

YORK WATER CO
Form 10-Q
November 07, 2008

UNITED STATES
SECURITIES AND EXCHANGE COMMISSION
Washington, D.C. 20549

FORM 10-Q

QUARTERLY REPORT UNDER SECTION 13 OR 15(d)
OF THE SECURITIES EXCHANGE ACT OF 1934

For Quarter ended September 30, 2008

Commission file number 0-690

THE YORK WATER COMPANY
(Exact name of registrant as specified in its charter)

PENNSYLVANIA
(State or other jurisdiction of incorporation or organization)

23-1242500

(I.R.S. Employer Identification No.)

130 EAST MARKET STREET, YORK,
PENNSYLVANIA

17405

(Address of principal executive offices)

(Zip Code)

Registrant's telephone number, including area code

(717) 845-3601

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days.

YES

NO

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See the definitions of "large accelerated filer," "accelerated filer" and "smaller reporting company" in Rule 12b-2 of the Exchange Act:

Large accelerated filer

Accelerated filer

Non-accelerated filer

Small Reporting Company

Indicate by checkmark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act).

YES

NO

Indicate the number of shares outstanding of each of the issuer's classes of common stock, as of the latest practicable date.

Edgar Filing: YORK WATER CO - Form 10-Q

Common stock, No par value

11,337,717 Shares outstanding
as of October 29, 2008

Net cash provided by financing activities	7,493	3,200
Net change in cash and cash equivalents	-	-
Cash and cash equivalents at beginning of period	-	-
Cash and cash equivalents at end of period	\$ -	\$ -

Supplemental disclosures of cash flow information:

Cash paid during the period for:

Interest, net of amounts capitalized	\$	3,162	\$	2,622
Income taxes		1,106		1,378

Supplemental schedule of non cash investing and financing activities:

Accounts payable includes \$3,120 in 2008 and \$1,555 in 2007 for the construction of utility plant.

Accounts payable and other deferred credits includes \$118 in 2008 and \$190 in 2007 for the acquisition of water systems.

The change in notes receivable includes \$473 in 2007 offset by like amounts of customer advances.

Contributions in aid of construction includes \$51 in 2008 of contributed land.

The accompanying notes are an integral part of these statements.

Page 6

THE YORK WATER COMPANY

Notes to Interim Financial Statements
(In thousands of dollars, except per share amounts)

1. Basis of Presentation

The interim financial statements are unaudited but, in the opinion of management, reflect all adjustments, consisting of only normal recurring accruals, necessary for a fair presentation of results for such periods. Because the financial statements cover an interim period, they do not include all disclosures and notes normally provided in annual financial statements, and therefore, should be read in conjunction with the financial statements and notes thereto contained in the Company's Annual Report to Shareholders for the year ended December 31, 2007.

Operating results for the three and nine month periods ended September 30, 2008 are not necessarily indicative of the results that may be expected for the year ending December 31, 2008.

2. Basic Earnings Per Share

Basic earnings per share for the three months ended September 30, 2008 and 2007 were based on weighted average shares outstanding of 11,302,064 and 11,232,865, respectively.

Basic earnings per share for the nine months ended September 30, 2008 and 2007 were based on weighted average shares outstanding of 11,285,041 and 11,218,305, respectively.

Since the Company has no common stock equivalents outstanding, there is no required calculation for diluted earnings per share.

3. Reclassification

Certain 2007 amounts have been reclassified to conform to the 2008 presentation. Such reclassifications had no effect on the income statement, stockholders' equity and comprehensive income statement, or cash flow category reporting. Contributions in aid of construction were reclassified as a separate line within liabilities for both years presented to be consistent with water industry practice.

4. Capital Commitments

The Company announced the acquisition of the West Manheim Township water system in York County, Pennsylvania during the second quarter of 2007. The purchase price per the agreement is approximately \$2,075. Settlement on this acquisition is expected to take place in the fourth quarter of 2008. In addition to the purchase price of the system, the Company has additional commitments for a main extension and standpipe of \$6,815. As of September 30, 2008, \$2,075 remained to be incurred.

5. Pensions

Components of Net Periodic Pension Cost

	Three Months Ended September 30		Nine Months Ended September 30	
	2008	2007	2008	2007
Service Cost	\$ 154	\$ 181	\$ 463	\$ 543
Interest Cost	303	287	907	862
Expected return on plan assets	(298)	(275)	(894)	(823)
Amortization of loss	3	27	9	80
Amortization of prior service cost	4	67	13	199
Rate-regulated adjustment	34	(87)	102	(261)
Net periodic pension expense	\$ 200	\$ 200	\$ 600	\$ 600

Employer Contributions

The Company previously disclosed in its financial statements for the year ended December 31, 2007 that it expected to contribute \$800 to its pension plans in 2008. The Company now plans to contribute \$896 to its pension plans in 2008. As of September 30, 2008, contributions of \$108 had been made. The Company expects to contribute the remaining \$788 during the fourth quarter of 2008.

6. Interest Rate Swap Agreement

The Company utilizes an interest rate swap agreement to convert its variable-rate debt to a fixed rate (cash flow hedge). The effective portion of the gain or loss on a derivative designated and qualifying as a cash flow hedging instrument is initially reported as a component of other comprehensive income (OCI) and subsequently reclassified into earnings (as interest expense) in the same period or periods during which the hedged transaction affects earnings. The cumulative ineffective portion of the gain or loss on the derivative instrument, if any, is recognized currently in earnings. The fair value of the interest rate swap is recorded on the balance sheet under the caption "Other deferred credits" and had a fair value of \$755 as of September 30, 2008.

During the third quarter of 2008, interest rates generally declined, thereby generating losses on the Company's swap position. In order for the Company to apply hedge accounting, Financial Accounting Standards Board Statement No. 133 (FAS 133), "Accounting for Derivative Instruments and Hedging Activities," requires hedges to be "highly effective," as defined in the statement, with hedge effectiveness judged on the basis of the swap's fair value change relative to the Company's variable rate interest payments. During the quarter ended September 30, 2008, the Company's interest rate on variable rate debt rose sharply relative to the benchmark rate (1-month LIBOR), rendering a degree of ineffectiveness that limited the application of hedge accounting for the quarter ended September 30, 2008. Recognition of the unrealized losses in Accumulated Other Comprehensive Income (AOCI) was limited due to the ineffectiveness of the cash flow hedge. The ineffective portion of the hedge, amounting to \$224, was thus recognized in Interest on Long-term debt in the Statement of Income during the quarter ended September 30, 2008. The Company expects to reclassify \$28 (net of tax) from other comprehensive loss to earnings as an expense over the next twelve months. The interest rate swap will expire on October 1, 2029.

7. Fair Value Measurements

The Company partially adopted Statement of Financial Accounting Standard (SFAS) No. 157, "Fair Value Measurements," in January, 2008. SFAS No. 157 establishes a fair value hierarchy which indicates the extent to which inputs used in measuring fair value are observable in the market. Level 1 inputs include quoted prices for identical instruments and are the most observable. Level 2 inputs include quoted prices for similar assets and observable inputs such as interest rates, commodity rates and yield curves. Level 3 inputs are not observable in the market and include management's own judgments about the assumptions market participants would use in pricing the asset or liability.

The Company has recorded its interest rate swap liability at fair value in accordance with SFAS No. 157. The liability is recorded under the caption "Other deferred credits" on the balance sheet. The table below illustrates the fair value of the interest rate swap as of the end of the reporting period.

Description	September 30, 2008	Fair Value Measurements at Reporting Date Using	
		Significant	Other Observable Inputs (Level 2)
Interest Rate Swap	\$755		\$755

Fair values are measured as the present value of all expected future cash flows based on the LIBOR-based swap yield curve as of the date of the valuation. The inputs to this calculation are deemed to be level 2 inputs.

8. Other Comprehensive Income

	Three Months Ended September 30	
	2008	2007
Net Income	\$ 1,740	\$ 1,757
Unrealized loss on interest rate swap, net of (\$19) income tax in 2008, and (\$134) income tax in 2007	(27)	(195)
Reclassification adjustment for amounts recognized in income, net of \$37 income tax in 2008, and (\$1) income tax in 2007	54 27	(1) (196)
Comprehensive income	\$ 1,767	\$ 1,561
	Nine Months Ended September 30	
	2008	2007
Net Income	\$ 4,446	\$ 4,744
Unrealized gain (loss) on interest rate swap, net of (\$72) income tax in 2008, and \$45 income tax in 2007	(105)	67

Less current maturities	(2,740)	(12,040)
Long-term portion	\$72,460	\$58,465

The 3.6% Industrial Development Authority Revenue Refunding Bonds, Series 1994, have a mandatory tender date of May 15, 2009. The Company plans to meet its \$2,700 obligation using funds available under its lines of credit.

On May 7, 2008, the Pennsylvania Economic Development Financing Authority (PEDFA) issued \$12,000 aggregate principal amount of PEDFA Exempt Facilities Revenue Refunding Bonds, Series A of 2008 (York Water Company Project) (the "Series A Bonds") for our benefit pursuant to the terms of a trust indenture, dated as of May 1, 2008, between the PEDFA and Manufacturers and Traders Trust Company, as trustee. The PEDFA then loaned the proceeds of the offering of the Series A Bonds to us pursuant to a loan agreement, dated as of May 1, 2008, between us and the PEDFA. The loan agreement provides for a \$12,000 loan with a maturity date of October 1, 2029. Amounts outstanding under the loan agreement are our direct general obligations. The proceeds of the loan were used to redeem the PEDFA Exempt Facilities Revenue Bonds, Series B of 2004.

Borrowings under the loan agreement bear interest at a variable rate as determined by PNC Capital Markets, as remarketing agent, on a periodic basis elected by us. We have currently elected that the interest rate be determined on a weekly basis. The remarketing agent determines the interest rate based on then current market conditions in order to determine the lowest interest rate which would cause the Series A Bonds to have a market value equal to the principal amount thereof plus accrued interest thereon. As of September 30, 2008, the interest rate under the loan agreement was 8.35%.

In order to keep variable interest rates down and to enhance the marketability of the Series A Bonds, the Company entered into a Reimbursement, Credit and Security Agreement with PNC Bank, National Association (“the bank”) dated as of May 1, 2008. This agreement provides for a three-year direct pay letter of credit issued by the bank to the trustee for the Series A Bonds. The bank is responsible for providing the trustee with funds for the timely payment of the principal of and interest on the Series A Bonds and for the purchase price of the Series A Bonds that have been tendered or deemed tendered for purchase and have not been remarketed. The Company’s responsibility is to reimburse the bank the same day as regular interest payments are made, and within fourteen months for the purchase price of tendered bonds that have not been remarketed. The reimbursement period for the principal is immediate at maturity, upon default by the Company, or if the Bank does not renew the Letter of Credit. The Letter of Credit is a three-year agreement with a one-year extension evaluated annually.

In connection with the issuance of the PEDFA Series B Bonds of 2004, the Company entered into an interest rate swap transaction with a counterparty in the notional principal amount of \$12,000. The interest rate swap agreement provides that the Company pay the counterparty a fixed interest rate of 3.16% on the notional amount. In exchange, the counterparty pays to the Company a floating interest rate (based on 59% of the U.S. Dollar one-month LIBOR rate) on the notional amount. The purpose of the interest rate swap is to manage the Company’s exposure to fluctuations in prevailing interest rates. The Company elected to retain the swap agreement for the PEDFA Series A Bonds of 2008. The swap agreement expires on October 1, 2029.

10. Acquisitions

On January 5, 2007, the Company closed the acquisition of the water system of Abbottstown Borough which served approximately 400 customers in Adams County, Pennsylvania. The purchase price of approximately \$900 was less than the depreciated original cost of these assets. The Company has recorded a negative acquisition adjustment of approximately \$131 and is amortizing this credit over the remaining life of the acquired assets. The purchase was funded through internally generated funds and short-term borrowings. The Company began serving the customers of Abbottstown Borough in January 2007.

On May 16, 2007, the Company announced that it had entered into an agreement to acquire the water system of West Manheim Township in York County, Pennsylvania. This acquisition is expected to result in the addition of 2,100 customers and will cost approximately \$2,075. The agreement was approved by both the Pennsylvania Public Utility Commission (PPUC) and the Pennsylvania Department of Environmental Protection (DEP). The Company began construction on a main from its current distribution system to interconnect with West Manheim’s distribution system in April 2008. The interconnection and closing on this acquisition are expected to occur in the fourth quarter of 2008.

The Company has entered into an agreement to purchase the water facilities of the Asbury Pointe Water Company in York County, Pennsylvania. This acquisition is expected to result in the addition of 250 customers and will cost approximately \$242. The agreement was approved by the PPUC on September 12, 2008. The Company will acquire and continue to use Asbury Pointe’s distribution system through an interconnection with its current distribution system. The Company’s water main has been completed and closing on this acquisition is expected to occur in the fourth quarter of 2008.

11. Notes Receivable

In March 2007, the Company corrected a miscalculation of a note receivable with one of the water districts served. While this recalculation was deemed immaterial to operations as a whole, it reduced notes receivable by \$544, customer advances by \$473 and net income by \$71. The income reduction was applicable to the years 2003-2006.

12. Rate Matters

From time to time the Company files applications for rate increases with the PPUC and is granted rate relief as a result of such requests. The most recent rate request was filed by the Company on May 16, 2008, and sought an increase of \$7.1 million, which would have represented a 19.6% increase in rates. Effective October 9, 2008, the PPUC authorized an increase in rates designed to produce approximately \$5,950,000 in additional annual revenues.

13. Impact of Recent Accounting Pronouncements

In September 2006, the Financial Accounting Standards Board (FASB) issued SFAS No. 157, "Fair Value Measurements," to eliminate the diversity in practice that exists due to the different definitions of fair value and the limited guidance for applying those definitions. SFAS No. 157 defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (an exit price), as opposed to the price that would be paid to acquire the asset or received to assume the liability at the measurement date (an entry price). SFAS No. 157, as originally issued, is effective for financial statements issued for fiscal years beginning after November 15, 2007, and interim periods within those fiscal years. In February 2008, the FASB issued FSP FAS 157-2 which delays the effective date, by one year, of SFAS No. 157 for nonfinancial assets and nonfinancial liabilities with certain exceptions. The Company adopted this standard for financial assets and liabilities in January 2008 and determined that it did not have an impact on its financial position or results of operations, but required additional disclosures with regard to its interest rate swap. See Note 7 for additional disclosures. The Company will review non-financial assets and liabilities for applicability and adopt this standard for those instruments, if applicable, in January 2009. In October 2008, the FASB issued FSP SFAS No. 157-3, "Determining the Fair Value of a Financial Asset When The Market for That Asset Is Not Active" (FSP 157-3), to clarify the application of the provisions of SFAS 157 in an inactive market and how an entity would determine fair value in an inactive market. FSP 157-3 is effective immediately and applies to our September 30, 2008 financial statements. The application of the provisions of FSP 157-3 did not affect the Company's results of operations or financial condition as of and for the periods ended September 30, 2008.

In February 2007, the FASB issued SFAS No. 159, "Establishing the Fair Value Option for Financial Assets and Liabilities," to permit all entities to choose to elect to measure eligible financial instruments at fair value. The decision to elect the fair value option should be made on an instrument-by-instrument basis with certain exceptions. If the fair value option is elected, an entity must report unrealized gains and losses in earnings at each subsequent reporting date, and recognize upfront costs and fees related to those items in earnings as incurred and not deferred. SFAS No. 159 applies to fiscal years beginning after November 15, 2007, with early adoption permitted for an entity that has also elected to apply the provisions of SFAS No. 157, "Fair Value Measurements." The Company elected not to apply the provisions of SFAS No. 159 for financial instruments not previously recorded at fair value.

In December 2007, the FASB issued SFAS No. 141(R), "Business Combinations." The statement establishes principles and requirements for how the acquirer (1) recognizes and measures in its financial statements the identifiable assets acquired, the liabilities assumed, and any noncontrolling interest in the acquiree, (2) recognizes and measures the goodwill acquired in the business combination or a gain from a bargain purchase, and (3) determines what information to disclose to enable users of the financial statements to evaluate the nature and financial effects of the business combination. This statement is effective for annual periods beginning after December 15, 2008. The Company is currently reviewing this statement to determine its impact on the Company's financial statements.

In December 2007, the FASB issued SFAS No. 160, "Noncontrolling Interests in Consolidated Financial Statements-an amendment of ARB No. 51." SFAS No. 160 requires all entities to report noncontrolling (minority) interests in subsidiaries as equity in the consolidated financial

statements and it requires consolidated net income to include amounts attributable to both the parent and noncontrolling interest. This statement is effective for annual periods beginning after December 15, 2008. This statement will not affect the Company's financial statements as the Company does not have any subsidiaries.

In March 2008, the FASB issued SFAS No. 161, "Disclosures about Derivative Instruments and Hedging Activities – an amendment of FASB Statement No. 133." This standard requires companies to provide qualitative disclosures about the objectives and strategies for using derivatives, quantitative data about the fair value of and gains and losses on derivative contracts, and details of credit-risk-related contingent features in their hedged positions. This standard is effective for financial statements issued for fiscal years and interim periods beginning after November 15, 2008, with early application encouraged, but not required. The Company is currently researching the additional required disclosures with regard to its interest rate swap and plans to adopt this standard as soon as practicable.

In May 2008, the FASB issued SFAS No. 162, "The Hierarchy of Generally Accepted Accounting Principles." This guidance identifies sources of accounting principles and the framework for selecting the principles used in the preparation of financial statements of nongovernmental entities that are presented in accordance with U.S. generally accepted accounting principles (GAAP). This statement is effective 60 days after the SEC's approval of the Public Company Accounting Oversight Board Auditing amendments to SAS No. 69. This statement is not expected to have an impact on the Company's financial statements.

In September 2008, the FASB ratified EITF Issue No. 08-5, "Issuer's Accounting for Liabilities Measured at Fair Value With a Third-Party Credit Enhancement" (EITF 08-5). EITF 08-5 provides guidance for measuring liabilities issued with an attached third-party credit enhancement (such as a guarantee). It clarifies that the issuer of a liability with a third-party credit enhancement should not include the effect of the credit enhancement in the fair value measurement of the liability. EITF 08-5 is effective for the first reporting period beginning after December 15, 2008. The Company is currently assessing the impact of EITF 08-5 on its consolidated financial position and results of operations.

14. Subsequent Event

On October 15, 2008, the PEDFA issued \$15,000 aggregate principal amount of PEDFA Exempt Facilities Revenue Refunding Bonds, Series B of 2008 (The York Water Company Project) (the "Series B Bonds") for our benefit pursuant to the terms of a trust indenture, dated as of October 1, 2008, between the PEDFA and Manufacturers and Traders Trust Company, as trustee. The PEDFA then loaned the proceeds of the offering of the Series B Bonds to us pursuant to a loan agreement, dated as of October 1, 2008, between the Company and the PEDFA. The loan agreement provides for a \$15,000 loan bearing interest at a rate of 6.00% with a maturity date of November 1, 2038. Amounts outstanding under the loan agreement are the Company's direct general obligations. The loan agreement contains various covenants and restrictions. The Company believes it is currently in compliance with all of these restrictions. The proceeds of the loan, net of issuance costs, are being used to pay down a portion of the Company's short-term borrowings incurred for capital improvements, replacements and equipment for the Company's water system. The Series B Bonds are subject to redemption at the direction of the Company, in whole or in part at any time on or after November 1, 2013. In addition, other special redemption requirements may apply as defined in the loan agreement.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations
(In thousands of dollars, except per share amounts)

Forward-looking Statements

This report on Form 10-Q contains certain matters which are not historical facts, but which are forward-looking statements. Words such as "may," "should," "believe," "anticipate," "estimate," "expect," "intend," "plan" and similar expressions are intended to identify forward-looking statements. The Company intends for these forward-looking statements to qualify for safe harbor from liability established by the Private Securities Litigation Reform Act of 1995. These forward-looking statements include certain information relating to the Company's business strategy; statements including, but not limited to:

- expected profitability and results of operations;
- goals, priorities and plans for, and cost of, growth and expansion;
- strategic initiatives;
- availability of water supply;
- water usage by customers; and
- ability to pay dividends on common stock and the rate of those dividends.

The forward-looking statements in this report reflect what the Company currently anticipates will happen. What actually happens could differ materially from what it currently anticipates will happen. The Company does not intend to make any public announcement when forward-looking statements in this report are no longer accurate, whether as a result of new information, what actually happens in the future or for any other reason. Important matters that may affect what will actually happen include, but are not limited to:

Edgar Filing: YORK WATER CO - Form 10-Q

- changes in weather, including drought conditions;
- levels of rate relief granted;
- the level of commercial and industrial business activity within the Company's service territory;
- construction of new housing within the Company's service territory and increases in population;
- changes in government policies or regulations;
- the ability to obtain permits for expansion projects;
- material changes in demand from customers, including the impact of conservation efforts which may impact the demand of customers for water;
- changes in economic and business conditions, including interest rates, which are less favorable than expected;
- the ability to obtain financing; and
- other matters set forth in Item 1A, "Risk Factors" of the Company's Annual Report on Form 10-K for 2007 and the current Form 10-Q.

Page 13

General Information

The business of the Company is to impound, purify to meet or exceed safe drinking water standards and distribute water. The Company operates entirely within its franchised territory, which covers 39 municipalities within York County, Pennsylvania and seven municipalities within Adams County, Pennsylvania. The Company is regulated by the Pennsylvania Public Utility Commission, or PPUC, in the areas of billing, payment procedures, dispute processing, terminations, service territory, debt and equity financing and rate setting. The Company must obtain PPUC approval before changing any of the aforementioned procedures. Water service is supplied through the Company's own distribution system. The Company obtains its water supply from both the South Branch and East Branch of the Codorus Creek, which together have an average daily flow of 89.0 million gallons per day. This combined watershed area is approximately 117 square miles. The Company has two reservoirs, Lake Williams and Lake Redman, which together hold up to approximately 2.2 billion gallons of water. The Company has a 15-mile pipeline from the Susquehanna River to Lake Redman which provides access to an additional supply of 12.0 million gallons of untreated water per day. As of September 30, 2008, the Company's average daily availability was 35.0 million gallons, and daily consumption was approximately 18.5 million gallons. The Company's service territory had an estimated population of 171,000 as of December 31, 2007. Industry within the Company's service territory is diversified, manufacturing such items as fixtures and furniture, electrical machinery, food products, paper, ordnance units, textile products, air conditioning systems, barbells and motorcycles.

The Company's business is somewhat dependent on weather conditions, particularly the amount of rainfall. The Company has minimum customer charges in place which are intended to cover fixed costs of operations under all likely weather conditions; however, increased rainfall and a sluggish economy have combined to reduce per capita consumption by commercial, industrial and residential customers by approximately 4.2% as of September 30, 2008 compared to September 30, 2007.

The Company's business does not require large amounts of working capital and is not dependent on any single customer or a very few customers for a material portion of its business. Increases in revenues are generally dependent on obtaining rate increases from regulatory authorities in a timely manner and in an adequate amount, and increasing volumes of water sold through increased consumption and increases in the number of customers served.

Results of Operations

Three Months Ended September 30, 2008 Compared With Three Months Ended September 30, 2007

Net income for the third quarter of 2008 was \$1,740, a decrease of \$17, or 1.0%, from net income of \$1,757 for the same period of 2007. The primary contributing factor to the decrease in net income was higher long-term interest expense due to a loss on the Company's interest rate swap (see Item 3) and increased borrowings under the committed line of credit. The increased expenses were partially offset by higher water revenues.

Water operating revenues for the three months ended September 30, 2008 increased \$286, or 3.5%, from \$8,280 for the three months ended September 30, 2007 to \$8,566 for the corresponding 2008 period. The primary reasons for the increase in revenues were growth in the customer base and an increased distribution surcharge. The average number of customers served in the third quarter of 2008 increased as compared to the same period in 2007 by 724 customers, from 58,697 to 59,421 customers due to growth in the Company's service territory. The distribution surcharge was 2.18% during the third quarter of 2008 compared to 0.48% during the same period of 2007. The total per capita volume of water sold in the third quarter of 2008 decreased compared to the corresponding 2007 period by approximately 3.1%. Reduced consumption is attributed to a sluggish economy and increased rainfall.

Operating expenses for the third quarter of 2008 increased \$175, or 4.0%, from \$4,366 for the third quarter of 2007 to \$4,541 for the corresponding 2008 period. Higher depreciation expense of approximately \$60 due to increased plant investment, higher power costs of approximately \$43, increased realty taxes of approximately \$39 and higher banking fees of approximately \$32 were the principal reasons for the increase. Higher health insurance costs, transportation expenses, directors' fees, reduced capitalized overhead and other operating expenses aggregating approximately \$108 also added to the increase. The increase in expenses was partially offset by reduced chemical costs, lower software support expenses and reduced salary and wage expense aggregating approximately \$107.

Interest expense on long-term debt for the third quarter of 2008 increased \$379, or 38.6%, from \$983 for the third quarter of 2007 to \$1,362 for the corresponding 2008 period. The primary reason for the increase was a loss on the interest rate swap of approximately \$270 (before taxes). Increased borrowings under the Company's committed line of credit to fund operations and construction and higher variable interest rates increased expenses by approximately \$109.

Interest expense on short-term debt for the third quarter of 2008 was \$13 lower than the same period in 2007 due to a reduction in rates. The average short-term debt outstanding was \$7,815 for the third quarter of 2008 and \$4,548 for the third quarter of 2007. The average interest rate on short-term debt was 3.17% for the quarter ended September 30, 2008 compared to 6.13% for the quarter ended September 30, 2007.

Allowance for funds used during construction increased \$98, from \$59 in the third quarter of 2007 to \$157 in the 2008 period, due to an increased volume of construction expenditures. Eligible 2008 construction expenditures include large investments in a water treatment replacement and expansion project and a main extension for the West Manheim acquisition.

Other expenses, net for the third quarter of 2008 increased by \$16 as compared to the same period of 2007. The increase was primarily due to demolition costs on one of the Company's non-operating properties. Increased supplemental retirement expenses, higher amortization of debt expense due to a new debt issue (see discussion in the Liquidity section) and other expenses aggregating approximately \$17 also added to the increase. The increased expenses were partially offset by decreased charitable contributions of approximately \$17.

Federal and state income taxes for the third quarter of 2008 decreased by \$156, or 13.9%, compared to the same period of 2007 primarily due to a decrease in taxable income. The Company's effective tax rate was 35.8% in the third quarter of 2008 and 39.0% in the third quarter of 2007. Third quarter 2007 included additional 2006 tax expense to adjust to the filed tax return.

Nine Months Ended September 30, 2008 Compared With Nine Months Ended September 30, 2007

Net income for the first nine months of 2008 was \$4,466, a decrease of \$278, or 5.9%, from net income of \$4,744 for the same period of 2007. The primary contributing factors to the decrease in net income were higher interest expense and increased operating expenses. The increased expenses were partially offset by higher water revenues.

Water operating revenues for the nine months ended September 30, 2008 increased \$307, or 1.3%, from \$23,627 for the nine months ended September 30, 2007 to \$23,934 for the corresponding 2008 period. The primary reasons for the increase in revenues were customer growth and an increased distribution surcharge. The average number of customers served in the first nine months of 2008 increased as compared to the same period in 2007 by 847 customers, from 58,375 to 59,222 customers due to growth in the Company's service territory. The distribution surcharge averaged 1.95% during the first three quarters of 2008 compared to 0.22% during the same period of 2007. Throughout the first nine months of 2008, the Company experienced a 4.2% decline in per capita consumption, of which the largest decline occurred in the commercial and industrial categories, closely followed by residential customers. The reduction is attributed in part to a sluggish economy and increased rainfall.

Operating expenses for the first nine months of 2008 increased \$602, or 4.7%, from \$12,918 for the first nine months of 2007 to \$13,520 for the corresponding 2008 period. Higher depreciation expense of approximately \$305 due to increased plant investment, higher salaries of approximately \$127 due to wage increases and additional employees, increased health insurance costs of approximately \$113, higher realty taxes of approximately \$85, increased transportation costs of approximately \$72 and higher banking fees of approximately \$72 were the principal reasons for the increase. Higher power costs, director and legal fees and meter repair expenses aggregating approximately \$179

also added to the increase. The increase in expenses was partially offset by lower software support expenses of approximately \$216, reduced travel and seminar expenses of approximately \$46, lower shareholder costs of approximately \$45 and reduced chemical expenses of approximately \$44.

Interest expense on long-term debt for the first nine months of 2008 increased \$671, or 23.0%, from \$2,913 for the first three quarters of 2007 to \$3,584 for the corresponding 2008 period. The primary reasons for the increase were increased borrowings under the Company's committed line of credit to fund operations and construction, a loss on the interest rate swap (see Item 3) and higher variable interest rates.

Interest expense on short-term debt for the first nine months of 2008 was \$21 higher than the same period in 2007 due to an increase in short-term borrowings partially offset by a reduction in rates. The average short-term debt outstanding was \$5,818 for the first three quarters of 2008 and \$2,679 for the first three quarters of 2007. The average interest rate on short-term debt was 3.65% during the nine months ended September 30, 2008 compared to 6.07% during the nine months ended September 30, 2007.

Allowance for funds used during construction increased \$351, from \$130 in the nine months of 2007 to \$481 in the 2008 period, due to an increased volume of construction expenditures. Eligible 2008 construction expenditures include an investment in a large water treatment replacement and expansion project.

Other expenses, net for the nine months of 2008 decreased by \$11 as compared to the same period of 2007. The decrease was primarily due to higher interest income in the first three quarters of 2008 of approximately \$53 on water district notes receivable. Interest income on water district notes receivable in the first nine months of 2007 included a negative adjustment (expense) due to the recalculation of a note. Decreased charitable contributions of approximately \$22 also reduced other expenses. The reduced expenses were partially offset by higher supplemental retirement expenses of approximately \$47 and other expenses aggregating approximately \$17.

Federal and state income taxes for the first nine months of 2008 decreased by \$347, or 12.4%, compared to the same period of 2007 primarily due to a decrease in taxable income. The Company's effective tax rate was 35.4% in the first three quarters of 2008 and 37.0% in the three quarters of 2007.

Rate Matters

From time to time the Company files applications for rate increases with the PPUC and is granted rate relief as a result of such requests. The most recent rate request was filed by the Company on May 16, 2008, and sought an increase of \$7.1 million, which would have represented a 19.6% increase in rates. Effective October 9, 2008, the PPUC authorized an increase in rates designed to produce approximately \$5,950,000 in additional annual revenues.

Acquisitions

On January 5, 2007, the Company closed the acquisition of the water system of Abbottstown Borough which served approximately 400 customers in Adams County, Pennsylvania. The purchase price of approximately \$900 was less than the depreciated original cost of these assets. The Company has recorded a negative acquisition adjustment of approximately \$131 and is amortizing this credit over the remaining life of the acquired assets. The purchase was funded through internally generated funds and short-term borrowings. The Company began serving the customers of Abbottstown Borough in January 2007.

On May 16, 2007, the Company announced that it had entered into an agreement to acquire the water system of West Manheim Township in York County, Pennsylvania. This acquisition is expected to result in the addition of 2,100 customers and will cost approximately \$2,075. The agreement was approved by both the Pennsylvania Public Utility Commission (PPUC) and the Pennsylvania Department of Environmental Protection (DEP). The Company began construction on a main from its current distribution system to interconnect with West Manheim's distribution system in April 2008. The interconnection and closing on this acquisition are expected to occur in the fourth quarter of 2008.

The Company has entered into an agreement to purchase the water facilities of the Asbury Pointe Water Company in York County, Pennsylvania. This acquisition is expected to result in the addition of 250 customers and will cost approximately \$242. The agreement was approved by the PPUC on September 12, 2008. The Company will acquire and continue to use Asbury Pointe's distribution system through an interconnection with its current distribution system. The Company's water main has been completed and closing on this acquisition is expected to occur in the fourth quarter of 2008.

Liquidity and Capital Resources

On May 7, 2008, the Pennsylvania Economic Development Financing Authority (PEDFA) issued \$12,000 aggregate principal amount of PEDFA Exempt Facilities Revenue Refunding Bonds, Series A of 2008 (York Water Company Project) (the "Series A Bonds") for our benefit pursuant to the terms of a trust indenture, dated as of May 1, 2008, between the PEDFA and Manufacturers and Traders Trust Company, as trustee. The PEDFA then loaned the proceeds of the offering of the Series A Bonds to us pursuant to a loan agreement, dated as of May 1, 2008, between us and the PEDFA. The loan agreement provides for a \$12,000 loan with a maturity date of October 1, 2029. Amounts outstanding under the loan agreement are our direct general obligations. The proceeds of the loan were used to redeem the PEDFA Exempt Facilities Revenue Bonds, Series B of 2004.

Borrowings under the loan agreement bear interest at a variable rate as determined by PNC Capital Markets, as remarketing agent, on a periodic basis elected by us. We have currently elected that the interest rate be determined on a weekly basis. The remarketing agent determines the interest rate based on then current market conditions in order to determine the lowest interest rate which would cause the Series A Bonds to have a market value equal to the principal amount thereof plus accrued interest thereon. As of October 30, 2008, the interest rate under the loan agreement was 1.98%.

In order to keep variable interest rates down and to enhance the marketability of the Series A Bonds, the Company entered into a Reimbursement, Credit and Security Agreement with PNC Bank, National Association ("the bank") dated as of May 1, 2008. This agreement provides for a three-year direct pay letter of credit issued by the bank to the trustee for the Series A Bonds. The bank is responsible for providing the trustee with funds for the timely payment of the principal of and interest on the Series A Bonds and for the purchase price of the Series A Bonds that have been tendered or deemed tendered for purchase and have not been remarketed. The Company's responsibility is to reimburse the bank the same day as regular interest payments are made, and within fourteen months for the purchase price of tendered bonds that have not been remarketed. The reimbursement period for the principal is immediate at maturity, upon default by the Company, or if the Bank does not renew the Letter of Credit. The Letter of Credit is a three-year agreement with a one-year extension evaluated annually.

In connection with the issuance of the PEDFA Series B Bonds of 2004, the Company entered into an interest rate swap transaction with a counterparty in the notional principal amount of \$12,000. The interest rate swap agreement provides that the Company pay the counterparty a fixed interest rate of 3.16% on the notional amount. In exchange, the counterparty pays to the Company a floating interest rate (based on 59% of the U.S. Dollar one-month LIBOR rate) on the notional amount. The purpose of the interest rate swap is to manage the Company's exposure to fluctuations in prevailing interest rates. The Company elected to retain the swap agreement for the PEDFA Series A Bonds of 2008. The swap agreement expires on October 1, 2029.

In June 2008, the Company modified its Dividend Reinvestment Plan to include direct stock purchase and sale options. These options are subject to certain restrictions and are available to both current shareholders and the general public. Purchases are made weekly at 100% of the stock's fair market value, as defined in the Prospectus contained in Amendment No. 1 to Securities and Exchange Commission Form S-3, filed by the Company on June 26, 2008. Since inception of the modification, \$225 in equity proceeds have been realized.

As of September 30, 2008, current liabilities exceeded current assets by \$13,897. At December 31, 2007, current liabilities exceeded current assets by \$14,548. The change was primarily due to a decrease in current maturities of long-term debt, due to the redemption of our \$12,000 variable rate PEDFA Series B Bonds described below, the reclassification of our \$2,700 Revenue Refunding Bonds to short-term and an increase in short-term borrowings. The 3.6% Industrial Development Authority Revenue Refunding Bonds, Series 1994, have a mandatory tender date of May 15, 2009. The Company plans to meet its \$2,700 obligation using funds available under its lines of credit. The Company maintains two lines of credit aggregating \$28,000. Loans granted under these lines of credit bear interest at

LIBOR plus 0.70% to 0.75%. Both lines of credit are unsecured. One line, amounting to \$11,000 is payable upon demand, whereas the other is a committed line with a revolving 2-year maturity. The Company had \$22,435 outstanding borrowings under its lines of credit as of September 30, 2008 and \$11,210 outstanding borrowings as of December 31, 2007. The borrowings were incurred primarily for acquisitions and construction expenditures. \$12,935 of the outstanding borrowings were under the committed line of credit and classified as long term, and \$9,500 of the borrowings were under the short-term line. The weighted average interest rate on line of credit borrowings at September 30, 2008 was 3.18%. The Company is not required to maintain compensating balances on its lines of credit.

During the first nine months of 2008, the Company was able to fund operating activities and construction expenditures using internally-generated funds, borrowings against the Company's lines of credit, proceeds from the issuance of common stock under its dividend reinvestment and direct stock purchase and sale plan and employee stock purchase plan, or ESPP, customer advances and the distribution surcharge allowed by the PPUC. The distribution surcharge allows the Company to add a charge to customers' bills for qualified replacement costs of certain infrastructure without submitting a rate filing. The Company incurred \$17,576 of construction expenditures for routine items as well as a new emergency diesel generator for the main pumping station, main replacements, distribution center renovations, standpipe and main extension expenditures for West Manheim and a water treatment replacement and expansion project. The Company anticipates construction expenditures for the remainder of 2008 of approximately \$6,064. In addition to routine transmission and distribution projects, a portion of the anticipated 2008 expenditures will be for additional booster stations, the West Manheim acquisition and main extension and various replacements of aging infrastructure. Internally-generated funds, borrowings against the Company's lines of credit, proceeds from the issuance of common stock under its dividend reinvestment and direct stock purchase and sale plan and ESPP, customer advances and a long-term debt issue (completed in October) will be used to satisfy the need for additional cash.

On October 15, 2008, the PEDFA issued \$15,000 aggregate principal amount of PEDFA Exempt Facilities Revenue Refunding Bonds, Series B of 2008 (The York Water Company Project) (the "Series B Bonds") for our benefit pursuant to the terms of a trust indenture, dated as of October 1, 2008, between the PEDFA and Manufacturers and Traders Trust Company, as trustee. The PEDFA then loaned the proceeds of the offering of the Series B Bonds to us pursuant to a loan agreement, dated as of October 1, 2008, between the Company and the PEDFA. The loan agreement provides for a \$15,000 loan bearing interest at a rate of 6.00% with a maturity date of November 1, 2038. Amounts outstanding under the loan agreement are the Company's direct general obligations. The loan agreement contains various covenants and restrictions. The Company believes it is currently in compliance with all of these restrictions. The proceeds of the loan, net of issuance costs, are being used to pay down a portion of the Company's short-term borrowings incurred for capital improvements, replacements and equipment for the Company's water system. The Series B Bonds are subject to redemption at the direction of the Company, in whole or in part at any time on or after November 1, 2013. In addition, other special redemption requirements may apply as defined in the loan agreement.

The Company is affected by inflation, most notably by the continually increasing costs incurred to maintain and expand its service capacity. The cumulative effect of inflation results in significantly higher facility replacement costs which must be recovered from future cash flows. The ability of the Company to recover this increased investment in facilities is dependent upon future rate increases, which are subject to approval by the PPUC. The Company can provide no assurances that its rate increases will be approved by the PPUC; and, if approved, the Company cannot guarantee that these rate increases will be granted in a timely or sufficient manner to cover the investments and expenses for which the rate increase was sought.

Critical Accounting Estimates

The methods, estimates and judgments we use in applying our accounting policies have a significant impact on the results we report in our financial statements. Our accounting policies require us to make subjective judgments because of the need to make estimates of matters that are inherently uncertain. Our most critical accounting estimates include: regulatory assets and liabilities, revenue recognition and accounting for our pension plans. There has been no significant change in our accounting estimates or the method of estimation during the quarter ended September 30, 2008.

Off-Balance Sheet Transactions

The Company does not use off-balance sheet transactions, arrangements or obligations that may have a material current or future effect on financial condition, results of operations, liquidity, capital expenditures, capital resources, or significant components of revenues or expenses. The Company does not engage in trading or risk management activities with the exception of the interest rate swap agreement mentioned above; does not use derivative financial instruments for speculative trading purposes; has no lease obligations and does not have material transactions involving related parties.

Impact of Recent Accounting Pronouncements

See note 13 to the Financial Statements.

Page 18

Item 3. Quantitative and Qualitative Disclosures About Market Risk

The Company does not use off-balance sheet transactions, arrangements or obligations that may have a material current or future effect on financial condition, results of operations, liquidity, capital expenditures, capital resources, or significant components of revenues or expenses. The Company does not use securitization of receivables or unconsolidated entities. The Company does not engage in trading or risk management activities with the exception of an interest rate swap agreement, described below, does not use derivative financial instruments for speculative trading purposes, has no lease obligations, and does not have material transactions involving related parties.

The Company's operations are exposed to market risks primarily as a result of changes in interest rates. This exposure to these market risks relates to the Company's debt obligations under its lines of credit. The Company maintains unsecured lines of credit aggregating \$28,000 with two banks, under which there were borrowings of \$22,435 outstanding as of September 30, 2008. Loans granted under these lines bear interest based on LIBOR plus 0.70 to 0.75 percent. One line, amounting to \$11,000 is payable upon demand, whereas the other is a committed line with a revolving 2-year maturity. The weighted average interest rate on outstanding borrowings under these lines at September 30, 2008 was 3.18%. A 25-basis point increase in LIBOR would cause additional interest expense of approximately \$56 on an annual basis. Other than lines of credit, the Company has long-term fixed rate debt obligations and a variable-rate long-term debt obligation, the PEDFA Series A issue of 2008.

In May 2008, the PEDFA issued \$12.0 million aggregate principal amount of PEDFA Exempt Facilities Revenue Refunding Bonds, Series A of 2008 (York Water Company Project) (the "Series A Bonds"). The PEDFA then loaned the proceeds to the Company pursuant to a variable interest rate loan agreement with a maturity date of October 1, 2029. The interest rate on the loan as of October 30, 2008 was 1.98%. In connection with the loan agreement, the Company continued its interest rate swap agreement which typically results in the Company's floating rate obligation becoming substantially a fixed rate obligation. The purpose of the interest rate swap is to manage the Company's exposure to fluctuations in the interest rate. This was not the case during the third quarter of 2008.

During the third quarter of 2008, interest rates generally declined, however the Company's interest rate on variable rate debt rose sharply relative to the benchmark rate (1-month LIBOR), rendering a degree of ineffectiveness that limited the application of hedge accounting for the quarter ended September 30, 2008. As a consequence, recognition of this unrealized loss in Accumulated Other Comprehensive Income (AOCI) was limited for the quarter ended September 30, 2008. This unrealized loss, amounting to \$224, was thus recognized in earnings in the third quarter. The continuing volatility of the economy and the current absence of historical relationships between interest rates could cause additional losses or gains to be recorded through earnings in subsequent quarters.

Item 4. Controls and Procedures

(a) Evaluation of Disclosure Controls and Procedures

The Company's management, with the participation of the Company's President and Chief Executive Officer and Chief Financial Officer, evaluated the effectiveness of the Company's disclosure controls and procedures as of the end of the period covered by this report. Based upon this evaluation, the Company's President and Chief Executive Officer along with the Chief Financial Officer concluded that the Company's disclosure controls and procedures as of the end of the period covered by this report are functioning effectively to provide reasonable assurance that the information required to be disclosed by the Company in reports filed under the Securities Exchange Act of 1934 is (i) recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms and (ii) accumulated and communicated to the Company's management, including the President and Chief Executive Officer and Chief Financial Officer, as appropriate to allow timely decisions regarding disclosure.

(b) Change in Internal Control over Financial Reporting

No change in the Company's internal control over financial reporting occurred during the Company's most recent fiscal quarter that has materially affected, or is reasonably likely to materially affect, the Company's internal control over financial reporting.

Part II – OTHER INFORMATION

Item 1A. Risk Factors.

Interest Rates

The Company is subject to interest rate risk in conjunction with its \$12,000,000 variable interest rate debt issue. This exposure, however, has been hedged with an interest rate swap. This hedge will protect the Company from the risk of changes in the benchmark interest rates, but does not protect the Company's exposure to the changes in the difference between its own variable funding rate and the benchmark rate. A breakdown of the historical relationships between the Company's cost of funds and the benchmark rate underlying the interest rate swap may preclude the application of cash flow hedge accounting and thereby foster an income consequence not representative of the Company's hedging orientation.

Item 6. Exhibits

The following Part 1 exhibits are attached to this report:

- 4.1 Dividend Reinvestment and Direct Stock Purchase and Sale Plan (Incorporated by reference to Post-Effective Amendment No. 1 to Form S-3 filed with the SEC on June 26, 2008) (File No. 333-59072).
- 31.1 Certification of Chief Executive Officer, pursuant to Rule 13a-14(a)/15d-14(a) under the Securities Exchange Act of 1934.
- 31.2 Certification of Chief Financial Officer, pursuant to Rule 13a-14(a)/15d-14(a) under the Securities Exchange Act of 1934.
- 32.1 Certification of Chief Executive Officer, pursuant to 18 U.S.C. Section 1350, as adopted pursuant to Section 906 of the Sarbanes-Oxley Act of 2002.
- 32.2 Certification of Chief Financial Officer, pursuant to 18 U.S.C. Section 1350, as adopted pursuant to Section 906 of the Sarbanes-Oxley Act of 2002.
