DIGITAL ANGEL CORPORATION

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(Dollars in thousands)

(Unaudited)

1. Basis of Presentation

On March 27, 2002, Digital Angel Acquisition Co. (Acquisition), then a wholly-owned subsidiary of Medical Advisory Systems, Inc. (MAS), merged with and into Digital Angel Corporation, which was then a 93% owned subsidiary of Applied Digital. In the merger, the corporate existence of Acquisition ceased, Digital Angel Corporation became a wholly-owned subsidiary of MAS and was renamed Digital Angel Technology Corporation (DATC), and MAS was renamed Digital Angel Corporation. In connection with the merger transaction, Applied Digital contributed to MAS all of its stock in Timely Technology Corp., a wholly-owned subsidiary, and Signature Industries, Limited, an 85% owned subsidiary. These two subsidiaries, along with DATC, comprised the Advanced Wireless Group (AWG). As a result of this contribution by Applied Digital, Timely Technology Corp. became a wholly-owned subsidiary of the Company and Signature Industries, Limited became an 85% subsidiary. Prior to the merger with DATC, Applied Digital owned 850,000 shares of MAS stock, representing approximately 16.3% of the outstanding stock of MAS. (Unless the context otherwise requires, the term Company means Digital Angel Corporation and its subsidiaries). In the merger, the shares of DATC owned by Applied Digital were converted into a total of 18,750,000 shares of MAS common stock. As a result of the merger, Applied Digital owned 19,600,000 shares or 77.15% of the Company s common stock. The merger was treated as a reverse acquisition for accounting purposes, with AWG treated as the accounting acquirer.

The accompanying unaudited condensed consolidated financial statements of Digital Angel Corporation and subsidiaries as of June 30, 2004 and for the three and six month periods ended June 30, 2004 and 2003 have been prepared in accordance with accounting principles generally accepted in the United States of America for interim financial information and with the instructions to Form 10-Q and Article 10 of Regulation S-X under the Securities Exchange Act of 1934. Accordingly, they do not include all of the information and footnotes required by accounting principles generally accepted in the United States of America for complete financial statements. In the opinion of the Company s management, all adjustments (including normal recurring adjustments) considered necessary to present fairly the financial statements have been made.

The consolidated statements of operations for the three and six months ended June 30, 2004 and 2003 are not necessarily indicative of the results that may be expected for the entire year. These statements should be read in conjunction with the Digital Angel Corporation s audited consolidated financial statements and related notes thereto for the year ended December 31, 2003 which are included in the Company s Annual Report on Form 10-K.

Certain items in the condensed consolidated financial statements for the 2003 periods have been reclassified for comparative purposes.

The Company develops and deploys sensor and communications technologies that enable rapid and accurate identification, location tracking, and condition monitoring of high-value assets. Prior to January 22, 2004, the Company operated in four segments: Animal Applications, Wireless and Monitoring, GPS and Radio Communications and Medical Systems. With the acquisition of OuterLink Corporation in January 2004, the Company reorganized into three segments: Animal Applications, GPS and Radio Communications and Medical Systems. The GPS and Radio Communications segment, the Wireless and Monitoring segment and the OuterLink Corporation business, which was acquired

Edgar Filing: DIGITAL ANGEL CORP - Form 10-Q

on January 22, 2004, were combined to form the new GPS and Radio Communications segment. On April 19, 2004, Digital Angel Corporation sold certain assets of its Medical Systems segment's medical services business. Assets sold include all of the tangible and intangible intellectual property developed for the operation of the Medical Systems segment's medical services business, pharmaceutical supplies and other inventory items, customer and supplier contracts, computer software licenses, internet website and domain name and mailing lists and did not include the land and building used by this operation. The Company sold the Medical Systems segment's land and buildings in a separate transaction on July 30, 2004 for \$1.5 million. Net cash received on the sale, after paying off the related building mortgage, was approximately \$0.4 million.

Animal Applications develops, manufactures, and markets a broad line of electronic and visual identification devices for the companion animal, livestock, laboratory animal, fish and wildlife markets worldwide. The tracking of cattle and hogs are crucial both for asset management and for disease control and food safety. The principal technologies employed by Animal Applications are electronic ear tags and implantable microchips that use radio frequency transmission.

GPS and Radio Communications-consists of the design, manufacture and support of GPS enabled equipment. Applications for the segment's products include location tracking and message monitoring of vehicles, aircraft and people in remote locations through systems that integrate GPS and geosynchronous satellite communications and GPS enabled equipment and intelligent communications products and services for telemetry, mobile data and radio communications applications serving commercial and military markets. Technology development in this segment includes the integration and miniaturization into marketable products of

three technologies: wireless communications (such as cellular), sensors (including bio-sensors) and position location technology (including global positioning systems (GPS) and other systems).

2. Principles of Consolidation

The June 30, 2004 and 2003 condensed consolidated financial statements include the accounts of the Company and its wholly-owned and majority-owned subsidiaries (OuterLink Corporation from the date of acquisition on January 22, 2004). All significant intercompany accounts and transactions have been eliminated in consolidation.

3. Revenue Recognition

The Company, except for its subsidiary OuterLink Corporation, recognizes product revenue at the time product is shipped and title has transferred, provided that a purchase order has been received or a contract has been executed, there are no uncertainties regarding customer acceptance, the sales price is fixed and determinable and collectibility is deemed probable. If uncertainties regarding customer acceptance exists, revenue is recognized when such uncertainties are resolved. There are no significant post-contract support obligations at the time of revenue recognition. Digital Angel Corporation's accounting policy regarding vendor and post contract support obligations is based on the terms of the customers' contracts, billable upon occurrence of the post-sale support. Costs of products sold and services provided are recorded as the related revenue is recognized. Digital Angel Corporation offers a warranty on its products. For non-fixed fee jobs, revenue is recognized based on the actual direct labor hours in the job multiplied by the standard billing rate and adjusted to net realizable value, if necessary. Revenues from contracts that provide services are recognized ratably over the term of the contract. Fixed fee revenues from contracts for services are recorded when earned and exclude reimbursable costs. Reimbursable costs incurred in performing such services are presented on a net basis and include transportation medical and communication costs. Other revenue is recognized at the time service or goods are provided. It is the Company's policy to record contract losses in their entirety in the period in which such losses are foreseeable.

The Company's subsidiary, OuterLink Corporation, earns revenue from messaging services, which generally provide for service on a month-to-month basis and from the sale of related products to customers (communication terminals and software). OuterLink Corporation's messaging service is only available through use of its products, such products have no alternative use. Accordingly, service revenue is recognized as the services are performed. OuterLink Corporation's product revenue, for which title and risk of loss transfers to the customer on shipment, is deferred upon shipment and is recognized ratably over the estimated customer service period, currently 30 months.

4. Stock-Based Compensation

The Company applies APB Opinion No. 25 and related Interpretations in accounting for all its stock option plans. Accordingly, no compensation cost has been recognized under these stock option plans. The Company has adopted the disclosure-only provisions of SFAS No. 123, Accounting for Stock-Based Compensation and SFAS No. 148, Accounting for Stock-Based Compensation-Transition and Disclosure, which was released in December 2002 as an amendment to SFAS No. 123. The following table illustrates the effect on net loss and loss per share if the fair value based method had been applied to all awards (in thousands, except per share data):

Edgar Filing: DIGITAL ANGEL CORP - Form 10-Q

	8,384	8,364
Allowance for excess and obsolescence	(2,115)	(1,821)
Net inventory	\$ 6,269	\$ 6,543

6. Stock Exchange with Applied Digital

On March 1, 2004, the Company issued 3,000,000 shares of its common stock to Applied Digital pursuant to the Stock Purchase Agreement (Stock Purchase Agreement) with Applied Digital dated August 14, 2003. The Stock Purchase Agreement provided for Applied Digital to purchase 3,000,000 shares of the Company's common stock at a price of \$2.64 per share and a warrant (the Applied Digital Warrant) to purchase up to 1,000,000 shares of the Company's common stock, which is exercisable for five years beginning February 1, 2004, at a price per share of \$3.74 payable in cash or shares of common stock of Applied Digital. The consideration for the sale of the Company's 3,000,000 shares and the warrant was 1,980,000 shares of Applied Digital common stock. The Company expects to sell the stock of Applied Digital to generate additional funds. As of June 30, 2004, the Company has sold 910,000 shares of Applied Digital common stock. The Company has accounted for the Applied Digital stock as a trading security under SFAS 115, Accounting for Certain Investments in Debt and Equity Securities . In the six months ended June 30, 2004 the Company recorded realized losses of \$955,000 on the 910,000 shares of Applied Digital common stock sold and an unrealized loss of \$1,657,000 on the remaining 1,070,000 shares held by the Company. Fair value of the Applied Digital common stock is determined by quoted values reported on NASDAQ.

7. Discontinued Operations

In April 2004, our Board of Directors approved a plan to sell our Medical Systems segment. The Medical Systems segment represented the business operations of Medical Advisory Systems, Inc, which we acquired on March 27, 2002. The Medical Systems segment was one of our reporting units in accordance with SFAS 142, Goodwill and Other Intangible Assets . Accordingly, the financial condition, results of operations and cash flows of our Medical Systems segment have been reported as discontinued operations for all periods presented. The following discloses the operating losses from discontinued operations for the three and six-months ended June 30, 2004 and 2003, consisting of losses attributable to the Medical Systems segment:

	Three-Months Ended June 30,		Six-Months Ended June 30,	
	2004	2003	2004	2003
Product revenue	\$ 40	\$ 222	\$ 204	\$ 587
Service revenue	32	237	223	616
Total revenue	72	459	427	1,203
Cost of products sold	20	95	87	258
Cost of services sold	82	252	317	593
Total cost of products and services sold	102	347	404	851
Gross profit	(30)	112	23	352

Edgar Filing: DIGITAL ANGEL CORP - Form 10-Q

Selling, general and administrative expenses	648	325	1,046	656
Other income and expense	72	35	105	69
Loss from discontinued operations	\$ (750)	\$ (248)	\$ (1,128)	\$ (373)

The above results do not include any allocated or common overhead expenses. We have not provided a benefit for income taxes on the losses attributable to the Medical Systems division. We do not anticipate the Medical Systems division incurring additional losses in the future. However, in accordance with SFAS 144, Accounting for the Impairment or Disposal of Long-Lived Assets, any additional operating losses or changes in the values of assets or liabilities will be reflected in our financial condition and results of operations as incurred.

The net assets of discontinued operations as of June 30, 2004 and December 31, 2003, were comprised of the following:

Edgar Filing: DIGITAL ANGEL CORP - Form 10-Q

	June 30, 2004		December 31, 2003	
	(in thousands)			
Assets				
Cash	\$		\$	
Accounts receivable, net		66		453
Inventory				46
Other current assets		1		43
Property and equipment, net		1,050		1,137
Goodwill and other intangible assets, net				489
Other assets		144		163
Total Assets	\$	1,261	\$	2,331
Current Liabilities:				
Notes payable and current maturities of long-term debt	\$	(910)	\$	(910)

Accrued expenses and deferred revenue		(298)		(99)
Total Liabilities	\$	(1,235)	\$	(1,080)
Net Assets	\$	26	\$	1,251

8. Loss Per Share

The following is a reconciliation of the numerator and denominator of basic and diluted loss per share (in thousands, except per share data):

	Three Months Ended June 30,		Six Months Ended June 30,	
	2004	2003	2004	2003
Numerator:				
Net loss	\$ (1,989)	\$ (2,377)	\$ (5,733)	\$ (2,267)
Denominator:				
Denominator for basic loss per share -				
Weighted-average shares	32,691	26,856	31,604	26,760
Denominator for diluted loss per share (1)-	32,691	26,856	31,604	26,760
Basic and diluted loss per share	\$ (0.06)	\$ (0.09)	\$ (0.18)	\$ (0.08)

(1) Potentially dilutive securities are excluded from the computation of diluted loss per share because to do so would have been anti-dilutive.

9. Segment Information

The Company is an advanced technology company in the field of rapid and accurate identification, location tracking, and condition monitoring of high-value assets. Prior to January 22, 2004, the Company operated in four segments: Animal Applications, Wireless and Monitoring, GPS and Radio Communications and Medical Systems. With the acquisition of OuterLink Corporation in January 2004, the Company reorganized into three segments: Animal Application, GPS and Radio Communications and Medical Systems. The GPS and Radio Communications segment, the Wireless and Monitoring segment and the OuterLink Corporation business, which was acquired on January 22, 2004, were

Edgar Filing: DIGITAL ANGEL CORP - Form 10-Q

combined to form the new GPS and Radio Communications segment. Prior period segment information has been restated to reflect the Company's current segment structure. On April 19, 2004, Digital Angel Corporation sold certain assets of its Medical Systems segment's medical services business. Assets sold include all of the tangible and intangible intellectual property developed for the operation of the Medical Systems segment's medical services business, pharmaceutical supplies and other inventory items, customer and supplier contracts, computer software licenses, internet website and domain name and mailing lists and did not include the land and building used by this operation. The Company sold the Medical Systems segment's land and buildings in a separate transaction on July 30, 2004 for \$1.5 million. Net cash received on the sale, after paying off the related building mortgage, was approximately \$0.4 million.

Edgar Filing: DIGITAL ANGEL CORP - Form 10-Q

It is on this basis that management utilizes the financial information to assist in making internal operating decisions. The Company evaluates performance based on stand-alone segment operating income.

Following is the selected segment data as of and for the three months ended June 30, 2004 (in thousands):

	Animal Applications		GPS and Radio Communications		Corporate / Unallocated		Consolidated
Net revenue from external customers:							
Product	\$	5,779	\$	3,624	\$		9,403
Service		334		333			667
Total revenue	\$	6,113	\$	3,957	\$		10,070
Income (loss) before minority interest share of losses (income) and discontinued operations							
	\$	(439)	\$	(803)	\$		(1,242)
Total assets	\$	60,303	\$	17,067	\$	26	\$ 77,396

In the three month period ended June 30, 2004, two customers accounted for approximately 22.9%, and 11.1% of our Animal Applications revenue.

Following is the selected segment data as of and for the six months ended June 30, 2004 (in thousands):

	Animal Applications		GPS and Radio Communications		Corporate / Unallocated		Consolidated
Net revenue from external customers:							
Product	\$	12,788	\$	7,126	\$		19,914
Service		397		530			927

Income (loss) before minority interest share of losses (income) and discontinued operations							
	\$	(3,082)	\$	(1,520)	\$		(4,602)
Total assets	\$	60,303	\$	17,067	\$	26	\$ 77,396

Edgar Filing: DIGITAL ANGEL CORP - Form 10-Q

In the six month period ended June 30, 2004, two customers accounted for approximately 18.2%, and 12.0% of our Animal Applications revenue.

Following is the selected segment data as of and for the three months ended June 30, 2003 (in thousands):

	Animal Applications		GPS and Radio Communications		Corporate / Unallocated		Consolidated
Net revenue from external customers:							
Product	\$	4,846	\$	2,708	\$	\$	7,554
Service		342		5			347
Total revenue	\$	5,188	\$	2,713	\$	\$	7,901
Income (loss) before minority interest share of losses (income) and discontinued operations							
	\$	(938)	\$	(1,268)	\$	\$	(2,206)
Total assets	\$	57,872	\$	7,574	\$	4,199	\$ 69,645

Edgar Filing: DIGITAL ANGEL CORP - Form 10-Q

In the three month period ended June 30, 2003, two customers accounted for approximately 21.8% and 16.7% of our Animal Applications revenue.

Following is the selected segment data as of and for the six months ended June 30, 2003 (in thousands):

	Animal Applications	GPS and Radio Communications	Corporate / Unallocated	Consolidated
Net revenue from external customers:				
Product	\$ 12,322	\$ 5,407	\$	\$ 17,729
Service	667	159		826
Total revenue	\$ 12,989	\$ 5,566	\$	\$ 18,555
Income (loss) before minority interest share of losses (income) and discontinued operations				
	\$ 521	\$ (2,525)	\$	\$ (2,004)
Total assets	\$ 57,872	\$ 7,574	\$ 4,199	\$ 69,645

In the six month period ended June 30, 2003, four customers accounted for approximately 17.1%, 11.6%, 10.9%, and 10.3% of our Animal Applications revenue.

10. Acquisition

The following describes the acquisition by the Company (in thousands):

Company Acquired	Date Acquired	Acquisition Price	Value of Series A Preferred Stock	Series A Preferred Shares Issued	Goodwill and Other Intangibles Acquired	Other Net Assets and Liabilities	Business Description
OuterLink Corporation	1/22/04	\$ 8,501	\$ 8,300	100	\$ 8,522	\$ (21)	Provider of real-time, satellite-based automated tracking, wireless data transfer and two-way messaging with large fleets of

On January 22, 2004, the Company acquired OuterLink Corporation. OuterLink Corporation became a wholly-owned subsidiary of Digital Angel Corporation. The acquisition was accounted for under the purchase method of accounting. The excess of purchase price over the fair value of the assets and liabilities of OuterLink Corporation was recorded as goodwill of \$3.8 million and intangible assets of \$4.7 million.

The cost of the acquisition consisted of 100,000 shares of Series A preferred stock valued at \$8.3 million and acquisition costs of \$0.2 million. The Series A preferred stock is convertible into four million shares of the Company's common stock when the volume weighted average price of the Company's common stock equals or exceeds \$4.00 per share for ten consecutive trading days.

The valuation of the stock is primarily based on historical trading history and stock prices of the Company's common stock and a marketability discount of 30%. The cost of the acquisition consists of legal and accounting related services that were direct costs of acquiring these assets.

In considering the benefits the OuterLink Corporation acquisition, the management of Digital Angel Corporation recognized the strategic complement of OuterLink Corporation's technologies and customer base with Digital Angel Corporation's existing animal applications and military GPS business lines. This complement provides for a strong platform for further development of Digital Angel Corporation's capabilities in the area of high-value asset identification, tracking and condition monitoring.

The results of OuterLink Corporation have been included in the consolidated financial statements since the date of acquisition of January 22, 2004. Unaudited pro forma results of operations for the three months ended June 30, 2003 and the six months ended June 30, 2004 and 2003 are included below. Such pro forma information assumes that the above acquisition had occurred as of January 1, 2004 and 2003, and revenue is presented in accordance with the Company's accounting policies. This summary is not necessarily indicative of what the result of operations of the Company would have been had it been a combined entity during such periods, nor does it purport to represent results of operations for any future periods.

(In thousands)	For the three-months ended June 30, 2003

11. Contingencies

Wurts Litigation

In February 2003, an action was filed in the Middlesex County Superior Court in the Commonwealth of Massachusetts. The Company's subsidiary, OuterLink Corporation, as well as a significant stockholder of OuterLink and a principal of the significant stockholder were named as defendants. The complaint alleged breach of an August 25, 1999 employment contract. The plaintiff was President and CEO of OuterLink Corporation from July 1999 through August 2002. The Complaint sought damages based principally on a contractual severance provision that allegedly provided for four months of compensation for every year or fraction thereof served prior to termination. This matter was settled in July 2004 in consideration for a cash payment of \$250,000.

E-Research Litigation

In June, 2002, eResearch Technology, Inc. f/k/a Premier Research Worldwide, Ltd. (ERT) commenced a proceeding against U.S. Bank National Association (US Bank), subsequently intervened in by the Company in the New Jersey state court and subsequently removed to the United States District Court for the District of New Jersey. This suit was commenced to pursue alleged damages of approximately \$350,000 due to the Company s and US Bank s alleged failure to register transfers of restricted Digital Angel shares sold by ERT in May 2002. This matter was settled prior to trial without either party paying any amounts to the other party.

Electronic Identification Devices Litigation

In February 2004, Electronic Identification Devices, Ltd. (EID) commenced a Declaratory Judgment Action against the Company in the United States District Court for the Western District of Texas. This action seeks a declaration of patent non-infringement relating to the Company s patented syringe implantable identification transponder. The lawsuit alleges that EID has developed a new transponder that it believes does not infringe on the Company s patent. The lawsuit acknowledges that the Company obtained a Judgment of infringement and two contempt orders against EID based on selling certain systems that infringed the Company s patent in 1997, 1998 and 1999. On March 10, 2004 the Company filed a motion seeking the dismissal of the Declaratory Judgment Complaint or, in the alternative, that the action be transferred to Minnesota. The Court has not yet ruled on the Company s motion. Given the very early stage of this matter, the ultimate outcome of this proceeding cannot be predicted at this time. The

Company is currently unable to determine the potential effect of this litigation on its consolidated financial position, results of operation or cash flows.

John Fernandez vs. United States of America vs. Medical Advisory Systems, Inc.

On December 29, 2003, John Fernandez filed a lawsuit in the Orlando Division of the United States District Court for the Middle District of Florida. The plaintiff filed the lawsuit against the United States of America as the operator of the ship on which the plaintiff served. He alleged that the United States had contracted with Medical Advisory Systems to provide medical advice and that the physician at Medical Advisory Systems had rendered an incorrect long-distance diagnosis, resulting in injury to the plaintiff. Mr. Fernandez asserted against the United States claims of negligence under the Jones Act, unseaworthiness and maintenance and cure. He alleged damages in excess of \$75,000, plus prejudgment and post-judgment interest at the legal rate and costs and disbursements of the action. On April 14, 2004, the United States served Medical Advisory Systems with a third party complaint in Admiralty in which it alleged that Medical Advisory Systems is liable to it for all or part of the plaintiff's claim in that Medical Advisory Systems and/or its employee/physician rendering the medical advice was negligent. In response, on May 12, 2004, Medical Advisory Systems filed a motion to dismiss the third party complaint. Given the very early stage of the lawsuit, the ultimate outcome of this proceeding cannot be predicted at this time. The Company is currently unable to determine the potential effect of this litigation on our consolidated financial position, results of operations or cash flows.

12. Supplemental Cash Flow Information (in thousands)

	Six Months Ended June 30,	
	2004	2003
Interest paid	\$ 281	\$ 254
Non-cash activity:		
Issuance of preferred stock for business acquisition	\$ 8,300	
Issuance of common stock for Applied Digital common stock	7,920	
Conversion of debt into common stock	583	

13. Related Party Activity

In 2003, Applied Digital charged the Company for research expenses and directors and officers insurance. Amounts due to Applied Digital were offset by receivables due from Applied Digital resulting from the Distribution and Licensing Agreement with Verichip Corporation, a wholly-owned subsidiary of Applied Digital. At June 30, 2004, these transactions resulted in a net amount due to Applied Digital of \$0.1 million.

The Company has executed an exclusive eleven year Distribution and Licensing Agreement dated March 4, 2002 with Verichip Corporation (Verichip), a wholly-owned subsidiary of Applied Digital, covering the manufacturing, purchasing and distribution of Verichip's implantable microchip and the maintenance of the Verichip Registry by the Company. The agreement includes a license for the use of the Company's technology in Verichip's identified markets. The Company will be the sole manufacturer and supplier to Verichip. Revenue recognized under the Distribution and Licensing Agreement was \$57,000 and \$87,000 for the six months ended June 30, 2004 and 2003, respectively.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations.

The following discussion and analysis of our financial condition and results of operations should be read in conjunction with the accompanying financial statements and related notes thereto.

We consist of Digital Angel Corporation and its four subsidiaries Digital Angel Technology Corporation (DATC), Timely Technology Corp., Signature Industries, Limited, and OuterLink Corporation

RESULTS OF OPERATIONS

The following table summarizes our results of operations as a percentage of net operating revenue for the three and six months ended June 30, 2004 and 2003 and is derived from the accompanying consolidated statements of operations included in this report.

	Three Months Ended June 30,		Six Months Ended June 30,	
	2004 %	2003 %	2004 %	2003 %
Product revenue	93.4	95.6	95.5	95.5
Service revenue	6.6	4.4	4.5	4.5
Total net revenue	100.0	100.0	100.0	100.0
Cost of products sold	54.4	62.9	55.7	56.3
Cost of services sold	4.3	0.0	2.6	0.3
Total cost of products and services sold	58.7	62.9	58.3	56.6
Gross profit	41.3	37.1	41.7	43.4
Selling, general and administrative expenses	42.7	48.8	41.9	42.0
Research and development expenses	8.4	14.8	7.3	11.2
Operating loss	(9.8)	(26.5)	(7.5)	(9.8)
Interest income	0.1	0.0	0.1	0.0
Interest expense	(2.5)	(1.9)	(2.4)	(1.4)
Loss on Applied Digital common stock	(0.3)	0.0	(12.6)	0.0
Other income	0.2	0.4	0.3	0.4
Loss before minority interest share of losses and discontinued operations	(12.3)	(28.0)	(22.1)	(10.8)
Minority interest share of losses	0.0	1.0	0.0	0.6
Net loss from continuing operations	(12.3)	(27.0)	(22.1)	(10.2)

Net loss	(19.7)	(30.1)	(27.5)	(12.2)

Three Months Ended June 30, 2004 Compared to the Three Months Ended June 30, 2003**Revenue**

Revenue for the three months ended June 30, 2004 increased \$2.2 million, or 27.5%, to \$ 10.1 million when compared to \$7.9 million in revenue for the three months ended June 30, 2003.

Revenue for each of the operating segments was as follows (in thousands):

	Three Months Ended June 30, 2004		Three Months Ended June 30, 2003	
Animal Applications	\$	6,113	\$	5,188
GPS and Radio Communications		3,957		2,713
Total	\$	10,070	\$	7,901

The Animal Applications segment's revenue increased \$0.9 million, or 17.8%, in the three months ended June 30, 2004 compared to the three month period ended June 30, 2003. The increase is the result of increased sales to our livestock customers of \$0.3 million, fish and wildlife customers of \$0.3 million, and companion animal customers of \$0.3 million.

The GPS and Radio Communications segment's revenue increased \$1.2 million, or 45.9%, in the three months ended June 30, 2004 compared to the three month period ended June 30, 2003. The increase is primarily due to increased revenues of \$0.8 million at our subsidiary, Signature Industries, located in the United Kingdom. The increase in revenue at Signature Industries relates to initial shipments of the G2R pilot locator beacon and increased sales in Signature's Clifford and Snell division. OuterLink Corporation revenue was \$0.4 million for the three months ended June 30, 2004. OuterLink Corporation was acquired on January 22, 2004 and is not included in our results for the three months ended June 30, 2003.

Gross Profit and Gross Profit Margin

Gross profit for the three month period ended June 30, 2004 was \$4.2 million, an increase of \$1.2 million, or 41.8%, compared to \$3.0 million in the three month period ended June 30, 2003. As a percentage of revenue, the gross profit margin was 41.3% and 37.1% for the three months ended June 30, 2004 and 2003, respectively.

Gross profit from operations for each operating segment was as follows (in thousands):

Edgar Filing: DIGITAL ANGEL CORP - Form 10-Q

	Three Months Ended June 30, 2004		Three Months Ended June 30, 2003	
Animal Applications	\$	2,328	\$	1,705
GPS and Radio Communications		1,828		1,226
Total	\$	4,156	\$	2,931

Gross profit margin from operations for each operating segment was:

	Three Months Ended June 30, 2004 %		Three Months Ended June 30, 2003 %	
Animal Applications		38.1		32.9
GPS and Radio Communications		46.2		45.2

The Animal Applications segment's gross profit increased \$0.6 million, or 36.5%, in the three month period ended June 30, 2004 compared to the three months ended June 30, 2003. The increase is primarily due to the increase in sales as mentioned above and lower freight costs in the 2004 period. The gross margin percentage increased to 38.1% in the three month period ended June 30, 2004 as compared to 32.9% in the three month period ended June 30, 2003. The gross margin percentage increase is primarily the result of lower freight costs and fixed costs remaining constant as revenue increased.

The GPS and Radio Communications segment's gross profit increased \$0.6 million, or 49.1%, in the three month period ended June 30, 2004 as compared to the three month period ended June 30, 2003. The GPS and Radio Communications segment's gross profit is attributable increased gross profit at our subsidiary Signature Industries of \$0.5 million. The gross margin percentage increased to 46.2% in the three month period ended June 30, 2004 as compared to 45.2% in the three month period ended June 30, 2003 primarily due to lower material costs at Signature Industries. OuterLink Corporation gross profit was \$0.1 million in the three

months ended June 30, 2004. OuterLink Corporation was acquired in January 2004.

Selling, General and Administrative Expenses

Selling, general and administrative expenses increased \$0.5 million, or 11.8%, in the three month period ended June 30, 2004 as compared to the three month period ended June 30, 2003. As a percentage of revenue, selling, general and administrative expenses were 42.7% and 48.8% for the three months ended June 30, 2004 and 2003, respectively.

Selling, general and administrative expenses for each of the operating segments were as follows (dollars in thousands):

	Three Months Ended June 30, 2004		Three Months Ended June 30, 2003	
Animal Applications	\$	1,909	\$	1,844
GPS and Radio Communications		2,394		2,006
Total	\$	4,303	\$	3,850

Selling, general and administrative expenses as a percentage of revenue for each of the operating segments were:

	Three Months Ended June 30, 2004 %		Three Months Ended June 30, 2003 %	
Animal Applications		31.2		35.5
GPS and Radio Communications		60.5		73.9

The Animal Applications segment's selling, general and administrative expenses increased \$0.07 million in the three month period ended June 30, 2004 as compared to the three month period ended June 30, 2003 and as a percentage of revenue decreased to 31.2% from 35.5% in the same respective period. The increase in selling, general and administrative expense is primarily due to additional consulting expenses associated with the preparation of the 510K application for FDA approval of the Verichip product in the prior period.

Edgar Filing: DIGITAL ANGEL CORP - Form 10-Q

The GPS and Radio Communications segment's selling, general and administrative expenses increased \$0.4 million in the three month period ended June 30, 2004 as compared to the three month period ended June 30, 2003. The increase of \$0.4 million results from increased expenses of \$0.2 million at Signature Industries, \$0.5 million of expense at OuterLink, which was acquired in January 2004, offset by a decrease of \$0.3 million related to the scaleback of the Digital Angel™ technology development. As a percentage of revenue, selling, general and administrative expenses decreased to 60.5% in the three month period ended June 30, 2004 from 73.9% in the three month period ended June 30, 2003.

Research and Development Expense

Research and development expense was \$0.9 million in the three month period ended June 30, 2004, a decrease of \$0.3 million, or 27.5%, from \$1.2 million for the three month period ended June 30, 2003. As a percentage of revenue, research and development expense was 8.4% and 14.8% for the three months ended June 30, 2004 and 2003, respectively.

Research and development expense for each of the operating segments was as follows (in thousands):

	Three Months Ended June 30, 2004		Three Months Ended June 30, 2003	
Animal Applications	\$	653	\$	691
GPS and Radio Communications		197		481
Total	\$	850	\$	1,172

The decrease in research and development expense is due primarily to the continued scaleback of research and development on the Digital Angel™ technology and completion of development on Signature Industries' pilot locator beacon.

Interest Expense

Interest expense was \$0.2 million for the three month periods ended June 30, 2004 and 2003, respectively.

Loss on Applied Digital Common Stock

On March 1, 2004, Digital Angel Corporation issued 3,000,000 shares of its common stock and a warrant to purchase up to 1,000,000 shares of the Company's common stock to Applied Digital in exchange for 1,980,000 shares of Applied Digital's common stock, exclusive of the proceeds which may be received when the warrant is exercised. The Company has accounted for the Applied Digital stock as a trading security under SFAS 115, Accounting for Certain Investments in Debt and Equity Securities. In the quarter ended June 30, 2004, the Company sold approximately 380,000 shares of Applied Digital common stock. The Company recorded realized losses of \$253,000 and unrealized gains of \$227,000 in the quarter ended June 30, 2004. Fair value of the Applied Digital common stock is determined by quoted values reported on the NASDAQ.

Income Taxes

The Company had an effective income tax rate of 0.0% for the three month periods ended June 30, 2004 and 2003. The Company accounts for income taxes under the asset and liability approach. Deferred tax assets and liabilities are recognized for the expected future tax consequences attributed to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax basis. Deferred tax assets and liabilities are measured using the enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to reverse. A valuation allowance is provided against net deferred tax assets when it is more likely than not that a tax benefit will not be realized. Income taxes included U.S. and foreign taxes.

Discontinued Operations

On April 19, 2004, the Company sold certain assets of its Medical Systems segment's medical services business pursuant to an Asset Purchase Agreement dated April 8, 2004 by and between Digital Angel Corporation and MedAire, Inc. Assets sold include all of the tangible and intangible intellectual property developed for the operation of the Medical Systems segment's medical services business, pharmaceutical supplies and other inventory items, customer and supplier contracts, computer software licenses, internet website and domain name and mailing lists.

Under the terms of the agreement, the purchase price, in addition to MedAire, Inc.'s assumption of certain liabilities was \$420,000 plus any prepaid deposits and the cost of the pharmaceutical inventory and supplies reduced by any pre-billing to or pro-rata prepayment by the Company's customers.

In connection with exiting this activity, the Company recognized obligations and recorded a loss of approximately \$0.5 million in the three months ended June 30, 2004. In addition, the Company sold the Medical Systems segment's land and buildings in a separate transaction on July 30, 2004 for \$1.5 million. Net cash received on the sale, after paying off the related building mortgage, was approximately \$0.4 million.

Edgar Filing: DIGITAL ANGEL CORP - Form 10-Q

The following discloses the operating losses from discontinued operations for the three-months ended June 30, 2004 and 2003, consisting of losses attributable to the Medical Systems segment:

	2004	Three-Months Ended June 30,		2003
Product revenue	\$	40	\$	222
Service revenue		32		237
Total revenue		72		459
Cost of products sold		20		95
Cost of services sold		82		252
Total cost of products and services sold		102		347
Gross (loss) profit		(30)		112
Selling, general and administrative expenses		648		325
Other income and expense		72		35
Loss from discontinued operations	\$	(750)	\$	(248)

Six Months Ended June 30, 2004 Compared to the Six Months Ended June 30, 2003

Revenue

Revenue for the six months ended June 30, 2004 increased \$2.3 million, or 12.3%, to \$20.8 million when compared to \$18.6

million in revenue for the six months ended June 30, 2003.

Revenue for each of the operating segments was as follows (in thousands):

	Six Months Ended June 30, 2004		Six Months Ended June 30, 2003	
Animal Applications	\$	13,185	\$	12,989
GPS and Radio Communications		7,656		5,566
Total	\$	20,841	\$	18,555

The Animal Applications segment's revenue increased \$0.2 million, or 1.5%, in the six months ended June 30, 2004 compared to the six month period ended June 30, 2003. The increase is due to increased sales in the six months ended June 30, 2004 to companion animal customers of \$0.3 million and livestock customers of \$0.7 million, offset by decreased sales to our fish and wildlife customers of \$0.8 million.

The GPS and Radio Communications segment's revenue increased \$2.1 million, or 37.5%, in the six months ended June 30, 2004 compared to the six month period ended June 30, 2003. The increase primarily relates to increased revenue at our subsidiary, Signature Industries, related to the initial shipments of the G2R pilot locator beacon and increased sales in Signature's Clifford and Snell division. OuterLink Corporation revenue was \$0.7 million for the six months ended June 30, 2004. OuterLink Corporation was acquired on January 22, 2004 and is not included in our results for the six months ended June 30, 2003.

Gross Profit and Gross Profit Margin

Gross profit for the six month period ended June 30, 2004 was \$8.7 million, an increase of \$0.6 million, or 7.8%, compared to \$8.1 million in the six month period ended June 30, 2003. As a percentage of revenue, the gross profit margin was 41.7% and 43.4% for the six months ended June 30, 2004 and 2003, respectively.

Gross profit for each operating segment was as follows (in thousands):

	Six Months Ended June 30, 2004		Six Months Ended June 30, 2003	
Animal Applications	\$	5,134	\$	5,364
GPS and Radio Communications		3,551		2,690
Total	\$	8,685	\$	8,054

Edgar Filing: DIGITAL ANGEL CORP - Form 10-Q

Gross profit margin for each operating segment was:

	Six Months Ended June 30, 2004 %	Six Months Ended June 30, 2003 %
Animal Applications	38.9	41.3
GPS and Radio Communications	46.4	48.3

The Animal Applications segment's gross profit decreased \$0.2 million, or 4.3%, in the six month period ended June 30, 2004 compared to the six months ended June 30, 2003 due to increased material cost slightly offset by lower freight costs in 2004. The gross margin percentage decreased to 38.9% in the six month period ended June 30, 2004 as compared to 41.3% in the six month period ended June 30, 2003 due primarily due to increased material costs.

The GPS and Radio Communications segment's gross profit increased \$0.9 million, or 32.0%, in the six month period ended June 30, 2004 compared to the six months ended June 30, 2003 due to increased gross profit of \$0.8 million at Signature Industries and \$0.1 million at OuterLink. OuterLink was acquired in January 2004. The gross margin percentage decreased to 46.4% in the six month period ended June 30, 2004 as compared to 48.3% in the six month period ended June 30, 2003 due to lower margins on the OuterLink revenue.

Selling, General and Administrative Expenses

Selling, general and administrative expenses increased \$0.9 million, or 11.9%, in the six month period ended June 30, 2004 as compared to the six month period ended June 30, 2003. As a percentage of revenue, selling, general and administrative expenses were

Edgar Filing: DIGITAL ANGEL CORP - Form 10-Q

41.9% and 42.0% for the six months ended June 30, 2004 and 2003, respectively.

Selling, general and administrative expenses were as follows (dollars in thousands):

	Six Months Ended June 30, 2004		Six Months Ended June 30, 2003	
Animal Applications	\$	4,066	\$	3,434
GPS and Radio Communications		4,661		4,365
Total	\$	8,727	\$	7,799

Selling, general and administrative expenses as a percentage of revenue for each of the operating segments were:

	Six Months Ended June 30, 2004 %		Six Months Ended June 30, 2003 %	
Animal Applications		30.8		26.4
GPS and Radio Communications		60.9		78.4

The Animal Applications segment's selling, general and administrative expenses increased \$0.6 million in the six month period ended June 30, 2004 as compared to the six month period ended June 30, 2003 and as a percentage of revenue increased to 30.8% from 26.4% in the same respective period. The increase relates primarily to additional legal, accounting and investor relation expenses in the six months ended June 30, 2004.

The GPS and Radio Communications segment's selling, general and administrative expenses increased \$0.3 million in the six month period ended June 30, 2004 as compared to the six month period ended June 30, 2003. This increase is primarily due to \$0.9 million of OuterLink expense, \$0.4 million of increased expense at our subsidiary, Signature Industries, offset by a decrease of \$1.0 million related to the scaleback of Digital Angel™ technology development. OuterLink was acquired in January 2004. As a percentage of revenue, selling, general and administrative expenses decreased to 60.9% in the six month period ended June 30, 2004 from 78.4% in the six month period ended June 30, 2003.

Research and Development Expense

Research and development expense was \$1.5 million in the six month period ended June 30, 2004, a decrease of \$0.6 million, or 27.1%, from \$2.1 million for the six month period ended June 30, 2003. As a percentage of revenue, research and development expense was 7.3% and 11.2% for the six months ended June 30, 2004 and 2003, respectively.

Edgar Filing: DIGITAL ANGEL CORP - Form 10-Q

Research and development expense for each of the operating segments was as follows (in thousands):

	Six Months Ended June 30, 2004		Six Months Ended June 30, 2003	
Animal Applications	\$	1,176	\$	1,241
GPS and Radio Communications		343		842
Total	\$	1,519	\$	2,083

The decrease in research and development expense is due primarily to the continued scaleback of research and development on the Digital Angel™ technology and completion of development on Signature Industries pilot locator beacon.

Interest Expense

Interest expense was \$0.5 million and \$0.3 million for the six months period ended June 30, 2004 and 2003, respectively. The increase relates to the amortization of deferred financing costs related to the financings in July and August of 2003.

Income Taxes

The Company had an effective income tax rate of 0.0% for the six month periods ended June 30, 2004 and 2003. The Company accounts for income taxes under the asset and liability approach. Deferred tax assets and liabilities are recognized for the expected future tax consequences attributed to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax basis. Deferred tax assets and liabilities are measured using the enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to reverse. A valuation allowance is provided against net deferred tax assets when it is more likely than not that a tax benefit will not be realized. Income taxes included U.S. and foreign taxes.

Loss on Applied Digital Common Stock

On March 1, 2004, Digital Angel Corporation issued 3,000,000 shares of its common stock and a warrant to purchase up to 1,000,000 shares of the Company's common stock to Applied Digital in exchange for 1,980,000 shares of Applied Digital's common stock, exclusive of the proceeds which may be received when the warrant is exercised. As of June 30, 2004, the Company has sold approximately 910,000 shares of Applied Digital common stock. The Company has accounted for the Applied Digital stock as a trading security under SFAS 115, "Accounting for Certain Investments in Debt and Equity Securities". In the quarter ended June 30, 2004, the Company recorded realized losses of \$955,000 on the approximately 910,000 shares of Applied Digital common stock sold and unrealized losses of \$1,657,000 on the 1,070,000 shares held by the Company. Fair value of the Applied Digital common stock is determined by quoted values reported on the NASDAQ.

Discontinued Operations

On April 19, 2004, the Company sold certain assets of its Medical Systems segment's medical services business pursuant to an Asset Purchase Agreement dated April 8, 2004 by and between Digital Angel Corporation and MedAire, Inc. Assets sold include all of the tangible and intangible intellectual property developed for the operation of the Medical Systems segment's medical services business, pharmaceutical supplies and other inventory items, customer and supplier contracts, computer software licenses, internet website and domain name and mailing lists.

Under the terms of the agreement, the purchase price, in addition to MedAire, Inc.'s assumption of certain liabilities was \$420,000 plus any prepaid deposits and the cost of the pharmaceutical inventory and supplies reduced by any pre-billing to or pro-rata prepayment by the Company's customers.

In connection with exiting this activity, the Company recognized obligations and recorded a loss of approximately \$0.6 million in the six months ended June 30, 2004. In addition, on July 30, 2004, the Company sold the Medical Systems segment's land and building for an amount in excess of our carrying basis. In addition, the Company sold the Medical Systems segment's land and buildings in a separate transaction on July 30, 2004 for \$1.5 million. Net cash received on the sale, after paying off the related building mortgage, was approximately \$0.4 million.

The following discloses the operating losses from discontinued operations for the six-months ended June 30, 2004 and 2003, consisting of losses attributable to the Medical Systems segment:

	2004	Six-Months Ended June 30,		2003
Product revenue	\$	204	\$	587
Service revenue		223		616
Total revenue		427		1,203
Cost of products sold		87		258
Cost of services sold		317		593
Total cost of products and services sold		404		851
Gross profit		23		352
Selling, general and administrative expenses		1,046		656

Other income and expense		105		69
Loss from discontinued operations	\$	(1,128)	\$	(373)

LIQUIDITY AND CAPITAL RESOURCES

As of June 30, 2004, the Company had cash of \$0.7 million compared to \$0.9 million at December 31, 2003. In addition, at June 30, 2004 we held Applied Digital common stock of \$2.6 million compared to \$0.0 million at December 31, 2003. Cash used in operating activities totaled \$3.0 million and \$2.3 million in the first six months of 2004 and 2003, respectively.

In the first six months of 2004, the use of cash was due primarily to the loss generated from operations and a significant increase in accounts receivable. Accounts receivable, net of allowance for doubtful accounts, increased by \$1.7 million, or 51.3%, to \$5.1 million at June 30, 2004 from \$3.4 million at December 31, 2003. Approximately \$0.5 million of the increase was accounts receivable acquired in the acquisition of OuterLink Corporation in January 2004. Offsetting these uses of cash was a decrease in inventory, depreciation and amortization of \$1.2 million and realized and unrealized losses on Applied Digital common stock of \$2.6 million.

Edgar Filing: DIGITAL ANGEL CORP - Form 10-Q

Inventory levels decreased by \$0.2 million to \$6.3 million at June 30, 2004 from \$6.5 million at December 31, 2003 due to an accumulation of inventory in December 2003 offset by inventory acquired in the OuterLink Corporation acquisition.

Accounts payable decreased by \$0.7 million to \$4.5 million at June 30, 2004 from \$5.2 million at December 31, 2003.

Accrued expenses and other current liabilities increased by \$0.6 million, or 18.7%, to \$3.8 million at June 30, 2004 from \$3.2 million at December 31, 2003. Accrued expenses acquired in the OuterLink acquisition totaled \$0.6 million.

Investing activities provided cash of \$2.8 million in the first six months of 2004 and used cash of \$0.5 million in the first six months of 2003. In the first six months of 2004, cash provided was primarily from the sale of Applied Digital common stock and the sale of the Medical Systems segment's assets. During the first six months of 2004 and 2003, \$0.2 million and \$0.5 million was spent to acquire property and equipment, respectively.

Financing activities used cash of \$0.05 million in the first six months of 2004 and provided cash of \$2.6 million in the first six months of 2003. In the six months ended June 30, 2004, cash was used primarily for payments on our debt and line of credit of \$1.0 million offset by proceeds from stock option exercises of \$1.0 million.

Debt and Liquidity

The following table summarizes the Company's fixed cash obligations as of June 30, 2004 over various future periods (in thousands):

Contractual cash obligations	Total	Payments Due by Period				
		Less than 1 Year	1-3 Years	4-5 Years	After 5 Years	
Notes Payable and Long-Term Debt	\$ 7,422	\$ 5,080	\$ 144	\$ 127	\$ 2,071	
Operating Leases	17,745	811	1,284	1,129	15,521	
Employment Contracts	1,778	865	913			
	\$ 26,945	\$ 6,756	\$ 2,341	\$ 1,256	\$ 17,592	

Convertible Note. On July 31, 2003, we entered into a Securities Purchase Agreement (Purchase Agreement) to sell to Laurus Master Fund, Ltd. (Laurus) a two-year Secured Convertible Note (the Convertible Note) in the original principal amount of \$2,000,000 and a five-year warrant to purchase up to 125,000 shares of our common stock. The per share exercise price of the warrant is \$2.68 for 75,000 shares, \$2.91 for 35,000 shares and \$3.38 for 15,000 shares. The Convertible Note is convertible, at Laurus's option, into shares of our common stock at a per share price of \$2.33. Laurus is not entitled to convert the amount evidenced by the Convertible Note into a number of shares of common stock which would exceed the difference between the number of shares of common stock beneficially owned by

Laurus and 4.99% of the outstanding shares of our common stock. However, Laurus may acquire more than 4.99% of our outstanding common stock upon 75 days notice to the Company. Through June 30, 2004, Laurus has converted \$582,500 into 250,000 shares of our common stock. In accordance with the letter agreement dated June 1, 2004, between us, Applied Digital and Laurus, Laurus sold 150,000 of the common shares to Applied Digital. As of June 30, 2004 the principal balance of the Convertible Note was \$846,000. The Convertible Note accrues interest at an annual rate equal to the higher of the prime rate plus 1.75% or 6% per annum. We allocated \$143,000 of the proceeds to the warrant issued. The amount allocated represents the fair value of the warrant calculated under the Black-Scholes method. The value of the warrant is included in additional paid-in capital and is being amortized to interest expense over the life of the Convertible Note.

In connection with the Convertible Note, we entered into a Security Agreement with Laurus granting to Laurus a lien and security interest in our assets. Additionally, the Securities Purchase Agreement includes default provisions should an Event of Default (as defined in the agreement) occur. Furthermore, under a related registration rights agreement, the common stock underlying the Convertible Note is registered with the Securities and Exchange Commission.

Revolving Note and Minimum Borrowing Note. On August 28, 2003, we entered into a Security Agreement with Laurus under which we may borrow from Laurus the lesser of \$5,000,000 or an amount that is determined based on percentages of our eligible accounts receivable and inventory as prescribed by the terms of the Security Agreement. Under the Security Agreement, we issued to Laurus a three-year Secured Revolving Convertible Note (*Revolving Note*) in the original principal amount of \$3,500,000 and a three-year Secured Minimum Borrowing Convertible Note (*Minimum Borrowing Note*) in the original principal amount of \$1,500,000. We used proceeds from the Revolving Note and Minimum Borrowing Note to satisfy in full our credit facility from Wells Fargo Business Credit. The Revolving Note and Minimum Borrowing Note accrue interest at an annual rate equal to the prime rate plus 2.5%. The availability under the Revolving Note was \$2.1 million at June 30, 2004.

Beginning May 28, 2004, the Minimum Borrowing Note and the Revolving Note are convertible, at Laurus' option, into shares of our common stock at a per price share of \$2.64 (the *Fixed Conversion Price*). The Fixed Conversion Price is adjusted

upward following each conversion of \$2,000,000, as defined. Laurus is not entitled to convert the amount evidenced by the Minimum Borrowing Note and the Revolving Note into a number of shares of common stock which would exceed the difference between the number of shares of our common stock beneficially owned by Laurus or issuable upon the exercise of warrants held by Laurus and 4.99% of our outstanding shares of our common stock. However, Laurus may acquire more than 4.99% of our outstanding common stock upon 75 days notice to us. Additionally, the Securities Purchase Agreement includes default provisions should an Event of Default (as defined in the agreement) occur. Furthermore, under a related registration rights agreement, the common stock underlying the Revolving Note and Minimum Borrowing Note has been registered with the Securities and Exchange Commission.

We also issued to Laurus a five-year warrant to purchase up to 115,000 shares of our common stock. The per share exercise price of the warrant is \$2.55 for 70,000 shares, \$2.75 for 35,000 shares, and \$2.95 for 10,000 shares. We allocated \$133,000 of the proceeds to the warrant issued. The amount allocated represents the fair value of the warrant calculated under the Black-Scholes method. The value of the warrant is included in additional paid-in capital and is being amortized to interest expense over the life of the Revolving Note and Minimum Borrowing Note.

On June 1, 2004, we executed a letter agreement with Laurus and Applied Digital that amended certain terms of various transaction documents executed by us and Laurus in connection with the issuance by us of the Convertible Note, Revolving Note and Minimum Borrowing Note to Laurus. The letter agreement provides that:

We agreed to not prepay any outstanding principal amounts evidenced by the Revolving Note and Minimum Borrowing Note.

Laurus agreed to waive any and all fees allegedly due to Laurus from us as a result of our failure to timely cause the shares underlying the Revolving Note and Minimum Borrowing Note to be registered.

Laurus shall convert the portion of the Revolving Note equal to 150,000 shares of our common stock at the fixed conversion price set forth in the Convertible Note and, as promptly as practicable following such conversion, Applied Digital shall purchase such shares at a purchase price equal to the volume weighted average price of our common stock for the three trading days prior to Laurus' conversion.

Laurus shall not convert any of the outstanding principal balance on the Revolving Note, the Minimum Borrowing Note or any other obligation issued by us to Laurus in an amount that exceeds 25% of the aggregate dollar trading volume of our common stock for the thirty day trading period immediately preceding the delivery of a notice of conversion by Laurus to us.

Upon conversion of any of the outstanding principal balance on the Revolving Note, the Minimum Borrowing Note or any other obligations issued by us to Laurus, we and Applied Digital shall have the right to purchase all of the shares acquired by Laurus in such conversion at a price per share equal to the volume weighted average price of our common stock for the three trading days prior to Laurus' conversion; and

Laurus shall not convert any portion of the Minimum Borrowing Note prior to repayment in full of all obligations outstanding under the Revolving Note.

Working Capital Loan. On March 7, 2003, Signature Industries Ltd., our subsidiary in the United Kingdom, entered into a Loan Agreement with The Royal Bank of Scotland for £500,000 to finance the working capital requirements of their Indian Air Force contract. The loan bears interest at an annual rate equal to 2.25% above the base rate, as defined in the agreement (6.75% at June 30, 2004). The base rate may vary from time to time. On January 22, 2004, the agreement was amended to increase the loan amount to £1,000,000 (\$1,807,000 as of June 30, 2004). On June 10, 2004, the repayment terms of the Agreement were amended. As amended, repayments shall be £200,000 due on July 31, 2004, £350,000 on August 31, 2004, £350,000 on September 30, 2004, and £100,000 on October 31, 2004.

Invoice Discounting Agreement. On April 9, 2003, Signature Industries Ltd. entered into a two-year Invoice Discounting Agreement with The Royal Bank of Scotland Commercial Services Limited (RBS). The Invoice Discounting Agreement, as amended October 28, 2003, provides for Signature to sell with full title guarantee most of its receivables, as defined in the Invoice Discounting Agreement. RBS prepays 80% of the receivables sold, not to exceed an outstanding balance of £750,000 (\$1,355,000 as of June) at any given time. RBS pays Signature the remainder of the receivables upon their collection. Receivables which remain outstanding 90 days from the end of the invoice month become ineligible, and RBS may require Signature to repurchase these receivables. The discounting charge accrues daily at an annual rate equal to 2.25% above the base rate, as defined in the amended Invoice Discounting Agreement (6.75% at June 30, 2004). Signature pays a commission charge to RBS of 0.2% of each receivable balance sold. The Invoice Discounting Agreement, as amended, requires a minimum commission charge of £833 per month. Discounting charges of \$32,000 are included in interest expense in the statement of operations for the six months ended June 30, 2004. The amount of receivables financed at June 30, 2004 was \$0.7 million.

Stock Issuance to Applied Digital. On March 1, 2004, we issued 3,000,000 shares of our common stock to Applied Digital pursuant to the stock purchase agreement with Applied Digital dated August 14, 2003. The stock purchase agreement provided for Applied Digital to purchase 3,000,000 shares of our common stock at a price of \$2.64 per share and a warrant to purchase up to 1,000,000 shares of our common stock. The warrant is exercisable for five years beginning February 1, 2004 at an exercise price per share of \$3.74 payable in cash or shares of common stock of Applied Digital. The purchase price for the sale of our 3,000,000 shares and the warrant was payable in shares of Applied Digital common stock having an aggregate value of \$7.92 million. The number of shares of Applied Digital common stock received by Digital Angel Corporation as payment of the purchase price was 1,980,000 shares (as adjusted for a subsequent one-for-10 reverse stock split of Applied Digital's common stock), exclusive of the proceeds on exercise of the warrant. We expect to generate cash by selling the shares of Applied Digital common stock. In the six months ended June 30, 2004, we had sold 910,000 shares of Applied Digital common stock, resulting in aggregate net proceeds of approximately \$2.7 million.

As part of this transaction, we issued five-year warrants to purchase up to 500,001 shares of our common stock at an exercise price of \$2.64 per share anytime on or after February 1, 2004 to the holders of the Applied Digital 8.5% Convertible Exchangeable Debentures.

During the six months ended June 30, 2004, we received aggregate proceeds of \$1.0 million on the exercise of stock options.

Forward Looking Statements and Associated Risk

This Form 10-Q contains forward-looking statements within the "safe harbor" provisions of the Private Securities Litigation Reform Act of 1995 with respect to our financial condition, results of operations and business, and it includes statements relating to:

our growth strategies including, without limitation, our ability to deploy new products and services;

anticipated trends in our business and demographics;

our ability to successfully integrate the business operations of recently acquired companies;

our future profitability and liquidity; and

regulatory, competitive or other economic influences.

Words such as anticipates, expects, intends, plans, believes, seeks, estimates and similar expressions also identify forward-looking statements. These forward-looking statements are not guarantees of future performance and are subject to risks and uncertainties that could cause actual results to differ materially from estimates or forecasts contained in the forward-looking statements. Some of these risks and uncertainties are beyond our control.

Risk Factors

You should carefully consider the risk factors listed below. These risk factors may cause our future earnings to be less or our financial condition to be less favorable than we expect. You should read this section together with the other information contained herein.

Recent changes in our senior management could have an adverse effect on our financial results.

We have recently experienced numerous changes with respect to our senior management. On September 4, 2003, Randolph K. Geissler resigned as Chief Executive Officer of Digital Angel Corporation after serving in such position since the March 2002 merger between Digital Angel Corporation and Medical Advisory Systems. From September 2000 until March 2002, Mr. Geissler served as Chief Executive Officer of Digital Angel Corporation, one of the predecessor corporations to our Company.

Following Mr. Geissler's resignation, our Board appointed Kevin McLaughlin as the interim Chief Executive Officer of Digital Angel Corporation while we conducted a formal search for a permanent Chief Executive Officer. At the time of his appointment as interim Chief Executive Officer, Mr. McLaughlin was serving as President and Chief Operating Officer of Applied Digital. On November 3, 2003, we announced that we had agreed to appoint Van Chu as Chief Executive Officer. At the time of this announcement, Mr. Chu was Chief Executive Officer of OuterLink Corporation, a company that was acquired by Digital Angel Corporation in a merger on January 22, 2004. Mr. Chu assumed his duties as our Chief Executive Officer on November 7, 2003.

Mr. Chu was terminated as Chief Executive Officer of the Company on January 12, 2004, the Company's board of directors appointed Kevin N. McGrath as President and Chief Executive Officer of the Company.

Because we depend heavily on the skills of those persons holding senior management positions, the loss of any senior executive could materially adversely affect our financial results. These senior executives, in many cases, have strong relationships with our customers and suppliers. Therefore, the loss of the services of such senior executives or any general instability in the composition of our senior management could have a negative impact on our relationship with these customers and suppliers. We cannot ensure that we will be able to retain our senior executives and this uncertainty could have a material negative impact on our business.

As of June 30, 2004, our majority stockholder, Applied Digital owned 68.4% of our common stock. Thus, it is able to completely control the board of directors and may support actions that conflict with the interests of the other stockholders.

As of June 30, 2004, Applied Digital was the beneficial owner of 68.4% of our common stock. It controls us with respect to all matters upon which our stockholders may vote, including the selection of the Board of Directors, mergers, acquisitions and other significant corporate transactions. Applied Digital has the ability to exercise control over us. Applied Digital may support actions that are contrary to or conflict with the interests of the other stockholders.

Our stockholders will experience dilution if Laurus Master Fund exercises its right to convert certain debt owed by us into shares of our common stock.

On July 31, 2003, we issued to Laurus Master Fund a two-year secured convertible note in the original principal amount of \$2,000,000. The secured convertible note is convertible, at Laurus Master Fund's option, into shares of our common stock at a per share price of \$2.33. In connection with the issuance of the secured convertible note, we also issued to Laurus Master Fund a five-year warrant to purchase 125,000 shares of our common stock at exercise prices ranging from \$2.68 to \$3.38 per share.

On August 28, 2003, we issued a three-year secured revolving convertible note in the principal amount of \$3,500,000 and a three-year secured minimum borrowing convertible note in the principal amount of \$1,500,000 to Laurus Master Fund. When the two-year secured convertible note is repaid in full, either in cash or by conversion into our common stock, each of these notes will be convertible, at Laurus Master Fund's option, into shares of our common stock at \$2.64 per share. In connection with the issuance of these notes, Laurus Master Fund also acquired a five-year warrant to purchase 115,000 shares of our common stock at exercise prices ranging from \$2.55 to \$2.95 per share.

Through June 30, 2004, Laurus Master Fund had converted \$582,500 in principal amount of the two-year secured convertible note dated July 31, 2003 into 383,000 shares of our common stock. Our issuance of shares to Laurus Master Fund upon any other conversion of these notes or any exercise of the warrants may result in substantial dilution to other Digital Angel Corporation stockholders. In addition, Laurus Master Fund may offer and sell any and all of the shares of our common stock received in connection with conversion of the notes or exercise of the warrants at prices and times to be determined in its sole discretion. There is no independent or third-party underwriter involved in the offering of the shares of our common stock acquired by Laurus Master Fund, and there can be no guarantee that any disposition of those shares will be completed in a manner that is not disruptive to the trading market for our common stock.

Our stockholders will experience dilution upon conversion of the Series A Preferred Stock issued by us in the OuterLink Corporation acquisition.

On January 22, 2004, we acquired OuterLink Corporation of Concord, Massachusetts, in a merger. As consideration for the merger, we issued 100,000 shares of our Series A Preferred Stock in exchange for all of the issued and outstanding shares of OuterLink's capital stock. The Series A Preferred Stock is convertible into 4,000,000 shares of our common stock when the volume-weighted average price of our common stock equals or exceeds \$4.00 per share for 10 consecutive trading days. The issuance of our common stock upon any conversion of the Series A Preferred Stock issued to the OuterLink stockholders would result in dilution to our current stockholders.

The terms of our debt obligations to Laurus Master Fund subject us to the risk of foreclosure on substantially all of our assets.

We may not have sufficient funds to repay Laurus Master Fund when the obligations on the convertible note, minimum borrowing note and revolving note mature. Accordingly, we may be required to obtain the funds necessary to repay these obligations either through refinancing, the issuance of additional equity or debt securities or the sale of assets. There can be no assurance that we can obtain the funds needed, if any, to repay the obligations from any one or more of these other sources on favorable economic terms or at all. If we are unable to obtain funds to repay this indebtedness, we may be forced to dispose of assets or take other actions on disadvantageous terms, which could result in losses to Digital Angel Corporation and could have a material adverse effect on our financial condition.

To secure the payment of all debts, liabilities and obligations owed to Laurus Master Fund, we have granted to Laurus Master Fund a security interest in and lien upon all of our property and assets, whether real or personal, tangible or intangible, whether now owned or hereafter acquired, or in which we now have, or at any time in the future may acquire, any right, title or interest. The occurrence of an event of default under the convertible note, minimum borrowing note or revolving note would subject us to foreclosure by Laurus Master Fund on substantially all of our assets to the extent necessary to repay any amounts due. Any such default and resulting foreclosure will have a material adverse effect on our financial condition.

Our earnings will decline if we write off additional goodwill and other intangible assets.

As of June 30, 2004, we had goodwill of \$49.0 million. On January 1, 2002, we adopted SFAS No. 142, Goodwill and Other Intangible Assets. SFAS No. 142 requires that goodwill and certain intangibles no longer be amortized but instead tested for impairment at least annually by applying a fair value based test. During the fourth quarter of 2003, we performed the annual impairment test for goodwill using a fair value based approach, primarily discounted cash flows. An evaluation of the Medical Systems reporting unit indicated that \$2.4 million of goodwill was impaired. Additionally, management estimated that certain intangible assets at our Medical Systems reporting unit were impaired by \$0.6 million. Accordingly, we recorded an impairment charge of \$3.0 million in the fourth quarter of 2003, which is included as an asset impairment charge in the 2003 statement of operations. During the fourth quarter of 2002, we recorded an impairment charge of \$57.4 million for goodwill at our GPS and Radio Communications and Medical Systems reporting units.

We will assess the fair value of our goodwill annually or earlier if events occur or circumstances change that would more likely than not reduce the fair value of our goodwill below its carrying value. These events or circumstances would include a significant change in business climate, including a significant, sustained decline in an entity's market value, legal factors, operating performance indicators, competition, sale or disposition of a significant portion of the business, or other factors. If we determine that significant impairment has occurred, we would be required to write off the impaired portion of goodwill. Impairment charges could have a material adverse effect on our financial condition and results of operations.

The exercise of outstanding options and warrants may adversely affect the market price of our common stock.

As of June 30, 2004, we had 10,142,000 options and 3,029,000 warrants outstanding to purchase from us a total of 13,171,000 shares of common stock at exercise prices ranging from \$0.50 to \$10.50 per share. In addition, as of June 30, 2004, we had 4,479,000 additional shares of common stock which may be issued in the future under our stock option plans. The exercise of outstanding options and warrants and the sale in the public market of the shares purchased upon such exercise may adversely affect the market price of our common stock.

We may continue to incur losses.

We incurred a net loss of \$5.7 million for the six months ended June 30, 2004. In addition, we incurred net losses of \$9.5 million, \$92.4 million, \$17.4 million in the years ended December 31, 2003, 2002 and 2001, respectively. Included in the \$92.4 million loss for the year ended December 31, 2002 is a goodwill impairment charge of \$57.4 million, an asset impairment charge of \$6.4 million, and an \$18.7 million charge arising from the remeasurement of options in connection with the merger. No assurance can be given as to when we will achieve profitability, if at all. Profitability depends on many factors, including the success of our marketing programs, our maintenance and reduction of expenses, and the ability to coordinate successfully the operations of our business units. If we fail to achieve and maintain sufficient profitability within the

time frame expected by investors, the market price of our common stock may be adversely affected.

Infringement by third parties on our intellectual property or the development of substantially equivalent proprietary technology by our competitors could negatively affect our business.

Our success depends significantly on our ability to maintain patent and trade secret protection, to obtain future patents and licenses, and to operate without infringing on the proprietary rights of third parties. There can be no assurance that the measures we have taken to protect our intellectual property, including those relating to the Digital Angel technology, will prevent the misappropriation or circumvention of our intellectual property. In addition, there can be no assurance that any patent application, when filed, will result in an issued patent, or that our existing patents, or any patents that may be issued in the future, will provide us with significant protection against competitors. Moreover, there can be no assurance that any patents issued to or licensed by us will not be infringed upon or circumvented by others. Litigation to establish the validity of patents, to assert infringement claims against others, and to defend against patent infringement claims can be expensive and time-consuming, even if the outcome is in our favor. We also rely to a lesser extent on unpatented proprietary technology, and no assurance can be given that others will not independently develop substantially equivalent proprietary information, techniques or processes or that we can meaningfully protect our rights to such unpatented proprietary technology.

Infringement on our intellectual property or the development of substantially equivalent technology by our competitors could have a material adverse effect on our business.

Domestic and foreign government regulation and other factors could impair our ability to develop and sell our products in certain markets.

The electronic animal identification market can be negatively affected by such factors as food safety concerns, consumer perceptions regarding cost and efficacy, international technology standards, national infrastructures, and slaughterhouse removal of microchips.

We are also subject to federal, state and local regulation in the United States, including regulation by the U.S. Food and Drug Administration, the U.S. Federal Communications Commission, the Federal Aviation Authority and the U.S. Department of Agriculture, and to regulation in other countries. We cannot predict the extent to which we may be affected by further legislative and regulatory developments concerning our products and markets. We are required to obtain regulatory approval before marketing most of our products. The regulatory process can be very time-consuming and costly, and there is no assurance that we will receive the regulatory approvals necessary to sell our products. Regulatory authorities also have the authority to revoke approval of previously approved products for cause, to request recalls of products and to close manufacturing plants in response to violations. Any such regulatory action, including the failure to obtain such approval, could prevent us from selling, or materially impair our ability to sell, our products in certain markets and could negatively affect our business.

We rely heavily on sales to government contractors of our animal identification products, and any decline in the demand by these customers for our products could negatively affect our business.

The principal customers for electronic identification devices for fish are government contractors that rely on funding from the United States government. Because these contractors rely heavily on government funds, any decline in the availability of such funds could result in a decreased demand by these contractors for our products. Any decrease in demand by such customers could have a material adverse effect on our financial condition and results of operations and result in a decline in the market value of our common stock.

We depend on a single production arrangement with Raytheon Microelectronics Espana, SA for our patented syringe-injectable microchips, and the loss of or any significant reduction in the production could have an adverse effect on our business.

We rely solely on a production arrangement with Raytheon Microelectronics Espana, SA for the manufacture of our patented syringe-injectable microchips that are used in all of our implantable electronic identification products. Raytheon utilizes our proprietary technology and our equipment in the production of our syringe-injectable microchips. The termination, or any significant reduction, by Raytheon of the assembly of our microchips or a material increase in the price charged by Raytheon for the assembly of our microchips could have an adverse effect on our financial condition and results of operations. In addition, Raytheon may not be able to produce sufficient quantities of the microchips to meet any significant increased demand for our products or to meet any such demand on a timely basis. Any inability or unwillingness of Raytheon to meet our demand for microchips would require us to utilize an alternative production arrangement and remove our automated assembly production machinery from the Raytheon facility, which would be costly and could delay production. Moreover, if Raytheon terminates our production arrangement, we cannot assure that the assembly of our microchips from another source would be on comparable or acceptable terms. The failure to make such an alternative production arrangement could have an adverse effect on our business.

We depend on principal customers.

For the six months ended June 30, 2004, we had one customer which accounted for 11.5% of our consolidated revenue, and our four largest customers, in the aggregate, accounted for 30.2% of our consolidated revenue. For the year ended December 31, 2003, we had one customer that accounted for 11.8% of our consolidated revenues, and our four largest customers accounted for, in the aggregate, 30.9% of our consolidated revenues. Our subsidiary, Signature Industries, Ltd., is heavily dependent on contracts with domestic government agencies and foreign governments, including the United Kingdom, primarily relating to military applications. The loss of, or a significant reduction in, orders from these or our other major customers could have a material adverse effect on our financial condition and results of operations.

We compete with other companies in the visual and electronic identification market, and the products sold by our competitors could become more popular than our products or render our products obsolete.

The market for visual and electronic identification for companion animals and livestock is highly competitive. We believe that our principal competitors in the visual identification market for livestock are AllFlex USA and Y-Text Corporation and that our principal competitors in the electronic identification market are AllFlex USA, Datamars SA and Avid Identification Systems, Inc.

In addition, other companies could enter this line of business in the future. Certain of our competitors have substantially greater financial and other resources than us. We may not be able to compete successfully with these competitors, and these competitors may develop or market technologies and products that are more widely accepted than ours or that would render our products obsolete or noncompetitive.

Currency exchange rate fluctuations could have an adverse effect on our sales and financial results.

We generate a portion of our sales and incur a portion of our expenses in currencies other than U.S. dollars. To the extent that we are unable to match revenues received in foreign currencies with costs paid in the same currency, exchange rate fluctuations in any such currency could have an adverse effect on our financial results.

We depend on a small team of senior management, and we may have difficulty attracting and retaining additional personnel.

Our future success will depend in large part upon the continued services and performance of senior management and other key personnel. If we lose the services of any member of our senior management team, our overall operations could be materially and adversely affected. In addition, our future success will depend on our ability to identify, attract, hire, train, retain and motivate other highly skilled technical, managerial, marketing, purchasing and customer service personnel when they are needed. Competition for these individuals is intense. We cannot ensure that we will be able to successfully attract, integrate or retain sufficiently qualified personnel when the need arises. Any failure to attract and retain the necessary technical, managerial, marketing, purchasing and customer service personnel could have a material adverse effect on our financial condition and results of operations.

IMPACT OF RECENTLY ISSUED ACCOUNTING STANDARDS

In June 2002, the Financial Accounting Standards Board issued Statement of Financial Accounting Standards (SFAS) No. 146, Accounting for Costs Associated with Exit or Disposal Activities. SFAS No. 146 requires recording costs associated with exit or disposal activities at their fair values when a liability has been incurred. Under previous guidance, certain exit costs were accrued upon management's commitment to an exit plan. The Company adopted SFAS No. 146 on January 1, 2003. The adoption of SFAS No. 146 did not have a material impact on the results of operations or financial position.

Effective January 1, 2003, the Company adopted the recognition and measurement provisions of FASB Interpretation No. 45 (Interpretation 45), Guarantor's Accounting and Disclosure Requirements for Guarantees, Including Indirect Guarantees of Indebtedness of Others. This interpretation elaborates on the disclosures to be made by a guarantor in interim and annual financial statements about the obligations under certain guarantees. Interpretation 45 also clarifies that a guarantor is required to recognize, at the inception of a guarantee, a liability for the fair value of the obligation undertaken in issuing the guarantee. The initial recognition and initial measurement provisions of this interpretation are applicable on a prospective basis to guarantees issued or modified after December 31, 2002. The Company does not currently provide significant guarantees on a routine basis. As a result, this interpretation has not had a material impact on the Company's financial statements.

In December 2003, the FASB issued FASB Interpretation No. 46 (revised December 2003) (Interpretation 46), Consolidation of Variable Interest Entities. Application of this interpretation is required in the Company's financial statements for interests in variable interest entities that

Edgar Filing: DIGITAL ANGEL CORP - Form 10-Q

are considered to be special-purpose entities for the year ended December 31, 2003. The Company determined that it does not have any arrangements or relationships with special-purpose entities.

Interpretation 46 addresses the consolidation of business enterprises to which the usual condition (ownership of a majority voting interest) of consolidation does not apply. This interpretation focuses on controlling financial interests that may be achieved through arrangements that do not involve voting interests. It concludes that in the absence of clear control through voting interests, a company's exposure (variable interest) to the economic risks and potential rewards from the variable interest entity's assets and activities are the best evidence of control. If an enterprise holds a majority of the variable interests of an entity, it would be considered the primary beneficiary. The primary beneficiary is required to include assets, liabilities and the results of operations of the variable interest entity in its financial statements. The adoption of FIN 46 did not have an impact on the financial position or operations of the Company.

In May 2003, the FASB issued SFAS 150, Accounting for Certain Financial Instruments with Characteristics of Both Liabilities and Equity (SFAS No. 150). SFAS No. 150 establishes standards for how an issuer classifies and measures certain financial instruments with characteristics of both liabilities and equity. It requires that an issuer classify a financial instrument that is within its scope as a liability (or an asset in some circumstances). Many of those instruments were previously classified as equity. SFAS No. 150 is effective for financial instruments entered into or modified after May 31, 2003, and otherwise is effective at the beginning of the first interim period beginning after June 15, 2003. It is to be implemented by reporting the cumulative effect of a change in accounting principle for financial instruments created before the issuance date of the statement and still existing at the beginning of the interim period of adoption. Restatement is not permitted. The Company adopted the provisions of SFAS No.150 effective July 1, 2003. The adoption of SFAS No. 150 did not have an impact on the Company's financial position or results of operations.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

We have operations and sales in various regions of the world. Additionally, we may export and import to and from other countries. Our operations may therefore be subject to volatility because of currency fluctuations, inflation, and changes in political and economic conditions in these countries. Sales and expenses may be denominated in local currencies and may be affected as currency fluctuations affect our product prices and operating costs or those of our competitors.

We presently do not use any derivative financial instruments to hedge our exposure to adverse fluctuations in interest rates, foreign exchange rates, fluctuations in commodity prices or other market risks, nor do we invest in speculative financial instruments.

Due to the nature of our borrowings and our short-term investments, we have concluded that there is no material market risk exposure and, therefore, no quantitative tabular disclosures are required.

Item 4. Controls and Procedures

Within the 90 days prior to the date of this report, the Company carried out an evaluation, under the supervision and with the participation of the Company's management, including the Company's Chief Executive Officer and Chief Financial Officer, of the effectiveness of the design and operation of the Company's disclosure controls and procedures pursuant to Exchange Act Rule 13a-14 under the Securities Exchange Act of 1934. Based upon that evaluation, the Chief Executive Officer and Chief Financial Officer concluded that the Company's disclosure controls and procedures are effective in timely alerting them to material information relating to the Company (including its consolidated subsidiaries) required to be included in the Company's periodic SEC filings with the Securities and Exchange Commission. Since the date of their evaluation, there have been no significant changes in our internal controls or in other factors that could significantly affect the Company's internal controls.

PART II OTHER INFORMATION

Item 1. Legal Proceedings.

Wurts Litigation

In February 2003, an action was filed in the Middlesex County Superior Court in the Commonwealth of Massachusetts. Our subsidiary, OuterLink Corporation, as well as a significant stockholder of OuterLink and a principal of the significant stockholder were named as defendants. The complaint alleged breach of an August 25, 1999 employment contract. The plaintiff was President and CEO of OuterLink Corporation from July 1999 through August 2002. The Complaint sought damages based principally on a contractual severance provision that allegedly provided for four months of compensation for every year or fraction thereof served prior to termination. This matter was settled in July 2004 in consideration for a cash payment of \$250,000.

E-Research Litigation

In June, 2002, eResearch Technology, Inc. f/k/a Premier Research Worldwide, Ltd. (ERT) commenced a proceeding against U.S. Bank National Association (US Bank), subsequently intervened in by us in the New Jersey state court and subsequently removed to the United States District Court for the District of New Jersey. This suit was commenced to pursue alleged damages of approximately \$350,000 due to alleged failure by us and US Bank s alleged failure to register transfers of restricted Digital Angel shares sold by ERT in May 2002. This matter was settled prior to trial without either party paying any amounts to the other party.

Electronic Identification Devices Litigation

In February 2004, Electronic Identification Devices, Ltd. (EID) commenced a Declaratory Judgment Action against us in the United States District Court for the Western District of Texas. This action seeks a declaration of patent non-infringement relating to our syringe implantable identification transponders. The lawsuit alleges that EID has developed a new transponder that it believes does not infringe on our patent. The lawsuit acknowledges that we obtained a Judgment of infringement and two Contempt Orders against EID based on selling certain systems that infringed our patent in 1997, 1998 and 1999. On March 10, 2004 the Company filed a motion seeking the dismissal of the Declaratory Judgment Complaint or, in the alternative, that the action be transferred to Minnesota. The Court has not yet ruled on the Company s motion. Given the very early stage of this matter, the ultimate outcome of this proceeding cannot be predicted at this time. We are currently unable to determine the potential effect of this litigation on its consolidated financial position, results of operation or cash flows.

John Fernandez vs. United States of America vs. Medical Advisory Systems, Inc.

Edgar Filing: DIGITAL ANGEL CORP - Form 10-Q

On December 29, 2003, John Fernandez filed a lawsuit in the Orlando Division of the United States District Court for the Middle District of Florida. The plaintiff filed the lawsuit against the United States of America as the operator of the ship on which the plaintiff served. He alleged that the United States had contracted with Medical Advisory Systems to provide medical advice and that the physician at Medical Advisory Systems had rendered an incorrect long-distance diagnosis, resulting in injury to the plaintiff. Mr. Fernandez asserted against the United States claims of negligence under the Jones Act, unseaworthiness and maintenance and cure. He alleged damages in excess of \$75,000, plus prejudgment and post-judgment interest at the legal rate and costs and disbursements of the action. On April 14, 2004, the United States served Medical Advisory Systems with a third party complaint in Admiralty in which it alleged that Medical Advisory Systems is liable to it for all or part of the plaintiff's claim in that Medical Advisory Systems and/or its employee/physician rendering the medical advice was negligent. In response, on May 12, 2004, Medical Advisory Systems filed a motion to dismiss the third party complaint. Given the very early stage of the lawsuit, the ultimate outcome of this proceeding cannot be predicted at this time. We are currently unable to determine the potential effect of this litigation on our consolidated financial position, results of operations or cash flows.

Item 2. Changes in Securities, Use of Proceeds and Issuer Purchases of Equity Securities

On May 13, 2004, the Company issued 10,000 shares of common stock to Mr. Ronald Dunbar for services rendered in connection with recruiting Mr. Kevin N. McGrath to be director of the Company. The shares were issued in an exempt transaction under, among other exemptions, section 4(2) of the Securities Act of 1933, as amended. Mr. Dunbar received no other fee or compensation in connection with Mr. McGrath becoming a director of the Company.

On April 13, 2004, the Company issued 15,309 shares of common stock to Mpart Communications, Inc. The shares were issued in an exempt transaction under, among other exemptions, section 4(2) of the Securities Act of 1933, as amended and relate to services provided in April 2002 to support the initial launch of the first Digital Angel product

Item 4. Submission of Matters to A Vote of Securityholders

At the Annual Meeting of Stockholders held on May 6, 2004, the following proposals were adopted by the margins indicated:

PROPOSAL 1 ELECTION OF DIRECTORS

The following persons were elected as directors of the Company:

Scott R. Silverman	John R. Block
Kevin N. McGrath	Kevin H. McLaughlin
Howard S. Weintraub	Michael S. Zarriello

No fewer than 29,215,428 shares were voted in favor of, no more than 2,609,976 shares were voted against and no shares abstained from voting on the proposed directors.

PROPOSAL 2 APPROVAL OF AMENDMENT TO 2002 TRANSITION STOCK OPTION PLAN

The following is the result of the stockholders' vote on the amendment to the 2002 Transition Stock Option Plan:

For	Against	Abstain
24,532,183	1,035,289	16,705

PROPOSAL 3 RATIFICATION OF OPTIONS GRANTED OUTSIDE OF 2002 TRANSITION STOCK OPTION PLAN

The following is the result of the stockholders' vote on the ratification of options granted outside the 2002 Transition Stock Option Plan:

For	Against	Abstain
24,471,662	1,081,147	31,368

PROPOSAL 4 RATIFICATION OF APPOINTMENT OF EISNER, LLP

The following is the result of the stockholders' vote on the ratification of the appointment of Eisner, LLP as independent auditors:

For	Against	Abstain
31,699,977	49,172	76,755

Item 6. Exhibits and Reports on Form 8-K.

(a) Exhibits

The following exhibits are hereby incorporated into this Quarterly Report on Form 10-Q by reference to the reports and schedules identified below filed with the Securities and Exchange Commission (Commission):

3.1 Amended and Restated Certificate of Incorporation (incorporated by reference to Exhibit 3.1 to Amendment No. 1 to our Registration Statement on Form S-3 (No. 333-110817) filed on January 23, 2004)

3.2 Bylaws (incorporated by reference to Exhibit 3.2 to Amendment No. 1 to our Registration Statement on Form S-3 (No. 333-110817) filed on January 23, 2004)

The following exhibits are filed with this Quarterly Report on Form 10-Q:

31.1 Certification of Chief Executive Officer under Rules 13a-14(a)/15d-14(a) under the Securities and Exchange Act and Section 302 of the Sarbanes-Oxley Act of 2002.

31.2 Certification of Chief Financial Officer under Rules 13a-14(a)/15d-14(a) under the Securities and Exchange Act and Section 302 of the Sarbanes-Oxley Act of 2002.

32.1 Certification of Chief Executive Officer Pursuant to 18 U.S.C Section 1350, as Adopted Pursuant to Section 906 of the Sarbanes-Oxley Act of 2002.

32.2 Certification of Chief Financial Officer Pursuant to 18 U.S.C Section 1350, as Adopted Pursuant to Section 906 of the Sarbanes-Oxley Act of 2002.

(b) Reports on Form 8-K

During the three months ended March 31, 2004, the Company filed the following Current Reports on Form 8-K:

- (i) On June 2, 2004 the Company filed a Current Report on Form 8-K dated June 1, 2004 to report the execution of a Letter Agreement between the Company and Laurus Master Fund .

- (ii) On May 3, 2004 the Company filed a Current Report on Form 8-K dated May 3, 2004 to report the Company s first quarter financial results.

- (iii) On April 23, 2004 the Company filed a Current Report on Form 8-K dated April 19, 2004 to report the completion of the sale of certain assets of the Company s Medical Systems segment.

- (iv) On April 12, 2004 the Company filed a Current Report on Form 8-K dated April 8, 2004 to announce the sale of certain assets of the Company s Medical Systems segment.

SIGNATURE

Pursuant to the requirements of the Securities Exchange Act of 1934, the Registrant has duly caused this report to be signed on its behalf by the undersigned, thereunto duly authorized.
