BONSO ELECTRONICS REPORTS FIRST QUARTER RESULTS

HONG KONG, September 19, 2002 - Bonso Electronics International Inc.
(NASDAQ:BNSO) today announced net income of \$522,000, or \$0.9 per share, on
revenues of \$10,118,000 for the first fiscal quarter ended June 30, 2002.
Earnings declined 22 percent from \$669,000, or \$0.12 per share, for the first
quarter of fiscal year 2002, while revenues were down 19.6 percent from
\$12,581,000 in the same 2002 period.

First quarter revenues reflect the continuing slow recovery of the

telecommunication industry, which provided Bonso with approximately 33 percent of its sales in last fiscal year ended March 31, 2002, according to Anthony So, Bonso chairman, president and CEO. "The current decline in telecom sales is no surprise in light of forecasts from industry experts such as International Data Corporation, which estimates a five percent drop in global demand for telecommunication products in 2002," Mr. So said. "Our scales business was up for the quarter but not enough to offset the downturn in orders for wireless products."

The first quarter gross margin improved 6.8 percent on lower revenues, compared to the same fiscal period 2002, which Mr. So attributed to a formal program for improving manufacturing efficiency and overall business processes.
