BOARD COMPENSATION COMMITTEE REPORT ON EXECUTIVE COMPENSATION

The Executive Compensation Committee of the Board of Directors believes that the primary objective of the Company's executive compensation policies should be to attract and retain qualified executives, which is critical to the ongoing success of the Company. The executive compensation program is based upon factors that are subjective in nature and are in the best interests of the Company and ultimately the shareholders. The Committee's primary objective is achieved by providing appropriate compensation and incentives that are competitive with executives at selected peer companies of comparable size and position in the retail business, while keeping compensation in line with the financial objectives of the Company. The Committee recognizes the fact that the Company is engaged in a highly competitive industry and thus annually examines market compensation levels and trends in the labor market. In 2001, the Committee revised the Company's compensation program based upon the recommendations from a consulting firm specializing in executive compensation, and implemented an annual bonus plan to reward certain key employees, including its executive officers. Bonus potentials are established by level within the Company, and actual payouts are based on achievement of sales and operating profit targets.

With the Chairman and President/CEO, the Committee subjectively evaluates the performance of senior management. The Committee relies upon written and verbal evaluations, provided by the Chairman and President/CEO, of each executive's performance for the most recent fiscal year. In addition, senior management is orally evaluated by the President/CEO as to their efforts and accomplishments throughout the period from information deemed relevant both internally and in light of the competitive position of the Company in the industry. These evaluations include qualitative factors such as the individuals' decision-making responsibilities, the professional experience required to perform given tasks, and their leadership and team-building skills. Although executive base compensation is not specifically related to corporate performance, the overall performance of the Company is a consideration in determining executive compensation. The Chairman and President/CEO reported that the executives substantially met their objectives during the most recent fiscal year. Based on subjective and qualitative considerations, which include the overall financial and operational success of the Company, the Committee approved the continuation of the Chairman's and the President/CEO's compensation in fiscal 2002.

Employment and Severance Agreements. The Committee notes that the President/CEO has an employment agreement through 2006 and the Senior Vice President and Treasurer/CFO has an employment agreement with the Company through 2007. These agreements specify the terms of employment, including pay factors. The agreements provide that employment shall be at will, but if employment is terminated without cause, or the executive resigns for good reason, the executive shall receive his remaining salary and all benefits payable under the agreement. The agreements include a covenant not to compete clause, which is limited by time and geography.

Respectfully submitted by the Executive Compensation Committee,

Steven C. Smith, Committee Chairman
 Michael M. Apfelbaum
 Richard E. Shulman

RETIREMENT PLANS

Profit Sharing Plan. The Company maintains a Profit Sharing Plan for certain salaried employees, store management and administrative support personnel. The purpose of the Plan is to enhance employee opportunities for their dedication and loyal service to the Company. The Board of Directors annually determines the amount of contribution to the Plan at its sole discretion. The contribution is allocated among the various plan participants in relationship to their compensation and years of service. Plan participants are 100% vested in their accounts after seven years of service with the Company and are entitled to receive a distribution of their vested accounts upon termination of employment, including retirement, disability or death.

Employee Stock Ownership Plan. The Company maintains, at its sole expense, an Employee Stock Ownership Plan for certain eligible employees. The purpose of the Employee Stock Ownership Plan is to give eligible employees the pride of ownership in the Company. Eligible employees become participants at the

beginning of the plan year following the two-year anniversary date of their employment, subject to break in service provisions. The

Board of Directors annually determines the amount of contribution to the Plan at its sole discretion. The entire contribution is applied toward the purchase of the Company's stock and is distributed among participant accounts in relationship to their compensation. Every participant is fully vested. Vested interests in plan assets are distributed to participants upon termination of employment, including retirement, disability or death.

Retirement Savings Plan. The Company maintains a Retirement Savings Plan pursuant to Section 401(k) of the Internal Revenue Code. Employees become eligible to participate once they complete one year of eligibility service and attain the age of 21. On a quarterly basis, the Company contributes into the plan at the rate of 25% of the employees first 4% of elective deferral. Plan participants are 100% vested in their accounts after seven years of service with the Company and are entitled to receive a distribution of their vested accounts upon termination of employment, including retirement, disability or death.

Supplemental Retirement Plans. The Company maintains a non-qualified supplemental retirement plan for certain of its officers. The benefits are determined through actuarial calculations dependent on the age of the recipient. The benefit payable on an annual basis to Robert F. Weis would be \$598,146 if he had retired as of the date of this Proxy.

The Company also maintains a second non-qualified supplemental retirement plan for certain of its employees. This Plan is designed to provide retirement benefits and salary deferral opportunities because of the limitations imposed by the Internal Revenue Code and the Regulations implemented by the Internal Revenue Service. Participants in this plan are excluded from participation in the qualified Profit Sharing or Employee Stock Ownership plans. The Board of Directors annually determines the amount of the allocation to the Plan at its sole discretion. The allocation among the various plan participants is made in relationship to their compensation, years of service and job performance. Plan participants are 100% vested in their accounts after seven years of service with the Company. Benefits are distributed among participants upon reaching the applicable retirement age. Substantial risk of benefit forfeiture does exist for participants in this Plan.

OF THE BOARD OF DIRECTORS**

I. Purpose

The Audit Committee shall assist the Board of Directors in fulfilling its responsibilities and duties to the shareholders of Weis Markets, Inc. (the "Corporation") and to the investment community relating to corporate accounting, reporting practices of the Corporation, and the quality and integrity of the financial reports of the Corporation. In meeting its responsibilities, the Audit Committee is expected to maintain open avenues of communication among the independent auditors, the internal auditors, management of the Corporation, and the Board of Directors.

II. Organization

The Audit Committee shall be comprised of three or more directors who are independent of management, and free from any relationship that, in the opinion of the Board of Directors, would interfere with the exercise of independent judgment as a member of the Audit Committee. The members of the Audit Committee shall be elected by the Board of Directors at the annual organizational meeting of the Board of Directors, and shall serve until their successors are duly elected and qualified. The Board of Directors shall designate one of the members of the Audit Committee to serve as its Chair. The Audit Committee, through its Chair, shall have the right to consult with counsel in the performance of its responsibilities and duties.

III. Meetings

The Audit Committee shall meet at least four times per year on a quarterly basis or more frequently as circumstances require. The Audit Committee may require members of management to attend its meetings and to provide pertinent information as necessary.

The Audit Committee shall meet with the independent auditors, the internal auditors and management each quarter and shall review the Corporation's financial statements.

In order to maintain open communication, the Audit Committee shall also meet separately at least annually, or more frequently if the Chair of the Audit Committee believes it is necessary or if requested by the independent auditors, with each of the independent auditors, the internal auditors and management to discuss any matters that the participants of such meeting believe should be discussed privately.

The Audit Committee shall either submit the minutes of each of its meetings to the Board of Directors or report the matters raised at each of its meetings to the Board of Directors.

IV. Responsibilities and Duties

To fulfill its responsibilities, the Audit Committee shall:

A. Documents/Reports Review

1. Review the Corporation's annual financial statements and any other reports, documents or financial information to be submitted to shareholders, (including but not limited to the Securities and Exchange Commission filings), as deemed significant by management or the outside auditors.
2. Review the regular internal reports to management prepared by the internal auditors and management's response to these reports.
3. Review the financial press releases of the Company if the press release involves the annual financial results, which would be ultimately reported in the 10-K Filing made by the Corporation.

B. Independent Auditors

1. Review the performance of the independent auditors and make recommendations to the Board of Directors regarding the appointment or termination of the independent auditors.
2. Review and discuss with the independent auditors all significant relationships that the independent auditors have with the Corporation to assess the independent auditors' continued independence.
3. Consult with the independent auditors about the completeness and accuracy of the Corporation's financial statements.

C. Financial Reporting Process

In consultation with the independent auditors and the internal auditors, review the integrity of the Corporation's accounting practices and financial reporting processes, including the

independence and authority of the independent auditors and the internal auditors, and the proposed audit plans.

D. Process Improvement

1. Establish regular and separate systems of reporting to the Audit Committee by each of the independent auditors, the internal auditors and management regarding any significant judgments made in management's preparation of the financial statements.
2. Following completion of the annual audit, review with the independent auditors, the internal auditors and management any significant difficulties encountered during the course of the audit.
3. Review with independent auditors, the internal auditors and management, the adequacy and effectiveness of the accounting and financial controls and procedures of the Corporation, and elicit any recommendations for the improvement of such controls and procedures or particular areas where new or more detailed controls or procedures are desirable. Particular emphasis shall be given to the adequacy of such controls and procedures to expose any payments, transactions or procedures that might be deemed illegal or otherwise improper. Further, the Audit Committee periodically shall review Corporation policy statements to determine their adherence to such controls and procedures.
4. Review any significant disagreement among the independent auditors, the internal auditors and management in connection with the preparation of the financial statements.
