**UNITED STATES
SECURITIES AND EXCHANGE COMMISSION**

Washington, D.C. 20549

FORM 10-Q

**QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES
EXCHANGE ACT OF 1934**

For the quarterly period ended September 30, 2011

OR

**TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES
EXCHANGE ACT OF 1934**

**For the transition period from _____ to _____
Commission File Number: 00-30747**

PACWEST BANCORP

(Exact name of registrant as specified in its charter)

DELAWARE

(State or other jurisdiction of
incorporation or organization)

33-0885320

(I.R.S. Employer
Identification Number)

**10250 Constellation Blvd., Suite 1640
Los Angeles, California**

(Address of principal executive offices)

90067

(Zip Code)

(310) 286-1144

(Registrant's telephone number, including area code)

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Edgar Filing: PACWEST BANCORP - Form 10-Q

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See definitions of "large accelerated filer," "accelerated filer," and "smaller reporting company" in Rule 12b-2 of the Exchange Act. (Check one):

Large accelerated filer Accelerated filer Non-accelerated filer Smaller reporting company
(Do not check if a
smaller reporting company)

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes No

As of November 1, 2011, there were 35,495,962 shares of the registrant's common stock outstanding, excluding 1,762,870 shares of unvested restricted stock.

PACWEST BANCORP AND SUBSIDIARIES

Notes to Condensed Consolidated Financial Statements

(Unaudited)

NOTE 1 BASIS OF PRESENTATION

PacWest Bancorp is a bank holding company registered under the Bank Holding Company Act of 1956, as amended. Our principal business is to serve as a holding company for our banking subsidiary, Pacific Western Bank, which we refer to as Pacific Western or the Bank. When we say "we", "our" or the "Company", we mean the Company on a consolidated basis with the Bank. When we refer to "PacWest" or to the holding company, we are referring to the parent company on a stand-alone basis.

Pacific Western is a full-service commercial bank offering a broad range of banking products and services including: accepting demand, money market, and time deposits; originating loans, including commercial, real estate construction, SBA-guaranteed and consumer loans; and providing other business-oriented products. Our operations are primarily located in Southern California and extend from California's Central Coast to San Diego County. The Bank focuses on conducting business with small to medium-sized businesses in our marketplace and the owners and employees of those businesses. The majority of our loans are secured by the real estate collateral of such businesses. We also operate three banking offices in the San Francisco Bay area and one office in Arizona, all of which were acquired through FDIC-assisted acquisitions. Our asset-based lending function operates in Arizona, California, Texas, and the Pacific Northwest.

We generate our revenue primarily from interest received on loans and, to a lesser extent, from interest received on investment securities, and fees received in connection with deposit services, extending credit and other services offered, including foreign exchange services. Our major operating expenses are the interest paid by the Bank on deposits and borrowings, compensation and general operating expenses. The Bank relies on a foundation of locally generated and relationship-based deposits. The Bank has a relatively low cost of funds due to a high percentage of noninterest-bearing and low cost deposits.

We completed 22 acquisitions since May 2000.

Basis of Presentation

The accounting and reporting policies of the Company are in accordance with U.S. generally accepted accounting principles, which we may refer to as GAAP. All significant intercompany balances and transactions have been eliminated.

Our financial statements reflect all adjustments that are, in the opinion of management, necessary to present a fair statement of the results for the interim periods presented. Certain information and note disclosures normally included in consolidated financial statements prepared in accordance with GAAP have been condensed or omitted pursuant to the rules and regulations of the Securities and Exchange Commission. The interim operating results are not necessarily indicative of operating results for the full year.

Use of Estimates

Management of the Company has made a number of estimates and assumptions relating to the reporting of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the consolidated financial statements and the reported amounts of revenue and expenses during the reporting period to prepare these consolidated financial statements in conformity with GAAP. Actual results could differ from those estimates. Material estimates subject to change in the near term include,

Table of Contents

PACWEST BANCORP AND SUBSIDIARIES

Notes to Condensed Consolidated Financial Statements (Continued)

(Unaudited)

NOTE 1 BASIS OF PRESENTATION (Continued)

among other items, the allowances for credit losses, the carrying value of other real estate owned, the carrying value of intangible assets, the carrying value of the FDIC loss sharing asset and the realization of deferred tax assets.

In August 2010, Pacific Western acquired assets and assumed liabilities of the former Los Padres Bank ("Los Padres") in an FDIC-assisted transaction, which we refer to as the Los Padres acquisition. The acquired assets and assumed liabilities were measured at their estimated fair values. Management made significant estimates and exercised significant judgment in estimating fair values and accounting for the acquired assets and assumed liabilities in the Los Padres acquisition.

Reclassifications

Certain prior period amounts have been reclassified to conform to the current period's presentation format. During the second quarter of 2011, we reclassified recoveries on covered loans such that recoveries now reduce the credit loss provision for covered loans rather than increase FDIC loss sharing income. Such reclassifications had no effect on reported net earnings or losses.

NOTE 2 GOODWILL AND OTHER INTANGIBLE ASSETS

Goodwill arises from business combinations and represents the excess of the purchase price over the fair value of the net assets and other identifiable intangible assets acquired. Goodwill and other intangible assets deemed to have indefinite lives generated from purchase business combinations are not subject to amortization and are instead tested for impairment no less than annually. Impairment is determined in accordance with ASC 350, "*Intangibles Goodwill and Other*" and is based on the reporting unit. Impairment exists when the carrying value of goodwill exceeds its implied fair value. An impairment loss would be recognized in an amount equal to that excess and would be included in noninterest expense in the consolidated statement of earnings (loss). Our annual impairment test of goodwill resulted in no impact on our results of operations and financial condition.

Goodwill in the amount of \$46.8 million was recorded in the Los Padres acquisition. During the second quarter of 2011, we reduced goodwill by \$7.6 million as the matter with the FDIC regarding settlement accounting for a wholly-owned subsidiary in the Los Padres acquisition was resolved. A receivable for such amount was included in the FDIC loss sharing asset at June 30, 2011 and the cash was received during the third quarter of 2011.

Our intangible assets with definite lives are core deposit intangibles, or CDI, and customer relationship intangibles, or CRI. These intangible assets are amortized over their useful lives to their estimated residual values and reviewed for impairment at least quarterly. The amortization expense represents the estimated decline in the value of the underlying deposits or loan customers acquired.

Table of Contents**PACWEST BANCORP AND SUBSIDIARIES****Notes to Condensed Consolidated Financial Statements (Continued)****(Unaudited)****NOTE 2 GOODWILL AND OTHER INTANGIBLE ASSETS (Continued)**

The following table presents the changes in CDI and CRI and the related accumulated amortization for the periods indicated:

	Three Months Ended			Nine Months Ended	
	September 30, 2011	June 30, 2011	September 30, 2010	September 30, 2011	September 30, 2010
	(In thousands)				
Gross amount of CDI and CRI:					
Balance, beginning of period	\$ 73,629	\$ 76,319	\$ 75,911	\$ 76,319	\$ 75,911
Additions			2,427		
Fully amortized portion	(6,529)	(2,690)		(9,219)	2,427
Balance, end of period	67,100	73,629	78,338	67,100	78,338
Accumulated amortization:					
Balance, beginning of period	(52,401)	(52,783)	(47,463)	(50,476)	(42,615)
Amortization	(1,977)	(2,308)	(2,434)	(6,592)	(7,282)
Fully amortized portion	6,529	2,690		9,219	
Balance, end of period	(47,849)	(52,401)	(49,897)	(47,849)	(49,897)
Net CDI and CRI, end of period	\$ 19,251	\$ 21,228	\$ 28,441	\$ 19,251	\$ 28,441

The aggregate amortization expense related to the intangible assets is expected to be \$8.4 million for 2011. The estimated aggregate amortization expense related to these intangible assets for each of the subsequent four years is \$6.1 million for 2012, \$4.5 million for 2013, \$2.9 million for 2014, and \$2.7 million for 2015.

NOTE 3 INVESTMENT SECURITIES*Securities Available-for-Sale*

The amortized cost, gross unrealized gains and losses and estimated fair values of securities available-for-sale are presented in the tables below as of the dates indicated. The private label collateralized mortgage obligations were acquired in the FDIC-assisted acquisition of Affinity Bank ("Affinity") in August 2009 and are covered by a FDIC loss sharing agreement. Other securities include

Total securities available-for-sale	\$ 867,173	\$ 16,644	\$ (9,801)	\$ 874,016

Mortgage-backed securities have contractual terms to maturity and require periodic payments to reduce principal. In addition, expected maturities may differ from contractual maturities because obligors and/or issuers may have the right to call or prepay obligations with or without

call or prepayment penalties.

Total securities available-for-sale	\$ 1,221,561	\$ 1,261,776

At September 30, 2011, the estimated fair value of debt securities and residential mortgage-backed debt securities issued by the Federal National Mortgage Association ("Fannie Mae") and the Federal Home Loan Mortgage Corporation ("Freddie Mac") was approximately \$1.0 billion. We do not own any equity securities issued by Fannie Mae or Freddie Mac.

As of September 30, 2011, securities available-for-sale with an estimated fair value of \$77.2 million were pledged as collateral for borrowings, public deposits and other purposes as required by various statutes and agreements.

The following tables present the estimated fair values and the gross unrealized losses on securities by length of time the securities have been in an unrealized loss position as of the dates indicated:

Total	\$ 338,806	\$ (8,165)	\$ 6,533	\$ (1,636)	\$ 345,339	\$ (9,801)

We reviewed the securities that were in a continuous loss position less than 12 months and longer than 12 months at September 30, 2011, and concluded that their losses were a result of the level of market interest rates relative to the types of securities and not a result of the underlying issuers' abilities to repay. Accordingly, we determined that the securities were temporarily impaired. Additionally, we have no plans to sell these securities and believe that it is more likely than not we would not be required to sell these securities before recovery of their amortized cost. Therefore, we did not recognize the temporary impairment in the consolidated statements of earnings (loss).

FHLB Stock

At September 30, 2011, the Company had a \$48.3 million investment in Federal Home Loan Bank of San Francisco (FHLB) stock carried at cost. In January 2009, the FHLB announced that it suspended excess FHLB stock redemptions and dividend payments. Since this announcement, the FHLB has declared and paid cash dividends in 2010 and 2011, though at rates less than that paid in the past, and repurchased certain amounts of our excess stock. We evaluated the carrying value of our FHLB stock investment at September 30, 2011 and determined that it was not impaired. Our evaluation considered the long-term nature of the investment, the current financial and liquidity position of the FHLB, the actions being taken by the FHLB to address its regulatory situation, and our intent and ability to hold this investment for a period of time sufficient to recover our recorded investment.

The following table presents the credit risk rating categories for non-covered loans by portfolio segment and class as of the dates indicated. Nonclassified loans are those with a credit risk rating of either pass or special mention, while classified loans are those with a credit risk rating of either substandard or doubtful.

Our federal and state banking regulators, as an integral part of their examination process, periodically review the Company's loan risk rating classifications. Our regulators may require the Company to recognize rating downgrades based on their judgments related to information available to

Table of Contents**PACWEST BANCORP AND SUBSIDIARIES****Notes to Condensed Consolidated Financial Statements (Continued)****(Unaudited)****NOTE 4 LOANS (Continued)**

them at the time of their examinations. Risk rating downgrades generally result in higher provisions for credit losses.

At September 30, 2011 and December 31, 2010, the Company had no non-covered loans that were greater than 90 days past due and still accruing interest. It is the Company's policy to discontinue accruing interest when principal or interest payments are past due 90 days or when, in the opinion of management, there is a reasonable doubt as to collectibility of a loan in the normal course of business. At September 30, 2011, nonaccrual loans totaled \$60.0 million. Nonaccrual loans include \$3.5 million of loans 30 to 89 days past due and \$33.9 million of current loans which have been placed on nonaccrual status based on management's judgment regarding the collectibility of such loans.

Notes to Condensed Consolidated Financial Statements (Continued)

(Unaudited)

NOTE 4 LOANS (Continued)

The decrease in the real estate construction impaired loan segment is due to the foreclosure on undeveloped land located in Ventura County which secured two non-covered loans with an aggregate balance of \$23.0 million. The decrease in the commercial impaired loan segment is due to two loans that have performed in accordance with their restructured terms for at least 12 months and have been removed from this category.

- (1) Represents the balance at September 30, 2011 and is net of charge-offs of \$2.1 million and \$3.0 million for the three and nine months ended September 30, 2011, respectively.

- (2) The population of defaulted restructured loans for the periods indicated includes only those loans restructured during the preceeding 12-month period. The table excludes defaulted troubled debt restructurings in those classes for which the recorded investment was zero at September 30, 2011.

Table of Contents**PACWEST BANCORP AND SUBSIDIARIES****Notes to Condensed Consolidated Financial Statements (Continued)****(Unaudited)****NOTE 4 LOANS (Continued)**

As a result of adopting the amendments in Accounting Standards Update No. 2011-02, *Receivables (Topic 310): A Creditors Determination of Whether a Restructuring is a Troubled Debt Restructuring*, we reassessed all restructurings that occurred on or after January 1, 2011, for identification as troubled debt restructurings. We identified one loan as a troubled debt restructuring (TDR) for which the allowance for credit losses had previously been measured under our general allowance for credit losses methodology. Upon identifying this one loan as a TDR, we recognized it as impaired under the guidance in Section 310-10-35. The amendments in Accounting Standards Update No. 2011-02 require prospective application of the impairment measurement guidance in Section 310-10-35 for those loans newly identified as impaired. At the end of the first interim period of adoption (September 30, 2011), the recorded investment in this loan was \$2.1 million and the allowance for credit losses associated with that receivable on the basis of a current evaluation of loss was \$163,000.

Covered Loans

We refer to the loans acquired in the Los Padres and Affinity acquisitions subject to loss sharing agreements with the FDIC as "covered loans" as we will be reimbursed for a substantial portion of any future losses on them under the terms of the agreements.

The following table reflects the carrying values of covered loans as of the dates indicated:

Loan Category	September 30, 2011	December 31, 2010
	(In thousands)	
Multi-family	\$ 267,892	\$ 321,650

The following table summarizes the changes in the carrying amount of covered acquired impaired loans and accretible yield on those loans for the period indicated:

	Covered Acquired Impaired Loans	
	Carrying Amount	Accretible Yield
	(In thousands)	
Balance, January 1, 2011	\$ 879,486	\$ (290,665)
Accretion	50,875	50,875
Payments received	(189,826)	
Increase in expected cash flows, net		(37,685)
Provision for credit losses	(9,148)	
Balance, September 30, 2011	\$ 731,387	\$ (277,475)

The table above excludes the covered loans from the Los Padres acquisition which are accounted for as non-impaired loans and totaled \$29.7 million and \$29.1 million at September 30, 2011 and December 31, 2010, respectively.

The following table presents the credit risk rating categories for covered loans by portfolio segment as of the dates indicated. Nonclassified loans are those with a credit risk rating of either pass or special mention, while classified loans are those with a credit risk rating of either substandard or doubtful. It should be noted, however, that all of these loans are covered by loss sharing agreements with the FDIC.

	September 30, 2011			December 31, 2010		
	Nonclassified	Classified	Total	Nonclassified	Classified	Total

Total covered loans	\$ 535,632	\$ 225,427	\$ 761,059	\$ 659,559	\$ 249,017	\$ 908,576

Our federal and state banking regulators, as an integral part of their examination process, periodically review the Company's loan risk rating classifications. Our regulators may require the Company to recognize rating downgrades based on their judgments related to information available to them at the time of their examinations.

(1) Represents amounts due to participants and for guarantees, property taxes or other prior lien positions.

NOTE 6 FDIC LOSS SHARING ASSET

Edgar Filing: PACWEST BANCORP - Form 10-Q

The FDIC loss sharing asset was initially recorded at fair value, which represented the present value of the estimated cash payments from the FDIC for future losses on covered assets. The ultimate collectibility of this asset is dependent upon the performance of the underlying covered assets, the

Table of Contents**PACWEST BANCORP AND SUBSIDIARIES****Notes to Condensed Consolidated Financial Statements (Continued)****(Unaudited)****NOTE 6 FDIC LOSS SHARING ASSET (Continued)**

passage of time and claims paid by the FDIC. The following table presents the changes in the FDIC loss sharing asset for the period indicated:

	FDIC Loss Sharing Asset (In thousands)
Balance, January 1, 2011	\$ 116,352
FDIC share of additional losses, net of recoveries ⁽¹⁾	18,347
Cash received from FDIC	(45,148)
Net accretion	(354)
Balance, September 30, 2011	\$ 89,197

⁽¹⁾ Includes \$7.6 million related to resolution of goodwill matter with the FDIC.

NOTE 7 BORROWINGS, SUBORDINATED DEBENTURES AND BROKERED DEPOSITS***Borrowings***

The following table summarizes our outstanding FHLB advances by their contractual maturity dates as of the date indicated:

Contractual Maturity Date	September 30, 2011		Next Date Callable by FHLB⁽¹⁾
	Amount	Interest Rate	
	(In thousands)		
December 11, 2017	\$ 200,000	3.16%	December 12, 2011
January 11, 2018	25,000	2.61%	January 11, 2012
Total FHLB advances	\$ 225,000	3.10%	

⁽¹⁾ Callable quarterly.

The FHLB advances outstanding at September 30, 2011 are each callable term advances. The maturities shown are the contractual maturities for the advances. The advances have each passed their initial call dates and are currently callable on a quarterly basis by the FHLB. While the FHLB may call the advances to be repaid for any reason, they are likely to be called if market interest rates, for borrowings of similar remaining term, are higher than the advances' stated rates on the call dates. We may repay the advances at any time with a prepayment penalty. Our aggregate remaining borrowing capacity under the FHLB secured lines of credit was \$1.2 billion at September 30, 2011. As of September 30, 2011, approximately \$2.8 billion of real estate and commercial loans and securities with a carrying value of \$43.0 million were

Edgar Filing: PACWEST BANCORP - Form 10-Q

pledged to secure our FHLB advances. Additionally, the Bank had secured borrowing capacity from the Federal Reserve discount window of \$375.0 million at September 30, 2011. As of September 30, 2011, \$469.5 million of real estate construction and commercial loans not pledged to the FHLB were pledged to secure the Federal Reserve borrowing capacity. The Bank also maintains unsecured lines of credit of \$92.0 million with correspondent banks for the purchase of overnight funds; these lines are subject to availability of funds.

PACWEST BANCORP AND SUBSIDIARIES

Notes to Condensed Consolidated Financial Statements (Continued)

(Unaudited)

NOTE 7 BORROWINGS, SUBORDINATED DEBENTURES AND BROKERED DEPOSITS (Continued)

Subordinated Debentures

The Company had an aggregate amount of \$129.3 million in subordinated debentures outstanding at September 30, 2011. These subordinated debentures were issued in seven separate series. Each issuance had a maturity of thirty years from its date of issue. The subordinated debentures were issued to trusts established by us or entities we have acquired, which in turn issued trust preferred securities, which totaled \$123.0 million at September 30, 2011. These trust preferred securities are considered Tier 1 capital for regulatory purposes.

The subordinated debentures are each callable at par with the exception of Trust I and Trust CI, which are callable at par with a prepayment penalty, and only by the issuer. The prepayment penalty for Trust I and Trust CI diminishes over time such that they may be called at par in the year 2020.

The proceeds of the subordinated debentures we originated were used primarily to fund several of our acquisitions and to augment regulatory capital. Interest payments made by the Company on subordinated debentures are considered dividend payments by the Federal Reserve Bank, or FRB. As such, notification to the FRB is required prior to our intent to pay such interest during any period in which our cumulative net earnings for the previous four quarters are not sufficient to fund the interest payments due for those periods and the current period. Should the FRB object to payment of interest on the subordinated debentures, we would not be able to make the payments until approval is received.

Table of Contents**PACWEST BANCORP AND SUBSIDIARIES****Notes to Condensed Consolidated Financial Statements (Continued)****(Unaudited)****NOTE 7 BORROWINGS, SUBORDINATED DEBENTURES AND BROKERED DEPOSITS (Continued)**

The following table summarizes the terms of each issuance of the subordinated debentures outstanding as of September 30, 2011:

Series	Date Issued	September 30, 2011 Amount (In thousands)	Maturity Date	Earliest Call Date by Company Without Penalty	Fixed or Variable Rate	Rate Index	Current Rate ⁽²⁾	Next Reset Date
Trust CI	3/23/00	\$ 10,310	3/8/30	3/8/20	Fixed	N/A	11.00%	N/A
Trust I	9/7/00	8,248	9/7/30	9/7/20	Fixed	N/A	10.60%	N/A
Trust V	8/15/03	10,310	9/17/33	(1)	Variable	LIBOR + 3.10 3 month	3.45%	12/15/11
Trust VI	9/3/03	10,310	9/15/33	(1)	Variable	LIBOR + 3.05 3 month	3.40%	12/13/11
Trust CII	9/17/03	5,155	9/17/33	(1)	Variable	LIBOR + 2.95 3 month	3.30%	12/15/11
Trust VII	2/5/04	61,856	4/23/34	(1)	Variable	LIBOR + 2.75 3 month	3.18%	1/27/12
Trust CIII	8/15/05	20,619	9/15/35	(1)	Variable	LIBOR + 1.69 3 month	2.04%	12/13/11
Gross subordinated debentures		126,808						
Unamortized premium ⁽³⁾		2,539						
Net subordinated debentures		\$ 129,347						

(1) These debentures may be called without prepayment penalty.

(2) As of October 27, 2011.

(3) This amount represents the fair value adjustment on the subordinated debentures issued to the trusts of acquired companies.

As previously mentioned, the subordinated debentures were issued to trusts established by us, or entities we acquired, which in turn issued \$123.0 million of trust preferred securities. The Company includes in Tier 1 capital an amount of trust preferred securities equal to no more than 25% of the sum of all core capital elements, which is generally defined as shareholders' equity less goodwill, net of any related deferred income tax liability. At September 30, 2011, the amount of trust preferred securities included in Tier I capital was \$123.0 million.

Brokered Deposits

Edgar Filing: PACWEST BANCORP - Form 10-Q

Brokered deposits totaled \$45.0 million at September 30, 2011 and are included in the interest-bearing deposits balance on the accompanying condensed consolidated balance sheets. Such amount represented customer deposits that were subsequently participated with other FDIC-insured financial institutions through the CDARS program as a means to provide FDIC deposit insurance coverage for the full amount of our customers' deposits.

PACWEST BANCORP AND SUBSIDIARIES

Notes to Condensed Consolidated Financial Statements (Continued)

(Unaudited)

NOTE 8 COMMITMENTS AND CONTINGENCES

Lending Commitments

The Bank is a party to financial instruments with off-balance sheet risk in the normal course of business to meet the financing needs of its customers. These financial instruments include commitments to extend credit and standby letters of credit. Those instruments involve, to varying degrees, elements of credit risk in excess of the amount recognized in the consolidated balance sheets. The contract or notional amounts of those instruments reflect the extent of involvement the Company has in particular classes of financial instruments.

Commitments to extend credit are agreements to lend to a customer as long as there is no violation of any condition established in the contract. Commitments generally have fixed expiration dates or other termination clauses and may require payment of a fee. Since many of the commitments are expected to expire without being drawn upon, the total commitment amounts do not necessarily represent future cash requirements. Commitments to extend credit totaled \$686.8 million and \$723.1 million at September 30, 2011 and December 31, 2010, respectively.

Standby letters of credit are conditional commitments issued by the Company to guarantee the performance of a customer to a third party. Those guarantees are primarily issued to support private borrowing arrangements. Most guarantees expire within one year from the date of issuance. The Company generally requires collateral or other security to support financial instruments with credit risk. Standby letters of credit totaled \$31.9 million and \$23.7 million at September 30, 2011 and December 31, 2010, respectively.

The Company has investments in low income housing project partnerships, which provide the Company income tax credits, and in a few small business investment companies. As of September 30, 2011, the Company had commitments to contribute capital to these entities totaling \$7.3 million.

Legal Matters

In the ordinary course of our business, we are party to various legal actions, which we believe are incidental to the operation of our business. The outcome of such legal actions and the timing of ultimate resolution are inherently difficult to predict. Because of these factors, the Company cannot provide a meaningful estimate of the range of reasonably possible outcomes of claims in the aggregate or by individual claim. In the opinion of management, based upon information currently available to us, any resulting liability is not likely to have a material adverse effect on the Company's consolidated financial position, results of operations or cash flows.

NOTE 9 FAIR VALUE MEASUREMENTS

ASC 820, *Fair Value Measurements and Disclosures*, defines fair value, establishes a framework for measuring fair value including a three-level valuation hierarchy, and expands disclosures about fair value measurements. Fair value is defined as the exchange price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date reflecting assumptions that a market participant would use when pricing an asset or liability. The hierarchy uses three levels of inputs to measure the fair value of assets and liabilities as follows:

Level 1: Quoted prices (unadjusted) for identical assets or liabilities in active markets.

PACWEST BANCORP AND SUBSIDIARIES

Notes to Condensed Consolidated Financial Statements (Continued)

(Unaudited)

NOTE 9 FAIR VALUE MEASUREMENTS (Continued)

Level 2: Observable inputs other than Level 1, including quoted prices for similar assets and liabilities in active markets, quoted prices in less active markets, or other observable inputs that can be corroborated by observable market data, either directly or indirectly, for substantially the full term of the financial instrument. This category generally includes U.S. government and agency securities.

Level 3: Inputs to a valuation methodology that are unobservable, supported by little or no market activity, and significant to the fair value measurement. These valuation methodologies generally include pricing models, discounted cash flow models, or a determination of fair value that requires significant management judgment or estimation. This category also includes observable inputs from a pricing service not corroborated by observable market data, such as pricing covered private label CMOs.

We use fair value to measure certain assets on a recurring basis, primarily securities available-for-sale; we have no liabilities being measured at fair value. For assets measured at the lower of cost or fair value, the fair value measurement criteria may or may not be met during a reporting period and such measurements are therefore considered "nonrecurring" for purposes of disclosing our fair value measurements. Fair value is used on a nonrecurring basis to adjust carrying values for impaired loans and other real estate owned and also to record impairment on certain assets, such as goodwill, core deposit intangibles and other long-lived assets.

Table of Contents**PACWEST BANCORP AND SUBSIDIARIES****Notes to Condensed Consolidated Financial Statements (Continued)****(Unaudited)****NOTE 9 FAIR VALUE MEASUREMENTS (Continued)**

The following tables present information on the assets measured and recorded at fair value on a recurring and nonrecurring basis as of the date indicated:

	Fair Value Measurement as of September 30, 2011			
	Total	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
	(In thousands)			
Measured on a Recurring Basis:				
Securities available-for-sale:				
Government and government-sponsored entity residential mortgage-backed securities	\$ 1,104,386	\$	\$ 1,104,386	\$
Covered private label CMOs	47,213			47,213
Municipal securities	93,227		93,227	
Corporate securities	14,642		14,642	
Other securities	2,308		2,308	
	\$ 1,261,776	\$	\$ 1,214,563	\$ 47,213
Measured on a Nonrecurring Basis:				
Non-covered impaired loans	\$ 112,360	\$	\$ 23,597	\$ 88,763
Non-covered other real estate owned	40,683		13,436	27,247
Covered other real estate owned	16,449		15,037	1,412
SBA loan servicing asset	1,334			1,334
	\$ 170,826	\$	\$ 52,070	\$ 118,756

There were no significant transfers of assets between Level 1 and Level 2 of the fair value hierarchy during the three months ended September 30, 2011.

The following table presents gains and (losses) on assets measured on a nonrecurring basis for the periods indicated:

	Three Months Ended September 30, 2011	Nine Months Ended September 30, 2011
	(In thousands)	
Non-covered impaired loans	\$ (9,615)	\$ (16,388)
Non-covered other real estate owned	(1,676)	(3,549)
Covered other real estate owned	(7,982)	(8,561)
SBA loan servicing asset	72	2
Total gain (loss) on assets measured on a nonrecurring basis	\$ (19,201)	\$ (28,496)

Table of Contents**PACWEST BANCORP AND SUBSIDIARIES****Notes to Condensed Consolidated Financial Statements (Continued)****(Unaudited)****NOTE 9 FAIR VALUE MEASUREMENTS (Continued)**

The following table summarizes activity for assets measured at fair value on a recurring basis using significant unobservable inputs (Level 3) for the period indicated:

	Covered Private Label CMOs (Level 3)
	(In thousands)
Beginning as of January 1, 2011	\$ 50,437
Total realized in earnings	1,572
Total unrealized in comprehensive income	315
Net settlements	(5,111)
Balance, September 30, 2011	\$ 47,213

ASC Topic 825, *Financial Instruments*, requires disclosure of the estimated fair value of certain financial instruments and the methods and significant assumptions used to estimate such fair values. Additionally, certain financial instruments and all nonfinancial instruments are excluded from the applicable disclosure requirements. The following table is a summary of the carrying values and estimated fair values of certain financial instruments as of the dates indicated:

	September 30, 2011		December 31, 2010	
	Carrying or Contract Amount	Estimated Fair Value	Carrying or Contract Amount	Estimated Fair Value
	(In thousands)			
Financial Assets:				
Cash and due from banks	\$ 94,112	\$ 94,112	\$ 82,170	\$ 82,170
Interest-earning deposits in financial institutions	73,209	73,209	26,382	26,382
Securities available-for-sale	1,261,776	1,261,776	874,016	874,016
Investment in FHLB stock	48,342	48,342	55,040	55,040
Loans, net ⁽¹⁾	3,564,586	3,588,445	3,970,978	3,960,244
Financial Liabilities:				
Deposits	4,554,396	4,566,531	4,649,698	4,664,575
Borrowings	225,000	249,588	225,000	243,273
Subordinated debentures	129,347	135,972	129,572	135,876

(1) The fair value of loans exceeded the carrying value at September 30, 2011, while the fair value of loans at December 31, 2010 were below the carrying value. To calculate the fair value we apply a discount rate similar to the rate offered on loans at the time of the analysis. The reason for the change in the relationship of fair value to carrying value of loans at September 30, 2011 compared to December 31, 2010 is that the offered rate for certain of our commercial real estate loans was lower in September 2011 compared to December 2010 resulting in a lower discount rate and a relatively higher fair value.

The following is a description of the valuation methodologies used to measure our assets recorded at fair value (under ASC Topic 820) and for estimating fair value for financial instruments not recorded at fair value (under ASC Topic 825).

Table of Contents

PACWEST BANCORP AND SUBSIDIARIES

Notes to Condensed Consolidated Financial Statements (Continued)

(Unaudited)

NOTE 9 FAIR VALUE MEASUREMENTS (Continued)

Cash and due from banks. The carrying amount is assumed to be the fair value because of the liquidity of these instruments.

Interest-earning deposits in financial institutions. The carrying amount is assumed to be the fair value given the short-term nature of these deposits.

Securities available-for-sale. Securities available-for-sale are measured and carried at fair value on a recurring basis. Unrealized gains and losses on available-for-sale securities are reported as a component of accumulated other comprehensive income on the condensed consolidated balance sheets. See Note 3, *Investment Securities*, for further information on unrealized gains and losses on securities available-for-sale.

In determining the fair value of the securities categorized as Level 2, we obtain a report from a nationally recognized broker-dealer detailing the fair value of each investment security we hold as of each reporting date. The broker-dealer uses observable market information to value our securities, with the primary source being a nationally recognized pricing service. We review the market prices provided by the broker-dealer for our securities for reasonableness based on our understanding of the marketplace and we consider any credit issues related to the securities. As we have not made any adjustments to the market quotes provided to us and they are based on observable market data, they have been categorized as Level 2 within the fair value hierarchy.

Our covered private label collateralized mortgage obligation securities, which we refer to as private label CMOs, are categorized as Level 3 due in part to the inactive market for such securities. There is a wide range of prices quoted for private label CMOs among independent third party pricing services and this range reflects the significant judgment being exercised over the assumptions and variables that determine the pricing of such securities. We consider this subjectivity to be a significant unobservable input and have concluded the private label CMOs should be categorized as a Level 3 measured asset. While the private label CMOs may be based on significant unobservable inputs, our fair value was based on prices provided to us by a nationally recognized pricing service which we also use to determine the fair value of the majority of our securities portfolio. We determined the reasonableness of the fair values by reviewing assumptions at the individual security level about prepayment, default expectations, estimated severity loss factors, projected cash flows and estimated collateral performance, all of which are not directly observable in the market.

FHLB stock. The fair value of FHLB stock is based on our recorded investment. In January 2009, the FHLB announced that it had suspended excess FHLB stock redemptions and dividend payments. Since this announcement, the FHLB has declared and paid cash dividends in 2010 and 2011, though at rates less than that paid in the past, and repurchased certain amounts of our excess stock. As a result of these actions, we evaluated the carrying value of our FHLB stock investment. Based on the FHLB's most recent publicly available financial results, its capital position and its bond ratings, we concluded such investment was not impaired at either September 30, 2011 or December 31, 2010.

Non-covered loans. As non-covered loans are not measured at fair value, the following discussion relates to estimating the fair value disclosures under ASC Topic 825. Fair values are estimated for portfolios of loans with similar financial characteristics. Loans are segregated by type and further segmented into fixed and adjustable rate interest terms and by credit risk categories. The fair value

Table of Contents

PACWEST BANCORP AND SUBSIDIARIES

Notes to Condensed Consolidated Financial Statements (Continued)

(Unaudited)

NOTE 9 FAIR VALUE MEASUREMENTS (Continued)

estimates do not take into consideration the value of the loan portfolio in the event the loans are sold outside the parameters of normal operating activities. The fair value of performing fixed rate loans is estimated by discounting scheduled cash flows through the estimated maturity using estimated market prepayment speeds and estimated market discount rates that reflect the credit and interest rate risk inherent in the loans. The estimated market discount rates used for performing fixed rate loans are the Company's current offering rates for comparable instruments with similar terms. The fair value of performing adjustable rate loans is estimated by discounting scheduled cash flows through the next repricing date. As these loans reprice frequently at market rates and the credit risk is not considered to be greater than normal, the market value is typically close to the carrying amount of these loans.

Non-covered impaired loans. Nonaccrual loans and performing restructured loans are considered impaired for reporting purposes and are measured and recorded at fair value on a non-recurring basis. Non-covered nonaccrual loans with an unpaid principal balance over \$250,000 and all performing restructured loans are reviewed individually for the amount of impairment, if any. Non-covered nonaccrual loans with an unpaid principal balance of \$250,000 or less are evaluated for impairment collectively.

To the extent a loan is collateral dependent, we measure such impaired loan based on the estimated fair value of the underlying collateral. The fair value of each loan's collateral is generally based on estimated market prices from an independently prepared appraisal, which is then adjusted for the cost related to liquidating such collateral; such valuation inputs result in a nonrecurring fair value measurement that is categorized as a Level 2 measurement.

When adjustments are made to an appraised value to reflect various factors such as the age of the appraisal or known changes in the market or the collateral, such valuation inputs are considered unobservable and the fair value measurement is categorized as a Level 3 measurement. The impaired loans categorized as Level 3 also include unsecured loans and other secured loans whose fair values are based significantly on unobservable inputs such as the strength of a guarantor, including an SBA government guarantee, cash flows discounted at the effective loan rate, and management's judgment.

The non-covered impaired loan balances shown above represent those nonaccrual and restructured loans for which impairment was recognized during the three and nine months ended September 30, 2011. The amounts shown as losses represent, for the loan balances shown, the impairment recognized during the three and nine months ended September 30, 2011. We recorded \$869,000 and \$3.5 million in losses on impaired loans for the three and nine months ended September 30, 2011, respectively, for loans with a fair value of zero as of September 30, 2011. Of the \$60.0 million of nonaccrual loans at September 30, 2011, \$11.6 million were written down to their fair values through charge-offs during the quarter.

Other real estate owned. The fair value of foreclosed real estate, both non-covered and covered, is generally based on estimated market prices from independently prepared current appraisals or negotiated sales prices with potential buyers, less estimated costs to sell; such valuation inputs result in a fair value measurement that is categorized as a Level 2 measurement on a nonrecurring basis. As a matter of policy, appraisals are required annually and may be updated more frequently as circumstances require in the opinion of management. With the deterioration of real estate values

PACWEST BANCORP AND SUBSIDIARIES

Notes to Condensed Consolidated Financial Statements (Continued)

(Unaudited)

NOTE 9 FAIR VALUE MEASUREMENTS (Continued)

during this economic downturn, appraisals have been obtained more regularly and as a result our Level 2 measurement is based on appraisals that are generally less than nine months old.

When a current appraised value is not available or management determines the fair value of the collateral is further impaired below the appraised value as a result of known changes in the market or the collateral and there is no observable market price, such valuation inputs result in a fair value measurement that is categorized as a Level 3 measurement. To the extent a negotiated sales price or reduced listing price represents a significant discount to an observable market price, such valuation input would result in a fair value measurement that is also considered a Level 3 measurement. The OREO losses shown above are write-downs based on either a recent appraisal obtained after foreclosure or an accepted purchase offer by an independent third party received after foreclosure.

SBA servicing asset. In accordance with ASC Topic 860, *Accounting for Servicing of Financial Assets*, the SBA servicing asset, included in other assets in the condensed consolidated balance sheets, is carried at its implied fair value. The fair value of the servicing asset is estimated by discounting future cash flows using market-based discount rates and prepayment speeds. The discount rate is based on the current US Treasury yield curve, as published by the Department of the Treasury, plus a spread for the marketplace risk associated with these assets. We utilize estimated prepayment vectors using SBA prepayment information provided by Bloomberg for pools of similar assets to determine the timing of the cash flows. These nonrecurring valuation inputs are considered to be Level 3 inputs.

Deposits. Deposits are carried at historical cost. The fair value of deposits with no stated maturity, such as noninterest bearing demand deposits, savings and checking accounts, is equal to the amount payable on demand as of the balance sheet date. The fair value of time deposits is based on the discounted value of contractual cash flows. The discount rate is estimated using the rates currently offered for deposits of similar remaining maturities. No value has been separately assigned to the Company's long-term relationships with its deposit customers, such as a core deposit intangible.

Borrowings. Borrowings are carried at amortized cost. The fair value of fixed rate borrowings is calculated by discounting scheduled cash flows through the estimated maturity dates or call dates, if applicable, using estimated market discount rates that reflect current rates offered for borrowings with similar remaining maturities and characteristics.

Subordinated debentures. Subordinated debentures are carried at amortized cost. The fair value of the subordinated debentures is based on the discounted value of contractual cash flows for fixed rate securities. The discount rate is estimated using the rates currently offered for similar securities of similar maturity. The fair value of subordinated debentures with variable rates is deemed to be the carrying value.

Commitments to extend credit and standby letters of credit. The majority of our commitments to extend credit carry current market interest rates if converted to loans. Because these commitments are generally unassignable by either the borrower or us, they only have value to the borrower and us. The estimated fair value approximates the recorded deferred fee amounts and is not disclosed as it is not material.

NOTE 9 FAIR VALUE MEASUREMENTS (Continued)

Limitations

Fair value estimates are made at a specific point in time and are based on relevant market information and information about the financial instrument. These estimates do not reflect income taxes or any premium or discount that could result from offering for sale at one time the Company's entire holdings of a particular financial instrument. Because no market exists for a portion of the Company's financial instruments, fair value estimates are based on what management believes to be conservative judgments regarding expected future cash flows, current economic conditions, risk characteristics of various financial instruments, and other factors. These estimated fair values are subjective in nature and involve uncertainties and matters of significant judgment and therefore cannot be determined with precision. Changes in assumptions could significantly affect the estimates. Since the fair values have been estimated as of September 30, 2011, the amounts that will actually be realized or paid at settlement or maturity of the instruments could be significantly different.

(Unaudited)

NOTE 11 STOCK COMPENSATION PLANS

Restricted Stock

At September 30, 2011, there were outstanding 912,870 shares of unvested time-based restricted common stock and 850,000 shares of unvested performance-based restricted common stock. The awarded shares of time-based restricted common stock vest over a service period of three to five years from the date of the grant. The awarded shares of performance-based restricted common stock vest in full on the date the Compensation, Nominating and Governance, or CNG, Committee of the Board of Directors, as Administrator of the Company's 2003 Stock Incentive Plan, or the 2003 Plan, determines that the Company achieved certain financial goals established by the CNG Committee as set forth in the grant documents. Both time-based and performance-based restricted common stock vest immediately upon a change in control of the Company as defined in the 2003 Plan and upon death of the employee.

In March 2011, the CNG awarded 350,000 shares of performance-based restricted common stock, which will expire on March 31, 2016 if the net earnings performance target established for such awards is not met. Such restricted stock will vest upon a change in control, however, as defined in the 2003 Plan. We have determined that it is not probable at the present time that the net earnings performance target will be achieved. Accordingly, no expense is being recognized for these shares.

Compensation expense related to time-based restricted stock awards is based on the fair value of the underlying stock on the award date and is recognized over the vesting period using the straight-line method. Restricted stock amortization totaled \$2.1 million for each of the three months ended September 30, 2011, June 30, 2011, and September 30, 2010, respectively, and \$6.2 million and \$6.6 million for the nine months ended September 30, 2011 and 2010, respectively. Such amounts are included in compensation expense on the accompanying condensed consolidated statements of earnings (loss).

Currently no compensation expense is being recognized for any performance-based restricted stock awards as management has concluded that it is improbable that the respective financial targets for any outstanding performance-based restricted stock awards will be met. If and when the attainment of such financial targets is deemed probable in future periods, a catch-up adjustment will be recorded and amortization of such performance-based restricted stock will begin again. The total amount of unrecognized compensation expense related to all performance-based restricted stock for which

Table of Contents**PACWEST BANCORP AND SUBSIDIARIES****Notes to Condensed Consolidated Financial Statements (Continued)****(Unaudited)****NOTE 11 STOCK COMPENSATION PLANS (Continued)**

amortization was suspended or has not commenced totaled \$33.8 million at September 30, 2011 as presented in the following table.

	Number of Shares Outstanding	September 30, 2011 Unrecognized Compensation Expense (in thousands)	Expiration Year of Award
Performance-based restricted stock awarded in:			
2006	275,000	\$ 14,924	2013
2007	205,000	11,259	2017
2008	20,000	453	2013
2011	350,000	7,161	2016
Outstanding performance-based restricted stock awards	850,000	\$ 33,797	

The Company's 2003 Plan permits stock based compensation awards to officers, directors, key employees and consultants. The 2003 Plan authorizes grants of stock-based compensation instruments to purchase or issue up to 5,000,000 shares of authorized but unissued Company common stock, subject to adjustments provided by the 2003 Plan. In May 2011, the Board of Directors approved the equity award of 13,740 common shares to non-employee directors of the Company. Such shares were granted outright and vested immediately with a charge to other noninterest expense of \$300,000 at that time. As of September 30, 2011, there were 567,641 shares available for grant under the 2003 Plan.

NOTE 12 RECENT ACCOUNTING PRONOUNCEMENTS

In May 2011, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") 2011-04, "*Fair Value Measurement (Topic 820): Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and IFRSs.*" ASU 2011-04 was issued concurrently with IFRS 13, "*Fair Value Measurements,*" to provide largely identical guidance about fair value measurement and disclosure requirements. ASU 2011-04 does not extend the use of fair value but, rather, provides guidance about how fair value should be applied where it already is required or permitted under U.S. GAAP or International Financial Reporting Standards (IFRSs). For U.S. GAAP, most of the changes are clarifications of existing guidance or wording changes to align with IFRS 13. ASU 2011-04 is effective prospectively for interim and annual periods beginning after December 15, 2011. Early adoption is not permitted. In the period of adoption, a reporting entity will be required to disclose a change, if any, in valuation technique and related inputs that result from applying ASU 2011-04 and to quantify the total effect, if practicable. We have not as yet determined what effect, if any, adoption of ASU 2011-04 will have on our financial statements and related disclosures.

In June 2011, the FASB issued ASU 2011-05, "*Comprehensive Income (Topic 220): Presentation of Comprehensive Income.*" Under ASU 2011-05, an entity will have the option to present the components of net earnings and comprehensive income in either one or two consecutive financial statements. This standard eliminates the option in U.S. GAAP to present other comprehensive income in the statement of changes in equity. ASU 2011-05 should be applied retrospectively and is effective for fiscal years,

Table of Contents

PACWEST BANCORP AND SUBSIDIARIES

Notes to Condensed Consolidated Financial Statements (Continued)

(Unaudited)

NOTE 12 RECENT ACCOUNTING PRONOUNCEMENTS (Continued)

and interim periods within those years, beginning after December 15, 2011. Early adoption is permitted. Adoption of this standard will not have a material effect on our financial statements.

In September 2011, the FASB issued ASU 2011-08, "*Intangibles - Goodwill and Other (Topic 350): Testing Goodwill for Impairment.*" Under ASU 2011-08, an entity is permitted to make a qualitative assessment of whether it is more likely than not that a reporting unit's fair value is less than its carrying amount before applying the two-step goodwill impairment test. If an entity concludes it is not more likely than not that the fair value of a reporting unit is less than its carrying amount, it need not perform the two-step impairment test. ASU 2011-08 is effective for annual and interim goodwill impairment tests performed in fiscal years beginning after December 15, 2011. Early adoption is permitted. We have not determined what effect, if any, adoption of ASU 2011-08 will have on our financial statements.

NOTE 13 DIVIDEND APPROVAL

On November 7, 2011, the Company announced that the Board of Directors had declared a quarterly cash dividend of \$0.18 per common share payable on November 30, 2011, to stockholders of record at the close of business on November 17, 2011.

NOTE 14 SUBSEQUENT EVENTS

We have evaluated events that have occurred subsequent to September 30, 2011 and have concluded there are no subsequent events that would require recognition or disclosure in the accompanying condensed consolidated financial statements.

Table of Contents

ITEM 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

Forward-Looking Information

This Quarterly Report on Form 10-Q contains certain forward-looking information about the Company and its subsidiaries, which statements are intended to be covered by the safe harbor for "forward-looking statements" provided by the Private Securities Litigation Reform Act of 1995. All statements other than statements of historical fact are forward-looking statements. Such statements involve inherent risks and uncertainties, many of which are difficult to predict and are generally beyond the control of the Company. We caution readers that a number of important factors could cause actual results to differ materially from those expressed in, implied or projected by, such forward-looking statements. Risks and uncertainties include, but are not limited to:

lower than expected revenues;

credit quality deterioration or pronounced and sustained reduction in real estate market values could cause an increase in the allowance for credit losses and a reduction in earnings;

increased competitive pressure among depository institutions;

the Company's ability to complete future acquisitions and to successfully integrate such acquired entities or achieve expected benefits, synergies and/or operating efficiencies within expected time-frames or at all;

the possibility that personnel changes will not proceed as planned;

the cost of additional capital is more than expected;

a change in the interest rate environment reduces interest margins;

asset/liability repricing risks and liquidity risks;

pending legal matters may take longer or cost more to resolve or may be resolved adversely to the Company;

general economic conditions, either nationally or in the market areas in which the Company does or anticipates doing business, are less favorable than expected;

environmental conditions, including natural disasters, may disrupt our business, impede our operations, negatively impact the values of collateral securing the Company's loans or impair the ability of our borrowers to support their debt obligations;

the economic and regulatory effects of the continuing war on terrorism and other events of war, including the conflicts in Iraq, Afghanistan, and neighboring countries;

legislative or regulatory requirements or changes adversely affecting the Company's business;

Edgar Filing: PACWEST BANCORP - Form 10-Q

changes in the securities markets; and

regulatory approvals for any capital activities cannot be obtained on the terms expected or on the anticipated schedule.

Overview

We are a bank holding company registered under the Bank Holding Company Act of 1956, as amended. Our principal business is to serve as the holding company for our subsidiary bank, Pacific Western Bank, which we refer to as Pacific Western or the Bank.

Pacific Western is a full-service commercial bank offering a broad range of banking products and services including: accepting demand, money market, and time deposits; originating loans, including

Table of Contents

commercial, real estate construction, SBA-guaranteed and consumer loans; and providing other business-oriented products. Our operations are primarily located in Southern California and extend from California's Central Coast to San Diego County. The Bank focuses on conducting business with small to medium-sized businesses in our marketplace and the owners and employees of those businesses. The majority of our loans are secured by the real estate collateral of such businesses. We acquired through FDIC-assisted acquisitions three banking offices in the San Francisco Bay area and one office in Arizona. Our asset-based lending function operates in Arizona, California, Texas, and the Pacific Northwest.

Pacific Western competes actively for deposits, and emphasizes solicitation of noninterest-bearing deposits. In managing the top line of our business, we focus on quality loan growth and loan yield, deposit cost, and net interest margin, as net interest income, on a year-to-date basis, accounts for 90% of our net revenues (net interest income plus noninterest income).

During the nine months ended September 30, 2011, our assets declined \$35.1 million to \$5.5 billion. This was due primarily to a decrease in our total loans of \$406.4 million on a net basis, including a \$147.5 million reduction in our covered loans. The loan portfolio continues to decline generally due to repayments, resolution activities, and tepid loan growth. The decline in total loans was offset partially by an increase in investment securities available-for-sale of \$387.8 million due to purchases of \$495.3 million, offset partially by principal reductions.

During the nine months ended September 30, 2011, our total deposits declined \$95.3 million to \$4.6 billion. Time deposits decreased \$197.5 million to \$1.0 billion. Core deposits, which include noninterest-bearing demand, interest checking, money market, and savings deposits, grew \$102.2 million as noninterest-bearing demand accounts and savings accounts increased \$162.7 million and \$23.0 million, respectively, while money market deposits decreased \$86.9 million. At September 30, 2011, core deposits totaled \$3.5 billion, or 77% of total deposits at that date, including \$1.6 billion of noninterest-bearing demand accounts, or 36% of total deposits.

Key Performance Indicators

Among other factors, our operating results depend generally on the following key performance indicators:

The Level of Our Net Interest Income

Net interest income is the excess of interest earned on our interest-earning assets over the interest paid on our interest-bearing liabilities. Net interest margin is net interest income expressed as a percentage of average interest-earning assets. A sustained low interest rate environment combined with low loan growth and high levels of marketplace liquidity may lower both our net interest income and net interest margin going forward.

Our primary interest-earning assets are loans and investments. Our primary interest-bearing liabilities are deposits. We attribute our high net interest margin to our high level of noninterest-bearing deposits and low cost of deposits. While our deposit balances will fluctuate depending on deposit holders' perceptions of alternative yields available in the market, we attempt to minimize these variances by attracting a high percentage of noninterest-bearing deposits, which have no expectation of yield. At September 30, 2011, approximately 36% of our total deposits were noninterest-bearing.

Loan Growth

We generally seek new lending opportunities in the \$500,000 to \$15 million range, try to limit loan maturities for commercial loans to one year, for construction loans up to 18 months, and for commercial real estate loans up to ten years, and to price lending products so as to preserve our

Table of Contents

interest spread and net interest margin. We sometimes encounter strong competition in pursuing lending opportunities such that potential borrowers obtain loans elsewhere at lower rates than those we offer. Our ability to make new loans is dependent on economic factors in our market area, borrower qualifications, competition, and liquidity, among other items. Loan growth remains tepid, as new loan volume is not replacing maturities. We continue to retain maturing lending relationships that contribute positively to our profitability and net interest margin.

The decline in the non-covered loan portfolio moderated during the third quarter of 2011 to \$19.5 million compared to declines of \$144.5 million and \$103.4 million during the second and first quarters of 2011, respectively. In addition, the commercial and industrial non-covered loan segment increased \$32.1 million during the third quarter and the pipeline of new lending opportunities has grown. Although these trends may signal a turnaround in loan growth, no assurance can be given that meaningful loan growth will materialize over the next several quarters.

The Magnitude of Credit Losses

We stress credit quality in originating and monitoring the loans we make and measure our success by the levels of our nonperforming assets, net charge-offs and allowance for credit losses. We maintain an allowance for credit losses on non-covered loans which is the sum of our allowance for loan losses and our reserve for unfunded loan commitments. Provisions for credit losses are charged to operations as and when needed for both on and off balance sheet credit exposure. Loans which are deemed uncollectible are charged off and deducted from the allowance for loan losses. Recoveries on loans previously charged off are added to the allowance for loan losses. The provision for credit losses on the non-covered loan portfolio was based on our allowance methodology and reflected net charge-offs, the levels and trends of nonaccrual and classified loans, and the migration of loans into various risk classifications. A provision for credit losses on the covered loan portfolio may be recorded to reflect decreases in expected cash flows on covered loans compared to those previously estimated.

We regularly review our loans to determine whether there has been any deterioration in credit quality stemming from economic conditions or other factors which may affect collectibility of our loans. Changes in economic conditions, such as inflation, unemployment, increases in the general level of interest rates, declines in real estate values and negative conditions in borrowers' businesses could negatively impact our customers and cause us to adversely classify loans and increase portfolio loss factors. An increase in classified loans generally results in increased provisions for credit losses. Any deterioration in the real estate market may lead to increased provisions for credit losses because of our concentration in real estate loans.

The Level of Our Noninterest Expense

Our noninterest expense includes fixed and controllable overhead, the major components of which are compensation, occupancy, data processing, other professional services, and OREO expense. We measure success in controlling such costs through monitoring of the efficiency ratio. We calculate the base efficiency ratio by dividing noninterest expense by net revenues (the sum of net interest income plus noninterest income). We also calculate a non-GAAP measure called the "credit cost adjusted efficiency ratio." The credit cost adjusted efficiency ratio is calculated in the same manner as the base efficiency ratio except that noninterest income is reduced by FDIC loss sharing income and noninterest expense is reduced by OREO expenses. See calculations in "Results of Operations *Non-GAAP Measurements*" contained herein.

Table of Contents

The consolidated base and credit cost adjusted efficiency ratios have been as follows:

Three Months Ended:	Base Efficiency Ratio	Credit Cost Adjusted Efficiency Ratio
September 30, 2011	67.9%	58.7%
June 30, 2011	58.2%	57.7%
March 31, 2011	58.7%	60.4%
December 31, 2010	70.4%	63.8%
September 30, 2010	61.5%	63.8%

The base efficiency ratio fluctuations shown in the above table result from the volatility of FDIC loss sharing income and OREO expenses. The credit cost adjusted efficiency ratio eliminates such volatility and shows the trend in overhead related noninterest expense relative to net revenues.

Critical Accounting Policies

The Company's accounting policies are fundamental to understanding management's discussion and analysis of results of operations and financial condition. The Company has identified several policies as being critical because they require management to make particularly difficult, subjective and/or complex judgments about matters that are inherently uncertain and because of the likelihood that materially different amounts would be reported under different conditions or using different assumptions. These policies relate to the allowances for credit losses and the carrying values of intangible assets and deferred income tax assets. For further information, refer to our Annual Report on Form 10-K for the year ended December 31, 2010.

Results of Operations*Non-GAAP Measurements*

Certain discussion in this Form 10-Q contains non-GAAP financial disclosures for tangible common equity, pre-credit, pre-tax earnings, and credit cost adjusted efficiency ratios. The Company uses certain non-GAAP financial measures to provide meaningful supplemental information regarding the Company's operational performance and to enhance investors' overall understanding of such financial performance. Given the use of tangible common equity amounts and ratios is prevalent among banking regulators, investors and analysts, we disclose our tangible common equity ratios in addition to equity-to-assets ratios. Also, as analysts and investors view pre-credit, pre-tax earnings as an indicator of the Company's ability to absorb credit losses, we disclose this amount in addition to net earnings. The methodology of determining tangible common equity and pre-credit, pre-tax earnings may differ among companies. We disclose the credit cost adjusted efficiency ratio as it eliminates the volatility of FDIC loss sharing income and OREO expenses from the base efficiency ratio and shows the trend in overhead related noninterest expense relative to net revenues.

These non-GAAP financial measures are presented for supplemental informational purposes only for understanding the Company's operating results and should not be considered a substitute for financial information presented in accordance with United States generally accepted accounting principles (GAAP). The following table presents performance amounts and ratios in accordance with

Edgar Filing: PACWEST BANCORP - Form 10-Q

Annualized return (loss) on:					
Average assets	0.97%	0.94%	0.25%	0.90%	(1.37)%
Average equity	10.11%	10.31%	2.82%	9.81%	(14.74)%
Net interest margin	5.15%	5.57%	5.08%	5.35%	4.95%
Efficiency ratio	67.9%	58.2%	61.5%	61.5%	62.7%

Third Quarter of 2011 Compared to Second Quarter of 2011

Net earnings for the third quarter of 2011 were \$13.3 million, or \$0.36 per diluted share, compared to net earnings of \$12.8 million, or \$0.35 per diluted share, for the second quarter of 2011. The \$463,000 increase in net earnings for the linked quarters was due mostly to a lower provision for credit losses, offset partially by lower net interest income, lower FDIC loss sharing income and higher OREO costs.

Third Quarter of 2011 Compared to Third Quarter of 2010

Net earnings for the third quarter of 2011 were \$13.3 million, or \$0.36 per diluted share, compared to net earnings of \$3.5 million, or \$0.10 per diluted share, for the third quarter of 2010. The \$9.8 million increase in net earnings was due mostly to a lower provision for credit losses, offset partially by lower FDIC loss sharing income and higher covered OREO costs.

Table of Contents

Nine Months of 2011 Compared to Nine Months of 2010

Net earnings of \$36.8 million, or \$0.99 per diluted share, for the nine months ended September 30, 2011 compared to a net loss of \$54.3 million, or \$1.55 per diluted share, for the nine months ended September 30, 2010. The \$91.1 million increase in net earnings for the current year-to-date period is attributed to a lower provision for credit losses. The provision for the prior year period included \$71.4 million related to the sale of \$323.6 million of non-covered classified loans in the first quarter of 2010; there was no similar sale of classified loans in the current year.

Net Interest Income

Net interest income, which is our principal source of revenue, represents the difference between interest earned on assets and interest paid on liabilities. Net interest margin is net interest income expressed as a percentage of average interest-earning assets. Net interest income is affected by changes in both interest rates and the volume of average interest-earning assets and interest-bearing liabilities.

Edgar Filing: PACWEST BANCORP - Form 10-Q

Table of Contents

The net interest margin has been impacted by the accelerated accretion of purchase discounts on covered loan payoffs and loans being placed on or removed from nonaccrual status. The effects of such items on the net interest margin are shown in the following table for the periods indicated:

	Three Months Ended			Nine Months Ended	
	September 30, 2011	June 30, 2011	September 30, 2010	September 30, 2011	2010
Net interest margin as reported	5.15%	5.57%	5.08%	5.35%	4.95%
Less:					
Accelerated accretion of purchase discounts on covered loan payoffs	0.10%	0.38%	0.03%	0.23%	0.05%
Nonaccrual loan interest	0.03%	0.02%	0.07%	0.02%	(0.01)%
Net interest margin as adjusted	5.02%	5.17%	4.98%	5.10%	4.91%

Third Quarter of 2011 Compared to Second Quarter of 2011

Net interest income was \$64.4 million for the third quarter of 2011 compared to \$68.7 million for the second quarter of 2011. The \$4.3 million decline was due to a \$4.7 million decrease in interest income, which was attributed to lower accelerated accretion of discounts on covered loan payoffs and lower average loans. Offsetting the decline in interest income was a reduction in interest expense of \$430,000 due to lower rates on money market deposits and a decline in average time deposits.

Our net interest margin for the third quarter of 2011 was 5.15%, a decrease of 42 basis points from the 5.57% reported for the second quarter of 2011. The decrease reflected lower accelerated accretion of discounts on covered loan payoffs and a shift in the mix of average interest-earning assets to lower yielding investment securities from higher yielding loans. Average interest-earning assets increased \$19.7 million for the linked quarters including a \$162.8 million increase in average investment securities.

The yield on average loans was 6.87% for the third quarter of 2011 compared to 7.18% for the prior quarter. The combination of accelerated accretion of discounts on covered loan payoffs and nonaccrual loan interest positively impacted the loan yield for the third quarter by 17 basis points and the second quarter by 52 basis points, resulting in base loan yields of 6.70% and 6.66%, respectively. The cost of interest-bearing deposits declined six basis points to 0.69% and all-in deposit cost declined five basis points to 0.44% due to lower rates on money market deposits and lower average time deposits.

Third Quarter of 2011 Compared to Third Quarter of 2010

Net interest income declined \$726,000 during the third quarter of 2011 compared to the same quarter of 2010. The decrease was due primarily to lower interest income of \$2.6 million, offset partially by lower interest expense of \$1.9 million. The reduction in interest income was attributable to lower average loans, offset partially by higher average investment securities and a higher yield on average loans. Interest expense declined due primarily to lower average time deposits, lower rates on money market deposits, and a reduction in average borrowings.

Edgar Filing: PACWEST BANCORP - Form 10-Q

Table of Contents

The net interest margin grew 7 basis points to 5.15% for the third quarter of 2011 compared to 5.08% for the same period last year. The increase in the net interest margin was due mostly to a decline of \$122.0 million in average interest-earning assets, due primarily to a decrease of \$467.5 million in average loans. The yield on average loans grew 28 basis points to 6.87% for the third quarter of 2011 from 6.59% from the third quarter of 2010, due in part to higher accelerated accretion of discounts on covered loan disposals. The cost of interest-bearing deposits and all-in deposit cost decreased 12 and 11 basis points to 0.69% and 0.44%, respectively. Average noninterest-bearing demand deposits increased \$143.6 million to \$1.6 billion in the current quarter compared to the same period last year, and represented 36% of total average deposits for the third quarter of 2011 compared to 32% for the third quarter of 2010.

Nine Months of 2011 Compared to Nine Months of 2010

Net interest income grew by \$18.1 million to \$198.9 million during the nine months ended September 30, 2011 compared to the same period last year. This change was due to a \$12.0 million increase in interest income and a \$6.1 million decrease in interest expense. The increase in interest income was due to the combination of the Los Padres acquisition, purchases of investment securities and higher accelerated accretion of discounts on covered loan payoffs. The decrease in interest expense was due to lower rates on money market deposits and lower average borrowing balances as \$260 million of FHLB advances were repaid in the first half of 2010 and another \$50 million were repaid in December 2010.

The net interest margin for the first nine months of 2011 was 5.35% compared to 4.95% for the same period last year. The increase was due to a higher yield on loans, lower costs for money market deposits and subordinated debentures, and a lower average balance of FHLB advances, offset by lower average loans and an increase in the average balance of lower-yielding investment securities.

Provision for Credit Losses

The following table sets forth the details of the provision for credit losses and allowance for credit losses data for the periods indicated:

	Three Months Ended			Nine Months Ended	
	September 30, 2011	June 30, 2011	September 30, 2010	September 30, 2011	September 30, 2010
(Dollars in thousands)					
Provision For Credit Losses:					
Addition (reduction) to allowance for loan losses	\$ (300)	\$ 5,050	\$ 17,271	\$ 12,550	\$ 144,488
Addition (reduction) to reserve for unfunded loan commitments	300	450	(221)	750	(811)
Total provision for non-covered loans		5,500	17,050	13,300	143,677
Provision for covered loans	348	5,890	6,500	9,148	34,600
Total provision for credit losses	\$ 348	\$ 11,390	\$ 23,550	\$ 22,448	\$ 178,277
Allowance for Credit Losses Data:					
Net charge-offs on non-covered loans	\$ 6,017	\$ 7,187	\$ 9,240	\$ 21,093	\$ 166,711
Charge-offs on classified loans sold					123,705
Annualized net charge-off ratios:					
Net charge-offs to non-covered average loans	0.83%	0.97%	1.09%	0.94%	6.61%

Table of Contents

	Three Months Ended			Nine Months Ended	
	September 30, 2011	June 30, 2011	September 30, 2010	September 30, 2011	September 30, 2010
	(Dollars in thousands)				
Net charge-offs, excluding charge-offs on loans sold, to non-covered average loans	0.83%	0.97%	1.09%	0.94%	1.71%
At Period End:					
Allowance for loan losses	\$ 90,110	\$ 96,427	\$ 96,494		
Allowance for credit losses	\$ 96,535	\$ 102,552	\$ 101,244		
Allowance for credit losses to non-covered loans, net of unearned income	3.34%	3.52%	3.05%		
Allowance for credit losses to non-covered nonaccrual loans	161.0%	157.0%	95.9%		

Provisions for credit losses are charged to earnings as and when needed for both on and off balance sheet credit exposures. We have a provision for credit losses on our non-covered loans and a provision for credit losses on our covered loans. The provision for credit losses on our non-covered loans is based on our allowance methodology and is an expense that, in our judgment, is required to maintain the adequacy of the allowance for loan losses and the reserve for unfunded loan commitments. Our allowance methodology reflects net charge-offs, the levels and trends of nonaccrual and classified loans, and the migration of loans into various risk classifications. The provision for credit losses on our covered loans reflects decreases in expected cash flows on covered loans compared to those previously estimated.

Our provisions for credit losses on non-covered and covered loans totaled \$348,000 during the third quarter of 2011 compared to \$11.4 million for the second quarter of 2011 and \$23.6 million for the third quarter of 2010. The provision related to non-covered loans was \$0 for the third quarter of 2011; this compares to \$5.5 million for the second quarter of 2011 and \$17.1 million for the third quarter of 2010. Net non-covered loan charge-offs were \$6.0 million for the third quarter of 2011; this compares to \$7.2 million for the second quarter of 2011 and \$9.2 million for the third quarter of 2010. Nonaccrual loans totaled \$60.0 million, \$65.3 million, and \$105.5 million at September, 2011, June 30, 2011, and September 30, 2010, respectively.

The allowance for credit losses on non-covered loans was \$96.5 million as of September 30, 2011 and represented 3.34% of the non-covered loan balances at that date. This compares to an allowance for credit losses on non-covered loans of \$102.3 million, or 3.52% of non-covered loans, as of June 30, 2011 and an allowance for credit losses on non-covered loans of \$101.2 million, or 3.05% of non-covered loans, as of September 30, 2010.

During the third quarter of 2011, we recorded a \$348,000 provision for credit losses on the covered loan portfolio based on current quarter analysis of acquired loans, which indicated a decrease in expected cash flows from previous estimates. Under the terms of our loss sharing agreements with the FDIC, the FDIC will absorb 80% of the losses on the covered loans. As a result, the effect on pre-tax earnings was 20% of the provision for covered loans as we recorded 80% of this provision as an offset in FDIC loss sharing income. The provisions for credit losses on covered loans for the second quarter of 2011 and third quarter of 2010 were \$5.9 million and \$6.5 million, respectively.

We made provisions for credit losses totaling \$22.4 million during the first nine months of 2011 compared to \$178.3 million for the same period last year. The provision related to non-covered loans totaled \$13.3 million for the nine months ended September 30, 2011 compared to \$143.7 million for the nine months ended September 30, 2010. The prior year non-covered provision included \$71.4 million related to the Company's sale of \$323.6 million of non-covered classified loans in the first quarter of

Edgar Filing: PACWEST BANCORP - Form 10-Q

Table of Contents

2010; there was no similar sale of classified loans in 2011. Net non-covered charge-offs were \$21.1 million during the first nine months of 2011 compared to \$166.7 million for the same period last year, but the latter amount included \$123.7 million in charge-offs related to the classified loan sale in the first quarter of 2010. The provision for covered loans was \$9.1 million for the nine months ended September 30, 2011 compared to \$34.6 million for the nine months ended September 30, 2010.

Increased provisions for credit losses may be required in the future based on loan and unfunded commitment growth, the effect changes in economic conditions, such as inflation, unemployment, market interest rate levels, and real estate values, may have on the ability of our borrowers to repay their loans, and other negative conditions specific to our borrowers' businesses. See further discussion in "Balance Sheet Analysis *Allowance for Credit Losses on Non-Covered Loans*" and "Balance Sheet Analysis *Allowance for Credit Losses on Covered Loans*" contained herein.

Noninterest Income

The following table summarizes noninterest income by category for the periods indicated:

	Three Months Ended			Nine Months Ended	
	September 30, 2011	June 30, 2011	September 30, 2010	September 30, 2011	September 30, 2010
	(In thousands)				
Service charges on deposit accounts	\$ 3,545	\$ 3,400	\$ 2,861	\$ 10,503	\$ 8,256
Other commissions and fees	2,052	1,980	1,760	5,752	5,395
Other-than-temporary impairment loss on securities			(874)		(874)
Increase in cash surrender value of life insurance	359	368	353	1,106	1,120
FDIC loss sharing income, net	963	5,316	5,506	5,109	27,257
Other income	224	176	279	702	632
Total noninterest income	\$ 7,143	\$ 11,240	\$ 9,885	\$ 23,172	\$ 41,786

Third Quarter of 2011 Compared to Second Quarter of 2011 and Third Quarter of 2010

Noninterest income for the third quarter of 2011 totaled \$7.1 million compared to \$11.2 million for the second quarter of 2011 and \$9.9 million for the third quarter of 2010. The \$4.1 million decline in noninterest income for the third quarter of 2011 compared to the prior quarter was due mostly to lower FDIC loss sharing income stemming from a lower provision for credit losses on covered loans. Service charges on deposits increased \$145,000 for the linked 2011 quarters due primarily to growth in account analysis charges.

The \$2.8 million decline in noninterest income for the third quarter of 2011 compared to the same period last year was due primarily to a \$4.5 million decrease in FDIC loss sharing income related to a decrease in net credit costs on covered loans and OREO. This was partially offset by an \$874,000 impairment loss on covered securities recorded in the third quarter of 2010 not repeated in the current quarter. Service charges on deposit accounts increased due to increases in service charges, account analysis fees, and NSF handling fees, attributable to a higher number of acquisition-related accounts and organic growth.

Third quarter of 2011 FDIC loss sharing income includes a write-off of the FDIC loss sharing asset because of improvement in the expected cash flows on covered loan pools. When expected cash flows improve, the estimated amount of losses collectible from the FDIC decreases and the carrying value of the FDIC loss sharing asset must be reduced. The charge to FDIC loss sharing income for this item was approximately \$3 million.

Edgar Filing: PACWEST BANCORP - Form 10-Q

Table of Contents

Nine Months of 2011 Compared to Nine Months of 2010

Noninterest income declined \$18.6 million, to \$23.2 million, for the nine months ended September 30, 2011 compared to the same period in 2010. The decline was due mainly to lower FDIC loss sharing income of \$22.1 million attributable to lower net credit costs on covered loans and OREO. However, service charges on deposit accounts increased \$2.2 million due to increases in service charges, account analysis fees, and NSF handling fees, attributable to a higher number of acquisition-related accounts and organic growth.

Noninterest Expense

The following table summarizes noninterest expense by category for the periods indicated:

	Three Months Ended			Nine Months Ended	
	September 30, 2011	June 30, 2011	September 30, 2010	September 30, 2011	2010

Third Quarter of 2011 Compared to Second Quarter of 2011

Edgar Filing: PACWEST BANCORP - Form 10-Q

Noninterest expense grew \$2.1 million to \$48.6 million during the third quarter of 2011 compared to \$46.5 million for the second quarter of 2011. This change was due mostly to an increase in covered

Table of Contents

OREO costs. Covered OREO costs increased by \$3.6 million due to higher write-downs of \$7.0 million, offset partially by higher gains on sales of \$3.5 million. Other expense declined \$1.0 million due to director stock awards in the second quarter not repeated in the third quarter, write-downs of CRA investments in the second quarter also not repeated in the third quarter, and lower net loan collection expenses.

Noninterest expense includes non-cash expenses of time-based restricted stock amortization, which is included in compensation, and intangible asset amortization. Amortization of restricted stock totaled \$2.1 million for each of the third and second quarters of 2011 and the third quarter of 2010. Intangible asset amortization totaled \$2.0 million and \$2.3 million for the third and second quarters of 2011, respectively, and \$2.4 million for the third quarter of 2010.

Third Quarter of 2011 Compared to Third Quarter of 2010

Noninterest expense grew \$2.4 million for the third quarter of 2011 compared to the same period of 2010 due mostly to higher covered OREO costs of \$5.1 million, which was attributable to higher write-downs of \$7.6 million, offset partially by higher net gains on sales of \$2.4 million. Salary expense declined by \$1.5 million due primarily to severance paid to Los Padres employees in connection with the August 2010 Los Padres acquisition during the third quarter of 2010 not repeated in the current quarter. Insurance and assessments decreased by \$790,000 due to a reduction in FDIC deposit insurance costs attributable to a revised FDIC assessment methodology effective April 1, 2011.

Nine Months of 2011 Compared to Nine Months of 2010

Noninterest expense declined by \$3.0 million to \$136.5 million during the nine months ended September 30, 2011 compared to the same period last year. This reduction was attributable to a decrease in non-covered OREO costs and lower FDIC insurance assessment expense. Non-covered OREO costs declined \$5.9 million due to lower write-downs of \$7.4 million, offset by lower net gains on sales of OREO of \$1.9 million. The declines were offset by increases in almost all other expense categories for the additional operating costs arising from the Los Padres acquisition in August 2010 and the nine branches added to our network through that acquisition. Covered OREO costs increased by \$1.7 million due to higher write-downs, offset by higher net gains on sales of OREO.

Amortization of restricted stock totaled \$6.2 million and \$6.6 million for the nine months ended September 30, 2011 and 2010, respectively. Intangible asset amortization totaled \$6.6 million for the first nine months of 2011 compared to \$7.3 million for the same period last year.

Income Taxes

The effective tax rate for the third quarter of 2011 was 41.3% compared to 41.6% for the second quarter of 2011 and 34.3% in the third quarter of 2010. The lower rate in the third quarter of 2010 resulted mostly from the resolution and/or lapse of tax contingencies, which reduced income tax expense by \$417,000. The effective tax rates for the nine months ended September 30, 2011 and 2010 were 41.6% and 42.9%, respectively. The Company's blended Federal and California statutory tax rate is 42.0%.

Table of Contents**Balance Sheet Analysis***Non-Covered Loans*

The following table presents the balance of our non-covered loans by portfolio segment at the dates indicated:

Loan Segment	September 30, 2011		June 30, 2011		December 31, 2010
