Bridge Technology, Inc. and Subsidiaries Notes to the Consolidated Financial Statements (Unaudited)

Organization and Business

Bridge Technology, Inc. ("The Company") was incorporated under the laws of the State of Nevada on April 15, 1969. Starting from April 1997, the Company registered to do business in the State of California and is primarily engaged in development and distribution of various hardware, software, and peripheral products used in computer systems and sales to value added resellers and system integrators. The Company started to enter into wireless internet business in 1999.

The Company has the following active subsidiaries:

Bridge R&D, Inc.	100%	Established on June 1, 1997
PTI Enclosures, Inc.	100%	Merged on December 14, 1998
Autec Power Systems, Inc.	100%	Merged on December 1, 1999
CMS Technology Limited	90%	Acquired on January 3, 2000 (60%) Acquired on May 15, 2000 (30%)
Bridge Technology Ningbo Co. Ltd.	100%	Established on May 28, 2001

Note 1. - Basis of Presentation

The accompanying unaudited consolidated financial statements have been prepared in accordance with generally accepted accounting principles or interim financial information and with the instructions to Form 10-Q and Article 10 of Regulation S-X. Accordingly, they do not include all the information and footnotes required by generally accepted accounting principles for complete financial statements. In the opinion of management, all adjustments (consisting of normal recurring adjustments) considered necessary for fair presentation have been included. Operating results for the nine months period ended September 30, 2002 are not necessarily indicative of the results that may be expected for the year ending December 31, 2002. For further information, refer to the consolidated financial statements and footnotes thereto included in the Company's annual report on Form 10-K for the year ended December 31, 2001.

The accompanying unaudited consolidated financial statements have been prepared assuming that the Company will continue as a going concern. During the year ended December 31, 2001, the Company incurred a net loss of \$2,542,000 and used cash of \$3,635,000 in its operations. Management has undertaken certain actions in an attempt to improve the Company's liquidity and return the Company to profitability. On July 24, 2002, the Company entered into a loan modification and extension agreement with a commercial bank for its outstanding balance of \$4 million at December 31, 2001, which was reduced by \$100,000 payment made in 2002. Pursuant to the terms of the new agreement, monthly interest only

Edgar Filing: BRIDGE TECHNOLOGY INC - Form 10-Q

payments are to be made through maturity, \$50,000 was due and paid by September 15, 2002 and no less than \$1,000,000 is due on November 30, 2002. The Company owns 90% of all issued and outstanding shares in CMS and pledged 65% of all issued and outstanding shares in CMS against this outstanding balance and the maturity date of the note has been extended until November 30, 2002. However, if the Company makes all of the foregoing payments on a timely basis and has not otherwise defaulted on the loan, the maturity date for the remaining unpaid principal balance will be extended until June 30, 2003. Additionally, the Company's major shareholders have subordinated the outstanding loans to the Bank debt and have also indicated an interest in converting their debt to equity along with the acceptance of additional outside financing.

Operationally, management's plans include continuing actions to cut or curb nonessential expenses and focusing on improving sales of Autec. No assurance can be given that the Company will be successful in extending or modifying its line of credit or that the Company will be able to return to profitable operations.

Looking for alternatives, the Company is currently seeking a global financing agreement with a major international bank to replace existing credit lines in the U.S. and Hong Kong. No assurance can be given that the alternative funding source will be available.

Management of the Company is actively pursuing certain other action plans, such as selling controlling interest in Autec and Ningbo and/or selling a portion of its equity interest in CMS in exchange for cash proceeds to provide working capital and repay part or all of the outstanding bank loans. At November 14, 2002, no formal binding offers and/or letter of credits have been received.

5

Note 2. - Income Taxes and Refund Receivable

As of December 31, 2001, a valuation allowance has been provided for that portion of the net deferred tax asset for which management has determined that it is more likely than not that it will not be realized.

In July 2002, the Company filed its consolidated income tax return for the year ended December 31, 2001 claiming tax refund of approximately \$580,000. During September 2002, the Company received from the IRS a total refund of \$585,818.

Note 3. - Shareholders' Equity

In May 2002 the Company granted a warrant to a consultant which allows him to purchase 15,000 shares of common stock with an exercise price at \$0.55 per share and expiration date at January 15, 2005 in lieu of payroll payable of \$9,675.

In May 2002, the Company issued aggregate 34,924 shares of common stock to a vendor in lieu of payment for purchasing certain inventory. The shares issued were priced at the fair market value of \$0.37 and \$0.32 at respective issuing dates.

In June 2002, the Company issued a warrant of purchase 30,000 share of common stock with an exercise price of \$0.55 per share and expiration date at June 30, 2007 for settlement of a lawsuit. As result of this issuance, the Company recorded the fair value of \$5,778 for the warrant.

In October 2002 the Company granted a warrant to a consultant which allows him to purchase 18,000 shares of common stock with an exercise price at \$0.33 per share and expiration date at January 15, 2005 in lieu of payroll payable of \$5,850.

Edgar Filing: BRIDGE TECHNOLOGY INC - Form 10-Q

Note 4. - Inventory

Inventory consists of:

	December 31, 2001	September 30, 2002
	-----	-----
Service parts	\$ 1,633,919	\$ 1,112,851
Work in process	329,730	274,397

	-----	-----
	\$ 21,692,543	\$ 15,720,764
	=====	=====

Note 5. - Goodwill

Effective January 1, 2002, the Company adopted Statement of Financial Accounting Standards No. 142 Goodwill and Other Intangible Assets (SFAS 142). Under SFAS 142, Goodwill and indefinite life intangible assets are no longer amortized but will be reviewed annually, or more frequently if impairment indicators arise, for impairment. The Company discontinued the amortization of its goodwill balances effective January 1, 2002. The initial testing of goodwill for possible impairment was completed in August 2002, and no impairment was indicated.

In accordance with SFAS 142, prior period amounts are not restated. A reconciliation of reported net income to net income adjusted for the exclusion of amortization of goodwill and indefinite life intangible assets follows:

	September 30,	
	-----	-----
	2001	2002
	-----	-----

Adjusted diluted earnings per share	\$ (0.12)	\$ (0.15)
	=====	=====

6

Note 6. - Legal Proceedings

On November 14, 2001, a complaint was filed by Oppenheimer Wolff & Donnelly LLP in the Orange County Superior Court, Santa Ana, California against the Company for fees allegedly owed by the Company. The Company intends to vigorously defend this claim because the amount invoiced was deemed excessive comparing to the quality of services rendered. The estimated liability including interest,

Edgar Filing: BRIDGE TECHNOLOGY INC - Form 10-Q

costs and statutory attorney's fees of approximately \$100,000 is recorded in accrued liabilities. At December 31, 2001 and September 30, 2002. In July 2002, a non-binding arbitration was conducted resulting in an \$84,000 decision. At September 30, 2002, the Company has accrued a contingent liability of 84,000. The Company intends to diligently pursue its rights in court if a reasonable settlement cannot be reached.

On April 16, 2002, a complaint was filed by Danton Mak Esq. in the Superior Court of Los Angeles against Autec Power Systems, Inc. for fees allegedly owed by Autec. The matter was submitted to binding arbitration scheduled for hearing in April 2002. An estimated liability of \$136,000 has been recorded at December 31, 2001. In July 2002 this matter has been settled for \$110,000 by stipulation of four equal payments of \$27,500 due on June 1, July 1, August 1 and September 1, 2002, which were made according to schedule.

On April 24, 2002 a complaint was filed against the Company in the Orange County Superior Court, Santa Ana, California by Mason Tarkeshian for fees alleged to be due on an acquisition which was not consummated. The complaint sought for damage of approximately \$2 million where as the Company believes that the complaint was without merit and would be resolved in favor of the Company. The Company tendered this case to the insurance carrier for settlement and had not accrued any liabilities for this matter as of December 31, 2001. In 2002, this complaint was settled by the Company's insurance carrier and the Company. The Company's portion of contribution to the settlement was to issue a warrant to purchase 25,000 shares of common stock of Bridge at \$0.55 per share. The Company issued that warrant in July 2002 and is awaiting the receipt of a specific and general release.

On October 1, 2001, a complaint was filed by a Trustee in U.S. Bankruptcy Court against the Company for an alleged transfer of assets, technology, trade secrets, confidential information, business opportunities from Allied Web, a corporation owned by the Company's former President and Director, which filed for liquidation under federal bankruptcy laws on April 6, 2000. At December 31, 2001, management of the Company was unable to assess the possibility of incurring future liability and estimate the reasonable amount of contingent liability. Therefore, the Company did not record any accrued liability for this matter. In July 2002, this case was settled in principal with a major participation by the Company's insurance carrier. Accordingly, the Company accrued a contingent liability of approximately \$265,000 as of September 30, 2002. On November 8, 2002, the Bankruptcy Judge dismissed this suit for failure to appear or prosecute. The Company expects the Bankruptcy Judge will set aside the dismissal and reinstate the action. However, as of November 14, 2002, Bridge is unaware of whether the Bankruptcy Judge has so acted. The Bankruptcy Trustee and the Company have negotiated a tentative settlement, contingent upon the approval of a prior Officer/Director, another individual and other active Officers and Directors.

On December 12, 2001, a former shareholder of Autec Power Systems has filed a complaint in Ventura County Superior Court against the controlling shareholder of Autec, Mr. Winston Gu and Bridge Technology, Inc. alleging that the complainant did not receive sufficient exchange of shares in this acquisition by Bridge Technology, Inc. The Company believes that the complaint is without merit and will defend it vigorously. At December 31, 2001, management of the Company was unable to assess the possibility of incurring future liability and estimate the reasonable amount of contingent liability. Therefore, the Company has not record any liability for this matter at December 31, 2001. As of November 14, 2002, the Company is unable to predict any consequence about this matter.

Note 7. - Line of Credits

Note Payable to Commercial Bank

Edgar Filing: BRIDGE TECHNOLOGY INC - Form 10-Q

In 2000, the Company obtained a revolving line of credit, as amended, from a commercial bank with an aggregate amount of principal not to exceed \$4,000,000. Advances bear interest at the prime rate (5.25% at December 31, 2001). The outstanding balance at December 31, 2001 and September 30, 2002 was \$4,000,000 and \$3,850,000, respectively. Outstanding interest and principal was originally payable no later than June 30, 2001. The revolving line of credit is subject to certain restrictive covenants and is collateralized by substantially all of assets located in the US. As of December 31, 2001, the Company had not repaid the bank for amounts due under the line of credit and, therefore, was in default. On July 24, 2002, the Company entered into a loan modification and extension agreement with the bank. Pursuant to the terms of the new agreement, monthly interest payments are to be made through maturity, \$50,000 is due by September 15, 2002 and no less than \$1,000,000 is due on November 30, 2002 and the maturity date of the note has been extended until November 30, 2002. However, if the Company makes all of the foregoing payments on a timely basis and has not otherwise defaulted on the loan, the maturity date for the remaining unpaid principal balance will be extended until June 30, 2003. In exchange for agreeing to the modifications, the Company granted to the bank a security interest in the 65% of all issued and outstanding common stock of CMS, subordinated the loans due to the Company's shareholders, and issued two warrants to the bank each of which grants the bank the right to purchase 250,000 shares of the Company's common stock at a per share price of \$1.00. If the Company makes the 1,000,000 curtailment on or before November 30, 2002, the maturity date of the loan will be extended to June 30, 2003 and one of the warrants will be cancelled.

7

Note Payable to IBM

In 2000, the Company's 90% owned Hong Kong based subsidiary, CMS, entered into a revolving credit arrangement with International Business Machines Corp ("IBM") for the purposes of financing CMS' purchases from IBM. The facility was originally set to expire in 2001 but has been extended until October 31, 2002. Advances under the loan arrangement are secured by CMS' receivables and certain of its other assets, as well as by a guaranty provided by the Company, with interest at a variable rate of prime (as determined by the Hong Kong and Shanghai Banking Corporation) plus 2% (11.5% at December 31, 2001) with a floor of 9%. At December 31, 2001, outstanding borrowings totaled \$5,000,000. The arrangement also provides restrictions on CMS' ability to transfer funds to the Company or any other subsidiaries without IBM's written consent. At December 31, 2001, CMS' net assets subject to this restriction were \$8,346,680.

In July 2002, CMS paid off the entire outstanding balance of US\$5 million and reduced its regular trade accounts payable to IBM from approximately \$11.9 million at December 31, 2001 to approximately \$8.8 million as of September 30, 2002.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS.

Except for historical information contained herein, the matters set forth in this report are forward-looking statements within the meaning of the "safe harbor" provisions of the Private Securities Litigation Act of 1995. These forward-looking statements are subject to risks and uncertainties that may cause actual results to differ materially. The Company disclaims any obligations to update these forward-looking statements.

OVERVIEW

Edgar Filing: BRIDGE TECHNOLOGY INC - Form 10-Q

Founded in 1997, Bridge Technology, Inc., is in the business of developing, marketing and selling computer peripherals and computer system enhancement products. The Company has established operating divisions and subsidiaries under separate business lines. Each of these operating entities is focused on certain specific product and sales channels.

During the quarter ended September 30, 2002, total assets decreased by \$10,299,546 from \$40,664,699 at December 31, 2001 to \$30,365,153 at September 30, 2002. The decrease was due primarily to the decrease in accounts receivable of approximately \$3.0 million, the decrease of approximately \$6.0 million in inventory and the decrease in cash of approximately \$1.0 million.

The accounts receivable turnover index (defined as quarterly net sales divided by ending accounts receivable, multiplied by 4) was 14.2 at September 30, 2002, compared with 12.9 at December 31, 2001 and 12.7 at September 30, 2001. Although the accounts receivable balance decreased by \$3,008,008 at December 31, 2001, the accounts receivable turnover increase due to more aggressive collections actions.

The inventory turnover index (defined as quarterly factor cost excluding non-recurring costs divided by ending inventory, multiplied by 4) was 6.8 at September 30, 2002, down from 8.6 at year-end of fiscal 2001 and down from 7.5 at September 30, 2001. Inventories declined \$5,971,779 versus the balance at December 31, 2001 and declined by \$7,410,245 compared with September 30, 2001. The decrease of inventory turnover is due to less procurement from IBM during the quarter ended September 30, 2002.

Total debt at September 30, 2002 was \$23,681,649 reflecting an \$8,821,202 decrease from December 31, 2001. As of September 30, 2002 total debt was 409.1 percent of total capital, compared with 442.7 percent at December 31, 2001. The Company decrease in debt is mainly due to the payoff of the IBM loan balance during 2002.

The following table sets forth our revenue components for the three months ended September 30, 2002 and 2001 respectively.

	Three Months Ending,	
	Sept.30, 2001	Sep.30, 2002
Net Sales:		
Manufacturing	8.5%	7.4%
Distribution	91.5%	92.6%
	-----	-----
Total	100.0%	100.0%
	-----	-----

Geographically we operate on United States and Asia. Our customers are mainly concentrate in the China.

8

Our cost of sales is made up of the cost of materials used, obsolescence costs, labor, depreciation, and overhead relating to manufacturing and distribution.

Our expenses can be classified into three categories: selling expense, general and administrative expense, and research and development expense. Selling expenses include expenses for payroll and payroll taxes for employees working

Edgar Filing: BRIDGE TECHNOLOGY INC - Form 10-Q

in the selling department, advertising, insurance, utilities and other expenses directly related to selling activities. General and administrative expenses include management payroll, property taxes, rental expense, depreciation of fixed assets used by the management function, utilities, employee fringe benefits, office supplies, travel and entertainment, professional expense, outside services and other expenses related to management and administration processes. Research and development expenses include payroll and payroll taxes, travel, and any other expenses directly related to the research activities.

Critical Accounting Policies

Use of Estimates

Our consolidated financial statements have prepared in accordance with accounting principles generally accepted in the United States of America. The preparation of these financial statements requires us to use estimations and assumptions and make judgments that affect the reported amounts of assets, liabilities, revenues and expenses. We based our estimations on historical experience and on various other assumptions that we believe to be reasonable under the circumstances, the result of which form the basis for making judgments about the carrying value of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates under different assumptions and conditions.

Rebates and Credits Receivable

CMS Technology Co. Ltd. ("CMS"), one of our subsidiaries, is an authorized distributor of IBM products in the territory including China, Vietnam, Philippines and Hong Kong. As a common practice in the computer parts distribution business, IBM periodically updates its price list for all its products and provides certain incentive programs to attract its authorized distributors to sell more of its products. As a result of changes in price list (usually decreases in prices), CMS is entitled to receive certain rebates and credits for the inventory held and sold by the Company within the specified period of time as defined by IBM through submitting the necessary applications forms. In general, once applications are approved by IBM these rebates and credits approved by IBM will be deducted from CMS's accounts payable to IBM and decrease the cost of goods sold or inventory correspondingly. However, at the end of reporting period, CMS has to estimate the relevant rebates and credit receivable based on the quantity of inventory on hand and anticipated approval for rebates and credits receivable from IBM, therefore, the actual results could differ from our estimated amount.

Impairment of Long-Lived Assets

In assessing the recoverability of long-lived assets, including goodwill and other intangibles, we must make assumptions regarding estimated future cash flows and other factors to determine the fair value of the respective assets. If these estimates or their related assumptions change in the future, we may be required to record impairment charges for these assets not previously recorded.

Accounting for Income Taxes

Significant management judgment is required in determining our provision for income taxes, our deferred tax assets and liabilities and any valuation allowance recorded. As of December 31, 2001, we have recorded a full valuation allowance of approximately \$940,000 against our deferred tax assets balance in the U.S. due to uncertainties related to our deferred tax assets as a result of our history of losses in the U.S. The valuation is based on our estimates of taxable income in the U.S. operation and the period over which our deferred tax

Edgar Filing: BRIDGE TECHNOLOGY INC - Form 10-Q

assets will be recoverable. In the event that actual results differ from these estimates or we adjust these estimates in the future periods, we may need to change the valuation allowance, which could impact our financial position and results of operations.

9

Results of Operations for the Three Months Ended September 30, 2002 as Compared to the Three Months Ended September 30, 2001

Net sales of \$28,433,033 for the three months ended September 30, 2002 decreased by \$18,820,649, representing approximately a 39.83% decrease, over net sales of \$47,253,682 for the same period of 2001. The decrease was due primarily to the decrease of approximately \$4 million in U.S. operations and approximately \$15 million in Asia operations.

Asia revenue for the three months ended September 30, 2002 were \$22,463,937 compared to \$37,825,035 for the three months ended September 30, 2001, a decrease of \$15,361,098 or 41%. The decrease relates primarily to lower sales volume at CMS Technology Limited.

United States revenues for the three months ended September 30, 2002 were \$5,969,096 compared to \$9,428,647 for the three months ended September 30, 2001, a decrease of \$3,459,551 or 36.7%. Decreases relate primarily to decreased sales at Autec Power Systems, Inc.

Revenues for the Company's distribution businesses were \$26,016,624 for the three months ended September 30, 2002 compared to \$43,740,297 for the three months ended September 30, 2001, a decrease of \$17,723,673 or 40.5%. The decrease relates primarily to decreased sales volume at CMS Technology Limited and excluding sales generated by a former subsidiary Newcorp Technology (Japan).

Revenues for the Company's manufacturing businesses were \$2,416,409 for the three months ended September 30, 2002 compared to \$3,513,385 for the three months ended September 30, 2001, a decrease of \$1,096,976 or 31.2%. The decrease relates primarily to decreased sales at Autec.

Gross profit for the three months ended September 30, 2002 was \$1,559,912 decreasing by \$856,995 and representing approximately a 35.5% decrease, compared to \$2,416,907 for the same period of 2001. The reason for this decrease is due mainly to the decrease in sales of Autec for the quarter ended September 30, 2002. Gross profit as a percentage of net sales increased from 5.1% for the three months ended September 30, 2001 to 5.5% for the three months ended September 30, 2002. The increase is principally due to the higher margin generated through changes in the Company's product mix.

Asia gross profit as a percentage of sales for the three months ended September 30, 2002 was 3.3% compared to 3.9% for the three months ended September 30, 2001 primarily due to an increase in Return Merchandise Authorization at CMS Technology Limited.

United States gross profit as a percentage of sales for the three months ended September 30, 2002 was 13.6% compared to 9.8% for the three months ended September 30, 2001. The increase is primarily attributable to increased gross margins at Autec.

Gross profits for the Company's distribution businesses as a percentage of sales for the three months ended September 30, 2002 was 4.5% compared to 4.2% for the three months ended September 30, 2001.

Gross profits for the Company's manufacturing businesses as a percentage of sales for the three months ended September 30, 2002 was 16.2% compared to 16.4%

Edgar Filing: BRIDGE TECHNOLOGY INC - Form 10-Q

for the three months ended September 30, 2001. The decrease is primarily attributable to decreased gross margins at NingBo.

Research and development expenses decreased by \$167,182 to \$114,180 in the three months ended September 30, 2002, compared to \$281,362 for the three months ended September 30, 2001. This represents approximately a 59.4% decrease as a percentage of revenue. Research and development expenses decreased from 0.6% in the three months ended September 30, 2001 to 0.4% in the same period in 2002.

Selling, general and administrative expenses decreased by \$789,085 to \$1,766,839 in the three months ended September 30, 2002 compared to \$2,555,924 for the three months ended September 30, 2001. As a percentage of revenue, these expenses decreased from 5.4% in the three months ended September 30, 2001 to 6.2% in the three months ended September 30, 2002. The decrease in expenses is due to curtailment of sundry administrative expenses for the quarter ended September 30, 2002.

10

Losses from operations decreased from a loss of \$420,379 for the three months ended September 30, 2001 to loss of \$321,107 in the three months ended September 30, 2002. The decrease primarily reflects the cost savings efforts instituted in 2002. Loss from operations as a percentage of revenue decreased from 0.9% for the three months ended September 30, 2001 to a loss from operations as a percentage of revenue to 1.1% for the three months ended September 30, 2002.

Net interest expense decreased by \$9,399 from \$223,444 for the three months ended September 30, 2001 to net interest expense of \$214,045 for the three months ended September 30, 2002. The decrease is mainly the result of loan curtailment during the three months ended September 30, 2002.

Other income increased by \$65,758 from \$4,855 for the three months ended September 30, 2001 to \$70,613 for the three months ended September 30, 2002. The main source for this increase is primarily commission rebates in the three months ended September 30, 2002.

Net loss decreased by \$217,136 from net loss of \$735,965 for the three months ended September 30, 2001 to net loss of \$518,829 for the three months ended September 30, 2002. These results reflect a loss of \$0.07 per share for the three months ended September 30, 2001 to a loss of \$0.05 per share for the three months ended September 30, 2002.

Results of Operations for the Nine Months Ended September 30, 2002 as Compared to the Nine Months Ended September 30, 2001

Net sales of \$82,317,127 for the nine months ended September 30, 2002 decreased by \$27,361,250, representing approximately a 25% decrease, over net sales of \$109,678,377 for the same period of 2001. The decrease was due primarily to the decrease of approximately \$9.0 million in U.S. operations and approximately \$18.0 million in Asia operations.

Asia revenue for the nine months ended September 30, 2002 were \$64,305,410 compared to \$82,494,492 for the nine months ended September 30, 2001, a decrease of \$18,189,082 or 22.1%. Decreases relate primarily to decreased sales volume at CMS Technology Limited.

United States revenues for the nine months ended September 30, 2002 were \$18,011,717 compared to \$27,183,885 for the nine months ended September 30, 2001, a decrease of \$9,172,168 or 33.7%. Decreases relate primarily to decreased sales at Autec.

Edgar Filing: BRIDGE TECHNOLOGY INC - Form 10-Q

Revenues for the Company's distribution businesses were \$75,774,730 for the nine months ended September 30, 2002 compared to \$96,648,717 for the nine months ended September 30, 2001, a decrease of \$20,873,987 or 21.6%. Decreases relate primarily to decreased sales volume at CMS Technology Limited and excluding the sales of former subsidiary Newcorp Technology (Japan).

Revenues for the Company's manufacturing businesses were \$6,542,397 for the nine months ended September 30, 2002 compared to \$13,029,660 for the nine months ended September 30, 2001, a decrease of \$6,487,263 or 49.8%. The decrease relates primarily to decreased sales at Autec.

Gross profit for the nine months ended September 30, 2002 was \$4,348,172 decreasing by \$2,395,223 and representing approximately a 35.5% decrease, compared to \$6,743,395 for the same period of 2001. The reason for this decrease is due mainly to the decrease in sales of Autec for the nine months ended September 30, 2002. Gross profit as a percentage of net sales declined from 6.1% for the nine months ended September 30, 2001 to 5.3% for the nine months ended September 30, 2002. The decrease is principally due to the lower margin generated through the sales of Autec. Autec's product mix has changed to lower profit products.

Asia gross profit as a percentage of sales for the nine months ended September 30, 2002 was 3.4% compared to 4.4% for the nine months ended September 30, 2001 primarily due to an increase in Return Merchandise Authorization at CMS Technology Limited.

United States gross profit as a percentage of sales for the nine months ended September 30, 2002 was 12.2% compared to 11.6% for the nine months ended September 30, 2001. The increase is primarily attributable to increased gross margins at Autec.

Gross profits for the Company's distribution businesses as a percentage of sales for the nine months ended September 30, 2002 was 4.5% compared to 4.2% for the nine months ended September 30, 2001.

11

Gross profits for the Company's manufacturing businesses as a percentage of sales for the nine months ended September 30, 2002 was 13.9% compared to 20.8% for the nine months ended September 30, 2001. The decrease is primarily attributable to decreased gross margins at Autec.

Research and development expenses decreased by \$434,353 to \$502,030 in the nine months ended September 30, 2002, compared to \$936,383 for the nine months ended September 30, 2001. This represents approximately a 46.4% decrease.

Selling, general and administrative expenses decreased by \$1,353,423 to \$5,348,321 in the nine months ended September 30, 2002 compared to \$6,701,744 for the nine months ended September 30, 2001. As a percentage of revenue, these expenses decreased 20.2% in the nine months ended September 30, 2002. The decline is due to the cost saving effort implemented by management for the nine months ended September 30, 2002. Cost saving efforts included significant layoffs at Autec as well as cutbacks in operating expenses such as travel expense and purchases of supplies.

Losses from operations increased from \$894,732 for the nine months ended September 30, 2001 to \$1,502,179 in the nine months ended September 30, 2002. The increase primarily reflects the decline in profitability at Autec. Losses from operations as a percentage of revenue increased from 0.8% for the nine months ended September 30, 2001 to a loss from operations as a percentage of revenue to 1.8% for the nine months ended September 30, 2002.

Edgar Filing: BRIDGE TECHNOLOGY INC - Form 10-Q

Net interest expense increased by \$87,669 from \$588,283 for the nine months ended September 30, 2001 to net interest expense of \$675,952 for the nine months ended September 30, 2002. The increase is mainly the result of increased borrowings from shareholders during the nine months ended September 30, 2002.

Other income increased by \$603,884 from \$110,991 for the nine months ended September 30, 2001 to \$714,875 for the nine months ended September 30, 2002. The main source for this increase is the gain on the disposal of an investment of \$536,427 in the nine months ended September 30, 2002.

Net loss decreased by \$90,519 from net loss of \$1,766,740 for the nine months ended September 30, 2001 to net loss of \$1,676,221 for the nine months ended September 30, 2002. These results reflect a loss of \$0.16 per share for the nine months ended September 30, 2001 to a loss of \$0.15 per share for the nine months ended September 30, 2002.

Liquidity and Capital Resources

The Company's capital requirements have been and will continue to be significant and its cash and cash equivalents have been sufficient. At September 30, 2002, the Company had working capital approximately \$2.2 million and cash of \$1.7 million compared to a working capital of approximately \$4.6 million and cash of \$2.4 million at December 31, 2001.

Net cash provided by operating activities for the nine months ended September 30, 2002 was \$2,459,044 as compared to \$6,001,317 used in operating activities for the nine months ended September 30, 2001. The change of approximately \$8,460,361 or 141.0% was primarily attributable to approximately 12.0 million decreased in inventory, a decrease in tax refund receivable of \$0.5 million offset by approximately 3.1 million increase in accounts payable and 1.0 million increase in other receivable.

Net cash provided by investing activities for the nine months ended September 30, 2002 was \$537,354 compared to 2,028,207 used in investing activities in 2001. The change was a swing of 2,565,561, or 126.5%. The net cash provided by investing activities is mainly due to the proceeds of \$645,094. In 2002 our capital expenditures were \$107,740, which related to capital investment in Ningbo China as compared to \$2,028,207 net cash used in investing activities for the nine months ended September 30, 2001 for the initial investment in China.

Net cash used by financing activities for the nine months ended September 30, 2002 was \$3,660,464 as compared to \$4,509,654 net cash provided in the nine months ended September 30, 2001, reflecting an decrease of \$8,170,118 or 181.2%. The cash outflow in financing activities included \$4,545,924 of payments on the line of credit, offset by cash inflows of \$1,000,000 from a related party loan. In 2001, proceeds under the line of credit and related party loans were \$5,398,058 compared to payments on loans of approximately \$970,000.

12

Management believes that the Company does have the economic wherewithal to maintain its operations for the foreseeable future. In July 2002 the Company entered into a loan modification and extension agreement with a commercial bank for its outstanding balance of \$4 million at December 31, 2001, which was reduced by \$100,000 payment made in 2002. Pursuant to the terms of the new agreement, monthly interest only payments are to be made through maturity, \$50,000 is due by September 15, 2002 and no less than \$1,000,000 is due on November 30, 2002. The Company owns 90% of all issued and outstanding shares in CMS and pledged 65% of all issued and outstanding shares in CMS against this

Edgar Filing: BRIDGE TECHNOLOGY INC - Form 10-Q

outstanding balance and the maturity date of the note has been extended until November 30, 2002. However, if the Company makes all of the foregoing payments on a timely basis and has not otherwise defaulted on the loan, the maturity date for the remaining unpaid principal balance will be extended until June 30, 2003. In addition, management is negotiating with the Company's major shareholders to convert a portion of the Company's indebtedness to them into equity in order to improve the Company's working capital position. Operationally, management's plans include continuing actions to cut or curb non-essential expenses and focusing on improving the sales of Autec. No assurance can be given that the Company will be successful in extending or modifying its line of credit beyond June 30, 2003 or that the Company will be able to return to profitable operations. Looking for alternatives, the Company is currently seeking a global financing agreement with a major international bank to replace existing credit lines in U.S. and Hong Kong. No assurance can be given that the alternative funding source will be available.

Effects of Inflation

The Company believes that inflation has not had a material effect on its net sales and results of operations.

Effects of Fluctuation in Foreign Exchange Rates

The Company continues to buy products and services from foreign suppliers. The Company contracts for such products and services denominated by U.S. dollars, thus eliminating the possible effect of currency fluctuations.

Newly Issued Accounting Standards

In June 2001, Financial Accounting Standard Board issued Statement of Financial Accounting Standards, No. 143, "Accounting for Asset Retirement Obligations," ("FAS No. 143"). FAS No. 143 is effective for fiscal years beginning after June 15, 2002. FAS No. 143 requires that any legal obligation related to the retirement of long-lived assets be quantified and recorded as a liability with the associated asset retirement cost capitalized on the balance sheet in the period it is incurred when a reasonable estimate of the fair value of the liability can be made. Management of the Company expects that FAS No. 143 will be adopted on their effective dates and that the adoption will not result in any material effects on its financial statements.

In April 2002, the FASB issued Statement of Financial Accounting standards, No. 145, "Rescission of FASB Statements No. 4, 44, and 64, Amendment of FASB Statement No. 13, and Technical Corrections". (FAS No. 145) FAS No. 145 eliminates the current requirement that gains and losses on debt extinguishment must be classified as extraordinary items in the income statement. Instead, such gains and losses will be classified as extraordinary items only if they are deemed to be unusual and infrequent, in accordance with the current GAAP criteria for extraordinary classification. In addition, FAS No. 145 eliminates an inconsistency in lease accounting by requiring that modifications of capital leases that result in reclassification as operating leases be accounted for consistent with saleleaseback accounting rules. FAS No. 145 also contains other nonsubstantive corrections to authoritative accounting literature. The changes related to debt extinguishment will be effective for fiscal years beginning after May 15, 2002, and the changes related to lease accounting will be effective for transactions occurring after May 15, 2002. Adoption of this standard will not have any immediate effect on the Company's consolidated financial statements. The Company will apply this guidance prospectively.

In June 2002, the FASB issued Statement of Financial Accounting Standards, No. 146, "Accounting for Costs Associated with Exit or Disposal Activities," (FAS No. 146) which addresses accounting for restructuring and similar costs. FAS No. 146 supersedes previous accounting guidance, principally Emerging Issues Task Force (EITF) Issue No. 94-3. FAS No. 146 requires that the liability for costs associated with an exit or disposal activity be recognized when the liability is incurred. Under EITF No. 94-3, a liability for an exit cost was recognized at the date of a company's commitment to an exit plan. FAS No. 146 also establishes that the liability should initially be measured and recorded at fair value. Accordingly, FAS No. 146 may affect the timing of recognizing future restructuring costs as well as the amount recognized. The provisions of FAS 146 are to be applied prospectively to exit or disposal activities initiated after December 31, 2002. Management believes that the adoption of this standard will not have any immediate effect on the Company's consolidated financial statements.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK.

Bridge Technology, Inc. develops products in the United States and Japan and sells primarily in North America, Asia and Europe. As a result, financial results could be affected by factors such as changes in foreign currency exchange rates or weak economic conditions in foreign markets. Since our Company's products are generally initially priced in U.S. Dollars and translated to local currency amounts, a strengthening of the dollar could make our Company's products less competitive in foreign markets.

ITEM 4. CONTROLS PROCEDURES.

(a) Evaluation of Disclosure Controls and Procedures

The Company's Chief Executive Officer and its Chief Financial Officer, after evaluating the effectiveness of the Company's disclosure controls and procedures (as defined in the Securities Exchange Act of 1934 Rules 13a-14(c) and 15d-14(c) as of a date within 90 days of the filing date of this quarterly report on Form 10-Q (the "Evaluation Date")), have concluded that as of the Evaluation Date, the Company's disclosure controls and procedures were adequate and effective to ensure that material information relating to the Company and its consolidated subsidiaries would be made known to them by others within those entities, particularly during the period in which this quarterly report on Form 10-Q was being prepared.

(b) Changes in Internal Controls

There were no significant changes in the Company's internal controls or in other factors that could significantly affect the Company's disclosure controls and procedures subsequent to the Evaluation Date, nor any significant deficiencies or material weaknesses in such disclosure controls and procedures requiring corrective actions. As a result, no corrective actions were taken.

Edgar Filing: BRIDGE TECHNOLOGY INC - Form 10-Q

ITEM 1. LEGAL PROCEEDINGS

Note 6. - Legal Proceedings

On November 14, 2001, a complaint was filed by Oppenheimer Wolff & Donnelly LLP in the Orange County Superior Court, Santa Ana, California against the Company for fees allegedly owed by the Company. The Company intends to vigorously defend this claim because the amount invoiced was deemed excessive comparing to the quality of services rendered. The estimated liability including interest, costs and statutory attorney's fees of approximately \$100,000 is recorded in accrued liabilities. At December 31, 2001 and September 30, 2002. In July 2002, a non-binding arbitration was conducted resulting in an \$84,000 decision. At September 30, 2002, the Company has accrued a contingent liability of \$84,000. The Company intends to diligently pursue its rights in court if a reasonable settlement cannot be reached.

On April 16, 2002, a complaint was filed by Danton Mak Esq. in the Superior Court of Los Angeles against Autec Power Systems, Inc. for fees allegedly owed by Autec. The matter was submitted to binding arbitration scheduled for hearing in April 2002. An estimated liability of \$136,000 has been recorded at December 31, 2001. In July 2002 this matter has been settled for \$110,000 by stipulation of four equal payments of \$27,500 due on June 1, July 1, August 1 and September 1, 2002, which were made according to schedule.

On April 24, 2002 a complaint was filed against the Company in the Orange County Superior Court, Santa Ana, California by Mason Tarkeshian for fees alleged to be due on an acquisition which was not consummated. The complaint sought for damage of approximately \$2 million where as the Company believes that the complaint was without merit and would be resolved in favor of the Company. The Company tendered this case to the insurance carrier for settlement and had not accrued any liabilities for this matter as of December 31, 2001..In 2002, this complaint was settled by the Company's insurance carrier and the Company. The Company's portion of contribution to the settlement was to issue a warrant to purchase 25,000 shares of common stock of Bridge at \$0.55 per share. The Company issued that warrant in July 2002 and is awaiting the receipt of a specific and general release.

On October 1, 2001, a complaint was filed by a Trustee in U.S. Bankruptcy Court against the Company for an alleged transfer of assets, technology, trade secrets, confidential information, business opportunities from Allied Web, a corporation owned by the Company's former President and Director, which filed for liquidation under federal bankruptcy laws on April 6, 2000. At December 31, 2001, management of the Company was unable to assess the possibility of incurring future liability and estimate the reasonable amount of contingent liability. Therefore, the Company did not record any accrued liability for this matter. In July 2002, this case was settled in principal with a major participation by the Company's insurance carrier. Accordingly, the Company accrued a contingent liability of approximately \$265,000 as of September 30, 2002. On November 8, 2002, the Bankruptcy Judge dismissed this suit for failure to appear or prosecute. The Company expects the Bankruptcy Judge will set aside the dismissal and reinstate the action. However, as of November 14, 2002, Bridge is unaware of whether the Bankruptcy Judge has so acted. The Bankruptcy Trustee and the Company have negotiated a tentative settlement, contingent upon the approval of a prior Officer/Director, another individual and other active Officers and Directors.

On December 12, 2001, a former shareholder of Autec Power Systems has filed a complaint in Ventura County Superior Court against the controlling shareholder of Autec, Mr. Winston Gu and Bridge Technology, Inc. alleging that the

Edgar Filing: BRIDGE TECHNOLOGY INC - Form 10-Q

complainant did not receive sufficient exchange of shares in this acquisition by Bridge Technology, Inc. The Company believes that the complaint is without merit and will defend it vigorously. At December 31, 2001, management of the Company was unable to assess the possibility of incurring future liability and estimate the reasonable amount of contingent liability. Therefore, the Company has not record any liability for this matter at December 31, 2001. As of November 14, 2002, the Company is unable to predict any consequence about this matter.

Exhibit 99.1

CERTIFICATION PURSUANT TO 18 U.S.C. SECTION 1350,
AS ADOPTED PURSUANT TO SECTION 906 OF THE SARBANES-OXLEY ACT OF 2002

In connection with the filing of the Quarterly Report on Form 10-Q for the quarterly period ended September 30, 2002 (the "Report") by Bridge Technology, Inc. ("Registrant"), each of the undersigned hereby certifies that:

The Report fully complies with the requirements of Section 13(a) or 15(d) of the Securities Exchange Act of 1934, as amended, and

The information contained in the Report fairly presents, in all material respects, the financial condition and results of operations of Registrant as of and for the periods presented in the report.

Exhibit 99.2

CERTIFICATION BY THE CHIEF EXECUTIVE OFFICER PURSUANT TO SECTION 302 OF THE
SARBANES-OXLEY ACT OF 2002

I, James Djen, certify that:

I have reviewed this quarterly report on Form 10-Q of Bridge Technology, Inc.:

Based on my knowledge, this quarterly report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this quarterly report;

Based on my knowledge, the financial statements, and other financial information included in this quarterly report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this quarterly report;

The registrant's other certifying officers and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-14 and 15d-14) for the registrant and we have:

designed such disclosure controls and procedures to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this quarterly report is being prepared;

evaluated the effectiveness of the registrant's disclosure controls and procedures as of a date within 90 days prior to the filing date of this quarterly report (the "Evaluation Date"); and

presented in this quarterly report our conclusions about the effectiveness of the disclosure controls and procedures based on our evaluation as of the Evaluation Date;

The registrant's other certifying officers and I have disclosed, based on our most recent evaluation, to the registrant's auditors and the audit committee of registrant's board of directors (or persons performing the equivalent function):

all significant deficiencies in the design or operation of internal controls which could adversely affect the registrant's ability to record, process, summarize and report financial data and have identified for the registrant's auditors any material weaknesses in internal controls; and

any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal controls; and

The registrant's other certifying officers and I have indicated in this quarterly report whether or not there were significant changes in internal controls or in other factors that could significantly affect internal controls subsequent to the date of our most recent evaluation, including any corrective
