CARTER'S, INC.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(unaudited)

NOTE 1 – THE COMPANY

Carter's, Inc. and its wholly owned subsidiaries (collectively, the "Company," "its," "us" and "our") design, source, and market branded childrenswear and related products under the Carter's, Child of Mine, Just One You, Precious Firsts, Simple Joys, OshKosh B'gosh ("OshKosh"), Skip Hop and other brands. The Company's products are sourced through contractual arrangements with manufacturers worldwide for: 1) wholesale distribution to leading department stores, national chains, and specialty retailers domestically and internationally and 2) distribution to the Company's own retail stores and eCommerce sites that market its brand name merchandise and other licensed products manufactured by other companies. As of September 29, 2018, the Company operated 1,061 retail stores in the United States, Canada, and Mexico.

NOTE 2 – BASIS OF PRESENTATION

The accompanying unaudited condensed consolidated financial statements of the Company have been prepared in accordance with accounting principles generally accepted in the United States ("U.S. GAAP") for interim financial information and the rules and regulations of the Securities and Exchange Commission (the "SEC"). All intercompany transactions and balances have been eliminated in consolidation.

In the opinion of management, the accompanying unaudited condensed consolidated financial statements contain all normal and recurring adjustments necessary to state fairly the consolidated financial condition, results of operations, comprehensive income, statement of stockholders' equity, and cash flows of the Company for the interim periods presented. Except as otherwise disclosed, all such adjustments consist only of those of a normal recurring nature. Operating results for the fiscal quarter and three fiscal quarters ended September 29, 2018 are not necessarily indicative of the results that may be expected for the current fiscal year ending December 29, 2018.

The preparation of these unaudited condensed consolidated financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting periods. Actual results could differ materially from those estimates.

The accompanying condensed consolidated balance sheet as of December 30, 2017 was derived from the Company's audited consolidated financial statements included in its most recently filed Annual Report on Form 10-K. Certain information and footnote disclosure normally included in financial statements prepared in accordance with U.S. GAAP have been condensed or omitted pursuant to the rules and regulations of the SEC and the instructions to Form 10-Q. As disclosed in Note 2, Basis of Presentation, and Note 3, Revenue Recognition, at the beginning of fiscal 2018 the Company adopted the Financial Accounting Standards Board's ("FASB") Accounting Standards Codification ("ASC") No. 606, Revenue from Contracts with Customers, and related amendments ("ASC 606") using the full retrospective adoption method. The full retrospective method required the Company to apply the standard to the financial statements for the period of adoption as well as to each prior reporting period presented.

Accounting Policies

The accounting policies the Company follows are set forth in its most recently filed Annual Report on Form 10-K. There have been no material changes to these accounting policies, except as noted below for new accounting pronouncements adopted at the beginning of fiscal 2018.

Revenue from Contracts with Customers (ASC No. 606)

At the beginning of fiscal 2018, the Company adopted the provisions of ASC No. 606, Revenue from Contracts with Customers, and all related amendments ("ASC 606") using the full retrospective adoption method. Refer to Note 3, Revenue Recognition, for additional information.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (continued)

The Company uses the five-step model to recognize revenue:

- 1) Identify the contract with the customer;
- 2) Identify the performance obligation(s);
- 3) Determine the transaction price;
- 4) Allocate the transaction price to each performance obligation if multiple obligations exist; and
- 5) Recognize the revenue as the performance obligations are satisfied

Performance Obligations

The Company identifies each distinct performance obligation to transfer goods (or bundle of goods). The Company recognizes revenue when (or as) it satisfies a performance obligation by transferring control of the goods to the customer. Other than inbound and outbound freight and shipping arrangements, the Company does not use third parties to satisfy its performance obligations in revenue arrangements with customers.

When Performance Obligations Are Satisfied

Wholesale Revenues - The Company typically transfers control upon shipment. However, in certain arrangements where the Company retains the risk of loss during shipment, satisfaction of the performance obligation occurs when the goods reach the customer.

Retail Revenues - For transactions in stores, the Company satisfies its performance obligation at point of sale when the customer takes possession of the goods and tenders payment. The redemption of loyalty points under the Company's rewards program and redemptions of gift cards may be part of a transaction. For purchases made through the Company's eCommerce channel, revenue is recognized when the goods are physically delivered to the customer. The Company satisfies its performance obligations with licensees over time as customers have the right to use the intellectual property over the contract period.

Significant Payment Terms

Retail customers tender a form of payment, such as cash or a credit/debit card, at point of sale. For wholesale customers and licensees, payment is due based on established terms.

Returns and Refunds

The Company establishes return provisions for retail customers. It is the Company's policy not to accept returns from wholesale customers.

Significant Judgments

Sale of Goods - The Company relies on shipping terms to determine when performance obligations are satisfied. When goods are shipped to wholesale customers "FOB Shipping Point," control of the goods is transferred to the customer at the time of shipment if there are no remaining performance obligations. The Company recognizes the revenue once control passes to the customer. For retail transactions, no significant judgments are involved since revenue is recognized at the point of sale when tender is exchanged and the customer receives the goods.

Royalty Revenues - The Company transfers the right-to-use benefit to the licensee for the contract term and therefore the Company satisfies its performance obligation over time. Revenue recognized for each reporting period is based on the greater of: 1) the royalties owed on actual net sales by the licensee and 2) a minimum royalty guarantee, if applicable.

Transaction Price - The transaction price is the amount of consideration the Company expects to receive under the arrangement. The Company is required to estimate variable consideration (if any) and to factor that estimation into the determination of the transaction price. The Company may offer sales incentives to wholesale and retail customers, including discounts. For retail transactions, the Company has significant experience with return patterns and relies on this experience to estimate expected returns when determining the transaction price.

Standalone Selling Prices - For arrangements that contain multiple performance obligations, the Company allocates the transaction price to each performance obligation on a relative standalone selling price basis.

Costs Incurred to Obtain a Contract - Incremental costs to obtain contracts are not material to the Company.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (continued)

Policy Elections

In addition to those previously disclosed, the Company has made the following accounting policy elections and practical expedients:

Portfolio Approach - The Company uses the portfolio approach when multiple contracts or performance obligations are involved in the determination of revenue recognition.

Taxes - The Company excludes from the transaction price any taxes collected from customers that are remitted to taxing authorities.

Shipping and Handling Charges - Charges that are incurred before and after the customer obtains control of goods are deemed to be fulfillment costs.

Time Value of Money - The Company's payment terms are less than one year from the transfer of goods. Therefore, the Company does not adjust promised amounts of consideration for the effects of the time value of money.

Disclosure of Remaining Performance Obligations - The Company does not disclose the aggregate amount of the transaction price allocated to remaining performance obligations for contracts that are one year or less in term.

Classification of Costs Related to Defined Benefit Pension and Other Post-retirement Benefit Plans (ASU 2017-07)

At the beginning of fiscal 2018, the Company adopted ASU No. 2017-07, Compensation - Retirement Benefits (Topic 715: Improving the Presentation of Net Periodic Pension Cost and Net Periodic Post-retirement Benefit Cost ("ASU 2017-07")). ASU 2017-07 changes how employers that sponsor defined benefit pension and/or other post-retirement benefit plans present the net periodic benefit costs in the statement of operations. Under this new guidance, an employer's statement of operations presents service cost arising in the current period in the same statement line item as other employee compensation. However, all other components of current period costs related to defined benefit plans, such as prior service costs and actuarial gains and losses, are presented on the statement of operations on a line item outside (or below) operating income. ASU 2017-07 affects only the classification of certain costs on the statement of operations, not the determination of costs. Net periodic pension costs related to the Company's frozen defined benefit pension plan and post-retirement medical benefit plan were not material for the third quarter of fiscal 2018, three fiscal quarters of 2018, or prior periods. Prior period results have not been reclassified on the Company's statement of operations due to materiality.

Modifications to Share-based Compensation Awards (ASU 2017-09)

At the beginning of fiscal 2018, the Company adopted ASU No. 2017-09, Compensation-Stock Compensation Topic 718-Scope of Modification Accounting ("ASU 2017-09"). ASU 2017-09 clarifies when changes to the terms and conditions of share-based payment awards must be accounted for as modifications. Entities apply the modification accounting guidance if the value, vesting conditions, or classification of an award changes. The Company has not modified any share-based payment awards. If the Company modifies share-based payment awards in the future, it will apply the provisions of ASU 2017-09.

Definition of a Business (ASU 2017-01)

At the beginning of fiscal 2018, the Company adopted ASU No. 2017-01, Business Combinations (Topic 805): Clarifying the Definition of a Business ("ASU 2017-01"). ASU 2017-01 assists entities in determining if acquired assets constitute the acquisition of a business or the acquisition of assets for accounting and reporting purposes. This distinction is important because goodwill can only be recognized in an acquisition of a business. Prior to ASU 2017-01, if revenues were generated immediately before and after a transaction, the acquisition was typically considered a business. Under ASU 2017-01, entities are required to further assess the substance of the processes they acquire. If the Company commences or completes an acquisition in future periods, it will apply the provisions of ASU 2017-01.

Statement of Cash Flows (ASU 2016-15)

At the beginning of fiscal 2018, the Company adopted ASU No. 2016-15, Statement of Cash Flows (Topic 230) ("ASU 2016-15"). ASU 2016-15 represents a consensus of the FASB's Emerging Issues Task Force on eight separate issues that, if present, can impact classifications on the statement of cash flows. The guidance requires application using a retrospective transition method. The adoption of ASU 2016-15 only impacted the classification of certain insurance proceeds on the Company's consolidated statement of cash flows for the first three quarters of fiscal 2018.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (continued)

NOTE 3 - REVENUE RECOGNITION

The Company's revenues are earned from contracts or arrangements with retail and wholesale customers and licensees. Contracts include written agreements, as well as arrangements that are implied by customary practices or law.

At the beginning of fiscal 2018, the Company adopted the provisions of ASC 606 using the full retrospective adoption method. Under the full retrospective method, the Company adjusted all periods in fiscal 2017 and fiscal 2016 to reflect the provisions of ASC 606, and retained earnings at January 2, 2016 (beginning of fiscal 2016) were adjusted for the cumulative effect for prior periods. Refer to the section "Revenue from Contracts with Customers (ASC No. 606)" in Note 2, Basis of Presentation, for changes to the Company's accounting policies due to the adoption of ASC 606.

ASC 606 affected the Company's retail channels as follows:

Accelerated the recognition of breakage revenue from unredeemed gift cards, which affected net sales, gross profit, income before income taxes, and net income on the Company's statements of operations. Basic and diluted net income per share were affected by \$0.01 or less for each reporting period. Related gift card liabilities and income tax liabilities were also affected.

A portion of the estimated value of goods expected to be returned by customers was reclassified between net sales and cost of goods sold, with no net effect on gross profit, income before income taxes, or net income on the Company's statement of operations. Related reclassifications were also made between other current assets and other current liabilities on the Company's balance sheets.

The effects of retrospective adoption on the Company's consolidated Statements of Operations were as follows:

	Third Quarter	Three Fiscal Quarters	Year	Year
(dollars in thousands, except per share data)	Fiscal 2017	Fiscal 2017	Fiscal 2017	Fiscal 2016
Net sales	\$ (186)	\$ (480)	\$ 92	\$ (637)
Cost of goods sold	\$ 84	\$ 110	\$ 52	\$ (7)
Income before income taxes	\$ (270)	\$ (590)	\$ 40	\$ (630)

Basic net income per common share	\$ —	\$ (0.01)	\$ —	\$ (0.01)
Diluted net income per common share	\$ —	\$ (0.01)	\$ —	\$ —

The cumulative effect to the Company's retained earnings at January 2, 2016 was an after-tax increase of approximately \$0.6 million.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (continued)

The effects of adoption of ASC 606 on the Company's consolidated balance sheet at December 30, 2017 were as follows:

Reclassification of estimated inventory expected to be returned by customers through future sales refund transactions. This amount was reclassified from the returns reserve (current liability) to a current asset. Prior to the Company's adoption of ASC 606, the Company's returns reserve (current liability) was reported net of the estimated inventory expected to be returned by customers through sales refund transactions.

(1) Amount includes a reclassification of approximately \$3.0 million for estimated inventory expected to be returned by customers, partially offset by a reclassification of approximately \$0.4 million for gift card liabilities.

(2) Cumulative impact of approximately \$0.6 million for after-tax adjustments to retained earnings at the beginning of fiscal 2016, offset by ASC 606 effects on fiscal 2017 and fiscal 2016 results of operations.

The retrospective adoption of ASC 606 at the beginning of fiscal 2018 also had the following effects on the Company's unaudited condensed consolidated balance sheet at September 30, 2017:

Contract Assets and Liabilities

The Company's contract assets are not material.

Contract Liabilities

The Company recognizes a contract liability when it has received consideration from the customer and has a future obligation to transfer goods to the customer. Total contract liabilities consisted of the following amounts:

(dollars in thousands)	September 29, 2018	December 30, 2017	September 30, 2017
Contract liabilities-current:			
Unredeemed gift cards	\$ 11,304	\$ 11,945	\$ 10,236
Unredeemed customer loyalty rewards	8,441	7,355	8,485
Total contract liabilities-current(*)	\$ 19,745	\$ 19,300	\$ 18,721

*Included with Other current liabilities on the Company's consolidated balance sheet.

Composition of Contract Liabilities

Unredeemed gift cards - the Company is obligated to transfer goods in the future to customers who have purchased gift cards. Periodic changes in the gift card contract liability result from the redemption of gift cards by customers and the recognition of estimated breakage revenue for those gift card balances that are not expected to be redeemed. The majority of our gift cards do not have an expiration date; however, all outstanding gift card balances are classified by the Company as current liabilities since gift cards are redeemable on demand by the valid holder. The majority of the Company's gift cards are redeemed within one year of issuance.

Unredeemed loyalty rewards - points and reward certificates earned by customers under the Company's loyalty programs represent obligations of the Company to transfer goods to the customer upon redemption. Periodic changes in the loyalty program contract liability result from reward certificate redemptions and expirations. The earning and redemption cycles for our loyalty program are under one year in duration.

NOTE 4 – BUSINESS ACQUISITIONS IN FISCAL 2017

Based on their purchase prices and pre-acquisition operating results and assets, neither of the businesses acquired by the Company in fiscal 2017 met the materiality requirements for preparation and presentation of pro forma financial information, either individually or in the aggregate.

Skip Hop Acquisition

Carter's, Inc.'s wholly-owned subsidiary, The William Carter Company ("TWCC"), acquired 100% of the voting equity interests of Skip Hop Holdings, Inc. and subsidiaries (collectively "Skip Hop") after the close of business on February 22, 2017. The Skip Hop purchase was deemed to be the acquisition of a business under the provisions of ASC No. 805, Business Combinations ("ASC 805"). The Company's consolidated financial statements reflect the consolidation of the financial position, results of operations and cash flows of Skip Hop beginning February 23, 2017. In the Company's unaudited condensed consolidated balance sheet at July 1, 2017, the preliminary purchase price of approximately \$147.3 million, net of \$0.8 million cash acquired, was comprised of the following acquired assets and assumed liabilities: \$54.2 million of goodwill including an assembled workforce; \$92.7 million of intangible assets comprised of a tradename and acquired customer relationships; \$54.9 million of tangible assets acquired; and \$20.2 million of liabilities in addition to \$35.9 million of deferred income tax liabilities.

The measurement period (as defined in ASC 805) for Skip Hop was complete at the end of fiscal 2017 and all measurement period adjustments were reflected in the Company's consolidated balance sheet as of December 30, 2017. As a result of the measurement period adjustments recorded between the acquisition date and the end of fiscal 2017, the net assets acquired consisted of the following: \$46.0 million of goodwill including an assembled workforce; \$104.1 million of intangible assets comprised of a tradename and acquired customer relationships; \$53.9 million of tangible assets acquired; and \$20.8 million of liabilities in addition to \$36.3 million of deferred income tax liabilities. The adjusted purchase price was approximately \$142.5 million, net of \$0.8 million of cash acquired.

Acquisition of Mexican Licensee

On August 1, 2017, the Company, through certain of its wholly-owned subsidiaries, acquired the outstanding equity of the Company's licensee in Mexico and a related entity (collectively "Carter's Mexico"). Both entities are incorporated

under

12

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (continued)

Mexican law. Prior to the acquisition, Carter's Mexico was primarily a licensee and wholesale customer of the Company. The Carter's Mexico purchase was deemed to be the acquisition of a business under the provisions of ASC 805. The Company's consolidated financial statements reflect the consolidation of the financial position, results of operations and cash flows of Carter's Mexico beginning August 1, 2017. Carter's Mexico became part of the Company's International reportable segment.

As of December 30, 2017, preliminary values assigned to assets acquired included inventories of approximately \$8.3 million, a customer relationships intangible asset of approximately \$3.5 million, and goodwill of approximately \$6.2 million. Measurement period adjustments made in the first quarter of fiscal 2018 were not material.

The measurement period (as defined in ASC 805) for the acquisition of Carter's Mexico was completed during the second quarter of fiscal 2018 and all measurement period adjustments were reflected in the Company's consolidated balance sheet as of September 29, 2018. As a result of the measurement period adjustments recorded between the acquisition date and the end of the second quarter of fiscal 2018, the values assigned to assets acquired included inventories of approximately \$8.0 million, a customer relationships intangible asset of approximately \$3.5 million, and goodwill of approximately \$6.3 million.

Open Market Share Repurchases

The total aggregate remaining capacity under outstanding repurchase authorizations as of September 29, 2018 was approximately \$440.1 million, based on settled repurchase transactions. The authorizations have no expiration date. The Company repurchased and retired shares in open market transactions in the following amounts for the fiscal periods indicated:

	Fiscal quarter ended		Three fiscal quarters ended	
	September 29, 2018	September 30, 2017	September 29, 2018	September 30, 2017

Dividends

In the third fiscal quarter and three fiscal quarters ended September 29, 2018, the Company declared and paid cash dividends per share of \$0.45 and \$1.35, respectively. In the third fiscal quarter and three fiscal quarters ended September 30, 2017, the Company declared and paid cash dividends per share of \$0.37 and \$1.11, respectively. Future declarations of dividends and the establishment of future record and payment dates are at the discretion of the Company's Board of Directors and are based on a number of factors, including the Company's future financial performance and other investment priorities.

Provisions in the indenture governing the senior notes of TWCC and in TWCC's secured revolving credit facility could have the effect of restricting the Company's ability to pay future cash dividends on, or make future repurchases of, its common stock. Provisions related to the indenture governing the senior notes are described in the Company's Annual Report on Form 10-K for the 2017 fiscal year ended December 30, 2017.

Secured Revolving Credit Facility

On September 21, 2018, TWCC and a syndicate of lenders entered into Amendment No. 1 to its fourth amended and restated credit agreement that, among other things, extended the term of the facility from August 25, 2022 to September 21, 2023.

As amended, the secured revolving credit facility provides: (i) a maturity date for the maturity of September 21, 2023 and (ii) an aggregate credit line of \$750 million which includes a \$650 million U.S. dollar facility and a \$100 million multicurrency facility denominated in U.S. dollars, Canadian dollars, Euros, Pounds Sterling, or other currencies agreed to by the applicable lenders. The \$650 million U.S. dollar facility is inclusive of a \$100 million sub-limit for letters of credit and a swing line sub-limit of \$70 million. The \$100 million multicurrency facility is inclusive of a \$40 million sub-limit for letters of credit and a swing line sub-limit of \$15 million.

In addition, the secured revolving credit facility includes additional potential borrowing facilities up to \$425 million, which is comprised of a \$350 million U.S. dollar revolving credit facility and a \$75 million multicurrency revolving credit facility. The U.S. dollar revolving credit facility can also potentially increase to an unlimited borrowing amount so long as the consolidated first lien leverage ratio (as defined in the secured revolving credit facility) does not exceed 2.25:1.00.

Under the secured revolving credit facility, TWCC and its domestic subsidiaries have granted to the collateral agent, for the benefit of the lenders, valid and perfected first priority security interests in substantially all of their present and future assets, excluding certain customary exceptions, and guarantee the obligations of the borrowers. In addition, The Genuine Canadian Corp., as Canadian borrower, and Carter's Holdings B.V., as Dutch borrower, have each guaranteed the obligations of the other.

As of September 29, 2018, the Company had \$401.0 million in outstanding borrowings under its secured revolving credit facility, exclusive of \$4.5 million of outstanding letters of credit. As of September 29, 2018, approximately \$344.5 million remained available for future borrowing. All outstanding borrowings under the Company's secured revolving credit facility are classified as non-current liabilities on the Company's consolidated balance sheet because of the contractual repayment terms under the credit facility.

As of September 29, 2018, the interest rate applicable to the secured revolving credit facility were 1.375% for LIBOR (London Interbank Offered Rate) rate loans (which may be adjusted based on a leverage-based pricing grid ranging from 1.125% to 1.875%) and 0.375% for base rate loans (which may be adjusted based on a leverage-based pricing

grid ranging from 0.125% to 0.875%).

15

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (continued)

As of September 29, 2018, U.S. dollar borrowings outstanding under the secured revolving credit facility accrued interest at a LIBOR rate plus the applicable base rate, which resulted in a weighted-average borrowing rate of 3.58%. All outstanding Canadian dollar borrowings were repaid during the first quarter of fiscal 2017.

As of September 29, 2018, the Company was in compliance with the financial and other covenants under the secured revolving credit facility.

Senior Notes

As of September 29, 2018, TWCC had outstanding \$400 million principal amount of senior notes bearing interest at a fixed rate of 5.25% per annum and maturing on August 15, 2021. The senior notes are unsecured and are fully and unconditionally guaranteed by Carter's, Inc. and certain subsidiaries of TWCC. On the Company's consolidated balance sheet, the senior notes are reported net of certain unamortized issuance-related costs, as shown in the table above.

NOTE 9 – STOCK-BASED COMPENSATION

The Company recorded stock-based compensation expense as follows:

	Fiscal quarter ended		Three fiscal quarters ended	
(dollars in thousands)	September 29, 2018	September 30, 2017	September 29, 2018	September 30, 2017
Stock options	\$1,148	\$ 983	\$3,604	\$ 3,182
Restricted stock:				
Time-based awards	1,881	1,706	5,989	5,668
Performance-based awards (1,185)	1,185	1,116	1,314	3,419
Stock awards	—	—	1,203	1,182
Total	\$1,844	\$ 3,805	\$12,110	\$ 13,451

The Company recognizes compensation cost ratably over the applicable performance periods based on the estimated probability of achievement of its performance targets at the end of each period. During the third fiscal quarter of 2018, the achievement of performance target estimates related to certain performance-based grants were revised resulting in a \$2.5 million reduction to stock compensation expense.

NOTE 10 – INCOME TAXES

As of September 29, 2018, the Company had gross unrecognized income tax benefits of approximately \$15.3 million, of which \$12.9 million, if ultimately recognized, may affect the Company's effective income tax rate in the periods settled. The Company has recorded tax positions for which the ultimate deductibility is more likely than not, but for which there is uncertainty about the timing of such deductions.

Included in the reserves for unrecognized tax benefits at September 29, 2018 were approximately \$2.0 million of reserves for which the statute of limitations is expected to expire within the next fiscal year. If these tax benefits are ultimately recognized, such recognition, net of federal income taxes, may affect the annual effective income tax rate for fiscal 2018 or fiscal 2019 along with the effective income tax rate in the quarter in which the benefits are recognized.

The Company recognizes interest related to unrecognized tax benefits as a component of interest expense and recognizes penalties related to unrecognized income tax benefits as a component of income tax expense. During the fiscal quarter ended September 29, 2018, interest expense recorded on uncertain tax positions was approximately \$0.6 million, while the interest expense recorded for the fiscal quarter ended September 30, 2017 was not material. The Company had approximately \$1.9 million, \$1.0 million, and \$1.1 million of interest accrued on uncertain tax positions as of September 29, 2018, December 30, 2017, and September 30, 2017, respectively.

For the full fiscal year 2018, the Company estimates that its consolidated effective income tax rate will be approximately 22.0%.

U.S. Tax Reform

The provision for income taxes recognized by the Company during the fiscal fourth quarter of 2017 reflected certain provisional estimates for the accounting of the December 22, 2017 enactment of income tax law changes commonly

known as the U.S. Tax Cuts and Jobs Act of 2017 (the "2017 Tax Act"). The provisional accounting for the 2017 Tax Act is permitted by SEC Staff Accounting Bulletin No. 118, Income Tax Accounting Implications of the Tax Cuts and Jobs Act, issued in late

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (continued)

December 2017. Subsequent adjustments, if any, to the provisional accounting estimates must be reflected in income tax provisions/benefits during one or more periods in fiscal 2018.

During the fourth quarter of fiscal 2017, the Company recorded a provisional tax expense estimate for the one-time transition tax liability for all of its foreign subsidiaries, resulting in an increase in income tax expense of approximately \$10.4 million related to foreign earnings. The one-time transition tax is based on the Company's total post-1986 earnings and profits ("E&P") that the Company previously deferred from United States income taxes. During the third quarter of fiscal 2018, the Company completed its calculation of the one-time transition tax for all of its foreign subsidiaries. The adjustments made to this provisional tax expense estimate during the first three quarters of fiscal 2018 were not material. No additional income taxes have been provided for any remaining undistributed foreign earnings not subject to the transition tax, or any additional outside basis difference inherent in these entities, as these amounts continue to be indefinitely reinvested in foreign operations. Determining the amount of unrecognized deferred tax liability related to any remaining undistributed foreign earnings not subject to the transition tax and additional outside basis difference in these entities (i.e., basis difference in excess of that subject to the one-time transition tax) is not practicable, but the related cumulative temporary difference as of December 30, 2017 and September 29, 2018 would not result in a material incremental deferred tax liability.

NOTE 11 – FAIR VALUE MEASUREMENTS

The following table summarizes assets and liabilities that are remeasured at fair value each reporting period:

(1)Included in Other assets on the Company's consolidated balance sheet.

(2)Included in Other current liabilities on the Company's consolidated balance sheet.

Investments

The Company invests in marketable securities, principally equity-based mutual funds, to mitigate the risk associated with the investment return on employee deferrals of compensation. Gains on the investments in marketable securities were \$0.7 million and \$0.9 million for the third fiscal quarter and the three fiscal quarters ended September 29, 2018, respectively, and were \$0.4 million and \$1.6 million for the third fiscal quarter and three fiscal quarters ended September 30, 2017, respectively. These amounts are included in Other expense (income), net on the Company's consolidated statement of operations.

Contingent Consideration

The estimated fair value of contingent consideration related to the Skip Hop acquisition was based on a weighted payout probability at the measurement date. Facts and circumstances that occurred subsequent to the acquisition indicated that the contingent earn out arrangement would not be achieved, and therefore approximately \$3.6 million was credited to the Company's earnings during the third fiscal quarter ended September 30, 2017.

Borrowings

As of September 29, 2018, the fair value of the Company's \$401.0 million in outstanding borrowings under its secured revolving credit facility approximated the carrying value.

The fair value of the Company's senior notes at September 29, 2018 was approximately \$406 million. The fair value of these senior notes with a notional value and carrying value (gross of debt cost) of \$400 million was estimated using a quoted price as provided in the secondary market, which considers the Company's credit risk and market related conditions, and is therefore within Level 2 of the fair value hierarchy.

NOTE 16 – PENDING ADOPTION OF RECENT ACCOUNTING PRONOUNCEMENTS

Leases (ASU 2016-02)

In February 2016, the FASB issued new lease accounting guidance in ASU No. 2016-02, Leases-Topic 842, which has been codified in ASC 842, Leases ("ASC 842"). Under this new guidance, lessees will be required to recognize for all leases (with the exception of short-term leases): 1) a lease liability equal to the lessee's obligation to make lease payments arising from a lease, measured on a discounted basis and 2) a right-of-use asset which will represent the lessee's right to use, or control the use of, a specified asset for the lease term. The new standard will be effective for the Company at the beginning of fiscal 2019, including interim periods within the year of adoption. The Company is assessing the implications of applying the practical expedients and accounting policy elections, implementing software to meet the reporting requirements of the new standard, and identifying changes to its business processes and controls to support the adoption of the new standard. The Company believes the adoption will have a material impact on the total assets and total liabilities reported on the Company's consolidated balance sheets, but is not able to quantify the effect on the consolidated balance sheets at this time. However, the Company does not believe adoption of this standard will have a material impact on the Company's consolidated results of operations or cash flows.

Reclassification of Certain Tax Effects from Accumulated Other Comprehensive Income (ASU 2018-02)

In February 2018, the FASB issued ASU No. 2018-02, Reclassification of Certain Tax Effects from Accumulated Other Comprehensive Income ("ASU 2018-02"). ASU 2018-02 permits a company to reclassify the income tax effects of the U.S. Tax Cuts and Jobs Act of 2017 (the "2017 Tax Act") on items within accumulated other comprehensive income or loss ("AOCI-L") to retained earnings. Because most items that are charged to AOCI-L are recorded net of applicable income taxes, the subsequent reclassification of these items from AOCI-L to the statement of operations will be at different income tax rates due to the 2017 Tax Act, thereby leaving a "stranded" tax balance within AOCI-L. ASU 2018-02 will allow a company to transfer these "stranded" amounts from AOCI-L to retained earnings. ASU 2018-02 will be effective for the Company at the beginning of fiscal 2019, with early adoption permitted. The Company has amounts in its AOCI-L for defined benefit retirement plans that were recorded net of applicable income taxes, thus the Company anticipates the transfer of "stranded" tax amounts from its AOCI-L to retained earnings upon the adoption of ASU 2018-02. The effect of the adoption of ASU 2018-02 will not be material to the Company's financial position, and the adoption will have no impact on the Company's results of operations or cash flows.

Credit Losses (ASU 2016-13)

In June 2016, the FASB issued ASU No. 2016-13, Financial Instruments-Credit Losses (Topic 326): Measurement of Credit Losses on Financial Instruments ("ASU 2016-13"). This new guidance will change how entities account for credit impairment for trade and other receivables, as well as for certain financial assets and other instruments. ASU 2016-13 will replace the current "incurred loss" model with an "expected loss" model. Under the "incurred loss" model, a loss (or allowance) is recognized only when an event has occurred (such as a payment delinquency) that causes the entity to believe that a loss is probable (i.e., that it has been "incurred"). Under the "expected loss" model,

an entity will recognize a loss (or allowance) upon initial recognition of the asset that reflects all future events that will lead to a loss being realized, regardless of whether it is probable that the future event will occur. The "incurred loss" model considers past events and current conditions, while the "expected loss" model includes expectations for the future which have yet to occur. ASU 2016-13 will be effective for the Company at the beginning of fiscal 2020 with early adoption permitted for fiscal 2019, including interim periods therein. The standard will require entities to record a cumulative-effect adjustment to the balance sheet as of the beginning of the first reporting period in which the guidance is effective. The Company is currently evaluating the potential impact that ASU 2016-13 may have on the timing of recognizing future provisions for expected losses on the Company's accounts receivable.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (continued)

Goodwill Impairment Testing (ASU 2017-04)

In January 2017, the FASB issued ASU No. 2017-04, Intangibles-Goodwill and Other (Topic 350): Simplifying the Test for Goodwill Impairment ("ASU 2017-04"). ASU 2017-04 will eliminate the requirement to calculate the implied fair value of goodwill (step 2 of the current goodwill impairment test) to measure a goodwill impairment charge. Instead, entities will record an impairment charge based on the excess of a reporting unit's carrying amount over its fair value (i.e., measure the charge based on the current step 1). Any impairment charge will be limited to the amount of goodwill allocated to an affected reporting unit. ASU 2017-04 will not change the current guidance for completing Step 1 of the goodwill impairment test, and an entity will still be able to perform the current optional qualitative goodwill impairment assessment before determining whether to proceed to Step 1. Upon adoption, ASU 2017-04 will be applied prospectively. Adoption for the Company will be effective for annual and interim impairment tests performed beginning in fiscal 2020. Early adoption is permitted for annual and interim goodwill impairment testing dates after January 1, 2017. The impact that ASU 2017-04 may have on the Company's financial condition or results of operations will depend on the circumstances of any goodwill impairment event that may occur after adoption.

NOTE 17 – GUARANTOR UNAUDITED CONDENSED CONSOLIDATING FINANCIAL STATEMENTS

The Company's senior notes constitute debt obligations of its wholly-owned subsidiary, The William Carter Company ("TWCC" or the "Subsidiary Issuer"), are unsecured and are fully and unconditionally guaranteed by Carter's, Inc. (the "Parent"), by certain of the Parent's current domestic subsidiaries (other than TWCC), and, subject to certain exceptions, future restricted subsidiaries that guarantee the Company's secured revolving credit facility or certain other debt of the Company or the subsidiary guarantors.

For additional information, refer to the Company's Annual Report on Form 10-K for the 2017 fiscal year ended December 30, 2017.

The condensed consolidating financial information for the Parent, the Subsidiary Issuer, and the guarantor and non-guarantor subsidiaries has been prepared from the books and records maintained by the Company. The accompanying condensed consolidating financial information has been prepared and presented pursuant to SEC Regulation S-X Rule 3-10. The financial information may not necessarily be indicative of the financial position, results of operations, comprehensive income (loss), and cash flows, had the Parent, Subsidiary Issuer, guarantor or non-guarantor subsidiaries operated as independent entities.

Intercompany revenues and expenses included in the subsidiary records are eliminated in consolidation. As a result of this activity, an amount due to/due from affiliates will exist at any time. The principal elimination entries relate to investments in subsidiaries and intercompany balances and transactions. The Company has accounted for investments in subsidiaries under the equity method. The guarantor subsidiaries are 100% owned directly or indirectly by the Parent and all guarantees are joint, several, and unconditional.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

FORWARD-LOOKING STATEMENTS

This Quarterly Report on Form 10-Q contains forward-looking statements within the meaning of the safe harbor provisions of the Private Securities Litigation Reform Act of 1995 relating to our future performance, including, without limitation, statements with respect to our anticipated financial results for any other quarter or period in fiscal 2018 or any other future period, assessment of our performance and financial position, and drivers of our sales and earnings growth. Such statements are based on current expectations only, and are subject to certain risks, uncertainties, and assumptions. Should one or more of these risks or uncertainties materialize or not materialize, or should any of the underlying assumptions prove incorrect, actual results may vary materially from those anticipated, estimated, or projected. Certain of the risks and uncertainties that could cause actual results and performance to differ materially are described under the heading "Risk Factors" in our most recently filed Annual Report on Form 10-K and other reports filed with the Securities and Exchange Commission from time to time.

OVERVIEW

We are the largest branded marketer in North America of apparel exclusively for babies and young children. We own two of the most highly recognized and most trusted brand names in the children's apparel industry, Carter's and OshKosh B'gosh (or "OshKosh"), and a leading baby and young child lifestyle brand, Skip Hop. Established in 1865, our Carter's brand is recognized and trusted by consumers for high-quality apparel for children in sizes newborn to 14 and accessories.

Established in 1895, OshKosh is a well-known brand, trusted by consumers for apparel for children in sizes newborn to 14, with a focus on playclothes for toddlers and young children, and accessories.

We acquired the Skip Hop brand in February 2017. Established in 2003, the Skip Hop brand takes durable childhood necessities, and re-thinks, re-energizes, and re-imagines them to produce higher value, superior quality, and top-performance goods for parents, babies, and toddlers.

We market high-quality products and accessories at an attractive value proposition for consumers, and offer multiple product categories. Our multi-channel international business model - which includes retail stores, eCommerce and wholesale sales channels - enables us to reach a broad range of consumers around the world. We have extensive experience in the young children's apparel and accessories market and focus on delivering products that satisfy our consumers' needs.

The following is a discussion of our results of operations and current financial condition. This should be read in conjunction with the unaudited condensed consolidated financial statements and related notes included in this Form 10-Q and audited consolidated financial statements and related notes included in our Annual Report on Form 10-K for the 2017 fiscal year ended December 30, 2017.

Segments

Our U.S. Retail segment consists of revenue from sales of products to consumers in the United States, including Carter's, OshKosh, and Skip Hop branded products, through our retail stores and eCommerce sites. Similarly, our U.S. Wholesale segment consists of revenue from sales in the United States of Carter's, OshKosh, and Skip Hop branded products to our wholesale customers. Finally, our International segment consists of income from sales of Carter's, OshKosh, and Skip Hop branded products through our retail and online stores outside the United States, primarily through our retail stores in Canada and Mexico, our eCommerce sites in Canada and China, stores operated by our international partners, and sales to our international wholesale customers.

Comparable Retail Sales Metrics

At the beginning of fiscal 2018, we transitioned to disclosing a total comparable retail sales metric, including both retail stores and eCommerce. This change aligns with how management views and measures our retail business. We believe it reflects our maturing omni-channel strategy and consumers' increasing tendency to shop with us both in our stores and online.

The method of calculating sales metrics varies across the retail industry. As a result, our method of calculating comparable sales may not be the same as that of other retailers.

THIRD FISCAL QUARTER AND THREE FISCAL QUARTERS ENDED SEPTEMBER 29, 2018 COMPARED TO THIRD FISCAL QUARTER AND THREE FISCAL QUARTERS ENDED SEPTEMBER 30, 2017

Consolidated Net Sales

In the third quarter of fiscal 2018, consolidated net sales decreased \$24.1 million, or 2.5%, to \$923.9 million from \$948.0 million in the third quarter of fiscal 2017. Consolidated net sales were \$2.4 billion in the first three quarters of both fiscal 2018 and fiscal 2017. The decrease for the third quarter of fiscal 2018 was primarily driven by a decline in our U.S. Wholesale segment, slightly offset by growth in our U.S. Retail and International segments. Changes in foreign currency exchange rates used for translation in the third quarter of fiscal 2018, as compared to the third quarter of fiscal 2017, had an unfavorable impact on our consolidated net sales of approximately \$4.1 million. Changes in foreign currency exchange rates used for translation in the first three quarters of fiscal 2018, as compared to the first

three quarters of fiscal 2017, had a favorable impact on our consolidated net sales of approximately \$1.3 million.

Comparable Net Sales for our U.S. Retail segment

Comparable retail net sales increased 0.5% during the third quarter and 1.4% during the first three quarters of fiscal 2018 compared to the corresponding periods in fiscal 2017 primarily due to eCommerce sales growth, partially offset by a decline in comparable retail store net sales.

We believe comparable retail net sales were negatively affected in the third fiscal quarter of 2018 by reduced overall demand during the Labor Day holiday and decreased international customer demand on our U.S. eCommerce sites.

Sales Results

U.S. Retail segment net sales increased approximately \$5.3 million, or 1.2%, in the third quarter of fiscal 2018 to \$459.1 million from \$453.8 million in the third quarter of fiscal 2017. This increase in net sales primarily reflected a/an:

• Increase of \$16.9 million from new retail stores that are not yet comparable;

• Increase of \$5.5 million from eCommerce sales;

• Decrease of \$11.3 million due to the effect of store closings; and

• Decrease of \$4.5 million in comparable retail store sales, primarily a result of reduced traffic.

U.S. Retail segment net sales increased \$35.7 million, or 3.0%, in the first three quarters of fiscal 2018 to \$1.2 billion from the first three quarters of fiscal 2017. This increase in net sales primarily reflected a/an:

• Increase of \$46.7 million from new retail stores that are not yet comparable;

• Increase of \$35.6 million from eCommerce sales;

• Decrease of \$25.7 million due to the effect of store closings; and

• Decrease of \$19.2 million in comparable retail store sales, primarily a result of reduced traffic.

U.S. Wholesale Sales

U.S. Wholesale segment net sales decreased approximately \$30.6 million, or 8.3%, in the third quarter of fiscal 2018 to \$339.0 million from \$369.6 million in the third quarter of fiscal 2017. This decline reflected a 8.5% decrease in the number of units shipped and a 0.2% increase in the average price per unit, primarily as a result of reduced demand due to customer bankruptcies.

U.S. Wholesale segment net sales decreased \$50.6 million, or 5.7%, in the first three quarters of fiscal 2018 to \$829.3 million from \$879.8 million in the first three quarters of fiscal 2017. This decline reflected a 6.1% decrease in the number of units

shipped which was primarily the result of reduced demand due to customer bankruptcies, partially offset by a 0.4% increase in the average price per unit and contributions from the Skip Hop business that was acquired during the first quarter of fiscal 2017.

International Sales

International segment net sales increased approximately \$1.2 million, or 1.0%, in the third quarter of fiscal 2018 to \$125.8 million from \$124.6 million in the third quarter of fiscal 2017. Changes in foreign currency exchange rates used for translation had an unfavorable impact on International segment net sales of approximately \$4.1 million in the third quarter of fiscal 2018 compared to the third quarter of fiscal 2017.

The \$1.2 million increase in net sales in our International segment primarily reflected a/an:

- Increase of \$2.9 million related to the contribution from Carter's Mexico that was acquired in the third fiscal quarter of 2017;

- Increase of \$1.3 million from international sales to customers across various regions; and

- Decrease of \$3.0 million from sales in China.

International segment net sales increased \$18.1 million, or 6.4%, in the first three quarters of fiscal 2018 to \$301.8 million from \$283.6 million in the first three quarters of fiscal 2017. Changes in foreign currency exchange rates, primarily between the U.S. dollar and the Canadian dollar, had a favorable impact on International segment net sales of approximately \$1.3 million in the first three quarters of fiscal 2018 compared to the first three quarters of fiscal 2017.

The \$18.1 million increase in net sales in our International segment primarily reflected a/an:

- Increase of \$20.3 million related to the contribution from acquired businesses;

- Increase of \$8.4 million from our Canada business, including wholesale and retail operations;

- Decrease of \$5.4 million from international sales to customers across various regions; and

- Decrease of \$5.1 million from sales in China.

Store Count Data for Company-Operated Retail Stores in our International Segment

Store count at September 29, 2018	184	42

Projected store count at December 29, 2018 188 42

Compared to the third quarter of fiscal 2017, our Canadian comparable retail sales increased 2.9% in the third quarter of fiscal 2018. Compared to the first three quarters of fiscal 2017, our Canadian total retail comparable sales increased 1.7% in the first three quarters of fiscal 2018.

Gross Margin and Gross Profit

Our consolidated gross margin decreased from 42.6% in the third quarter of fiscal 2017 to 41.9% in the third quarter of fiscal 2018. Our consolidated gross profit decreased \$16.1 million, or 4.0%, to \$387.5 million in the third quarter of fiscal 2018 from \$403.6 million in the third quarter of fiscal 2017. These decreases were primarily due to higher provisions for inventory, lower sales and price realization.

Our consolidated gross margin increased from 43.1% in the first three quarters of fiscal 2017 to 43.3% for the first three quarters of fiscal 2018. Our consolidated gross profit increased \$7.4 million, or 0.7%, to \$1.0 billion in the first three quarters of fiscal 2018 from the first three quarters of fiscal 2017. These increases were primarily due to favorable product costs partially offset by higher provisions for inventory.

We include distribution costs in selling, general, and administrative ("SG&A") expenses. Accordingly, our gross margin and gross profit may not be comparable to other entities that include such distribution costs in their cost of goods sold.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS (Continued)

Royalty Income

We license the use of many of our brand names, including Carter's, Just One You, Child of Mine, OshKosh B'gosh, OshKosh, Genuine Kids from OshKosh, Baby B'gosh, Simple Joys, and Precious Firsts.

Royalty income from these brands for the third quarter of fiscal 2018 decreased \$0.1 million, or 1.2% to \$10.2 million from \$10.4 million in the third quarter of fiscal 2017.

Royalty income from these brands for the first three quarters of fiscal 2018 decreased \$3.5 million, or 11.0%, to \$28.6 million from \$32.1 million in the first three quarters of fiscal 2017. The decrease was primarily attributable to insourcing certain formerly licensed products and the absence of royalty income from Carter's Mexico, which we acquired in the third fiscal quarter of 2017.

Selling, General, and Administrative ("SG&A") Expenses

Consolidated SG&A expenses in the third quarter of fiscal 2018 increased \$10.6 million, or 3.8%, to \$294.1 million from \$283.5 million in the third quarter of fiscal 2017. As a percentage of net sales, SG&A expenses increased from 29.9% in the third quarter of fiscal 2017 to 31.8% in the third quarter of fiscal 2018.

The increases in SG&A expenses in the third quarter of fiscal 2018 primarily reflected a:

- \$3.2 million increase in expenses related to U.S. retail operations, including fulfillment costs, as a result of eCommerce growth, partially offset by a reduction in costs associated with store closures;
- \$3.2 million increase in expenses related to marketing and brand management;
- \$3.1 million increase in distribution and freight costs;
- \$2.0 million increase in provisions for accounts receivable;
- \$1.7 million increase in expenses related to employee benefits;
- \$1.1 million increase in investments related to information systems;
- \$1.1 million in severance associated with changes to the Company's business model in China; and
- \$4.3 million decrease in performance based compensation expenses.

Consolidated SG&A expenses in the first three quarters of fiscal 2018 increased \$56.2 million, or 7.2%, to \$837.6 million from \$781.4 million in the first three quarters of fiscal 2017. As a percentage of net sales, SG&A expenses increased from 32.9% in the first three quarters of fiscal 2017 to 35.3% in the first three quarters of fiscal 2018.

The increases in SG&A expenses in the first three quarters of fiscal 2018 primarily reflected a:

- \$17.6 million increase in expenses related to U.S. retail operations, including fulfillment costs, primarily as a result of eCommerce growth, partially offset by a reduction in costs associated with store closures;
- \$12.8 million in expenses related to a customer bankruptcy in the first quarter of fiscal 2018;
- \$9.9 million increase in expenses related to marketing and brand management;
- \$7.7 million increase in expenses related to distribution and freight;
- \$2.9 million increase in investments related to information systems;
- \$2.7 million increase in employee benefit costs; and
- \$3.5 million decrease in performance based compensation expenses.

Operating Income

Consolidated operating income decreased \$26.9 million, or 20.6%, to \$103.6 million in the third quarter of fiscal 2018 from \$130.4 million in the third quarter of fiscal 2017. Consolidated operating income decreased \$52.4 million, or 19.2%, to \$220.8 million in the first three quarters of fiscal 2018 from \$273.2 million in the first three quarters of fiscal 2017.

Consolidated operating margin decreased from 13.8% in the third quarter of fiscal 2017 to 11.2% in the third quarter of fiscal 2018. Consolidated operating margin decreased from 11.5% in the first three quarters of fiscal 2017 to 9.3% in the first three quarters of fiscal 2018.

The following table presents changes in the operating margin for each of our three operating segments expressed in basis points ("bps") relative to net sales. The first table presents the changes between the third quarter of fiscal 2017 and the third quarter of fiscal 2018. The second table presents the changes between the first three quarters of fiscal 2017 and the first three quarters of fiscal 2018.

third quarter of fiscal 2017 to 10.3% in the third quarter of fiscal 2018. The primary drivers of the change in operating margin were a:

- 130 bps decrease in gross profit, primarily due to decreased price realization in our eCommerce channel driven in part by increased shipping costs;
- 70 bps increase in SG&A expenses, primarily due to a:
- 30 bps increase in expenses related to eCommerce growth, partially offset by a reduction in expenses associated with store closures;
- 30 bps increase in distribution expenses;
- 20 bps increase in marketing investments; and
- 30 bps decrease in expenses for performance based compensation.

U.S. Retail segment operating income decreased by \$5.4 million, or 4.2%, to \$122.1 million in the first three quarters of fiscal 2018 from \$127.4 million in the first three quarters of fiscal 2017. This segment's operating margin decreased 70 bps from 10.5% in the first three quarters of fiscal 2017 to 9.8% in the first three quarters of fiscal 2018. The primary drivers of the change in operating margin were a/an:

- 30 bps increase in gross profit, primarily due to lower product costs and improved price realization;
- 20 bps decrease in royalty income primarily attributable to insourcing of certain formerly licensed products;
- 80 bps increase in SG&A expenses, primarily due to a:
- 40 bps increase in expenses related to eCommerce initiatives, partially offset by a reduction in expenses associated with store closures;
- 40 bps increase in marketing and brand management expenses;
- 30 bps increase in distribution expenses; and
- 20 bps decrease in expenses associated with performance based compensation.

U.S. Wholesale Operating Income

U.S. Wholesale segment operating income in the third quarter of fiscal 2018 decreased \$10.8 million, or 13.7%, to \$67.8 million from \$78.6 million in the third quarter of fiscal 2017. The segment's operating margin decreased 130 bps from 21.3% in the third quarter of fiscal 2017 to 20.0% in the third quarter of fiscal 2018. The primary drivers of the change in operating margin were a:

- 30 bps decrease in gross profit, primarily due to higher provisions for inventory and unfavorable customer mix, partially offset by lower product costs; and
- 90 bps increase in SG&A expenses, primarily due to an increase in provisions for accounts receivable, higher distribution costs, and increased marketing investments.

U.S. Wholesale segment operating income in the first three quarters of fiscal 2018 decreased \$35.7 million or 19.4%, to \$148.4 million from \$184.1 million in the first three quarters of fiscal 2017. The segment's operating margin decreased 300 bps from 20.9% in the first three quarters of fiscal 2017 to 17.9% in the first three quarters of fiscal 2018. The primary drivers of the change in operating margin were a:

- 70 bps decrease in gross profit, primarily due to higher provisions for inventory and unfavorable customer sales mix;
- 220 bps increase in SG&A expenses, primarily due to a:
- 160 bps increase in the provision for accounts receivable due to a customer bankruptcy;
- 40 bps increase in distribution and freight expenses; and
- 20 bps increase in marketing and brand management expenses.

International Operating Income

International segment operating income decreased by \$4.3 million, or 25.7%, to \$12.4 million in the third quarter of fiscal 2018 from \$16.7 million in the third quarter of 2017. This segment's operating margin decreased 350 bps from 13.4% in the third quarter of fiscal 2017 to 9.9% in the third quarter of fiscal 2018. The primary drivers of the change in operating margin were a:

- 290 bps decrease in gross profit primarily due to higher provisions for inventory related to changes in the Company's business model in China and lower price realization;

60 bps increase in SG&A expenses, primarily due to a:

90 bps for severance associated with changes to the Company's business model in China;

60 bps increase in costs associated with the Canadian business's recycling obligations;

50 bps decrease in marketing and brand management expenses; and

40 bps decrease in provisions for accounts receivable.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS (Continued)

International segment operating income decreased by \$7.5 million, or 26.8%, to \$20.5 million in the first three quarters of fiscal 2018 from \$28.0 million in the first three quarters of 2017. This segment's operating margin decreased 310 bps from 9.9% in the first three quarters of fiscal 2017 to 6.8% in the first three quarters of fiscal 2018.

The primary drivers of the change in operating margin were a/an:

90 bps decrease in gross profit primarily due to higher provisions for inventory related to changes in the Company's business model in China and customer sales mix;

20 bps decrease in royalty income due to a reduction in the number of licensees that pay royalties;

200 bps increase in SG&A expenses, primarily due to a:

100 bps increase in selling, distribution and freight costs;

50 bps increase in costs associated with the Canadian business's recycling obligations; and

50 bps for severance associated with changes to the Company's business model in China.

Unallocated Corporate Expenses

Unallocated corporate expenses increased by \$3.4 million, or 16.8%, in the third quarter of fiscal 2018 compared to the third quarter of fiscal 2017, primarily due to a \$3.6 million credit for an earn out adjustment that occurred in third quarter fiscal 2017. Unallocated corporate expenses, as a percentage of consolidated net sales, increased from 2.1% in the third quarter of fiscal 2017 to 2.6% in the third quarter of fiscal 2018.

Unallocated corporate expenses increased by \$3.8 million, or 5.8%, in the first three quarters of fiscal 2018 compared to the first three quarters of fiscal 2017. Unallocated corporate expenses, as a percentage of consolidated net sales, increased from 2.8% in the first three quarters of fiscal 2017 to 3.0% in the first three quarters of fiscal 2018. The increase was attributable to the same reason discussed above.

Interest Expense

Interest expense in the third quarters of fiscal 2018 and 2017 was approximately \$9.9 million and \$8.1 million, respectively. Weighted-average borrowings for the third quarter of fiscal 2018 were approximately \$782.4 million with an effective interest rate of 4.72%, compared to weighted-average borrowings for the third quarter of fiscal 2017 of \$742.4 million with an effective interest rate of 4.30%. The increase in weighted-average borrowings during the third quarter of fiscal 2018 was attributable to additional borrowings under our secured revolving credit facility. Interest expense in the first three quarters of fiscal 2018 and 2017 was approximately \$25.8 million and \$22.4 million, respectively. Weighted-average borrowings over the course of the first three quarters of fiscal 2018 were approximately \$684.1 million with an effective interest rate of 4.85%, compared to weighted-average borrowings for the first three quarters of fiscal 2017 of \$648.9 million with an effective interest rate of 4.50%. The increase in weighted-average borrowings during the first three quarters of fiscal 2018 was attributable to additional borrowings under our secured revolving credit facility.

The increases in the weighted-average interest rate for the third quarter and first three quarters of fiscal 2018 compared to the third quarter and first three quarters of fiscal 2017 was due primarily to a higher LIBOR rate for the outstanding borrowings on our variable-rate secured revolving credit facility during the 2018 period.

On our consolidated balance sheet, unamortized debt issuance costs associated with our senior notes are presented as a direct reduction in the carrying value of the associated debt liability for all periods presented. See Note 8, Long-term Debt.

Other (Income) Expense, Net

Other income, net is comprised primarily of gains and losses on foreign currency transactions and, if utilized during a reporting period, gains and losses on foreign currency forward contracts.

Income Taxes

Our consolidated effective income tax rate for the third quarter of fiscal 2018 was 23.5% compared to 33.2% for the third quarter of fiscal 2017. Our consolidated effective income tax rate for the first three quarters of fiscal 2018 was 22.3% compared to 34.0% for the first three quarters of fiscal 2017. The lower effective rate in fiscal 2018 was due mainly to a lower corporate income tax rate and other changes under the 2017 Tax Act.

For full year fiscal 2018, we estimate our annual consolidated effective income tax rate will be approximately 22.0%.
Net Income

Our consolidated net income for the third quarter of fiscal 2018 decreased by \$10.5 million, or 12.8%, to \$71.8 million compared to \$82.3 million in the third quarter of fiscal 2017. Our consolidated net income for the first three quarters of fiscal

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS (Continued)

2018 decreased by \$15.2 million, or 9.1%, to \$151.5 million compared to \$166.7 million in the first three quarters of fiscal 2017. These changes were due to the factors previously discussed.

FINANCIAL CONDITION, CAPITAL RESOURCES, AND LIQUIDITY

Our ongoing cash needs are primarily for working capital and capital expenditures. We expect that our primary sources of liquidity will continue to be cash and cash equivalents on hand, cash flow from operations, and borrowings available under our secured revolving credit facility. We expect that these sources and access to capital markets will fund our ongoing requirements for the foreseeable future. Further, we do not expect current economic conditions to prevent us from meeting our cash requirements. These sources of liquidity may be affected by events described in our risk factors, as further discussed under the heading "Risk Factors" in our most recently filed Annual Report on Form 10-K and other reports filed with the Securities and Exchange Commission from time to time.

As of September 29, 2018, the Company had approximately \$123.9 million of cash and cash equivalents in major financial institutions, including approximately \$33.6 million in financial institutions located outside of the United States. We maintain cash deposits with major financial institutions that exceed the insurance coverage limits provided by the Federal Deposit Insurance Corporation in the United States and by similar insurers for deposits located outside the United States. To mitigate this risk, we utilize a policy of allocating cash deposits among major financial institutions that have been evaluated by us and third-party rating agencies.

In 2018, the United States imposed additional tariffs between 10% and 25% on a variety of imports from China, including certain products we import into the United States. Through the third quarter of fiscal 2018, these tariffs have not had a material effect on the Company. The Company is closely monitoring potential additional tariffs for imports from China to the United States.

Balance Sheet

Net accounts receivable at September 29, 2018 were \$293.5 million compared to \$285.7 million at September 30, 2017 and \$240.6 million at December 30, 2017. The overall increase of \$7.8 million, or 2.7%, at September 29, 2018 compared to September 30, 2017 was a result of the timing of customer receipts. Due to the seasonal nature of our operations, the net accounts receivable balance at September 29, 2018 is not comparable to the net accounts receivable balance at December 30, 2017.

Inventories at September 29, 2018 were \$693.0 million compared to \$610.0 million at September 30, 2017 and \$548.7 million at December 30, 2017. The increase of \$83.0 million, or 13.6%, at September 29, 2018 compared to September 30, 2017 primarily reflects business growth and timing of receipts. Due to the seasonal nature of our operations, the inventories balance at September 29, 2018 is not comparable to the inventories balance at December 30, 2017.

Cash Flow

Net cash provided by operating activities for the first three quarters of fiscal 2018 was \$21.4 million compared to net cash provided by operating activities of \$117.5 million in the first three quarters of fiscal 2017. This decrease in operating cash flow for the 2018 period was due primarily to working capital changes and lower net income.

Net cash used in investing activities was \$47.4 million for the first three quarters of fiscal 2018 compared to \$211.0 million in the first three quarters of fiscal 2017. Cash used for investing activities during the first three quarters of fiscal 2017 included \$159.4 million for business acquisitions. Capital expenditures were \$47.8 million in the first three quarters of fiscal 2018 compared to \$51.7 million in the first three quarters of fiscal 2017, reflecting timing of new store openings in the 2018 fiscal period. Capital spending in the first three quarters of fiscal 2018 included approximately \$27.2 million for our U.S. and international retail store openings and re-modelings, \$9.1 million for information technology initiatives, \$7.4 million for distribution and office facilities, and \$2.8 million for wholesale fixtures.

We plan to invest approximately \$75 million in total capital expenditures for all of fiscal 2018, primarily for our U.S. and international retail store openings and re-modelings, information technology initiatives, and distribution facilities. Net cash used in financing activities was \$27.5 million in the first three quarters of fiscal 2018 compared to \$101.0 million in the first three quarters of fiscal 2017. The net decrease in cash used for the 2018 period primarily reflected

an increase in borrowings partially offset by an increase in debt payments and higher dividend payments.

Secured Revolving Credit Facility

On September 21, 2018, our wholly-owned subsidiary The William Carter Company ("TWCC") and a syndicate of lenders entered into Amendment No. 1 to its fourth amended and restated credit agreement to, among other things, extend the term of the facility from August 25, 2022 to September 21, 2023.

Our amended and restated secured revolving credit facility provides liquidity that can be used as needed for ongoing working capital purposes and general corporate purposes. This facility provides for (i) a \$650 million U.S. dollar revolving facility (including a \$100 million sub-limit for letters of credit and a swing line sub-limit of \$70 million) available for borrowings in U.S. dollars and (ii) a \$100 million multicurrency revolving facility (including a \$40 million sub-limit for letters of credit and a swing line sub-limit of \$15 million) available for borrowings denominated in U.S. dollars, Canadian dollars, Euros, Pounds Sterling, or other currencies agreed to by the applicable lenders. Our secured revolving credit facility also includes additional potential borrowing facilities in an aggregate amount not to exceed \$425 million (with the aggregate U.S. dollar amount not to exceed \$350 million and the aggregate multicurrency amount not to exceed \$75 million). The U.S. dollar credit facility can also potentially increase to an unlimited borrowing amount so long as the consolidated first lien leverage ratio (as defined) does not exceed 2.25:1.00.

Under the secured credit facility, our wholly-owned operating subsidiary, TWCC, and its domestic subsidiaries have granted to the collateral agent, for the benefit of the lenders, valid and perfected first priority security interests in substantially all of their present and future assets, excluding certain customary exceptions, and guarantee the obligations of the borrowers. In addition, The Genuine Canadian Corp., as Canadian borrower, and Carter's Holdings B.V., as Dutch borrower, have each guaranteed the obligations of the other.

As of September 29, 2018, we had \$401.0 million in outstanding borrowings under our secured revolving credit facility, exclusive of \$4.5 million of outstanding letters of credit. As of September 29, 2018, approximately \$344.5 million was available for future borrowing. All outstanding borrowings under our secured revolving credit facility are classified as non-current liabilities on our consolidated balance sheet because of the contractual repayment terms under the credit facility. However, these repayment terms also allow us to repay some or all of the outstanding borrowings at any time.

The interest rate margins applicable to our secured revolving credit facility as of September 29, 2018 were 1.375% for LIBOR rate loans (which may be adjusted based on a leverage-based pricing grid ranging from 1.125% to 1.875%) and 0.375% for base rate loans (which may be adjusted based on a leverage-based pricing grid ranging from 0.125% to 0.875%).

As of September 29, 2018, U.S. dollar borrowings outstanding under the secured revolving credit facility accrued interest at a LIBOR rate plus the applicable base rate, which resulted in a weighted-average borrowing rate of 3.58%. There were no Canadian dollar borrowings during the third quarter of fiscal 2018 or the third quarter of fiscal 2017. As of September 29, 2018, we were in compliance with the financial and other covenants under our secured revolving credit facility.

Senior Notes

As of September 29, 2018, TWCC had \$400.0 million principal amount of senior notes outstanding, bearing interest at a fixed rate of 5.25% per annum, and maturing on August 15, 2021. On our consolidated balance sheet, the \$400.0 million outstanding is reported net of \$3.0 million, \$3.7 million and \$3.9 million unamortized issuance-related debt costs at September 29, 2018, December 30, 2017 and September 30, 2017, respectively. The senior notes are unsecured and are fully and unconditionally guaranteed by Carter's, Inc. and certain subsidiaries of TWCC.

Share Repurchases

In the first three quarters of fiscal 2018, the Company repurchased and retired 1,364,420 shares in open market transactions for approximately \$145.5 million at an average price of \$106.63 per share. In the first three quarters of fiscal 2017, the Company repurchased and retired 1,727,587 shares in open market transactions for approximately \$151.0 million, at an average price of \$87.39 per share.

The total remaining capacity under all remaining repurchase authorizations as of September 29, 2018 was approximately \$440.1 million. Future repurchases may be made in the open market or in privately negotiated transactions, with the level and timing of activity being at management's discretion depending on market conditions, share price, other investment priorities, and other factors. The share repurchase authorizations have no expiration date.

Dividends

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION
AND RESULTS OF OPERATIONS (Continued)

In the first, second and third quarters of fiscal 2018, we paid quarterly cash dividends of \$0.45 per share in each quarter. In the first, second and third quarters of fiscal 2017, we paid quarterly cash dividends of \$0.37 per share in each quarter. Future declarations of quarterly dividends and the establishment of future record and payment dates are at the discretion of our Board of Directors and will be based on a number of factors, including our future financial performance and other investment priorities.

As disclosed in our most recent Annual Report on Form 10-K for the 2017 fiscal year ended December 30, 2017, provisions in our secured revolving credit facility and indenture governing our senior notes could have the effect of restricting our ability to pay future cash dividends on or make future repurchases of our common stock.

SEASONALITY

We experience seasonal fluctuations in our sales and profitability due to the timing of certain holidays and key retail shopping periods, which generally have resulted in declines in our net sales and gross profit in the first half of our fiscal year versus the second half. Accordingly, our results of operations during any interim period during the fiscal year may not be indicative of the results we expect for the full fiscal year.

CRITICAL ACCOUNTING POLICIES AND ESTIMATES

Our discussion and analysis of our financial condition and results of operations are based upon our consolidated financial statements, which have been prepared in accordance with U.S. GAAP. Preparation of these financial statements requires us to make estimates and judgments that affect the reported amounts of assets, liabilities, revenues, expenses, and related disclosure of contingent assets and liabilities. We base our estimates on historical experience and on various other assumptions that we believe are reasonable under the circumstances, the results of which form the basis for making judgments about the carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ materially from these estimates under different assumptions or conditions. Our critical accounting policies and estimates are described under the heading "Critical Accounting Policies and Estimates" in Item 7 of our most recent Annual Report on Form 10-K for the 2017 fiscal year ended December 30, 2017. Our critical accounting policies and estimates are those policies that require management's most difficult and subjective judgments and may result in the need to make estimates about the effect of matters that are inherently uncertain. Our critical accounting policies and estimates include: revenue recognition and accounts receivable allowance, inventory, goodwill and tradename, accrued expenses, loss contingencies, accounting for income taxes, foreign currency, employee benefit plans, and stock-based compensation arrangements. There have been no material changes in these critical accounting policies and estimates from those described in our most recent Annual Report on Form 10-K, except for the effects that the adoption of ASC 606, Revenue from Contracts with Customers, had on our policies as disclosed under the header "Adoption of New Accounting Pronouncements At the Beginning of Fiscal 2018" in Note 2, Basis of Presentation, to the accompanying unaudited condensed consolidated financial statements contained in Item 1 of this Quarterly Report on Form 10-Q.

Additionally, information related to the pending adoption of recently issued accounting standards is provided in Note 16, Pending Adoption of Recent Accounting Pronouncements, to the accompanying unaudited condensed consolidated financial statements contained in Item 1 of this Quarterly Report on Form 10-Q.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Currency and Interest Rate Risks

In the operation of our business, we have market risk exposures including those related to foreign currency and interest rates. We employ various strategies to attempt to minimize our exposure to these risks.

Currency Risk

We contract for production with third parties, primarily in Asia. While these contracts are stated in U.S. dollars, there can be no assurance that the cost for the future production of our products will not be affected by exchange rate fluctuations between the U.S. dollar and the local currencies of these contractors. We cannot predict the impact that future currency fluctuations may have on our financial position, results of operations, or cash flows in future periods. The financial statements of our foreign subsidiaries that are denominated in functional currencies other than the U.S. dollar are translated into U.S. dollars using period-end exchange rates for assets and liabilities and weighted-average exchange rates for revenues and expenses. Gains and losses resulting from translating assets and liabilities from the functional currency to U.S. dollars are included in accumulated other comprehensive income (loss).

Fluctuations in currency exchange rates, primarily between the U.S. dollar and the currencies of Canada, Mexico, China, Hong Kong, and the United Kingdom, may affect our results of operations, financial position, and cash flows. Transactions by certain foreign subsidiaries may be denominated in currencies other than that entity's functional currency. Foreign currency transaction gains and losses also include the impact of non-current intercompany loans with foreign subsidiaries that are marked to market. In our statement of operations, these gains and losses are recorded within Other income/expense, net.

As part of our overall strategy to manage the level of exposure to the risk of foreign currency exchange rate fluctuations, some of our foreign operations may use currency forward contracts to hedge purchases that are made in U.S. dollars, primarily for inventory purchases. As part of this strategy, we primarily use foreign currency forward exchange contracts that have maturities of less than 12 months to provide continuing coverage throughout the hedging period.

Interest Rate Risk

Our operating results are subject to risk from interest rate fluctuations on our secured revolving credit facility, which carries variable interest rates. Our variable rate borrowings outstanding as of September 29, 2018 were \$401.0 million. An increase or decrease of 1% in the effective interest rate on that amount would increase or decrease our annual pre-tax interest expense by approximately \$4.0 million.

Other Risks

We enter into various purchase order commitments with our suppliers. We generally can cancel these arrangements, although in some instances we may be subject to a termination charge reflecting a percentage of work performed prior to cancellation.

ITEM 4. CONTROLS AND PROCEDURES

Evaluation of Disclosure Controls and Procedures

Our Chief Executive Officer and Chief Financial Officer have evaluated the effectiveness of the design and operation of our disclosure controls and procedures (as defined under Rules 13a-15(e) and 15d-15(e) promulgated under the Securities Exchange Act of 1934, as amended) as of the end of the period covered by this Quarterly Report on Form 10-Q. Based upon that evaluation, our Chief Executive Officer and Chief Financial Officer have concluded that our disclosure controls and procedures are effective as of September 29, 2018.

Changes in Internal Control over Financial Reporting

The principal executive officer and principal financial officer also conducted an evaluation of the Company's internal control over financial reporting ("Internal Control") to determine whether any changes in Internal Control occurred during the fiscal quarter ended September 29, 2018 that have materially affected, or which are reasonably likely to materially affect, Internal Control.

There were no changes in the Company's Internal Control that materially affected, or were likely to materially affect, such control over financial reporting during the fiscal quarter ended September 29, 2018.

PART II

ITEM 1. LEGAL PROCEEDINGS

The Company is subject to various claims and pending or threatened lawsuits in the normal course of our business.

The Company is not currently a party to any legal proceedings that it believes would have a material adverse effect on its financial position, results of operations, or cash flows.

ITEM 1A. RISK FACTORS

There have been no material changes to the risk factors described in our Form 10-K for the 2017 fiscal year ended December 30, 2017.

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS
