# <u>Item 4.04 Non-Reliance on Previously Issued Financial Statements or a Related Audit Report or Completed Interim Review.</u>

On April 7, 2005, the Audit Committee of our Board of Directors concluded that previously issued financial statements for El Paso's 2003 fourth quarter and fiscal year ended December 31, 2003 should no longer be relied upon because of an error in those financial statements.

The restatement of these financial statements is necessary to reclassify a deferred tax benefit related to our discontinued Canadian exploration and production operations. These operations were classified as discontinued operations in 2004, and in accordance with generally accepted accounting principles, the financial statements for 2003 and 2002 were revised to reclassify revenue and expenses for these operations from continuing to discontinued operations. This revision should also have included \$82 million of deferred tax benefits associated with our investment in those operations that was reported as a benefit to continuing operations in El Paso's recently filed 2004 annual report on Form 10-K. The restatement will not impact 2003 net income, EBIT, or cash flow. Further it has no impact on the financial statements for 2004 and 2002. The impact of the restatement is as follows:

For the Quester

For the Vear

	For the Year		For the $\zeta$	For the Quarter	
	Ended		Ende	Ended	
	December 31,		December	December 31, 2003

The Audit Committee of our Board of Directors and certain authorized officers have discussed the matters described above with PricewaterhouseCoopers LLP, our independent accountant.

Management has determined that the restatement is related to our previously reported material weakness regarding Identification, Capture and Communication of Financial Data Used in Accounting for Non-Routine Transactions or Activities. Accordingly, the restatement does not constitute an additional material weakness and has not caused us to modify our previously issued Report on Internal Control Over Financial Reporting.
