EQUITY RESIDENTIAL
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(Unaudited)

1. Business

Equity Residential (EQR), a Maryland real estate investment trust (REIT) formed in March 1993, is a fully integrated real estate company primarily engaged in the acquisition, development, ownership, management and operation of multifamily properties. In addition, EQR may acquire or develop multifamily properties specifically to convert directly into condominiums as well as upgrade and sell existing properties as individual condominiums. EQR may also acquire land parcels to hold and/or sell based on market opportunities. EQR has elected to be taxed as a REIT.

EQR is the general partner of, and as of March 31, 2006 owned an approximate 93.5% ownership interest in, ERP Operating Limited Partnership, an Illinois limited partnership (the Operating Partnership). The Company is structured as an umbrella partnership REIT (UPREIT), under which all property ownership and business operations are conducted through the Operating Partnership and its subsidiaries. References to the Company include EQR, the Operating Partnership and each of the partnerships, limited liability companies and corporations controlled by the Operating Partnership and/or EQR.

As of March 31, 2006, the Company, directly or indirectly through investments in title holding entities, owned all or a portion of 911 properties in 31 states and the District of Columbia consisting of 192,240 units (table does not include various uncompleted development properties). The ownership breakdown includes:

	Properties	Units
Wholly Owned Properties	820	170,356
Partially Owned Properties:		
Consolidated	45	7,366
Unconsolidated	45	10,846
Military Housing (Fee Managed)	1	3,672

2. Summary of Significant Accounting Policies

Basis of Presentation

The accompanying unaudited condensed consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States for interim financial information and with the instructions to Form 10-Q and Article 10 of Regulation S-X. Accordingly, they do not include all of the information and footnotes required by accounting principles generally accepted in the United States for complete financial statements. In the opinion of management, all adjustments (consisting of normal recurring accruals) and certain reclassifications considered necessary for a fair presentation have been included. Certain reclassifications have been made to the prior period financial statements in order to conform to the current year presentation. Operating results for the quarter ended March 31, 2006 are not necessarily indicative of the results that may be expected for the year ending December 31, 2006.

The balance sheet at December 31, 2005 has been derived from the audited financial statements at that date but does not include all of the information and footnotes required by accounting principles generally accepted in the United States for complete financial statements.

For further information, including definition of capitalized terms not defined herein, refer to the consolidated financial statements and footnotes thereto included in the Company's annual report on Form 10-K for the year ended December 31, 2005.

Other

The Company adopted SFAS No. 123(R), *Share-Based Payment*, as required effective January 1, 2006. SFAS No. 123(R) requires all companies to expense stock-based compensation (such as stock options), as well as making other revisions to SFAS No. 123. As the Company began expensing all stock-based compensation effective January 1, 2003, the adoption of SFAS No. 123(R) did not have a material effect on its consolidated statements of operations or financial position.

The Company adopted the disclosure provisions of SFAS No. 150 and FSP No. FAS 150-3, *Accounting for Certain Financial Instruments with Characteristics of both Liabilities and Equity*, effective December 31, 2003. SFAS No. 150 and FSP No. FAS 150-3 require the Company to make certain disclosures regarding noncontrolling interests that are classified as equity in the financial statements of a subsidiary but would be classified as a liability in the parent's financial statements under SFAS No. 150 (e.g., minority interests in consolidated limited-life subsidiaries). The Company is presently the controlling partner in various consolidated partnerships consisting of 45 properties and 7,366 units and various uncompleted development properties having a minority interest book value of \$19.0 million at March 31, 2006. Some of these partnerships contain provisions that require the partnerships to be liquidated through the sale of its assets upon reaching a date specified in each respective partnership agreement. The Company, as controlling partner, has an obligation to cause the property owning partnerships to distribute proceeds of liquidation to the Minority Interests in these Partially Owned Properties only to the extent that the net proceeds received by the partnerships from the sale of its assets warrant a distribution based on the partnership agreements. As of March 31, 2006, the Company estimates the value of Minority Interest distributions would have been approximately \$87.1 million (Settlement Value) had the partnerships been liquidated. This Settlement Value is based on estimated third party consideration realized by the partnerships upon disposition of the Partially Owned Properties and is net of all other assets and liabilities, including yield maintenance on the mortgages encumbering the properties, that would have been due on March 31, 2006 had those mortgages been prepaid. Due to, among other things, the inherent uncertainty in the sale of real estate assets, the amount of any potential distribution to the Minority Interests in the Company's Partially Owned Properties is subject to change. To the extent that the partnerships' underlying assets are worth less than the underlying liabilities, the Company has no obligation to remit any consideration to the Minority Interests in Partially Owned Properties.

In June 2005, the FASB ratified the consensus in EITF Issue No. 04-05, *Determining Whether a General Partner, or the General Partners as a Group, Controls a Limited Partnership or Similar Entity When the Limited Partners Have Certain Rights* (Issue 04-05), which provides guidance in determining whether a general partner controls a limited partnership. Issue 04-05 states that the general partner in a limited partnership is presumed to control that limited partnership. The presumption may be overcome if the limited partners have either (1) the substantive ability to dissolve the limited partnership or otherwise remove the general partner without cause or (2) substantive participating rights, which provide the limited partners with the ability to effectively participate in significant decisions that would be expected to be made in the ordinary course of the limited partnership's business and thereby preclude the general partner from exercising unilateral control over the partnership. The adoption of Issue 04-05 by the Company was required for new or modified limited partnership arrangements effective June 30, 2005 and existing limited partnership arrangements effective January 1, 2006. Effective January 1, 2006, the Company consolidated its Lexford syndicated portfolio consisting of 20 separate partnerships (10 properties) containing 1,272 units. The adoption did not have a material effect on the results of operations or financial position. See Note 4 for further discussion of the adoption of EITF Issue No. 04-05.

During the quarter ended March 31, 2006, the Company repurchased 1,019,800 of its Common Shares on the open market at an average price of \$43.89 per share. The Company paid approximately \$44.8 million for these shares, which were retired subsequent to the repurchase.

The equity positions of various individuals and entities that contributed their properties to the Operating Partnership in exchange for OP Units are collectively referred to as the Minority Interests Operating Partnership . Subject to certain restrictions, the Minority Interests Operating Partnership may exchange their OP Units for EQR Common Shares on a one-for-one basis.

Net proceeds from the Company's Common Share and Preferred Share (see definition below) offerings are contributed by the Company to the Operating Partnership. In return for those contributions, EQR receives a number of OP Units in the Operating Partnership equal to the number of Common Shares it has issued in the equity offering (or in the case of a preferred equity offering, a number of preference units in the Operating Partnership equal in number and having the same terms as the Preferred Shares issued in the equity offering). As a result, the net offering proceeds from Common Shares and Preferred Shares are allocated between shareholders' equity and Minority Interests Operating Partnership to account for the change in their respective percentage ownership of the underlying equity of the Operating Partnership.

The Company's declaration of trust authorizes the Company to issue up to 100,000,000 preferred shares of beneficial interest, \$0.01 par value per share (the Preferred Shares), with specific rights, preferences and other attributes as the Board of Trustees may determine, which may include preferences, powers and rights that are senior to the rights of holders of the Company's Common Shares.

Due to the structure of the Company as a REIT and the nature of the operations of its operating properties, no provision for federal income taxes has been made at the EQR level. Historically, the Company has generally only incurred certain state and local income, excise and franchise taxes.

The Company has elected Taxable REIT Subsidiary (TRS) status for certain of its corporate subsidiaries, primarily those entities engaged in condominium conversion and sale activities. The Company recognized provisions for income taxes of \$2.7 million and \$0.2 million for the quarters ended March 31, 2006 and 2005, respectively. These amounts were classified as reductions of the gain on sales of discontinued operations, net of minority interests in the accompanying consolidated statements of operations. In addition, the aggregate results of operations (primarily net operating income) of the Company's condominium conversion properties are included in discontinued operations, net of minority interests in the accompanying consolidated statements of operations.

The net real estate basis of the Company's condominium conversion properties and land parcels owned by the TRS, which were included in investment in real estate, net in the consolidated balance sheets, was \$277.9 million and \$276.8 million at March 31, 2006 and December 31, 2005, respectively.

14. Commitments and Contingencies

The Company, as an owner of real estate, is subject to various Federal, state and local environmental laws. Compliance by the Company with existing laws has not had a material adverse effect on the Company. However, the Company cannot predict the impact of new or changed laws or regulations on its current properties or on properties that it may acquire in the future.

The Company does not believe there is any litigation pending or threatened against the Company which, individually or in the aggregate, reasonably may be expected to have a material adverse effect on the Company.

During the years ended December 31, 2005 and 2004, the Company established a reserve and recorded a corresponding expense, net of insurance receivables, for estimated uninsured property damage at certain of its properties caused by various hurricanes in each respective year. During the quarter ended March 31, 2006, the Company received \$4.0 million in insurance proceeds and recorded an additional \$2.9 million of receivables in anticipation of proceeds expected. As of March 31, 2006, a receivable of \$10.0 million and reserve of \$13.4 million are included in other assets and rents received in advance and other liabilities, respectively, on the consolidated balance sheets.

As of March 31, 2006, the Company has six projects totaling 1,711 units in various stages of development with estimated completion dates ranging through June 30, 2008. The primary development agreements currently in place have the following key terms:

- The first development partner has the right, at any time following completion of a project subject to the agreement, to stipulate a value for such project and offer to sell its interest in the project to the Company based on such value. If the Company chooses not to purchase the interest, the Company must agree to a sale of the project to an unrelated third party at such value. The Company's partner must exercise this right as to all projects subject to the agreement within five years after the receipt of the final certificate of occupancy on the last developed property. In connection with this development agreement, the Company has an obligation to provide up to \$40.0 million in credit enhancements to guarantee a portion of the third party construction financing. As of May 3, 2006, the Company did not have any amounts outstanding related to this credit enhancement. The Company would be required to perform under this agreement only if there was a material default under a third party construction mortgage agreement. This agreement expires no later than December 31, 2018. Notwithstanding the termination of the agreement, the Company shall have recourse against its development partner for any losses incurred.
- The second development partner has the right, at any time following completion of a project subject to the agreement, to require the Company to purchase the partner's interest in that project at a mutually agreeable price. If the Company and the partner are unable to agree on a price, both parties will obtain appraisals. If the appraised values vary by more than 10%, both the Company and its partner will agree on a third appraiser to determine which original appraisal is closest to its determination of value. The Company may elect at that time not to purchase the property and instead, authorize its partner to sell the project at or above the agreed-upon value to an unrelated third party. Five years following the receipt of the final certificate of occupancy on the last developed property, the Company must purchase, at the agreed-upon price, any projects remaining unsold.
- The third development partner has the exclusive right for six months following stabilization, as defined, to market a subject project for sale. Thereafter, either the Company or its development partner may market a subject project for sale. If the Company's development partner proposes the sale, the Company may elect to purchase the project at the price proposed by its partner or defer the sale until two independent appraisers appraise the project. If the two appraised values vary by more than 5%, a third appraiser will be chosen to determine the fair market value of the property. Once a value has been determined, the Company may elect to purchase the property or authorize its

development partner to sell the project at the agreed-upon value.

In addition, the Company has various deal-specific development agreements with partners, the overall terms of which are similar in nature to those described above.

15. Reportable Segments

Operating segments are defined as components of an enterprise about which separate financial information is available that is evaluated regularly by senior management. Senior management decides how resources are allocated and assesses performance on a monthly basis.

The Company's primary business is owning, managing, and operating multifamily residential properties, which includes the generation of rental and other related income through the leasing of apartment units to residents and includes Equity Corporate Housing (ECH). Senior management evaluates the performance of each of our apartment communities on an individual basis; however, each of our apartment communities has similar economic characteristics, residents, and products and services so they have been aggregated into one reportable segment. The Company's rental real estate segment comprises approximately 99.5% and 99.4% of total revenues from continuing operations for the quarters ended March 31, 2006 and 2005, respectively. The Company's rental real estate segment comprises approximately 99.8% of total assets at both March 31, 2006 and December 31, 2005.

The primary financial measure for the Company's rental real estate segment is net operating income (NOI), which represents rental income less: 1) property and maintenance expense; 2) real estate taxes and insurance expense; and 3) property management expense (as reflected in the accompanying consolidated statements of operations). The Company believes that NOI is helpful to investors as a supplemental measure of the operating performance of a real estate company because it is a direct measure of the actual operating results of the Company's apartment communities. Current year NOI is compared to prior year NOI and current year budgeted NOI as a measure of financial performance. The following table presents the NOI from our rental real estate specific to continuing operations for the quarters ended March 31, 2006 and 2005, respectively (amounts in thousands):

	Quarter Ended March 31,	
	2006	2005
Rental income	\$ 518,492	\$ 441,392
Property and maintenance expense	(140,030)	(119,464)
Real estate taxes and insurance expense	(53,070)	(47,933)
Property management expense	(26,384)	(22,943)
Net operating income	\$ 299,008	\$ 251,052

The Company's fee and asset management activity is immaterial and does not meet the threshold requirements of a reportable segment as provided for in SFAS No. 131.

All revenues are from external customers and there is no customer who contributed 10% or more of the Company's total revenues during the quarters ended March 31, 2006 or 2005.

16. Subsequent Events/Other

Subsequent to March 31, 2006 and through May 3, 2006, the Company:

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

Overview

For further information including definitions for capitalized terms not defined herein, refer to the consolidated financial statements and footnotes thereto included in the Company's annual report on Form 10-K for the year ended December 31, 2005.

Forward-looking statements in this report are intended to be made pursuant to the safe harbor provisions of the Private Securities Litigation Reform Act of 1995. These statements are based on current expectations, estimates, projections and assumptions made by management. While the Company's management believes the assumptions underlying its forward-looking statements are reasonable, such information is inherently subject to uncertainties and may involve certain risks, which could cause actual results, performance, or achievements of the Company to differ materially from anticipated future results, performance or achievements expressed or implied by such forward-looking statements. Many of these uncertainties and risks are difficult to predict and beyond management's control. Forward-looking statements are not guarantees of future performance, results or events. The Company assumes no obligation to update or supplement forward-looking statements because of subsequent events. Factors that might cause such differences include, but are not limited to the following:

- We intend to actively acquire and develop multifamily properties for rental operations and/or conversion into condominiums, as well as upgrade and sell existing properties as individual condominiums. We may underestimate the costs necessary to bring an acquired or condominium conversion property up to standards established for its intended market position or to otherwise develop a property. Additionally, we expect that other major real estate investors with significant capital will compete with us for attractive investment opportunities or may also develop properties in markets where we focus our development efforts. This competition may increase prices for multifamily properties or decrease the price at which we expect to sell individual condominiums. Upon conversion of properties to condominiums, we have increased our risk related to construction performed during the conversion. Condominium associations may assert that the construction performed was defective, resulting in litigation and/or settlement discussions. We may not be in a position or have the opportunity in the future to make suitable property acquisitions on favorable terms. We also plan to develop more properties ourselves in addition to co-investing with our development partners for either the rental or condominium market, depending on opportunities in each sub-market. This may increase the overall level of risk associated with our developments. The total number of development units, cost of development and estimated completion dates are subject to uncertainties arising from changing economic conditions (such as the cost of labor and construction materials), competition and local government regulation.
- Sources of capital to the Company or labor and materials required for maintenance, repair, capital expenditure or development are more expensive than anticipated;
- Occupancy levels and market rents may be adversely affected by national and local economic and market conditions including, without limitation, new construction of multifamily housing, slow employment growth, availability of low interest mortgages for single-family home buyers and the potential for geopolitical instability, all of which are beyond the Company's control; and
- Additional factors as discussed in Part I of the Annual Report on Form 10-K, particularly those under Risk Factors .

Readers are cautioned not to place undue reliance on these forward-looking statements, which speak only as of the date hereof. The Company undertakes no obligation to publicly release any revisions to these forward-looking statements, which may be made to reflect events or circumstances after the date hereof or to reflect the occurrence of unanticipated events. Forward-looking statements and related

uncertainties are also included in Notes 5 and 11 to the Notes to Consolidated Financial Statements in this report.

Results of Operations

In conjunction with our business objectives and operating strategy, the Company has continued to invest or recycle its capital investment in apartment communities located in strategically targeted markets during the quarter ended March 31, 2006. In summary, we:

- Acquired \$506.6 million of apartment properties consisting of eleven properties and 2,779 units and \$14.2 million of land parcels, all of which we deem to be in our strategic targeted markets; and
- Sold \$799.9 million of apartment properties consisting of 25 properties and 8,110 units as well as 171 condominium units for \$35.0 million.

The Company's primary financial measure for evaluating each of its apartment communities is net operating income (NOI). NOI represents rental income less property and maintenance expense, real estate tax and insurance expense, and property management expense. The Company believes that NOI is helpful to investors as a supplemental measure of the operating performance of a real estate company because it is a direct measure of the actual operating results of the Company's apartment communities.

Properties that the Company owned for both of the quarters ended March 31, 2006 and March 31, 2005 (the First Quarter 2006 Same Store Properties), which represented 158,398 units, impacted the Company's results of operations and are discussed in the following paragraphs.

The Company's acquisition, disposition, completed development and consolidation of previously unconsolidated property activities also impacted overall results of operations for the quarters ended March 31, 2006 and 2005. The impacts of these activities are also discussed in greater detail in the following paragraphs.

Comparison of the quarter ended March 31, 2006 to the quarter ended March 31, 2005

For the quarter ended March 31, 2006, income from continuing operations, net of minority interests, decreased by approximately \$60.4 million when compared to the quarter ended March 31, 2005. This decrease is primarily attributable to approximately \$57.1 million of other income recognized in 2005 related to eBay, Inc.'s acquisition of the Company's interest in Rent.com.

Revenues from the First Quarter 2006 Same Store Properties increased \$25.3 million primarily as a result of higher rental rates charged to residents, increased occupancy and lower concessions. Expenses from the First Quarter 2006 Same Store Properties increased \$9.7 million primarily due to higher utilities, insurance and real estate taxes. The following tables provide comparative revenue, expense, NOI and occupancy/turnover statistics for the First Quarter 2006 Same Store Properties:

First Quarter 2006 vs. First Quarter 2005

The following table presents a reconciliation of operating income per the consolidated statements of operations to NOI for the First Quarter 2006 Same Store Properties:

	Quarter Ended March 31, 2006 2005 (Amounts in millions)	
Operating income	\$ 142.0	\$ 118.1

(1) Amount represents additional hurricane insurance reimbursements.

For properties that the Company acquired prior to January 1, 2005 and expects to continue to own through December 31, 2006, the Company anticipates the following same store results for the full year ending December 31, 2006:

2006 Same Store Assumptions

Physical Occupancy	94.5	%
Revenue Change	4.75% to 5.75	%
Expense Change	4.25% to 5.25	%
NOI Change	4.50% to 6.50	%

These 2006 assumptions are based on current expectations and are forward-looking.

Non-same store operating results increased \$29.5 million and consist primarily of properties acquired in calendar years 2006 and 2005 as well as our corporate housing business.

Fee and asset management revenues, net of fee and asset management expenses were consistent between the periods under comparison. As of March 31, 2006 and 2005, the Company managed 14,888 units and 17,928 units, respectively, for third parties and unconsolidated entities.

Property management expenses from continuing operations include off-site expenses associated with the self-management of the Company's properties as well as management fees paid to any third party management companies. These expenses increased by approximately \$3.4 million or 15.0%. This increase is primarily attributable to higher overall payroll costs, temporary contracting costs and training costs specific to the Company's rollout of a new property management system.

Depreciation expense from continuing operations, which includes depreciation on non-real estate

Edgar Filing: EQUITY RESIDENTIAL - Form 10-Q

assets, increased \$28.4 million primarily as a result of additional depreciation expense on newly acquired properties and capital expenditures for all properties owned.

General and administrative expenses, which include corporate operating expenses, decreased approximately \$4.3 million between the periods under comparison. This decrease was primarily due to lower executive compensation expense due to severance costs for several executive officers incurred during the quarter ended March 31, 2005. The Company anticipates that general and administrative expenses will approximate \$50.0 million for the year ending December 31, 2006. This above assumption is based on current expectations and is forward-looking.

Interest and other income from continuing operations decreased by approximately \$57.1 million, primarily as a result of the \$57.1 million in cash received in the quarter ended March 31, 2005 for the Company's ownership interest in Rent.com, which was acquired by eBay, Inc.

Interest expense from continuing operations, including amortization of deferred financing costs, increased approximately \$21.9 million primarily as a result of higher variable interest rates. During the quarter ended March 31, 2006, the Company capitalized interest costs of approximately \$4.0 million as compared to \$2.9 million for the quarter ended March 31, 2005. This capitalization of interest primarily relates to consolidated projects under development. The effective interest cost on all indebtedness for the quarter ended March 31, 2006 was 6.25% as compared to 6.18% for the quarter ended March 31, 2005.

Loss from investments in unconsolidated entities increased approximately \$0.2 million between the periods under comparison. This increase is primarily the result of consolidating previously unconsolidated properties as of January 1, 2006 as the result of EITF Issue No. 04-05. See also Note 4 in the Notes to Consolidated Financial Statements for further discussion.

Net gain on sales of land parcels decreased \$10.4 million, due to a large gain recorded on the sale of one land parcel during the quarter ended March 31, 2005.

Gain on sales of discontinued operations, net of minority interests, increased approximately \$216.8 million between the periods under comparison. This increase is primarily the result of higher per unit sales prices and lower real estate net book values for properties sold during the quarter ended March 31, 2006 as compared to the same period in 2005.

Discontinued operations, net of minority interests, decreased approximately \$5.6 million between the periods under comparison. The decrease in revenues and expenses between periods results from the timing, size and number of properties sold. Any property sold after March 31, 2005 will include a full period's results in the first quarter of 2005 but minimal to no results in the first quarter of 2006. See Note 13 in the Notes to Consolidated Financial Statements for further discussion.

Liquidity and Capital Resources

As of January 1, 2006, the Company had approximately \$88.8 million of cash and cash equivalents and \$780.8 million available under its revolving credit facilities (net of \$50.2 million which was restricted/dedicated to support letters of credit and not available for borrowing). After taking into effect the various transactions discussed in the following paragraphs and the net cash provided by operating activities, the Company's cash and cash equivalents balance at March 31, 2006 was approximately \$86.8 million and the amount available on the Company's revolving credit facility was \$790.5 million (net of \$64.5 million which was restricted/dedicated to support letters of credit and not available for borrowing).

During the quarter ended March 31, 2006, the Company generated proceeds from various transactions, which included the following:

- Disposed of 25 properties and various individual condominium units, receiving net proceeds of

approximately \$811.2 million;

- Obtained \$395.5 million in net proceeds from the issuance of \$400.0 million of ten and one-half year 5.375% fixed rate public notes and terminated six forward starting swaps designated to hedge the note issuance, receiving net proceeds of \$10.7 million;
- Obtained \$168.8 million in new mortgage financing; and
- Issued approximately 0.9 million Common Shares and received net proceeds of \$25.5 million.

During the quarter ended March 31, 2006, the above proceeds were primarily utilized to:

- Invest \$34.8 million primarily in development projects;
- Acquire 11 properties and two land parcels, utilizing cash of \$444.9 million;
- Repurchase 1.0 million Common Shares utilizing cash of \$44.8 million;
- Repay \$148.0 million of mortgage loans; and
- Redeem the Series G Preference Interests at a liquidation value of \$25.5 million.

Depending on its analysis of market prices, economic conditions, and other opportunities for the investment of available capital, the Company may repurchase its Common Shares pursuant to its existing share buyback program authorized by the Board of Trustees. The Company repurchased \$44.8 million (1,019,800 shares at an average price per share of \$43.89) of its Common Shares during the quarter ended March 31, 2006 to offset the issuance of 661,962 OP Units in connection with a property acquisition and to partially offset restricted shares granted in February 2006. The Company is authorized to repurchase approximately \$540.2 million of additional Common Shares.

The Company expects to meet its short-term liquidity requirements, including capital expenditures related to maintaining its existing properties and certain scheduled unsecured note and mortgage note repayments, generally through its working capital, net cash provided by operating activities and borrowings under its revolving credit facilities. The Company considers its cash provided by operating activities to be adequate to meet operating/capital requirements and payments of distributions. The Company also expects to meet its long-term liquidity requirements, such as scheduled unsecured note and mortgage debt maturities, property acquisitions and financing of construction and development activities through the issuance of unsecured notes and equity securities, including additional OP Units, and proceeds received from the disposition of certain properties. In addition, the Company has significant unencumbered properties available to secure additional mortgage borrowings in the event that the public capital markets are unavailable or the cost of alternative sources of capital is too high. The fair value of and cash flow from these unencumbered properties are in excess of the requirements the Company must maintain in order to comply with covenants under its unsecured notes and line of credit. Of the \$16.7 billion in investment in real estate on the Company's balance sheet at March 31, 2006, \$10.7 billion or 64.1%, was unencumbered.

The Operating Partnership has a revolving credit facility with potential borrowings for up to \$1.0 billion. This facility matures in May 2008 and may, among other potential uses, be used to fund property acquisitions, costs for certain properties under development and short term liquidity requirements. As of May 3, 2006, \$220.0 million was outstanding under this facility.

See Note 16 in the Notes to Consolidated Financial Statements for discussion of the events which occurred subsequent to March 31, 2006.

Capitalization of Fixed Assets and Improvements to Real Estate

Our policy with respect to capital expenditures is generally to capitalize expenditures that improve the value of the property or extend the useful life of the component asset of the property. We track improvements to real estate in two major categories and several subcategories:

- Replacements (*inside the unit*). These include:
 - carpets and hardwood floors;
 - appliances;
 - mechanical equipment such as individual furnace/air units, hot water heaters, etc;
 - furniture and fixtures such as kitchen/bath cabinets, light fixtures, ceiling fans, sinks, tubs, toilets, mirrors, countertops, etc;
 - flooring such as vinyl, linoleum or tile; and
 - blinds/shades.

All replacements are depreciated over a five-year estimated useful life. We expense as incurred all make-ready maintenance and turnover costs such as cleaning, interior painting of individual units and the repair of any replacement item noted above.

- Building improvements (*outside the unit*). These include:
 - roof replacement and major repairs;
 - paving or major resurfacing of parking lots, curbs and sidewalks;
 - amenities and common areas such as pools, exterior sports and playground equipment, lobbies, clubhouses, laundry rooms, alarm and security systems and offices;
 - major building mechanical equipment systems;
 - interior and exterior structural repair and exterior painting and siding;
 - major landscaping and grounds improvement; and
 - vehicles and office and maintenance equipment.

All building improvements are depreciated over a five to ten-year estimated useful life. We capitalize building improvements and upgrades only if the item: (i) exceeds \$2,500 (selected projects must exceed \$10,000); (ii) extends the useful life of the asset; and (iii) improves the value of the asset.

For the quarter ended March 31, 2006, our actual improvements to real estate totaled approximately \$51.4 million. This includes the following detail (amounts in thousands except for unit and per unit amounts):

**Capitalized Improvements to Real Estate

- (1) Total units exclude 10,846 unconsolidated units and 3,672 military housing (fee managed) units.
- (2) Wholly Owned Properties acquired prior to January 1, 2004.
- (3) Wholly Owned Properties acquired during 2004, 2005 and 2006. Per unit amounts are based on a weighted average of 22,237 units.
- (4) Includes properties either Partially Owned or sold during the period, commercial space, condominium conversions and \$2.2 million included in building improvements spent on eight specific assets related to major renovations and repositioning of these assets.

The Company expects to fund approximately \$127.0 million for capital expenditures for replacements and building improvements for all consolidated properties, exclusive of condominium conversion properties, for the remainder of 2006. This includes an average of approximately \$1,000 per unit for capital improvements for established properties.

During the quarter ended March 31, 2006, the Company's total non-real estate capital additions, such as computer software, computer equipment, and furniture and fixtures and leasehold improvements to the Company's property management offices and its corporate offices, were approximately \$1.6 million. The Company expects to fund approximately \$9.2 million in total additions to non-real estate property for the remainder of 2006.

Improvements to real estate and additions to non-real estate property were funded from net cash provided by operating activities.

Derivative Instruments

In the normal course of business, the Company is exposed to the effect of interest rate changes. The Company limits these risks by following established risk management policies and procedures including the use of derivatives to hedge interest rate risk on debt instruments.

The Company has a policy of only entering into contracts with major financial institutions based upon their credit ratings and other factors. When viewed in conjunction with the underlying and offsetting exposure that the derivatives are designed to hedge, the Company has not sustained a material loss from those instruments nor does it anticipate any material adverse effect on its net income or financial position in the future from the use of derivatives.

See Note 11 in the Notes to Consolidated Financial Statements for additional discussion of derivative instruments at March 31, 2006.

Other

Minority Interests as of March 31, 2006 decreased by \$19.3 million when compared to December 31, 2005. The primary factors that impacted this account in the Company's consolidated statements of operations and balance sheets during the quarter ended March 31, 2006 were:

- The redemption or conversion of 0.7 million Series G and H Preference Interests with a combined liquidation value of \$35.0 million and a premium on redemption of \$0.7 million (see Note 3 in the Notes to Consolidated Financial Statements for further discussion);
- Distributions declared to Minority Interests, which amounted to \$8.8 million (excluding Junior Preference Unit and Preference Interest distributions);
- The allocation of income from operations to holders of OP Units in the amount of \$26.0 million;
- The issuance of 661,962 OP Units for the acquisition of one property with a valuation of \$27.9 million; and
- The conversion of 0.8 million OP Units into Common Shares.

Total distributions paid in April 2006 amounted to \$146.6 million (excluding distributions on Partially Owned Properties), which included certain distributions declared during the first quarter ended March 31, 2006.

On March 2, 2006, the Company announced that it has retained JP Morgan to assist in the possible sale of its Lexford Housing division. As of May 3, 2006, the division is currently comprised of 289 properties consisting of 26,118 apartment units located in ten states and a property management business located in Columbus, Ohio. Exploration of a sale does not mandate that a sale or other transaction will follow. The Company's Board of Trustees has not approved any specific transaction.

Off-Balance Sheet Arrangements and Contractual Obligations

The Company has co-invested in various properties that are unconsolidated and accounted for under the equity method of accounting. Management does not believe these investments have a materially different

impact upon the Company's liquidity, capital resources, credit or market risk than its property management and ownership activities. The nature and business purpose of these ventures are as follows:

- **Institutional Ventures** During 2000 and 2001, the Company entered into ventures with an unaffiliated partner. At the respective closing dates, the Company sold and/or contributed 45 properties containing 10,846 units to these ventures and retained a 25% ownership interest in the ventures. The Company's joint venture partner contributed cash equal to 75% of the agreed-upon equity value of the properties comprising the ventures, which was then distributed to the Company. The Company's strategy with respect to these ventures was to reduce its concentration of properties in a variety of markets.

As of March 31, 2006, the Company has six projects totaling 1,711 units in various stages of development with estimated completion dates ranging through June 30, 2008. The development agreements currently in place are discussed in detail in Note 14 of the Company's Consolidated Financial Statements.

See also Notes 2 and 6 in the Notes to Consolidated Financial Statements for additional discussion regarding the Company's investments in partially owned entities.

The Company's contractual obligations for the next five years and thereafter have not changed materially from the amounts and disclosures included in its annual report on Form 10-K, other than as it relates to scheduled debt maturities. See the updated debt maturity schedule included in Liquidity and Capital Resources for further discussion.

Critical Accounting Policies and Estimates

The Company has identified six significant accounting policies as critical accounting policies. These critical accounting policies are those that have the most impact on the reporting of our financial condition and those requiring significant judgments and estimates. With respect to these critical accounting policies, management believes that the application of judgments and assessments is consistently applied and produces financial information that fairly presents the results of operations for all periods presented. The six critical accounting policies are:

Impairment of Long-Lived Assets, Including Goodwill

The Company periodically evaluates its long-lived assets, including its investments in real estate and goodwill, for indicators of permanent impairment. The judgments regarding the existence of impairment indicators are based on factors such as operational performance, market conditions, expected holding period of each asset and legal and environmental concerns. Future events could occur which would cause the Company to conclude that impairment indicators exist and an impairment loss is warranted.

Depreciation of Investment in Real Estate

The Company depreciates the building component of its investment in real estate over a 30-year estimated useful life, building improvements over a 5-year to 10-year estimated useful life and both the furniture, fixtures and equipment and replacements components over a 5-year estimated useful life, all of which are judgmental determinations.

Cost Capitalization

See the *Capitalization of Fixed Assets and Improvements to Real Estate* section for discussion of the policy with respect to capitalization vs. expensing of fixed asset/repair and maintenance costs. In addition, the Company capitalizes the payroll and associated costs of employees directly responsible for

and who spend all of their time on the supervision of major capital and/or renovation projects. These costs are reflected on the balance sheet as an increase to depreciable property.

The Company follows the guidance in SFAS No. 67, *Accounting for Costs and Initial Rental Operations of Real Estate Projects*, for all development projects and uses its professional judgment in determining whether such costs meet the criteria for capitalization or must be expensed as incurred. The Company capitalizes interest, real estate taxes and insurance and payroll and associated costs for those individuals directly responsible for and who spend all of their time on development activities, with capitalization ceasing no later than 90 days following issuance of the certificate of occupancy. These costs are reflected on the balance sheet as construction in progress for each specific property. The Company expenses as incurred all payroll costs of on-site employees working directly at our properties, except as noted above on our development properties prior to certificate of occupancy issuance and on specific major renovation at selected properties when additional incremental employees are hired.

Fair Value of Financial Instruments, Including Derivative Instruments

The valuation of financial instruments under SFAS No. 107 and SFAS No. 133 and its amendments (SFAS Nos. 137/138/149) requires the Company to make estimates and judgments that affect the fair value of the instruments. The Company, where possible, bases the fair values of its financial instruments, including its derivative instruments, on listed market prices and third party quotes. Where these are not available, the Company bases its estimates on current instruments with similar terms and maturities or on other factors relevant to the financial statements.

Revenue Recognition

Rental income attributable to leases is recorded when due from residents and is recognized monthly as it is earned, which is not materially different than on a straight-line basis. Leases entered into between a resident and a property for the rental of an apartment unit are generally year-to-year, renewable upon consent of both parties on an annual or monthly basis. Fee and asset management revenue and interest income are recorded on an accrual basis.

Stock-Based Compensation

The Company accounts for its stock-based compensation in accordance with SFAS No. 123(R), *Share-Based Payment*, effective January 1, 2006, which results in compensation expense being recorded based on the fair value of the stock compensation granted.

Funds From Operations

For the quarter ended March 31, 2006, Funds From Operations (FFO) available to Common Shares and OP Units decreased \$55.4 million, or 24.1%, as compared to the quarter ended March 31, 2005. This decrease is primarily attributable to approximately \$57.1 million of other income recognized in 2005 related to eBay, Inc.'s acquisition of the Company's interest in Rent.com.

The following is a reconciliation of net income to FFO available to Common Shares and OP Units for the quarters ended March 31, 2006 and 2005:

Funds From Operations

*(Amounts in thousands)**(Unaudited)*

	Quarter Ended March 31,	
	2006	2005
Net income	\$ 377,815	\$ 227,039
Allocation to Minority Interests Operating Partnership, net	1,201	5,426
Adjustments:		
Depreciation	143,590	115,231
Depreciation Non-real estate additions	(1,844)	(1,294)
Depreciation Partially Owned and Unconsolidated Properties	1,550	(250)
Net gain on sales of unconsolidated entities	(329)	(124)
Discontinued operations:		
Depreciation	3,181	13,837
Gain on sales of discontinued operations, net of minority interests	(347,953)	(131,136)
Net incremental gain on sales of condominium units	7,127	13,482
Minority Interests Operating Partnership	211	631
FFO (1)(2)	184,549	242,842
Preferred distributions	(10,095)	(13,025)
FFO available to Common Shares and OP Units	\$ 174,454	\$ 229,817

(1) *The National Association of Real Estate Investment Trusts (NAREIT) defines funds from operations (FFO) (April 2002 White Paper) as net income (computed in accordance with accounting principles generally accepted in the United States (GAAP)), excluding gains (or losses) from sales of depreciable property, plus depreciation and amortization, and after adjustments for unconsolidated partnerships and joint ventures. Adjustments for unconsolidated partnerships and joint ventures will be calculated to reflect funds from operations on the same basis. The April 2002 White Paper states that gain or loss on sales of property is excluded from FFO for previously depreciated operating properties only. Once the Company commences the conversion of units to condominiums, it simultaneously discontinues depreciation of such property.*

(2) *The Company believes that FFO is helpful to investors as a supplemental measure of the operating performance of a real estate company, because it is a recognized measure of performance by the real estate industry and by excluding gains or losses related to dispositions of depreciable property and excluding real estate depreciation (which can vary among owners of identical assets in similar condition based on historical cost accounting and useful life estimates), FFO can help compare the operating performance of a company s real estate between periods or as compared to different companies. FFO in and of itself does not represent net income or net cash flows from operating activities in accordance with GAAP. Therefore, FFO should not be exclusively considered as an alternative to net income or to net cash flows from operating activities as determined by GAAP or as a measure of liquidity. The Company s calculation of FFO may differ from other real estate companies due to, among other items, variations in cost capitalization policies for capital expenditures and, accordingly, may not be comparable to such other real estate companies.*

Such shares were issued in reliance on an exemption from registration under Section 4(2) of the Securities Act of 1933, as amended, and the rules and regulations promulgated thereunder, as these were transactions by an issuer not involving a public offering.
