PART I

ITEM 1. DESCRIPTION OF BUSINESS

(a) General Description and Development of Business.

On January 16, 2007, application for liquidation (the “Liquidation”) of the operating subsidiaries of China Mobility Solutions, Inc. (the “Company”) in the Peoples’ Republic of China (“PRC”) was approved by the Haidian District, Beijing Bureau of Commerce. The Liquidation application was made in October, 2006, upon the advice of PRC counsel that the Beijing Rule of Liquidation was the sole means available to the Company to insure the repayment of the \$3,350,000 (less any amount that has been converted) principal amount of convertible debentures (“Debentures”) which matured on August 15, 2006.

In October 2006, the Company was notified by the PRC State Administration of Foreign Exchange (“SAFE”) that its application to convert certain cash held by Beijing Quicknet Technology Development Limited (“Quicknet”) and Shiji Yingfu (the “PRC Subsidiaries”) into U.S. dollars and repay the Debentures was denied. As part of the Liquidation, the PRC Subsidiaries were ordered to discontinue operations and set up a liquidation committee. Their accounting responsibilities were transferred from the Company to a PRC accounting firm approved by the PRC regulatory authority. As reflected in the financial statements included in this Report, the operations of the PRC Subsidiaries for the years ended December 31, 2006 (which only includes these operations to September 30, 2006) and 2005 are reflected as discontinued operations.

Upon the Liquidation of the PRC Subsidiaries and the repayment of outstanding Debentures, the Company does not know whether the PRC subsidiaries will continue to operate as subsidiaries of the Company in new entities, although

it is not currently expected they will.

In view of the foregoing, as a result of the Liquidation, the Company's sole operations are those of Windsor Education Academy Inc., a British Columbia based school specializing in English as a Second Language courses for foreign students. This business had total revenues of \$93,000 for 2006. Accordingly, we intend to seek to expand our business through acquisitions or mergers with other entities. Any decision to make an acquisition or merge will be based upon a variety of factors, including, among others, the purchase price and other financial terms of the transaction, the business prospects of the target company and the extent to which any acquisition/merger would enhance our prospects. We will continue to try to complete the acquisition of Topbiz, as described below. While we have had discussions with various potential acquisitions targets, we presently have no agreements, understandings or arrangements for any other acquisitions or mergers.

On September 6, 1996, the Company was incorporated under the laws of the State of Florida under the name of Placer Technologies, Inc. It conducted an initial public offering of 200,000 shares @ \$0.25 per share to achieve \$50,000 in capital. In December 1996, pursuant to a Rule 15c2-11 filing, the Company obtained approval to have its Common Stock quoted on the OTCBB, which is a national quotation service maintained by the NASD.

The Company's initial primary service consisted of developing web home pages for small businesses in the U.S.A. It generated minimal revenues in 1996.

On April 2, 1997, the Company acquired a 100% interest in InforNet Investment Limited ("InforNet"), a Hong Kong corporation. In August 1997 InforNet entered into a joint venture agreement with Xin Hai Technology Development Ltd. ("Xin Hai"). Xin Hai was an experienced internet-related services provider, but the business suffered losses and was sold and discontinued in 2001.

On June 11, 1997, the Company purchased a 100% interest in InforNet Investment Corp., a British Columbia corporation. InforNet Investment Corp. is the subsidiary that manages daily operations of the Company.

On July 24, 1998, the Company changed its name from Placer Technologies, Inc. to Xin Net Corp.

In June 2004, the Company changed its name to China Mobility Solutions, Inc. concurrent with a one-for-three reverse split.

On June 23, 2004, the Company consummated the acquisition of a 49% interest in Quicknet, a company organized under the laws of the Peoples' Republic of China, pursuant to a share purchase agreement. The Company issued 6,120,000 shares of its common stock as payment. On September 30, 2005, the Company indirectly, through an affiliate, acquired control of the remaining outstanding shares of common stock of Quicknet, and paid US\$2,000,000 on September 30, 2005 and an additional US\$2,000,000 on or about December 31, 2005. See the discussion under the heading "Quicknet Acquisition" set forth below.

On August 8, 2006, the Company and President of a subsidiary of the Company consummated the acquisition of a 49% interest in Beijing Topbiz Technology Development Corp., Ltd., a company organized and existing under the laws of the People's Republic of China ("Topbiz"), pursuant to a share purchase agreement.

Topbiz develops and customizes short messaging system, or SMS, platforms for banks in China. Topbiz generated US\$2.67 million in revenue and US\$785,000 in net profit in 2005, and had US\$ 1.25 million cash-on-hand as of December 31, 2005. All such figures have been audited in accordance with U.S. generally accepted accounting principles.

As of September 30, 2006, \$950,000 had been paid by the Company. According to the Topbiz Agreement, the Company should make a payment of US\$1,350,000 three months after closing date which is before end of November,

2006. However, since the Company had started the liquidation process by then, it could not make such payment on time. The Company and Topbiz stopped the ownership transferring process. As of December 31, 2006, the Company and Topbiz had not reached an amended agreement on the payment schedule.

CORPORATE OVERVIEW

China Mobility Solutions' structure showing its subsidiaries during 2006 prior to the Liquidation which commenced in January 2007 was as follows, with the jurisdiction of incorporation of each subsidiary included in parentheses:

China Mobility Solutions, Inc
(Florida, U.S.A.)

Infornet Investment Corp. (100% Owned) (BC, Canada)	Infornet Investment Ltd. (100% Owned) (Hong Kong)
Windsor Education Academy Inc. (100% Owned) (BC, Canada)	Beijing ShiJiYingFu Consultant Corp. Ltd. (100% Owned) (Beijing, China)
Xinbiz Corp. (100% Owned) (British Virgin Islands) (Dormant)	Xinbiz Ltd. (100% Owned by Xinbiz Corp.) (Hong Kong) (Dormant)
Beijing QuickNet Technology Development Corp. (49% Owned and 51% Indirectly Owned and Controlled) (Beijing, China)	

The Company incorporated Xinbiz Corp. (British Virgin Islands) on January 14, 2000 and its subsidiary Xinbiz Ltd. (Hong Kong) on March 10, 2000. Both of these companies are wholly owned subsidiaries. Xinbiz Corp. and Xinbiz Ltd. did not have any operations in the past three years.

Through its wholly owned subsidiary, Infornet Investment Ltd. (Hong Kong), the Company formed a joint venture with Xin Hai Technology Development Ltd. for upgrading telecommunication technology and services in China. This evolved into an internet-focused service provider and e-commerce solutions business. However, the Company decided in May 2001 to focus its business in China on domain name registration and web-hosting services and to discontinue Internet access provision services. On June 22, 2001, the Company entered into an agreement to sell its ISP assets (Xin Hai). The price for the sale was \$700,000 (USD) payable to the Company in Renminbi at the official exchange rate. As of December 31, 2003, \$500,000 had been received for the transaction. A loss provision of \$200,000 was made against the balance of the sales price as the Company determined that the purchaser will not be able to pay the remaining balance.

Since the Company started its Internet-related business in The People's Republic of China ("PRC" or "China"), it has seen rapid growth in Internet use in China; but it has also seen an equal, if not greater, growth in companies entering this arena. As a result, the industry experienced severely reduced operating margins and continued losses. Although the Company was considered an early leader in the domain name registration field, due to the lack of adequate funding, future growth potential against the many competitors was limited at best. The Company had struggled for several years to break even and was hoping for required funding to grow, but the plan was nullified when the funding failed to materialize. As China becomes more and more open according to the terms of the World Trade Organization, the world's largest, well-funded companies have been given access to the China market and have seriously compromised the Company's competitive position.

In February 2003, the Company signed an agreement to sell the Company's China assets (domain name registration) to a subsidiary of Sino-i.com Limited, a Hong Kong Stock Exchange listed company, for a total consideration of RMB 20 million (approx. US\$ 2.4 million). The Company has received the entire purchase price, and the divestiture was completed in 2004.

Education Business

In 2002, the Company redirected its resources to the education and training field. On January 6, 2003, the Company announced the acquisition of Windsor Education Academy Inc. ("Windsor"), a Richmond, British Columbia based school specializing in English as a Second Language (ESL) courses to foreign students. Total consideration was CAD\$ 200,000 (about US\$128,000). Windsor is government-certified and received a number of ESL students from the Provincial Government of British Columbia, but all government programs involving Windsor ended March 31, 2005. Windsor Academy has a campus in Richmond, British Columbia. They are equipped with personal computers and standard classroom fixtures. Because of the outbreak of SARS, and its implications for public health and travel to and from China, the Company could not consummate any other major acquisitions in China and in Hong Kong during a one-year period beginning in March 2003 and, therefore decided to maintain the operation of Windsor while looking for other opportunities. The Company intends to maintain these operations following the Liquidation as its only operations until it is able to make any acquisitions.

Office Location

China Mobility Solutions, Inc. currently maintains an office at: #407 - 1270 Robson Street, Vancouver, BC Canada V6E 3Z6 (telephone number is 1-604-632-9638).

Discontinued Quicknet Operations

On June 23, 2004, the Company completed the acquisition of a 49% equity interest from the shareholders of Beijing Quicknet Technology Development Corp. ("Quicknet"), located in Beijing, China by signing a Purchase Agreement (the "Quicknet Purchase Agreement"). As described above, the Liquidation of Quicknet began in January 2007 and its operations are reflected as discontinued operations. Management does not believe that the operations of Quicknet will be transferred to a new entity controlled by the Company following the completion of the Liquidation. Quicknet was engaged in the development of software for mobile/wireless communication and for Short Message Services ("SMS"). The Company acquired the 49% equity interest from Quicknet shareholders in exchange for the Company's issuance of 6,120,000 shares of common stock of the Company at a deemed price of \$0.50 per share (2,040,000 post-reverse split shares at a market price of \$0.27 per share for a total of \$550,800). In June 2004, the Company signed a Purchase Agreement (the "Chinaco Purchase Agreement") with Beijing Shi Ji Rong Chuang Service & Technology Co., Ltd., a local China company ("Chinaco"), which then owned 2% of the equity interest of Quicknet having purchased a 1% interest from each of the two shareholders of Quicknet, Mr. Bo Yu and Mr. Fang Hu. Under the Chinaco Purchase Agreement, the Company was granted the right to purchase 100% of the equity of Chinaco for nominal consideration, solely when Chinese law permits such sale. Chinaco is owned by two senior officers of the Company who have Chinese citizenship. Due to current government restrictions on foreign ownership of telecommunication companies in

China, the Company was not permitted to acquire the additional 2% of the equity interest of Quicknet that is still held by Chinaco. At present, foreign investors such as the Company can only own up to 49% of telecommunications and related businesses in China. The 2% Chinaco interest will only be transferred to the Company at such time as Chinese law permits increased ownership of telecommunications and related businesses by foreign investors such as the Company. Chinese law does not currently permit such transfer, therefore, Chinaco has granted an unconditional, irrevocable proxy, without time limit, to the Company. Through the above-described proxy, the Company can appoint all directors and officers of Quicknet and therefore directly and indirectly controls 51% of the equity interest of Quicknet through its own equity ownership and its control of Chinaco.

Under the Quicknet Purchase Agreement, the Company had an option to acquire the remaining 49% equity interest in Quicknet through Chinaco from the Quicknet Shareholders within the first year for \$4,000,000. The Company also had an option to acquire this remaining 49% equity interest in Quicknet within the second year for \$5,000,000. The Quicknet Purchase Agreement provided that the Company could pay these amounts by 50% in shares of the common stock of the Company and 50% in cash. The final percentage of shares versus cash could be negotiated between both parties. The Company exercised its right to purchase the remaining 49% interest in August 2005 (the "Option Exercise"), by having Chinaco purchase a 24.5% interest from each of the two shareholders of Quicknet, Mr. Bo Yu and Mr. Fang Hu, for a total of 49% interest for the agreed-upon purchase price of US\$4,000,000. The purchase price had been paid in the form of cash. On September 30, 2005, the Company paid US\$2,000,000, and paid another US\$2,000,000 before December 31, 2005.

As previously mentioned, pursuant to the Chinaco Purchase Agreement, the Company was granted the right to acquire 100% of the equity of Chinaco, if and when Chinese law permits. The Company directly owns 49% of Quicknet and through Chinaco, indirectly controls a combined total of 51% equity interest, and thus controls a total 100% of Quicknet. The Company has the right to appoint all of the directors of Beijing Quicknet.

Until such time, if ever, that Chinese law permits the transfer of a controlling interest in Quicknet, the Company will maintain control of Quicknet under its Quicknet Purchase Agreement, Chinaco Purchase Agreement, and August 2005 Option Exercise. However, currently, the Company will be unable to directly own the remaining 51% interest held by Chinaco.

The Company raised (a) US\$1,255,000 through issuing common stock and (b) US\$3,350,000 through issuing senior convertible debentures and Class A Warrants and Class B Warrants in 2005 in an offering exempt from registration pursuant to Regulation D under the Securities Act of 1933, as amended. A portion of the proceeds of these offerings were used to complete the Quicknet Purchase Agreement.

Discontinued Internet Services

Up until late 2002, the Company's business was focused on domain name registration, web hosting and web design services under the ChinaDNS banner. It operated the website www.chinadns.com, the first in the PRC to offer online site registration. In October 1999, ChinaDNS was approved as an Official Agent of Network Solutions, Inc.

Due to the continued loss on operations (\$254,035 in 2002) in 2003, the Company entered into an Agreement to sell the domain name registration business to China Enterprise, an ASP, for about \$2,400,000, a sale which was completed in 2004. We are treating the DNS business as discontinued operations at this time, as China Enterprise is in full control of the assets.

CURRENT BUSINESS

Education and Training

The Company is currently offering English as a Second Language (ESL) and related courses through Windsor Education Academy at the Richmond campus.

PRODUCTS, SERVICES, MARKETS AND METHODS OF DISTRIBUTION

Mobile Solutions: Quicknet in China - Discontinued Operations

(1) Products and Services:

Mobile Marketing

The first mobile solution launched by the Company was mobile marketing. Mobile marketing is the use of the mobile medium as a communications and entertainment channel between a brand and an end-user. Mobile marketing is the only personal channel enabling spontaneous, direct, interactive and/or targeted communications, any time, any place. Mobile marketing can be used in a wide variety of ways:

- . For customer acquisition
- . For customer retention
- . For loyalty building
- . As a sales promotion tool
- . To support product launches
- . To raise brand awareness
- . For internal communications
- . As a redemption / coupon tool
- . For direct marketing
- . As an effective business-to-business communications vehicle
- . As an additional revenue stream
- . To be able to offer time / location specific offers
- . As a channel for delivering ring tones and logos

China had almost 400 million mobile phone subscribers as of the end of 2005, and management believes there will continue to be increasing demand from enterprises to reach this large market by using mobile phones as a new media for their marketing.

Mobile Email

China Mobility Solutions launched its mobile email system in June 2005. We developed the mobile email system with push-based technology that delivers email to the recipient's cell phone. The "push" technology means that email does not have to be retrieved but is automatically delivered.

The email system is appropriate for companies hoping to offer their customers a quality cell phone-based email system, and for use within companies to improve communications between employees.

Since the debut of our newly developed mobile email system, we have completed a successful road show in June and July of 2005. We have also discussed possible bundle services with several PC manufacturers and mobile phone manufacturers, and signed a contract with Lenovo to distribute our mobile email system.

Mobile Business Automation

China Mobility's Office Automation product was launched in August 2005. The system provides staff with enhanced access to the information they need when they need it, helps to eliminate paperwork, and changes/streamlines many business processes.

Our office automation solution benefits clients in the areas of *CRM, sales force management, communications and inventory*. Our technology also facilitates the sending of messages and notices to employees and customers. The tool is especially useful for companies with field-based salespeople because it allows the salespeople to access information in the Company's central database while at the client's site. Through SMS, salespeople can have access to useful information like current rates, technical specifications, client information, and inventory levels. They can also order products, book meetings, coordinate with other salespeople, and make reports through SMS. The office automation solution is designed to give sales reps a competitive edge through instant response to information needs, to help them close sales and generally be more productive in the field. Managers are able to approve verifications and other enquiries that are submitted by employees via their cell phones. Companies are able to send out service information, accept customer inquiries and reply to customer questions via SMS.

Some of the advantages of our office automation product are:

- It enables sales representatives to deliver information at point-of-contact in the field, via SMS;
- The user-company can configure the mobile field sales solution to model their unique sales needs with two-way communications;
- The solution can integrate critical customer information from back office records or legacy systems, giving the field sales team relevant information to complete an order;
- It can receive up-to-the-minute input from the field, providing real-time information for decision-making support from the office;
- Applications can support hundreds of simultaneous users and require no in-house program development.

The office automation tool also allows a company to communicate easily and effectively with its salespeople while they are in the field. Companies can send memos to employees to coordinate meetings, announce social events, or manage work schedules. It also allows salespeople to communicate among themselves more efficiently and for a lower cost than cellular phone conversations.

Our office automation product allows companies to improve internal communications in all areas, which can improve efficiency, reduce costs, increase revenues, improve employee productivity and improve customer satisfaction.

(2) Method of Distribution and Marketing: Mobile Solutions

The Company used four outlets to approach the market for its mobile business solutions: agents, mobile carriers, in-house sales staff and sales support branches. The Company also used strategic partnership with industry leaders, print media, on-line advertisement, SMS campaigns, events and seminars as marketing tools.

Education and Training

(1) Educational Products and Services

Windsor provides ESL (English as a Secondary Language) and related courses in B.C. Canada. Windsor Education received a number of ESL students from the Provincial Government of British Columbia under government programs, but all government programs involving Windsor ended March 31, 2005.

In the past several years, supplementary education has become a multi-billion dollar business in China, the most popular being Foreign Schools, English Training, Data Processing, and Accounting. Started several years ago, this trend is still increasing and with the integration of China into the world community as well as the growth in personal

disposable income. Windsor plans to capitalize from this growth by providing North American courses into Chinese market.

(2) Method of Distribution and Marketing: Education

Windsor Education Academy uses the printed media as well as recruitment agents to attract students. Word of mouth is also an important endorsement.

EMPLOYEES OF SUBSIDIARIES

At the end of September 31, 2006 (the date upon which Quicknet operations were considered discontinued), Quicknet had approximately 55 employees. About 31% were technical support, 36% were in sales and marketing, 14% were R&D and the rest were administrative personnel. The actual number of employees changed during the year.

At the end of December 31, 2006, Windsor had six employees, consisting of three full and part time teachers and three administrative personnel. The key to success is the ability to attract students. The number of employees will change as the students change. There is no collective bargaining unit at the academy.

DEPENDENCE ON CLIENT BASE

For the mobile solutions business, we signed contracts with a number of clients for varying types of marketing. The Company relied on its agents, mobile carriers, in-house sales staff and supporting sales branches, as well as media and other marketing channels to increase its client base.

For the Education Services, there are approximately several dozen students every month. Windsor is relying on the printed media, word of mouth, recruiting agents and other marketing channels to increase the number of students.

Backlog of Orders: None.

Government Contracts: Windsor Education received a number of ESL students from the Provincial Government of British Columbia under government programs, but there is no commitment beyond the individual student's referral to our subsidiary. All government programs involving Windsor ended March 31, 2005.

COMPETITIVE CONDITIONS

Mobile Solutions

The Chinese economy has been among the fastest growing in the world for the past several years. China's economy grew 9.5% in 2004 with growth at the same rate in 2005 and 8% in 2006. China has one of the largest and fastest-growing telecommunications markets in the world, and the mobile phone sector in particular has become the world's number one, with approximately 446 million subscribers by the end of 2006. Mobile solutions, which use mobile phones as a new media, have created a large market in China. There are two types of markets in this field: the individual market and the corporate market. Competition in the individual market is fiercer than the corporate market since the individual market is very saturated and there are a large number of large and small competitors, thus has become less lucrative. Being early in the corporate market and possessing a database of nearly 500,000 corporate customers from its previous operations, the Company will have more growth potential than if the Company targeted the highly competitive consumer mobile market.

Education Services

In Windsor's business, the supplementary education and training market is very fragmented, there are very few large schools and numerous small ones, established mostly in larger cities worldwide. There are many keys to a school's success, such as: the quality of its curriculum and graduates, teachers and facilities, certifications and diplomas offered, location and accessibility, marketing and advertising, variety of programs offered, etc. The Company is striving to maintain its current level, exploring more opportunities from government projects, seeking cooperates with other schools in mainland China. However, the Company is focusing on its mobile solution business, rather than education services

COMPLIANCE WITH RELATED LAWS AND REGULATIONS

On January 16, 2007, application for liquidation (the "Liquidation") of the operating subsidiaries of China Mobility Solutions, Inc. (the "Company") in the Peoples' Republic of China ("PRC") was approved by the Haidian District, Beijing Bureau of Commerce. The Liquidation application was made in October 2006, upon the advice of PRC counsel that the Beijing Rule of Liquidation was the sole means available to the Company to insure the repayment of the \$3,350,000 (less any amount that has been converted) principal amount of convertible debentures ("Debentures") which matured on August 15, 2006.

In October 2006, the Company was notified by the PRC State Administration of Foreign Exchange ("SAFE") that its application to convert certain cash held by Beijing Quicknet Technology Development Limited ("Quicknet") and Shiji Yingfu (the "PRC Subsidiaries") into U.S. dollars and repay the Debentures was denied. As part of the Liquidation, the PRC Subsidiaries were ordered to discontinue operations and set up a liquidation committee. Their accounting responsibilities were transferred from the Company to a PRC accounting firm approved by the PRC regulatory authority. As reflected in the financial statements included in this Report, the operations of the PRC Subsidiaries for the years ended December 31, 2006 (which only includes these operations to September 30, 2005) and 2005 are reflected as discontinued operations.

Upon the Liquidation of the PRC Subsidiaries and the repayment of outstanding Debentures, the Company does not know whether the PRC subsidiaries will continue to operate as subsidiaries of the Company in new entities, although it is not currently expected they will.

In China, the Company relies on the advice of Chinese legal counsel to maintain compliance with all laws, rules, regulations and government policies in China. The telecom industry is subject to extensive government regulation, which regulations have been changing rapidly, and there is no assurance that the Company will not be adversely impacted by such regulations in the future.

On the Education Services side, Windsor Education Academy Inc. is governed by the Laws of the Province of British Columbia, Canada. The Company is fully licensed to conduct its business in the Province. The Company is unable to assess or predict at this time what effect the regulations or legislation could have on its activities in the future.

(a) Local Regulations

The Company cannot determine to what extent its future operations and earnings may be affected by new legislation, new regulations or changes in existing regulations on a local level in Canada.

(b) National Regulations

The Company cannot determine to what extent its future operations and earnings may be affected by new legislation, new regulations or changes in existing regulations on a national level.

The value of the Company's investments in the PRC may be adversely affected by significant political, economic and social uncertainties in the PRC. Any changes in policies by the government of the PRC could adversely affect the

Company by, among other factors, changes in laws, regulations or the interpretation thereof, confiscatory taxation, restrictions on currency conversion, the expropriation or nationalization of private enterprises, or political relationships with other countries.

(c) Parents and Subsidiaries as of December 31, 2006.

Parent:

CHINA MOBILITY SOLUTIONS, INC., a Florida corporation

Subsidiaries:

INFONET INVESTMENT CORP., a British Columbia corporation (100% owned)

INFONET INVESTMENT LTD., a Hong Kong corporation (100% owned)

XIN BIZ CORP., a BVI corporation (100% owned) (Dormant)

XIN BIZ LIMITED, a Hong Kong corporation (100% owned subsidiary of XIN BIZ Corp.) (Dormant)

WINDSOR EDUCATION ACADEMY, INC., a British Columbia corporation (100% owned)

BEIJING SHIJIYINGFU CONSULTANTING CORP., a Chinese corporation (100% owned subsidiary of Infonet Investment Ltd.)

BEIJING QUICKNET TECHNOLOGY DEVELOPMENT CORP. a Chinese corporation (49% owned subsidiary of Infonet Investment Ltd. But through contracts and proxy arrangement, the Company directly and indirectly controls and owns 100% of Beijing Quicknet.)

The Company is a minority shareholder of THE LINK GROUP, INC. (formerly called World Envirotech, Inc.)

ITEM 2. DESCRIPTION OF PROPERTIES

China Mobility Solutions, Inc. currently maintains a leased office of approximately 600 square feet at: #407- 1270 Robson Street, Vancouver, BC Canada V6E 3Z6 (telephone number is 1-604-632-9638). The term of the lease is one year at a monthly rental of \$1605 from a non-affiliated landlord. It also leases an office as its headquarters in Beijing, at Room 601, 6/F, YinHai Building, No.10, ZhongGuanCun Road, HaiDian District, Beijing, China. 100081. The term of the lease in Beijing is for one year and six months ending June 30, 2007, at a monthly rental of approximately \$11,000 from a non-affiliated landlord. Windsor Education Academy currently rents approximately 1000 square feet at 2120 and 2125, 8766 McKim Way, Richmond, BC, Canada. The term of the lease is for one year ending September 1, 2007 at a monthly rental of \$1,650 from a non-affiliated landlord.

(a) Real Estate: None

(b) Equipment, library, and furniture at December 31, 2006: \$11,129.

ITEM 3. LEGAL PROCEEDINGS

In the ordinary course of business, the Company may be involved in legal proceedings from time to time. As of the date of this report, the only legal proceedings to report were that:

On September 18, 2006, Southridge Partners, L.P. ("Plaintiff") commenced a lawsuit against the Company in the Supreme Court of the State of New York, New York County (No. 603266) for an alleged default on repayment of its Senior Convertible Debentures due August 15, 2006 (the "Debentures"). The motion for summary judgment in lieu of complaint was granted based on the Company's Debentures in the amount of \$500,000 in favor of Plaintiff which was

due on August 15, 2006, with interest at 12% per annum. The Plaintiff is taking steps to execute its default judgment.

On November 25, 2006, Iroquois Management Fund LTD (“Plaintiff”) commenced a lawsuit against the Company in the Supreme Court of the State of New York, New York County (No. 6604397/06). The action is a motion for summary judgment in lieu of complaint based on the Company’s Debentures in the amount of \$375,000 in favor of Plaintiff which was due on August 15, 2006, with interest at 6% per annum from June 30, 2005 to August 15, 2006, and with interest at 12% per annum from August 15, 2006 to the date of entry of judgment, plus costs and disbursements.

On February 7, 2005, the Company was sued by Sino-I Technology Limited for \$88,270 for an alleged breach of warranty and a claim under a guarantee. The Company has retained separate counsel to represent it in the action. Counsel for the Company submitted a Notice of Motion to the plaintiff’s lawyer on March 7, 2005 and is seeking an extension of response date. The Company intends to vigorously defend the suit.

No director, officer or affiliate of China Mobility Solutions, Inc., and no owner of record or beneficial owner of more than 5% of the securities of the Company, or any associate of any such director, officer or security holder is a party adverse to the Company or has a material interest adverse to it in reference to pending litigation.

See Item 1. “General Description and Development of Business” for information concerning the Liquidation of certain PRC Subsidiaries of the Company.

ITEM 4. SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS

None.

PART II

ITEM 5. MARKET FOR COMMON STOCK, RELATED STOCKHOLDER MATTERS AND SMALL BUSINESS ISSUER PURCHASES OF EQUITY SECURITIES

(a) The Company’s common stock is traded on the Over-the-Counter Bulletin Board maintained by the NASD under the trading symbol “CHMSE.OB” and was previously traded under the symbol “CHMS.OB.” The following table sets forth high and low bid prices of the common stock for years ended December 31, 2005 and December 31, 2006 as quoted by the NASD over-the-counter-bulletin board as follows:

	Bid (U.S. \$)	
	HIGH	LOW
2006		
First Quarter	0.35	0.25
Second Quarter	0.36	0.20
Third Quarter	0.22	0.11

Fourth Quarter	0.29	0.08
2005		
First Quarter	0.45	0.38
Second Quarter	0.44	0.38
Third Quarter	0.69	0.36
Fourth Quarter	0.59	0.33

Quotations, if made, represent only prices between dealers and do not include retail markups, markdowns or commissions and accordingly, may not represent actual transactions.

Because of the rules and regulations governing the trading of small issuers' securities, the Company's securities are presently classified as "Penny Stock", a classification which places significant restrictions upon broker-dealers desiring to make a market in these securities. It has been difficult for management to interest broker-dealers in our securities and it is anticipated that these difficulties will continue until the Company is able to obtain a listing on NASDAQ, at which time market makers may trade its securities without complying with the stringent requirements. The existence of market quotations should not be considered evidence of an "established public trading market." The public trading market is presently limited as to the number of market makers in Company stock and the number of states within which its stock is permitted to be traded.

Holders

(b) As of May 16, 2007, China Mobility Solutions, Inc. had approximately 185 shareholders of record of its common stock. Management believes that approximately 5000 shareholders held the Company's common stock in street name.

Dividends

(c) No dividends on outstanding common stock have ever been paid. The Company does presently have any plans regarding payment of dividends in the foreseeable future.

(d) Securities Authorized for Issuance under Equity Compensation Plans

The following table sets forth, as of December 31, 2006:

Equity Compensation Plan Information Table

	(a)	(b)	(c)
Plan Category	Number of securities to be issued upon exercise of outstanding options, warrants and rights	Weighted-average exercise price of outstanding options, warrants and rights	Number of securities remaining available for future issuance under equity compensation plans (excluding securities reflected in column (a))

E q u i t y compensation plans a p p r o v e d b y security holders	3,500,000	none	410,000
E q u i t y compensation plans not approved by security holders	660,000 4,000,000	US\$0.30 none	0 4,000,000
Total	8,160,000	US\$0.30	4,410,000

Material aspects of the 2006 Non-Qualified Stock Option Plan is disclosed herein under Item 10 - "Executive Compensation" section.

Recent Sales of Unregistered Securities and Use of Proceeds.

None

The Company has not received any proceeds as a result of the registration statement that went effective on August 7, 2006, which registered shares issuable upon conversion of Debentures and exercise of the Class A and Class B Warrants, as well as placement agent warrants and warrants received as compensation for services provided.

Purchasers of Equity Securities by the Small Business Issuer and Affiliated Purchases

None.

ITEM 6. MANAGEMENT'S DISCUSSION AND ANALYSIS OR PLAN OF OPERATION

As more fully described in Item 1 - General Description and Development of Business, in January 2007, the Beijing Bureau of Commerce approved the Liquidation of the Company's operating subsidiaries in China. In connection with the Liquidation, the accounting responsibilities for the operations of the PRC subsidiaries were transferred from the Company to a PRC accounting firm approved by the PRC regulatory authority. The Company has been unable to obtain reports from this accounting firm and has not received a definitive opinion regarding the ultimate outcome of these liquidations; accordingly, the Company has reduced the carrying value of the net assets of the PRC subsidiaries to \$1 at December 31, 2006 and has reflected operations of the PRC Subsidiaries for the years ended December 31, 2006 (which only includes these operations to September 30, 2006) and 2005 as discontinued operations.

Since the Company was unable to provide evidence and its auditors were unable to apply other auditing procedures to satisfy themselves as to the carrying value of the net assets of the PRC Subsidiaries at December 31, 2006 and the results of their operations for the three months ended December 31, 2006, as described in the preceding paragraph, the scope of the auditor's work was not sufficient to enable him to express, and he did not express, an opinion on the Company's financial statements included in this Report.

Critical Accounting Policies

Our discussion and analysis is based upon our consolidated financial statements, which have been prepared in accordance with accounting principles generally accepted in the United States. The preparation of these financial statements requires us to make estimates and judgments that affect the reported amounts of assets, liabilities, revenues and expenses, and related disclosure of contingent assets and liabilities. On an on-going basis, we evaluate our estimates, including those related to revenue recognition, accounts receivable and allowance for doubtful accounts,

intangible and long-lived assets, and income taxes. We base our estimates on historical experience and on various other assumptions that are believed to be reasonable under the circumstances, the results of which form the basis for making judgments about the carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates under different assumptions or conditions.

An accounting policy is deemed to be critical if it requires an accounting estimate to be made based on assumptions about matters that are highly uncertain at the time the estimate is made, and if different estimates that reasonably could have been used or changes in the accounting estimate that are reasonably likely to occur could materially change the financial statements. We believe the following critical accounting policies reflect our more significant estimates and assumptions in the preparation of our consolidated financial statements:

Contingencies - We may be subject to certain asserted and unasserted claims encountered in the normal course of business. It is our belief that the resolution of these matters will not have a material adverse effect on our financial position or results of operations, however, we cannot provide assurance that damages that result in a material adverse effect on our financial position or results of operations will not be imposed in these matters. We account for contingent liabilities when it is probable that future expenditures will be made and such expenditures can be reasonably estimated.

Income Taxes - We record a valuation allowance to reduce our deferred tax assets to the amount that is more likely than not to be realized. We have considered future market growth, forecasted earnings, future taxable income, and prudent and feasible tax planning strategies in determining the need for a valuation allowance. We currently have recorded a full valuation allowance against net deferred tax assets as we currently believe it is more likely than not that the deferred tax assets will not be realized.

Valuation Of Long-Lived Assets - We review property, plant and equipment and other assets for impairment whenever events or changes in circumstances indicate the carrying value of an asset may not be recoverable. Our asset impairment review assesses the fair value of the assets based on the future cash flows the assets are expected to generate. An impairment loss is recognized when estimated undiscounted future cash flows expected to result from the use of the asset plus net proceeds expected from disposition of the asset (if any) are less than the carrying value of the asset. When an impairment is identified, the carrying amount of the asset is reduced to its estimated fair value. Deterioration of our business in a geographic region could lead to impairment adjustments when identified. The accounting effect of an impairment loss would be a charge to income, thereby reducing our net profit.

Forward-looking statements

Statements contained in this report include "forward-looking statements" within the meaning of such term in Section 27A of the Securities Act of 1933, as amended (the "Securities Act") and Section 21E of the Exchange Act. Forward-looking statements involve known and unknown risks, uncertainties and other factors which could cause actual financial or operating results, performances or achievements expressed or implied by the forward-looking statements not to occur or be realized. Forward-looking statements generally are based on our best estimates of future results, performances or achievements, based upon current conditions and the most recent results of the companies involved and their respective industries. Forward-looking statements may be identified by the use of forward-looking terminology such as "may," "will," "could," "project," "expect," "believe," "estimate," "anticipate," "intend," "continue," "potential," "opportunity" or similar terms, variations of those terms or the negative of those terms or other variations of those terms or comparable words or expressions.

Potential risks and uncertainties include, among other things, such factors as:

- the Liquidation of our PRC Subsidiaries as set forth in Item 1,
- our business strategies and future plans of operations,

· general economic conditions in the United States and elsewhere, as well as the economic conditions affecting the industries in which we operate,

· the market acceptance and amount of sales of our products and services,

· our historical losses,

· the competitive environment within the industries in which we compete,

· our ability to raise additional capital, currently needed for expansion, the other factors and information discussed in other sections of this report and in the documents incorporated by reference in this report.

Persons reading this report should carefully consider such risks, uncertainties and other information, disclosures and discussions which contain cautionary statements identifying important factors that could cause actual results to differ materially from those provided in the forward-looking statements. We undertake no obligation to publicly update or revise any forward-looking statements, whether as a result of new information, future events or otherwise.

WORKING CAPITAL NEEDS

On the Mobile Solution Services side, during 2006 our working capital needs arose primarily from: the need for capital to expand existing capacity of Quicknet services, to open more offices in other major cities, to launch new value-added services, to acquire other companies that will complement the services offered by us.

On the education services side, the Company will use the working capital to explore the local market, launch new courses, set up new market campaign, sign up with more agents, both domestic and international agents and provide some marketing materials and financial support to those agents.

LIQUIDITY AND CAPITAL RESOURCES

The Company had cash capital of \$288,149 at year-end 2006. The Company has no other capital resources other than the ability to use its common stock to achieve additional capital raising. Other than cash capital, its other assets would be illiquid.

At the fiscal year-end it had \$322,111 in current assets and current liabilities of \$3,875,049, consisting primarily of \$3,325,000 of Debentures which matured on August 15, 2006 and were in default. At December 31, 2005, the Company had current liabilities of \$6,765,295, consisting of the \$3,350,000 principal amount of Debentures which were to mature on August 15, 2006, and \$3,053,282 deferred revenues received prior to the services being performed.

The cash capital at the end of the period of \$288,149 will be used to fund continuing operations. The Company had a decrease in cash of \$5,850,460 for fiscal 2006, resulting from a decrease of \$833,626 of cash used for operating activities primarily as a result of a net loss of \$7,879,445. This was offset, in part, by a \$6,566,822 loss on the Liquidation of the PRC Subsidiaries and an impairment of \$950,000 of the Company's deposit paid towards the acquisition of Beijing Topbiz which has not been completed as a result of the Liquidation. The Company received \$155,245 from operating activities in 2005 as a result of a loss of \$9,163,453 offset, in part, by the fair value of \$6,891,486 of warrants issued together with the Debentures and the intrinsic value \$1,052,863 of the conversion feature of the Debentures.

The Company used (\$4,988,472) for investing activities in 2006 primarily as a result of the PRC subsidiaries placed in Liquidation and the impairment of Topbiz deposit (\$950,000). In 2005 the Company used \$4,000,000 for the purchase of the remaining interest of Quicknet.

The Company had \$25,000 of net cash provided by financing activities in 2006 as compared with \$3,350,000 from the Debentures in 2006 and \$1,255,000 for the issuance of Common Stock.

On August 15, 2006, \$3.35 million principal amount of Debentures matured. The Company offered to lower the conversion price of the Debentures to \$.05 per share conditioned upon at least 50% in principal amount of Debentures agreeing to convert all of their Debentures in accordance with the terms and conditions of a Conversion/Settlement Agreement dated as of February 2, 2007. This transaction was completed in February 2007 and approximately 58 % of the Debenture have been converted at \$.05 per share. The Debenture holder who executed the Agreement released the Company from all claims.

The Company has revenues from its mobile marketing services and other mobile solutions through Beijing QuickNet and tuition fees from Windsor Education Academy ("Windsor"). However, capital from additional private placements, borrowing against assets and/or from warrants being exercised by warrant holders, may be required to fund future operations. As of December 31, 2006, 134 new Series "A" warrants issued in the August 2005 Offering were outstanding which entitle the holders to purchase 71,429 common shares of the Company at \$0.44 each within two years from the Effective Date, but no later than February 15, 2008. 134 new Series "B" warrants were outstanding issued in the August 2005 offering which entitle the holders to purchase 71,429 common shares of the Company at \$0.52 each within three years from the Effective Date but no later than February 15, 2009.

On August 8, 2006, and as referenced in Item 1(a) above, the Company and President of a subsidiary of the Company consummated the acquisition of a 49% interest in Topbiz, pursuant to the Share Purchase Agreement referenced in Exhibit 10.8 hereto. As of September 30, 2006, \$950,000 had been paid by the Company. According to the Share Purchase Agreement, the Company should make a payment of US\$1,350,000 three months after closing date which is before end of November, 2006. However, since the Company had started the liquidation process by then, it could not make such payment on time. The Company and Topbiz stopped the ownership transferring process. As of December 31, 2006, the Company and Topbiz had not reached an amended agreement on the payment schedule. Furthermore, the Company has not issued any stock under Regulation S under the Securities Act in connection with this transaction.

Liquidation of Quicknet Subsidiary to Repay Debentures in Default

On August 15, 2006, the Company's Debentures in the principal amount of \$3,350,000 matured. While the Company had sufficient cash on hand to repay the Debentures in their entirety with accrued interest, the Company's operating subsidiary in China, Quicknet was denied the ability to withdraw funds from China, as described below. The Company received letters from the attorneys for two holders of an aggregate \$875,000 principal amount of Debentures stating that the Company was in default under the Debentures as a result of its failure to pay principal plus interest thereon. One of such debenture holders obtained a default judgment against the Company for \$500,000 principal amount of Debenture plus interest and expenses. The Company had paid all interest on the Debentures accrued through August 15, 2006. Interest accrued on the Debentures through maturity, at the rate of not less than 6% per annum equal to the sum of 2% per annum plus the one month LIBOR rate. From the maturity date of August 15, 2006, interest on outstanding principal amount of Debentures and unpaid accrued interest accrues at the rate of 12% per annum.

The Company disclosed in a Current Report on Form 8-K for August 31, 2006, that it had applied to the banking authorities (State Administration of Foreign Exchange ("SAFE")) in China to convert its subsidiaries' funds into U.S. dollars and repay the Debentures. The Company's operating subsidiary in China has advised the Company that its application to SAFE to withdraw the funds from China had been denied. On October 25, 2006, the Company retained the law firm of Wyatt & Wang in Beijing to assist it comply with the Beijing Rule of Liquidation of companies with

foreign investment (the “Rule of Liquidation”). The Company has been advised by PRC Counsel that the Rule of Liquidation is the sole means of assuring repayment of the Debentures. The Company began the process to submit an application for such liquidation to the Bureau of Ministry of Commerce (“BOMOC”). On January 16, 2007, the Beijing Bureau of Commerce approved the Liquidation. As part of the Liquidation, the PRC Subsidiaries were ordered to discontinue operations and set up a liquidation committee. Their accounting responsibilities were transferred from the Company to a PRC accounting firm approved by the PRC regulatory authority. As reflected in the financial statements included in this Report, the operations of the PRC Subsidiaries for the years ended December 31, 2006 (which only includes these operations to September 30, 2006) and 2005 are reflected as discontinued operations.

Upon the Liquidation of the PRC Subsidiaries and the repayment of outstanding Debentures, the Company does not know whether the PRC subsidiaries will continue to operate as subsidiaries of the Company in new entities, although it is not currently expected they will.

In view of the foregoing, as a result of the Liquidation, the Company’s sole operations are those of Windsor Education Academy Inc., a British Columbia based school specializing in English as a Second Language courses for foreign students. This business had total revenues of \$93,000 for 2006. Accordingly, we intend to seek to expand our business through acquisitions or mergers with other entities. Any decision to make an acquisition or merge will be based upon a variety of factors, including, among others, the purchase price and other financial terms of the transaction, the business prospects of the target company and the extent to which any acquisition/merger would enhance our prospects. We will continue to try to complete the acquisition of Topbiz, as described below. While we have had discussions with various potential acquisitions targets, we presently have no agreements, understandings or arrangements for any other acquisitions or mergers. As part of the Liquidation, it is necessary to appoint an auditor to do the appraisal of an evaluation of the assets of the Company and to submit such appraisal to the BOMOC for its approval.

At such time as the Company is able to convert the Debentures and/or repay the remainder through the Liquidation process it will need to seek additional funds in order to implement its business plan. No commitments to provide additional funds have been made by management or other stockholders. Accordingly, there can be no assurance that any additional funds will be available to the Company when it is needed.

Changes in Financial Condition:

At December 31, 2006, the Company's assets were \$511,150, compared to \$11,222,363 at December 31, 2005. The current assets totaled \$322,111 at 2006 year-end, compared to \$6,412,893 at 2005 year-end. Net cash provided by continuing operations was (\$833,626) at December 31, 2006, compared to \$757,987 at year-end 2005. The Company had \$288,149 in cash by the year-end compared to \$6,138,609 a year ago. Total liabilities at year-end 2006 were \$3,875,049 compared to \$6,765,295 at 2005 year-end.

These changes are largely due to the liquidation process of the Company’s subsidiaries in China as discussed under “Liquidity and Capital Resources” section.

Need for Additional Financing:

The Company believes it has sufficient capital to meet its short-term cash needs, including the costs of compliance with the continuing reporting requirements of the Securities Exchange Act of 1934, but it will have to seek loans or equity placements to cover longer term cash needs to continue operations and expansion.

No commitments to provide additional funds have been made by management or other stockholders. Accordingly, there can be no assurance that any additional funds will be available to the Company to allow it to cover operation expenses.

If future revenue declines or operations are unprofitable, the Company will be forced to develop another line of business, or to finance its operations through the sale of its assets, or enter into the sale of stock for additional capital, none of which may be feasible when needed. The Company has neither specific management ability, nor financial resources or plans to enter any other business as of this date.

The effect of inflation has not had a material impact on its operation, nor is it expected to in the immediate future.

Market Risk:

The Company does not hold any derivatives or investments that are subject to market risk. The carrying values of any financial instruments, approximate fair value as of those dates because of the relatively short-term maturity of these instruments which eliminates any potential market risk associated with such instruments.

RESULTS OF OPERATIONS FOR THE YEAR ENDED DECEMBER 31, 2006 AS COMPARED TO THE YEAR ENDED DECEMBER 31, 2005.

Revenues. The Company has revenues of \$93,041 from tuition fees in 2006, compared to \$199,280 in 2005 from its subsidiary: Windsor. The gross profit in 2006 was \$85,714 compared to \$144,696 in 2005.

Operating Expenses. The Company incurred operating expenses of \$1,048,846 in 2006, compared to operating expenses of \$1,549,730 in 2005.

Loss from Continuing Operations. Loss from continuing operations for 2006 was (\$2,462,777) compared to the 2005 operating loss of (\$9,456,713). This was caused largely by the inclusion of the "Fair Value of Warrants Issued" in the Company's 2005 Debenture offering.

Net Loss. Net Loss to Common Stockholders in 2006 was (\$7,879,445) in contrast to a Net Loss of (\$9,163,453) in 2005. This was caused largely by the inclusion of the "Fair Value of Warrants Issued" in 2005.

Loss per Share. Loss per share was (\$0.39) in 2006 compared to loss per share of (\$0.52) in 2005. This was caused largely by the inclusion of the "Fair Value of Warrants Issued" in 2005, which accounts for \$6,891,486. Operating loss from continuing operations in 2006 were (\$0.12) per share compared to a loss of (\$0.54) per share in 2005.

Future Trends:

On the Education Services side, we have operated for the past three years and competition is very fierce in the market. The Canadian government has tightened its budget on English training for new immigrants, which lead to the termination of government funding for Windsor, and this change had negative effects on the revenue of Windsor Education Academy. The Government-supported ELSA courses held at Windsor Education Academy ended by March 31, 2005.

Off-Balance Sheet Arrangements

None.

Recent Accounting Pronouncements:

Principles of Consolidation. The accompanying consolidated financial statements include the accounts of the Company and its wholly owned and majority-owned subsidiaries as outlined in Note 2 to the Company's Consolidated Financial Statements. All significant inter-company transactions and balances have been eliminated on consolidation.

On October 2002, the FASB issued SFAS No. 147 - "Acquisitions of Certain Financial Institutions, an amendment of FASB Statements No. 72 and 144 and FASB Interpretation No. 9", which applies to the acquisition of all or part of a financial institution, except for a transaction between two or more mutual enterprises. SFAS No. 147 removes the requirement in SFAS No. 72 and Interpretation 9 thereto, to recognize and amortize any excess of the fair value of liabilities assumed over the fair value of tangible and identifiable intangible assets acquired as an unidentifiable intangible asset. This statement requires that those transactions be accounted for in accordance with SFAS No. 141, "Business Combinations," and SFAS No. 142, "Goodwill and Other Intangible Assets." In addition, this statement amends SFAS No. 144, "Accounting for the Impairment or Disposal of Long-Lived Assets," to include certain financial institution-related intangible assets. This statement is effective for acquisitions for which the date of acquisition is on or after October 1, 2002, and is not applicable to the Company.

In December 2002, the FASB issued SFAS No. 148, "Accounting for Stock-Based Compensation - Transition and Disclosure, amending FASB No. 123, and "Accounting for Stock-Based Compensation". This statement amends Statement No. 123 to provide alternative methods of transition for an entity that voluntarily changes to the fair value-based method of accounting for stock-based employee compensation. SFAS No. 148 amends APB Opinion No. 28 "Interim Financial Reporting" to require disclosure about those effects in interim financial information. The Company will adopt the disclosure provisions and the amendment to APB No. 28 to be effective for interim periods beginning after December 15, 2002.

In November 2002, the Emerging Issues Task Force ("EITF") reached a consensus on Issue No. 00-21 "Revenue Arrangements with Multiple Deliverables". EITF No. 00-21 provides guidance on how to account for arrangements that involve the delivery or performance of multiple products, services and rights to use assets. The provisions of EITF No. 00-21 will apply to revenue arrangements entered into in the fiscal periods beginning after June 15, 2003. The Company is currently evaluating the impact EITF No. 00-21 will have on its financial position and results of operations.

In January 2003, the FASB issued FASB Interpretation No. 46, "Consolidation of Variable Interest Entities, an Interpretation of ARB No. 51". FIN46 requires certain variable interest entities to be consolidated by the primary beneficiary of the entity if the equity investors in the entity do not have the characteristics of a controlling financial interest or do not have sufficient equity at risk for the entity to finance its activities without additional subordinated financial support from other parties. FIN46 is effective for all new interest entities created or acquired after January 31, 2003. For variable interest entities created or acquired prior to February 1, 2003, the provisions of FIN46 must be applied for the first interim or annual period beginning after June 15, 2003. Adequate disclosure has been made for all off balance sheet arrangements that it is reasonably possible to consolidate under FIN46.

The American Institute of Certified Public Accountants has issued an exposure draft SOP "Accounting for Certain Costs and Activities Related to Property, Plant and Equipment ("PP&E")". This proposed SOP applies to all non-government entities that acquire, construct or replace tangible property, plant and equipment including lessors and lessees. A significant element of the SOP requires that entities use component accounting retroactively for all PP&E assets to the extent future component replacement will be capitalized. At adoption, entities would have the option to apply component accounting retroactively for all PP&E assets, to the extent applicable, or to apply component accounting as an entity incurs capitalizable costs that replace all or a portion of PP&E. The Company cannot evaluate the ultimate impact of this exposure draft until it becomes final.

Risk Factors

This report and other reports filed by us contained certain forward-looking statements within the meaning of the Private Securities Litigation Reform act of 1995. Actual results could differ materially from those projected in the forward-looking statements as a result of certain uncertainties set forth below and elsewhere in this report, as well as additional risks and uncertainties of which we are currently unaware. See Item 6. "Management's Discussion and

Analysis or Plan of Operation - Forward-Looking Statements”.

Risks Relating to Our Operations

We are currently without significant operations.

As described under “Liquidity and Capital Resources” section, the Company's application to the banking authorities in China was approved to repay the Debentures through the Liquidation of its Quicknet operating subsidiary. Upon the completion of the Liquidation of the PRC Subsidiaries and the repayment of outstanding Debentures, the Company does not know whether the PRC subsidiaries will continue to operate as subsidiaries of the Company in new entities, although it is not currently expected they will. In view of the foregoing, as a result of the Liquidation, the Company's sole operations are those of Windsor Education Academy Inc., a British Columbia based school specializing in English as a Second Language courses for

foreign students. This business had total revenues of \$93,000 for 2006. Such an occurrence would leave the Company without its principal operating subsidiary which would substantially impair our viability.

Need for additional financing.

We need additional funds to fully implement our business plan, in addition to the proceeds obtained from the August 2005 Offering. Management can give no assurance the funds so obtained will be sufficient to fully implement the business plan, or that a full implementation of such business plan will result in the Company's profitability. If additional funds are raised through the issuance of equity or debt securities, such additional securities may have powers, designations, preferences or rights senior to our currently outstanding securities and, in the case of additional equity securities, the ownership of our existing shareholders will be diluted. No assurances can be given that we will be able to raise any additional financing. Any inability to obtain required financing on sufficiently favorable terms could have a material adverse effect on our business, results of operations and financial condition.

We had prior operating losses and are implementing a new business plan.

The Company had operating losses in 2004, 2005 and 2006 and used the proceeds of the Debenture Offering to implement the Company's Business Plan. As a result of the Liquidation, we are seeking funding to complete the pending Topbiz Acquisition or enter into negotiations to acquire another operating company. Therefore, we might spend substantial resources on an acquisition without generating any profit.

The Company's proposed operations are subject to all of the risks inherent in the expansion of an early-stage business enterprise, including higher-than-expected expenses and uncertain revenues. The likelihood of the success of the Company must be considered in light of the problems, expenses, difficulties, complications and delays frequently encountered in connection with the expansion of an early-stage business.

We have a limited operating history and consequently face significant risks and uncertainties.

We initiated our current business strategy in 2003. As a result of our limited operating history, the ongoing Liquidation and our reporting responsibilities as a public company, we may need to expand operational, financial and administrative systems and control procedures to enable us to further train and manage our employees and coordinate the efforts of our accounting, finance, marketing, and operations departments.

We lack business diversification.

As a result of the Liquidation and the limited nature of our education and training business, the Company's prospects for success are dependent upon any future acquisitions. We expect to finance our future operations through the sale of assets or the sale of equity or debt securities in order to raise additional capital, none of which may be feasible when needed. Unless we are able to raise substantial amounts of additional capital, we will not have the resources to diversify our operations or benefit from the possible spreading of risks or offsetting of losses. In view of our default in repayment of the Debentures and the Liquidation of our principal operating subsidiary, we may be unable to get additional funds when needed.

Lack of resources to expand Canadian operations.

The Company purchased its Canadian subsidiary in 1997 and has had limited growth, to date. Without additional financing, we would be unable to continue the business goal of maintaining and expanding our business in Canada. The Company could not renew its contract because the Canadian government has tightened its budget on English training for new immigrants. This led to reduced government funding for Windsor Education Academy and this will have negative effects on the revenue of Windsor Education Academy. There is no assurance that Windsor Education Academy will receive government funding in the coming years. The Company will continue to look for further companies in the Canadian market area with the goal of introducing foreign accredited programs into the China market.

Risks Related to Conducting Business in China

In the event we continue to do business in China, through the proposed acquisition of Topbiz, the continued operations of Quicknet, or otherwise, we will be subject to the following risks:

China's governmental and regulatory reforms may impact our ability to do business in China.

Since 1978, the Chinese government has been in a state of evolution and reform. The reforms have resulted in and are expected to continue to result in significant economic and social development in China. Many of the reforms are unprecedented or experimental and may be subject to change or readjustment due to a variety of political, economic and social factors. Multiple government bodies are involved in regulating and administering affairs in the telecommunications industry, among which the MII, the National Development and Reform Commission ("NDRC") and the State Asset Supervisory Administrative Commission ("SASAC") play the leading roles. These government agencies have broad discretion and authority over all aspects of the telecommunications and information technology industry in China, including but not limited to, setting the telecommunications tariff structure, granting carrier licenses and frequencies, approving equipment and products, granting product licenses, specifying technological standards as well as appointing carrier executives, all of which may impact our ability to do business in China.

While we anticipate that the basic principles underlying the reforms should remain unchanged, any of the following changes in China's political and economic conditions and governmental policies could have a substantial impact on our business:

- the promulgation of new laws and regulations and the interpretation of those laws and regulations;
- inconsistent enforcement and application of the telecommunications industry's rules and regulations by the Chinese government between foreign and domestic companies;
- the restructuring of telecommunications carriers in China;
- the introduction of measures to control inflation or stimulate growth;

· the introduction of new guidelines for tariffs and service rates, which affect our ability to competitively price our products and services;

· changes in the rate or method of taxation;

· the imposition of additional restrictions on currency conversion and remittances abroad; or

· any actions that limit our ability to develop, manufacture, import or sell our products in China, or to finance and operate our business in China.

For example, on November 1, 2004, as a continuation of the restructuring of telecom carriers relating to the initial public offering of China Netcom in 2004, SASAC decided to swap the senior executives of China Mobile, China Unicom, China Telecom and China Netcom in an effort to ease competition among carriers. We are not certain whether there may be additional government interference, including government imposed mergers or spin-offs of the existing carriers.

In addition to modifying the existing telecommunications regulatory framework, the Chinese government is currently preparing a draft of a standard, national telecommunications law (the “Telecommunications Law”) to provide a uniform regulatory framework for the telecommunications industry. We do not yet know the final nature or scope of the regulations that would be created if the Telecommunications Law is passed. Accordingly, we cannot predict whether it will have a positive or negative effect on us or on some or all aspects of our business.

Under China’s current regulatory structure, the communications services that we offer in China must meet government and industry standards. In addition, a value added service provider license must be obtained. Without a license, we cannot provide the current mobile solution services in China. Moreover, we must ensure that the quality and content of the services will comply with related rules and regulations. Although we already have this license, it requires an annual renewal from the related government.

MII and/or other related authorizations might perform spot checks to track and supervise the quality and content of our services. Any determination that our services fail to comply with applicable rules and regulations could result in a revocation of our license, which would have a material adverse effect on our business.

China’s changing economic environment may impact our ability to do business in China.

Since 1978, the Chinese government has been reforming the economic system in China to increase the emphasis placed on decentralization and the utilization of market forces in the development of China’s economy. These reforms have resulted in significant economic growth. However, any economic reform policies or measures in China may from time to time be modified or revised by the Chinese government. While we may be able to benefit from the effects of some of these policies, these policies and other measures taken by the Chinese government to regulate the economy could also have a significant negative impact on economic conditions in China, which would result in a negative impact on our business.

China’s economic environment has been changing as a result of China’s entry, in December of 2001, into the World Trade Organization (the “WTO”). Entry into the WTO required that China reduce tariffs and eliminate non-tariff barriers, including quotas, licenses and other restrictions by early 2005, and we cannot predict the impact of these changes on China’s economy. Moreover, although China’s entry into the WTO and the related relaxation of trade restrictions may lead to increased foreign investment, it may also lead to increased competition in China’s markets from other foreign companies. If China’s entry into the WTO results in increased competition or has a negative impact on China’s economy, our business could suffer. In addition, although China is increasingly according foreign companies and foreign investment enterprises established in China the same rights and privileges as Chinese domestic

companies as a result of its admission into the WTO, special laws, administrative rules and regulations governing foreign companies and foreign investment enterprises in China may still place foreign companies at a disadvantage in relation to Chinese domestic companies and may adversely affect our competitive position.

Uncertainties with respect to the Chinese legal system may adversely affect us.

We conduct our business in China primarily through our subsidiary incorporated in China. Our subsidiary is generally subject to laws and regulations applicable to foreign investment in China. Accordingly, our business will be affected by China's developing legal system. Since 1978, many new laws and regulations covering general economic matters have been promulgated in China, and government policies and internal rules promulgated by governmental agencies may not be published in time, or at all. As a result, we may operate our business in violation of new rules and policies without having any knowledge of their existence. In addition, there are uncertainties regarding the interpretation and enforcement of laws, rules and policies in China. The Chinese legal system is based on written statutes, and prior court decisions have limited precedential value. Because many laws and regulations are relatively new and the Chinese legal system is still evolving, the interpretations of many laws, regulations and rules are not always uniform. Moreover, the relative inexperience of China's judiciary in many cases creates additional uncertainty as to the outcome of any litigation, and the interpretation of statutes and regulations may be subject to government policies reflecting domestic political changes. Finally, enforcement of existing laws or contracts based on existing law may be uncertain and sporadic, and it may be difficult to obtain swift and equitable enforcement, or to obtain enforcement of a judgment by a court of another jurisdiction. Any litigation in China may be protracted and result in substantial costs and diversion of resources and management's attention.

We are subject to risks relating to currency rate fluctuations and exchange controls.

Because most of our sales are made in China and denominated in Renminbi, and as the Renminbi is no longer fixed against the US Dollar and the Renminbi-US Dollar exchange rate could float, resulting in depreciation or appreciation relative to the U.S. dollar, any such currency rate fluctuations could adversely affect our sales and subject as to volatility in our financial reporting.

Restrictions on currency exchange may limit our ability to receive and use our revenues effectively.

Because substantially all of our revenues are denominated in RMB, the Chinese currency, any restrictions on currency exchange may limit our ability to use revenues generated in RMB to fund any business activities we may have outside China or to make dividend payments in U.S. dollars. The principal regulation governing foreign currency exchange in China is the Foreign Currency Administration Rules (1996), as amended. Under these rules, RMB are freely convertible for trade and service-related foreign exchange transactions, but not for direct investment, loan or investment in securities outside China unless the prior approval of the State Administration of Foreign Exchange is obtained. Although China's government regulations now allow greater convertibility of RMB for current account transactions, significant restrictions still remain. For example, foreign exchange transactions, including principal payments in respect of foreign currency-denominated obligations, remain subject to significant foreign exchange controls and the approval of the State Administration of Foreign Exchange. These limitations could affect our ability to obtain foreign exchange for capital expenditures. We cannot be certain that China's regulatory authorities will not impose more stringent restrictions on the convertibility of RMB, especially with respect to foreign exchange transactions.

Our business benefits from certain tax incentives, and changes to these tax incentives could adversely affect our operating results.

The Chinese government has provided various tax incentives to domestic high technology companies, including our Chinese subsidiaries, in order to encourage the development of technology companies. There have been various tax reform proposals in China, and if any of these incentives are reduced or eliminated by government authorities in the

future, the effective tax rates of our subsidiaries in China and our effective tax rates on a consolidated basis could increase significantly. Any such change could adversely affect our operating results.

Recent Chinese regulations relating to acquisitions of Chinese companies by foreign entities may limit our ability to acquire such companies and adversely affect our business and prospects.

China's State Administration of Foreign Exchange, or SAFE, issued a public notice in January 2005 concerning foreign exchange regulations on mergers and acquisitions in China. The public notice states that if an offshore company controlled by Chinese residents intends to acquire a Chinese company, such acquisition will be subject to strict examination by the relevant foreign exchange authorities. The public notice also states that the approval of the relevant foreign exchange authorities is required for any sale or transfer by the Chinese residents of a Chinese company's assets or equity interests to foreign entities, such as us, for equity interests or assets of the foreign entities.

In April 2005, SAFE issued another public notice further explaining the January notice. In accordance with the April notice, if an acquisition of a Chinese company by an offshore company controlled by Chinese residents has been confirmed by a Foreign Investment Enterprise Certificate prior to the promulgation of the January notice, the Chinese residents must each submit a registration form to the local SAFE branch with respect to their respective ownership interests in the offshore company, and must also file an amendment to such registration if the offshore company experiences material events, such as changes in the share capital, share transfer, mergers and acquisitions, spin-off transaction or use of assets in China to guarantee offshore obligations. The April notice also provides that failure to comply with the registration procedures set forth therein may result in a restriction on the Chinese company's ability to distribute profits to its offshore parent company. Pending the promulgation of detailed implementation rules, the relevant government authorities are reluctant to commence processing any registration or application for approval required under the SAFE notices. We have requested our relevant shareholders to complete the SAFE registration procedures as soon as practicable.

As it is uncertain how the SAFE notices will be interpreted or implemented, we cannot predict how they will affect our business operations or future strategy. For example, we may be subject to more stringent review and approval process with respect to our foreign exchange activities, such as remittance of dividends and foreign-currency-denominated borrowings, which may adversely affect our results of operation and financial condition. In addition, if we decide to acquire a Chinese company, we cannot assure you that we or the owners of such company, as the case may be, will be able to complete the necessary approval, filings and registrations for the acquisition. This may restrict our ability to implement our acquisition strategy and adversely affect our business and prospects.

Securities Risks

Authorized share capital as an anti-takeover device.

At the Company's last shareholders meeting, Management obtained approval to increase the number of authorized shares of Common Stock from 50 million to 500 million shares. The reason for that change was that Management did not believe it had sufficient shares for future growth, including potential acquisitions. However, the Board of Directors will still have the authority to issue such authorized but previously unissued shares without further shareholder approval. This may have the effect of delaying or preventing a change of control without further action by shareholders. As the increase in the Company's authorized capital will enable the Company to issue a significant number of additional shares of Common Stock, the interests of the public shareholders are subject to a significant level of dilution in the future. As a result, the reduction in the debenture Conversion Price to \$0.05 per share, and the issuance of a substantial number of shares upon conversion by such debenture holders the number of shares of Common Stock increased from approximately 20 million at December 31, 2006 to 61 million as of May 16, 2007, resulting in significant dilution to existing common shareholders.

Restrictions on transferability will prevent investors in the Offering from selling securities.

The Offering of the Units was made pursuant to Sections 4(2) and 4(6) of the Securities Act and Rule 506 of Regulation D promulgated under the Securities Act, solely to Accredited Investors and Qualified Institutional Buyers. The initial Registration Statement on Form SB-2 was declared effective on August 7, 2006. However, we may be prohibited by SEC rules from registering all of the additional Shares of Common Stock issuable as a result of the Conversion/Settlement Agreements on the registration statement filed with the SEC on February 12, 2007. Such registration statement, which may only cover portions of those additional shares of Common Stock issuable as a result of the Conversion/Settlement Agreements, as well as any other registration statements in the future registering those remaining portions of additional shares of Common Stock issuable as a result of the same, have not yet been declared effective. No registration statement will be declared effective by the SEC as long as the Company's auditors disclaim an opinion on the Company's financial statements as currently exists in this report. Until such time as all of the shares can be registered, such underlying securities cannot be sold, transferred, pledged, assigned, hypothecated or otherwise disposed of without registration under the Securities Act and such state laws, unless in the opinion of counsel satisfactory to the Company, any such sale, transfer, assignment, pledge or hypothecation will not violate the registration requirements under the Securities Act or state securities laws. As a result, an investor must bear the economic risk of an investment in the Company for an indefinite period of time.

The holders of Debentures and Warrants may have rescission rights.

The Company entered into the Settlement Agreement on May 4, 2006. The Settlement Agreement provided for an increase in the number of shares of Common Stock issuable upon conversion of the Debentures and exercise of the Warrants. Thus, there are now more shares issuable than were contemplated during the original offer. The Company believed that the offer (there was no issuance) of such additional shares was exempt from registration under the Securities Act and under applicable state securities laws pursuant to

Section 4(2) of the Securities Act and Rule 506 of Regulation D promulgated thereunder. The offer was made some 9 or 10 months after the original sale to the same investors. The Company did not offer securities to any new investors, nor was it receiving proceeds from the issuance of additional shares. The offer was not made voluntarily, but solely in response to threatened litigation. In addition, after the initial filing of the initial Registration Statement, and on or about November 3, 2005, the Company issued warrants to purchase 200,000 shares of Common Stock to Crystal Research Associates LLC for services rendered. The Company believed that the issuance of the Warrants was exempt from registration under Section 4(2) of the Securities Act and was not offering the underlying Common Stock to any new investors.

All of the above described additional shares of Common Stock issuable by the Company have been removed from the initial Registration Statement. Notwithstanding the foregoing, questions have been raised by the SEC as to the availability of the claimed exemptions. In the event the Company is found to have offered such shares in transactions for which exemption from registration was not available, such shares may have been offered in violation of the registration provisions of Section 5 of the Securities Act. The owner of the securities found to be offered in violation of the Securities Act shall be tendered and the purchase shall be rescinded, with the purchaser entitled to recover the consideration he paid for the securities, plus interest from the date of the payment of consideration to the date of the judgment, plus costs and reasonable attorneys fees. The purchaser must return those securities and any income received on the securities while he had them. In the event such purchaser already sold the securities that are the subject of the violation, his remedy changes to a suit for damages, which are calculated depending on the state of purchasers residence, as (consideration paid plus interest, plus costs, plus attorneys' fees minus income received on the securities) minus (the value of the securities when sold plus interest thereon). Remedies vary depending on the state of the investors' residence. Securities regulators could also impose fines and sanctions on the Company, making it difficult for the Company to conduct future offerings. Officers and directors could, likewise, be subject to fines and

sanctions, including being held liable for any rescission offer, if such person knew or reasonably should have known of the facts that gave rise to the liability. It is also possible that a company could be subject to liability under the federal laws and the laws of each state in which securities were sold. If any of the aforementioned occurred, it would likely have a material adverse impact on the Company's business or operations. We have not yet requested our independent auditor to provide for loss contingencies associated with possible securities law violations.

Subsequently, the Company entered into the Conversion/Settlement Agreement on February 12, 2007, further increasing the number of shares of Common Stock issuable upon conversion of the Debentures and exercise of the Warrants, however the SEC has not raised any questions with respect to rescission rights of shares relating thereto to be registered in the registration statement filed with the SEC on February 12, 2007.

Since the Company entered into the Settlement Agreement and the Conversion/Settlement Agreement, it has not been threatened by any of its investors or shareholders with respect to rescission rights, however, notwithstanding the fact that shares of common stock have been removed from the initial Registration Statement which was declared effective by the SEC on August 7, 2006, the SEC is not foreclosed from taking any enforcement action with respect to the filing and the Company may not assert the declaration of effectiveness as a defense in any proceeding initiated by the SEC.

The conversion of debentures and exercise of the warrants from the August 2005 Offering may have a dilutive effect on the price of our Common Stock.

The purchasers in the August 2005 Offering have the right to convert their Debentures into an aggregate of approximately 67 million shares of Common Stock (which does not include Common Stock issuable in repayment of interest and liquidated damages) if all Debenture holders convert pursuant to the Conversion/Settlement Agreements, dated February 2007 and exercise their Warrants for an aggregate of approximately 22,333,332 shares of Common Stock. The conversion or exercise of these securities will cause dilution to our shareholders and the sale of the underlying Common Stock (or even the potential of such exercise or sale) may have a depressive effect on the market price of our securities. Further, to the extent that outstanding stock options and warrants are exercised, dilution to our shareholders will occur. Moreover, the terms upon which we will be able to obtain additional equity capital may be adversely affected, since the holders of the outstanding options and warrants can be expected to exercise them at a time when we would, in all likelihood, be able to obtain any needed capital on terms more favourable to us than the exercise terms provided by the outstanding options and warrants.

If we do not keep a registration statement current, your ability to sell the Debenture Shares and Warrant Shares will be limited.

We must keep a registration statement effective with the SEC in order for stockholders to receive registered stock upon the conversion of Debentures and the exercise of Warrants, as well as to freely sell the shares of common stock underlying the Debentures and Warrants. No registration statement will be declared effective by the SEC as long as the Company's auditors disclaim an opinion on the Company's financial statements as currently exists in this report. We may not be able to maintain a registration statement in effect throughout the period during which the Debentures remain convertible and the Warrants remain exercisable. Provided a registration statement is kept effective, following any sale made by stockholders of their shares underlying the Debentures and Warrants, prospective purchasers shall receive registered common stock. Maintaining an effective registration statement requires substantial continuing expenses for legal and accounting fees and we cannot guarantee our ability to keep the registration statement effective.

Difficulty of trading and obtaining quotations for Common Stock.

Our Common Stock is currently quoted on the Over-the-Counter Bulletin Board ("OTCBB") under the symbol "CHMSE.OB" and was previously traded under the symbol "CHMS.OB." However, unless our auditors are able to express an opinion on all financial statements, we do not expect to be able to continue to list on the OTCBB. Our

Common Stock is not actively traded, and the bid and asked prices for our Common Stock have fluctuated significantly. As a result, an investor may find it difficult to dispose of, or to obtain accurate quotations of the price of, our securities. This severely limits the liquidity of the Common Stock, and would likely have a material adverse effect on the market price of the Common Stock and on our ability to raise additional capital.

Penny Stock Regulation.

Our Common Stock is subject to Rule 15g-9 under the Exchange Act. This rule imposes additional sales practice requirements on broker-dealers that sell such securities to persons other than established customers and “accredited investors.” For transactions covered by Rule 15g-9, a broker-dealer must make a special suitability determination for the purchaser and have received the purchaser's written consent to the transaction prior to sale. Consequently, the rule could affect the ability of broker-dealers to sell our securities and could affect the ability of purchasers to sell any of our securities in the secondary market.

Risk Factors Affecting the Company's Business Operations.

The Company could be subject to fines, and possible exclusion from participation in providing mobile solutions to corporations in China if it continues operations in the PRC and fails to comply with the laws and regulations applicable to its business or if those laws and regulations change.

The Company is subject to regulations such as compliance and record-keeping requirements under the Ministry of Information Industry (MII) in China. Through its subsidiary the Company has a value added service provider license from MII. If the Company is deemed to have violated these laws and regulations, the Company could be subject to fines and/or exclusion from participation in providing mobile solution services. Changes in the telecommunications law, new interpretations of existing laws and regulations may have a dramatic effect on the Company's business and results of operations.

Continued pressure could reduce the Company's margins and limit the Company's ability to maintain or increase its market share.

Certain competitors of the Company may have or may obtain significantly greater financial and marketing resources than the Company. As a result, the Company could encounter increased competition in the future that may increase pricing pressure and limit its ability to maintain or increase its market share. There is a great deal of competition in the Company's business, especially to develop alliances with the two major mobile carriers, China Unicom and China Mobile. Mobile marketing is quickly growing in popularity. In Asia, eMarketer reports that 39% of mobile phone users have received SMS messages from advertisers and this figure points to a strong and growing trend among advertisers to embrace mobile marketing. Major competitors who currently are focusing on individual markets may spend more resources in the business section in the future. Since they have more financial support and broader influence in this market, the Company might be forced to decrease price, give out more discounts and increase its costs to keep key employees. This would decrease the Company's profit margin.

If we lost the services of Xiao-qing Du, the Company's CEO, or Ernest Cheung, the Company's Secretary, we might not be able to execute our current business in accordance with our current plans.

Our future success depends significantly on the skills, experience and efforts of its chief executive officer, Xiao-qing Du, and its Secretary and Director, Ernest Cheung, and other key personnel. These individuals would be difficult to replace. Ms. Du and Mr. Cheung have developed, and are engaged in carrying out, the Company's strategic business plan, a copy of which is attached as an exhibit to a Form 8-K filed with the Commission on June 30, 2005. The loss of the services of Ms. Du or Mr. Cheung could seriously harm the Company's ability to implement its strategy. A failure to implement the Company's business strategy could result in the cessation of the Company's operations which would have a material adverse effect on our Company and on your investment. Ms. Du and Mr. Cheung have employment

contracts that are renewable every year. Under British Columbia law, the Company will be responsible for severance pay for early termination based on the number of years of employment with the Company. There is no key person life insurance.

If the Company is unable to adequately protect or enforce its rights to its intellectual property, we may lose valuable rights, experience reduced market share, if any, or incur costly litigation to protect such rights.

The Company generally requires its employees, consultants, advisors and collaborators to execute appropriate confidentiality agreements with it. These agreements typically provide that all materials and confidential information developed or made known to the individual during the course of the individual's relationship with the Company is to be kept confidential and not disclosed to third parties except in specific circumstances. These agreements may be breached, and in some instances, the Company may not have an appropriate remedy available for breach of the agreements. Furthermore, the Company's competitors may independently develop substantial equivalent proprietary information and techniques, reverse engineer information and techniques, or otherwise gain access to the Company's proprietary technology. In addition, the laws of some foreign countries may not protect proprietary rights to the same extent as U.S. law. the Company may be unable to meaningfully protect its rights in trade secrets, technical know-how and other non-patented technology.

The Company does not have any patents. If the Company employees develop technology while employed by the Company, the Company has the title and full right of this technology. Employees cannot disclose such technology to a third party. However, this technology is usually not patentable because other competitors may develop it as well. The first company to develop such technology has a better chance to gain market share.

The Company may have to resort to litigation to protect its rights for certain intellectual property, or to determine their scope, validity or enforceability. Enforcing or defending the Company's rights is expensive and may distract management from its development of the business if not properly managed. Such efforts may not prove successful. There is always a risk that patents, if issued, may be subsequently invalidated, either in whole or in part, and this could diminish or extinguish protection for any technology the Company may license. Any failure to enforce or protect the Company's rights could cause it to lose the ability to exclude others from using its technology to develop or sell competing products.

The Company may be sued by third parties who claim that the Company's product infringes on their intellectual property rights. Defending an infringement lawsuit is costly and the Company may not have adequate resources to defend. Any settlement or judgment against us could harm our future prospects.

The Company may be exposed to future litigation by third parties based on claims that its technology, product or activity infringes on the intellectual property rights of others or that the Company has misappropriated the trade secrets of others. This risk is compounded by the fact that the validity and breadth of claims covered in technology patents in general and the breadth and scope of trade secret protection involves complex legal and factual questions for which important legal principles are unresolved. Any litigation or claims against the Company, whether or not valid, could result in substantial costs, could place a significant strain on the Company's financial and managerial resources, and could harm the Company's reputation. In addition, intellectual property litigation or claims could force the Company to do one or more of the following:

- Cease selling, incorporating or using any of the Company's technology and/or product that incorporates the challenged intellectual property, which could adversely affect the Company's revenue;
- Obtain a license from the holder of the infringed intellectual property right, which may be costly or may not be available on reasonable terms, if at all; or
- Redesign the Company's product, which would be costly and time consuming.

ITEM 7. FINANCIAL STATEMENTS

The financial statements are included in this report following Item 14. Please see pages F-1 through F-18.

ITEM 8. CHANGES IN AND DISAGREEMENTS WITH ACCOUNTANTS ON ACCOUNTING AND FINANCIAL DISCLOSURE

On August 21, 2006, we engaged Michael T. Studer, C.P.A., P.C., an independent registered firm of Certified Public Accountants, as our principal independent accountant with the approval of our company's board of directors. Moen and Company LLP ("Moen") resigned on July 21, 2006 as our independent registered public accounting firm. Moen advised us they ceased doing business on July 21, 2006. Moen was the Company's independent auditor and examined the financial statements of the Company for the fiscal years ended December 31, 2004 and 2005.

The reports of Moen on the consolidated financial statements of the Company as of and for the years ended December 31, 2004 and 2005 did not contain an adverse opinion or disclaimer of opinion, nor were they qualified or modified as to uncertainty, audit scope, or accounting principles.

During the years ended December 31, 2004 and 2005 through the date of resignation there were no disagreements with Moen on any matter of accounting principles or practices, financial statement disclosure, or auditing scope or procedure, which disagreements, if not resolved to the satisfaction of Moen, would have caused Moen to make reference to the subject matter of the disagreement in its reports on the Company's consolidated financial statements for such periods.

During China Mobility's most recent fiscal year ended December 31, 2005 and the subsequent interim period from January 1, 2006 - August 21, 2006, China Mobility did not consult with Michael T. Studer, C.P.A., P.C. with respect to the application of accounting principles to a specified transaction, either completed or proposed, or the type of audit opinion that might be rendered on China Mobility's financial statements, or any other matters or reportable events as set forth in Items 304(a)(2)(i) and (ii) of Regulation S-K.

The Company has requested that Moen furnish it with a letter addressed to the Securities and Exchange Commission stating whether or not it agrees with the above statements. A copy of such letter is referenced herein as Exhibit 16.1

ITEM 8A. CONTROLS AND PROCEDURES

As of the end of the period covered by this Annual Report on Form 10-KSB, we evaluated the effectiveness of the design and operation of our disclosure controls and procedures ("Disclosure Controls") as defined in Rules 13a-15(e) or 15d-15(e) under the Securities Exchange Act of 1934, as amended (the "Exchange Act"). This evaluation ("Evaluation") was performed by our Chief Executive Officer and Principal Accounting Officer, Angela Du, ("CEO") and Ernest Cheung, our Principal Financial Officer ("CFO"). In this section, we present the conclusions of our CEO and CFO based on and as of the date of the Evaluation, with respect to the effectiveness of our Disclosure Controls and Procedures.

Based upon the Evaluation, our CEO and CFO determined that our disclosure controls and procedures are effective to ensure same that information required to be disclosed by the issuer in the reports that it files or submits under the Exchange Act is recorded, processed, summarized and reported, within time periods specified in the Commission's rules and forms. Our CEO and CFO have concluded that our disclosure controls and procedures are effective to ensure

that information required to be disclosed by an issuer in the reports it files or submits under the Exchange Act is accumulated and communicated to the issuer's management including the CEO and CFO, to allow timely decisions regarding required disclosure.

As a non-accelerated issuer, the Company is not required to provide management's assessment and report on the Company's internal control over financial reporting. However, in our Form 10-QSB for the period ended March 31, 2005, we determined that there were material weaknesses in our internal controls in our operations in China, that needed to be addressed by management.

The changes which we were in the process of implementing during the fourth quarter to our internal controls over financial reporting could materially affect or are reasonably likely to materially affect those controls. These changes were completed during the fourth quarter. Management does not believe such material weakness in our internal controls did, in fact, affect our disclosure controls and procedures.

The Company has implemented document control procedures for its subsidiary QuickNet in its manual. These include:

- A. Expenditure controls/approvals and documentation by Board Committee for the subsidiary in China, Beijing QuickNet; and
- B. Subscription accounting and tracking for its subsidiary in China, Beijing QuickNet.

The Company has completed the implementation of such changes to our internal controls and procedures based on the model framework created by the Committee of Sponsoring Organizations of the Treadway Commission (or "COSO").

There were changes in the Company's document control procedures as stated above for its subsidiary Quick Net that were completed during the Company's fourth fiscal quarter. However, no other changes in the Company's internal controls over financial reporting identified in connection with the Evaluation occurred during the Company's fourth fiscal quarter that has materially affected, or is reasonably likely to materially affect the Company's internal controls over our financial reports.

ITEM 8B. OTHER INFORMATION

None.

PART III

ITEM 9. DIRECTORS, EXECUTIVE OFFICERS, PROMOTERS, AND CONTROL PERSONS; COMPLIANCE WITH SECTION 16(a) OF THE EXCHANGE ACT

(a) The following table furnishes the information concerning Company directors and officers as of the date of this report. The directors of the Registrant are elected every year and serve until their successors are elected and qualify.

Name	Age	Title	Term
	37		Annual

Xiao-qing Du		President and Director	
Ernest Cheung	57	Director and Secretary	Annual
Bryan Ellis	37	Director	Annual
John Gaetz	57	Director	Annual

The following table sets forth the portion of their time the directors devote to the Company:

Ernest Cheung	20%
Angela Du	100%
Bryan Ellis	10%
John Gaetz	20%

The term of office for each director is one (1) year, or until his/her successor is elected at the Company annual meeting and is qualified. The term of office for each of the officers is at the discretion of the Board of Directors.

(b) Identification of Certain Significant Employees.

Strategic matters and critical decisions are handled by Company directors and executive officers: Xiao-qing Du and Ernest Cheung. Day-to-day management is delegated to Xiao-qing Du, partly in China and partly in Canada, and Xin Wei in China. Wei is an employee of the wholly owned subsidiary, Infonet Investment Corp. Xin Wei occupies the position of President of the Chinese subsidiary for strategy, planning and business development.

(c) Family Relationships. Xiao-qing Du and Xin Wei are husband and wife.

(d) Business Experience.

The following is a brief account of the business experience during the past five years of each of the Company's directors and executive officers, including principal occupations and employment during that period and the name and principal business of any corporation or other organization in which such occupation and employment were carried on.

Xiao-Qing Du, President and Director, age 37.

Ms. Du has been President and Director of our Company since 2003. She received a Bachelor of Science in International Finance in 1992 from East China Normal University. She received a Master of Science in Finance and Management Science in 1996 from the University of Saskatchewan, Canada. She was Business Manager of China Machinery & Equipment I/E Corp. (CMEC) from 1992 to 1994. Since 1997, she has been President of Infonet Investment Corp., the Company's wholly owned subsidiary in Canada. She was President of China Mobility from 1997 to 1999. She ran the operations in China of the domain name service **and** web-hosting business.

Ernest Cheung, Secretary and Director, age 57.

Mr Cheung has been Secretary of the Company since May 1998. He received a B.A. in Math in 1973 from University of Waterloo, Ontario. He received an MBA in Finance and Marketing from Queen's University, Ontario in 1975. From 1991 to 1993 he was Vice President of Midland Walwyn Capital, Inc. of Toronto, Canada, now known as Merrill Lynch Canada. From 1992 until 1995 he served as Vice President and Director of Tele Pacific International Communications Corp. He has also served as President for Richco Investors, Inc. since 1995. He has been a director of the Company since 1996. He is currently a Director of Agro International Holdings, Inc., since 1997, Spur Ventures, Inc., since 1997, Richco Investors, Inc., since 1995 and Drucker Industries, Inc., since 1997. In 2000, he became President and a Director of China NetTV Holdings, Inc. In 2002, he became a Director of The Link Group, Inc. (formerly World Envirotech, Inc.).

Mr. Cheung is, or has been, an officer or director in the following public companies:

Name of Issuer	Symbol	Market	Position	From	To	Business
Agro International Holdings Inc.	AOH	CDNX	President	Jan-97	Current	Agriculture
China NetTV Holdings Inc.*	CTVH	OTCBB	President	May-00	2003	Set-Top Box Technology
Drucker, Inc.*	DKIN	OTCBB	Secretary	Apr-97	2003	Oil & Gas
ITI World Investment Group Inc.	IWI.A	CDNX		Jun-98	Current	Beverage Distribution
NetNation Communications Inc.	NNCI	Nasdaq Small Cap.		Apr-99	Current	Domain Name Registration Financial, Management, Capital Market Services
Richco Investors Inc.	YRU.A	CDNX	President	May-95	Current	Capital Market Services
Spur Ventures Inc.	SVU	CDNX		Mar-97	Current	Fertilizer
The Link Group Inc.*	LNKG	OTCBB	Secretary	Dec-01	Current	Internet Surveillance
China Mobility Solutions, Inc.*	THE COMPANY	OTCBB	Secretary	Mar-97	Current	China Internet

* Reporting Companies in U.S.

He has held a Canadian Securities license but is currently inactive. He has been a Director and Secretary of the Registrant since January 1997.

Bryan Ellis, Director, age 37.

Bryan D. Ellis joined the Company as a Director on December 8, 2005. He is General Manager of the Bertelsmann Book Club in Shanghai, China. Bryan has worked at Bertelsmann for the past 7 years in numerous senior management positions, including Senior Vice President of Marketing Services for Bookspan, Vice President of International Product Development for BOL.com and Vice President of Technology Strategy for the Bertelsmann e-Commerce Group. Before joining Bertelsmann, Bryan worked as a consultant for McKinsey & Company in their New York office for 3 years. He received both his Bachelor's Degree and Master's Degree in International Relations from Johns Hopkins University, and received an executive business school diploma from Harvard Business School.

John Gaetz, Director, age 57.

Mr. Gaetz currently is founder and president of Presidents Corporate Group; a company structured to provide governance, administration and management services for public companies. Previous positions included a two-year term as founder and president of West Coast Stock Transfer Inc, a six-year term as Vice President and CFO of UltraGuard Water Systems Inc; a public company engaged in development and marketing ultraviolet based disinfection products and twenty five years spent in various financial and senior management positions with the Harnischfeger Corporation, a major mining, construction and defense equipment manufacturer.

(e) Committees of the Board of Directors

Nominating Committee. The Board of Directors does not have a nominating committee. Therefore, the selection of persons or election to the Board of Directors was neither independently made nor negotiated at arm's length.

Compensation Committee. The Company established a Compensation Committee on October 5, 1999, which currently consists of three directors, Angela Du, Ernest Cheung and Grey Ye, the last being an independent director. The Compensation Committee is responsible for reviewing general policy matters relating to compensation and benefits of directors and officers and determining the total compensation of its officers and directors.

Audit Committee. On August 31, 1999, the Board of Directors established an Audit Committee, which currently consists of three directors, XiaoQing Du, Ernest Cheung and John Gaetz. The Audit Committee is charged with recommending the engagement of independent accountants to audit Company financial statements, discussing the scope and results of the audit with the independent accountants, reviewing the functions of Company management and independent accountants pertaining to its financial statements and performing other related duties and functions as are deemed appropriate by the Audit Committee and the Board of Directors.

Qualified Financial Expert. Ernest Cheung is a qualified financial expert as a chartered accountant and an MBA with twenty years' experience in public companies.

(f) Resolution of Conflicts of Interest

As mentioned earlier, some officers and directors will not devote more than a portion of their time to the affairs of the Company. There will be occasions when the time requirements of Company business conflicts with the demands of their other business and investment activities. Such conflicts may require that the Company attempt to employ additional personnel. There is no assurance that the services of such persons will be available or that they can be obtained upon terms favorable to the Company.

There is no procedure in place that would allow Company officers or directors to resolve potential conflicts in an arms-length fashion. Accordingly, they will be required to use their discretion to resolve conflicts in a manner that they consider appropriate.

Code of Ethics. On March 30, 2006, our Board of Directors adopted a Code of Ethics which applies to all officers, directors and employees. We will provide a copy of the Code of Ethics, without charge, to any person who sends a written request to the secretary of China Mobility Solutions (#407-1270 Robson Street, Vancouver, B.C. Canada V6E 3Z6). A copy of the Code of Ethics was previously filed as an exhibit to the Form 10-KSB filed on April 18, 2006. The Company intends to disclose any waivers or amendments to the Code of Ethics in a Report on Form 8-K rather than from its Website.

ITEM 10. EXECUTIVE COMPENSATION

The following table shows information concerning all compensation paid for services to the Company in all capacities during the year ended December 31, 2006, as to the Chief Executive Officer and each of the other two most highly compensated executive officers of the Company who served in such capacity at the end of the last fiscal year (the "Named Executive Officers") whose total annual salary and bonus exceeded \$100,000:

Directors who are also officers of China Mobility Solutions, Inc. receive no cash compensation for services as a director. However, the directors will be reimbursed for reasonable out-of-pocket expenses incurred in connection with attendance at board and committee meetings. The Company has granted options to directors under its Stock Incentive Plan adopted subsequent to December 31, 2006.

Stock purchase options:

On November 12, 1999 the Company granted options to purchase shares at \$3.90 per share to entities/persons who contributed to the Company in 1999, which are not expired, as follows:

- (a) 87,333 options to Gemsco Management Ltd., beneficially Maurice Tsakok, for designing and implementing the Company's corporate website, advising on technological matters, researching the technology sector and for services as a Director;
- (b) 87,333 options to Farmind Link Corp. for their role as advisor on strategic issues, technology market trends, and financial and capital market issues;
- (c) 87,333 options to Sinhoj Management Ltd., beneficially Marc Hung, for their contributions to the general management of our company, investor relations, technological matters and for services as a Director;
- (d) 70,667 options to Lancaster Pacific Investment, Ltd. for their contributions in the areas of regulatory matters, Chinese market conditions and strategies aimed at penetrating that market;
- (e) 16,667 options to Ernest Cheung in consideration of services rendered as Secretary and Director;
- (f) 6,667 options to Yonderiche International Consultants Ltd. in consideration of services rendered in matters regarding Chinese government policies and regulations.

As of December 31, 2006, there were 1,758,333 Series "A" and Series "B" warrants outstanding. Series "A" has an exercise price of \$0.38, Series "B" has an exercise price of \$0.45.

SUMMARY DESCRIPTION OF EMPLOYEE BENEFIT PLANS

2007 Incentive Plan

The Company has adopted the 2007 Incentive Plan (the "2007 Plan") on February 19, 2007 and filed a Registration Statement on Form S-8 with the Commission on March 5, 2007, to register shares awarded and shares underlying options granted under the 2007 Plan. The Compensation Committee of the Board of Directors issues common stock and awards options to employees, directors, officers, consultants, advisors and other persons associated with our

Company. The 2007 Plan is intended to provide a method whereby our Company would be stimulated by the personal involvement of our employees, directors, officers, consultants, advisors and other persons in our business and reward such involvement, thereby advancing the interests of our Company and all of its shareholders. A total of 8,000,000 shares of common stock and shares of common stock underlying options were authorized under the 2007 Plan. The stock options granted under the 2007 Plan shall be non-qualified stock options ("NQSO's"). No Stock Option granted to any employee or 10% Shareholder shall be exercisable after the expiration of ten years from the date such NQSO is granted. The Committee, in its discretion, may provide that an Option shall be exercisable during such ten year period or during any lesser period of time. Both incentive stock options and non-qualified stock options must be granted at an exercise price of not less than the fair market value of shares of Common Stock at the time the option is granted and incentive stock options granted to 10% or greater stockholders must be granted at an exercise price of not less than 110% of the fair market value of the shares on the date of grant. To date, no shares have been awarded.

2006 Non-Qualified Stock Option Plan

The Company adopted a 2006 Non-Qualified Stock Compensation Plan on November 2, 2005, and filed a Registration Statement on Form S-8 with the Commission on November 3, 2005, to register shares awarded and shares underlying options granted under the Plan. The Compensation Committee of the Board of Directors issues common stock and awards options to employees, directors, officers, consultants, advisors and other persons associated with our Company. The 2006 Plan is intended to provide a method whereby our Company would be stimulated by the personal involvement of our employees, directors, officers, consultants, advisors and other persons in our business and reward such involvement, thereby advancing the interests of our Company and all of its shareholders. A total of 4,000,000 shares of common stock and shares of common stock underlying options were authorized under the 2006 Plan. To date, no shares have been awarded.

Section 16(a) Beneficial Ownership Reporting Compliance with Section 16(a) of the Exchange Act

Section 16(a) of the Securities Exchange Act of 1934 (the "Exchange Act") requires the Company's Officers and Directors, and persons who own more than ten percent of a registered class of the Company's equity securities, file reports of ownership and changes in ownership with the Securities and Exchange Commission. Officers, directors, and stockholders of greater than ten percent are required by regulation to furnish to the Company copies of all Section 16 forms they file. Based solely on the Company's review of the copies of such forms received by it and written representations from the Company's reporting persons, the Company believes that all of the Company's reporting persons have filed their respective Section 16(a) forms for the year ended December 31, 2006.

ITEM 11. SECURITY OWNERSHIP OF CERTAIN BENEFICIAL OWNERS AND MANAGEMENT AND RELATED STOCKHOLDER MATTERS

Persons and groups owning in excess of five percent of our Common Stock are required to file certain reports with the SEC disclosing such ownership pursuant to the Exchange Act. Based upon such reports, as of April 10, 2007 management knows of no persons other than those identified below who were beneficial owners of more than five percent of the outstanding shares of Common Stock.

The following table sets forth information with respect to the beneficial ownership of our issued and outstanding stock by each director, the Chief Executive Officer of the Company, the other named executive officers, all executive officers and directors as a group and beneficial owners of more than five percent of the 61,650,295 shares outstanding at May 17, 2007:

Name of Beneficial Owner	Title of Class	Total Number of Securities Owned Beneficially	Percent of Class (1)
--------------------------	----------------	---	-------------------------

Xiao-qing Du (1)	Common Stock	0	*
Ernest Cheung(1)	Common Stock	308,334 (2)	1.5%
John Gaetz(1)	Common Stock	0	*
Bryan Ellis(1)	Common Stock	0	*
Total number of shares owned by directors and executive officers as a group (4 persons)	Common Stock	308,334	1.5%

* Less than 1% of the issued and outstanding shares.

(1) Except as otherwise noted each person's business address is c/o the Company, Ste. 407-1270 Robson Street, Vancouver BC V6E 3Z6.

(2) Ernest Cheung has options to purchase 165,000 shares at \$0.30 per share, all of which are currently exercisable. Ernest Cheung is President of Development Fund II of Nova Scotia, Inc. which owns 63,333 common shares included in the above table.

Termination of Employment and Change of Control Arrangements:

None.

ITEM 12. CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS

Wages and benefits - The Company paid \$58,886 as wages and benefits to Xiao-qing Du, the President, Chief Executive Officer, and a director of the Company during the year ended December 31, 2006.

ITEM 14. PRINCIPAL ACCOUNTANT FEES AND SERVICES

Moen and Company ("Moen") was the Company's principal auditing accountant firm and examined the financial statements of the Company for the fiscal year ended December 31, 2005. Michael Studer, C.P.A. ("Studer") was engaged as the Company's principal auditing accountant and examined the financial statements of the Company for the fiscal year ended December 31, 2006.

Audit Fees.

Moen expects aggregate fees of approximately \$45,150 for professional services rendered for the audit of the Company's annual financial statements for the fiscal year ended December 31, 2005.

Studer expects aggregate fees of approximately \$50,000 for professional services rendered for the audit of the Company's annual financial statements for the fiscal year ended December 31, 2006.

Tax Fees.

There were no fees for professional services by principal accountant for tax compliance, tax advice or tax planning in 2006.

All Other Fees.

Moen was not paid any other fees for professional services during the fiscal years ended December 31, 2005 and Studer was not paid any other fees for professional services during the fiscal years ended December 31, 2006.

The Company's Board acts as the audit committee and had no "pre-approval policies and procedures" in effect for the auditors' engagement for the audit year 2005 and 2006.

All audit work was performed by the auditors' full time employees.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Board of Directors and Stockholders of
China Mobility Solutions, Inc.

I was engaged to audit the accompanying consolidated balance sheet of China Mobility Solutions, Inc. and subsidiaries (the "Company") as of December 31, 2006 and the related consolidated statements of operations, changes in stockholders' equity (deficiency), and cash flows for the year then ended. These financial statements are the responsibility of the Company's management. The consolidated financial statements of China Mobility Solutions, Inc. as of December 31, 2005 were audited by another auditor whose report dated March 31, 2006 expressed an unqualified opinion on those statements.

As more fully described in Note 2 to the consolidated financial statements, applications were submitted to a People's Republic of China ("PRC") regulatory authority to liquidate two of the Company's PRC wholly owned subsidiaries (the "PRC subsidiaries") pursuant to PRC's Beijing Rule of Liquidation. In connection therewith, the accounting responsibilities for the operations of the PRC subsidiaries were transferred from the Company to a PRC accounting firm approved by the PRC regulatory authority. The Company has been unable to obtain reports from this accounting firm and has not received a definitive opinion regarding the ultimate outcome of these liquidations; accordingly, the Company has reduced the carrying value of the net assets of the PRC subsidiaries to \$1 at December 31, 2006 and has reflected operations of the PRC Subsidiaries for the years ended December 31, 2006 (which only includes these operations to September 30, 2006) and 2005 as discontinued operations.

Since the Company was unable to provide evidence and I was not able to apply other auditing procedures to satisfy myself as to the carrying value of the net assets of the PRC Subsidiaries at December 31, 2006 and the results of their operations for the three months ended December 31, 2006, as described in the preceding paragraph, the scope of my work was not sufficient to enable me to express, and I do not express, an opinion on these financial statements.

The accompanying consolidated financial statements have been prepared assuming that the Company will continue as a going concern. As more fully described in Note 1, the Company's financial position raises substantial doubt concerning its ability to continue as a going concern. The consolidated financial statements do not include any adjustments which may result from the outcome of this uncertainty.

NOTE 1 - NATURE OF BUSINESS AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Nature of Business

China Mobility Solutions, Inc. (“CHMS”) is a holding company which was incorporated in Florida on September 12, 1996. In 2005 and 2006, CHMS had the following wholly-owned subsidiaries:

- (1) Beijing Quicknet Technology Development Corp. (“Quicknet”), a corporation organized under the laws of the People’s Republic of China (“PRC” or “China”) - engaged in the sale of wireless communication services to PRC customers; placed in liquidation during the three months ended December 31, 2006 (see Note 2).
- (2) Beijing Shiji Yingfu Investment Management Consulting Limited (“Shiji Yingfu”), a PRC corporation organized to act as an investment vehicle - inactive in 2005 and 2006; placed in liquidation during the three months ended December 31, 2006 (see Note 2).
- (3) Windsor Education Academy Inc. (“Windsor”), a corporation organized under the laws of British Columbia, Canada - provides English as a Secondary Language (“ESL”) training programs in Vancouver, Canada.
- (4) Infornt Investment Limited (“Infornt HK”), a Hong Kong corporation - executed an agreement on August 8, 2006 to acquire control of Beijing Topbiz Technology Development Corp, Ltd. (“Topbiz”), a PRC corporation that develops and customizes short messaging system platforms for PRC banks (see Note 4).
 - (5) Infornt Investment Corp. (“Infornt Canada”), a Canadian corporation - inactive in 2005 and 2006.
 - (6) Xinbiz (HK) Limited, a Hong Kong corporation - inactive in 2005 and 2006.
 - (7) Xinbiz Corp., a British Virgin Islands corporation - inactive in 2005 and 2006.

Summary of Significant Accounting Policies

Principles of consolidation - The accompanying consolidated financial statements include the accounts of CHMS and its wholly owned subsidiaries (collectively, the “Company”). All significant inter-company transactions and balances have been eliminated on consolidation.

Basis of presentation - The financial statements have been prepared on a “going concern” basis, which contemplates the realization of assets and liquidation of liabilities in the normal course of business. However, at December 31, 2006, the Company had negative working capital of \$3,552,938 and a stockholders’ deficiency of \$3,363,899. These factors create substantial doubt as to the Company’s ability to continue as a going concern. The Company is seeking to improve its financial condition by making a business acquisition using its common stock. However, there is no assurance that the Company will be successful in accomplishing this objective. The financial statements do not include any adjustments that might be necessary should the Company be unable to continue as a going concern.

Use of estimates - The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Concentration of credit risk - The Company maintains Renminbi cash balances in banks in China and U.S. Dollar cash balances in Canadian bank, that are not insured. Revenues were derived in geographic locations outside the United States.

Cash and cash equivalents - Cash equivalents consists of term deposits with original maturities of three months or less.

Investments - The Company determines the appropriate classification of marketable debt and equity securities at the time of purchase and reevaluates such designation as of each balance sheet date. All marketable debt securities are classified as held-to-maturity and are carried at amortized cost, which approximates fair value. Investments are written down by a charge to operations for any impairment in value.

Accounts receivable and allowance for doubtful accounts - Accounts receivable are recorded net of allowances for doubtful accounts and reserves for returns. In the normal course of business, the Company extends credit to customers that satisfy predefined credit criteria. The Company is required to estimate the collectibility of its receivables. Reserves for returns are based on historical return rates and sales patterns. Allowances for doubtful accounts are established through the evaluation of accounts receivable agings and prior collection experience to estimate the ultimate realization of these receivables.

Property and equipment - Property and equipment, stated at cost, is depreciated using the declining balance method as follows:

Furniture & fixtures	20%	Declining balance method
Machinery & equipment	20%	Declining balance method
Computer equipment	30%	Declining balance method
Library	100%	Declining balance method

Goodwill - Goodwill is the excess of the acquisition cost of businesses over the fair value of the identifiable net assets acquired. Goodwill acquired has to be evaluated for impairment on an annual basis going forward according to Statement of Financial Accounting Standards (“SFAS”) No. 142 “Goodwill and Other Intangible Assets”. The standard requires a two-step process to be performed to analyze whether or not goodwill has been impaired. Step one requires that the fair value be compared to book value. If the fair value is higher than the book value, no impairment is indicated and there is no need to perform the second step of the process. If the fair value is lower than the book value, step two must be evaluated. Step two requires a hypothetical purchase price allocation analysis to be done to reflect a current book value of goodwill. The current value is then compared to the carrying value of goodwill. If the current fair value is lower than the carrying value, an impairment must be recorded. Annually, the goodwill is tested for impairment in the fourth quarter.

Long-lived assets - The Company records impairment losses on long-lived assets used in operations when indicators of impairment are present and the undiscounted cash flows estimated to be generated by those assets are less than the assets’ carrying amount.

Revenue recognition - The Company’s revenues for 2006 and 2005 consisted of revenues from SMS, education and training services. In accordance with Securities and Exchange Commission (“SEC”), Staff Accounting Bulletin No. 104, “Revenue Recognition” and the Emerging Issue Task Force (“EITF”) Issue No. 00-21, “Revenue Arrangements with Multiple Deliveries”, the Company recognizes revenue when the following criteria are met: persuasive evidence that an arrangement exists; delivery has occurred or services have been rendered; the price to the customer is fixed or determinable; and collectability is reasonably assured. If all of the above criteria have been met, revenues are principally recognized upon shipment of products or when services have been rendered. Revenues derived from communications services, education and training are recognized as the services are performed. Amounts received from customers in advance of the period in which service is rendered are deferred and recorded on the balance sheet as a liability under “deferred revenue.”

Cost recognition - Cost of service includes direct costs to produce products and provide services.

Deferred revenue and deferred cost - Deferred revenue for 2006 and 2005 consist primarily of communications services, education and training revenue received prior to the period in which service is rendered.

Capitalized software costs - The Company accounts for the development cost of software intended for sale in accordance with Statement of Financial Accounting Standards ("SFAS") No. 86, "*Accounting for Costs of Computer Software to be Sold, Leased or Otherwise Marketed*". SFAS No. 86 requires product development costs to be charged to expense as incurred until technological feasibility is attained. Technological feasibility is attained when the Company's software has completed system testing and has been determined viable for its intended use. Accordingly, the Company did not capitalize any development costs during the period.

Advertising costs - Advertising costs are expensed as incurred. These expenses include production, media and other promotional and sponsorship costs. Total advertising costs charged to operations amounted to \$5,030 for 2006 and \$4,613 for 2005. Total advertising costs included in discontinued operations amounted to \$532,125 for 2006 and \$949,107 for 2005.

Income taxes - The Company accounts for income taxes under the provisions of SFAS No. 109, "*Accounting for Income Taxes*". Under SFAS No. 109, deferred income tax assets and liabilities are computed for differences between the financial statements and tax bases of assets and liabilities that will result in taxable or deductible amounts in the future, based on enacted tax laws and rates applicable to the periods in which the differences are expected to affect taxable income. Valuation allowances are established when necessary, to reduce deferred income tax assets to the amount expected to be realized.

Foreign currency translations - The assets and liabilities of the Company's foreign operations are generally translated into U.S. dollars at current exchange rates, and revenues and expenses are translated at average exchange rates for the year. Resulting foreign currency translation adjustments are reflected as a separate component of stockholders' equity. Transaction gains and losses that arise from exchange rate fluctuations on transactions denominated in a currency other than the functional currency, except those transactions which operate as a hedge of an identifiable foreign currency commitment or as a hedge of a foreign currency investment position, are included in the results of operations as incurred.

Fair value of financial instruments - For certain of the Company's financial instruments, including cash and cash equivalents, accounts receivable and current liabilities, the carrying amounts approximate fair value due to their short maturities.

Business segment information - The Company discloses information about its reportable segments in accordance with SFAS No. 131, "*Disclosures about Segments of an Enterprise and Related Information*". The Company's reportable segments are geographic areas. The accounting policies of the operating segments are the same as those for the Company.

Earnings per share - Basic earnings or loss per share are based on the weighted average number of common shares outstanding. Diluted earnings or loss per share is based on the weighted average number of common shares outstanding and dilutive common stock equivalents. Basic earnings/loss per share is computed by dividing income/loss (numerator) applicable to common stockholders by the weighted average number of common shares outstanding (denominator) for the period. All earnings or loss per share amounts in the financial statements are basic earnings or loss per share, as defined by SFAS No. 128, "*Earnings Per Share*". Diluted earnings or loss per share does not differ materially from basic earnings or loss per share for all periods presented. Convertible securities that could potentially dilute basic earnings per share in the future such as options and warrants are not included in the computation of diluted earnings per share because to do so would be antidilutive. All per share and per share

information are adjusted retroactively to reflect stock splits and changes in par value.

Stock-based compensation - Prior to January 1, 2006, the Company accounted for stock-based awards under the intrinsic value method, which followed the recognition and measurement principles of APB Opinion No. 25, "Accounting for Stock Issued to Employees", and related Interpretations. The intrinsic value method of accounting resulted in compensation expense for stock options to the extent that the exercise prices were set below the fair market price of the Company's stock at the date of grant.

As of January 1, 2006, the Company adopted SFAS No. 123(R) using the modified prospective method, which requires measurement of compensation cost for all stock-based awards at fair value on the date of grant and recognition of compensation over the service period for awards expected to vest. The fair value of stock options is determined using the Black-Scholes valuation model, which is consistent with the Company's valuation techniques previously utilized for options in footnote disclosures required under SFAS No. 123, "Accounting for Stock Based Compensation", as amended by SFAS No. 148, "Accounting for Stock Based Compensation Transition and Disclosure".

Since the Company did not issue stock options to employees during the year ended December 31, 2006, there is no effect on net loss or earnings per share had the Company applied the fair value recognition provisions of SFAS No. 123(R) to stock-based employee compensation. When the Company issues shares of common stock to employees and others, the shares of common stock are valued based on the market price at the date the shares of common stock are approved for issuance.

The Company recognizes compensation cost for fixed stock awards with pro rata vesting on the straight line basis over the vesting period.

Had the Company adopted SFAS No.123 (a) at January 1, 2005, the Company's pro-forma net loss and pro-forma net loss per share would have been

Net loss from continuing operations	
As reported	\$ (9,456,713)
Stock-based employee compensation cost, net of tax	(301,600)
Pro-forma	\$ (9,758,313)
Loss per share - continuing operations:	
As reported	\$ (0.54)
Pro-forma	\$ (0.55)

The fair values of the options granted in 2005 were from \$0.13 to \$0.14 each, which were estimated on the date of grant using the Black-Scholes option pricing model with weighted average assumptions for grants as follows:

	2005
Risk free interest rate	2.78%
Expected life of options in year	1 year
Expected volatility	132%
Dividend per share	\$0.00

Asset Retirement Obligations - Statement of Financial Accounting Standards No. 143, “*Accounting for Asset Retirement Obligations*”, addresses financial accounting and reporting for obligations associated with the retirement of tangible long-lived assets and related asset retirement costs. It requires entities to record the fair value of a liability for an asset retirement obligation in the period in which it is incurred. When the liability is recorded, the entity capitalizes the costs of the liability by increasing the carrying amount of the related long-lived asset. Over time, the liability is accreted to its present value each period, and the capitalized cost is depreciated over the useful life of the related asset. Upon settlement of the liability, an entity either settles the obligation for its recorded amount or incurs a gain or loss upon settlement.

SFAS No. 143 applies to legal obligations associated with the retirement of long-lived assets that result from the acquisition, construction, development, and normal operation of a long-lived asset, except for certain obligations of leases.

Accounting for convertible securities with beneficial conversion features - According to Emerging Issue Task Force (“EITF”) Issue 98-5, the beneficial conversion features embedded in convertible securities should be valued at the issue date. Embedded beneficial conversion features should be recognized and measured as follows: (a) Allocate a portion of the proceeds equal to the intrinsic value of the embedded beneficial conversion feature to additional paid-in-capital. The intrinsic value is calculated as the difference between the conversion price and the fair value of the common stock or other securities into which the security can be converted at the date when the investors have committed to purchase the convertible securities based on the terms specified, multiplied by the number of shares into which the security can be converted. (b) If the intrinsic value of the beneficial conversion feature is greater than the proceeds from the sale of the convertible instrument, the discount assigned to the beneficial conversion feature should not exceed the amount of the proceeds allocated to the convertible instruments. A discount, if any, is amortized beginning on the security’s issuance date to the earliest conversion date.

Pursuant to paragraph 12 of SFAS No. 133, the convertible debenture contains a conversion option, an anti-dilution provision and a redemption provision that may be considered as embedded derivative instruments as they may affect some of the cash flows required by the contract in a manner similar to a derivative instrument.

The host contract itself does not embody a claim to the residual interest in the Company and, thus, the economic characteristics and risks of the host contract should be considered that of a debt instrument (paragraph 60 of SFAS No. 133) and classified under liability section of the balance sheet (paragraph 16 of SFAS No. 133).

The conversion option of the debenture allows the holder to convert the debt into equity shares at any time within a specified period at a specified conversion price. The conversion option is equivalent to a call option granted by the Company to the debenture holders to purchase the shares of the Company at a specified price within a specified time. The conversion option should not be separated from the host contract according to paragraph 61(k) of SFAS No. 133 as a separate option with the same terms would not be considered to be a derivative for the issuer. Embedded beneficial conversion features should be recognized and measured according to EITF 98-5.

Section 8 (Adjustments to Conversion Price”) of the convertible debenture agreement is an anti-dilution provision that may result in the conversion ratio not being fixed. However, section 8 of the convertible debenture agreement is purely for the purpose of protecting the interest of the debenture holders against potential actions taken by Company resulting in the dilution of their equity interest in the Company when they convert their debentures into equity shares within the specified period of time. The anti-dilution provision is in the nature of an embedded derivative indexed to the Company’s own stock and would be classified in the shareholders’ equity if it was a freestanding derivative, this provision is not considered a derivative for the purpose of SFAS No. 133 (paragraph 3 of EITF 05-2).

The redemption provision allows the Company to redeem the debentures at 125% of the principal amount plus accrued interest after six months of the effective date of the registration statement. The redemption option can be viewed as a call option available to the Company. Through the four steps analysis outlined in DIG B-16, the redemption provision of the debenture is considered to be clearly and closely related to the economic characteristics and risks of the debt host contract as the amount to be paid upon settlement is not based on changes in an index or the repayment of the contractual amount is not contingently exercisable (paragraph 61(d) of SFAS No. 133). The redemption provision thus should not be separated from the host contract for separate consideration.

The warrants are detached from the convertible debenture with no put option feature. There is no liquidated damage or cash penalty payable to the warrant holder if the Company cannot register the shares underlying the warrants. If an effective registration statement is not available for the resale of warrant shares, the warrant holders can still exercise the warrants to get the unregistered shares at a lower exercise price calculated. As the registration of the shares underlying the warrants is out of the control of the Company, the warrant contracts should be classified as a permanent equity instrument according to paragraph 14 of EITF 00-19. The provision should not be regarded as a derivative instrument as it is in the nature of indexed to the Company's own stock and classified under the shareholders' equity on the balance sheet (paragraph 11 of SFAS No. 133).

Comprehensive income - The Company has adopted SFAS No. 130, "*Reporting Comprehensive Income*", which establishes standards for reporting and display of comprehensive income, its components and accumulated balances. The Company includes items of other comprehensive loss by their nature, such as foreign currency translation adjustments, in a financial statement and displays the accumulated balance of other comprehensive loss separately from accumulated deficit in the equity section of the balance sheet. The Company discloses total comprehensive loss, its components and accumulated balances on its statement of stockholders' equity.

Capital structure - The Company discloses its capital structure in accordance with SFAS No. 129, "*Disclosure of Information about Capital Structure*", which established standards for disclosing information about an entity's capital structure.

Related party transactions - A related party is generally defined as (i) any person that holds 10% or more of the Company securities and their immediate families, (ii) the Company's management, (iii) someone that directly or indirectly controls, is controlled by, or is under common control with the Company, or (iv) anyone who can significantly influence the financial and operating decisions of the Company. A transaction is considered to be a related party transaction when there is a transfer of resources or obligations between related parties.

Reclassification of Prior Year - Certain prior year amounts have been reclassified in order to conform to the current year presentation. These changes had no effect on previously reported results of operations or total stockholders' equity.

Recent Accounting Pronouncements - The Financial Accounting Standards issued the following new pronouncements, none of which is expected to have a significant effect on the financial statements:

In June 2006, the Financial Accounting Standards Board ("FASB") issued FASB Interpretation No. 48, "*Accounting for Uncertainties in Income Taxes*", ("FIN 48"). FIN 48 clarifies the accounting for uncertainty in income taxes and prescribes a recognition threshold and measurement attribute for the financial statement recognition and measurement of a tax position taken or expected to be taken in a tax return. FIN 48 is effective for financial statements as of December 15, 2006. The adoption of FIN 48 is expected to have no impact on the Company's financial statements.

In September 2006, the FASB issued Statement of Financial Accounting Standards No. 157, "*Fair Value Measurements*". SFAS 157 defines fair value, establishes a framework for measuring fair value and expands disclosures about fair value measurements but does not require any new fair value measurements. SFAS 157 is effective for financial statements issued for fiscal years beginning after November 15, 2007, and interim periods

within those fiscal years. The Company has not yet determined the impact of applying SFAS 157.

In September 2006, the FASB issued Statement of Financial Accounting Standards No. 158, “*Employers’ Accounting for Defined Benefit Pension and Other Postretirement Plans?*”). SFAS 158 requires an employer to recognize the overfunded or underfunded status of a defined benefit postretirement plan (other than a multiemployer plan) as an asset or liability in its statement of financial position and to recognize changes in that funded status in the year in which the changes occur through comprehensive income. SFAS 158 is effective for financial statements as of December 31, 2006. The adoption of SFAS No. 158 is expected to have no impact on the Company’s financial statements.

In February 2007, the FASB issued Statement of Financial Accounting Standards No. 159, “*The Fair Value Option for Financial Assets and Financial Liabilities?*”). SFAS 159 permits entities to choose to measure many financial instruments and certain other items at fair value. The objective is to improve financial reporting by providing entities with the opportunity to mitigate volatility in reported earnings caused by measuring related assets and liabilities differently without having to apply complex hedge accounting provisions. SFAS 159 is effective for financial statements issued for fiscal years beginning after November 15, 2007. The Company has not yet determined the impact of adopting SFAS 159 on the Company’s financial position.

NOTE 2 - DISCONTINUED OPERATIONS

On August 15, 2006, a total of \$3,350,000 of convertible debentures became due and payable. In October 2006, the Company was notified by the PRC State Administration of Foreign Exchange (“SAFE”) that its application to convert certain cash held by Quicknet and Shiji Yingfu (the “PRC Subsidiaries”) into U.S. dollars and repay the debentures was denied. Later, in the three months ended December 31, 2006, based upon advice of PRC counsel that the Beijing Rule of Liquidation was the sole means to repay the outstanding debentures, the PRC subsidiaries submitted applications to a PRC regulatory authority to liquidate pursuant to the Beijing Rule of Liquidation. In connection therewith, the accounting responsibilities for the operations of the PRC subsidiaries were transferred from the Company to a PRC accounting firm approved by the PRC regulatory authority. The Company has been unable to obtain reports from this accounting firm and has not received a definitive opinion regarding the ultimate outcome of these liquidations; accordingly, the Company has reduced the carrying value of the net assets of the PRC Subsidiaries to \$1 at December 31, 2006 and has reflected operations of the PRC Subsidiaries for the years ended December 31, 2006 (which only includes these operations to September 30, 2006) and 2005 as discontinued operations. In the event that the Company receives more than \$1 from the liquidations, it will recognize a gain in such future periods that the proceeds are realized.

Income (loss) from discontinued operations consist of:

	Year Ended	
	December 31	
	2006	2005
Revenue from wireless communications services	\$ 4,275,287	\$ 4,703,348
Cost of revenues	913,128	1,372,707
Gross profit	3,362,159	3,330,641
Selling, general, and administrative expenses	2,233,803	3,118,256
Income (loss) from operations	1,128,356	212,385
Interest income	21,798	80,875
		\$ 293,260

Income (loss) from discontinued operations	\$ 1,150,154
--	-----------------

For the year ended December 31, 2006, the loss on liquidation of PRC Subsidiaries was calculated as follows:

Assumed proceeds from liquidation of PRC Subsidiaries	\$ 1
Carrying value of net assets of PRC Subsidiaries at September 30, 2006:	
Cash and cash equivalents	4,033,661
Due from related parties	3,746
Goodwill	4,675,396
Accounts payable and other accrued liabilities	(196,872)
Deferred revenue	(2,119,108)
Total	6,396,823
Estimated costs relating to liquidation of PRC Subsidiaries	170,000
Loss on liquidation of PRC Subsidiaries	\$ (6,566,822)

NOTE 3 - PROPERTY AND EQUIPMENT

Property and equipment, net consists of:

	December 31,	
	2006	2005
Equipment	\$ 36,913	\$ 26,986
Library	12,816	9,554
Furniture	12,842	10,189
Total	62,571	46,729
Less : Accumulated depreciation	(51,442)	(40,481)
Net book value	\$ 11,129	\$ 6,248

The depreciation expense charged to continuing operations for the years ended December 31, 2006 and 2005 were \$3,213 and \$2,705, respectively.

NOTE 4 - BEIJING TOPBIZ TECHNOLOGY DEVELOPMENT CORP., INC.

On August 8, 2006, Infonet HK and Mr. Xin Wei, a citizen and resident of the PRC and President of a subsidiary of the Company (“Wei”) (Infonet HK and Wei together being referred to as the “Purchasers”), QiFang Niu and XiaoXia Chen, both citizens and residents of the PRC (together being referred to as the “Sellers”) and Beijing Topbiz Technology

Development Corp., Ltd. ("Topbiz"), a company organized and existing under the laws of the PRC, entered into a Share Purchase Agreement (the "Agreement") providing for the acquisition by the Purchasers of control of Topbiz from the Sellers.

Under the Agreement, InforNet HK will directly acquire 49% of the capital stock of Topbiz, and indirectly acquire control through Mr. Wei of an additional 11% of Topbiz, giving it effective control of 60% of Topbiz. The Registrant was to pay the Sellers on a pro rata basis US\$3,700,000 in cash (\$950,000 on August 8, 2006, \$1,350,000 on November 8, 2006, and \$1,400,000 on February 8, 2006) and issue to them on a pro rata basis 8,081,818 new investment shares in an offering which is intended to be exempt from registration pursuant to Regulation S under the Securities Act of 1933, as amended. This acquisition structure was chosen to comply with China's foreign ownership rules which permit the Company, at this point in time, to have a direct ownership stake in Topbiz of up to 49%. Mr. Wei has agreed to execute and deliver to InforNet a Stock Option Agreement in the form and substance satisfactory to InforNet, which grants InforNet, among other things, the option to purchase his 11% ownership stake that he will acquire under the Agreement for an aggregate price of \$100, upon the satisfaction of certain conditions precedent.

InforNet HK paid a \$950,000 deposit to the Sellers on August 8, 2006 in contemplation of closing of the acquisition.

InforNet HK has not made any additional payments to the Sellers. Due to the matters described in Note 2, the Company presently does not have sufficient cash to make the remaining payments of \$2,750,000 required under the Agreement. Accordingly, the Company believes that the \$950,000 may not be recoverable and recorded an impairment charge of \$900,000 at December 31, 2006 to reduce the carrying cost of the deposit from \$950,000 to \$50,000.

Topbiz develops and customizes short messaging system, or SMS, platforms for banks in China. The 8,081,818 shares issued in connection with the acquisition were to be subject to a one-year restriction on transfer to a U.S. person pursuant to Regulation S.

NOTE 5 - CONVERTIBLE DEBENTURES

On August 15, 2005, the Company completed an offering of 134 units ("Units") for \$3,350,000. Each Unit was sold for \$25,000, consisting of \$25,000 principal amount of senior convertible debentures (the "Debentures"), and one new Series "A" Warrant and one new Series "B" Warrant. The Debentures are initially convertible at \$0.35 per share for 71,429 shares of common stock of the Company; maturing on August 15, 2006 and accruing interest at a rate of not less than 6% per annum equal to the sum of 2% per annum plus the one-month London Inter-Bank Offer Rate ("LIBOR"). The Debentures are subject to redemption at 125% of the principal amount plus accrued interest commencing six months after August 7, 2006.

Each Unit also includes: (i) new Series "A" Warrants exercisable at \$0.44 per share to purchase 71,429 shares of Common Stock of the Company until February 15, 2008; and (ii) new Series "B" Warrants exercisable at \$0.52 per share to purchase 71,429 shares of Common Stock until February 15, 2009. The new Series "A" and new Series "B" Warrants are subject to redemption by the Company at \$0.001 per Warrant at any time commencing six months and twelve months, respectively, from August 7, 2006, provided the average closing bid price of the common stock of the Company equals or exceeds 175% of the respective exercise prices for 20 consecutive trading days.

On January 18, 2006, the Company received a letter (the "Default Notice") from the attorney for Southridge Partners, LP, (the "Lender"), the holder of \$500,000 principal amount of the Company's Senior Convertible Debentures (the "Debenture") stating that the Company was in default of certain transaction agreements (the "Transaction Agreements") issued in connection with the Debenture by virtue of the Company's issuance of registered shares of stock to employees and consultants under a Form S-8 registration statement and the filing of the Form S-8 prior to the date of effectiveness, August 7, 2006, of the Company's SB-2 Registration Statement required under the Registration Rights Agreement (one of the Transaction Agreements).

The Company denied that it was in default of the Transaction Agreements. However, in order to avoid costly litigation, the parties entered into a waiver/settlement agreement on May 4, 2006 (the "Waiver/Settlement Agreement").

In accordance with the terms of the Waiver/Settlement Agreement, the initial conversion price of the Debenture was reduced from \$.35 per share to \$.30 per share, the new Series "A" Warrant exercise price was reduced from \$.44 to \$.38 per share and the new Series "B" Warrant exercise price was reduced from \$.52 to \$.45 per share. In addition, the number of shares of the Company's common stock exercisable upon conversion of each \$25,000 principal amount of Debenture and upon exercise of the new Series "A" and new Series "B" Warrants included in each Unit was increased from 71,429 shares to 83,333 shares for each of the Debenture, Class A Warrants and Class B Warrants, or an aggregate of 250,000 shares per unit.

The Lender waived the S-8 Default set forth in the Default Notice and the Company agreed not to file any additional S-8 Registration Statements prior to 45 days after August 7, 2006.

As of December 31, 2006, the Company had not repaid \$3,325,000 of Debentures due on August 15, 2006. The Company had paid all interest on the Debentures accrued through November 15, 2006. The Company had applied to the regulatory authority in China to approve converting its subsidiaries' funds into U.S. dollars and repay the Debentures and was denied. The Company has been advised that the Rule of Liquidation is the sole means of assuring repayment of the Debentures. In the three months ended December 31, 2006, the Company submitted applications for such liquidations to a PRC regulatory authority. At May 15, 2007, these liquidations have not been completed.

The holder of an aggregate of \$300,000 of the Debentures has agreed to extend the due date to December 31, 2007 with an interest rate of 10% per annum starting from August 15, 2006 and the exercise price of the new Series "A" Warrants and new Series "B" Warrants being reduced to \$0.15 and \$0.20 per share respectively. Other terms remain the same.

The Company received letters (the "Default Letters") from the attorneys for two holders of an aggregate \$875,000 principal amount of Debentures stating that the Company was in default under the Debentures as a result of its failure to pay principal plus interest thereon. On September 18, 2006, one of the debenture holders commenced a lawsuit against the Company in the Supreme Court of the State of New York, New York County (No. 603266). The action is a motion for summary judgment in lieu of complaint based on the Company's Debentures in the amount of \$500,000 in favor of Plaintiff which was due on August 15, 2006, with interest at 12% per annum. On January 19, 2007, this motion was granted and a judgment in the amount of \$545,440 was awarded the Plaintiff.

For the years ended December 31, 2006 and 2005, late registration penalty fees were expensed in the amounts of \$481,968 and \$33,500, respectively. At December 31, 2006, accounts payable and accrued liabilities include interest payable of \$3,781 and unpaid late registration fees of \$473,524.

NOTE 6 - BASIC AND DILUTED EARNINGS (LOSS) PER SHARE

Basic earnings (loss) per share are computed by dividing net earnings (loss) available to common stockholders by the weighted-average number of common shares outstanding during the period. Diluted earnings per share is computed by dividing net earnings available to common stockholders by the weighted-average number of common shares outstanding during the period increased to include the number of additional common shares that would have been outstanding if potentially dilutive common shares had been issued.

The following table sets forth the computations of shares and net loss used in the calculation of basic and diluted loss per share for the years ended December 31, 2006 and 2005:

2006	2005
------	------

Net loss for the year	(7,879,445)	(9,163,453)
Weighted-average number of shares outstanding	20,011,792	17,633,162
Effective of dilutive securities :		
Dilutive options - \$0.30		
Dilutive warrants new Series "A" - \$0.15		
Dilutive warrants new Series "A" - \$0.38		
Dilutive warrants new Series "B" - \$0.20		
Dilutive warrants new Series "B" - \$0.45		
Dilutive warrants Series "C" - \$0.45		
Dilutive potential common shares		
Adjusted weighted-average shares and assumed conversions	20,011,792	17,633,162
Basic income (loss) per share attributable to common shareholders	\$ (0.39)	\$ (0.52)
Diluted income (loss) per share attributable to common shareholders	\$ (0.39)	\$ (0.52)

The effect of outstanding options and warrants was not included as the effect would be anti-dilutive.

NOTE 7 - SHARE PURCHASE WARRANTS

On May 5, 2006, the Company granted 200,000 Series "C" warrants at an exercise price of \$0.45 each to a consultant for their investor relations services expiring on May 5, 2010. The fair value of the warrants granted was estimated at \$0.25 by using the Black-Scholes Option Pricing Model with the following weighted average assumptions: dividend yield of 0%, expected volatility of 144%, risk-free interest rates of 4.31%, and expected lives of four years.

10 Series "B" warrants which entitle the holders to purchase a common share of the Company at \$2.25 each expired on March 31, 2006.

As of December 31, 2006, 122 new Series "A" warrants were outstanding which entitle the holders to purchase 83,333 common shares of the Company at \$0.38 until February 15, 2008. 122 new Series "B" warrants were outstanding which entitle the holders to purchase 83,333 common shares of the Company at \$0.45 until February 15, 2009. 12 amended new Series "A" warrants were outstanding which entitle the holders to purchase 83,333 common shares of the Company at \$0.15 each until February 15, 2008. 12 amended new Series "B" warrants were outstanding which entitle the holders to purchase 83,333 common shares of the Company at \$0.20 until February 15, 2009. 200,000 Series "C" warrants were outstanding which entitle the holders to purchase 200,000 common shares of the Company at \$0.45 each expiring on May 5, 2010.

NOTE 8 - STOCK OPTIONS

The Company filed S-8 for its 2006 non-qualified Stock Option Plan with Securities Exchange Commission on November 3, 2005. The total number of shares of the Company available for grants of stock options and common stock under the Plan shall be 4,000,000 common shares. Stock options may be granted to non-employees and directors of the Company or other persons who are performing or who have been engaged to perform services of special importance to the management, operation or development of the Company. All stock options granted hereunder must be granted within ten years from the earlier of the date of this Plan is adopted or approved by the Company's shareholders. No stock option granted to any employee or 10% shareholder shall be exercisable after the expiration of ten years from the date such non qualifying stock option ("NQSO") is granted. The Company, in its discretion, may provide that an option shall be exercisable during such ten year period or during any lesser period of time. At the discretion of the Company, through the delivery of fully paid and non-assessable common shares, with an aggregate fair market value on the date the NQSO is exercised equal to the option price, provided such tendered shares have been owned by the Optionee for at least one year prior to such exercise.

Options outstanding at December 31, 2006 were 660,000 with an option exercise price of \$0.30 per share. No options were granted, exercised, canceled or forfeited during the year ended December 31, 2006. The weighted average remaining contractual life is 0.56 years.

NOTE 9 - RELATED PARTY TRANSACTIONS

During the year ended December 31, 2006, the Company paid \$58,886 (2005: \$30,866) to a director and an officer as wages and benefits.

As of December 31, 2006, the Company has an amount of \$21,454 (2005: \$21,443) due from a company with a common ex-director without interest or specific terms of repayment.

As of December 31, 2006, the Company advanced \$4,519 (2005: \$8,485) to a director of the Company for expenses to be incurred on behalf of the Company.

NOTE 10 - INCOME TAXES

According to "PRC Joint Venture Enterprises Income Tax Act" which adopted on Sept. 10, 1980 and amended on Sept. 2, 1983:

- (1) Joint Venture needs to pay Income Tax if they operate and generate income from China;
- (2) Tax is based on the total revenue after deducting cost of revenue, expenses and losses;
- (3) Joint Venture Enterprises has an income tax rate of 30% from central government, and a 3% income rate from local government, therefore the total income tax rate is 33%;
- (4) The Income Loss can be deducted from future years' taxable income, but no more than 5 years;
- (5) Tax is calculated on a yearly basis.

QuickNet is subject to 33% income tax rate. There is no Value-added tax for QuickNet. According to "China Value Added Tax Temporary Regulation" which adopted on Jan. 1, 1994, VAT is only for enterprises that distribute commodities, process commodities, repair commodities and import commodities. QuickNet provides services; therefore, there is no VAT.

There are no current or deferred tax expenses for the years ended December 31, 2006 and 2005, due to the Company's loss position. The Company has fully reserved for any benefits of these losses. The deferred tax consequences of temporary differences in reporting items for financial statement and income tax purposes are recognized, as appropriate. Realization of the future tax benefits related to the deferred tax assets is dependent on many factors, including the Company's ability to generate taxable income within the net operating loss carryforward period. Management has considered these factors in reaching its conclusion as to the valuation allowance for financial reporting purposes. The income tax effect of temporary differences comprising the deferred tax assets and deferred tax liabilities on the accompanying consolidated balance sheets is a result of the following:

	2006	2005
Deferred tax assets	\$ 1,081,616	\$ 1,081,616
Valuation allowance	(1,081,616)	(1,081,616)
Net deferred tax assets	-	-

The net change in the valuation allowance is principally the result of net operating loss carryforwards. The Company has available net operating loss carryforwards of approximately \$3,277,623 for tax purposes to offset future taxable income, which expire through 2025. All of the net operating loss carryforwards were generated by the parent company. The Company does not file a consolidated tax return because all of its subsidiaries are foreign corporations. Pursuant to the Tax Reform Act of 1986, annual utilization of the Company's net operating loss carryforwards may be limited if a cumulative change in ownership of more than 50% is deemed to occur within any three-year period.

A reconciliation between the statutory federal income tax rate and the effective income rate of income tax expense for the years ended December 31, 2006 and 2005 is as follows:

	2006	2005
Statutory federal income tax rate	33.0%	33.0%
Valuation allowance	-33.0%	-33.0%
Effective income tax rate	0.0%	0.0%

NOTE 11 - SUBSEQUENT EVENTS

On January 26, 2007, China Mobility Solutions, Inc. (the "Company") entered into a Term Sheet with Meyers Associates L.P. ("Meyers") as Placement Agent for the Company's issuance of Senior Convertible Debentures (the "Debentures") on August 15, 2005. In consideration of the Company's inability to repay the Debentures, because of the need to obtain regulatory approval from the banking authorities in the People's Republic of China, the Company agreed to lower the Conversion Price (as defined) of the Debentures, subject to certain conditions.

The conversion/settlement agreements (the "Conversion Agreements") dated February 2, 2007, provide that the conversion price (the "Conversion Price") of the Debentures, as set forth in paragraph 7(d) of the Debentures shall be reduced to \$.05 per share of Common Stock ("Underlying Common Stock") issuable upon conversion (the "Conversion"), provided that at least fifty (50%) percent in principal amount (or \$1,675,000) of the initial \$3,350,000 of Debentures (the "Minimum Conversion") agree to the Conversion. The closing of the Conversion (the "Closing") occurred on February 12, 2007. Those Debenture holders who agree to the Conversion shall also agree to convert all accrued

but unpaid penalties and interest owed by the Company into Common Stock at \$.05 per share. Pursuant to the terms of the May 4, 2006 Waiver/Settlement Agreement entered into between the Company and Debenture holders the Conversion Price of the Debentures was reduced to its current price of \$.30 per share. A total of 39,522,500 shares of common stock was issued to 29 Debenture holders under Conversion Agreements in satisfaction of \$1,675,000 total principal amount of Debentures and \$301,125 unpaid accrued interest and late registration penalty fees.

The Conversion Agreement provides for the Debenture holders who signed such agreement to: (i) terminate any and all pending litigation with the Company to which they are a party, without prejudice to reinstatement if and only if the Minimum Conversion is not completed, and/or the Company defaults in its obligations under the Conversion Agreement; (ii) in any vote of shareholders not vote against any nominee to the Board of Directors of the Company and any proposal designated by current management of the Company which does not effect the Conversion, and (iii) release and hold harmless the Company and its officers, directors, employees, representatives and affiliates following the Closing.

The Company agreed to make whatever filings are necessary with the SEC, whether by way of supplement or post-effective amendment to this registration statement concerning the Underlying Common Stock, to permit the issuance of common stock at the reduced Conversion Price of \$.05 per share. Notwithstanding the foregoing, only the original 214,287 shares of Common Stock issuable underlying each \$25,000 Unit, including 71,429 Shares of Common Stock underlying each Debenture, are registered on this Registration Statement. Accordingly, at the reduced Conversion Price of \$.05 per share an aggregate of 500,000 shares of Common Stock would be issuable upon conversion of the Debentures and an additional 166,666 shares of Common Stock issuable upon exercise of warrants included in the Units. All additional shares of Common Stock not included in this Registration Statement, as well as those issuable in exchange for any interest and penalties due under the Debentures at the time of the Closing, have been included in a second registration statement filed by the Company on February 12, 2007.

The Company shall also provide the Debenture holders with "most favored nation" status and reduce the Conversion Price to the per share price of any equity offering made by the Company within 18 months of the Closing Date. The Company shall issue such number of additional shares to the Debenture holders to reduce their Conversion Price to that of such subsequent offering.

SIGNATURES

Pursuant to the requirements of Section 13 or 15 (d) of the Securities Exchange Act of 1934, the Registrant has duly caused this report to be signed on its behalf by the undersigned, thereunto duly authorized.
