SIGNATURES

Throughout this report the first personal plural pronoun in the nominative case form "we" and its objective case form "us", its possessive and the intensive case forms "our" and "ourselves" and its reflexive form "ourselves", refer collectively to Precis, Inc., its subsidiaries, and their executive officers and directors.

PART I. FINANCIAL INFORMATION

ITEM 1. FINANCIAL STATEMENTS (UNAUDITED)

Our financial statements which are prepared in accordance with Regulation S-X are set forth in this report beginning on page 17.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The following discussion is qualified in its entirety by the more detailed information in our 2005 Annual Report on Form 10-K and the financial statements contained in this report, including the notes thereto, and our other periodic reports filed with the Securities and Exchange Commission since December 31, 2005 (collectively referred to as the Disclosure Documents). Certain forward-looking statements contained in this report and in the Disclosure Documents regarding our business and prospects are based upon numerous assumptions about future conditions that may ultimately prove to be inaccurate and actual events and results may materially differ from anticipated results described in the forward-looking statements. Our ability to achieve these results is subject to the risks and uncertainties discussed in our Form 10-K. Any forward-looking statements contained in this report represent our judgment as of the date of this report. We disclaim, however, any intent or obligation to update these forward-looking statements. As a result, the reader is cautioned not to place undue reliance on these forward-looking statements.

CONSUMER HEALTHCARE SAVINGS SOLUTIONS.

We offer savings on healthcare services throughout the United States to persons who are under-insured. These savings are offered by accessing the same preferred provider organizations (PPOs) that are utilized by many insurance companies. These programs are sold through a network marketing strategy under the name Care Entrée™ and through third party marketers under their own brand names. We design these programs to benefit healthcare providers as well as the network members. Providers commonly give reduced or preferred rates to PPO networks in exchange for steering of patients. However, the providers must still file claim forms and wait 30 to 60 days to be paid for their services. Our programs utilize these same networks to obtain the same savings for the Care Entrée™ program members. However, the healthcare providers are paid immediately for their services and are not required to file claim forms. We provide transaction facilitation services to both the program member and the healthcare provider.

Our Independent Marketing Representatives (IMRs) may enroll as representatives by paying an enrollment fee and signing a standard representative agreement. We pay independent marketing representatives commissions of 100% of the membership fees in the month of a membership sale for the members they enroll. After the month of membership sales, we pay independent marketing representatives 20% of the membership fees of members they enroll for the life of that members' enrollment. Independent marketing representatives can also recruit other representatives and earn override commissions on sales made by those recruited representatives. We pay a total of up to 35% in override commissions down through seven levels. In the month of membership sales, no override commissions are paid to the representative's upline. In addition, we have established bonus pools that allow independent marketing representatives who have achieved certain levels to receive additional commissions measured by our revenues attributable to the Care Entrée™ programs. The total regular or ongoing commission payout, including overrides on monthly membership sales after the enrollment month and our contribution to the bonus pools, is up to 60% of qualified membership sales.

We also design healthcare membership programs for employer groups and third party marketers. Memberships in these programs are offered and sold by direct marketing through direct sales or in-bound direct marketing. We believe that our clients, their members and the vendors of the products and services offered through the programs, all benefit from our membership service programs. The products and services are bundled, priced and marketed utilizing relationship marketing strategies or inbound direct marketing to target the profiled needs of the clients' particular member base. Our memberships sold by third-party organizations are generally marketed using the third-party's name or brand or under our wholesale brand For Your Good Health. We refer to these programs and membership sales as wholesale programs or private label programs. While the services offered to consumers by these private label programs are generally similar to the services we offer through Care Entrée™, each of the private label programs can bundle our services to fit the needs of their consumers.

Edgar Filing: PRECIS INC - Form 10-Q

In the third quarter of 2005, we began offering nutraceuticals, consisting of vitamins, minerals and other nutritional supplements, under the Natrience brand. Nutraceutical sales commenced in late September 2005, but were immaterial through June 30, 2006. Effective June 30, 2006, we discontinued its operations and wrote off the assets of this division.

3

EMPLOYER AND GROUP HEALTHCARE SERVICES

For governments and other large, self-funded employers seeking to reduce the cost of offering healthcare benefits to their employees, we offer a streamlined version of our healthcare products and programs. In these cases, we offer access to healthcare through our network of providers and the efficient repricing of bills through our proprietary systems. We can offer these services on a price based on either the number of participants per month or as a percentage of savings on healthcare costs actually realized. With our acquisition of Access HealthSource, Inc. (Access) in June 2004, we provide a wide range of healthcare claims administration services and other cost containment procedures that are frequently required by governments and other employers who have chosen to self fund their healthcare benefits requirements. With the services of Access, we offer a more complete suite of healthcare services. Access primary area of expertise is in the public sector market.

FINANCIAL SERVICES

Through our subsidiary, Care Financial of Texas, L.L.C. (Care Financial), we offer high deductible and scheduled benefit insurance policies, life insurance and annuities. The high deductible and scheduled benefit insurance policies offer affordable, well-rounded solutions for individuals and employers who are no longer able to afford or obtain traditional health insurance policies. Commission revenue related to these policies was \$24,000 during the second quarter of 2006. The insurance policies are sold through our independent marketing representatives who are licensed insurance agents and other licensed agents who are not Care Entrée independent marketing representatives that are now managed by an outside agency on an independent contractor basis. Additionally, we offer health savings accounts (HSAs), Healthcare Reimbursement Arrangements (HRAs) and medical and dependent care Flexible Spending Accounts (FSAs) through Care125, a division of Access. Our Care125 services allow employers to offer additional benefits to their employees and give employees additional tools to manage their healthcare and dependent care expenses. Our Care125 programs and our medical savings programs can be sold together by agents and brokers with whom we have contracted to offer a more complete benefit package to employers.

INSURACO LETTER OF INTENT

As announced on June 12, 2006, we entered into a non-binding letter of intent with Insurance Capital Management USA, Inc. and Insuraco USA, L.L.C. for the proposed acquisition of Insuraco USA, L.L.C. We are in the due diligence stage of our acquisition of Insuraco USA, L.L.C. and its subsidiaries (Insuraco), awaiting completion of the audit of its 2005, 2004 and 2003 financial statements and progressing with the preparation of the merger agreement and other related agreements. We anticipate that the acquisition of Insuraco USA, L.L.C. in the 2006 fourth quarter following our shareholders approval of the acquisition at our 2006 annual shareholders meeting.

CRITICAL ACCOUNTING POLICIES

Revenue Recognition

Healthcare Membership Revenues

We recognize our Care Entrée program membership revenues, other than initial enrollment fees, on each monthly anniversary date. Membership revenues are reduced by the amount of estimated refunds. For members that are billed directly, the billed amount is collected almost entirely by automated clearinghouse, electronic check or by electronic charge to the members credit cards. The settlement of those charges occurs within a day or two. Under certain private label arrangements, our private label partners bill their members for the membership fees and our portion of the membership fees is periodically remitted to us. During the time from the billing of these private-label membership fees and the remittance to us, we record a receivable from the private label partners and record an estimated allowance for uncollectible amounts. The allowance of uncollectible receivables is based upon review of the aging of outstanding balances, the credit worthiness of the private label partner and its history of paying the agreed amounts owed.

Membership enrollment fees, net of direct costs, are deferred and amortized over the estimated membership period that averages eight to ten months. Independent marketing representative fees, net of direct costs, are deferred and amortized over the term of the applicable contract. Judgment is involved in the allocation of costs to determine the direct costs netted against those deferred revenues, as well as in estimating the membership period over which to amortize such net revenue. We maintain a statistical analysis of the costs and membership periods as a basis for adjusting these estimates from time to time.

Access Third Party Administration

Edgar Filing: PRECIS INC - Form 10-Q

Access principal sources of service revenues include administrative fees for third party claims administration, network provider fees for the preferred provider network and utilization and management fees. These fees are based on monthly or per member per month fee schedules under specified contractual agreements. Revenues from these services are recognized in the periods in which the services are performed and when collection is reasonably assured.

Commission Expense

Commissions are paid to our independent marketing representatives in the month following the month in which a member has enrolled in our Care Entrée program. Commissions are paid in the month following the month in which we receive the related monthly membership fees. We do not pay advanced commissions on membership sales. Commissions are based on established commission schedules and are determined and accrued based upon the recognition of the related healthcare membership revenue, as described above.

4

Fixed Assets

Property and equipment are carried at cost less accumulated depreciation and amortization. Depreciation and amortization are provided using the straight-line method over the estimated useful lives of the related assets for financial reporting purposes. Leasehold improvements are depreciated using the straight-line method over the shorter of their estimated useful lives or the lease term.

The estimation of useful lives is based, in part, upon past experience with similar assets and upon our plans for the utilization of the assets in the future. We periodically review fixed assets, including software, whenever events or changes in circumstances indicate that their carrying amounts may not be recoverable or their depreciation or amortization periods should be accelerated. When any value impairment is determined to exist, the related assets are written down to their fair market value. If we determine that the remaining useful life, based upon known events and circumstances, should be shortened, the depreciation or amortization of the related asset is adjusted on a prospective, going-forward basis based upon the shortened useful lives.

Intangible Asset Valuation

Our intangible assets as of June 30, 2006, consist primarily of goodwill of \$13,072,000. Goodwill represents the excess of acquisition costs over the fair value of net assets acquired. Goodwill is not amortized. Additionally, intangible assets include \$1,190,000 of contracts, net of amortization, acquired as part of our acquisition of Access. During the year ended December 31, 2005, our intangible assets were reduced by \$12,900,000 to reflect the impairment of goodwill related to our acquisition of The Capella Group, Inc. and its Care Entrée program in 2001.

Income Taxes

Income taxes are provided for the tax effects of transactions reported in the financial statements and consist of taxes currently due plus deferred taxes related primarily to differences between the basis of assets and liabilities for financial and income tax reporting. The net deferred tax assets and liabilities represent the future tax return consequences of those differences, which will either be taxable or deductible when the assets and liabilities are recovered or settled. During the three months ended June 30, 2006, we evaluated the probability of recognizing the benefit of deferred tax assets through the reduction of taxes otherwise payable in the future and recorded a \$51,000 adjustment to our deferred tax asset valuation allowance to offset a corresponding increase in deferred tax assets. In our opinion, it is more probable than not that the net assets will be realized.

Recent Accounting Pronouncements

Edgar Filing: PRECIS INC - Form 10-Q

In December 2004, the Financial Accounting Standards Board (*FASB*) issued Statement of Financial Accounting Standard SFAS No. 123(R), Share-Based Payment, *SFAS* 123(R) a revision to SFAS No. 123, Accounting for Stock-Based Compensation. SFAS 123(R) eliminates the alternative to record compensation expense using the intrinsic value method of accounting under Accounting Principles Board Opinion 25 (Opinion 25) that was provided in SFAS No. 123 as originally issued.

Under Opinion 25, issuing stock options to employees generally resulted in the recognition of no compensation cost if the options were granted with an exercise price equal to their fair value at the date of grant. SFAS 123(R) requires companies to measure and record the cost of employee services received in exchange for an award of equity instruments based on the fair value of the award at the date of grant (with limited exceptions). That cost will be recognized over the period during which an employee is required to provide service in exchange for the award (usually the vesting period). No compensation cost is recognized for equity instruments for which employees do not render the requisite service.

We adopted the modified version of the prospective application of SFAS 123(R) as of January 1, 2006. Under SFAS 123(R), we are required to recognize compensation expense, over the applicable vesting period, based on the fair value of (1) any unvested awards subject to SFAS 123(R) existing as of January 1, 2006, and (2) any new awards granted subsequent to the adoption date. See Note 2, Stock Based Compensation in the Notes of our Unaudited Condensed Consolidated Financial Statements appearing elsewhere in this Report for the effect of adoption on our consolidated financial statements. The effect of this adoption is a stock-based compensation expense of \$27,000 and \$17,000 for first quarter and second quarter 2006, respectively.

5

Results of Operations

Consumer Healthcare Savings

As discussed above, our Consumer Healthcare Savings segment, our largest segment, offers savings on healthcare services to persons who are un-insured, under-insured, or who have elected to purchase only high deductible or limited benefit medical insurance policies, by providing access to the same preferred provider organizations (PPOs) that are utilized by many insurance companies and employers who self-fund at least a portion of their employee's healthcare risk. These programs are sold primarily through a network marketing strategy and private label programs. The operating results for our Consumer Healthcare Savings segment were as follows:

	For the Three Months Ended June 30,				For the Six Months Ended June 30,			
	2006 (Dollars in Thousands)	2005	Dollar Change	Percent Change	2006 (Dollars in Thousands)	2005	Dollar Change	Percent Change

Revenues. Our Care Entrée™ Consumer Healthcare Savings programs have been under continuing pressure from increasing competition and regulatory scrutiny, as well as the unwillingness of some healthcare providers to accept our savings cards based on concerns over assurance of payment. In late 2002, we implemented an escrow account requirement to address provider concerns over assurance of payment. While this feature has shown success in improving healthcare provider acceptance, it has made our programs more complex and difficult to sell. As of June 30, 2006, the percentage of our individual members who had made escrow deposits was approximately 38% of the total individual healthcare membership base. This excludes our private label programs, where the escrow features have not been mandated. In some of the states in which we have a significant number of members, especially Florida, Texas, Illinois, and California, our healthcare savings products are under scrutiny and criticism by state regulators and officials. To address these concerns, we have voluntarily removed the escrow features from our programs in California and Illinois and expect to remove this feature from programs in other states in the near future. In addition, administration of the escrow program in Florida has been modified so that the failure to deposit money into the escrow does not restrict Care Entrée members from seeing a provider. This regulatory scrutiny has impaired our ability to market these products in those states and elsewhere, further contributing to the decline in membership enrollments and increases in terminated memberships. We are currently evaluating alternative products which we may be able to offer in the future in place of the products with escrow features. The table below reflects the decline in our Care Entrée™ Consumer Healthcare Savings program membership over the preceding two years:

	Care Entrée Membership (Count at End of Quarter)							
	3rd Qtr 2004	4th Qtr 2004	1st Qtr 2005	2nd Qtr 2005	3rd Qtr 2005	4th Qtr 2005	1st Qtr 2006	2nd Qtr 2006
Member count	63,840	56,955	51,895	46,514	41,958	37,952	37,281	35,823
Percent change	-14.44	% -10.78	% -8.88	% -10.37	% -9.79	% -9.55	% -1.77	% -3.91
Average revenue per member, net of sales and marketing costs	\$ 25.69	\$ 25.02	\$ 25.70	\$ 26.24	\$ 26.16	\$ 24.03	\$ 23.86	\$ 22.54

During the second quarter of 2006, the decline in our member count increased primarily due to decreases in IMR sales offset by resumption of sales from a major private label in January. This trend resulted in a drop in average revenue per member, net of sales and marketing costs, for second quarter 2006. Sales from private label programs have a lower gross profit margin than those of IMR s.

Although the implementation of escrow requirements negatively impacted our membership base and consequently our revenues and net earnings in 2004 and 2005, the escrow requirements were necessary to provide some assurance of payment to the healthcare providers and, accordingly, their continued willingness to provide healthcare services to our members. This strategic move was critical to our long-term operational and financial viability in the health care savings market, as many healthcare providers throughout the United States will no longer accept a health discount card. We are currently exploring additional alternatives that may address the healthcare providers' concerns related to assurance of payment and that may be better received by potential members as well as our current members. In conjunction with our due diligence and strategic planning associated with our planned acquisition of Insuraco, a Fort Worth, Texas company providing web-based technology, specialty products and marketing for the insurance and financial services industry, which we disclosed in our Form 8-K filed on June 13, 2006, we have accelerated our development and evaluation of new products intended to provide access to affordable healthcare for consumers, while reducing costs associated with providing such products.

Members' escrow or cash-in-trust declined to \$4,631,024 as of June 30, 2006 from \$5,585,000 as of December 31, 2005, primarily for the termination of the Care Entrée program escrow feature in California.

Cost of Operations. For the three-month period ending June 30, 2006 and 2005, the decrease in cost of operations was primarily due to a reduction of fixed costs of \$379,000 primarily related to reduced personnel costs and termination of certain equipment leases, described above, as well as decreased variable costs of \$252,000 primarily due to decreased provider network and bank fees related to decreased revenue in our Consumer Healthcare Savings segment.

For the six-month period ending June 30, 2006 and 2005, the decrease in cost of operations was primarily due to a reduction of fixed costs of \$868,000 primarily related to reduced personnel costs and termination of certain equipment leases, described above, as well as decreased variable costs of \$668,000 primarily due to decreased provider network and bank fees related to decreased revenue in our Consumer Healthcare Savings segment.

Sales and Marketing Expenses. The decrease in sales and marketing expenses from the second quarter of 2005 to the second quarter of 2006 was primarily due to the decrease in commissions related to the decreased membership revenue of the Care Entrée™ program. The commission decrease was accentuated by the departure of independent marketing representatives from the upper ranks of our multi-level marketing network through which our Care Entrée™ program is offered and elimination of the associated over-ride commissions, resulting in a lower percentage of commissions as a percent of revenue. The decrease was partially offset by an increase in consulting and other marketing costs of \$298,000 for the three month period ending June 30, 2006 and \$541,000 for the six month period of 2006 related to our Care Entrée™ sales and marketing initiatives. Increases in sales and marketing as a percentage of revenue for the three and six months of 2006 are primarily due to increases in our direct marketing and new product testing activities.

General and Administrative Expenses. The decrease in general and administrative expenses from 2005 to 2006 and as a percentage of revenues is primarily due to the continued cost reduction measures that began in 2005.

Employer and Group Healthcare Services

The primary element of our Employer and Group Healthcare Services segment is our wholly-owned subsidiary, Access. Access provides a wide range of healthcare claims administration services and other cost containment procedures that are frequently required by governments and other large employers who have chosen to self-fund their healthcare benefits requirements. The operating results for our Employer and Group Healthcare Services segment were as follows:

	For the Three Months Ended June 30,				For the Six Months Ended June 30,			
	2006 (Dollars in Thousands)	2005	Dollar Change	Percent Change	2006 (Dollars in Thousands)	2005	Dollar Change	Percent Change
Revenues	\$ 1,943	\$ 2,126	\$ (183)	-8.6 %	\$ 3,859	\$ 4,219	\$ (360)	-8.5 %
Operating expenses:								
Cost of operations	1,231	1,333	(102)	-7.7 %	2,382	2,589	(207)	-8.0 %

Total operating expenses	1,532	1,707	(175)	-10.3 %	3,007	3,294	(287)	-8.7 %
Operating income	\$ 411	\$ 419	\$ (8)	-1.9 %	\$ 852	\$ 925	\$ (73)	-7.9 %

	For the Three Months			For the Six Months		
	Ended June 30,			Ended June 30,		
	2006	2005		2006	2005	
Percent of Revenues	100.0	% 100.0	%	100.0	% 100.0	%
Operating expenses:						
Cost of operations	63.3	% 62.7	%	61.7	% 61.4	%
Sales and marketing	7.9	% 9.4	%	8.3	% 9.2	%
General and administrative	7.6	% 8.2	%	7.9	% 7.5	%
Total operating expenses	78.8	% 80.3	%	77.9	% 78.1	%
Operating income	21.2	% 19.7	%	22.1	% 21.9	%

Certain prior period amounts have been reclassified to conform to the current period's financial presentation.

Revenues. The primary element of our Employer and Group Healthcare Services segment is our wholly-owned subsidiary, Access HealthSource, Inc. (Access), which we acquired in June 2004, through which we offer full-third party administration services. Through Access we provide a wide range of healthcare claims administration services and other cost containment procedures that are frequently required by state and local governmental entities and other large employers that have chosen to self fund their required healthcare benefits. Also through Access, we provide employee group's access to preferred provider networks, medical escrow accounts and full third-party administration capabilities to adjudicate and pay medical claims.

The decline in Employer and Group Healthcare Services' revenues from the second quarter of 2006 to the second quarter of 2005 was due to the loss, in late 2005, of a significant customer.

Cost of Operations. Cost of operations for the Employer and Group Healthcare Services segment decreased primarily as a result of decrease in revenues discussed above.

Sales and Marketing. Sales and marketing expenses of the Employer and Group Healthcare Services for the three and six months ended June 30, 2006 decreased primarily due to a decrease in commissions related to a decrease in new

clients and a decrease in public relations costs.

General and Administrative. General and administrative costs for the Employer and Group Healthcare Services segment decreased primarily due to legal fees incurred during 2005 for a one-time contract audit request.

8

Financial Services

During second quarter 2006, we reduced the costs associated with this segment, as we moved toward an agency arrangement that will substantially reduce our fixed operating costs and discontinued the consulting arrangement related to the management of the insurance sales force. These efforts continued through the end of second quarter 2006 and have resulted in significantly lower operating losses for our financial services segment.

The operating results for our Financial Services segment were as follows:

	For the Three Months Ended June 30,				For the Six Months Ended June 30,			
	2006 (Dollars in Thousands)	2005	Dollar Change	Percent Change	2006 (Dollars in Thousands)	2005	Dollar Change	Percent Change

Certain prior period amounts have been reclassified to conform to the current period's financial presentation.

General and Administrative Expenses. The decrease in general and administrative expenses during the second quarter of 2006 comparable to second quarter of 2005 is due to a \$800,000 charge resulting from severance compensation

payable to former officers in the second quarter of 2005. The decrease for the six months ended is somewhat offset by increased audit, audit-related and tax fees and new stock-based compensation expense in 2006.

Impairment of Goodwill. In 2005 we recorded an impairment loss related to The Capella Group, Inc., and its Care Entrée™ program of \$9,900,000. This impairment charge was not allocated to the Consumer Healthcare Savings operations.

9

Income Tax Provision

SFAS 109, *Accounting for Income Taxes*, requires the separate recognition, measured at currently enacted tax rates, of deferred tax assets and deferred tax liabilities for the tax effect of temporary differences between the financial reporting and tax reporting bases of assets and liabilities, and net operating loss carry forward balances for tax purposes. A valuation allowance must be established for deferred tax assets if it is more likely than not that all or a portion will not be realized. At June 30, 2006 and December 31, 2005, we had deferred tax assets of \$326,000 and \$275,000, respectively, and deferred tax liabilities of \$326,000 and \$275,000, respectively, primarily resulting from net operating loss carry-forward that if not utilized will expire at various dates through 2020. We evaluate the probability of recognizing the benefit of deferred tax assets through the reduction of taxes otherwise payable in the future and provide an allowance against the carrying amount of such deferred tax assets if it is more probable than not that some or all of the assets will not be realized.

During the second quarter of 2006, we were successful in obtaining a franchise tax ruling letter from the Texas Office of the Comptroller that confirmed our position to apportion income from non-Texas resident members to other states thereby reducing our overall Texas franchise tax obligations for the years 2001 and forward. The ruling allowed us to claim a refund of Texas franchise taxes previously paid of \$350,000 and reduce our franchise taxes payable by \$209,000. These adjustments are included in the 2006 second quarter's provision for income taxes benefit, net of expense, of \$461,000.

Liquidity and Capital Resources

Operating Activities. Net cash provided by operating activities for the three months ended June 30, 2006 and 2005 was \$1,257,000 and \$909,000, respectively. The increase of \$348,000 is due primarily to a federal income tax refund of \$994,000, related to our year-end income tax reduction strategies, offset by payments of franchise tax, accounts payable and accrued expenses of \$620,000. The increase in net cash provided by operating activities for the six months of 2006 as compared to the same period of 2005 of \$843,000 is primarily related to federal income tax refund received in the second quarter. The second quarter decrease for accounts payable and accrued payments were, for the most part, offset by the use of prepaid expenses of \$870,000 that were incurred at year-end as part of our income tax reduction strategies.

Investing Activities. Net cash used in investing activities for the three months ended June 30, 2006 and 2005 was \$214,000 and \$687,000, respectively. The decrease of \$473,000 is related to our acquisition of Access (including earned contingent, purchase price consideration paid and delivered) of \$560,000 in the second quarter of 2005, offset by an increase in fixed assets purchases of \$87,000 related to Access' office relocation in June of 2006. The increase in net cash used in investing activities for the six months of 2006 as compared to the same period of 2005 of \$237,000 is related to Access' acquisition earned contingency payments of \$624,000 during the first quarter, offset by the changes occurring during the second quarter, as previously discussed. No cash or common stock consideration was required to be conveyed during the second quarter relative to the Access acquisition.

Financing Activities. Net cash used in financing activities for the three months ended June 30, 2006 was \$68,000, compared to \$362,000 for the three months ended June 30, 2005. The decrease of \$294,000 is related to the completion of the authorized repurchase of treasury stock of \$205,000 in 2005 and lower net payments on capital lease obligations by \$89,000. The decrease in cash used in financing activities for the six months of 2006 from the same period of 2005 of \$673,000 is also related to the treasury stock purchases in 2005 and net lower payments on capital lease obligations.

At June 30, 2006, March 31, 2006 and December 31, 2005, we had working capital of \$5,205,000, \$5,260,000 and \$4,692,000, respectively. This increase in working capital from December 31, 2005 to June 30, 2006 is due primarily to liquidation of accrued Access purchase price consideration liability by the issue of common stock value at \$521,000.

Other than our \$343,000 capital lease obligations and our potential payment and delivery obligations associated with the Access acquisition (which are indeterminable as of the date of this report), we do not have any capital commitments. We anticipate that our capital expenditures for 2006 will not exceed the amount incurred during 2005. We believe that our existing cash and cash equivalents, and cash provided by operations,

Edgar Filing: PRECIS INC - Form 10-Q

will be sufficient to fund our normal operations and capital expenditures for the next 12 months. Because our capital requirements cannot be predicted with certainty, there is no assurance that we will not require any additional financing during the next 12 months, and if required, that any additional financing will be available on terms acceptable to us or advantageous to our stockholders.

10

Cautionary Statement Relating to Forward Looking Information

We have included some forward-looking statements in this section and other places in this report regarding our expectations. These forward-looking statements involve known and unknown risks, uncertainties and other factors that may cause our actual results, levels of activity, performance or achievements, or industry results, to be materially different from any future results, levels of activity, performance or achievements expressed or implied by these forward-looking statements. Some of these forward-looking statements can be identified by the use of forward-looking terminology including believes, expects, may, will, should or anticipates or the negative thereof or other variations thereof, comparable terminology, or by discussions of strategies that involve risks and uncertainties. You should read statements that contain these words carefully because they:

Discuss our future expectations;

Contain projections of our future operating results or of our future financial condition; or

State other forward-looking information.

We believe it is important to discuss our expectations; however, it must be recognized that events may occur in the future over which we have no control and which we are not accurately able to predict. Readers are cautioned to consider the specific business risk factors described in our Annual Report on Form 10-K for the fiscal year ended December 31, 2005 and not to place undue reliance on the forward-looking statements contained herein, which speak only as of the date hereof. We undertake no obligation to publicly revise forward-looking statements to reflect events or circumstances that may arise after the date hereof.

ITEM 3.

QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

PART II **OTHER INFORMATION**

ITEM 1. **LEGAL PROCEEDINGS**

In the normal course of business, we may become involved in litigation or in settlement proceedings relating to claims arising out of our operations. Except as described below, we are not a party to any legal proceedings, the adverse outcome of which, individually or in the aggregate, could have a material adverse effect on our business, financial condition and results of operations.

Kirk, et al v. Precis, Inc. and David May

On September 8, 2003, the case styled *Robert Kirk, Individually and D/B/A US Asian Advisors, LLC, Eugene M. Kennedy, P.A., Stewart & Associates, CPAs, P.A. and Kimberly Decamp, Plaintiffs vs. Precis, Inc. and David May, Defendants* was initiated in the District Court of Tarrant County, Texas, Case No. 236 201 468 03. The plaintiffs Robert Kirk (doing business as US Asian Advisors, LLC or U.S. Asian Capital Investors, LLC and recently convicted of securities fraud and related crimes), Kimberly Decamp and Stewart & Associates, CPAs, P.A. held warrants exercisable for the purchase of 9,000, 48,000 and 4,000 shares, respectively, of our common stock for \$9.00 per share on or before February 8, 2005. The plaintiffs Eugene M. Kennedy, P.A. and Kimberly Decamp held stock options that expired on June 30, 2003, and that were exercisable for 15,000 and 170,000 shares, respectively, of our common stock for \$9.37 per share. David May was our Secretary and Vice President and General Counsel through January 5, 2004.

The plaintiffs alleged that they were not allowed to exercise their stock options and warrants in May 2003 due to actions and inactions of Mr. May and that these actions and inactions constitute fraud, misrepresentation, negligence and legal malpractice. All communications with Mr. May were through the plaintiffs' broker, Burt Martin Arnold Securities, Inc. Plaintiffs sought damages equal to the difference between the exercise price of the stock options or warrants and the market value of our common stock on May 7, 2002 (presumably the closing sale price of \$15.75) or an aggregate sum of \$1,592,050, plus exemplary damages and costs.

On July 13, 2005, the court entered a judgment in our favor ordering that the plaintiffs take nothing by way of their lawsuit. The order set aside a previous jury verdict in favor of the plaintiffs. The plaintiffs have appealed the judgment. While we cannot offer any assurance as to the outcome of the appeal, we believe that there exists no basis on which the judgment in our favor will be overturned.

Zermeno v. Precis

The case styled *Manuela Zermeno, individually and on behalf of the general public; and Juan A. Zermeno, individually and on behalf of the general public vs. Precis, Inc., an Oklahoma corporation and Does 1 through 100, inclusive* was filed on August 14, 2003 in the Superior Court of the State of California for the County of Los Angeles.

A second case styled *California Foundation for Business Ethics, Inc., a California non-profit corporation, v Precis, Inc., and Does 1 through 100, inclusive* was filed on September 9, 2003, in the Superior Court of the State of California for the County of Los Angeles.

The two above cases were removed to the United States District Court for the Central District of California and consolidated, by order of the court, on December 4, 2003.

The Zermeno plaintiffs are former members of the Care Entrée discount health care program who allege that they (for themselves and for the general public) are entitled to injunctive, declaratory, and equitable relief. Plaintiffs' First Amended Complaint set forth three distinct claims under California law. Plaintiffs' first cause of action alleged that the operation of our Care Entrée program violates Health and Safety Code § 445 (Section 445), that governs medical referral services. Next, Plaintiffs alleged that they are entitled to damages under Civil Code §§ 1812.119 and 1812.123, which are part of the broader statutory scheme governing the operation of discount buying organizations, Civil Code 1812.100 *et seq.* (Section 1812.100). Plaintiffs' third cause of action sought relief under Business and Professions Code § 17200, California's Unfair Competition Law (Section 17200).

We fully settled all the claims brought by the California Foundation for Business Ethics, Inc. With the Zermeno plaintiffs, we settled the causes of action related to Civil Code §§ 1812.100. The claim under Section 445 and the related claim under Section 17200 remain pending and have been assigned to the Superior Court of California, Los Angeles County under case number BC 300788. A negative result in this case would have a material effect on the Company's financial condition and would limit our ability (and that of other healthcare discount programs) to do business in California.

ITEM 3.

QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Edgar Filing: PRECIS INC - Form 10-Q

Management believes that we have complied with all applicable statues and regulations in the state of California. Although management believes the Plaintiffs' claims are without merit, we cannot provide any assurance regarding the outcome or results of this litigation.

13

State of Texas v. The Capella Group, Inc. et al

The State of Texas filed a lawsuit against our subsidiary, The Capella Group, Inc. d/b/a Care Entrée and Equal Access Health, Inc. (including various names under which Equal Access Health, Inc. does business) on April 28, 2005. Equal Access Health is a third party marketer of our discount medical card programs, but is otherwise not affiliated with our subsidiaries or us. The lawsuit alleges that Care Entrée directly and through at least one other party that resells Care Entrée's services to the public, violated certain provisions of the Texas Deceptive Trade Practices Consumer Protection Act. The lawsuit seeks, among other things, injunctive relief, unspecified monetary penalties and restitution. We believe that the allegations are without merit and are vigorously defending this lawsuit. The lawsuit was filed in the 98th District Court of Travis County, Texas, as case number GV501264. Management believes that the allegations are without merit and we are vigorously defending the lawsuit. We have always insisted that our programs be sold in an honest and forthright manner and have worked to protect the interests of consumers in Texas and all states. Unfavorable findings against us in this lawsuit could have a material adverse effect on our financial condition and results of operations. No assurance can be provided regarding the outcome or results of this litigation.

Action by the California Department of Managed Health Care

The California Department of Managed Health Care (the DMHC) is responsible for the administration and enforcement of the Knox-Keene Health Care Service Act of 1975 (the Knox-Keene Act), a set of laws that regulate health maintenance organizations or HMOs and impose licensing requirements on those organizations. This licensing process is in part to ensure that the financial resources of the HMO are sufficient to cover the cost of providing the promised healthcare. In 2001 the DMHC issued an interpretive opinion (the Zingale Opinion) that concluded that the healthcare discount programs, like those offered and sold by our subsidiary The Capella Group, Inc. d/b/a Care Entrée, are not similar to insurance programs that the Knox-Keene Act is intended to regulate and therefore the Knox-Keene Act does not apply to healthcare discount programs. The DMHC rescinded that opinion in 2005.

In 2005, the DMHC initiated an investigation to determine the applicability of the Knox-Keene Act to the membership programs we offer and sell to California residents through Capella. In July 2005, the DMHC issued a Cease and Desist Order, finding that Capella's Care Entrée discount program is subject to the licensing requirements and regulation under the Knox-Keene Act, under the jurisdiction of the DMHC. We agree with and relied upon the Zingale Opinion. Accordingly, Capella contested such order in an administrative proceeding with the DMHC that is currently pending as Case No.: DMHC No.:04-312; OAH No.: N2005-10-0840. The cease and desist order remains stayed. On July 13, 2006, the Administrative Law Judge hearing Capella's appeal issued a Proposed Decision, concluding, among things, that the cease and desist order be upheld in part, and modified in part. While the Administrative Law Judge found that Capella was entitled to rely on the Zingale Opinion and therefore should not be penalized for its activities prior to the DMHC's rescission of the Zingale Opinion in 2005, the judge found that the Knox-Keene Act does apply to Capella's membership programs and the DMHC does have jurisdiction over such programs.

Under California law, the DMHC may accept or reject the Proposed Decision in whole or in part. It has not taken any action and the Proposed Decision remains pending.

On October 18, 2005, Capella initiated in the Superior Court of the State of California, County of Los Angeles Case No. BC341633 styled *The Capella Group, Inc., d/b/a/Care Entrée v. California Department of Managed Health Care; Lucinda Ehnes, in her official capacity; and Does 1-20 inclusive*. Lucinda Ehnes is the Director of the California Department of Managed Health Care (the DMHC). Capella subsequently dismissed the lawsuit to allow exhaustion of the application administrative remedies. The dismissal of Capella's lawsuit was without prejudice and preserving Capella's rights to refile the lawsuit if necessary.

Findings against Capella in the administrative action or findings against Capella and in favor of the DMHC and its Director in any lawsuit filed by Capella against the DMHC and its director as a result of the administrative action could have a material adverse effect on our financial condition, operations in California and overall results of operations.

PRECIS, INC.
NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

Note 1 Interim Financial Information

Edgar Filing: PRECIS INC - Form 10-Q

The accompanying condensed consolidated financial statements are unaudited, but include all adjustments (consisting only of normal recurring adjustments) which are, in the opinion of management, necessary for a fair presentation of the financial position at such dates and of the operations and cash flows for the periods then ended. The financial information is presented in a condensed format, and it does not include all of the footnote disclosure normally included in financial statements prepared in accordance with accounting principles generally accepted in the United States of America. Operating results for the three months ended June 30, 2006 and 2005 are not necessarily indicative of results that may be expected for the entire year. The preparation of financial statements requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities and reported amounts of revenues and expenses during the reporting periods under consideration. Actual results could differ materially from such assumptions and estimates. The accompanying condensed consolidated financial statements and related footnotes should be read in conjunction with the Company's audited financial statements, included in its December 31, 2005 Form 10-K filed with the Securities and Exchange Commission. Certain prior period amounts have been reclassified to conform to the current period's presentation.

Recent Accounting Pronouncements

Edgar Filing: PRECIS INC - Form 10-Q

In December 2004, the Financial Accounting Standards Board (*FASB*) issued Statement of Financial Accounting Standard (*SFAS*) No. 123(R), *Share-Based Payment*, (*SFAS 123(R)*) a revision to SFAS No. 123, *Accounting for Stock-Based Compensation*. *SFAS 123(R)* eliminates the alternative to record compensation expense using the intrinsic value method of accounting under Accounting Principles Board Opinion 25 (Opinion 25) that was provided in SFAS No. 123 as originally issued.

Under Opinion 25, issuing stock options to employees generally resulted in the recognition of no compensation cost if the options were granted with an exercise price equal to their fair value at the date of grant. *SFAS 123(R)* requires companies to measure and record the cost of employee services received in exchange for an award of equity instruments based on the fair value of the award at the date of grant (with limited exceptions). That cost will be recognized over the period during which an employee is required to provide service in exchange for the award (usually the vesting period). No compensation cost is recognized for equity instruments for which employees do not render the requisite service.

In April 2005, the Securities and Exchange Commission changed the effective date of *SFAS 123(R)* to fiscal years starting after June 15; however, early application was encouraged. The Company adopted the modified version of the prospective application of *SFAS 123(R)* as of January 1, 2006 under which the Company is required to recognize compensation expense, over the applicable vesting period, based on the fair value of (1) any unvested awards subject to *SFAS 123(R)* existing as of January 1, 2006, and (2) any new awards granted subsequent to the adoption date. Refer to Note 2, *Common Stock Options* for the effect of adoption on the Company's consolidated financial statements.

Note 2 Common Stock Options

Adoption of SFAS 123(R)

Effective January 1, 2006, the Company adopted the fair value recognition provisions of *SFAS 123(R)* using the modified prospective transition method. In addition, the Securities and Exchange Commission issued Staff Accounting Bulletin No. 107 *Share-Based Payment* (*SAB 107*) in March, 2005, which provides supplemental *SFAS 123(R)* application guidance based on the views of the SEC. Under the modified prospective transition method, compensation cost recognized in the three months ended June 30, 2006 includes: (a) compensation cost for all share-based payments granted prior to, but not yet vested as of January 1, 2006, based on the grant date fair value estimated in accordance with the original provisions of SFAS No. 123, and (b) compensation cost for all share-based payments granted beginning January 1, 2006, based on the grant date fair value estimated in accordance with the provisions of *SFAS 123(R)*. In accordance with the modified prospective transition method, results for prior periods have not been restated.

The adoption of *SFAS 123(R)* resulted in stock compensation expense for the three-months and six-months ended June 30, 2006 of \$17,000 and \$27,000, respectively, which was recorded to general and administrative expenses. This expense did not result in a change to earnings per share.

The Binomial Lattice option-pricing model was used to estimate the option fair values. The option-pricing model requires a number of assumptions, of which the most significant are, expected stock price volatility, the expected pre-vesting forfeiture rate and the risk-free interest rate. Expected volatility was calculated based upon actual historical stock price movements over the most recent periods ending June 30, 2006 equal to the expected option term. Expected pre-vesting forfeitures were estimated based on actual historical pre-vesting forfeitures over the most recent periods ending June 30, 2006 for the expected option term. The risk-free interest rate is based on interest rate of zero-coupon United States Treasury securities over the expected option term.

Our prior pro-forma presentations used the Black-Scholes option pricing model. If we had continued to use the Black-Scholes model the effect on the recorded expense would have been immaterial.

Prior to the adoption of SFAS 123(R), the Company presented any tax benefits of deductions resulting from the exercise of stock options within operating cash flows in the condensed consolidated statements of cash flow. SFAS 123(R) requires tax benefits resulting from tax deductions in excess of the compensation cost recognized for those options (excess tax benefits) to be classified and reported as both an operating cash outflow and a financing cash inflow upon adoption of SFAS 123(R).

Pro-Forma Stock Compensation Expense for the Quarterly Period Ended June 30, 2005

For the three-months and six-months ended June 30, 2005, the Company applied the intrinsic value method of accounting for stock options as prescribed by APB 25. Since all options granted during the three-months and six-months ended June 30, 2005 had an exercise price equal to the closing market price of the underlying common stock on the grant date, no compensation expense was recognized. If compensation expense had been recognized based on the estimated fair value of each option granted in accordance with the provisions of SFAS 123 as amended by SFAS 148, our net loss and net loss per share would have been reduced to the following pro-forma amounts (in thousands, except per share amounts):

	For the Three Months Ended June 30, 2005	For the Six Months Ended June 30, 2005
Loss from continuing operations	\$ (10,849)	\$ (10,904)
Deduct: Total stock-based compensation expense determined under fair value based method for all awards, net of related tax effects	(51)	(101)
	(10,900)	(11,005)
Earning from discontinued operations	23	27
Net loss pro forma	\$ (10,877)	\$ (10,978)
Loss per share:		
Basic as reported		
From continuing operations	\$ (0.90)	\$ (0.90)
From discontinued operations	\$ 0.00	\$ 0.00
Basic pro-forma		
From continuing operations	\$ (0.90)	\$ (0.91)
From discontinued operations	\$ 0.00	\$ 0.00
Diluted as reported		
From continuing operations	\$ (0.90)	\$ (0.90)
From discontinued operations	\$ 0.00	\$ 0.00
Diluted pro-forma		
From continuing operations	\$ (0.90)	\$ (0.91)
From discontinued operations	\$ 0.00	\$ 0.00

Pro-forma compensation expense under SFAS 123, among other computational differences, does not consider potential pre-vesting forfeitures. Because of these differences, the pro-forma stock compensation expense presented above for the three-months and six-months ended June 30, 2005 under SFAS 123 and the stock compensation expense recognized during the current three-months and six-months ended June 30, 2006 under SFAS 123(R) are not directly comparable. In accordance with the modified prospective transition method of SFAS 123(R), the prior comparative quarterly results have not been restated.

Stock Options as of Six Months Ended June 30, 2006

1999 Stock Option Plan.

For the benefit of our employees, directors and consultants, we have adopted the Précis Smart Card Systems, Inc. 1999 Stock Option Plan (the "stock option plan" or the "plan"). The plan provides for the issuance of options intended to qualify as incentive stock options for federal income tax purposes to our employees and non-employees, including employees who also serve as our directors. Qualification of the grant of options under the plan as incentive stock options for federal income tax purposes is not a condition of the grant and failure to so qualify does not affect the ability to exercise the stock options. The number of shares of common stock authorized and reserved for issuance under the plan is 1,400,000.

Our board of directors administers and interprets the plan (unless delegated to a committee) and has authority to grant options to all eligible participants and determine the types of options granted, the terms, restrictions and conditions of the options at the time of grant.

The exercise price of options may not be less than 85% of the fair market value of our common stock on the date of grant of the option and to qualify as an incentive stock option may not be less than the fair market value of common stock on the date of the grant of the incentive stock option. Upon the exercise of an option, the exercise price must be paid in full, in cash, in our common stock (at the fair market value thereof) or a combination thereof.

Options qualifying as incentive stock options are exercisable only by an optionee during the period ending three months after the optionee's employment termination. However, in the event of death or disability of the optionee, the incentive stock options are exercisable for one year following death or disability and in the event of the retirement of the optionee, the Board of Directors may designate an additional period for exercise. In any event options may not be exercised beyond the expiration date of the options. Options may be granted to our key management employees, directors, key professional employees or key professional non-employee service providers, although options granted non-employee directors do not qualify as incentive stock options. No option may be granted after December 31, 2008. Options are not transferable except by will or by the laws of descent and distribution.

All outstanding unvested options granted under the plan will become fully vested and immediately exercisable if (i) within any 12-month period, we sell an amount of common stock that exceeds 50% of the number of shares of common stock outstanding immediately before the 12-month period or (ii) a change of control occurs. For purposes of the plan, a change of control is defined as the acquisition in a transaction or series of transactions by any person, entity or group (two or more persons acting as a partnership, limited partnership, syndicate or other group for the purpose of acquiring our securities) of beneficial ownership of 50% or more (or less than 50% as determined by a majority of our directors) of either the then outstanding shares of our common stock or the combined voting power of our then outstanding voting securities.

2002 Non-Employee Stock Option Plan.

Effective May 31, 2002 our board of directors approved the Précis, Inc. 2002 Non-Employee Stock Option Plan (the "2002 Stock Option Plan"), which was approved by our stockholders on July 29, 2002. Our employees who also serve as our directors are not eligible to receive stock option under this plan. The purpose of the 2002 Stock Option Plan is to strengthen our ability to attract and retain the services of individuals that serve as our non-employee directors, consultants and other advisors that are essential to our long-term growth and financial success and thereby to enhance stockholder value through the grant of stock options. The total number of shares of common stock authorized and reserved for issuance upon exercise of options granted under the 2002 Stock Option Plan is 500,000.

Our Board of Directors administers and interprets the 2002 Stock Option Plan and has authority to grant options to eligible recipients and determine the basis upon which the options are to be granted and the terms, restrictions and conditions of the options at the time of grant. Options granted are exercisable in such amounts, at such intervals and upon such terms as the option grant provides. The per share purchase price of the common stock under the options is determined by our board of directors; however, the purchase price may not be less than the closing sale price of our common stock on the date of grant of the option. Upon the exercise of an option, the stock purchase price must be paid in full, in cash by check or in our common stock held by the option holder for more than six months or a combination of cash and common stock.

Edgar Filing: PRECIS INC - Form 10-Q

Options granted under the 2002 Stock Option Plan may not under any circumstance be exercised after 10 years from the date of grant and no option may be granted after March 31, 2007. Options are not transferable except by will, by the laws of descent and distribution, by gift or a domestic relations order to a family member. Family member transfers include transfers to parents (and in-laws), to nieces and nephews (adopted or otherwise) as well as trusts, foundations and other entities principally for their benefit.

Expired options are returned to the Plan as they expire and again become available for grant. Incentive stock options have a five-year term and non-qualified stock options have a five-year term. A majority of the stock options vest 25% on the first anniversary date of the grant and 25% each anniversary date thereafter, with the remaining stock options vesting immediately on the grant date. As of June 30, 2006, all outstanding options were incentive stock options.

For the quarterly periods ended June 30, 2006 and 2005, the Company did not grant any options to non-employee directors under the 1999 Option Plan or the 2002 Non-Employee Stock Option Plan.

The following table summarizes stock options outstanding and changes during the six-month period ended June 30, 2006:

	Outstanding Options		Weighted Average Remaining Contractual Term (in years)	Aggregate Intrinsic Value
	Number of Shares	Weighted Average Exercise Price		
Options outstanding at January 1, 2006	1,301,354	\$ 3.48	N/A	N/A
Granted				
Exercised				
Canceled or forfeited	(20,000)			
Options outstanding at June 30, 2006	1,281,354	\$ 3.50	2.13	\$ 73,760
Options exercisable at June 30, 2006	901,604	\$ 3.82	2.13	\$ 50,360

The total intrinsic value, or the difference between the exercise price and the market price on the date of exercise is \$0 since no options were exercised during the quarterly period ended June 30, 2006. The Company will record such deductions to deferred tax assets and/or additional paid in capital when realized. Shares available for grant under the 1999 Option Plan as of June 30, 2006 were 718,750. None were available under the 2002 Non-Employee Stock Option Plan.

Stock options outstanding and currently exercisable at June 30, 2006 are as follows:

Range of Exercise Prices	Options Outstanding		Options Exercisable		
	Number of Options Outstanding	Weighted Average Remaining Contractual Life (in years)	Weighted Average Exercise Price	Number of Options Exercisable	Weighted Average Exercise Price
\$ 1.05 1.75	212,000	3.72	\$ 1.32	127,000	\$ 1.25
1.75 3.55	590,566	2.15	\$ 2.81	389,316	\$ 2.85
3.55 5.25	348,550	1.74	\$ 4.34	255,050	\$ 4.49
5.25 above	130,238	0.50	\$ 7.90	130,238	\$ 7.90
	1,281,354			901,604	

Total estimated unrecognized compensation cost from unvested stock options as of June 30, 2006 was approximately \$84,335, which is expected to be recognized over a weighted average period of approximately 1.35 years.

The average per share fair value of stock options granted during the quarterly periods ending June 30, 2006 and 2005 was \$0.00 and \$.48 respectively. The fair value was estimated as of the grant date using the Black-Scholes option-pricing model in 2005 with the following assumptions:

Three Months Ended June 30

Note 3 Earnings Per Share

The Company's earnings per share data was computed as follows:

(Dollars in Thousands, Except Earnings Per Share)	For the Three Months Ended		For the Six Months Ended	
	June 30, 2006	2005	June 30, 2006	2005
Basic loss per share				
Earnings (loss) from continuing operations	\$ 360	\$ (10,849)	\$ 571	\$ (10,904)
(Loss) earnings from discontinued operations, net of taxes	(539)	23	(789)	27
Net loss	\$ (179)	\$ (10,826)	\$ (218)	\$ (10,877)
Basic earnings per share				
Weighted average number of common shares outstanding during the period	13,512,763	12,115,651	13,459,927	12,081,438
Earnings (loss) per share from continuing operations	\$.03	\$ (0.90)	\$.04	\$ (0.90)
(Loss) earnings per share from discontinued operations, net of taxes	(.04)	0.00	(.06)	0.00
Net loss per share	\$ (0.01)	\$ (.90)	\$ (0.02)	\$ (0.90)
Dilutive stock option effect per share(1)				
Weighted average number of common shares outstanding during the period-assumed conversion	13,531,302	12,134,190	13,478,466	12,099,977
Earnings (loss) per share from continuing operations	\$.03	\$ (0.90)	\$.04	\$ (0.90)
(Loss) earnings per share from discontinued operations, net of taxes	(.04)	0.00	(.06)	0.00
Net loss per share	\$ (0.01)	\$ (0.89)	\$ (0.02)	\$ (0.90)

(1) For the three-months and six-months ended June 30, 2006, there were 18,539 in-the-money shares related to outstanding stock options. The number of stock options and warrants that were considered out-of-the-money for purposes of the diluted earnings per share calculation for the three months ended June 30, 2006 and 2005 was 1,139,354 and 1,449,764, respectively.

Note 4 Contingencies

Kirk, et al v. Precis, Inc. and David May

On September 8, 2003, the case styled *Robert Kirk, Individually and D/B/A US Asian Advisors, LLC, Eugene M. Kennedy, P.A., Stewart & Associates, CPAs, P.A. and Kimberly Decamp, Plaintiffs vs. Precis, Inc. and David May, Defendants* was initiated in the District Court of Tarrant County, Texas, Case No. 236 201 468 03. The plaintiffs Robert Kirk (doing business as US Asian Advisors, LLC or U.S. Asian Capital Investors, LLC and recently convicted of securities fraud and related crimes), Kimberly Decamp and Stewart & Associates, CPAs, P.A. held warrants exercisable for the purchase of 9,000, 48,000 and 4,000 shares, respectively, of our common stock for \$9.00 per share on or before February 8, 2005. The plaintiffs Eugene M. Kennedy, P.A. and Kimberly Decamp held stock options that expired on June 30, 2003, and that were exercisable for 15,000 and 170,000 shares, respectively, of our common stock for \$9.37 per share. David May was our Secretary and Vice President and General Counsel through January 5, 2004.

The plaintiffs alleged that they were not allowed to exercise their stock options and warrants in May of 2003 due to actions and inactions of Mr. May and that these actions and inactions constitute fraud, misrepresentation, negligence and legal malpractice. All communications with Mr. May were through the plaintiffs' broker, Burt Martin Arnold Securities, Inc. Plaintiffs sought damages equal to the difference between the exercise price of the stock options or warrants and the market value of our common stock on May 7, 2002 (presumably the closing sale price of \$15.75) or an aggregate sum of \$1,592,050, plus exemplary damages and costs.

Edgar Filing: PRECIS INC - Form 10-Q

On July 13, 2005, the court entered a judgment in favor of the Company ordering that the plaintiffs take nothing by way of their lawsuit. The order set aside a previous jury verdict in favor of the plaintiffs. The plaintiffs have appealed the judgment. While the Company cannot offer any assurance as to the outcome of the appeal, management does not believe that there exists any basis on which the judgment will be overturned.

26

Zermeno v. Precis

The case styled *Manuela Zermeno, individually and on behalf of the general public; and Juan A. Zermeno, individually and on behalf of the general public vs. Precis, Inc., an Oklahoma corporation and Does 1 through 100, inclusive* was filed on August 14, 2003 in the Superior Court of the State of California for the County of Los Angeles.

A second case styled *California Foundation for Business Ethics, Inc., a California non-profit corporation, v Precis, Inc., and Does 1 through 100, inclusive* was filed on September 9, 2003, in the Superior Court of the State of California for the County of Los Angeles.

The two above cases were removed to the United States District Court for the Central District of California and consolidated, by order of the court, on December 4, 2003.

The Zermeno plaintiffs are former members of the Care Entrée discount health care program who allege that they (for themselves and for the general public) are entitled to injunctive, declaratory, and equitable relief. Plaintiffs' First Amended Complaint set forth three distinct claims under California law. Plaintiffs' first cause of action alleged that the operation of the Care Entrée program by the Company violates Health and Safety Code § 445 (Section 445), which governs medical referral services. Next, Plaintiffs alleged that they are entitled to damages under Civil Code §§ 1812.119 and 1812.123, which are part of the broader statutory scheme governing the operation of discount buying organizations, Civil Code 1812.100 *et. seq.* (Section 1812.100). Plaintiffs' third cause of action sought relief under Business and Professions Code § 17200, California's Unfair Competition Law (Section 17200).

The Company has fully settled all the claims brought by the California Foundation for Business Ethics, Inc. With the Zermeno plaintiffs, the Company has settled the causes of action related to Civil Code §§ 1812.100. The claim under Section 445 and the related claim under Section 17200 remain pending and have been assigned to the Superior Court of California, Los Angeles County under case number BC 300788. A negative result in this case would have a material affect on the Company's financial condition and would limit the Company's ability (and that of other healthcare discount programs) to do business in California.

Management believes that the Company has complied with all applicable statutes and regulations in the state of California. Although management believes the Plaintiffs' claims are without merit, management and the Company cannot provide any assurance regarding the outcome or results of this litigation.

State of Texas v. The Capella Group, Inc. et al

The State of Texas filed a lawsuit against our subsidiary, The Capella Group, Inc. d/b/a Care Entrée and Equal Access Health, Inc. (including various names under which Equal Access Health, Inc. does business), on April 28, 2005. Equal Access Health is a third party marketer of our discount medical card programs, but is otherwise not affiliated with our subsidiaries or us. The lawsuit alleges that Care Entrée directly and through at least one other party that resells Care Entrée's services to the public, violated certain provisions of the Texas Deceptive Trade Practices Consumer Protection Act. The lawsuit seeks, among other things, injunctive relief, unspecified monetary penalties and restitution. The Company believes that the allegations are without merit and will vigorously defend the lawsuit. The lawsuit was filed in the 98th District Court of Travis County, Texas, under case number GV501264. Management believes that the allegations are without merit and the Company intends on defending the lawsuit. Care Entrée has always insisted that its programs be sold in an honest and forthright manner and has worked to protect the interests of consumers in Texas and around the country. Findings against the Company in the lawsuit could result in a material adverse effect on the Company's financial condition and on the Company's operations. No assurance can be provided regarding the outcome or results of this litigation.

Action by the California Department of Managed Health Care

The California Department of Managed Health Care (the DMHC) is responsible for the administration and enforcement of the Knox-Keene Health Care Service Act of 1975 (the Knox-Keene Act), a set of laws that regulate health maintenance organizations or HMOs and impose licensing requirements on those organizations. This licensing process is in part to ensure that the financial resources of the HMO are sufficient to cover the cost of providing the promised healthcare. In 2001 the DMHC issued an interpretive opinion (the Zingale Opinion) that concluded that the healthcare discount programs, like those offered and sold by our subsidiary The Capella Group, Inc. d/b/a Care Entrée, are not similar to insurance programs that the Knox-Keene Act is intended to regulate and therefore the Knox-Keene Act does not apply to healthcare discount programs. The DMHC rescinded that opinion in 2005.

Vendor Overpayments

Edgar Filing: PRECIS INC - Form 10-Q

In the course of reviewing our processes and controls related to payments to vendors, who provide certain benefits and network access that are included in our consumer healthcare savings products, we have identified possible errors in the calculation of the number of our members for which we owe those vendors. As the result, we may have underpaid certain vendors in the past and may have overpaid certain other vendors during those same periods. At present, we believe that the aggregate amount of underpayments to vendors is immaterial. We estimate that the aggregate amount of overpayments is approximately \$490,000. However, it is uncertain that the overpaid amounts can or will be recovered and we are commencing negotiations with those vendors to resolve that uncertainty. Accordingly, no recovery of such overpayments has been accrued in the financial statements.

27

In 2005, the DMHC initiated an investigation to determine the applicability of the Knox-Keen Act to the membership programs we offer and sell to California residents through Capella. In July 2005, the DMHC issued a Cease and Desist Order, finding that Capella's Care Entrée discount program is subject to the licensing requirements and regulation under the Knox-Keene Act, under the jurisdiction of the DMHC. We agree with and relied upon the Zingale Opinion. Accordingly, Capella contested such order in an administrative proceeding with the DMHC that is currently pending as Case No.: DMHC No.:04-312; OAH No.: N2005-10-0840. The cease and desist order remains stayed. On July 13, 2006, the Administrative Law Judge hearing Capella's appeal issued a Proposed Decision, concluding, among things, that the cease and desist order be upheld in part, and modified in part. While the Administrative Law Judge found that Capella was entitled to rely on the Zingale Opinion and therefore should not be penalized for its activities prior to the DMHC's rescission of the Zingale Opinion in 2005, the judge found that the Knox-Keen Act does apply to Capella's membership programs and the DMHC does have jurisdiction over such programs.

Under California law, the DMHC may accept or reject the Proposed Decision in whole or in part. It has not taken any action and the Proposed Decision remains pending.

On October 18, 2005, Capella initiated in the Superior Court of the State of California, County of Los Angeles Case No. BC341633 styled *The Capella Group, Inc., d/b/a/Care Entree v. California Department of Managed Health Care; Lucinda Ehnes, in her official capacity; and Does 1-20 inclusive*. Lucinda Ehnes is the Director of the California Department of Managed Health Care (the DMHC). Capella subsequently dismissed the lawsuit to allow exhaustion of applicable administrative remedies. The dismissal of Capella's lawsuit was without prejudice allows Capella to refile the lawsuit.

Findings against Capella in the administrative action or findings against Capella and in favor of the DMHC and its Director in any lawsuit filed by Capella against the DMHC and its director as a result of the administrative action could have a material adverse effect on the Company's financial condition and on the Company's operations in California and overall results of operations.

Other

Edgar Filing: PRECIS INC - Form 10-Q

The Company has an unused letter of credit in the amount of \$1,500,000 obtained on commercial terms in connection with the Company's electronic payment processes. Per its letter of credit agreement the Company has have pledged \$750,000 in short-term investments and is required to maintain \$2,250,000 of unrestricted cash. The letter of credit expires June 1, 2007.

Also, the Company has a second arrangement obtained on commercial terms in connection with its electronic payment processes, whereby \$420,000 is pledged in short-term investments.

On June 18, 2004, the Company completed its acquisition of Access HealthSource, Inc. (Access) from National Center for the Employment of the Disabled for a purchase price of \$3,666,000, consisting of 488,486 shares of common stock of the Company valued at \$1,400,000 (\$2.87 per share), and \$2,000,000 in cash and acquisition cost of investment banking, valuation and legal and accounting fees of \$266,000. In addition to the purchase price consideration, there is a contingency payout should the earnings before interest, taxes, depreciation and amortization (EBITDA) of Access reach certain amounts after the closing of the transaction and before December 31, 2006. EBITDA, while not considered a measure under accounting principles generally accepted in the United States of America, is the financial measurement utilized for the basis of the contingency payout and additional purchase price payments are dependent on Access achieving certain EBITDA levels. The maximum amount of the consideration that may be paid to the seller of Access, including the closing date purchase price consideration and investment banking, valuation and legal and accounting fees is \$9,773,500. The amount of contingency payments and common stock deliveries based upon EBITDA through December 31, 2006, will be based upon a 3.22 multiple of EBITDA of Access determined on a quarterly basis, with effective adjustments as of December 31, 2004, 2005 and 2006. During the year ended December 31, 2005, Access performance resulted in an obligation to convey quarterly cash payments totaling \$2,232,000, plus the issuance of 1,656,997 common shares, valued at \$2,232,000. The number of shares issued was based upon the average trading price for the last ten days of each quarter. The Company had no obligation for additional payments as of and for the three months and six months ended June 30, 2006 because Access failed to achieve the EBITDA levels requiring additional payment and stock issuance. The cumulative purchase price, including contingent payments made or earned through June 30, 2006, was \$8,130,000. If Access achieves those EBITDA levels and that, as a result, additional contingent payouts will be made. However, the amount of payouts through December 31, 2006 is undeterminable as of June 30, 2006. The contingency payout will be accounted for as a decrease in the Company's cash and cash equivalents for the amount paid, an increase to stockholders' equity for the fair value of shares issued and a corresponding increase in goodwill for the value of the cash paid and stock issued.

Note 5 Discontinued Operations

Effective June 30, 2006, we discontinued our nutraceutical line of business, that consisted of vitamins, minerals, and other nutritional supplements under the Natricence brand. Nutraceutical sales commenced in late September 2005, but were immaterial through June 30, 2006. All assets related to this business were written off effective June 30, 2006. Any remaining liabilities of this business are considered not to be material.

Note 6 Segmented Information

The Company discloses segment information in accordance with SFAS No. 131, Disclosure About Segments of an Enterprise and Related Information, which requires companies to report selected segment information on a quarterly basis and to report certain entity-wide disclosures about products and services, major customers, and the material countries in which the entity holds assets and reports revenues. The Company has three reportable segments: Consumer Healthcare Savings, self-funded Employer and Group Healthcare Services and Financial Services. The Company's Membership Programs segment was discontinued in 2005 and is not accordingly included below. The Company's reportable segments are strategic divisions that offer different services and are managed separately as each division requires different resources and marketing strategies. Our Consumer Healthcare Savings segment, our largest segment, offers savings on healthcare services to persons who are un-insured, under-insured, or who have elected to purchase only high deductible or limited benefit medical insurance policies, by providing access to the same preferred provider organizations (PPOs) that are utilized by many insurance companies and employers who self-fund at least a portion of their employees' healthcare risk. These programs are sold primarily through a network marketing strategy. Our self-funded Employer and Group Healthcare Services segment provides a wide range of healthcare claims administration services and other cost containment procedures that are frequently required by governments and other large employers who have chosen to self-fund their healthcare benefits requirements. Our Financial Services segment provides high deductible and scheduled benefit insurance policies, life insurance and annuities and health savings accounts, healthcare reimbursement arrangements and medical and dependent care flexible spending accounts.

The accounting policies of the segments are consistent with those described in the summary of significant accounting policies in Note 2 of the Company's audited financials included in its 2005 Form Annual Report on 10-K, intersegment sales were not material and all intersegment transfers are eliminated. During 2005, the Company decreased the number of segments from four to three, excluding its corporate activities and discontinued operations.

No one customer represents more than 5% of the Company's overall revenue. Therefore, the Company does not believe it has a material reliance on any one customer. The Company operates in 47 states in the U.S. but not in any foreign countries.

The Company evaluates segment performance based on revenues and income before provision for income taxes. The Company does not allocate income taxes or unusual items to the segments.

Certain prior period amounts have been reclassified to conform to the current period's financial presentation.

Edgar Filing: PRECIS INC - Form 10-Q

The following table summarizes segment information (dollars in thousands):

For the Three Months Ended June 30, 2006	Consumer Healthcare Savings	Employer and Group Healthcare Services	Financial Services	Corporate	Continuing Operations	Discontinued Operations	Total Including Discontinued Operations
