Report of Independent Registered Public Accounting Firm

To the Audit Committee of Overstock.com, Inc.

Overstock.com 401(k) Plan

We have audited the accompanying statements of net assets available for benefits of Overstock.com 401(k) Plan as of December 31, 2005 and 2004, and the related statement of changes in net assets available for benefits for the year ended December 31, 2005. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of Overstock.com 401(k) Plan as of December 31, 2005 and 2004, and the changes in net assets available for benefits for the year ended December 31, 2005, in conformity with U.S. generally accepted accounting principles.

Our audits were conducted for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplemental schedules of (1) assets (held at end of year) as of December 31, 2005, and (2) delinquent participant contributions as of December 31, 2005, are presented for purposes of additional analysis and are not a required part of the basic financial statements, but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. These supplemental schedules are the responsibility of the Plan's management, have been subjected to the auditing procedures applied in the audits of the basic financial statements and, in our opinion, are fairly stated in all material respects in relation to the basic financial statements taken as a whole.

As discussed in Note 8 of the basic financial statements, the December 31, 2004 statement of net assets available for benefits has been restated.

401(k) PLAN

Notes to Financial Statements

Note 1 Plan Description

The following is a general description of the Overstock.com 401(k) Plan (the "Plan"). Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General The Plan is a defined contribution plan which was originally adopted by Overstock.com, Inc. (the "Company" or "Plan Sponsor") in 1998 and has been amended from time to time since that date. Participation in the Plan is open to all eligible employees of the Company (individually, "Participant" and collectively, "Participants"). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Trustee The Plan has engaged Fidelity Management Trust Company (the "Trustee") as Trustee to the Plan and all Plan assets are held in trust with the Trustee. The Plan has also engaged Fidelity Investments Institutional Operations Corporation, Inc. (the "Recordkeeper") which provides recordkeeping and administrative services to the Plan.

Eligibility Employees are eligible to participate in the Plan upon meeting the following criteria: (1) six months of service; and (2) 21 years of age. Employees of acquired companies, who meet the eligibility requirements of the Plan, may participate immediately upon acquisition. There were 516 and 361 participants in the Plan as of December 31, 2005 and 2004, respectively.

Contributions Participants may contribute 50 percent of their annual compensation on a before-tax basis, provided the amounts do not exceed the annual limit imposed by the Internal Revenue Service ("IRS"). Such contributions are withheld by the Company from each Participant's compensation and deposited with the Trustee to be applied to the appropriate fund in accordance with the Participant's directives. The Company contributes a discretionary matching percentage of these contributions subject to certain limitations. For the years ended December 31, 2005 and 2004, the Company matched 50 percent of participant contributions up to 6 percent of their annual compensation.

The Company also matches, at its sole discretion, an annual profit sharing contribution. The Company made a profit sharing contribution of \$341,968 and \$232,499, for the years ended December 31, 2005 and 2004, respectively.

Participant contributions and company matching contributions made on behalf of highly compensated employees may be limited pursuant to non-discrimination rules set forth in the Plan document and the Internal Revenue Code of 1986, as amended (the "Code").

Participant Accounts Separate accounts are maintained for each Participant and each Participant's account is credited with the Participant's contribution, and an allocation of the Company's matching contribution and discretionary profit sharing contribution. Plan earnings are allocated to each Participant's account in proportion to the average daily balance in each fund option. The Company's discretionary matching contribution to date has been invested both in money market funds during 2004 and in common stock of the Plan Sponsor during 2005. The investment in common stock of the Plan Sponsor is considered non-participant-directed.

Note 2 Significant Accounting Policies

Method of Presentation The accompanying financial statements have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America (GAAP). The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at December 31, 2005 and 2004, and the reported amounts of additions to and deductions from net assets for the year ended December 31, 2005. Actual results could differ from those estimates.

Risks and Uncertainties The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risk. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participant accounts balances and the amounts reported in the statements of net assets available for benefits and changes in net assets available for benefits.

Investment Valuation The Plan's investments are stated at fair market value and measured daily based on quoted market prices. Investments in the various investment funds are reported at fair value as measured by Fidelity Management Trust Company at December 31, 2005 and 2004, based on net asset value of shares held by the Plan at year-end.

Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date.

Net Appreciation (Depreciation) in Fair Value The Plan presents in the Statement of Changes in Net Assets Available for Benefits the net appreciation (depreciation) in the fair value of its investments, which consists of realized gains and losses and unrealized appreciation (depreciation) on investments.

Contributions Participant contributions are recorded in the period during which the Company makes payroll deductions from participants' earnings. Company matching contributions are recorded in the same period. Company profit sharing contributions are accrued in the period for which they are authorized and are paid out in the following period.

Benefits Benefits are recorded when paid.
