolin, President and Director. These shares were in consideration of services rendered and issued at par value, one mill (\$0.001).

On September 24, 1999, the Company issued 500,000 "unregistered" and "restricted" common shares to Alycia Anthony, Secretary and Director. These shares were in consideration of services rendered and issued at par value, one mill (\$0.001).

On November 1, 1999, the Company issued 782,500 "unregistered" and "restricted" common shares to Jenson Services, Inc., in consideration of payment of \$782.50 of expenses incurred on behalf of the Company. These shares were issued at par value, one mill (\$0.001).

Item 6. Management's Discussion and Analysis or Plan of Operation.

Plan of Operation.

The Company has not engaged in any material operations or had any revenues from operations during the last two fiscal years. The Company's plan of operation for the next 12 months is to continue to seek the acquisition of assets, properties or businesses that may benefit the Company and its stockholders. Management anticipates that to achieve any such acquisition, the Company will issue shares of its common stock as the sole consideration for such acquisition.

During the next 12 months, the Company's only foreseeable cash requirements will relate to maintaining the Company in good standing or the payment of expenses associated with reviewing or investigating any potential business venture. As of December 31, 2004, it had no cash or cash equivalents. If additional funds are required during this period, such funds may be advanced by management or stockholders as loans to the Company. Because the Company has not identified any such venture as of the date of this Report, it is impossible to predict the amount of any such loan. However, any such loan should not exceed \$25,000 and will be on terms no less favorable to the Company than would be available from a commercial lender in an arm's length transaction. As of the date of this Report, the Company is not engaged in any negotiations with any person regarding any such venture.

Results of Operations.

Other than maintaining its good corporate standing in the State of Utah, compromising and settling its debts and seeking the acquisition of assets, properties or businesses that may benefit the Company and its stockholders, the Company has had no material business operations in the two most recent calendar years.

At December 31, 2004, the Company's had no assets. See the Index to Financial Statements, Item 7 of this Report.

The Company has received no revenues in either of its two most recent calendar years. See the Index to Financial Statements, Item 7 of this Report.

Liquidity.

The Company has no cash or cash equivalents on hand. If additional funds

Edgar Filing: ENERGROUP TECHNOLOGIES CORP - Form 10KSB

are required, such funds may be advanced by management or stockholders as loans to the Company. Because the Company has not identified any acquisition or venture, it is impossible to predict the amount of any such loan.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

The Board of Directors and Shareholders
Energroup Technologies Corporation [a development stage company]

We have audited the accompanying balance sheet of Energroup Technologies Corporation [a development stage company] as of December 31, 2004, and the related statements of operations, stockholders' deficit, and cash flows for the years ended December 31, 2004 and 2003, and for the period from Reactivation [December 14, 1998] through December 31, 2004. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Energroup Technologies Corporation [a development stage company] as of December 31, 2004, and the results of its operations and cash flows for the years ended December 31, 2004 and 2003 and for the period from Reactivation through December 31, 2004, in conformity with U.S. generally accepted accounting principles.

The accompanying financial statements have been prepared assuming that the Company will continue as a going concern. As discussed in Note 2 to the financial statements, the Company has accumulated losses from operations, no assets, and a net working capital deficiency that raise substantial doubt about its ability to continue as a going concern. Management's plans in regard to these matters are also described in Note 2. The financial statements do not include any adjustments that might result from the outcome of this uncertainty.

ENERGROUP TECHNOLOGIES CORPORATION

[A Development Stage Company]

Notes to Financial Statements

December 31, 2004

NOTE 1 ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

(a) Organization

Energrou p Technologies Corporation was formed in August of 1983 as Facility Maintenance Management, Inc. In August 1985, the Company began to develop, manufacture and sell sensory and output products

Edgar Filing: ENERGROUP TECHNOLOGIES CORP - Form 10KSB

used in energy management control systems. The Company discontinued its efforts in late 1987 but began reactivation activities on December 14, 1998. The Company is now in the development stage and is seeking new business opportunities.

The financial statements of the Company have been prepared in accordance with U.S. generally accepted accounting principles. The following summarizes the more significant of such policies:

(b) Income Taxes

The Company applies the provisions of Statement of Financial Accounting Standards No. 109 [the Statement], Accounting for Income Taxes. The Statement requires an asset and liability approach for financial accounting and reporting for income taxes, and the recognition of deferred tax assets and liabilities for the temporary differences between the financial reporting basis and tax basis of the Company's assets and liabilities at enacted tax rates expected to be in effect when such amounts are realized or settled.

(c) Net Loss Per Common Share

Loss per common share is based on the weighted-average number of shares outstanding.

[Continued]

NOTE 1 ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING
POLICIES [continued]

(d) Statement of Cash Flows

For purposes of the statements of cash flows, the Company considers cash on deposit in the bank to be cash. The Company had \$0 cash at December 31, 2004.

(e) Use of Estimates in Preparation of Financial Statements

The preparation of financial statements in conformity with U. S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

NOTE 2 LIQUIDITY/GOING CONCERN

Edgar Filing: ENERGROUP TECHNOLOGIES CORP - Form 10KSB

The Company has accumulated losses since Reactivation through December 31, 2004 amounting to \$16,651, has no assets, and has a net working capital deficiency at December 31, 2004. These factors raise substantial doubt about the Company's ability to continue as a going concern.

Management plans include finding a well-capitalized merger candidate to recommence its operations. The financial statements do not include any adjustments that might result from the outcome of this uncertainty.
