

ADVANCED BATTERY TECHNOLOGIES, INC.
Form 10-K/A
April 24, 2009

UNITED STATES

SECURITIES AND EXCHANGE COMMISSION
Washington, D.C. 20549

FORM 10-K/A
(Amendment #1)

ANNUAL REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934.

For the fiscal year ended December 31, 2008.

OR

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934.

Commission File No. 1-33726

ADVANCED BATTERY TECHNOLOGIES, INC,
(Name of Small Business Issuer in its Charter)

Delaware
(State or other jurisdiction
of incorporation or organization)

22-2497491
(I.R.S. Employer ID Number)

21 West 39th Street, Suite 2A, New York, NY 10018
(Address of principal executive offices)

Issuer's Telephone Number, including Area Code: 212-391-2752

Securities Registered Pursuant to Section 12(b) of the Act: None
Securities Registered Pursuant to Section 12(g) of the Act:

Common Stock, \$.001 par value per share

Indicate by check mark if the registrant is a well-known seasoned issuer, as defined in Rule 406 of the Securities Act. Yes No

Indicate by check mark if the registrant is not required to file reports pursuant to Section 13 or Section 15(d) of the Act. Yes No

Edgar Filing: ADVANCED BATTERY TECHNOLOGIES, INC. - Form 10-K/A

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Sections 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark disclosure of delinquent filers pursuant to Item 405 of Regulation S-K (§ 229.405) is not contained herein, and will not be contained, to the best of registrant's knowledge, in definitive proxy or information statements incorporated by reference in Part III of this Form 10-K or any amendment to this Form 10-K. []

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See the definitions of "large accelerated filer," "accelerated filer" and "smaller reporting company" in Rule 12b-2 of the Exchange Act. (Check One)

Large accelerated filer Accelerated filer Non-accelerated filer Small reporting company

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes No

State the aggregate market value of the voting and non-voting common equity held by non-affiliates, computed by reference to the price at which the common equity was sold, or the average bid and ask prices of such common equity, as of a specified date within the past 60 days.

The aggregate market value of the Registrant's common stock, \$.001 par value, held by non-affiliates as of March 12, 2009 was \$ 78,590,584.

As of March 12, 2009 the number of shares outstanding of the Registrant's common stock was 54,662,067 shares, \$.001 par value.

DOCUMENTS INCORPORATED BY REFERENCE: None

Amendment No. 1

This amendment is being filed in order to

- correct the Commission File Number on it cover;
 - edit Item 7: Management's Discussion and Analysis to add one sentence to "Results of Operations – Year Ended December 31, 2008 Compared to Year Ended December 31, 2007," and one sentence to "Results of Operations – Year Ended December 31, 2007 Compared to Year Ended December 31, 2006;"
 - edit Notes 7, 14 and 15 in the Notes to Consolidated Financial Statements;
 - add Note 23 to the Notes to Consolidated Financial Statements; and
 - amend Exhibits 31.1, 31.2 and 32.
-

FORWARD-LOOKING STATEMENTS: NO ASSURANCES INTENDED

In addition to historical information, this Annual Report contains forward-looking statements, which are generally identifiable by use of the words “believes,” “expects,” “intends,” “anticipates,” “plans to,” “estimates,” “projects,” or similar expressions. These forward-looking statements represent Management’s belief as to the future of Advanced Battery Technologies. Whether those beliefs become reality will depend on many factors that are not under Management’s control. Many risks and uncertainties exist that could cause actual results to differ materially from those reflected in these forward-looking statements. Factors that might cause such a difference include, but are not limited to, those discussed in the section entitled “Risk Factors.” Readers are cautioned not to place undue reliance on these forward-looking statements. We undertake no obligation to revise or publicly release the results of any revision to these forward-looking statements.

PART 1

ITEM 1 BUSINESS

Advanced Battery Technologies, Inc. is a holding company with one subsidiary: Cashtech Investment Limited, a British Virgin Islands corporation. Cashtech Investment Limited is also a holding company with only one subsidiary: Heilongjiang ZhongQiang Power-Tech Co., Ltd., a China limited liability company (“ZQ Power-Tech”). Advanced Battery Technologies also owns a 49% interest in Beyond E-Tech, Inc., a Texas corporation that distributes cellular telephones in the United States.

ZQ Power-Tech

ZQ Power-Tech is a limited liability company that was organized under the laws of the People’s Republic of China in August 2002. ZQ Power-Tech’s offices and manufacturing facility are located in northern China, in the Province of Heilongjiang, in the Economy & High-Tech Development Zone of Shuangcheng, which is a suburb of Harbin. The location is approximately 1,000 km northeast of Beijing.

The Harbin Institute of Technology is one of the leading technological institutions in Asia. Two of its engineering professors now serve on ZQ Power-Tech’s Scientific Advisory Board, along with a professor of engineering at the China Engineering Academy. This close association with the Harbin Institute of Technology provides ZQ Power-Tech with a rich source of technological talent, such that ZQ Power-Tech’s research staff is filled by experienced engineers, many with masters and Ph.D degrees.

ZQ Power-Tech designs, manufactures and markets rechargeable polymer lithium-ion (“PLI”) batteries. PLI batteries produce a relatively high average of 3.8 volts per cell, which makes them attractive in terms of both weight and volume. Additionally, they can be manufactured in very thin configurations and with large footprints. PLI cells can be configured in almost any prismatic shape, and can be made thinner than 0.0195 inches (0.5 mm) to fill virtually any shape efficiently. This combination of power and versatility makes rechargeable PLI batteries particularly attractive for use in consumer products such as portable computers, personal digital assistants (PDA’s) and cellular telephones.

ZQ Power-Tech's batteries combine high-energy chemistry with state-of-the-art polymer technology. Every battery component is solid, which means that there are no liquids that need to be contained by bulky, heavy cell housings. The result is a safe, thin, lightweight rechargeable battery with a wide operating temperature range. Similar to lithium-ion prismatic rechargeable cells, the ZQ Power-Tech polymer cells do not exhibit a memory problem. This means that they can be recharged at any state of charge, without first having to be completely discharged.

At the present time, ZQ Power-Tech produces only one finished product. This is a cordless miner's lamp equipped with a rechargeable PLI battery. ZQ Power-Tech has sold its miner's lamps to an agency of the Chinese government for several years, but recently expanded its market to private industry. In 2006 ZQ Power-Tech received an order from a Hong Kong-based mining company for 450,000 battery cells for mine lamps, to be delivered over a three year period. As a result of the expanded marketing, ZQ Power-Tech has installed a production line dedicated to mine lamps, which has a production capacity of 100,000 lamps per year. During 2008 the miner's lamp business yielded \$10,777,298 in revenue (23.9% of total revenue) and \$5,455,282 in net income (33.9% of total net income).

All of ZQ Power-Tech's other sales and pending contracts are for battery cells, which are sold on an OEM basis as a component of a finished product. Among ZQ Power-Tech's current customers are companies that use our batteries in cell phones, companies that use them in laptop computers, and a company that uses our batteries in its digital cameras. One unique market for ZQ Power-Tech's batteries opened when, in August 2007, they were successfully tested by oceanographers in deep sea drilling equipment utilized by the China National Oceanographic Institute. The fastest-growing market for ZQ Power-Tech's batteries, however, has been the manufacturers of battery-powered vehicles.

Vehicle Batteries

During the summer of 2005, ZQ Power-Tech signed a cooperation agreement with the Beijing Institute of Technology to participate in the development of an all-electric bus using ZQ Power-Tech rechargeable batteries. To enhance the potential use of that battery, ZQ Power-Tech entered into a development and supply relationship with Altair Nanotechnologies, Inc. of Reno, Nevada. During 2005 Altair supplied ZQ Power-Tech with nano-structured lithium spinel electrode materials that ZQ Power-Tech has successfully tested in its vehicle batteries. The inclusion of these nanomaterials in ZQ Power-Tech's batteries has significantly increased the power delivery and reduced the time required for recharge. ZQ Power-Tech is currently conducting research and development activities aimed at exploiting the technological advantages that the Altair nanomaterials can provide throughout ZQ Power-Tech's catalog of batteries.

The development of ZQ Power-Tech's vehicle battery technologies has opened the door for a variety of relationships, with the result that ZQ Power-Tech is developing a significant presence in the growing market for vehicle batteries. The initial success of this venture was marked, in the summer of 2004, by a \$21 million order to supply 3.7 volt PLI battery sets for electric cars manufactured by Aiyingsi Company of Taiwan. Aiyingsi and ZQ Power-Tech cooperated on development for two years, until in January 2006 Aiyingsi completed initial testing of ZQ Power-Tech batteries in thirty electric bicycles and motorcycles, and announced that it was satisfied with the results. Initial shipments under the order were made during 2006 and have continued to date.

During 2006 ZQ Power-Tech expanded its relationship with Aiyingsi Company to include development of the world's first "nanopowered" electric scooter. Late in the summer, the Zhong Qiang Institute of Research tested the scooter prototype and found that it could cover 28 miles at up to 18.75 mph with a single 15-minute charge. The potential market for this "alternative" vehicle is broad, including delivery services, surveillance and commuter uses. The environment-friendliness of this technology and other similar technologies used by ZQ Power-Tech were the reason stated by The Organizing Committee of China Innovative Entrepreneur Awards Organization for naming our Chairman, Fu Zhiguo, "China's Outstanding Entrepreneur" in December 2006.

More recent milestones in the growth of ZQ Power-Tech's presence in the low emissions vehicle industry have been:

- Ø In July 2006 ZQ Power-Tech received its first commercial order for bus batteries, as a Chinese bus manufacturer ordered five PLI battery packages.
- Ø In March 2007 ZQ Power-Tech signed a sales contract with Beijing Guoqiang Global Technology Development Co. Ltd. to supply a total of 3,000 PLI battery sets for use in electric garbage trucks that were designed for the 2008 Olympics. Shipments commenced in May 2007 and continued until February 2008. The full contract was valued at \$10,000,000.
- Ø In July 2007 ZAP, a manufacturer of zero emissions vehicles located in the U.S., placed an order to pay \$5.168 million for ZQ Power-Tech batteries for use in ZAP's vehicles.
- Ø In March 2008 ZQ Power-Tech announced that it had collaborated with Wuxi Angell on the development of an electric hybrid motorcycle that utilizes ZQ Power-Tech batteries. Three versions of the hybrid motorcycle were introduced to the U.S. market in February 2009.
- Ø In October 2008 ZQ Power-Tech signed a five year sales agreement with Veken USA Co. Ltd., a China-based manufacturer. Under the contract ZQ Power-Tech will provide lithium-ion polymer batteries for use in hybrid scooters distributed by Veken in Europe and the U.S. Wuxi Angell will be responsible for assembling the scooters.

Contract to Acquire Wuxi Angell

In light of the rapid expansion of the market for battery-powered vehicles, in October 2008 the Company's subsidiary, Cashtech Investment Limited, entered into an agreement to acquire a 55% equity interest in Wuxi Angell. In exchange for that equity, Cashtech will pay to Wuxi Angell 25 million RMB (approximately \$3.65 million) and Advanced Battery Technologies will issue two million shares of its common stock. The acquisition will be completed after satisfactory due diligence and an audit of Wuxi Angell's financial statements under US GAAP. Management anticipates completing the acquisition in the first half of 2009.

Investment in Cell Phone Distributor

In December 2008 Advanced Battery Technologies purchased a 49% equity interest in Beyond E-Tech, Inc., a corporation located in Texas that distributes cellular telephones manufactured in China to its order by Flying Technology Development Co. and Lenovo China. The purchase price for the shares was \$1.5 million cash. The purchase agreement provided that as long as Advanced Battery Technologies remains a shareholder of Beyond E-Tech, all phones sold by Beyond E-Tech would be powered by ZQ Power-Tech batteries. Although Beyond E-Tech has only recently begun operations, Advanced Battery Technologies' management considers the investment a reasonable means of securing a dedicated customer and a potential for ancillary profits.

Backlog

ZQ Power Tech's backlog of sales orders totaled approximately \$63,622,049 on March 12, 2009, including \$55,944,157 for delivery within the current fiscal year. On March 26, 2008, our backlog of orders totaled approximately \$49,169,000.

Marketing

ZQ Power-Tech has focused its marketing activities in China, with the majority of our sales continuing to be made directly by our marketing department. However we have recently begun to establish relationships with sales representatives in other major markets. Our plan is to significantly expand our market presence now that our facilities have reached an operating level sufficient to service a much higher level of sales.

Environmental Regulation

ZQ Power-Tech's operations produce no significant quantity of effluent or air-borne pollution. Therefore ZQ Power-Tech does not incur any significant cost as a result of the environmental regulations of the Chinese government.

Intellectual Property

ZQ Power-Tech owns seven Chinese patents, which are patents on:

- A cellular phone battery pole plate.
- A polymer lithium-ion battery and its production method.
- A large capacity polymer lithium-ion battery and its production method.
- An ultra-thin polymer lithium-ion battery for a miner's lamp and its production method.
- A walkie-talkie lithium-ion battery and its production method.
- A mobile phone battery and its production method.
- a nano material lithium ion battery and its production process.

We also hold one US patent (Patent No. 6,994,737 B2), which covers a high capacity polymeric lithium-ion cell and its production method.

During 2003 ZQ Power Tech spent \$493,114 on research and development as it completed the formulae for its polymer lithium-ion batteries. From 2004 through 2006, however, our resources were focused toward implementing the assembly lines needed to introduce our products to the market on a mass scale. Research and development expenditures in those three years were only \$393,727 in total, including \$181,257 in 2006. With the build-out of our initial facility completed, our cash and management personnel were again be focused on research, specifically, the development of a second-generation product line and the utilization of nanomaterials in our batteries. During 2007, therefore, our research and development expenses grew to \$383,871. In 2008, however, the growth of demand for our products again focused our attention on expansion of our facilities. Research and development expenses in 2008, therefore, were only \$4,463.

The technology utilized in producing polymer lithium-ion batteries is widely available throughout the world, and is utilized by many competitors, both great and small. ZQ Power-Tech's patents give it some competitive advantage with respect to certain products. However, the key to competitive success will be ZQ Power Tech's ability to deliver high quality products in a cost-efficient manner. This, in turn, will depend on the quality and efficiency of the assembly lines that we have been developing at our plant in Harbin.

Employees

Advanced Battery Technologies has 4 employees, all of whom are involved in administration in our New York office. ZQ Power-Tech has 905 employees. 28 are involved in administration, 30 are involved in marketing, and 40 are involved in research and development and related technology services. The remainder is employed in production capacities. None of our employees belongs to a collective bargaining unit.

ITEM 1A RISK FACTORS

Investing in our common stock involves a significant degree of risk. You should carefully consider the risks described below together with all of the other information contained in this Report, including the financial statements and the related notes, before deciding whether to purchase any shares of our common stock. If any of the following risks occurs, our business, financial condition or operating results could materially suffer. In that event, the trading price of our common stock could decline and you may lose all or part of your investment.

We may be unable to gain a substantial share of the market for batteries.

We have only one product line, rechargeable polymer lithium-ion batteries. We began marketing our batteries in the Spring of 2004, and only began to report substantial revenue at the end of 2005. There are many companies, large and small, involved in the market for rechargeable batteries. Some of our existing and potential competitors have longer operating histories and significantly greater financial, technical, marketing and other resources. It will be difficult for us to establish a reputation in the market so that manufacturers chose to use our batteries rather than those of our competitors. Unless we are able to expand our sales volume significantly, we will not be able to improve the efficiency of our operation.

Our business and growth will suffer if we are unable to hire and retain key personnel that are in high demand.

Our future success depends on our ability to attract and retain highly skilled engineers, technical, marketing and customer service personnel, especially qualified personnel for our operations in China. Qualified individuals are in high demand in China, and there are insufficient experienced personnel to fill the demand. Therefore we may not be able to successfully attract or retain the personnel we need to succeed.

We may not be able to adequately protect our intellectual property, which could cause us to be less competitive.

We are continuously designing and developing new technology. We rely on a combination of copyright and trade secret laws and restrictions on disclosure to protect our intellectual property rights. Unauthorized use of our technology could damage our ability to compete effectively. In China, monitoring unauthorized use of our products is difficult and costly. In addition, intellectual property law in China is less developed than in the United States and historically China has not protected intellectual property to the same extent as it is protected in other jurisdictions, such as the United States. Any resort to litigation to enforce our intellectual property rights could result in substantial costs and diversion of our resources, and might be unsuccessful.

We may have difficulty establishing adequate management and financial controls in China and in complying with U.S. corporate governance and accounting requirements.

The People's Republic of China has only recently begun to adopt the management and financial reporting concepts and practices that investors in the United States are familiar with. We may have difficulty in hiring and retaining employees in China who have the experience necessary to implement the kind of management and financial controls that are expected of a United States public company. If we cannot establish such controls, we may experience difficulty in collecting financial data and preparing financial statements, books of account and corporate records and instituting business practices that meet U.S. standards.

We are also subject to the rules and regulations of the United States, including the SEC, the Sarbanes-Oxley Act of 2002 and the rules and regulations of the NASDAQ Stock Market. We expect to incur significant costs associated with our public company reporting requirements, costs associated with applicable corporate governance requirements, including requirements under the Sarbanes-Oxley Act of 2002 and other rules implemented by the SEC and requirements in connection with the continued listing of our common stock on the NASDAQ Stock Market. If we cannot assess our internal control over financial reporting as effective, or our independent registered public accountants are unable to provide an unqualified attestation report on such assessment, investor confidence and share value may be negatively impacted.

Most of our assets are located in China, any dividends or proceeds from liquidation are subject to the approval of the relevant Chinese government agencies.

Our assets are predominantly located inside China. Under the laws governing Foreign-invested Entities in China, dividend distribution and liquidation are allowed but subject to special procedures under the relevant laws and rules. Any dividend payment will be subject to the decision of the board of directors and subject to foreign exchange rules governing such repatriation. Any liquidation is subject to both the relevant government agency's approval and supervision as well the foreign exchange control. This may generate additional risk for our investors in case of dividend payment or liquidation.

We have limited business insurance coverage.

The insurance industry in China is still at an early stage of development. Insurance companies in China offer limited business insurance products, and do not, to our knowledge, offer business liability insurance. As a result, we do not have any business liability insurance coverage for our operations. Moreover, while business disruption insurance is available, we have determined that the risks of disruption and cost of the insurance are such that we do not require it at this time. Any business disruption, litigation or natural disaster might result in substantial costs and diversion of our resources.

Our operations are international, and we are subject to significant political, economic, legal and other uncertainties (including, but not limited to, trade barriers and taxes that may have an adverse effect on our business and operations.

We manufacture all of our products in China and substantially all of the net book value of our total fixed assets is located there. However, we sell our products to customers outside of China as well as domestically. As a result, we may experience barriers to conducting business and trade in our targeted markets in the form of delayed customs clearances, customs duties and tariffs. In addition, we may be subject to repatriation taxes levied upon the exchange of income from local currency into foreign currency, as well as substantial taxes of profits, revenues, assets or payroll, as well as value-added tax. The markets in which we plan to operate may impose onerous and unpredictable duties, tariffs and taxes on our business and products. Any of these barriers and taxes could have an adverse effect on our finances and operations.

Environmental compliance and remediation could result in substantially increased capital requirements and operating costs.

Our operating subsidiary, ZQ Power-Tech, is subject to numerous Chinese provincial and local laws and regulations relating to the protection of the environment. These laws continue to evolve and are becoming increasingly stringent. The ultimate impact of complying with such laws and regulations is not always clearly known or determinable because regulations under some of these laws have not yet been promulgated or are undergoing revision. Our consolidated business and operating results could be materially and adversely affected if ZQ Power-Tech were required to increase expenditures to comply with any new environmental regulations affecting its operations.

We may be required to raise additional financing by issuing new securities with terms or rights superior to those of our shares of common stock, which could adversely affect the market price of our shares of common stock.

We may require additional financing to fund future operations, develop and exploit existing and new products and to expand into new markets. We may not be able to obtain financing on favorable terms, if at all. If we raise additional funds by issuing equity securities, the percentage ownership of our current shareholders will be reduced, and the holders of the new equity securities may have rights superior to those of the holders of shares of common stock, which could adversely affect the market price and the voting power of shares of our common stock. If we raise additional funds by issuing debt securities, the holders of these debt securities would similarly have some rights senior to those of the holders of shares of common stock, and the terms of these debt securities could impose restrictions on operations and create a significant interest expense for us.

The NASDAQ Capital Market may delist our common stock from trading on its exchange, which could limit investors' ability to effect transactions in our common stock and subject us to additional trading restrictions.

Our common stock is listed on the NASDAQ Capital Market. We cannot assure you that our common stock will continue to be listed on the NASDAQ Capital Market in the future. If the NASDAQ Capital Market delists our common stock from trading on its exchange, we could face significant material adverse consequences including:

- a limited availability of market quotations for our common stock;
- a limited amount of news and analyst coverage for our company; and
- a decreased ability to issue additional securities or obtain additional financing in the future.

We do not intend to pay any cash dividends on our common stock in the foreseeable future and, therefore, any return on your investment in our common stock must come from increases in the fair market value and trading price of our common stock.

We have never paid a cash dividend on our common stock. We do not intend to pay cash dividends on our common stock in the foreseeable future and, therefore, any return on your investment in our common stock must come from increases in the fair market value and trading price of our common stock.

Our international operations require us to comply with a number of U.S. and international regulations.

We need to comply with a number of international regulations in countries outside of the United States. In addition, we must comply with the Foreign Corrupt Practices Act, or FCPA, which prohibits U.S. companies or their agents and employees from providing anything of value to a foreign official for the purposes of influencing any act or decision of these individuals in their official capacity to help obtain or retain business, direct business to any person or corporate entity or obtain any unfair advantage. Any failure by us to adopt appropriate compliance procedures and ensure that our employees and agents comply with the FCPA and applicable laws and regulations in foreign jurisdictions could result in substantial penalties or restrictions on our ability to conduct business in certain foreign jurisdictions. The U.S. Department of The Treasury's Office of Foreign Asset Control, or OFAC, administers and enforces economic and trade sanctions against targeted foreign countries, entities and individuals based on U.S. foreign policy and national security goals. As a result, we are restricted from entering into transactions with certain targeted foreign countries, entities and individuals except as permitted by OFAC which may reduce our future growth.

All of our assets are located in China and changes in the political and economic policies of the PRC government could have a significant impact upon what business we may be able to conduct in the PRC and accordingly on the results of our operations and financial condition.

Our business operations may be adversely affected by the current and future political environment in the PRC. The Chinese government exerts substantial influence and control over the manner in which we must conduct our business activities. Our ability to operate in China may be adversely affected by changes in Chinese laws and regulations, including those relating to taxation, import and export tariffs, raw materials, environmental regulations, land use rights, property and other matters. Under the current government leadership, the government of the PRC has been pursuing economic reform policies that encourage private economic activity and greater economic decentralization. There is no assurance, however, that the government of the PRC will continue to pursue these policies, or that it will not significantly alter these policies from time to time without notice.

Our operations are subject to PRC laws and regulations that are sometimes vague and uncertain. Any changes in such PRC laws and regulations, or the interpretations thereof, may have a material and adverse effect on our business.

Our principal operating subsidiary, ZQ Power-Tech, is considered a foreign invested enterprise under PRC laws, and as a result is required to comply with PRC laws and regulations. Unlike the common law system prevalent in the United States, decided legal cases have little value as precedent in China. There are substantial uncertainties regarding the interpretation and application of PRC laws and regulations, including but not limited to the laws and regulations governing our business and the enforcement and performance of our arrangements with customers in the event of the imposition of statutory liens, death, bankruptcy or criminal proceedings. The Chinese government has been developing a comprehensive system of commercial laws. However, because these laws and regulations are relatively new, and because of the limited volume of published cases and judicial interpretation and their lack of force as precedents, interpretation and enforcement of these laws and regulations involve significant uncertainties. New laws and regulations that affect existing and proposed future businesses may also be applied retroactively. We cannot predict what effect the interpretation of existing or new PRC laws or regulations may have on our businesses. If the relevant authorities find us in violation of PRC laws or regulations, they would have broad discretion in dealing with such a violation.

The scope of our business license in China is limited, and we may not expand or continue our business without government approval and renewal, respectively.

Our principal operating subsidiary, ZQ Power-Tech, is a wholly foreign-owned enterprise organized under PRC law, commonly known as a WFOE. A WFOE can only conduct business within its approved business scope, which ultimately appears on its business license. In order for us to expand our business beyond the scope of our license, we will be required to enter into a negotiation with the authorities for the approval to expand the scope of our business. We cannot assure you that ZQ Power-Tech will be able to obtain the necessary government approval for any change or expansion of our business scope.

We may never pay any dividends to our stockholders.

We have not paid any cash dividends on shares of our common stock. We currently intend to retain all available funds and future earnings, if any, to support our operations and finance the growth and development of our business. Our board of directors does not intend to distribute dividends in the foreseeable future. The declaration, payment and amount of any future dividends, if any, will be made at the discretion of the board of directors, and will depend upon, among other things, the results of our operations, cash flows and financial condition, operating and capital requirements, and other factors the board of directors considers relevant. There is no assurance that future dividends will be paid, and if dividends are paid, there is no assurance with respect to the amount of any such dividend.

Our business development, future performance, strategic plans, and other objectives would be hindered if we lost the services of our Chairman.

Fu Zhiguo is the Chief Executive Officer of Advanced Battery Technologies and of our operating subsidiary, ZQ Power-Tech. Mr. Fu is responsible for strategizing not only our business plan but also the means of financing it. Mr. Fu has also, from time to time, provided his personal funds to meet the working capital needs of ZQ Power-Tech. If Mr. Fu were to leave Advanced Battery Technologies or become unable to fulfill his responsibilities, our business would be imperiled. At the very least, there would be a delay in the development of Advanced Battery Technologies until a suitable replacement for Mr. Fu could be retained.

ITEM 1B UNRESOLVED STAFF COMMENTS

Not applicable.

ITEM 2 PROPERTIES

The People's Republic of China has given ZQ Power-Tech a lease to use the 72,000 square meter campus in Harbin, China where ZQ Power-Tech's offices and manufacturing facility are located. The campus is 24 km from the nearest airport. The nearest port is Da Lian. The lease expires in September 2043. ZQ Power-Tech is not required to pay any rental for the property as long as it continues to utilize the property for manufacturing.

During 2004 ZQ Power-Tech commenced an ongoing program of expanding its production facility. In 2006 it completed Building A and Building B, 30,000 square feet of manufacturing capacity, which in 2008 ZQ Power-Tech upgraded, so that those two buildings now have a production capacity of approximately \$50,000,000 per year, depending on the specific products being produced. Due to the rapid increase in the Company's sales, in 2008 Management also began to develop additional assembly lines in Building C and Building D. These additional lines are expected to be ready for trial production in April 2009 and commercial production in June 2009. The modifications of the existing lines and addition of new lines is expected to provide ZQ Power-Tech's an increase of 165% in production capacity by 2010.

In November 2003 ZQ Power-Tech received ISO9001 certification pertaining to Manufacturing and Quality Control Approval.

ITEM 3 LEGAL PROCEEDINGS

Susquehanna Financial Group, LLLP v. Advanced Battery Technologies, Inc. In September Susquehanna Financial Group, LLLP ("SFG") commenced this action in the Court of Common Pleas of Montgomery County, Pennsylvania (Civil Action No. 08-25505). SFG alleges that it was party to two contracts with the Company, pursuant to which SFG alleges that it was entitled to serve as financial advisor with respect to any offering of securities by the Company completed prior to March 2009. SFG alleges that the Company failed to afford SFG the opportunity to serve as financial advisor in connection with the private placement by the Company in August 2008. SFG alleges that it is entitled to damages in the amount of \$1,359,872.46 and a warrant to purchase 81,882 share of the Company's common stock exercisable at \$8.00 per share. The Company has answered the Complaint, and has denied that SFG was entitled to serve as financial advisor in connection with the August 2008 private placement by reason of the fact that SFG had terminated its agreements with the Company, had waived any continuing rights under the contracts, and had acted in bad faith in connection with the services it undertook to perform for the Company.

ITEM 4 SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS

Not applicable.

PART II

ITEM 5 MARKET FOR REGISTRANT'S COMMON EQUITY, RELATED STOCKHOLDER MATTERS AND ISSUER PURCHASES OF EQUITY SECURITIES

(a) Market Information

Since February 26, 2008, the Company's common stock has been listed on the NASDAQ Capital Market under the symbol "ABAT." From October 9, 2007 until February 26, 2008 the common stock was listed on The American Stock Exchange. Prior to listing on The American Stock Exchange, the Company's common stock was quoted on the OTC Bulletin Board.

Set forth below are the high and low bid prices for each of the eight quarters in the past two fiscal years. During the period when the common stock was quoted on the OTC Bulletin Board, the reported bid quotations reflect inter-dealer prices without retail markup, markdown or commissions, and may not necessarily represent actual transactions.

Quarter Ending	Bid	
	High	Low
March 31, 2007	\$ 2.03	\$.60
June 30, 2007	\$ 3.13	\$ 1.21
September 30, 2007	\$ 5.98	\$ 2.51
December 31, 2007	\$ 9.45	\$ 3.17
March 31, 2008	\$ 5.50	\$ 3.50
June 30, 2008	\$ 6.40	\$ 2.99
September 30, 2008	\$ 6.00	\$ 2.99
December 31, 2008	\$ 3.40	\$ 1.17

(b) Shareholders

Our shareholders list contains the names of 342 registered stockholders of record of the Company's Common Stock.

(c) Dividends

The Company has never paid or declared any cash dividends on its Common Stock and does not foresee doing so in the foreseeable future. The Company intends to retain any future earnings for the operation and expansion of the business. Any decision as to future payment of dividends will depend on the available earnings, the capital requirements of the Company, its general financial condition and other factors deemed pertinent by the Board of Directors

(d) Securities Authorized for Issuance Under Equity Compensation Plans

The information set forth in the table below regarding equity compensation plans (which include individual compensation arrangements) was determined as of December 31, 2008.

	Number of securities to be issued upon exercise of outstanding options, warrants and rights	Weighted average exercise price of outstanding options, warrants and rights	Number of securities remaining available for future issuance under equity compensation plans
Equity compensation plans approved by security holders	0	N.A.	0
Equity compensation plans not approved by security holders	0	N.A.	1,480,000(1)
Total	0	N.A.	1,480,000

(1) In 2006 the Board of Directors adopted the 2006 Equity Incentive Plan. The Plan authorizes the Board to issue up to 8,000,000 common shares during the ten year period of the Plan. The shares may be awarded to employees or directors of Advanced Battery Technologies or its subsidiaries as well as to consultants to those entities. The shares may be awarded as outright grants or in the form of options, restricted stock or performance shares. 1,480,000 shares remain available for issuance under the plan.

(e) Sale of Unregistered Securities

Advanced Battery did not effect any unregistered sales of equity securities during the 4th quarter of 2008.

(f) Repurchase of Equity Securities

The following table sets forth information regarding the Company's repurchase of shares of its common stock during the 4th quarter of 2008.

Period	Total Number of Shares Purchased	Average Price Paid per Share	Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs(1)	Maximum Number of Shares that May Yet Be Purchased Under Plans or Programs
October 1, 2008-October 31, 2008	0	N.A.	0	4,000,000
November 1, 2008 – November 30, 2008	0	N.A.	0	4,000,000
December 1, 2009 – December 31, 2008	119,510	\$ 2.47	119,510	3,880,490
Total		\$ 2.47	119,510	3,880,490

(1) In December 2008 the Board of Directors announced a stock repurchase program under which the Company may purchase up to 4 million shares of its common stock. Purchases will be made, from time to time, in the open market, depending on several factors, including price, prevailing market conditions, and other investment opportunities. The program will expire on November 30, 2009.

ITEM 6 SELECTED FINANCIAL DATA

	2008	2007	2006	2005	2004
Revenue	\$ 45,172,111	\$ 31,897,618	\$ 16,329,340	\$ 4,222,960	\$ 1,191,509
Net Income/(Loss)	\$ 16,096,120	\$ 10,205,406	\$ 8,040,752	\$ (157,637)	\$ (2,349,704)
Net Income/(Loss) Per Share – Diluted	\$ 0.31	\$ 0.21	\$ 0.17	\$ (0.01)	\$ (0.23)
Total Assets	\$ 77,752,231	\$ 38,723,210	\$ 22,521,982	\$ 17,158,364	\$ 11,540,316

Shareholders' Equity	\$ 76,454,596	\$ 36,476,504	\$ 23,206,350	\$ 9,086,632	\$ 5,614,788
Shareholders' Equity Per Share	\$ 1.40	\$ 0.73	\$ 0.47	\$ 0.22	\$ 0.23

ITEM 7 MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Results of Operations

Year Ended December 31, 2008 Compared to Year Ended December 31, 2007

Near the end of 2004, ZQ Power-Tech obtained the financing needed to complete additional factory facilities at ZQ Power-Tech's campus in Heilongjiang. Between 2004 and the end of 2005, the number of employees at our facility increased from 300 to, currently, 905, as we more than doubled our production capacity to its current level of \$45 million per year. We now have two buildings ("A" and "B") in full production. As our revenues in 2008 reached \$45 million and continue to grow, the need to outfit buildings "C" and "D" so as to double our production capacity became apparent. Toward that end, during 2008 we completed an equity placement to obtain the capital necessary for the expansion.

Our business continued to grow in 2008, as both revenue and net income increased by over 42%. The current worldwide recession will make it difficult for us to match that growth rate in 2009. On the other hand, we are supplementing our growth-through-new-customers by making strategic alliances that will capture new markets for us. Specifically, at the end of 2008 we purchased a 49% interest in Beyond E-Tech, a cell phone distributor, which will provide us a dedicated customer for our cell phone batteries. And we expect in the first half of 2009 to acquire a 55% interest in Wuxi Angell, a leading manufacturer of battery-powered motorbikes and scooters. These alliances will help us to offset the effects of the recession.

Revenues: In 2008 we realized \$45,172,111 in revenues, an increase of 42% compared to the \$31,897,618 in revenue that we achieved in 2007. As a result of competition, our prices have remained relatively stable. Our growth has been almost entirely the result of increased unit sales. A number of factors contributed to the increase in revenue from 2007 to 2008. Primary among them were:

- New Customers. Our revenue in 2008 included \$10,331,311 sold to customers that had not purchased from us in prior years. This expansion of our customer base is primarily a result of the efforts of our growing network of independent sales agents.
- Vehicle Batteries. Our sales of batteries for use in motorized vehicles increased by 70% from 2007 to 2008. We expect growth in this area to continue, primarily due to our expanding relationship with Wuxi Angell.
- Miner's Lamps. Our one end product, our miner's lamp, has fueled a significant portion of our growth. In 2008 our sales of miner's lamps and batteries for miner's lamps totaled \$10,777,298, compared to \$5,534,798 in 2007.

The growth in our battery business has been accompanied by a reorientation in the relative importance of different battery sizes. When we first entered the battery business in 2003 and following years, the bulk of our sales were small capacity batteries, primarily those used in consumer electronic devices. Our growth, however, has been propelled by customers for our medium capacity batteries (used for electric scooters, electric bicycles, power tools, miners' lamps, searchlights, etc.) and large capacity batteries (used for electric sanitation vehicles, stationary applications, and other large scale battery applications). In 2008, the contribution of batteries in these categories to our total revenues was:

- Small Capacity Batteries. \$4,727,223 (10.5%)
- Medium Capacity Batteries. \$16,200,079 (35.9%)

Batteries:

· Large \$13,467,511
Capacity (29.8%)

Batteries:

· Other \$10,777,298
(23.8%)

Gross Profit. Our cost of revenues consists of the cost of raw materials, production costs and production overhead. In 2008, although our revenue increased by 42%, our cost of goods sold increased by only 28%, from \$18,039,861 to \$23,122,610. This disparity permitted resulted from the efforts of our production staff to achieve a more efficient use of raw materials, and from our ongoing program of improving the efficiency of our production techniques. The result was an improvement in our gross margin from 43% in 2007 to 49% in 2008.

The current global recession has caused a widespread and dramatic drop in the cost of raw materials, including the metals that we utilize in our batteries. We expect this situation will permit us to maintain the level of gross margin that we achieved in 2008. If the recession results in diminished sales, however, our gross margin is likely to suffer, as a reduction in sales would be likely to reduce the efficiency of our production operations.

Operating Expenses: The Company's operating expenses fell by 11%, from \$3,667,101 in 2007 to \$3,267,872 in 2008. The decrease is primarily due to a one-time compensation charge of \$893,896, arising from a bonus granted to management during the quarter ended March 31, 2007. In addition, we quelled our aggressive research and development programs in 2008, while we focused on expanding our production facility, and this reduced our expenditures for research and development by \$379,408. After eliminating these two factors, we realized an increase of \$502,332 (21%) from 2007 to 2008. The increase reflected expenses relating to the expansion of our manufacturing facility as well as expenses incurred by our U.S. offices, including the expense attributable to the Company's listing on the NASDAQ Capital Market in March 2008. We expect that future increases in our selling, general and administrative expense will be roughly proportional to the increase in our revenues. This will occur because the efficiencies that we are realizing from our expanded operations will be partially offset by the expenses of the US office.

Included in our general and administrative expense during 2008 was \$908,713 attributable to amortization of the market value of stock that we granted to employees or consultants, primarily during 2004. This non-cash expense resulted from our use of stock during our early years to incentivize key individuals. The market value of the stock at the time it was issued is being amortized over the term of the employee's or consultant's services, thus:

- In the case of employees, the period of amortization is based on a vesting schedule included in the employees' contracts. The average vesting period for the employees is 18.5 years. To date, no one of the employees of ZQ Power-Tech who received stock awards has terminated employment; so the amortization has been proportional to that schedule.
- In the case of consultants, the period of amortization is based on the term of the consulting contracts, although amortization will be accelerated if the consulting relationship ceases. Again, to date, the consultants who received stock have remained involved in the Company's affairs, so there has been no acceleration of amortization.

At December 31, 2008 there remained \$5,737,795 in unamortized stock compensation on the Company's books. The amortization of this sum will contribute to our operating expenses as described above.

At the end of 2008 we purchased, for \$1.5 million, 49% of the equity in Beyond E-Tech, Inc., a Texas corporation recently organized to engage in distributing cellular telephones in the United States. The acquisition has been recorded as an "investment in unconsolidated entity" on our balance sheet, and our participation in that business will be accounted for through the equity method. Because Beyond E-Tech incurred a net loss of approximately \$185,000 in 2008, the value of our investment was reduced on our balance sheet by 49% of that sum – i.e. \$90,707 – and we incurred "other expenses" in that amount. In addition, at year-end we performed a valuation of our investment by estimating future undiscounted net cash flows that can be expected from Beyond E-Tech. That estimate indicated that our carrying cost for the investment exceeded its value by \$371,743. Accordingly, we also reduced the book value of the investment by that amount, and recorded an addition to operating expense in that amount. In the future, our gain or loss on the investment will be determined by similar allocations of the income or loss incurred by Beyond E-Tech.

The Company's revenue less expenses produced a pre-tax income of \$18,818,527 for 2008 and a pre-tax income of \$10,205,406 in 2007. The 2008 domestic (U.S.) accounting loss was (\$2,311,230) and foreign (China) accounting income is \$21,129,757. As a result of Chinese tax laws that reward foreign investment in China, ZQ Power-Tech was entitled to exemption from income taxes during 2006 and 2007. So for 2007, the Company's pre-tax income was identical to its net income, representing \$.25 basic earnings per share and \$.21 per share fully diluted. Currently and through 2010, ZQ Power-Tech is entitled to a 50% tax abatement, which results in an effective corporate tax rate of approximately 12.5%. After taxes of \$2,722,407 realized in 2008, our net income for 2008 was \$16,096,120, an increase of 58% over 2007. This 2008 income represented \$.37 basic earnings per share and \$.31 fully diluted.

Our business operates primarily in Chinese Renminbi, but we report our results in our SEC filings in U.S. Dollars. The conversion of our accounts from RMB to Dollars results in translation adjustments. While our net income is added to the retained earnings on our balance sheet; the translation adjustments are added to a line item on our balance sheet labeled "accumulated other comprehensive income," since it is more reflective of changes in the relative values of U.S. and Chinese currencies than of the success of our business. During 2008, the effect of converting our financial results to Dollars was to add \$2,912,481 to our accumulated other comprehensive income.

Year Ended December 31, 2007 Compared to Year Ended December 31, 2006

In the fall of 2005 we returned to full production, shipping \$4,222,960 of product in that year. Our growth continued through 2006 and 2007, as we recorded \$16,329,340 in revenue for 2006 and \$31,897,618 in revenue for 2007.

ZQ Power-Tech realized a 43% gross margin on its sales in 2007, as contrasted with a 55% gross margin on sales in 2006. In general, our gross margin ratio depends considerably upon which of ZQ Power-Tech's products are dominating sales. During 2007 a larger portion of our sales involved vehicle batteries, which have a lower gross margin than batteries for electronic batteries.

Our selling, general and administrative expense increased from 2006 to 2007 at a rate somewhat in excess of the increase in our revenues. While our revenues increased by 95% from 2006 to 2007, our selling, general and administrative expenses increased by 131%, from \$1,423,621 to \$3,283,230. One factor that swelled the increase was the expense attributable to the Company's listing on the American Stock Exchange during 2007, including legal and consulting expenses and listing fees. In addition, considerable effort and expense was expended in connection with the Company's efforts to obtain the financing necessary to implement production in our Building "C" and Building "D."

Included in our general and administrative expense in 2007 was \$939,338 attributable to amortization of the market value of stock that we granted to employees or consultants, primarily during 2004. This non-cash expense resulted from our use of stock during our early years to incentivize key individuals. At December 31, 2007 there remained \$6,939,377 in unamortized stock compensation on the Company's books. This sum will be amortized over the expected duration of the employment or service of the recipients of the shares.

In January 2006 the Company acquired the minority interest in its subsidiary, ZQ Power-Tech, resulting in 100% ownership. At that time it recorded \$2,050,204 as goodwill, representing the excess of the purchase price it paid over the fair value of the assets associated with the minority interest. At the end of 2006, management determined that the goodwill was impaired and took a write-off in that amount. Early in 2008, however, management revisited that decision, and concluded that its decision to write-off the goodwill had not conformed to generally accepted accounting standards. For that reason, the Company's balance sheet and statement of operations for the year ended December 31, 2006 have been restated in this Report to reflect the reversal of the impairment charge. The primary result of the restatement has been to increase both total assets at December 31, 2006 and net income for 2006 by \$2,050,204.

The Company's revenue less expenses produced a pre-tax income of \$10,205,406 in 2007, compared to a net income of \$7,133,390 in 2006. The 2007 domestic (U.S.) loss was US\$(1,682,115) and foreign (China) pre-tax accounting income was \$11,887,520. As a result of Chinese tax laws that reward foreign investment in China, ZQ Power-Tech was entitled to exemption for income taxes during 2006 and 2007, followed by a 50% abatement from 2008 to 2010. Our net income for 2007, therefore, was identical to our pre-tax income, representing \$0.25 per share. On the other hand, our net income for 2006 was increased, when the Government of China refunded to us \$907,362 that we had paid in excess of our tax liability for prior years. With that addition, our net income for 2006 came to \$8,040,752, or \$.21 per share.

Our business operates primarily in Chinese Renminbi, but we report our results in our SEC filings in U.S. Dollars. The conversion of our accounts from RMB to Dollars results in translation adjustments. While our net income is added to the retained earnings on our balance sheet; the translation adjustments are added to a line item on our balance sheet labeled "accumulated other comprehensive income," since it is more reflective of changes in the relative values of U.S. and Chinese currencies than of the success of our business. During 2007, the effect of converting our financial results to Dollars was to add \$2,125,410 to our accumulated other comprehensive income.

Liquidity and Capital Resources

Until December 2004, the development and initial operations of ZQ Power-Tech were financed primarily by contributions to capital made by Zhiguo Fu, the Company's Chairman. On December 1, 2004, ZQ Power-Tech entered into a Loan Agreement with China Financial Bank, and received a loan of 20 million RMB (approximately \$2.4 million). The Loan Agreement, as amended, required that the principal be paid in a balloon in November 2007. During 2006, however, we repaid the loan. During 2008 we repaid our other long-term debt, a \$411,263 note payable to the Finance Bureau of the City of Shuangcheng. Therefore at December 31, 2008 our only loan was a \$17,236 liability to our Chairman for funds he has deposited into the accounts of our US office.

Our revenue in 2007 reached a level equal to approximately 69% of the annual production capacity of our manufacturing plant. With sales growing by 42% in 2008, the need for expansion was obvious. Of the four factory buildings on our campus in the City of Harbin, two (Building "C" and Building "D") remain unused. Our plan is to utilize our available capital resources to fund the purchase of inventory and other working capital requirements of an expansion, while obtaining additional capital for equipment through the sale of equity.

In August 2008 we completed a private placement to eight investment funds of 5,058,834 shares of common stock and five year warrants to purchase 2,276,474 shares of common stock at \$5.51 per share. The net proceeds that we realized from the offering were approximately \$20,356,480. We are currently applying a portion of those funds to implement two new assembly lines in Buildings C and D.

At December 31, 2008 the Company had a working capital balance of \$49,991,602, an improvement of \$30,242,228 from our working capital balance at December 31, 2007. The primary reasons for the improvement in working capital were the private placement in August and the net income realized during the year. In addition, the Company has made a concerted effort to collect aged accounts receivable. As a result, although sales grown by 42% in 2008, our accounts receivable balance was reduced by \$1,002,020 during 2008.

ZQ Power-Tech has sufficient liquidity to fund its near-term operations and to fund the working capital demands of an expansion of its operations. The proceeds of our recent equity offering will enable us to purchase the equipment needed to expand our operations. If we determine that additional funds are needed, we have available \$16,635,843 in property, plant and equipment, which ZQ Power-Tech owns free of liens. Based on the substantial backlog of orders that ZQ Power-Tech has accumulated, it believes that secured financing will be available to it on favorable terms if needed

Based upon the financial resources available to ZQ Power-Tech, management believes that it has sufficient capital and liquidity to sustain operations for the foreseeable future.

Application of Critical Accounting Policies

In preparing our financial statements we are required to formulate working policies regarding valuation of our assets and liabilities and to develop estimates of those values. In our preparation of the financial statements for 2008, there were three estimates made which were (a) subject to a high degree of uncertainty and (b) material to our results. They were:

- The first was our determination, detailed in Note 20 to the Financial Statements, that we had no need of a reserve for warranty costs. The primary reason for the determination was the fact that we have received no warranty claims to date.
- The second was our determination, detailed in Note 14 to the Financial Statements, to amortize the stock compensation that we gave to our employees in 2005 and 2006 over an average of 18.5 years. The determination was based on the senior status of the employees, the vesting period under their employment contracts, and our expectation that they will remain employed by ZQ Power-Tech for at least that period.
- The third was our determination, detailed in Note 7 to the Financial Statements, to record an impairment loss on our investment in Beyond E-Tech. The determination was based on Beyond E-Tech's projection of cash flows for the next five years.

We made no material changes to our critical accounting policies in connection with the preparation of financial statements for 2008.

Impact of Accounting Pronouncements

There were no recent accounting pronouncements that have had a material effect on the Company's financial position or results of operations.

Off-Balance Sheet Arrangements

We do not have any off-balance sheet arrangements that have or are reasonably likely to have a current or future effect on our financial condition or results of operations.

ITEM 7A QUANTITATIVE AND QUALITATIVE DISCLOSURE ABOUT MARKET RISK

Our operating subsidiary, ZQ Power-Tech, carries on business exclusively in Chinese Renminbi. Therefore it does not have any derivative instruments or other financial instruments that are market risk sensitive.

ITEM 8 FINANCIAL STATEMENTS AND SUPPLEMENTARY DATA

ADVANCED BATTERY TECHNOLOGIES, INC.

INDEX TO CONSOLIDATED FINANCIAL STATEMENTS

Notes to Consolidated Financial Statements	27

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Board of Directors and Stockholders of
Advanced Battery Technologies, Inc.

We have audited the accompanying consolidated balance sheets of Advanced Battery Technologies, Inc. (the "Company") as of December 31, 2008 and 2007, and the related consolidated statements of income and comprehensive income, changes in stockholders' equity and cash flows for each of the three years in the period ended December 31, 2008. We have also audited the Company's internal control over financial reporting as of December 31, 2008, based on criteria established in Internal Control – Integrated Framework issued by the Committee of Sponsoring Organization of the Treadway Commission. (COSO). The Company's management is responsible for these consolidated financial statements, for maintaining effective internal control over financial reporting, and for its assessment of the effectiveness of internal control over financial reporting, included in the accompanying Management's Report on Internal Control over Financial Reporting. Our responsibility is to express an opinion on these consolidated financial statements and an opinion on the Company's internal control over financial reporting based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free of material misstatement and whether effective internal control over financial reporting was maintained in all material respects. Our audit of the consolidated financial statements included examining, on a test basis, evidence supporting the amounts and disclosures in the consolidated financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. Our audit of internal control over financial reporting included obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists, testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. Our audits also included performing such other procedures as we considered necessary in the circumstances. We believe that our audits provide a reasonable basis for our opinions.

A company's internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of the effectiveness of the internal control over financial reporting to future periods are subject to the risk that the controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of Advanced Battery Technologies, Inc. as of December 31, 2008, and the results of its operations and its cash flows for each of the three years in the period ended December 31, 2008, in conformity with accounting principles generally accepted in the United States of America. Also in our opinion, the Company maintained, in all

material respects, effective internal control over financial reporting as of December 31, 2008, based on criteria established in Internal Control – Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO).

ADVANCED BATTERY TECHNOLOGIES, INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
DECEMBER 31, 2008, 2007 AND 2006

1. ORGANIZATION AND BASIS OF PRESENTATION

Advanced Battery Technologies, Inc. ("ABAT" or the "Company") was incorporated in the State of Delaware on January 16, 1984.

On May 6, 2004, the Company completed a share exchange (the "Exchange") with the shareholders of Cashtech Investment Limited ("Cashtech"), a British Virgin Islands Corporation, who, at the time, owned 70% interest of Heilongjiang Zhong Qiang Power-Tech Co., Ltd. ("ZQPT"), a limited liability company established in the People's Republic of China (the "PRC"). As result of this share exchange transaction, there was change of control in the Company as the shareholders of Cashtech became the majority shareholders of the Company.

The transaction had been accounted for as a reverse acquisition under the purchase method of accounting. Accordingly, Cashtech was treated as the continuing entity for accounting purposes.

On January 6, 2006, the minority shareholders of ZQPT transferred the remaining 30% of their interests in ZQPT to Cashtech in exchange for 11,780,594 shares of the Company's Common Stock. As result of this transfer, Cashtech now owns 100% of the capital stock of ZQPT.

The Company is engaged in design, manufacture and distribution of rechargeable polymer lithium-ion batteries through its wholly owned subsidiaries, Cashtech and ZQPT. The Company's main operations are located in the PRC.

The accompanying consolidated financial statements of the Company and its subsidiaries have been prepared in accordance with generally accepted accounting principles in the United States of America ("US GAAP").

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Reclassification

Certain prior period amounts have been reclassified to conform to the current period presentation. These reclassifications had no effect on reported total assets, liabilities, stockholders' equity or net income.

Principles of consolidation

The consolidated financial statements include the accounts of the Company and its wholly-owned subsidiaries, Cashtech and ZQPT. All significant inter-company balances and transactions have been eliminated in consolidation.

ADVANCED BATTERY TECHNOLOGIES, INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
DECEMBER 31, 2008, 2007 AND 2006

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Use of estimates

In preparing the consolidated financial statements in conformity with accounting principles generally accepted in the United States of America, the management makes estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the dates of the consolidated financial statements, as well as the reported amounts of revenues and expenses during the reporting periods. Significant estimates required to be made by the management include, but are not limited to, the recoverability of long-lived assets and the valuation of accounts receivable and inventories. Actual results could differ from those estimates.

Cash and cash equivalents

For purposes of the statement of cash flow, the Company considers all highly liquid investments with an original maturity of three months or less to be cash equivalents.

Accounts receivable

Accounts receivables are stated at net realizable value. Any allowance for doubtful accounts is established based on the management's assessment of the recoverability of accounts and other receivables. Management regularly reviews the composition of accounts receivable and analyzes historical bad debts, customer concentrations, customer credit worthiness, current economic trends and changes in customer payment patterns to evaluate the collectability of accounts receivable and the adequacy of the allowance. The allowance for accounts receivable is \$16,506 for the year ended December 31, 2008 and there were no allowances for the years ended December 31, 2007 and 2006.

Inventories

Inventories are stated at the lower of cost or market. Cost is determined on a weighted average method. Cost of work in progress and finished goods comprises direct material, direct production cost and an allocated portion of production overheads. Management compares the cost of inventory with the market value and an allowance is made for writing down the inventory to its market value, if lower.

Revenue recognition

The Company's revenue recognition policies are in compliance with Staff Accounting Bulletin ("SAB") 104. Sales revenue is recognized when title and risks have passed, which is generally at the date of shipment and when collectability is reasonably assured.

The Company sells its products to the customers who have passed the Company's credit check. Sales agreements are signed with each customer. The purchase price of products is fixed in the agreement.

ADVANCED BATTERY TECHNOLOGIES, INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
DECEMBER 31, 2008, 2007 AND 2006

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

The Company does not sell products to customers on a consignment basis. The company makes custom products based on sales agreements, so no returns are allowed. The Company warrants the product only in the event of defects for one year from the date of shipment. Historically, the Company has not experienced significant defects, and replacements for defects have been minimal. For the years ended December 31, 2008, 2007 and 2006, no such returns and allowances have been recorded. Should returns increase in the future it would be necessary to adjust estimates, in which case recognition of revenues could be delayed. Payments received before all of the relevant criteria for revenue recognition are recorded as customer deposits.

Property, plant and equipment

Property, plant and equipment are stated at cost less accumulated depreciation and amortization. Maintenance, repairs and betterments, including replacement of minor items, are charged to expense; major additions to physical properties are capitalized. Depreciation and amortization are provided using the straight-line method (after taking into account their respective estimated residual values) over the estimated useful lives of the assets as follows:

Buildings and improvements	39 years
Machinery, equipment and motor vehicles	5-10 years

Construction in progress

Construction in progress represents buildings and machinery under construction, which is stated at cost and is not depreciated. Cost comprises the direct costs of construction. Construction in progress is reclassified to the appropriate category of property, plant and equipment when completed and ready for use.

Prepaid consulting services

Prepaid consulting services represent the aggregate fair value of the Company's common stock issued in return for the consulting services provided by certain consultants to the Company. The fair value is determined by reference to the closing price of the Company's common stock as quoted on NASDAQ at the date of issuance. The prepaid expenses are amortized on a straight-line basis over the respective terms of the service periods. Amortization of prepaid consulting services for the years ended December 31, 2008, 2007 and 2006 was \$309,237, \$378,125 and \$357,335, respectively.

ADVANCED BATTERY TECHNOLOGIES, INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
DECEMBER 31, 2008, 2007 AND 2006

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Impairment of long-lived assets

Long-lived assets, which include property, plant and equipment and intangible assets, are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable.

Concentration of credit risk

Financial instruments that potentially subject the Company to significant concentrations of credit risk consist of cash and cash equivalents and accounts and other receivables. As of December 31, 2008, substantially most of the Company's cash and cash equivalents were held by major banks located in the PRC which the Company's management believes are of high credit quality. With respect to accounts receivable, the Company extends credit based on an evaluation of the customer's financial condition and without requiring collateral. The Company conducts periodic reviews of its customers' financial condition and customer payment practices to minimize collection risk on accounts receivable.

Foreign currency translation

The functional currency of ZQPT is the Chinese Renminbu ("RMB"). For financial reporting purposes, RMB has been translated into United States dollars ("USD") as the reporting currency. Assets and liabilities are translated at the exchange rate in effect at the balance sheet date. Income statement accounts are translated at the average rate of exchange prevailing for the period. Capital accounts are translated at their historical exchange rates when the capital transaction occurred. Translation adjustments arising from the use of different exchange rates from period to period are included as a component of stockholders' equity as "Accumulated other comprehensive income". Gains and losses resulting from foreign currency translation are included in accumulated other comprehensive income.

Goodwill

Goodwill and other intangible assets are accounted for in accordance with the provisions of SFAS No. 142, "Goodwill and Other Intangible Assets". Under SFAS 142, goodwill, including any goodwill included in the carrying value of investments accounted for using the equity method of accounting, and certain other intangible assets deemed to have indefinite useful lives are not amortized. Rather, goodwill and such indefinite-lived intangible assets are assessed for impairment at least annually based on comparisons of their respective fair values to their carrying values.

ADVANCED BATTERY TECHNOLOGIES, INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
DECEMBER 31, 2008, 2007 AND 2006

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Goodwill (Continued)

Finite-lived intangible assets are amortized over their respective useful lives and, along with other long-lived assets, are evaluated for impairment periodically whenever events or changes in circumstances indicate that their related carrying amounts may not be recoverable in accordance with SFAS No. 144, "Accounting for the Impairment or Disposal of Long-Lived Assets".

In evaluating long-lived assets for recoverability, including finite-lived intangibles and property and equipment, the Company uses its best estimate of future cash flows expected to result from the use of the asset and eventual disposition in accordance with SFAS No. 144. To the extent that estimated future undiscounted net cash flows attributable to the asset are less than the carrying amount, an impairment loss is recognized in an amount equal to the difference between the carrying value of such asset and its fair value. Assets to be disposed of and for which there is a committed plan of disposal, whether through sale or abandonment, are reported at the lower of carrying value or fair value less costs to sell.

Stock-Based Compensation

Effective January 1, 2006, the Company adopted the provisions of Financial Accounting Standards Board Statement of Financial Accounting Standards ("SFAS") No. 123(R), "Share-Based Payments," which establishes the accounting for employee stock-based awards. Under the provisions of SFAS No. 123(R), stock-based compensation is measured at the grant date, based on the calculated fair value of the award, and is recognized as an expense over the requisite employee service period (generally the vesting period of the grant). The Company adopted SFAS No. 123 (R) using the modified prospective method and, as a result, periods prior to December 31, 2005 have not been restated.

Prior to December 31, 2005, the Company accounted for stock-based compensation in accordance with provisions of Accounting Principles Board Opinion No. 25 ("APB No. 25), "Accounting for Stock Issued to Employees," and related interpretations. Under APB No. 25, compensation cost was recognized based on the difference, if any, on the date of grant between the fair value of the Company's stock and the amount an employee must pay to acquire the stock. The Company has not granted any stock options and, accordingly, no compensation expense related to options was recognized prior to the adoption of SFAS No. 123 (R).

Both prior to and subsequent to December 31, 2005, the Company determined the fair value of each stock award to be equal to the quoted market price for the Company's common stock on the date of the award.

ADVANCED BATTERY TECHNOLOGIES, INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
DECEMBER 31, 2008, 2007 AND 2006

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Stock-Based Compensation (Continued)

Unearned compensation represents shares issued to executives and employees that will be vested over a certain service period. These shares will be amortized over the vesting period in accordance with FASB 123 (R). The average vesting period for the shares issued to date has been 18.5 years, based on the terms of the employment agreements under which the stock was awarded. The expense related to the vesting of unearned compensation was \$599,476, \$499,123 and 424,942 for years ended December 31, 2008, 2007 and 2006, respectively.

The Company measures compensation expense for its non-employee stock-based compensation under the Financial Accounting Standards Board (FASB) Emerging Issues Task Force (EITF) Issue No. 96-18, "Accounting for Equity Instruments that are Issued to Other Than Employees for Acquiring, or in Conjunction with Selling, Goods or Services". The fair value of the option issued is used to measure the transaction, as this is more reliable than the fair value of the services received. Fair value is measured as the value of the Company's common stock on the date that the commitment for performance by the counterparty has been reached or the counterparty's performance is complete. The fair value of the equity instrument is charged directly to compensation expense and additional paid-in capital.

Research and development costs

Research and development costs are expensed as incurred. Engineers and technical staff are involved in the production of our products as well as on-going research, with no segregation of the portion of their salaries relating to research and development from the portion of their salaries relating to production. The total salaries are included in cost of goods sold. Research and development expense was \$4,463, \$383,871 and 181,257 for the years ended December 31, 2008, 2007 and 2006, respectively.

Income Tax

The Company utilizes Statement of Financial Accounting Standards (SFAS) No. 109, "Accounting for Income Taxes," which requires the recognition of deferred tax assets and liabilities for the expected future tax consequences of events that have been included in the financial statements or tax returns. Under this method, deferred income taxes are recognized for the tax consequences in future years of differences between the tax bases of assets and liabilities and their financial reporting amounts at each period end based on enacted tax laws and statutory tax rates applicable to the periods in which the differences are expected to affect taxable income. Valuation allowances are established, when necessary, to reduce deferred tax assets to the amount expected to be realized. There is no deferred tax amount recognized for the years ended December 31, 2008, 2007 and 2006.

ADVANCED BATTERY TECHNOLOGIES, INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
DECEMBER 31, 2008, 2007 AND 2006

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Comprehensive Income

Comprehensive income is defined to include changes in equity except those resulting from investments by owners and distributions to owners. Among other disclosures, items that are required to be recognized under current accounting standards as components of comprehensive income are required to be reported in a financial statement that is presented with the same prominence as other financial statements. Comprehensive income includes net income and the foreign currency translation gain, net of tax.

Basic and Diluted Earnings per Share

Earnings per share are calculated in accordance with the SFAS 128, "Earnings per share". Basic net earnings per share are based upon the weighted average number of common shares outstanding, but excluding shares issued as compensation that have not yet vested. Diluted net earnings per share are based on the assumption that all dilutive convertible shares and stock options were converted or exercised, and that all unvested shares have vested. Dilution is computed by applying the treasury stock method. Under this method, options and warrants are assumed to be exercised at the beginning of the period (or at the time of issuance, if later), and as if funds obtained thereby were used to purchase common stock at the average market price during the period.

Recently Issued Accounting Standards

In June 2008, the FASB issued FASB Staff Position on Emerging Issues Task Force Issue 03-6, "Determining Whether Instruments Granted in Share-Based Payment Transactions Are Participating Securities" ("FSP EITF 03-6-1"). FSP EITF 03-6-1 states that unvested share-based payment awards that contain nonforfeitable rights to dividends or dividend equivalents (whether paid or unpaid) are participating securities and shall be included in the computation of earnings per share ("EPS") pursuant to the two-class method. FSP EITF 03-6-1 is effective for financial statements issued for fiscal years beginning after December 15, 2008, and interim periods within those years. All prior-period EPS data presented shall be adjusted retrospectively (including interim financial statements, summaries of earnings, and selected financial data) to conform with the provisions of FSP EITF 03-6-1. The adoption of this FSP EITF 03-6-1 did not have a material effect on the Company's financial position.

In March 2008, the FASB issued Statement of Financial Accounting Standards ("SFAS") No. 161, Disclosures about Derivative Instruments and Hedging Activities, an amendment of FASB Statement No. 133, which requires additional disclosures about the objectives of the derivative instruments and hedging activities, the method of accounting for such instruments under SFAS No. 133 and its related interpretations, and a tabular disclosure of the effects of such instruments and related hedged items on our financial position, financial performance, and cash flows. SFAS No. 161 is effective beginning January 1, 2009. We are currently assessing the potential impact that adoption of SFAS No. 161 may have on our financial statements.

ADVANCED BATTERY TECHNOLOGIES, INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
DECEMBER 31, 2008, 2007 AND 2006

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

In December 2007, the FASB issued SFAS No. 160, "Noncontrolling Interests in Consolidated Financial Statements - an amendment of Accounting Research Bulletin No. 51" ("SFAS 160"), which establishes accounting and reporting standards for ownership interests in subsidiaries held by parties other than the parent, the amount of consolidated net income attributable to the parent and to the non-controlling interest, changes in a parent's ownership interest and the valuation of retained non-controlling equity investments when a subsidiary is deconsolidated. The Statement also establishes reporting requirements that provide sufficient disclosures that clearly identify and distinguish between the interests of the parent and the interests of the non-controlling owners. SFAS 160 is effective for fiscal years beginning after December 15, 2008. The adoption of this SFAS 160 did not have a material effect on the Company's financial position.

In December 2007, Statement of Financial Accounting Standards No. 141(R), Business Combinations, was issued. SFAS No. 141R replaces SFAS No. 141, Business Combinations. SFAS 141R retains the fundamental requirements in SFAS 141 that the acquisition method of accounting (which SFAS 141 called the purchase method) be used for all business combinations and for an acquirer to be identified for each business combination. SFAS 141R requires an acquirer to recognize the assets acquired, the liabilities assumed, and any non-controlling interest in the acquiree at the acquisition date, measured at their fair values as of that date, with limited exceptions. This replaces SFAS 141's cost-allocation process, which required the cost of an acquisition to be allocated to the individual assets acquired and liabilities assumed based on their estimated fair values. SFAS 141R also requires the acquirer in a business combination achieved in stages (sometimes referred to as a step acquisition) to recognize the identifiable assets and liabilities, as well as the non-controlling interest in the acquiree, at the full amounts of their fair values (or other amounts determined in accordance with SFAS 141R). SFAS 141R applies prospectively to business combinations for which the acquisition date is on or after the beginning of the first annual reporting period beginning on or after December 15, 2008. An entity may not apply it before that date. The adoption of this SFAS No. 141R did not have a material effect on the Company's financial position.

ADVANCED BATTERY TECHNOLOGIES, INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
DECEMBER 31, 2008, 2007 AND 2006

3. INVENTORIES

Inventories consist of the following:

	December 31, 2008	December 31, 2007
Raw Materials	\$ 791,891	\$ 368,844
Work-in-process	638,745	168,166
Finished goods	317,479	622,464
Inventory	\$ 1,748,115	\$ 1,159,474

The allowance for inventories was \$47,655 for the years ended December 31, 2008 and there were no allowances recorded for the years ended December 31, 2007 and 2006.

4. LOAN RECEIVABLE

The Company loaned to a non-related company, Harbin Jinhuida Investment Consulting Limited, the amount of \$1,600,000 for one year term from October 30, 2008 to October 29, 2009 at a fixed interest rate of 10% per annum. The principal plus interest will be repaid upon maturity. The Company accrued interest income of \$26,667 for the year ended December 31, 2008 as a result of this transaction.

5. OTHER RECEIVABLES

Other receivables generally consist of advance to employee and interest receivable and tax receivable. The Company has full oversight and control over the advanced accounts. Therefore, no allowance for the uncollectible accounts is considered necessary.

6. PROPERTY, PLANT AND EQUIPMENT, NET

Property, plant and equipment consist of the following at December 31, 2008 and December 31, 2007:

	December 31, 2008	December 31, 2007
Building and improvements	\$ 12,397,349	\$ 11,603,472
Machinery and equipment	3,698,917	3,486,333
Motor Vehicles	217,236	169,706
	16,313,501	15,259,511
less: Accumulated Depreciation	(2,803,788)	(2,016,275)
Construction in Progress	3,126,130	-
Total property, plant and equipment, net	\$ 16,635,843	\$ 13,243,236

ADVANCED BATTERY TECHNOLOGIES, INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
DECEMBER 31, 2008, 2007 AND 2006

6. PROPERTY, PLANT AND EQUIPMENT, NET (Continued)

Property, plant and equipment is generally stated at cost less accumulated depreciation. Upon acquisition of the 30% minority interest (Note 1), the buildings and building improvements were adjusted to their fair market value due to re-evaluation of the Company's assets and liabilities for the purpose of determining the goodwill.

Depreciation expense for the years ended December 31, 2008, 2007 and 2006 was \$646,415, \$618,450 and \$426,318, respectively.

Construction in progress represents direct costs of construction and design fees incurred for the Company's new plant and equipment. Capitalization of these costs ceases and the construction in progress is transferred to plant and equipment when substantially all the activities necessary to prepare the assets for their intended use are completed. No depreciation is provided until it is completed and ready for its intended use. Construction in progress totaled \$3,126,130 at December 31, 2008 and nil at December 31, 2007.

7. INVESTMENT IN UNCONSOLIDATED ENTITY

In the fourth quarter of 2008, the Company entered an equity investment agreement ("Agreement") with Beyond E-Tech, Inc (BET) to acquire 49% of issued and outstanding capital stock of BET for a total payment of \$1,500,000. The Company made the payment in full as of December 31, 2008. BET is a recently-organized company that imports and distributes cell phones in the United States. Pursuant to the Agreement, during any period of time when the Company is a shareholder of BET, BET shall exclusively market products for resale that use ABAT's rechargeable polymer lithium-ion batteries.

According to the Agreement, the Company has significant influence over the operating and financial policies of BET, including a right of approval of its operating budget, veto power over large capital expenses, and other management controls. Therefore, the Company uses the equity method to account for the investment in BET. Net loss on equity method investments was \$90,707 in 2008. The Company uses its best estimate of future cash flows expected to result from the use of this asset in accordance with SFAS No. 157. There was \$371,743 impairment loss recognized on this investment for the year ended December 31, 2008 because the estimated future undiscounted net cash flows related to this investment are less than the carrying amount.

8. DEPOSIT FOR LONG-TERM ASSETS

The Company entered various agreements to purchase equipment and machinery in an effort to expand its production in 2009. As of December 31, 2008, the Company made a total down payment of \$1.75 million on those long-term assets. The Company expects to pay the remaining contract amount of \$3.54 million in 2009. The deposit will be reclassified to the respective accounts under the fixed assets upon delivery and transfer of legal title.

ADVANCED BATTERY TECHNOLOGIES, INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
DECEMBER 31, 2008, 2007 AND 2006

9. INVESTMENT ADVANCE

On October 24, 2008, Cashtech entered an agreement with Wuxi Angell Autocycle Co. Ltd ('Wuxi Angell') under which the Company will acquire a 55% interest in Wuxi Angell in exchange for a cash payment of RMB 25 million (approximately US\$3.64 million) and 2 million shares of ABAT's common stock. The Company has made a deposit in amount of \$3 million as of December 31, 2008, and expects to complete the acquisition in the first half of 2009. Wuxi Angell is a major customer of ABAT with annual sales of \$7.11 million in 2008, which represented 15.8% of the total sales of the Company for the year ended December 31, 2008. The Company had no direct sales to Wuxi Angell in 2007 and 2006.

10. INTANGIBLE ASSETS

Intangible assets consist of land use rights and patents. All land in the People's Republic of China is government owned and cannot be sold to any individual or company. However, the government grants the user a "land use right" to use the land and the power line underneath. ZQ Power-Tech leases two pieces of land per real estate contract from the PRC Government for a period from August 2003 to September 2013, on which the office and production facilities of ZQ Power-Tech are situated. ZQ Power-Tech leases power from the local government for a period from July 2003 to July 2013.

Rights to use land and power and patent right are stated at fair market value less accumulated amortization. The use of the fair market value was due to re-evaluation of the Company's assets and liabilities for the purpose of determining the goodwill upon acquisition of the 30% minority interest (Note 1).

The Company amortizes the patents over a 10 year period. The Company evaluates intangible assets for impairment, at least on an annual basis and whenever events or changes in circumstances indicate that the carrying value may not be recoverable from its estimated future cash flows. Recoverability of intangible assets, other long-lived assets, and goodwill is measured by comparing their net book value to the related projected undiscounted cash flows from these assets, considering a number of factors including past operating results, budgets, economic projections, market trends and product development cycles. If the net book value of the asset exceeds the related undiscounted cash flows, the asset is considered impaired, and a second test is performed to measure the amount of impairment loss. As of December 31, 2008, no impairment of intangible assets has been recorded.

ADVANCED BATTERY TECHNOLOGIES, INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
DECEMBER 31, 2008, 2007 AND 2006

10. INTANGIBLE ASSETS (Continued)

Net intangible assets at December 31, 2008 and December 31, 2007 were as follows:

	December 31, 2008	December 31, 2007
Rights to use land and power	\$ 1,024,225	\$ 957,938
Patents	901,077	840,452
	1,925,303	1,798,390
Less: accumulated amortization	(377,143)	(235,353)
Total Intangible Assets, Net	\$ 1,548,159	\$ 1,563,037

Amortization expense was \$120,820, \$81,299 and \$89,998 for the years ended December 31, 2008, 2007 and 2006, respectively.

Based upon current assumptions, the Company expects that its intangible assets will be amortized over the next five years according to the following schedule:

2009	\$ 120,820
2010	120,820
2011	120,820
2012	120,820
2013	120,820
Thereafter	944,059
	\$ 1,548,159

11. GOODWILL

Goodwill represents the excess of the purchase price over the fair value of the net tangible and identifiable intangible assets of the 30% minority interest in ZQPT acquired from the minority shareholders in ZQPT (Note 1). Goodwill is tested for impairment on an annual basis and in between annual test dates if events or circumstances indicate that the carrying amount of goodwill exceeds its implied fair value. The Company determined the implied fair value of goodwill by allocating the price paid to acquire the 30% minority interest to all of its assets and liabilities. The Company determined that the goodwill was not impaired for the year ended December 31, 2008.

12. LOAN FROM OFFICER

The Company's CEO, Mr. Zhiguo Fu, periodically loans money to finance the operations of its New York office whenever necessary. As of December 31, 2008, the Company still owed a total amount of \$17,237 to Mr. Fu. The loan is intended to be interest free and due upon demand.

ADVANCED BATTERY TECHNOLOGIES, INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
DECEMBER 31, 2008, 2007 AND 2006

13. NOTE PAYABLE

In September 2003, the Company was approved to receive a government-subsidized economic development loan in the original amount of \$362,446 from the Finance Bureau of City of Shuangcheng, where the Company's principal operations are located. The note was an interest-free and unsecured demand loan with no fixed term of repayment. During the year ended December 31, 2008, the Company repaid the note in full.

14. STOCK-BASED COMPENSATION

(1) 2004 Equity Incentive Plan

The Company adopted the 2004 Equity Incentive Plan (the "2004 Plan") on August 24, 2004. The purpose of the Plan is to promote the success and enhance the value of the Company by linking the personal interests of the participants of the Plan (the "Participants") to those of the Company's stockholders, and by providing the Participants with an incentive for outstanding performance. The Plan is further intended to attract and retain the services of the Participants upon whose judgment, interest, and special efforts the successful operation of the Company is dependent. The Company has reserved 5,000,000 shares of common stock for the options and awards under the Plan.

Subject to the terms and provisions of the Plan, the Board of Directors, at any time and from time to time, may grant shares of stock to eligible persons in such amounts and upon such terms and conditions as the Board of Directors shall determine.

The Committee appointed by the Board of Directors to administer the Plan shall have the authority to determine all matters relating to the options to be granted under the Plan including selection of the individuals to be granted awards or stock options, the number of stocks, the date, the termination of the stock options or awards, the stock option term, vesting schedules and all other terms and conditions thereof.

A summary of the status of the Company's unearned stock compensation under the 2004 Equity Incentive Plan as of December 31, 2008, and changes for the year ended December 31, 2008, is presented below:

	December 31, 2008
Unearned stock compensation as of January 1, 2008	\$ 2,369,454
Unearned stock compensation granted	-
Compensation expenses debited to statement of operations with a credit to additional paid-in capital	(265,760)
Unearned stock compensation as of December 31, 2008	\$ 2,103,694

ADVANCED BATTERY TECHNOLOGIES, INC.
 NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
 DECEMBER 31, 2008, 2007 AND 2006

14. STOCK-BASED COMPENSATION (Continued)

In addition, the compensation cost capitalized as an offset to additional paid-in capital in relation to shares issued to non-employee consultants under the 2004 Plan in prior years and current period was \$432,272. The Company's contracts with these consultants have terms ranging from 60 months to 120 months, and the unearned stock compensation will be amortized as expense over the respective terms of the contracts. The amortization for the years ended December 31, 2008, 2007 and 2006 was \$309,237, \$ 378,215 and \$357,335, respectively.

The following table shows the amortization of the unearned stock compensation relating to consulting contracts:

Year Amortization	
2009 \$	137,562
2010	116,375
2011	112,291
2012	66,044
\$	432,272

(2) 2006 Equity Incentive Plan

The Company adopted the 2006 Equity Incentive Plan (the "2006 Plan") on April 24, 2006. The 2006 Plan became effective on April 18, 2006. The number of shares available for grant under the 2006 Plan shall not exceed 8,000,000 shares and shares of stock and options may be granted to the eligible persons at the discretion of the Company's Board of Directors or the Committee administering the plan. Incentive stock options ("ISO"), nonqualified stock options ("NQSO"), or a combination thereof may be granted but ISOs can only be granted to the Company's employees. The Committee can also grant shares of restricted stock or performance shares (a performance share is equivalent in value to a share of stock) to eligible persons at any time and from time to time.

ADVANCED BATTERY TECHNOLOGIES, INC.
 NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
 DECEMBER 31, 2008, 2007 AND 2006

14. STOCK-BASED COMPENSATION (Continued)

The exercise price for each ISO awarded under the 2006 Plan shall be equal to 100% of the fair market value of a share on the date the option is granted and be 110% of the fair market value if the eligible person owns stock possessing more than 10% of the total combined voting power of all classes of stock of the Company or of its parent or subsidiary corporations. The exercise price of a NQSO shall be determined by the Committee in its sole discretion.

No option shall be exercisable later than the tenth anniversary date of its grant and each option shall expire at such time as the Committee determines at the time of grant. The eligible person who owns stock possessing more than 10% of the total combined voting power of all classes of stock of the Company or of its parent or subsidiary corporations shall exercise his/her option before the fifth anniversary date of its grant.

Options shall vest at such items and under such terms and conditions as determined by the Committee; provided, however, unless a different vesting period is provided by the Committee at or before the grant of an option, the options will vest on the first anniversary of the grant.

Options granted under the 2006 Plan shall be exercisable at such times and be subject to such restrictions and conditions as the Committee shall in each instance approve, which need not be the same for each grant or for each participant.

No award shall be made under the 2006 Plan after December 31, 2015.

A summary of the status of the Company's unearned stock compensation under the 2006 Equity Incentive Plan as of December 31, 2008 is presented below:

Unearned stock compensation as of January 1, 2008	\$ 3,828,414
Unearned stock compensation granted	139,403
Compensation expenses debited to statement of operations with a credit to additional paid-in capital	(333,716)
 Unearned stock compensation as of December 31, 2008	 \$ 3,634,101

Other than the transaction as detailed above, no options or awards have been made, exercised or lapsed during the years ended December 31, 2008, 2007 and 2006 under the 2004 Plan and the 2006 Plan.

ADVANCED BATTERY TECHNOLOGIES, INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
DECEMBER 31, 2008, 2007 AND 2006

15. INCOME TAXES

Under the Income Tax Laws of the PRC, the Company is generally subject to tax at a statutory rate of 25% and was, until January 2008, subject to tax at a statutory rate of 33% (30% state income taxes plus 3% local income taxes) on its taxable income. However, ZQ Power-Tech is located in a specially designated technology zone which allows foreign-invested enterprises a five-year income tax holiday. ZQ Power-Tech enjoyed a two-year tax exemption through December 31, 2007, and enjoys an additional 50% income tax reduction from January 1, 2008 to December 31, 2010.

On March 16, 2007, National People's Congress passed a new corporate income tax law, which was effective on January 1, 2008. This new corporate income tax unifies the corporate income tax rate to 25%, and includes cost deductions and tax incentive policies for both domestic and foreign-invested enterprises in China. According to the new corporate income tax law, the applicable corporate income tax rate of our Chinese subsidiaries decreased to 12.5% in 2008.

A reconciliation of tax at United States federal statutory rate to provision for income tax recorded in the financial statements is as follows:

	For the Twelve Months Ended December 31,	
	2008	2007
U.S. statutory income tax rate	35.0%	35.0%
Foreign tax rate difference	(9.0%)	(2.0%)
Effect of favorable tax exemption in China	(11.5%)	(33.0%)
Actual consolidated income tax rate	14.5%	-

The estimated tax savings as a result of our tax holidays for the years ended December 31, 2008, 2007 and 2006 amounted to \$2,722,407, \$3,367,784 and \$2,653,448, respectively. The net effect on earnings per share had the income tax been applied would decrease basic earnings per share for the years ended December 31, 2008, 2007 and 2006 from \$0.37 to \$0.32, from \$0.25 to \$0.17 and from \$0.21 to \$0.14, respectively.

Advanced Battery Technologies, Inc. was incorporated in the United States. It incurred a net operating loss for U.S. income tax purposes for 2008 and 2007. The net operating loss carry forwards, including amortization of share-based compensation, for United States income tax purposes amounted to \$2,311,230, \$1,682,114 and \$782,278 for the years ended December 31, 2008, 2007 and 2006, respectively, which may be available to reduce future years' taxable income. These carry forwards will expire, if not utilized, beginning in 2026, 2027 through 2028. Management believes that the realization of the benefits arising from this loss appear to be uncertain due to Company's limited operating history and continuing losses for United States income tax purposes. Accordingly, the Company has provided a 100% valuation allowance at December 31, 2008 for the temporary difference related to loss carry-forwards and restricted stock issuance. Management reviews this valuation allowance periodically and makes adjustments as warranted. The valuation allowances for the years ended December 31, 2008, 2007 and 2006 were as follows:

Valuation Allowance	For the Years Ended December 31,		
	2008	2007	2006

Balance of January 1,	\$ 837,894	\$ 265,975	-
Increase	\$ 785,818	\$ 571,919	\$ 265,975
Balance of December 31,	\$ 1,623,712	\$ 837,894	\$ 265,975

16. EARNINGS PER SHARE

Earnings per share for the period ended December 31, 2008, 2007 and 2006 is determined by dividing net income for the periods by the weighted average number of both basic and diluted shares of common stock and common stock equivalents outstanding. The following is an analysis of the differences between basic and diluted earnings per common share in accordance with Statement of Financial Accounting Standards No. 128, "Earnings Per Share."

ADVANCED BATTERY TECHNOLOGIES, INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
DECEMBER 31, 2008, 2007 AND 2006

16. EARNINGS PER SHARE (Continued)

The following demonstrates the calculation for earnings per share for the years ended December 31, 2008, 2007 and 2006:

	2008	For the Years Ended December 31,	
		2007 (Restated)	2006 (Restated)
Basic earning per share			
Net Income	\$ 16,096,120	\$ 10,205,406	\$ 8,040,752
Weighted average number of common shares outstanding-Basic	43,493,492	40,924,452	37,474,371
Earnings per share-Basic	\$ 0.37	\$ 0.25	\$ 0.21
Diluted earnings per share			
Net Income	\$ 16,096,120	\$ 10,205,406	\$ 8,040,752
Weighted average number of common shares outstanding-Basic	43,493,492	40,924,452	37,474,371
Effect of diluted securities-Stock options	8,178,500	8,752,833	9,095,000
Weighted average number of common shares outstanding-Diluted	51,671,992	49,677,285	46,569,371
Earnings per share-Diluted	\$ 0.31	\$ 0.21	\$ 0.17

At December 31, 2008, 2007 and 2006, the Company had unvested stock awards of 8,178,500, 8,752,833 and 9,095,000, respectively, under the 2004 and 2006 equity plans. All unvested stock awards were included in the diluted earnings per share calculation as they are dilutive.

At December 31, 2008, the Company had outstanding warrants of 2,592,945 and there were no outstanding warrants as of December 31, 2007 and 2006. For year ended December 31, 2008, all outstanding warrants, with an exercise above the market price during the year ended December 31, 2008, were excluded from the diluted earnings per share calculation as they are anti-dilutive. For the years ended December 31, 2007 and 2006 there were no warrants issued and outstanding.

ADVANCED BATTERY TECHNOLOGIES, INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
DECEMBER 31, 2008, 2007 AND 2006

17. STOCKHOLDERS' EQUITY

On August 8 and August 15, 2008 the Company issued a total of 5,058,834 shares of common stock (the "Shares") and warrants to purchase a total of 2,276,474 shares of common stock (the "Warrants") to eight accredited institutional funds. The aggregate purchase price for the securities was \$21,500,034. From the proceeds of the offering, the Company paid a fee of \$1,075,002 to Rodman & Renshaw, LLC, which acted as the placement agent for the offering. The Company also reimbursed Rodman & Renshaw, LLC for its out-of-pocket expenses totaling \$68,560, and issued to Rodman & Renshaw, LLC warrants to purchase 316,471 shares of common stock. The Company realized net proceeds of \$20,356,480 from the offering.

The Warrants sold in the offering, as well as the warrants issued to Rodman & Renshaw, LLC, permit the holders to purchase common stock from Advanced Battery Technologies for a price of \$5.51 per share. The Warrants expire in five years. Cashless exercise is permitted only if there is no effective registration statement permitting resale of the common shares underlying the Warrants. No warrant-holder may exercise a Warrant to purchase shares that would cause the holder to own more than 4.99% of the outstanding common stock of Advanced Battery Technologies.

Both Investor Warrants and Placement Agent Warrants meet the conditions for equity classification pursuant to FAS 133 "Accounting for Derivatives" and EITF 00-19 "Accounting for Derivative Financial Instruments Indexed to, and Potentially Settled in, a Company's Own Stock." Therefore, these warrants were classified as equity and included in the Additional Paid-in Capital.

The fair value of the warrants was calculated using the Black-Scholes options pricing model using the following assumptions: Volatility 91.52%, risk free interest rate 3.21% for August 8, 2008 Placement and 3.11% for August, 15, 2008 Placement, and expected term of 5 years.

Following is a summary of the status of warrants activities as of December 31, 2008:

	Warrants Outstanding	Weighted Average Exercise Price	Average Remaining Life in years	Aggregate Intrinsic Value
Outstanding, December 31, 2007	-			-
Granted	2,592,945	\$ 5.51	4.58	\$ 8,709,964
Forfeited	-			-
Exercised	-			-
Outstanding, December 31, 2008	2,592,945	\$ 5.51	\$ 4.58	\$ 8,709,964

On December 8, 2008, the Board of Directors approved a stock repurchase program. The Company repurchased 119,510 shares as treasury stock as of December 31, 2008. As a result of these transactions, there are 54,781,577 shares of common stock issued and 54,662,067 shares outstanding as of December 31, 2008.

ADVANCED BATTERY TECHNOLOGIES, INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
DECEMBER 31, 2008, 2007 AND 2006

18. CONCENTRATION OF RISKS

Four major customers accounted for approximately 47.1% of the net revenue for the year ended December 31, 2008, with each customer individually accounting for 15.8%, 10.8%, 10.4% and 10.1%, respectively. At December 31, 2008, the total receivable balance due from these customers was \$4,138,089, representing 28.1% of total accounts receivable. One major customer accounted for 16.1% of the net revenue for the year ended December 31, 2007. At December 31, 2007, the total receivable balance due from this customer was \$1,255,723, representing 7.8% of total accounts receivable. Six major customers accounted for approximately 67.5% of the net revenue for the year ended December 31, 2006, with each customer individually accounting for 11.9%, 11.7%, 11.7%, 11.5%, 10.7% and 10.0%, respectively. At December 31, 2006, the total receivable balance due from these customers was \$1,860,061, representing 37.6% of total accounts receivable.

Four major vendors provided approximately 55.6% of the Company's purchases of raw materials for the year ended December 31, 2008, with each vendor individually accounting for 20.5%, 12.8%, 11.8% and 10.5%, respectively. The Company's accounts payable to these vendors was \$70,408 as of December 31, 2008. Four vendors provided 52.0% of the Company's purchase of raw materials for the year ended December 31, 2007, with each vendor individually accounting for 16.1%, 12.7%, 12.1%, and 11.1%, respectively. The Company's accounts payable to these vendors was \$29,898 as of December 31, 2007. Two major vendors provided approximately 27.9% of the Company's purchases of raw materials for the year ended December 31, 2006, with each vendor individually accounting for 15.3% and 12.6%, respectively. The Company's accounts payable to these vendors was nil as of December 31, 2006.

19. LITIGATION

In September 2008, Susquehanna Financial Group, LLLP ("SFG") commenced an action against the Company in the Court of Common Pleas of Montgomery County, Pennsylvania. SFG alleges that it was party to two contracts with the Company, pursuant to which SFG alleges that it was entitled to serve as financial advisor with respect to any offering of securities by the Company completed prior to March 2009. SFG alleges that the Company failed to afford SFG the opportunity to serve as financial advisor in connection with the private placement by the Company in August 2008. SFG alleges that it is entitled to damages in the amount of \$1,359,872 and a warrant to purchase 81,882 share of the Company's common stock exercisable at \$8.00 per share. The Company has answered the Complaint, and has denied that SFG was entitled to serve as financial advisor in connection with the August 2008 private placement by reason of the fact that SFG had terminated its agreements with the Company, had waived any continuing rights under the contracts, and had acted in bad faith in connection with the services it undertook to perform for the Company.

20. WARRANTIES

The Company warrants that all products manufactured by it will be free from defects in materials and workmanship under normal use for a period of one year from the date of shipment. The Company's experience for costs and expenses in connection with such warranties has been minimal and for the years ended December 31, 2008, 2007 and 2006, no amounts have been considered necessary to reserve for warranty costs.

ADVANCED BATTERY TECHNOLOGIES, INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
DECEMBER 31, 2008, 2007 AND 2006

21. COMMITMENTS AND CONTINGENCIES

The Company's operations in the PRC are subject to specific considerations and significant risks not typically associated with companies in the North America and Western Europe. These include risks associated with, among others, the political, economic and legal environments and foreign currency exchange. The Company's results may be adversely affected by changes in governmental policies with respect to laws and regulations, anti-inflationary measures, currency conversion and remittance abroad, and rates and methods of taxation, among other things.

The Company's sales, purchases and expenses transactions are denominated in RMB and all of the Company's assets and liabilities are also denominated in RMB. The RMB is not freely convertible into foreign currencies under the current law. In China, foreign exchange transactions are required by law to be transacted only by authorized financial institutions at exchange rates set by the People's Bank of China, the central bank of China. Remittances in currencies other than RMB may require certain supporting documentation in order to affect the remittance.

The Company entered various agreements to purchase equipment and machinery in an effort to expand its production in 2009. As of December 31, 2008, the Company made a total down payment of \$1.75 million on those long-term assets. The Company still has the commitment to pay the remaining contract amount of \$3.54 million in 2009.

22. RESTATEMENT

When the Company filed its Annual Report for the year ended December 31, 2007, the weighted average number of common shares outstanding had been erroneously calculated. The weighted average has been restated in this Report and, as a result, the basic and diluted earnings per share for 2007 have been restated. The following table shows the effect of the restatement.

	December 31, 2007	
	As Reported	As Restated
Weighted Average Number of Common		
Shares outstanding - Basic	46,569,371	40,924,452
Shares outstanding - Diluted	46,569,371	49,677,285
Income Per Share - Basic	\$ 0.22	\$ 0.25
Income Per Share - Diluted	\$ 0.22	\$ 0.21

We have also restated the consolidated financial statements for the year ended December 31, 2006 as a result of changes in management's decision to impair its goodwill.

The management previously deemed that its goodwill was impaired based on its estimates of future cash flow to determine the fair value of the reporting unit. Upon further review of SFAS 142, the Company determined that, based on the quoted market prices of its common stock, goodwill was in fact not impaired. The Company has reversed the impairment of its goodwill to follow the guidance of SFAS 142.

The impact of this restatement on the financial statements as originally reported is summarized below:
December 31, 2006

Edgar Filing: ADVANCED BATTERY TECHNOLOGIES, INC. - Form 10-K/A

	As Reported	As Restated
Current assets	\$ 7,968,907	\$ 7,968,907

ITEM 9 CHANGES IN AND DISAGREEMENTS WITH ACCOUNTANTS ON ACCOUNTING AND FINANCIAL DISCLOSURE

Not Applicable

ITEM 9A CONTROLS AND PROCEDURES

(a) Evaluation of disclosure controls and procedures.

The term “disclosure controls and procedures” (defined in SEC Rule 13a-15(e)) refers to the controls and other procedures of a company that are designed to ensure that information required to be disclosed by a company in the reports that it files under the Securities Exchange Act of 1934 (the “Exchange Act”) is recorded, processed, summarized and reported, within time periods specified in the rules and forms of the Securities and Exchange Commission. “Disclosure controls and procedures” include, without limitation, controls and procedures designed to ensure that information required to be disclosed by a company in the reports that it files or submits under the Exchange Act is accumulated and communicated to the company’s management, including its principal executive and principal financial officers, or persons performing similar functions, as appropriate to allow timely decisions regarding required disclosure.

The Company’s management, with the participation of the Chief Executive Officer and the Chief Financial Officer, has evaluated the effectiveness of the Company’s disclosure controls and procedures as of the end of the period covered by this annual report (the “Evaluation Date”). Based on that evaluation, the Company’s Chief Executive Officer and Chief Financial Officer have concluded that, as of the Evaluation Date, such controls and procedures were effective.

(b) Changes in internal controls.

The term “internal control over financial reporting” (defined in SEC Rule 13a-15(f)) refers to the process of a company that is designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. The Company’s management, with the participation of the Chief Executive Officer and Chief Financial Officer, has evaluated any changes in the Company’s internal control over financial reporting that occurred during the fourth quarter of the year covered by this annual report, and they have concluded that there was no change to the Company’s internal control over financial reporting that has materially affected, or is reasonably likely to materially affect, the Company’s internal control over financial reporting.

(c) Management’s Report on Internal Control over Financial Reporting

Management of the Company is responsible for establishing and maintaining adequate internal control over financial reporting as defined in Rule 13a-15(f) under the Securities Exchange Act of 1934. We have assessed the effectiveness of those internal controls as of December 31, 2008, using the Committee of Sponsoring Organizations of the Treadway Commission (“COSO”) Internal Control – Integrated Framework as a basis for our assessment.

Because of inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies and procedures may deteriorate. All internal control systems, no matter how well designed, have inherent limitations. Therefore, even those systems determined to be effective can provide only reasonable assurance with respect to financial statement preparation and presentation.

A material weakness in internal controls is a deficiency in internal control, or combination of control deficiencies, that adversely affects the Company's ability to initiate, authorize, record, process, or report external financial data reliably in accordance with accounting principles generally accepted in the United States of America such that there is more than a remote likelihood that a material misstatement of the Company's annual or interim financial statements that is more than inconsequential will not be prevented or detected. In the course of making our assessment of the effectiveness of internal controls over financial reporting, we identified no material weaknesses in our internal control over financial reporting. Accordingly, management's assessment is that the Company's internal controls over financial reporting were effective as of December 31, 2008.

This annual report contains an attestation report of the Company's registered independent public accounting firm regarding internal control over financial reporting. The attestation report is included in the opinion of the registered independent public accounting firm set forth in Item 8 of this report.

ITEM 9B OTHER INFORMATION

None.

PART III

ITEM 10. DIRECTORS, EXECUTIVE OFFICERS, AND CORPORATE GOVERNANCE

The officers and directors of the Company are:

Name	Age	Position with Director the Company Since
Zhiguo Fu	59	Chairman, Chief Executive Officer
Guohua Wan	56	Director, Chief Financial Officer
Guopeng Gao	36	Director
Hongjun Si	33	Director
Liqui Bai	39	Director
John McFadden	65	Director
Yulin Hao	64	Director
Ning Li	55	Director
Shaoqiu Xia	62	Director
Shiyan Yang	46	Director

Cosimo J. Patti	59	Director	2007
Sui Yang Huang	48	Chief Technology Officer	--

Directors hold office until the annual meeting of the Company's stockholders and the election and qualification of their successors. Officers hold office, subject to removal at any time by the Board, until the meeting of directors immediately following the annual meeting of stockholders and until their successors are appointed and qualified.

Zhiguo Fu. Mr. Fu organized ZQ Power-Tech in 2002, and has served as its Chairman since then. In 1993 Mr. Fu founded Heilongjiang Guangsha Group, and he served as its Chairman until 2000. During that period Heilongjiang Guangsha Group had over 3,000 employees and was engaged in several hundred construction projects. Heilongjiang Guangsha Group was sold in 2000, at which time it had annual revenue in excess of \$25 million. Previously Mr. Fu had twenty years' experience in construction management.

Wan Guohua. Since 2003 Ms. Wan has been the General Manager of ZQ Power-Tech. From 2005 until 2007, Ms. Wan also served as Chief Financial Officer of Advanced Battery Technologies, Inc. In March 2009 she was re-appointed to that position. From 1999 until 2003 Ms. Wan was Vice President and Chief Financial Officer of Harbin Ridaxing Science and Technology Co., Ltd.

Gao Guopeng. Since 2002 Mr. Gao has served as Vice President and General Manager of ZQ Power-Tech. From 2000 until 2002, Mr. Gao was Technical Manager for Heilongjiang Shuangtai Electric Co. Ltd.

Hongjun Si. Since 2002 Mr. Si has served as Chief Technology Officer of ZQ Power-tech. Prior to joining ZQ Power-Tech, Mr. Si was employed as an engineer in the Battery Division of Weiyou Chemical Company, Inc.

Liqui Bai. Since 2003 Ms. Bai has been the Vice General Manager for ZQ Power-Tech. During the three years that preceded her employment by ZQ Power-Tech, Ms. Bai was employed as Manager of the Administrative Department of Heilongjiang Weiyou Chemicals Corp., Ltd.

John J. McFadden. Since 1998 Mr. McFadden has been self-employed as a consultant, providing consultation to his clients regarding both investment banking and energy matters. From 1996 until 1998 Mr. McFadden was employed as the Senior Managing Director of Cambridge Holding and Cambridge Partners, LLC, a private investment company. From 1968 until 1996 Mr. McFadden was employed by The First Boston Corporation with a variety of responsibilities in corporate finance and public finance, including service as Vice President and Treasurer. In 1967 Mr. McFadden was awarded a B.A. degree by St. Bonaventure University.

Yulin Hao. Since 2002 Mr. Hao has been employed as Vice General Manager by the Heilongjiang Jinli Accounting Firm, a firm of accountants in China's Heilongjiang province. From 1998 to 2002 Mr. Hao was employed by the East Asian Energy Transportation Company as General Manager, with responsibilities for capital management. From 1994 until 1997 Mr. Hao was employed as Vice President by the Guotai Securities Corporation. In 1964 Mr. Hao was awarded a Certificate in finance by the Heilongjiang Finance College.

Ning Li. Since 1990 Doctor Li has been employed as a Professor by the Harbin Industrial University, where she engages in teaching and research. In 1990 she was awarded a Doctoral Degree in Science by the Harbin Industrial University.

Shaoqiu Xia. Since 1993 Mr. Xia has been employed as Deputy Secretary in the Government of the City of Harbin, China. During the eight years immediately preceding his entry into government service, Mr. Xia was employed as President of Harbin Electrical and Mechanical Production Company. Mr. Xia was awarded a Bachelors Degree in Science in 1967 by the Shenyang Industrial University.

Shiyan Yang. Since 1998 Doctor Yang has been employed as a Professor by the Harbin Industrial University, where he engages in teaching and research. In 1998 he was awarded a Doctoral Degree in Science by the Harbin Industrial University.

Cosimo J. Patti. Mr. Patti has over 35 years of managerial experience in the financial services industry. Since 1999 Mr. Patti has been employed as President of Technology Integration Group, Inc. d/b/a FSI Advisors Group. FSI Advisors Group is an international consortium of financial services boutiques. Mr. Patti has been responsible for procuring business opportunities for the member firms. During the period from 2002 to 2004 Mr. Patti was also employed by iCi/ADP as Senior Director Applications Planning, with responsibility for managing the applications planning area of the fixed income software subsidiary of ADP. Mr. Patti serves as an Industry Arbitrator for both the NASD and the New York Stock Exchange.

Sui Yang Huang. Mr. Huang joined Advanced Battery Technologies in 2008 as Chief Technology Officer. Prior to joining Advanced Battery Technologies, Dr. Huang had over 25 years of experience in chemical engineering, including over 15 years experience in the Chinese battery industry. Most recently, from 2005 to 2007, Dr. Huang was employed as Chief Technology Officer of Shenzhen B&K Electronics Co., Ltd. From 2002 to 2005 Dr. Huang was employed as Chief Executive Officer of Apower Electronics Co., Ltd. Since 2002 Dr. Huang has also been employed on a part-time basis as a Professor in polymer materials and engineering at the South China University of Technology and as a Joint Project Researcher with the Chinese Academy of Sciences – GIG. Dr. Huang holds seven U.S. patents and 20 Chinese patents, primarily relating to the design and manufacture of batteries. He has authored over 30 studies, published in academic journals in the U.S., Europe and Asia.

Audit Committee; Compensation Committee; Nominating Committee

We have certain standing committees of the Board, each of which is described below.

The Audit Committee consists of John J. McFadden, Cosimo J. Patti and Yulin Hao. Mr. McFadden serves as the chairman of the Audit Committee. The Board has determined that each of the members of the Audit Committee satisfies the independence requirements of the NASDAQ Stock Market. The Audit Committee oversees our accounting and financial reporting processes and procedures, reviews the scope and procedures of the internal audit function, appoints our independent registered public accounting firm and is responsible for the oversight of its work and the review of the results of its independent audits. The Audit Committee met once during 2008.

The Board of Directors has determined that John J. McFadden, who will serve as Chairman of the Audit Committee, is an audit committee financial expert by reason of his experience in corporate finance and investment banking. Mr. McFadden is an independent director, within the definition of that term applicable to issuers listed on the NASDAQ Stock Market.

The Compensation Committee consists of Cosimo J. Patti, John J. McFadden and Shaoqiu Xia. Mr. Patti serves as chairman of the Compensation Committee. The Board has determined that each of the members of the Compensation Committee satisfies the independence requirements of the NASDAQ Stock Market. The Compensation Committee oversees the Company's policies regarding compensation and benefits, evaluates the performance of the Company's executive officers, reviews and approves the compensation of the Company's executive officers, and sets the compensation for members of the Board of Directors. The Compensation Committee met once during 2008.

The Nominating and Corporate Governance Committee consists of Yulin Hao, Shiyang Yang and Ning Li. Mr. Hao serves as chairman of the Nominating and Corporate Governance Committee. The Board has determined that each of the members of the Nominating and Corporate Governance Committee satisfies the independence requirements of the NASDAQ Stock Market. The Nominating and Corporate Governance Committee makes recommendations to the Board regarding nominees to be submitted to our shareholders for election at each annual meeting of shareholders, selects candidates for consideration by the full Board to fill any vacancies on the Board, and oversees all of our corporate governance matters. The Nominating and Corporate Governance Committee did not meet during 2008.

Procedure for Nominating or Recommending for Nomination Candidates for Director

The Nominating and Corporate Governance Committee will consider sound and meritorious suggestions for directors from the shareholders. Any shareholder may submit a nomination for director by delivering a letter of recommendation to the Corporate Secretary at our executive offices in New York City. The letter of recommendation must be received no less than 25 days prior to the date on which we mail notice of our annual meeting to the shareholders. All letters of recommendation that meet the requirements set forth below will be considered by the Nominating and Corporate Governance Committee, using the same procedures and criteria as it applies to candidates proposed by members of the Board. In order to be considered, a letter of recommendation must include (a) the name, address and number of shares owned by the nominating shareholder, (b) the nominee's name and address, (c) a listing of the nominee's background and qualifications, (d) a description of all arrangements between such shareholder and any other shareholder and each nominee, and (e) all other information relating to such person that is required to be disclosed in the solicitations for proxies for election of directors under applicable SEC and NASDAQ rules. A signed statement from the nominee should accompany the letter of recommendation indicating that he or she consents to being considered as a nominee and that, if nominated by the Board and elected by the shareholders, he or she will serve as a director.

Code of Ethics

The Board of Directors has adopted the “Advanced Battery Technologies, Inc. Employee Code of Business Conduct and Ethics.” The Code is applicable to all employees of Advanced Battery Technologies, including its principal executive officer, principal financial officer and principal accounting officer. The Code has been filed as an exhibit to this Company’s Annual Report on Form 10-KSB for the year ended December 31, 2007. A copy of the Code may be obtained by requesting same in writing addressed to our Chairman, Zhiguo Fu, at the Company’s executive officers in New York City.

Section 16(a) Beneficial Ownership Reporting Compliance

None of the officers, directors or beneficial owners of more than 10% of the Company’s common stock failed to file on a timely basis the reports required by Section 16(a) of the Exchange Act during the year ended December 31, 2008, except that neither the Chief Financial Officer nor any member of the Board of Directors other than Zhiguo Fu has filed Initial Statements on Form 3.

ITEM 11 EXECUTIVE COMPENSATION

The following table sets forth all compensation awarded to, earned by, or paid by Advanced Battery Technologies and its subsidiaries to Zhiguo Fu, its Chief Executive Officer, for services rendered in all capacities to the Company during the years ended December 31, 2008, 2007 and 2006. There were no other executive officers whose total salary and bonus for the fiscal year ended December 31, 2008 exceeded \$100,000.

	Year Salary	Bonus	Stock Awards	Option Awards	Other Compensation
Zhiguo Fu	2008 \$77,500	--	--	--	--
	2007 \$77,500	--	--	--	--
	2006 \$77,500	--	--	--	--

Employment Agreements

All of the executive officers of the Company are employed on an at-will basis.

Equity Grants

The following tables set forth certain information regarding the stock options acquired by the Company's Chief Executive Officer during the year ended December 31, 2008 and those options held by him on December 31, 2008.

Option Grants in the Last Fiscal Year

	Number of securities underlying option granted	Percent of total options granted to employees in fiscal year	Exercise Price (\$/share)	Expiration Date	Potential realizable value at assumed annual rates of appreciation for option term	
					5%	10%
Zhiguo Fu	--	--	--	--	--	--

The following tables set forth certain information regarding the stock grants received by the executive officers named in the table above during the year ended December 31, 2008 and held by them unvested at December 31, 2008.

Unvested Stock Awards in the Last Fiscal Year

	Number of Shares That Have Not Vested	Market Value of Shares That Have Not Vested
Zhiguo Fu	0	--

Remuneration of Directors

The Board of Directors has agreed that it will issue to each new director, upon commencement of his or her service and on each anniversary of his or her commencement date, common shares with a market value equal to 10,000 Renminbi (approximately \$1,462). However, in lieu of that arrangement, the Board has made special arrangement with Messrs. McFadden and Patti.

The Board has agreed that it will issue to John J. McFadden, upon commencement of his service and on each anniversary of his commencement date, common shares with a market value of \$30,000. Advanced Battery Technologies will also pay Mr. McFadden a fee of \$1,000 for each meeting of the Board or of any committee of the Board that he attends. During 2008 the Board issued 6,411 shares of common stock to Mr. McFadden.

The Board has agreed that it will issue to Cosimo J. Patti, upon commencement of his service and every six months thereafter, common shares with a market value of \$15,000. Advanced Battery Technologies will also pay Mr. Patti a fee of \$1,000 for each meeting of the Board or of any committee of the Board that he attends. During 2008 the Board

issued 7,334 shares of common stock to Mr. Patti.

Compensation Committee

The Board of Directors has a chartered Compensation Committee. The Compensation Committee currently consists of Cosimo J. Patti, John J. McFadden and Shaoqiu Xia. The Charter of the Compensation Committee mandates that the Committee will review and approve the compensation paid by the Company to its executive officers and members of the Board of Directors. The Charter does not authorize the Committee to delegate any of its responsibilities, and the Committee has not engaged any compensation consultant in connection with its review procedures.

Compensation Committee Interlocks and Insider Participation

No member of the Compensation Committee has at any time served as an officer or employee of Advanced Battery Technologies or of any of its subsidiaries. No member has had any relationship with Advanced Battery Technologies or its subsidiaries other than as a member of the Board of Directors.

Compensation Committee Report

The Compensation Committee has not prepared a Compensation Committee Report, due to the immaterial amount of compensation paid to the executive officers and members of the Board of Directors.

ITEM 12 SECURITY OWNERSHIP OF CERTAIN BENEFICIAL OWNERS AND MANAGEMENT AND RELATED STOCKHOLDER MATTERS

The following table sets forth information known to us with respect to the beneficial ownership of our common stock as of the date of this prospectus by the following:

- each shareholder known by us to own beneficially more than 5% of our common stock;
- Fu Zhiguo, our Chief Executive Officer
- each of our directors; and
- all directors and executive officers as a group.

There are 54,662,067 shares of our common stock outstanding on the date of this report. Except as otherwise indicated, we believe that the beneficial owners of the common stock listed below have sole voting power and investment power with respect to their shares, subject to community property laws where applicable. Beneficial ownership is determined in accordance with the rules of the Securities and Exchange Commission.

In computing the number of shares beneficially owned by a person and the percent ownership of that person, we include shares of common stock subject to options or warrants held by that person that are currently exercisable or will become exercisable within 60 days. We do not, however, include these "issuable" shares in the outstanding shares when we compute the percent ownership of any other person.

Name of Beneficial Owner	Amount and Nature of Beneficial Ownership	Percentage of Class
Zhiguo Fu	7,849,730	14.4%
Guohua Wan	70,000	0.1%
Guopeng Gao	70,000	0.1%
Hongjun Si	60,000	0.1%
Liqui Bai	30,000	0.1%
John McFadden	25,914	0.1%
Yulin Hao	(1)	--
Ning Li	(1)	--
Shaoqiu Xia	(1)	--
Shiyan Yang	(1)	--
Cosimo J. Patti	13,119	0.1%
All officers and directors (12 persons)	8,158,763	14.9%

(1)The Company has committed to issue to each of Yulin Hao, Ning Li, Shaoqui Xia and Shiyan Yang shares whose market value was equal to 10,000 Renminbi on the date on which their service on the Board initiated.

ITEM 13 CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS, AND DIRECTOR INDEPENDENCE

Related Party Transactions

During 2007 and the early portion of 2008, our Chairman, Zhiguo Fu, loaned money to the Company, primarily to fund the operations of the New York Office. The loans did not bear interest and were due on demand. The maximum amount of the loan, which was recorded as of September 30, 2008, was \$1,217,986. During the 4th quarter of 2008, all but \$17,236 of the loan was repaid to Mr. Fu.

Director Independence

The following members of our Board of Directors are independent, as “independent” is defined in the rules of the NASDAQ National Market System: John McFadden, Yulin Hao, Ning Li, Shaoqiu Xia, Shiyan Yang and Cosimo J. Patti.

ITEM 14 PRINCIPAL ACCOUNTANT FEES AND SERVICES

Audit Fees

Bagell, Josephs, Levine & Company, LLC billed \$120,000 to the Company for professional services rendered for the audit of fiscal 2008 financial statements and review of the financial statements included in fiscal 2008 10-QSB filings. Bagell, Josephs, Levine & Company, LLC billed \$65,000 to the Company for professional services rendered for the audit of fiscal 2007 financial statements.

Audit-Related Fees

Bagell, Josephs, Levine & Company, LLC billed \$0 to the Company during 2008 for assurance and related services that are reasonably related to the performance of the 2008 audit or review of the quarterly financial statements. Bagell, Josephs, Levine & Company, LLC billed \$0 to the Company during 2007 for assurance and related services that are reasonably related to the performance of the 2007 audit or review of the quarterly financial statements.

Tax Fees

Bagell, Josephs, Levine & Company, LLC billed \$0 to the Company during 2008 for professional services rendered for tax compliance, tax advice and tax planning. Bagell, Josephs, Levine & Company, LLC billed \$0 to the Company during 2007 for professional services rendered for tax compliance, tax advice and tax planning.

All Other Fees
