LETTER TO SHAREHOLDERS

February 2, 2005

DEAR SHAREHOLDER:

For the year ended December 31, 2004, The Chile Fund, Inc. (the "Fund") had an increase in its net asset value ("NAV"), assuming the reinvestment of dividends and distributions, of 25.43% vs. an increase of 28.0% (with net dividends) for the Morgan Stanley Capital International Chile Index*. Based on market price, the Fund's shares rose 14.93% during the year ended December 31, 2004. As a result, the Fund's discount to its NAV stood at 10.78% on December 31, 2004, compared with a discount of 2.62% at the beginning of the year. Over the year, the Fund's average discount to NAV was 10.37%.

In terms of noteworthy performance attribution, our position in Cencosud S.A. (5.0% of the Fund's net assets as of December 31, 2004), a retailer, added significantly to returns, and our avoidance of Distribucion y Servicio D&S S.A. in the same sector was also positive. In the food and beverages sector, our overweight position in wine maker Vina Concha y Toro S.A. (4.7% of the Fund's net assets as of December 31, 2004) contributed to returns. In the transportation sector, our positions in Lan Chile S.A. and Compania SudAmericana de Vapores S.A. (0.0% and 4.8% of the Fund's net assets, respectively, as of December 31, 2004) also contributed positively to performance. On the negative side, almost all the relative underperformance is attributable to the absence of steel company, CAP S.A., in the portfolio, which had a strong gain. Our underweights in department stores Almacenes Paris S.A. and S.A.C.I. Falabella, S.A. (0.0% and 3.4% of the Fund's net assets, respectively, as of December 31, 2004) also hurt performance, as did our underweight in electricity generator Empresa Nacional de Electricidad S.A. (10.1% of the Fund's net assets as of December 31, 2004).

THE STOCK MARKET IN CHILE: INVESTOR SENTIMENT TURNS POSITIVE.

The global environment was broadly favorable for emerging markets. Ample liquidity conditions as a result of low global interest rates, robust global growth and high investor appetite for higher-return and higher-risk assets drove

Edgar Filing: CHILE FUND INC - Form N-CSR

outperformance versus developed markets for the year as a whole, notwithstanding a mid-period downturn. Chile's stock market had a good showing in absolute and relative terms for the 12 months, reflecting a strong second half of the year as investors took note of the country's improving macroeconomic backdrop. In addition to benefiting from high commodity prices and export revenues (for copper in particular), domestic demand strengthened during the course of the year.

Chile's Gross Domestic Product grew 5.7% in 2004, about a full percentage point higher than what was generally expected as the year began. Although inflation is still at historically low levels and below the Central Bank's 3% target rate, this growth resulted in a building of inflationary pressures, prompting the country's Central Bank to raise short-term interest rates in the latter part of the year, ending a four year easing cycle. Higher rates, coupled with strong export revenues, contributed to a rise in Chile's currency vs. the U.S. dollar. The Chilean peso appreciated by 5.7% during 2004, averaging CLP609.55 to the U.S. dollar. Sovereign debt yields also reflected the strengthening of Chile's economy. The spread between Chile's sovereign debt and U.S. Treasuries narrowed from 110 basis points in May to a low of 61 basis points in December 2004.

THE PORTFOLIO: STRATEGIC MANAGEMENT

The Fund paid a distribution of U.S. \$1.87 per share, on January 7, 2005, equivalent to 11.4% of the NAV at the time of the announcement, of which \$1.47 per share was comprised of long-term capital gains. The majority of this long-term capital gain distribution was related to the realization of a gain on the sale of Compania de Telecomunicaciones de Chile S.A. (NYSE: CTC, 6.9% of the Fund's net assets as of December 31, 2004), Chile's leading telecommunications company. Earlier in 2004, CTC announced that it would sell its wireless division to Telefonica de Espana and distribute the cash to CTC's shareholders. We opted not to receive the cash, as it would have been taxed at a higher rate than the prevailing capital gains tax in Chile. Instead, we sold the stock pre-dividend, realizing a significant long-term gain, and purchased it back after the ex-dividend date.

Our portfolio activity in the latter part of the period was mainly limited to taking profits on stocks which have performed well, in order to raise cash for the dividend distribution. For example, we reduced our exposure to Compania SudAmericana de Vapores S.A., a shipping stock that had performed well, after we purchased it in early 2004. A noteworthy recent purchase was adding to Enersis S.A. (8.1% of the Fund's net assets as of December 31, 2004), an electricity generation and distribution company with interests principally in Argentina, Brazil and Chile that we think might benefit from both rising domestic demand as well as demand in Brazil and Argentina.

Liquidity conditions have improved, with average daily traded volumes doubling in the year. The market has also been active with respect to issuance, including IPOs and issuance from existing companies. We purchased a significant stake in retailer Cencosud S.A. early in the year as well as adding to our position in Compania Cervecerias Unidas S.A. (4.9% of the Fund's net assets as of December 31, 2004) as part of a large block trade later in the year.

Looking ahead, our outlook on Chile and its stock market remains generally positive. The economy made significant progress in 2004, and we think it could generate similar growth in 2005, driven primarily by expanding domestic consumption; we believe that commodity prices are likely to remain firm in 2005 which could underpin key macroeconomic variables, including the current account balance and the currency. Market liquidity, which was so supportive for most of 2004, may become a headwind in 2005 as interest rates rise to head off

Edgar Filing: CHILE FUND INC - Form N-CSR

inflation. The pension funds are unlikely to be as a significant source of demand as they were in 2004.

Valuations, as has been the case in Chile for many years now, are stretched relative to most emerging market countries, and are now at the top end of the range relative to Chile's own trading range. However, as long as Chile can maintain good economic performance, we believe that stocks in the country could continue to enjoy premium valuations.

For our part, we will continue to look for reasonably valued companies we think can deliver consistent earnings growth. From a sector perspective, we are overweight in consumer areas such as beverages and specific retail stocks, as we think the consumer will be a key driver of Chile's economy over the next several years. We are also overweight in utilities, where we see good growth prospects at reasonable valuations.

We continue to see the main risks as external: notably an upward spike in U.S. interest rates or a hard landing in China. Both of these risks of course are common to most emerging markets and Chile. Thanks to Chile's robust internal capital markets and diversified trading patterns, it may be less exposed than most. Our basic view is benign: that U.S.

2

rates rise only modestly as 2005 progresses and China's growth remains robust. Domestic risks include the Presidential elections in November 2005. However, the market has largely discounted a continuation of the ruling coalition government, and we do not foresee major surprises. One negative development which we expect to reemerge in the next government is the possibility of a new royalty tax on mining; while we see such an event as a negative for mining companies, we think it would have limited impact on investor sentiment toward Chile as a whole.

Respectfully,

/s/ Matthew J.K. Hickman

Actual results could differ from those estimates.

SECURITY VALUATION: The net asset value of the Fund is determined daily as of the close of regular trading on the New York Stock Exchange, Inc. (the "Exchange") on each day the Exchange is open for business. The Fund's equity investments are valued at market value, which is generally determined using the closing price on the exchange or market on which the security is primarily traded at the time of valuation (the "Valuation Time"). If no sales are reported, equity investments are generally valued at the most recent bid quotation as of the Valuation Time or at the lowest ask quotation in the case of a short sale of securities. Debt securities with a remaining maturity greater than 60 days are valued in accordance with the price supplied by a pricing service, which may use a matrix, formula or other objective method that takes into consideration market indices, yield curves and other specific adjustments. Debt obligations that will mature in 60 days or less are valued on the basis of amortized cost, which approximates market value, unless it is determined that this method would not represent fair value.

Securities and other assets for which market quotations are not readily available, or whose values have been materially affected by events occurring before the Fund's Valuation Time, but after the close of the securities' primary market, are valued at fair value as determined in good faith by, or under the direction of, the Board of Directors under procedures established by the Board of Directors. The Fund may utilize a service provided by an independent third party which has been approved by the Board of Directors to fair value certain securities. At December 31, 2004, the Fund held 1.91% of its net assets in a security valued at fair value as determined in good faith under procedures

Edgar Filing: CHILE FUND INC - Form N-CSR

established by the Board of Directors with an aggregate cost of \$4,296,118 and fair value of \$3,044,513. The Fund's estimate of fair value assumes a willing buyer and a willing seller neither acting under a compulsion to buy or sell. Although this security may be resold in privately negotiated transactions, the prices realized on such sales could differ from the price originally paid by the Fund or the current carrying value, and the difference could be material.

SHORT-TERM INVESTMENT: The Fund sweeps available cash into a short-term deposit issued by Bank of America N.A. The short-term time deposit is a variable rate account classified as a short-term investment.

INVESTMENT TRANSACTIONS AND INVESTMENT INCOME: Investment transactions are accounted for on a trade date basis. The cost of investments sold is determined by use of the specific identification method for both financial reporting and U.S. income tax purposes. Interest income is accrued as earned; dividend income is recorded on the ex-dividend date.

TAXES: No provision is made for U.S. income or excise taxes as it is the Fund's intention to continue to qualify as a regulated investment company and to make the requisite distributions to its shareholders sufficient to

12

relieve it from all or substantially all U.S. income and excise taxes.

The Fund accrues foreign taxes on realized gains and repatriation taxes in an amount equal to what the Fund would owe if the securities were sold and the proceeds repatriated on the valuation date as a liability and reduction of realized/unrealized gains. Taxes on foreign income are recorded when the related income is recorded. For the year ended December 31, 2004, the Fund incurred \$335,617 of such expense.

FOREIGN CURRENCY TRANSLATIONS: The books and records of the Fund are maintained in U.S. dollars. Foreign currency amounts are translated into U.S. dollars on the following basis:

- (I) market value of investment securities, assets and liabilities at the valuation date rate of exchange; and
- (II) purchases and sales of investment securities, income and expenses at the relevant rates of exchange prevailing on the respective dates of such transactions.

The Fund does not isolate that portion of gains and losses on investments in equity securities which is due to changes in the foreign exchange rates from that which is due to changes in market prices of equity securities. Accordingly, realized and unrealized foreign currency gains and losses with respect to such securities are included in the reported net realized and unrealized gains and losses on investment transactions balances.

The Fund reports certain foreign currency related transactions and foreign taxes withheld on security transactions as components of realized gains for financial reporting purposes, whereas such foreign currency related transactions are treated as ordinary income for U.S. income tax purposes.

Net unrealized currency gains or losses from valuing foreign currency denominated assets and liabilities at period end exchange rates are reflected as a component of net unrealized appreciation/depreciation in value of investments, and translation of other assets and liabilities denominated in foreign currencies.

Edgar Filing: CHILE FUND INC - Form N-CSR

Net realized foreign exchange gains or losses represent foreign exchange gains and losses from transactions in foreign currencies and forward foreign currency contracts, exchange gains or losses realized between the trade date and settlement date on security transactions, and the difference between the amounts of interest and dividends recorded on the Fund's books and the U.S. dollar equivalent of the amounts actually received.

DISTRIBUTIONS OF INCOME AND GAINS: The Fund distributes at least annually to shareholders substantially all of its net investment income and net realized short-term capital gains, if any. The Fund determines annually whether to distribute any net realized long-term capital gains in excess of net realized short-term capital losses, including capital loss carryovers, if any. An additional distribution may be made to the extent necessary to avoid the payment of a 4% U.S. federal excise tax. Dividends and distributions to shareholders are recorded by the Fund on the ex-dividend date.

The character of distributions made during the year from net investment income or net realized gains may differ from their ultimate characterization for U.S. income tax purposes due to U.S. generally accepted accounting principles/tax differences in the character of income and expense recognition.

OTHER: The Fund may invest in securities of foreign countries and governments which involve certain risks in addition to those inherent in domestic investments. Such risks generally include, among others, currency risks (fluctuations in currency exchange rates),

13

information risk (key information may be inaccurate or unavailable) and political risk (expropriation, nationalization or the imposition of capital or currency controls or punitive taxes). Other risks of investing in foreign securities include liquidity and valuation risks.

Securities denominated in currencies other than U.S. dollars are subject to changes in value due to fluctuations in exchange rates.

The Chilean securities markets are substantially smaller, less liquid and more volatile than the major securities markets in the United States. Consequently, acquisition and disposition of securities by the Fund may be inhibited. A significant proportion of the aggregate market value of equity securities listed on the Santiago Exchange are held by a small number of investors and are not publicly traded. This may limit the number of shares available for acquisition or disposition by the Fund.

Investments in Chile may involve certain considerations and risks not typically associated with investments in the United States, including the possibility of future political and economic developments and the level of Chilean governmental supervision and regulation of its securities markets.

The Fund, subject to local investment limitations, may invest up to 20% of its assets (at the time of commitment) in illiquid equity securities, including securities of private equity funds (whether in corporate or partnership form) that invest primarily in the emerging markets. When investing through another investment fund, the Fund will bear its proportionate share of the expenses incurred by that fund, including management fees. Such securities are expected to be illiquid, which may involve a high degree of business and financial risk and may result in substantial losses. Because of the current absence of any liquid trading market for these investments, the Fund may take longer to liquidate these positions than would be the case for publicly traded securities. Although these securities may be resold in privately negotiated transactions, the prices realized on such sales could be substantially less than those

Edgar Filing: CHILE FUND INC - Form N-CSR

originally paid by the Fund or the current carrying values and these difference could be material. Further, companies whose securities are not publicly traded may not be subject to the disclosure and other investor protection requirements applicable to companies whose securities are publicly traded.

NOTE B. AGREEMENTS

Credit Suisse Asset Management, LLC ("CSAM") serves as the Fund's investment adviser with respect to all investments. CSAM receives as compensation for its advisory services from the Fund, an annual fee, calculated weekly and paid quarterly, equal to 1.20% of the first \$50 million of the Fund's average weekly market value or net assets (whichever is lower), 1.15% of the next \$50 million and 1.10% of amounts in excess of \$100 million. For the year ended December 31, 2004, CSAM earned \$1,543,910 for advisory services. For the year ended December 31, 2004, CSAM was reimbursed \$19,563 for administrative services rendered to the Fund.

CELFIN CAPITAL Servicios Financieros S.A. ("Celfin") serves as the Fund's Chilean sub-adviser. Celfin receives as compensation for its sub-advisory services, an annual fee, out of the advisory fee payable to CSAM, calculated weekly and paid quarterly, equal to 0.20% of the Fund's average weekly market value or net assets (whichever is lower). For the year ended December 31, 2004, these sub-advisory fees amounted to \$267,172.

For the year ended December 31, 2004, Celfin earned approximately \$181,100 in brokerage commissions from portfolio transactions executed on behalf of the Fund.

14

Bear Stearns Funds Management Inc. ("BSFM") serves as the Fund's U.S. administrator. The Fund pays BSFM a monthly fee that is calculated weekly at an annual rate of 0.08% of the first \$100 million of the Fund's average weekly net assets, 0.06% of the next \$50 million and 0.04% of amounts in excess of \$150 million. For the year ended December 31, 2004, BSFM earned \$108,601 for administrative services.

Celfin Capital S.A. Administradora de Fondos de Capital Extranjero ("AFCE") serves as the Fund's Chilean administrator. For its administrative services, AFCE is paid a fee, out of the advisory fee payable to CSAM, that is calculated weekly and paid quarterly at an annual rate of 0.05% of the Fund's average weekly market value or net assets (whichever is lower). In addition, AFCE receives a supplemental administration fee, an annual reimbursement of out-of-pocket expenses and an accounting fee. For the year ended December 31, 2004, the administration fees, supplemental administration fees and accounting fees amounted to \$67,179, \$71,000 and \$5,999, respectively.

Merrill Corporation ("Merrill"), an affiliate of CSAM, has been engaged by the Fund to provide certain financial printing services. For the year ended December 31, 2004, Merrill was paid \$43,492 for its services to the Fund.

The Independent Directors receive fifty percent (50%) of their annual retainer in the form of shares purchased by the Fund's transfer agent in the open market. Directors as a group own less than 1% of the Fund's outstanding shares.

NOTE C. CAPITAL STOCK

The authorized capital stock of the Fund is 100,000,000 shares of common stock, \$0.001 par value. Of the 10,139,926 shares outstanding at December 31, 2004,

Edgar Filing: CHILE FUND INC - Form N-CSR

CSAM owned 14,615 shares.

NOTE D. INVESTMENT IN SECURITIES

For the year ended December 31, 2004, purchases and sales of securities, other than short-term investments, were \$52,895,277 and \$79,838,417, respectively.

NOTE E. CREDIT FACILITY

The Fund, together with other funds/portfolios advised by CSAM (collectively, the "Participating Funds"), participates in a \$75 million committed, unsecured, line of credit facility ("Credit Facility") with Deutsche Bank, A.G. as administrative agent and syndication agent and State Street Bank and Trust Company as operations agent for temporary or emergency purposes. Under the terms of the Credit Facility, the Participating Funds pay an aggregate commitment fee at a rate of 0.10% per annum on the average unused amount of the Credit Facility, which is allocated among the Participating Funds in such manner as is determined by the governing Boards of the Participating Funds. In addition, the Participating Funds pay interest on borrowings at the Federal Funds rate plus 0.50%. The maximum amount outstanding under the Credit Facility for the Fund was \$2,700,000 with an average daily balance of \$22,449 and an average daily interest rate of 1.50% during the year ended December 31, 2004. The Fund had no borrowings under the Credit Facility at December 31, 2004.

NOTE F. FEDERAL INCOME TAXES

Income and capital gain distributions are determined in accordance with federal income tax regulations, which may differ from GAAP. These differences are primarily due to differing treatments of foreign currency transactions and losses deferred due to wash sales.

15

The tax character of dividends and distributions paid during the years ended December 31, for the Fund were as follows:

ORDINARY INCOME		LONG-TERM CAPITAL GAINS	
2004	2003	2004	2003
\$ 4,765,765	\$ 811,194	\$ 17,846,270	\$ 3,751,773

At December 31, 2004, the components of distributable earnings on a tax basis, for the Fund were as follows:

Undistributed ordinary income	\$ 1,474,158
Accumulated net realized gain	11,277,994
Unrealized appreciation	65,182,772

Total distributable earnings	\$ 77,934,924
	=====

At December 31, 2004, the identified cost for federal income tax purposes, as well as the gross unrealized appreciation from investments for those securities

Edgar Filing: CHILE FUND INC - Form N-CSR

having an excess of value over cost, gross unrealized depreciation from investments for those securities having an excess of cost over value and the net unrealized appreciation from investments were \$104,491,149, \$66,454,356, \$(1,279,865) and \$65,174,491, respectively.

At December 31, 2004, the Fund reclassified from accumulated net realized gain on investments and foreign currency related transactions of \$11,725 to undistributed net investment income. Net assets were not affected by this reclassification.

NOTE G. CONTINGENCIES

In the normal course of business, the Fund may provide general indemnifications pursuant to certain contracts and organizational documents. The Fund's maximum exposure under these arrangements is dependent on future claims that may be made against the Fund and, therefore, cannot be estimated; however, based on experience, the risk of loss from such claims is considered remote.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Board of Directors and Shareholders
of The Chile Fund, Inc.:

In our opinion, the accompanying statement of assets and liabilities, including the schedule of investments, and the related statements of operations, of changes in net assets and the financial highlights present fairly, in all material respects, the financial position of The Chile Fund, Inc. (the "Fund") at December 31, 2004, the results of its operations for the year then ended, the changes in its net assets for each of the two years in the period then ended, and the financial highlights for each of the ten years in the period then ended, in conformity with accounting principles generally accepted in the United States of America. These financial statements and financial highlights (hereafter referred to as "financial statements") are the responsibility of the Fund's management; our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits of these financial statements in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. We believe that our audits, which included confirmation of securities at December 31, 2004 by correspondence with the custodian and issuers, provide a reasonable basis for our opinion.

18

TAX INFORMATION (UNAUDITED)

The Fund is required by Subchapter M of the Internal Revenue Code of 1986, as amended, to advise its shareholders within 60 days of the Fund's year end (December 31, 2004) as to the U.S. federal tax status of dividends and distributions received by the Fund's shareholders in respect of such year. Of the \$2.23 per share distribution paid in respect of such year, \$0.47 per share was derived from net investment income and \$1.76 per share was derived from net realized long-term capital gains. The Fund has met the requirements to pass through all ordinary income as qualified dividends as noted on Box 1B on Form 1099-DIV. Please note that to utilize the lower tax rate for qualifying dividend income, shareholders must have held their shares in the Fund for at least 61 days during the 121 day period beginning 60 days before the ex-dividend date. There were no distributions which qualified for the dividend received deduction available to corporate shareholders.

The Fund does not intend to make an election under Section 853 to pass through foreign taxes paid by the Fund to its shareholders. This information is given to meet certain requirements of the Internal Revenue Code of 1986, as amended. Shareholders should refer to their Form 1099-DIV to determine the amount includable on their respective tax returns for 2004.

Notification for calendar year 2004 was mailed in January 2005. The notification along with Form 1099-DIV reflects the amount to be used by calendar year taxpayers on their U.S. federal income tax returns.

Foreign shareholders will generally be subject to U.S. withholding tax on the amount of the actual ordinary dividends paid by the Fund. They will generally not be entitled to foreign tax credit or deduction for the withholding taxes paid by the Fund.

In general, distributions received by tax-exempt recipients (e.g., IRAs and Keoghs) need not be reported as taxable income for U.S. federal income tax purposes. However, some retirement trusts (e.g., corporate, Keogh and 403(b)(7) plans) may need this information for their annual information reporting.

Shareholders are advised to consult their own tax advisers with respect to the tax consequences of their investment in the Fund.

DESCRIPTION OF INVESTLINK(SM) PROGRAM (UNAUDITED)

The InvestLink(SM) Program is sponsored and administered by EquiServe Trust Company, N.A., with EquiServe, Inc. acting as service agent to the aforementioned and, not by The Chile Fund, Inc. (the "Fund"). EquiServe Trust Company, N.A., will act as program administrator (the "Program Administrator") of the InvestLink(SM) Program (the "Program"). The purpose of the Program is to provide existing shareholders with a simple and convenient way to invest additional funds and reinvest dividends in shares of the Fund's common stock ("Shares") at prevailing prices, with reduced brokerage commissions and fees.

In order to participate in the Program, you must be a registered holder of at least one Share of stock of the Fund. Purchases of Shares with funds from a participant's cash payment or automatic account deduction will begin on the next day on which funds are invested. All cash payments must be drawn on a U.S. bank and payable in U.S. dollars. Checks must be made payable to EquiServe. If a participant selects the dividend reinvestment option, automatic investment of dividends generally will begin with the next dividend payable after the Program Administrator receives his enrollment form. Once in the Program, a person will remain a participant until he terminates his participation or sells all Shares held in his Program account, or his account is terminated by the Program Administrator. A participant may change his investment options at any time by requesting a new enrollment form and returning it to the Program Administrator.

A participant will be assessed certain charges in connection with his participation in the Program. All optional cash deposit investments will be subject to a service charge. Sales processed through the Program will have a service fee deducted from the net proceeds, after brokerage commissions. In addition to the transaction charges outlined above, participants will be assessed per share processing fees (which include brokerage commissions.) Participants will not be charged any fee for reinvesting dividends. The number of Shares to be purchased for a participant depends on the amount of his dividends, cash payments or bank account or payroll deductions, less applicable fees and commissions, and the purchase price of the Shares. The investment date for cash payments is the 25th day of each month (or the next trading day if the 25th is not a trading day). The investment date for dividend reinvestment is the dividend payment date. The Program Administrator uses dividends and funds of participants to purchase Shares of the Fund in the open market. Such purchases will be made by participating brokers as agent for the participants using normal cash settlement practices. All Shares purchased through the Program will be allocated to participants as of the settlement date, which is usually three business days from the purchase date. In all cases, transaction processing will occur within 30 days of the receipt of funds, except where temporary curtailment or suspension of purchases is necessary to comply with applicable provisions of the Federal Securities laws or when unusual market conditions make prudent investment impracticable. In the event the Program Administrator is unable to purchase Shares within 30 days of the receipt of funds, such funds will be returned to the participants.

The average price of all Shares purchased by the Program Administrator with all funds received during the time period from two business days preceding any investment date up to the second business day preceding the next investment date shall be the price per share allocable to a participant in connection with the Shares purchased for his account with his funds or dividends received by the Program Administrator during such time period. The average price of all Shares sold by the Program Administrator pursuant to sell orders received during such time period shall be the price per share allocable to a participant in connection with the Shares sold for his account pursuant to his sell orders received by the Program Administrator during such time period. All sale requests having an

anticipated market value of \$100,000.00 or more are expected to be submitted in written form. In addition, all sale requests received by the Program Administrator within thirty (30) days of an address change are expected to be submitted in written form.

EquiServe Trust Company, N.A., as Program Administrator, administers the Program for participants, keeps records, sends statements of account to participants and performs other duties relating to the Program. Each participant in the Program will receive a statement of his account following each purchase of Shares. The statements will also show the amount of dividends credited to such participant's account (if applicable), as well as the fees paid by the participant. In addition, each participant will receive copies of the Fund's annual and semi-annual reports to shareholders, proxy statements and, if applicable, dividend income information for tax reporting purposes.

If the Fund is paying dividends on the Shares, a participant will receive dividends through the Program for all Shares held on the dividend record date on the basis of full and fractional Shares held in his account, and for all other Shares of the Fund registered in his name. The Program Administrator will send checks to the participants for the amounts of their dividends that are not to be automatically reinvested at no cost to the participants.

Shares of the Fund purchased under the Program will be registered in the name of the accounts of the respective participants. Unless requested, the Fund will not issue to participants certificates for Shares of the Fund purchased under the Program. The Program Administrator will hold the Shares in book-entry form until a Program participant chooses to withdraw his Shares or terminate his participation in the Program. The number of Shares purchased for a participant's account under the Program will be shown on his statement of account. This feature protects against loss, theft or destruction of stock certificates.

A participant may withdraw all or a portion of the Shares from his Program account by notifying the Program Administrator. After receipt of a participant's request, the Program Administrator will issue to such participant certificates for the whole Shares of the Fund so withdrawn or, if requested by the participant, sell the Shares for him and send him the proceeds, less applicable brokerage commissions, fees, and transfer taxes, if any. If a participant withdraws all full and fractional Shares in his Program account, his participation in the Program will be terminated by the Program Administrator. In no case will certificates for fractional Shares be issued. The Program Administrator will convert any fractional Shares held by a participant at the time of his withdrawal to cash.

Participation in any rights offering, dividend distribution or stock split will be based upon both the Shares of the Fund registered in participants' names and the Shares (including fractional Shares) credited to participants' Program accounts. Any stock dividend or Shares resulting from stock splits with respect to Shares of the Fund, both full and fractional, which participants hold in their Program accounts and with respect to all Shares registered in their names will be automatically credited to their accounts.

All Shares of the Fund (including any fractional share) credited to his account under the Program will be voted as the participant directs. The participants will be sent the proxy materials for the annual meetings of shareholders. When a participant returns an executed proxy, all of such Shares will be voted as indicated. A participant may also elect to vote his Shares in person at the Shareholders' meeting.

Edgar Filing: CHILE FUND INC - Form N-CSR

A participant will receive tax information annually for his personal records and to help him prepare his U.S. federal income tax return. The automatic reinvestment of dividends does not relieve him of any income tax which may be payable on dividends. For further

21

information as to tax consequences of participation in the Program, participants should consult with their own tax advisors.

The Program Administrator in administering the Program will not be liable for any act done in good faith or for any good faith omission to act. However, the Program Administrator will be liable for loss or damage due to error caused by its negligence, bad faith or willful misconduct. Shares held in custody by the Program Administrator are not subject to protection under the Securities Investors Protection Act of 1970.

The participant should recognize that neither the Fund nor the Program Administrator can provide any assurance of a profit or protection against loss on any Shares purchased under the Program. A participant's investment in Shares held in his Program account is no different than his investment in directly held Shares in this regard. The participant bears the risk of loss and the benefits of gain from market price changes with respect to all of his Shares. Neither the Fund nor the Program Administrator can guarantee that Shares purchased under the Program will, at any particular time, be worth more or less than their purchase price. Each participant must make an independent investment decision based on his own judgment and research.

While the Program Administrator hopes to continue the Program indefinitely, the Program Administrator reserves the right to suspend or terminate the Program at any time. It also reserves the right to make modifications to the Program. Participants will be notified of any such suspension, termination or modification in accordance with the terms and conditions of the Program. The Program Administrator also reserves the right to terminate any participant's participation in the Program at any time. Any question of interpretation arising under the Program will be determined in good faith by the Program Administrator and any such good faith determination will be final.

Any interested shareholder may participate in the Program. All other cash payments or bank account deductions must be at least \$100.00, up to a maximum of \$100,000.00 annually. An interested shareholder may join the Program by reading the Program description, completing and signing the enrollment form and returning it to the Program Administrator. The enrollment form and information relating to the Program (including the terms and conditions) may be obtained by calling the Program Administrator at one of the following telephone numbers: (800) 730-6001 (U.S. and Canada) or (781) 575-3100 (outside U.S. and Canada). All correspondence regarding the Program should be directed to: EquiServe Trust Company, N.A., InvestLink(SM) Program, P.O. Box 43010, Providence, RI 02940-3010.

InvestLink is a service mark of EquiServe Trust Company, N.A.

CSAM CLOSED-END FUNDS

PROXY VOTING POLICY AND PROCEDURES

Introduction

Credit Suisse Asset Management, LLC ("CSAM") is a fiduciary that owes each of its clients duties of care and loyalty with respect to proxy voting. The duty of care requires CSAM to monitor corporate events and to vote proxies. To satisfy its duty of loyalty, CSAM must cast proxy votes in the best interests of each of its clients.

The Credit Suisse Funds, Credit Suisse Institutional Funds, and CSAM Closed-End Funds (the "Funds"), which have engaged Credit Suisse Asset Management, LLC as their investment adviser, are of the belief that the proxy voting process is a means of addressing corporate governance issues and encouraging corporate actions both of which can enhance shareholder value.

Policy

The Proxy Voting Policy (the "Policy") set forth below is designed to ensure that proxies are voted in the best interests of CSAM's clients. The Policy addresses particular issues and gives a general indication of how CSAM will vote proxies. The Policy is not exhaustive and does not include all potential issues.

Proxy Voting Committee

The Proxy Voting Committee will consist of a member of the Portfolio Management Department, a member of the Legal and Compliance Department, and a member of the Operations Department (or their designees). The purpose of the Proxy Voting Committee is to administer the voting of all clients' proxies in accordance with the Policy. The Proxy Voting Committee will review the Policy annually to ensure that it is designed to promote the best interests of CSAM's clients.

For the reasons disclosed below under "Conflicts," the Proxy Voting Committee has engaged the services of an independent third party

Edgar Filing: CHILE FUND INC - Form N-CSR

(initially, Institutional Shareholder Services ("ISS")) to assist in issue analysis and vote recommendation for proxy proposals. Proxy proposals addressed by the Policy will be voted in accordance with the Policy. Proxy proposals addressed by the Policy that require a case-by-case analysis will be voted in accordance with the vote

5

recommendation of ISS. Proxy proposals not addressed by the Policy will also be voted in accordance with the vote recommendation of ISS. To the extent that the Proxy Voting Committee proposes to deviate from the Policy or the ISS vote recommendation, the Committee shall obtain client consent as described below.

CSAM investment professionals may submit a written recommendation to the Proxy Voting Committee to vote in a manner inconsistent with the Policy and/or the recommendation of ISS. Such recommendation will set forth its basis and rationale. In addition, the investment professional must confirm in writing that he/she is not aware of any conflicts of interest concerning the proxy matter or provide a full and complete description of the conflict.

Conflicts

CSAM is the institutional and mutual fund asset management arm of Credit Suisse First Boston, which is part of Credit Suisse Group, one of the world's largest financial organizations. As part of a global, full service investment-bank, broker-dealer, and asset-management organization, CSAM and its affiliates and personnel may have multiple advisory, transactional, financial, and other interests in securities, instruments, and companies that may be purchased or sold by CSAM for its clients' accounts. The interests of CSAM and/or its affiliates and personnel may conflict with the interests of CSAM's clients in connection with any proxy issue. In addition, CSAM may not be able to identify all of the conflicts of interest relating to any proxy matter.

Consent

In each and every instance in which the Proxy Voting Committee favors voting in a manner that is inconsistent with the Policy or the vote recommendation of ISS (including proxy proposals addressed and not addressed by the Policy), it shall disclose to the client conflicts of interest information and obtain client consent to vote. Where the client is a Fund, disclosure shall be made to any one director who is not an "interested person," as that term is defined under the Investment Company Act of 1940, as amended, of the Fund.

Recordkeeping

CSAM is required to maintain in an easily accessible place for five years all records relating to proxy voting.

These records include the following:

- a copy of the Policy;
- a copy of each proxy statement received on behalf of CSAM clients;

6

Edgar Filing: CHILE FUND INC - Form N-CSR

- a record of each vote cast on behalf of CSAM clients;
- a copy of all documents created by CSAM personnel that were material to making a decision on a vote or that memorializes the basis for the decision; and
- a copy of each written request by a client for information on how CSAM voted proxies, as well as a copy of any written response.

CSAM reserves the right to maintain certain required proxy records with ISS in accordance with all applicable regulations.

Disclosure

CSAM will describe the Policy to each client. Upon request, CSAM will provide any client with a copy of the Policy. CSAM will also disclose to its clients how they can obtain information on their proxy votes.

ISS will capture data necessary for Funds to file Form N-PX on an annual basis concerning their proxy voting record in accordance with applicable law.

Procedures

The Proxy Voting Committee will administer the voting of all client proxies. CSAM has engaged ISS as an independent third party proxy voting service to assist in the voting of client proxies. ISS will coordinate with each client's custodian to ensure that proxy materials reviewed by the custodians are processed in a timely fashion. ISS will provide CSAM with an analysis of proxy issues and a vote recommendation for proxy proposals. ISS will refer proxies to the Proxy Voting Committee for instructions when the application of the Policy is not clear. The Proxy Voting Committee will notify ISS of any changes to the Policy or deviating thereof.
