MANAGEMENT DISCUSSION

- We are pleased to welcome shareholders of Eaton Vance Tax-Advantaged Global Dividend Income Fund (the "Fund"). The Fund's investment objective is to provide a high level of after-tax total return, consisting primarily of tax-advantaged dividend income and capital appreciation. The Fund pursues its objective by investing its assets primarily in dividend-paying common and preferred stocks of U.S. and foreign issuers.
- Legislation passed in May 2003 provides that qualified dividend income received by individual shareholders will generally be taxed at the same rates as long-term capital gains (maximum 15%) rather than as ordinary income. Qualifying dividend income generally includes dividends from domestic corporations and dividends from foreign corporations that meet specified criteria. Certain other criteria also apply in order to receive favorable tax treatment.
- Over the Fund's first five months of existence, its share price on the New York Stock Exchange trended lower. In April, economic reports indicating surprisingly strong retail sales and jobs growth triggered investor concerns about future interest rate increases. These concerns precipitated a correction in the share price of equities generally perceived to be interest rate sensitive. In part, the drop in the Fund's share price is a reflection of these developments, as a number of its preferred and common holdings came under selling pressure with rising rate concerns. The drop in the Fund's share price can also be partly attributed to its shares trading at a discount to their underlying NAV as of June 30, 2004.
- During the period, the Fund was invested in a broadly diversified basket of dividend-paying common stocks, including utility, energy, consumer, financial, and industrial stocks. Within these sectors, the Fund benefited from relatively strong stock selection. Consumer stocks held by the Fund generally benefited from tax rebates, strong job creation, continued mortgage refinancing activity, and improving consumer sentiment. Growing energy demand and global unrest have kept oil and gas prices high and generally benefited the energy stocks held by the Fund.
- The Fund was globally diversified throughout the period, with non-U.S. investments generally focused in companies which, in the Portfolio Managers' opinion, offer strong business franchises, good cash flow generation and solid dividend prospects.
- During the period, the Fund's investments in preferred stocks did relatively well, based on the Fund's ownership of higher-yielding preferred issues, many of which generated qualifying dividend income.
- We believe that the Fund's current holdings are well-positioned to provide an attractive level of dividend income, while allowing shareholders to

participate in equity markets.

THE FUND

- Based on share price (traded on the New York Stock Exchange) the Fund's shares had a total return of -10.01% during the period from inception on January 30, 2004, through June 30, 2004.(1) Based on the Fund's dividend of \$0.41 per share and a closing share price of \$16.80 on June 30, 2004, the Fund had a market yield of 7.32%.(2)
- Based on net asset value (NAV) per share of \$18.76 on June 30, 2004, the Fund had a total return of 0.49% during the period from inception on January 30, 2004, through June 30, 2004.(1)

EATON VANCE TAX-ADVANTAGED GLOBAL DIVIDEND INCOME FUND as of June 30, 2004

NOTES TO FINANCIAL STATEMENTS (Unaudited)

1 SIGNIFICANT ACCOUNTING POLICIES

Eaton Vance Tax-Advantaged Global Dividend Income Fund (the Fund) is registered under the Investment Company Act of 1940 (the 1940 Act), as amended, as a diversified, closed-end management investment company. The Fund was organized under the laws of the Commonwealth of Massachusetts by an Agreement and Declaration of Trust dated November 14, 2003. The Fund's investment objective is to provide a high level of after-tax total return. The Fund seeks to achieve its objective by investing primarily in dividend-paying common and preferred stocks. The following is a summary of significant accounting policies consistently followed by the Fund in the preparation of its financial statements. The policies are in conformity with accounting principles generally accepted in the United States of America.

A INVESTMENT VALUATION -- Securities listed on a U.S. securities exchange generally are valued at the last sale price on the day of valuation or, if no sales took place on such date, at the mean between the closing bid and asked prices therefore on the exchange where such securities are principally traded. Equity securities listed on NASDAQ National Market System generally are valued at the official NASDAQ closing price. Unlisted or listed securities for which closing sales prices or closing quotations are not available are valued at the mean between the latest available bid and asked prices. Exchange-traded options are valued at the last sale price for the day of valuation as quoted on the principal exchange or board of trade on which the options are traded or, in the absence of sales on such date, at the mean between the latest bid and asked prices therefore. Futures positions on securities and currencies generally are valued at closing settlement prices. Short-term debt securities with a remaining maturity of 60 days or less are valued at amortized cost. If short-term debt securities were acquired with a remaining maturity of more than 60 days, their amortized cost value will be based on their value on the sixty-first day prior to maturity. Other fixed income and debt securities, including listed securities and securities for which price quotations are available, will normally be valued on the basis of valuations furnished by a pricing service. The daily valuation of foreign securities generally is determined as of the close of trading on the principal exchange on which such securities trade. Events occurring after the close of trading on foreign exchanges may result in adjustments to the valuation of foreign securities to more accurately reflect their fair value as of the close of regular trading on the New York Stock Exchange. The Fund may rely on an independent fair valuation service in adjusting the valuations of foreign securities. Foreign securities and currencies are valued in U.S. dollars, based on foreign currency exchange rate quotations supplied by an independent quotation service. Investments held by the Fund for which valuations or market quotations are unavailable are valued at fair value using methods determined in good faith by or at the direction of the Trustees of the Fund considering relevant factors, data and information including the

market value of freely tradable securities of the same class in the principal market on which such securities are normally traded.

B INCOME -- Dividend income is recorded on the ex-dividend date for dividends received in cash and/or securities. However, if the ex-dividend date has passed, certain dividends from foreign securities are recorded as the Fund is informed of the ex-dividend date. Interest income is recorded on the accrual basis.

C FEDERAL TAXES -- The Fund's policy is to comply with the provisions of the Internal Revenue Code applicable to regulated investment companies and to distribute to shareholders each year all of its taxable income, including any net realized gain on investments. Accordingly, no provision for federal income or excise tax is necessary.

D OFFERING COSTS -- Costs incurred by the Fund in connection with the offering of the common shares were recorded as a reduction of capital paid in excess of par applicable to common shares.

E WRITTEN OPTIONS — Upon the writing of a call or a put option, an amount equal to the premium received by the Fund is included in the Statement of Assets and Liabilities as a liability. The amount of the liability is subsequently marked—to—market to reflect the current value of the option written in accordance with the Fund's policies on investment valuations discussed above. Premiums received from writing options which expire are treated as realized gains. Premiums received from writing options which are exercised or are closed are added to or offset against the proceeds or amount paid on the transaction to determine the realized gain or loss. If a put option is exercised, the premium reduces the cost basis of the securities purchased by the Fund. The Fund, as writer of an option, may have no control over whether the underlying securities may be sold (call) or purchased (put) and, as a result, bears the market risk of an unfavorable change in the price of the securities underlying the written option.

11

F PURCHASED OPTIONS — Upon the purchase of a call or put option, the premium paid by the Fund is included in the Statement of Assets and Liabilities as an investment. The amount of the investment is subsequently marked-to-market to reflect the current market value of the option purchased, in accordance with the Fund's policies on investment valuations discussed above. If an option which the Fund has purchased expires on the stipulated expiration date, the Fund will realize a loss in the amount of the cost of the option. If the Fund enters into a closing sale transaction, the Fund will realize a gain or loss, depending on whether the sales proceeds from the closing sale transaction are greater or less than the cost of the option. If a Fund exercises a put option, it will realize a gain or loss from the sale of the underlying security, and the proceeds from such sale will be decreased by the premium originally paid. If the Fund exercises a call option, the cost of the security which the Fund purchases upon exercise will be increased by the premium originally paid.

G SWAP AGREEMENTS -- The Fund may enter into swap agreements to hedge against fluctuations in securities prices, interest rates or market conditions, to change the duration of the overall portfolio, to mitigate non-payment or default risk, or to gain exposure to particular securities, baskets of securities, indices or currencies. In a standard swap transaction, two parties agree to exchange the returns (or differentials in rates of return) to be exchanged or swapped between the parties, which returns are calculated with respect to a notional amount (i.e., the return on or increase in value of a particular dollar amount invested at a particular interest rate or in a

"basket" of securities representing a particular index). The Fund will enter into swaps on a net basis. If the other party to a swap defaults, the Fund's risk of loss consists of the net amount of payments that the Fund is contractually entitled to receive. The Fund will not enter into any swap unless the claims-paying ability of the other party thereto is considered to be investment grade by the Adviser. These instruments are traded in the over-the-counter market. If the Adviser is incorrect in its forecasts of market values, interest rates and other applicable factors, the investment performance of the Fund would be unfavorably affected.

H FOREIGN CURRENCY TRANSLATION -- Investment valuations, other assets, and liabilities initially expressed in foreign currencies are converted each business day into U.S. dollars based upon current exchange rates. Purchases and sales of foreign investment securities and income and expenses are converted into U.S. dollars based upon currency exchange rates prevailing on the respective dates of such transactions. Recognized gains or losses on investment transactions attributable to foreign currency exchange rates are recorded for financial statement purposes as net realized gains and losses on investments. That portion of unrealized gains and losses on investments that results from fluctuations in foreign currency exchange rates is not separately disclosed.

I USE OF ESTIMATES -- The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of income and expense during the reporting period. Actual results could differ from those estimates.

J INDEMNIFICATIONS -- Under the Fund's organizational documents, its officers and Trustees may be indemnified against certain liabilities and expenses arising out of the performance of their duties to the Fund and shareholders are indemnified against personal liability for obligations of the Fund. Additionally, in the normal course of business, the Fund enters into agreements with service providers that may contain indemnification clauses. The Fund's maximum exposure under these arrangements is unknown as this would involve future claims that may be made against the Fund that have not yet occurred.

K OTHER - Investment transactions are accounted for on a trade date basis. Realized gains and losses are computed on the specific identification of the securities sold.

L EXPENSE REDUCTION -- Investors Bank & Trust Company (IBT) serves as custodian of the Fund. Pursuant to the custodian agreement, IBT receives a fee reduced by credits which are determined based on the average daily cash balance the Fund maintains with IBT. All credit balances used to reduce the Fund's custodian fees are reported as a reduction of total expenses in the Statement of Operations. For the period from the start of business, January 30, 2004 to June 30, 2004, \$634 credit balances were used to reduce the Fund's custodian fee.

M INTERIM FINANCIAL STATEMENTS — The interim financial statements relating to June 30, 2004 and for the period then ended have not been audited by an independent registered public accounting firm, but in the opinion of the Fund's management reflect all adjustments, consisting only of normal recurring adjustments, necessary for the fair presentation of the financial statements.

2 AUCTION PREFERRED SHARES

The Fund issued 4,000 shares of Auction Preferred Shares (APS) Series A, 4,000 shares of APS Series B, 4,000 shares of APS Series C, 4,000 shares of APS Series D, 4,000 shares of APS Series E, 4,000 shares of APS Series F and 6,000 shares of APS Series G on April 12, 2004 in a public offering. The underwriting discount and other offering costs were recorded as a reduction of the capital of the common shares. Dividends of the APS, which accrue daily, are cumulative at a rate which was established at the offering of the APS and have been reset by an auction based on the dividend period of each Series. Rates are reset weekly for Series A, Series B, and Series C, approximately monthly for Series D and Series E, approximately semi-annually for Series F, and annually for Series G. Dividends are generally paid on the day following the end of the dividend period for Series A, Series B, Series C, Series D, and Series E. Series F and Series G pay accumulated dividends on the first business day of each month and on the day following the end of the dividend period.

Dividend rate ranges for the period from the commencement of the offering, April 12, 2004 to June 30, 2004 are as indicated below:

The APS are also subject to mandatory redemption at a redemption price equal to \$25,000 per share, plus accumulated and unpaid dividends, if the Fund is in default for an extended period on its asset maintenance requirements with respect to the APS. If the dividends on the APS shall remain unpaid in an amount equal to two full years' dividends, the holders of the APS as a class have the right to elect a majority of the Board of Trustees. In general, the holders of the APS and the common shares have equal voting rights of one vote per share, except that the holders of the APS, as a separate class, have the right to elect at least two members of the Board of Trustees. The APS have a liquidation preference of \$25,000 per share, plus accumulated and unpaid dividends. The Fund is required to maintain certain asset coverage with respect to the APS as defined in the Fund's By-Laws and the Investment Company Act of 1940. The Fund pays an annual fee equivalent to 0.25% of the preferred shares' liquidation value for the remarketing efforts associated with the preferred auctions.

3 DISTRIBUTION TO SHAREHOLDERS

The Fund intends to make monthly distributions of net investment income, after payment of any dividends on any outstanding Auction Preferred Shares. In addition, at least annually, the Funds intends to distribute net capital gain, if any. Distributions are recorded on the ex-dividend date. 8 FINANCIAL INSTRUMENTS

The Fund may trade in financial instruments with off-balance sheet risk in the normal course of its investing activities to assist in managing exposure to various market risks. These financial instruments include written options, forward foreign currency exchange contracts, and financial futures contracts and may involve, to a varying degree, elements of risk in excess of the amounts recognized for financial statement purposes. The notional or contractual amounts of these instruments represent the investment the Fund has in particular classes of financial instruments and does not necessarily represent the amounts potentially subject to risk. The measurement of the risks associated with these instruments is meaningful only when all related and offsetting transactions are considered. The Fund did not have any open obligations under these financial instruments at June 30, 2004.

DIVIDEND REINVESTMENT PLAN

The Fund offers a dividend reinvestment plan (the Plan) pursuant to which shareholders may elect to have dividends and capital gains distributions automatically reinvested in common shares (the Shares) of the Fund. You may elect to participate in the Plan by completing the Dividend Reinvestment Plan Application Form. If you do not participate, you will receive all distributions in cash paid by check mailed directly to you by PFPC Inc. as dividend paying agent. On the distribution payment date, if the net asset value per Share is equal to or less than the market price per Share plus estimated brokerage commissions then new Shares will be issued. The number of Shares shall be determined by the greater of the net asset value per Share or 95% of the market price. Otherwise, Shares generally will be purchased on the open market by the Plan Agent. Distributions subject to income tax (if any) are taxable whether or not shares are reinvested.

If your shares are in the name of a brokerage firm, bank, or other nominee, you can ask the firm or nominee to participate in the Plan on your behalf. If the nominee does not offer the Plan, you will need to request that your shares be re-registered in your name with the Fund's transfer agent, PFPC Inc., or you will not be able to participate.

The Plan Agent's service fee for handling distributions will be paid by the Fund. Each participant will be charged their pro rata share of brokerage commissions on all open-market purchases.

Plan participants may withdraw from the Plan at any time by writing to the Plan Agent at the address noted on the following page. If you withdraw, you will receive shares in your name for all Shares credited to your account under the Plan. If a participant elects by written notice to the Plan Agent to have the Plan Agent sell part or all of his or her Shares and remit the proceeds, the Plan Agent is authorized to deduct a \$5.00 fee plus brokerage commissions from the proceeds.

If you wish to participate in the Plan and your shares are held in your own name, you may complete the form on the following page and deliver it to the Plan Agent.

Any inquiries regarding the Plan can be directed to the Plan Agent, PFPC Inc., at 1-800-331-1710.

ITEM 4. PRINCIPAL ACCOUNTANT FEES AND SERVICES

Not required in this filing.

ITEM 5. AUDIT COMMITTEE OF LISTED REGISTRANTS

Not required in this filing.

ITEM 6. SCHEDULE OF INVESTMENTS

Not required in this filing.

ITEM 7. DISCLOSURE OF PROXY VOTING POLICIES AND PROCEDURES FOR CLOSED-END MANAGEMENT INVESTMENT COMPANIES

The registrant's Board has adopted a proxy voting policy and procedure (the "Fund Policy"), pursuant to which the Trustees have delegated proxy voting responsibility to the registrant's investment adviser and adopted the investment

adviser's proxy voting policies and procedures (the "Policies") which are described below. The Trustees will review the registrant's proxy voting records from time to time and

will annually consider approving the Policies for the upcoming year. In the event that a conflict of interest arises between the registrant's shareholders and the investment adviser, the administrator, or any of their affiliates or any affiliate of the registrant, the investment adviser will generally refrain from voting the proxies related to the companies giving rise to such conflict until it consults with the Board's Special Committee except as contemplated under the Fund Policy. The Special Committee will instruct the investment adviser on the appropriate course of action.

The Policies are designed to promote accountability of a company's management to its shareholders and to align the interests of management with those shareholders. The investment adviser will generally support company management on proposals relating to environmental and social policy issues and on matters regarding the state of organization of the company. On all other matters, the investment adviser will take management's proposals under advisement but will consider each matter in light of the guidelines set forth in the Policies. Except in the instance of routine matters related to corporate administration which are not expected to have a significant economic impact on the company or its shareholders (on which the investment adviser will routinely vote with management), the investment adviser will review each matter on a case-by-case basis and reserves the right to deviate from the Policies guidelines when it believes the situation warrants such a deviation. The Policy includes voting quidelines for matters relating to, among other things, the election of directors, approval of independent auditors, executive compensation, corporate structure and anti-takeover defenses. The investment adviser may abstain from voting from time to time where it determines that the costs associated with voting a proxy outweighs the benefits derived from exercising the right to vote.

In addition, the investment adviser will monitor situations that may result in a conflict of interest between the registrant's shareholders and the investment adviser, the administrator, or any of their affiliates or any affiliate of the registrant by maintaining a list of significant existing and prospective corporate clients. The investment adviser's personnel responsible for reviewing and voting proxies on behalf of the registrant will report any proxy received or expected to be received from a company included on that list to the investment adviser's general counsel or chief equity investment officer. The general counsel or chief equity investment officer will determine if a conflict exists. If a conflict does exist, the proxy will either be voted strictly in accordance with the Policy or the investment adviser will seek instruction on how to vote from the Board.

Effective August 31, 2004, information on how the registrant voted proxies relating to portfolio securities during the 12 month period ended June 30, 2004 will be available (1) without charge, upon request, by calling 1-800-262-1122, and (2) on the Securities and Exchange Commission's website at http://www.sec.gov.
