- Pre-commencement communications pursuant to Rule 13e-4(c) under the Exchange Act (17 CFR 240.13e-4(c))

Section 1 - Registrant's Business and Operations

Item 1.01 Entry into a Material Definitive Agreement

XsunX, Inc. has increased its patent and technology assets by acquiring an

Edgar Filing: XSUNX INC - Form 8-K

expanded use license effective October 12, 2005 in and to the suite of patents and technologies previously licensed from MVSystems, Inc. The purpose and intent of the expanded licenses is to allow the company to expand its development efforts to include development of a nano-crystalline opaque high performance solar cell employing U.S. Patent Application 60/536,151 - three terminal and four terminal solar cells, solar cell panels, and methods of manufacture, a patent application previously made by MVSystems, Inc. with the USPTO.

The company has determined that the above referenced patent and proposed 3 and 4 terminal solar cell device represents a viable opportunity for the company to leverage the development and use of its transparent solar device technologies with a second opaque device consisting of a nano-crystalline structure thereby creating a 4 terminal flexible, light weight, high performance device for applications that do not require transparency.

The company is preparing to launching a phase 4 development program to develop the nano crystalline 4 terminal device concurrently with its efforts to complete development of its Power Glass technology. The company anticipates that the successful completion of this project would provide the company with marketable technologies for transparent and opaque applications.

As part of the expanded use license the company also secured manufacturing agreements with MVSystems providing fixed costs for the manufacture of commercial process lines for these technologies.

In exchange for the expanded use license the company granted MVSystems, Inc. seven million warrants exercisable at \$.25 cents each within five years from the date of grant under the following vesting provisions:

- (i) 1,000,000 shares upon the effective date of the agreement between the parties.
- (ii) 1,000,000 shares upon the satisfactory completion, as reasonably determined by the XsunX Board of Directors, of the phase 4 development plan.
- (iii) Upon the satisfactory completion of phase 4 then 5,000,000 shares will become exercisable upon the date of first licensure of the 4 terminal technology to a third party in a bonafide arms-length commercial setting or relationship.

Item 1.02 Termination of a Material Definitive Agreement
