CAUTIONARY STATEMENTS REGARDING FORWARD-LOOKING INFORMATION

Edgar Filing: ALPHA PRO TECH LTD - Form 10-K

This Annual Report on Form 10-K contains forward-looking statements that are made pursuant to the Safe Harbor provisions of the Private Securities Litigation Reform Act of 1995. Forward-looking statements involve risks, uncertainties and assumptions as described from time to time in registration statements, annual reports and other periodic reports and filings of the Company filed with the Securities and Exchange Commission. All statements, other than statements of historical facts, which address the Company's expectations of sources of capital or which express the Company's expectation for the future with respect to financial performance or operating strategies, can be identified as forward-looking statements. As a result, there can be no assurance that the Company's future results will not be materially different from those described herein as believed, anticipated, estimated or expected, which reflect the current views of the Company with respect to future events. We caution readers that these forward-looking statements speak only as of the date hereof. The Company hereby expressly disclaims any obligation or undertaking to release publicly any updates or revisions to any such statements to reflect any change in the Company's expectations or any change in events, conditions or circumstances on which such statement is based.

ITEM 1. BUSINESS

GENERAL

ALPHA PRO TECH, LTD. (the Company or Alpha Pro Tech, we, our or us) was incorporated in the State of Delaware on July 1, 1994 as a successor to a business that was organized in 1983. Our executive offices are located at 60 Centurian Drive, Suite 112, Markham Ontario, Canada L3R 9R2, and our telephone number is (905) 479-0654. Our website is located at www.alphaprotech.com. Information contained on our website is not part of this report.

BUSINESS

Alpha Pro Tech is in the business of protecting people, products and environments. We accomplish this by developing, manufacturing and marketing a line of high-value disposable protective apparel and infection control products for the cleanroom, industrial, pharmaceutical, medical and dental markets. We also manufacture and market a line of construction weatherization products for the construction, building and re-roofing markets. As well, we manufacture and distribute a line of extended care products and a line of pet beds. Our products are sold both under the Alpha Pro Tech brand name as well as under private labels.

Our products are classified into five groups: Disposable protective apparel, consisting of a complete line of shoecovers, bouffant caps, gowns, coveralls and lab coats; infection control products, consisting of a line of face masks and eye shields; construction weatherization products, consisting of house wrap and synthetic roof underlayment; extended care products, consisting of a line of medical bed pads, wheelchair covers, geriatric chair surfaces and a line of pet beds.

Our products as classified above are grouped into four business segments. The Disposable Protective Apparel segment, consisting of disposable protective apparel; the Infection Control segment, consisting of face masks and eye shields; the Extended Care segment, consisting of extended care products, namely medical bed pads and pet beds; and the Engineered Products segment, consisting of construction weatherization products such as house wrap and synthetic roof underlayment.

Edgar Filing: ALPHA PRO TECH LTD - Form 10-K

Our target markets are pharmaceutical manufacturing, bio-pharmaceutical manufacturing and medical device manufacturing, lab animal research, high technology electronics manufacturing which includes the semi-conductor market, medical and dental distributors, pet stores and pet distributors and construction supply and roofing distributors.

Our principle strategy focuses on developing, producing and marketing differentiated innovative high value products which protect people, products and environments. Our key sales growth strategies are based on a strategy of communicating directly with end users and developing innovative products to suit individual end users' needs.

Our Disposable Protective Apparel, Infection Control, Extended Care and Engineered Products segment products are used primarily in clean-rooms, laboratories, industrial safety manufacturing environments, hospitals, dental offices construction sites and pet dealers and distributors and are distributed principally in the United States through a network consisting of national and regional distributors, independent sales representatives and an internal sales and marketing force.

PRODUCTS

Our principal product groups and products include the following:

Disposable Protective Apparel:

- Shoecovers
- Bouffant caps
- Gowns
- Coveralls
- Lab coats
- Frocks

Infection Control:

- Face masks
- Eye shields

Extended Care:

- Unreal Lambskin

- Medi-Pads
- Hospital pads
- Wheelchair accessories
- Bedrail pads
- Pet beds

Engineered Products:

- House wrap
- Synthetic roof underlayment

Disposable Protective Apparel

The disposable protective apparel product line was established in 1994. The products manufactured include many different styles of shoe covers, bouffant caps, gowns, coveralls, lab coats, frocks, and other miscellaneous products. The vast majority of these products are manufactured by a third party subcontractor in China and to a much lesser extent a third party subcontractor in Mexico.

Infection Control Products (Mask and Eye Shields)

Our face masks come in a wide variety of filtration efficiencies and styles. Our patented Positive Facial Lock® feature provides a custom fit to the face to prevent blow-by for better protection. The term blow-by is used to describe the potential for infectious material entering or escaping a facemask without going through the filter, as a result of gaps or openings in the face mask. Our Magic Arch™ feature holds the mask away from the nose and mouth, creating a comfortable breathing chamber. One of our masks that incorporates both the Positive Facial Lock® feature and the Magic Arch™ feature is the N-95 Particulate Respirator facemask which was recommended by the Center for Disease Control to combat the spread of Severe Acute Respiratory Syndrome (SARS) during the outbreak of 2003.

All of the eye shields are made from an optical-grade polyester film, and have a permanent anti-fog feature. This provides the wearer with extremely lightweight, distortion-free protection that can be worn for hours and will not fog up from humidity and/or perspiration. An important feature of all eye and face shields is that they are disposable. This eliminates a chance of cross infection between patients and saves hospitals the expense of sterilization after every use.

Extended Care Products

The Extended Care product line consists of a line of Unreal Lambskin® products for the medical market. The Unreal Lambskin® (synthetic lambskin) is used to produce medical bed pads, which prevent decubitus ulcers or bedsores on long term care patients. The Unreal Lambskin® is also used to manufacture bedrail pads, knee and elbow protectors, as well as wheelchair accessories.

Included in the extended care product line is a line of pet products. The Pet Product line uses our existing Unreal Lambskin® raw material to manufacture pet products. The Unreal Lambskin® is used to produce retail pet beds.

Engineered Products

This segment consists of a line of construction supply weatherization products, namely house wrap and synthetic roof underlayment.

This line of products is a natural extension of our core capabilities: creating proprietary products designed to protect people and environments. The house wrap offers a weather resistant barrier designed to lower energy consumption costs. The proprietary synthetic roof underlayment is designed to resist the environment, as opposed to conventional roofing underlayment that is prone to rapid degradation and mold growth.

The usage of these two construction supply weatherization products offers great advantages in decreasing the time it takes to construct a home as well as offering cost reduction. The house wrap, REX Wrap®, offers a weather resistive barrier and, to the home owner, years of lower energy consumption. The proprietary synthetic roof underlayment, REX Synfelt®, has the ability to resist the environment, as opposed to conventional organic roofing underlayment that is prone to rapid degradation and mold growth.

MARKETS

Our products are sold to the following markets: Disposable protective apparel as well as the infection control products (masks and shields) are sold to the industrial market, cleanroom market, medical and dental markets; Unreal Lambskin® medical bed pads are sold to the extended care market; Pet beds are sold to the pet distributors and retailers; Construction weatherization products are sold to construction supply and roofing distributors.

Our target markets are pharmaceutical manufacturing, bio-pharmaceutical manufacturing and medical device manufacturing, lab animal research, high technology electronics manufacturing which includes the semi-conductor market, medical and dental distributors, pet stores and pet distributors and construction supply and roofing distributors.

Our products are used primarily in cleanrooms, industrial safety manufacturing environments, health care facilities such as hospitals, laboratories and dental offices, as well as construction sites. Our pet beds are used by pet owners and veterinarians. Our products are distributed principally in the United States through a network consisting of purchasing groups, national distributors, local distributors, independent sales representatives and our own sales and marketing force.

DISTRIBUTION

We rely for the sale of our products primarily on a network of independent distributors which includes the following:

- VWR International, LLC
- Primesource Building Products, Inc.
- Medline Industries, Inc.
- O Mara Products, Inc.
- Blain Supply, Inc.
- Woodford Plywood, Inc.
- Hagemeyer North America, Inc.
- Benchmark Products, Inc.
- Henry Schein, Inc.
- Quest Products, Inc.

These United States distributors, to the best of our knowledge, all sell competing products.

Sales to our largest distributor, VWR International, represented 45.1% of total sales for 2007, 45.1% for 2006 and 53.1% for 2005. We have had a contractual relationship with this distributor since 1995 and effective January 1, 2006 signed a new multiple year contract which provides optional extensions beyond the initial term of the agreement. Previously, this distributor had exclusive rights to sell and distribute Alpha Pro Tech's Critical Cover® trade named disposable protective apparel products, and exclusive rights to sell and distribute Alpha Pro Tech branded products to domestic and international clean room and industrial customers. Under terms of the new contract, this distributor has the exclusive right to sell and distribute Alpha Pro Tech's Critical Cover® trade named disposable protective apparel products, but non-exclusive rights to sell and distribute Alpha Pro Tech branded products. The loss of this distributor would have a material adverse effect on our business.

We do not generally have backlog orders, as orders are usually placed for shipment and shipped within 30 days. We anticipate no problem in fulfilling orders as they are placed.

MANUFACTURING

Our mask production facility is located in a 34,500 square foot building at 236 North 2200 West, Salt Lake City, Utah.

An 18,000 square foot facility located at 951 Todd Drive, Janesville, Wisconsin is used to manufacture our Extended Care products and consumer products including a line of pet beds and pet toys.

Our disposable protective apparel facility is located in a 60,000 square foot facility located at 1287 West Fairway Drive in Nogales, Arizona which is used for cutting, warehousing and shipping. The majority of these products are manufactured by a third party subcontractor in China and to a much lesser extent a third party subcontractor in Mexico. These goods are manufactured pursuant to our specifications and quality assurance guidelines. Certain proprietary products are being made in China using material supplied by us.

Edgar Filing: ALPHA PRO TECH LTD - Form 10-K

We have a 36,000 square foot material coating and automated shoecover facility located at 2224 Cypress Street, Valdosta, Georgia.

Our wholly-owned subsidiary, Alpha ProTech Engineered Products, Inc., which manufactures and distributes a line of construction weatherization products, primarily house wrap and synthetic roof underlayment as well as a line of antimicrobial paint, is located in a 50,000 square foot facility at 301 S. Blanchard St., Valdosta, Georgia. The house wrap and the synthetic roof underlayment is manufactured by a company in India in which the company has a 41.66% ownership.

In 2005, Alpha ProTech Engineered Products, Inc. entered into a 41.66% joint venture with Maple Industries and Associates (Maple), a manufacturer in India, for the production of house wrap and synthetic roof underlayment products. The name of the joint venture is Harmony Plastics Private Limited (Harmony). Harmony's start up funding was utilized to purchase an existing 33,000 square-foot manufacturing facility in India; this facility includes manufacturing equipment necessary to produce synthetic roof underlayment. Harmony also built a 60,000 square-foot facility for the manufacturing of house wrap and other building products.

We have multiple suppliers of the materials used to produce our products. We currently have no problems, and do not anticipate any problems, with respect to the sources and availability of the materials needed to produce our products. Our business is not subject to significant seasonal considerations. It is necessary for us to have adequate raw material and finished inventory in stock.

COMPETITION

We face substantial competition from numerous companies, including many companies with greater marketing and financial resources. Our major competitor in the medical and dental markets is Kimberly Clark of Fort Worth, Texas. Other large competitors include 3M Company, Johnson & Johnson, White Knight/Precept, Cardinal Health, Inc., and Medline Industries Inc. Our major competitors in the industrial and cleanroom market are Kimberly Clark, 3M Company, Kappler USA and Dupont. In the extended care market, Skil-care, Glenoit Mills and JT Posey Co. are our principal competitors, and in the pet products market, principal competitors include Flexmat Corporation and Lazy Pet Company. Our major competitors in the construction supply weatherization market are Dupont for house wrap and WR Grace and Interwrap for roof underlayment.

Cardinal Health, Inc. and Medline Industries Inc. are also distributors of our products.

REGULATORY REQUIREMENTS

We are not required to obtain regulatory approval from the U.S. Food and Drug Administration (FDA) with respect to the sale of our products. Our products are, however, subject to prescribed good manufacturing practices as defined by the FDA and our manufacturing facilities are inspected by the FDA every two years to ensure compliance with such good manufacturing practices. We are marketing a N-95 Particulate Respirator face mask that meets the Occupational Safety and Health Administration (OSHA) respirator guidelines and which has been approved by the National Institute for Safety and Health (NIOSH). This product is designed to help prevent the inhaling of the tuberculosis virus.

Edgar Filing: ALPHA PRO TECH LTD - Form 10-K

We do not anticipate that any federal, state or local requirements which have been or may be enacted or adopted regulating the discharge of materials into the environment, or otherwise relating to the protection of the environment, will have any material effect on the capital expenditures, earnings or competitive position of our business.

PATENTS AND TRADEMARKS

Patents

Our policy is to protect our intellectual property rights, products, designs and processes through the filing of patents in the United States and where appropriate in Canada and other foreign countries. At present, we have 17 United States patents relating to several of our products. In addition, we have a United States patent on a method to fold and put on sterile garments. We believe that our patents may offer a competitive advantage, but there can be no assurance that any patents, issued or in process, will not be circumvented or invalidated. We also rely on trade secrets and proprietary know-how to maintain and develop our commercial position.

The various United States patents issued have remaining durations of approximately 5 to 17 years before expiration.

Trademarks

Many of our products are sold under various trademarks and trade names, including Alpha Pro Tech. We believe that many of our trademarks and trade names have significant recognition in our principal markets and we take customary steps to register or otherwise protect our rights in our trademarks and trade names.

EMPLOYEES

As of February 18, 2007, we had 148 employees, including 19 people at our head office in Markham, Ontario, Canada; 18 people at our facemask production facility in Salt Lake City, Utah, 15 people at our Extended Care and pet beds production facility in Janesville, Wisconsin; 30 people at our cutting, warehouse and shipping facility in Nogales, Arizona; 17 people at our coating and automated shoecover facility in Valdosta, Georgia; 22 people at our Engineered Products facility in Valdosta, Georgia; 13 people on our sales team, a 3 person marketing staff and 11 people in China.

None of our employees are subject to collective bargaining agreements.

AVAILABLE INFORMATION

We file annual, quarterly and current reports and other information with the Securities and Exchange Commission (SEC). These materials can be inspected and copied at the SEC's Public Reference Room at 450 Fifth Street, N.W., Washington, D.C. 20549. Copies of these materials may also be obtained by mail at prescribed rates from the SEC's Public Reference Room at the above address. Information about the Public Reference Room can be obtained by calling the SEC at 1-800-SEC-0330. The SEC also maintains an Internet site that contains reports, proxy

Edgar Filing: ALPHA PRO TECH LTD - Form 10-K

and information statements, and other information regarding issuers that file electronically with the SEC. The address of the SEC's Internet site is <http://www.sec.gov>.

We make available free of charge on our Internet website (<http://www.alphaprotech.com>) our most recent Annual Report on Form 10-K, our most recent Quarterly Report on Form 10-Q, any current reports on Form 8-K filed since our most recent Annual Report on Form 10-K and any amendments to such reports as soon as reasonably practicable following the electronic filing of such report with the SEC. The past two years of news releases are also made available on our website. In addition, we provide electronic or paper copies of our filings free of charge upon request.

ITEM 2. PROPERTIES

The Company's Head Office is located at 60 Centurian Drive, Suite 112, Markham, Ontario L3R 9R2. The approximate monthly costs are \$3,100 under a lease expiring February 28, 2009. Working out of the head office are the President, Alexander Millar, Chief Executive Officer, Sheldon Hoffman and Chief Financial Officer, Lloyd Hoffman.

We manufacture our surgical face masks at 236 North 2200 West, Salt Lake City, Utah. The monthly rental is \$13,000 for 34,500 square feet. This lease expires on July 31, 2010.

A second manufacturing facility is located at 951 Todd Drive, Janesville, Wisconsin. This 18,000 square foot facility is leased for \$7,800 monthly, which includes taxes and utilities. The lease expires August 31, 2008. Our line of extended care and consumer pet bed products is manufactured at this facility.

The Apparel Division has its cutting operation, warehousing, and shipping facility at 1287 Fairway Drive, Nogales, Arizona. The monthly rental is \$15,500 for 60,000 square feet. This lease expires December 31, 2008.

The Coating and Automated Shoecover Division has its facility at 2224 Cypress Street, Valdosta, Georgia. The monthly rental is \$5,600 for 36,000 square feet. This lease expires May 30, 2010.

Our wholly-owned subsidiary, Alpha ProTech Engineered Products, Inc. is located at 301 S. Blanchard St. Valdosta, Georgia. The monthly rental is \$12,000 for 50,000 square feet. This lease expires October 31, 2009.

We believe that these arrangements are adequate for our present needs and that other premises, if required, are readily available.

ITEM 3. LEGAL PROCEEDINGS

There are no pending legal proceedings against the Company.

ITEM 4. SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS

No matter was submitted to a vote of security holders during the fourth quarter of 2007.

PART II**ITEM 5. MARKET PRICE OF AND DIVIDENDS ON THE REGISTRANT'S COMMON EQUITY AND RELATED STOCKHOLDER MATTERS****Market Information**

The Common Shares of the Company trade on the American Stock Exchange (Amex) under the symbol APT.

The high and low range of bid prices for the Common Shares of the Company traded on the American Stock Exchange (Amex) for the quarters indicated was as follows:

			Low		High
2006	First Quarter	\$	2.19	\$	3.19
	Second Quarter		2.09		2.59
	Third Quarter		1.88		2.41
	Fourth Quarter		2.15		3.00
2007	First Quarter	\$	2.50	\$	3.45
	Second Quarter		2.31		3.28
	Third Quarter		1.45		2.70
	Fourth Quarter		1.52		1.77
2008	First Quarter (through March 17, 2008)	\$	1.31	\$	1.72

As of March 17, 2008 there were 353 shareholders of record, and approximately 3,170 beneficial owners.

Dividend Policy

The holders of the Company's Common Shares are entitled to receive such dividends as may be declared by the Board of Directors of the Company from time to time to the extent that funds are legally available for payment thereof. The Company has never declared nor paid any dividends on any of its Common Shares. It is the current policy of the Board of Directors to retain any earnings to provide for the development and growth of the Company. Consequently, the Company has no intention to pay cash dividends in the foreseeable future.

ITEM 7. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

You should read the following discussion and analysis together with our selected five-year financial data, our consolidated financial statements and the notes to our consolidated financial statements, which appear elsewhere in this report.

Cautionary Statement for Forward-Looking Information

Certain information set forth in this Annual Report on Form 10-K contains forward-looking statements within the meaning of federal securities laws. Forward-looking statements include statements concerning our plans, objectives, goals, strategies, future events, future revenues or performance, capital expenditures, financing needs, plans or intentions relating to potential acquisitions and other information that is not historical information. When used in this report, the words estimates, expects, anticipates, forecasts, plans, intends, believes and variations, such words or similar expressions are intended to identify forward-looking statements. We may make additional forward-looking statements from time to time. All forward-looking statements, whether written or oral and whether made by us or on our behalf, are also expressly qualified by these cautionary statements.

Critical Accounting Policies

The preparation of our financial statements in conformity with accounting principles generally accepted in the United States of America requires us to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the dates of the financial statements and the reported amounts of net sales and expenses during the reported periods. We base estimates on past experience and on various other assumptions that are believed to be reasonable under the circumstances. The application of these accounting policies on a consistent basis enables us to provide timely and reliable financial information. Our critical accounting policies include the following:

Inventories: Inventories include freight-in, materials, labor and overhead costs and are stated at the lower of cost (computed on a standard cost basis, which approximates average cost) or market. Provision is made for slow-moving, obsolete or unusable inventory. We assess our inventory for estimated obsolescence or unmarketable inventory and write down the difference between the cost of inventory and the estimated market value based upon assumptions about future sales and supply on-hand, if necessary. If actual market conditions are less favorable than those projected by management, additional inventory write-downs may be required.

Revenue Recognition: For sales transactions, we comply with the provisions of the SEC's Staff Accounting Bulletin (SAB) No. 104, Revenue Recognition, which states that revenue should be recognized when the following revenue recognition criteria are met: (1) persuasive evidence of an arrangement exists; (2) title transfers and the customer assumes the risk of loss; (3) the selling price is fixed or determinable; and (4) collection of the resulting receivable is reasonably assured. These criteria are satisfied upon shipment of product and revenues are recognized accordingly.

Sales Returns and Rebates: Sales are reduced for any anticipated sales returns, rebates and allowances based on historical experience. Since our return policy is only 90 days and our products are not generally susceptible to external factors such as technological obsolescence or significant changes in demand, we are able to make a reasonable estimate for returns. We offer end-user product specific and sales volume rebates to select

distributors. Our rebates are based on actual sales and accrued monthly.

Stock Based Compensation: The Company adopted Statement of Financial Accounting Standards No. 123R, Share-Based Payment (SFAS 123R) effective January 1, 2006, using the modified prospective application method. SFAS 123R requires companies to record compensation expense for the value of all outstanding and unvested share-based payments, including employee stock options and similar awards.

Prior to the adoption of SFAS 123R, the Company accounted for its stock-based employee compensation plans using the intrinsic value method prescribed by Accounting Principles Board Opinion No. 25, Accounting for Stock Issued to Employees. No stock-based employee compensation cost was reflected in net income as all options granted under those stock-based employee compensation plans had exercise prices equal to the market values of the underlying common shares on the dates of grant.

The fair values of stock option grants are determined using the Black-Scholes option pricing model and the following assumptions: expected stock price volatility based on historic and management's expectations of future volatility, risk-free interest rates from published sources, years to maturity based on historical data and no dividend yield, as management currently does not intend to pay dividends in the near future. The Black-Scholes option valuation model was developed for use in estimating the fair value of traded options that have no vesting restrictions and that are fully transferable. In addition, option valuation models require the input of highly subjective assumptions including expected stock price volatility. Our stock options have characteristics significantly different from those of traded options and changes in the subjective input assumptions can materially affect their fair value.

OVERVIEW

Alpha Pro Tech is in the business of protecting people, products and environments. We accomplish this by developing, manufacturing and marketing a line of high-value disposable protective apparel and infection control products for the cleanroom, industrial, pharmaceutical, medical and dental markets. We also manufacture a line of construction weatherization products and a line of medical bed pads and accessories as well as a line of pet beds. Our products are sold both under the Alpha Pro Tech brand name as well as under private label.

Our products are classified into six groups: Disposable protective apparel, consisting of a line of shoe covers, bouffant caps, gowns, coveralls and lab coats; infection control products, consisting of a line of face masks and eye shields; extended care products, consisting of a line of medical bed pads, wheelchair covers, geriatric chair surfaces, operating room table surfaces and pediatric surfaces; a line of pet beds; and construction weatherization products, consisting of house wrap and synthetic roof underlayment.

Our products as classified above are grouped into four business segments. The Disposable Protective Apparel segment, consisting of disposable protective apparel; the Infection Control segment, consisting of face masks and eye shields; the Extended Care segment, consisting of extended care products, namely medical bed pads and pet beds; and the Engineered Products segment, consisting of construction weatherization products such as REX Wrap house wrap and REX Synfelt synthetic roof underlayment.

Our target markets are pharmaceutical manufacturing, bio-pharmaceutical manufacturing and medical device manufacturing, lab animal research, high technology electronics manufacturing which includes the semi-conductor market, medical and dental distributors, pet stores and pet distributors and construction supply and roofing distributors.

Our products are used primarily in cleanrooms, industrial safety manufacturing environments, health care facilities such as hospitals, laboratories and dental offices, as well as construction supply sites. Our pet beds are used by pet owners and veterinarians. Our products are distributed principally in the United States through a network consisting of purchasing groups, national distributors, local distributors, independent sales representatives and our own sales and marketing force.

RESULTS OF OPERATIONS

The following table sets forth certain operational data as a percentage of sales for the periods indicated:

	2007	2006	2005
Sales	100.0%	100.0%	100.0%
Gross profit	46.4	46.4	45.5
Selling, general and administrative	35.4	29.3	31.5
Income from operations	9.6	15.9	12.4
Income before provision for income taxes	10.5	16.1	12.4
Net income	6.8	10.0	7.9

Fiscal 2007 compared to Fiscal 2006

Sales Consolidated sales for the year ended December 31, 2007 decreased to \$35,453,000 from \$37,338,000 for the year ended December 31, 2006, representing a decrease of \$1,885,000 or 5.1%. We attribute the decrease to decreased sales of Engineered Products segment of \$2,554,000, to decreased Infection Control segment sales of \$432,000, to decreased sales from our Extended Care products segment of \$299,000, partially offset by increased sales of Disposable Protective Apparel products of \$1,400,000.

Sales for the Disposable Protective Apparel segment for the year ended December 31, 2007 increased by \$1,400,000 or 6.6% to \$22,583,000 compared to \$21,183,000 for the same period of 2006. The increase is primarily related to increased sales to cleanroom and industrial distributors, partially offset by lower sales to our largest distributor. Although sales only increased by 6.6% or \$1.4 million in 2007, sales for this segment were up 17.4% or \$2.6 million through the first nine months of 2007. Year over year growth was significantly impacted by weak shipments in the fourth quarter of 2007 to our largest distributor as well as a record quarter in the fourth quarter of 2006. Although our shipments to this distributor were weak in the fourth quarter, their shipments to their end users were in line with their 2007 quarterly average sales.

In September 2006, we announced the signing of a new distribution contract with our largest distributor in which they retained the exclusive right to sell our private label Critical Cover® products, but have also allowed us the right to sell Alpha Pro Tech branded products to other distributors. This has enabled us to gain additional market share as we develop relationships with other industrial and cleanroom distributors. We continue to be encouraged by the acceptance of our product line by our expanded distribution channel.

Infection Control segment sales for the year ended December 31, 2007 decreased by \$432,000 or 6.3% to \$6,512,000 compared to \$6,944,000 for the same period of 2006. Mask sales in this segment were down by \$1,004,000 and shield sales were up by \$572,000. Mask sales were down primarily due to lower sales of our N-95 NIOSH approved Respirator mask as concerns about Avian Flu have abated in 2007 and shield sales were strong primarily due to a large non-recurring order in the first quarter of 2007. Unless worldwide concerns about Avian Flu increase, we expect N-95 Respirator mask sales in 2008 to be similar to 2007.

Edgar Filing: ALPHA PRO TECH LTD - Form 10-K

Engineered Products segment sales for the year ended December 31, 2007 decreased by \$2,554,000 or 32.9% to \$5,227,000 as compared to \$7,781,000 for the same period of 2006. The decrease for the year is primarily due to a 46.3% decrease in sales of REX Wrap house wrap as sales of REX Synfelt synthetic roof underlayment were flat. The breakdown of the Engineered Products sales is as follows for the year ended December 31, 2007: 53% house wrap, 47% synthetic roof underlayment. This compares to 67% house wrap and 33% synthetic roof underlayment for the year ended December 31, 2006.

The Engineered Products segment decrease for 2007 is the result of two factors. Firstly, a change in distribution channel strategy in which we decided to move forward on a non exclusive basis with our former distributor, which

led the distributor to source product from other suppliers and to ultimately discontinue purchasing from us. Secondly, the downturn in the housing market has hurt our sales, in particular our house wrap line, as fewer houses are being built and distributors are keeping inventories low.

We expect that our new distribution channel strategy for the Engineered Products segment will broaden our ability to take advantage of market opportunities for synthetic roof underlayment and house wrap in 2008. During 2007, we increased our sales team, launched a marketing campaign to introduce our new synthetic roof underlayment under the name of REX Synfelt and launched our new house wrap under the name of REX Wrap. We anticipate that in fiscal 2008 our existing distributors will convert more business to us. We also expect to obtain additional distributors as part of our new distribution strategy.

Sales from our Extended Care segment decreased by \$299,000 or 20.9% to \$1,131,000 for the year ended December 31, 2007 from \$1,430,000 for the year ended December 31, 2006. The decrease in sales is primarily the result of lower medical bed pad sales of \$146,000 and lower pet bed sales of \$153,000. This line of products is not expected to be a growth segment for the Company.

Gross Profit Gross profit decreased by 5.1% to \$16,442,000 for the year ended December 31, 2007 from \$17,320,000 for the same period in 2006. The gross profit margin was 46.4% for the year ended December 31, 2007 and December 31, 2006.

The gross profit margin on the Engineered Products segment has improved for the year ended December 31, 2007 as compared to the same period of 2006. Although the gross profit margin in the Engineered Products segment is lower than the overall company margin, we expect it to continue to improve as sales grow. The gross profit margin on the Disposable Protective Apparel segment was down slightly due to increased costs from China.

Selling, General and Administrative Expenses. Selling, general and administrative expenses increased by \$1,602,000 or 14.7% to \$12,541,000 for the year ended December 31, 2007 from \$10,939,000 for the year ended December 31, 2006. As a percentage of net sales, selling, general and administrative expenses increased to 35.4% for the year ended December 31, 2007 from 29.4 % for the same period in 2006. The increase is primarily due to increased expenses for the Engineered Products segment of \$934,000, a severance agreement of \$320,000 for our previous Senior VP of Manufacturing in April 2007, increased employee compensation of \$161,000, increased expenses for travel to Asia of \$118,000 and increased marketing expenses of \$54,000

The Engineered Products segment increase of \$934,000 is broken down as follows: a \$368,000 increase in employee compensation, a \$326,000 increase in marketing expenses, an \$111,000 increase in commission for independent representatives, a \$78,000 increase in travel expenses and a \$56,000 increase in insurance expenses, partially offset by a \$5,000 decrease in miscellaneous expenses.

As a percentage of net sales, selling, general and administrative expenses increased to 35.4% for the year ended December 31, 2007 from 29.3% for the same period in 2006.

Edgar Filing: ALPHA PRO TECH LTD - Form 10-K

The chief executive officer and president are each entitled to a bonus equal to 5% of the pre-tax profits of the Company. Bonuses of \$413,000 were accrued for the year ended December 31, 2007 as compared to \$670,000 in the same period of 2006.

Depreciation and Amortization. Depreciation and amortization expense increased by \$46,000 or 10.3% to \$494,000 for the year ended December 31, 2007 from \$448,000 for the same period in 2006. The increase is primarily attributable to an increased depreciation for Engineered Products.

Income from Operations. Income from operations decreased by \$2,526,000 or 42.6%, to \$3,407,000 for the year ended December 31, 2007 as compared to income from operations of \$5,933,000 for the year ended December 31, 2006. The decrease in income from operations is due to a decrease in gross profit of \$878,000, an increase in selling, general and administrative expenses of \$1,602,000 and an increase in depreciation and amortization of \$46,000.

Equity in income (loss) of unconsolidated affiliates. For the year ended December 31, 2007, we recorded equity in income of unconsolidated affiliates of \$214,000 as compared to \$60,000 for the same period of 2006. The net change in equity in income is primarily due to a gain of \$103,000, on a foreign currency exchange contract that occurred in the third quarter of 2007.

Net Interest. For the year ended December 31, 2007, we had net interest income of \$94,000 compared to net interest income of \$36,000 for the year ended December 31, 2006. Interest income increased by \$61,000 to \$102,000 for the year ended December 31, 2007 as compared to \$41,000 for the same period of 2006, due to higher cash balances. Interest expense increased slightly to \$8,000 for the year ended December 31, 2007 compared to \$5,000 for the same period of 2006.

Income Before Provision for Income Taxes. Income before provision for income taxes for the year ended December 31, 2007 was \$3,715,000 compared to \$6,029,000 for the year ended December 31, 2006, representing a decrease of \$2,314,000 or 38.4%. The decrease in income before provision for income taxes is due to a decrease in income from operations of \$2,526,000, partially offset by an increase in net interest income of \$58,000 and a net increase of \$154,000 from our unconsolidated affiliate (Harmony).

Based on the analysis of segment income excluding corporate overhead allocations, a primary reason for the decline in income before provision for income tax was due to a net decrease of \$1,543,000 in the Engineered Products segment. This segment experienced a loss of \$826,000 for the year ended December 31, 2007 as compared to income of \$717,000 for the same period of 2006.

Provision for Income Taxes The provision for income taxes for the year ended December 31, 2007 was \$1,298,000 compared to \$2,290,000 for the year ended December 31, 2006. The effective tax rate was 35.0% for the year ended December 31, 2007 as compared to 38.0% for the same period in 2006. The decrease in the effective tax rate is due to a reduction in state taxes.

Net Income. Net income for the year ended December 31, 2007 was \$2,417,000 compared to net income of \$3,739,000 for the year ended December 31, 2006, a decrease of \$1,322,000 or 35.4%. The net income increase was primarily due to a decrease in income before provision for income taxes of \$2,314,000, partially offset by a decrease in income taxes of \$992,000. Net income as a percentage of sales for the year ended December 31, 2007 and 2006 was 6.8% and 10.0% respectively. Basic income per share for the year ended December 31, 2007 and 2006 was \$0.10 and \$0.15 respectively. Diluted income per share for the year ended December 31, 2007 and 2006 was \$0.09 and \$0.15 respectively.

Fiscal 2006 compared to Fiscal 2005

Sales Consolidated sales for the year ended December 31, 2006 increased to \$37,338,000 from \$31,095,000 for the year ended December 31, 2005, representing an increase of \$6,243,000 or 20.1%. We attribute the increase primarily to increased sales of Engineered Products of \$3,068,000, to increased sales of Disposable Protective Apparel products of \$1,739,000, and to increased Infection Control segment sales of \$1,808,000, partially offset by decreased sales from our Extended Care products of \$372,000.

Sales for the Disposable Protective Apparel segment for the year ended December 31, 2006 increased by \$1,739,000 or 8.9% to \$21,183,000 compared to \$19,444,000 for the same period of 2005. The increase was primarily due to increased sales of approximately \$0.4 million to our largest distributor, and an approximate \$1.3 million increase due to other distributors that concentrate on the cleanroom and industrial safety industries.

Although Disposable Protective Apparel sales increased by only a modest 8.9% in 2006, the second half of 2006 was strong. Sales for the fourth quarter of \$6.4 million were up 73.8% from \$3.7 million in the fourth quarter of 2005. In addition, sales were up 20.9% in the third and fourth quarter of 2006 as compared to the first and second quarters of 2006 and were up 32.0% as compared to the third and fourth quarter of 2005.

In 2006 we introduced a new line of Disposable Protective Apparel products under the name of ComforTech®, a new material that we developed over the past two years. In the latter half of 2006 we introduced a new category of the ComforTech® line, ComforTech® Certified. This is an entirely new class of products designed to decrease the risk of bioburden contamination in our target markets. As well, in 2007 we will be bringing to market the ComforTech® Sterile line of products.

On September 19, 2006 we announced the signing of a new distribution contract with our largest distributor of Disposable Protective Apparel. Under the terms of the multiple year contract that was effective January 1, 2006, they will retain the exclusive right to sell our private label Critical Cover® products. In addition, we will now have the right to sell Alpha Pro Tech branded products to other new distributors. This new contract further strengthens our relationship with our largest distributor and will enable us to gain additional market share as we develop relationships with new distributors.

Infection Control segment sales for the year ended December 31, 2006 increased by \$1,808,000 or 35.2% to \$6,944,000 compared to \$5,136,000 for the same period of 2005. The increase is primarily due to increased sales of our N-95 NIOSH approved Respirator mask due to concerns about Avian Flu.

The Engineered Products segment consists of a line of construction supply weatherization products (house wrap, synthetic roof underlayment) as well as a line of paint with antimicrobials. Engineered Products sales for the year ended December 31, 2006 increased by \$3,068,000 or 65.1% to \$7,781,000 as compared to \$4,713,000 for the same period of 2005. The breakdown of the Engineered Products sales is as follows for the year ended December 31, 2006: 67% house wrap, 33% synthetic roof underlayment. This compares to 74% house wrap, 25% synthetic roof underlayment and 1% antimicrobial paint for the year ended December 31, 2005.

Synthetic roof underlayment sales for the year ended December 31, 2006 increased by 113% as compared to the same period of 2005. This increase was facilitated in part by the fact that in October 2005, we received Notice of Acceptance from the Miami-Dade County Building Code Compliance Office for our Synthetic Roof Underlayment (AlphaProtector SUL) which is recognized as possessing stringent criteria for building products. Also, in December 2006, we announced that our synthetic roof underlayment had received the International Code Council (ICC-ES) approval. The ICC governs the International Building Code (IBC) which oversees most building departments around the country. These approvals significantly expand our synthetic roof underlayment opportunities as many construction supply companies require one or both of these certifications to sell our product.

In 2005 we entered into two agreements with Perma-R Products, Inc for house wrap and synthetic roof underlayment. As part of these 3 year mutually exclusive agreements, they agreed to purchase a minimum of \$5 million per year in house wrap and \$3 million in synthetic roof underlayment. In 2005 they did not meet the annual minimums for either product. In 2006 they purchased \$5.1 million of house wrap, meeting their contractual minimum requirement of \$5.0 million but did not meet the minimum for synthetic roof underlayment. In early 2007, we mutually agreed with them to move forward on a non-exclusive basis.

Edgar Filing: ALPHA PRO TECH LTD - Form 10-K

Sales from our Extended Care Unreal Lambskin® and other related products, which includes a line of medical bed pads as well as pet beds, decreased by \$372,000 or 20.6% to \$1,430,000 for the year ended December 31, 2006 from \$1,802,000 for the year ended December 31, 2005. The decrease of \$372,000 in sales is primarily the result of lower medical bed pad sales. Although pet bed sales are expected to improve somewhat in 2007, this segment is not expected to be a growth segment for the Company.

Gross Profit Gross profit increased by 22.4% to \$17,320,000 for the year ended December 31, 2006 from \$14,147,000 for the same period in 2005. Gross profit margin increased to 46.4% for the year ended December 31, 2006 from 45.5% for the same period in 2005.

Gross profit margin was up for the year primarily due to increased margin on the Engineered Products segment. Gross profit margin on this segment, although considerably lower than the overall company margin, did improve in each of the four quarters of 2006.

Selling, General and Administrative Expenses. Selling, general and administrative expenses increased by \$1,143,000 or 11.7% to \$10,939,000 for the year ended December 31, 2006 from \$9,796,000 for the year ended December 31, 2005. As a percentage of net sales, selling, general and administrative expenses decreased to 29.3% for the year ended December 31, 2006 from 31.5% for the same period in 2005. The overall increase in selling, general and administrative expenses is primarily related to increased employee compensation expenses of \$980,000, increased marketing costs primarily related to Engineered Products of \$97,000 and increased rent for Engineered Products of \$71,000.

The chief executive officer and president are each entitled to a bonus equal to 5% of the pre-tax profits of the Company. Total bonuses of \$670,000 were accrued for the year ended December 31, 2006 as compared to \$429,000 in the same period of 2005.

Depreciation and Amortization. Depreciation and amortization expense decreased by \$51,000 or 10.2% to \$448,000 for the year ended December 31, 2006 from \$499,000 for the same period in 2005. The decrease is primarily attributable to a reduction in depreciation for office equipment, computers and software, partially offset by increased depreciation for Engineered Products.

Income from Operations. Income from operations increased by \$2,081,000 or 54.0%, to \$5,933,000 for the year ended December 31, 2006 as compared to income from operations of \$3,852,000 for the year ended December 31, 2005. The increase in income from operations is due to an increase in gross profit of \$3,173,000 and a decrease in depreciation and amortization of \$51,000, partially offset by an increase in selling, general and administrative expenses of \$1,143,000.

Net Interest. For the year ended December 31, 2006, we had net interest income of \$36,000 compared to net interest income of \$24,000 for the year ended December 31, 2005. Interest expense decreased slightly to \$5,000 for the year ended December 31, 2006 compared to \$9,000 for the same period of 2005. Interest income increased by \$8,000 to \$41,000 for the year ended December 31, 2006 as compared to \$33,000 for the same period of 2005.

Equity in income (loss) of unconsolidated affiliates. On June 14, 2005 Alpha ProTech Engineered Products, Inc. entered into a joint venture with a manufacturer in India for the production of building products. Under terms of the joint venture

agreement, a private company, Harmony Plastics Private Limited (Harmony), was created with ownership interests of 41.66% by Alpha ProTech Engineered Products, Inc. and 58.34% by Maple Industries and Associates. Alpha ProTech Engineered Products invested \$1,450,000 in the joint venture; \$508,000 for share capital and \$942,000 in a long term advance. Effective April 2006, interest of 3.5 % is paid on this advance. Contractually, half of this \$942,000 advance is to be repaid monthly over a six year term which commenced in July 2006 with the balance to be paid in the seventh year. However, we expect that this advance will be paid in advance of the contractual term as Harmony paid \$500,000 towards the advance in the second half of 2006.

The Company is subject to the provisions of FASB Interpretation (FIN) No. 46, Consolidation of Variable Interest Entities an interpretation of ARB No. 51, which redefines the criteria by which the Company determines the proper accounting for its investments in related entities. Specifically, FIN 46 requires the Company to assess whether or not related entities are variable interest entities (VIE s), as defined. For those related entities that qualify as variable interest entities, FIN 46 requires the Company to determine whether or not the Company is the primary beneficiary of the VIE, and if so, to consolidate the VIE. The Company has determined that Harmony is not a VIE and is therefore considered to be an unconsolidated affiliate.

Harmony commenced operations in August of 2005. For the year ended December 31, 2006, we recorded equity in income of unconsolidated affiliates of \$60,000 as compared to equity in loss of unconsolidated affiliates of \$16,000 for the same period of 2005.

Income Before Provision for Income Taxes. Income before provision for income taxes for the year ended December 31, 2006 was \$6,029,000 compared to \$3,860,000 for the year ended December 31, 2005, representing an increase of \$2,169,000 or 56.2%. The increase in income before provision for income taxes is due to an increase in gross profit of \$3,173,000, a decrease in depreciation and amortization of \$51,000 and an increase in net interest income of \$12,000 and a net change of \$76,000 from our unconsolidated affiliate (Harmony), partially offset by an increase in selling, general and administrative expenses of \$1,143,000.

Provision for Income Taxes The provision for income taxes for the year ended December 31, 2006 was \$2,290,000 compared to \$1,410,000 for the year ended December 31, 2005. The increase in income taxes is primarily due to higher income before provision for income taxes in 2006. The effective tax rate was 38.0% for the year ended December 31, 2006 as compared to 36.5% for the same period in 2005.

Net Income. Net income for the year ended December 31, 2006 was \$3,739,000 compared to net income of \$2,450,000 for the year ended December 31, 2005, an increase of \$1,289,000 or 52.6%. The net income increase was primarily due to an increase in income before provision for income taxes of \$2,169,000, partially offset by an increase in income taxes of \$880,000. Net income as a percentage of sales for the year ended December 31, 2006 and 2005 was 10.0% and 7.9% respectively. Basic and diluted income per share for the year ended December 31, 2006 and 2005 was \$0.15 and \$0.10 respectively.

LIQUIDITY AND CAPITAL RESOURCES

As of December 31, 2007, we had cash and cash equivalents of \$4,064,000 and working capital of \$22,669,000, an increase in working capital of 15.6% or \$3,051,000 since December 31, 2006. As of December 31, 2007, our current ratio was 12.7:1 as compared to 8.3:1 as of December 30, 2006. Cash increased by \$2,227,000 to \$4,064,000 as of December 31, 2007 as compared to \$1,837,000 as of December 31, 2006. The increase in cash is due to cash provided by operating activities of \$2,085,000, by cash proceeds of \$1,431,000 from the exercise of stock options and income tax benefit from stock options exercised of \$225,000, partially offset the payment for the repurchase of common stock of \$907,000, by the purchase of property and equipment of \$555,000 and the purchases of intangible assets of \$52,000.

We have a \$3,500,000 credit facility with a bank, consisting of a line of credit with interest at prime plus 0.5%. At December 31, 2007, the prime interest rate was 7.25%. The line of credit was renewed in May 2007 and expires in May 2009 and we intend to renew it. Our borrowing capacity on the line of credit was \$3,500,000 at December 31, 2007. The available line of credit is based on a formula of eligible accounts receivable and inventories. As of December 31, 2007, we did not have any debt.

Net cash provided in operating activities was \$2,085,000 for the year ended December 31, 2007 compared to \$427,000 net cash used in operating activities for the year ended December 31, 2006. The net cash provided by operating activities of \$2,085,000 for the year ended December 31, 2007 is due to net income of \$2,417,000, adjusted by the following: an increase in inventory of \$1,398,000, a decrease in accounts receivable of \$1,735,000, a increase in prepaid expenses of \$393,000, a decrease in accounts payable and accrued liabilities of \$744,000, equity in income of unconsolidated affiliates of \$214,000, \$158,000 in amortization of share-based compensation, depreciation and amortization of \$494,000 and an increase in net deferred tax asset of \$30,000. The net cash used in operating activities of \$427,000 for the year ended December 31, 2006 is due to net income of \$3,739,000, \$51,000 of non-cash share-based compensation expense, a decrease in deferred income taxes of \$76,000, increase in accounts payable and accrued liabilities of \$103,000 and depreciation and amortization of \$448,000, adjusted by the

Edgar Filing: ALPHA PRO TECH LTD - Form 10-K

following: an increase in inventory of \$2,101,000, an increase in accounts receivable of \$2,203,000, an increase in prepaid expenses of \$480,000, non-cash equity income in unconsolidated affiliates of \$60,000.

Accounts receivable decreased by \$1,735,000 or 28.2% to \$4,422,000 as of December 31, 2007 from \$6,157,000 as of December 31, 2006. This decrease is primarily due to decreased sales of 24.5% in the fourth quarter of 2007 as compared to the same quarter of 2006. The number of days of sales outstanding was 51 days as of December 31, 2007 as compared to 54 days as of December 31, 2006.

Inventory increased by \$1,398,000 or 11.0% to \$14,111,000 as of December 31, 2007 from \$12,713,000 as of December 31, 2006. The increase is primarily due to an increase in inventory for the Engineered Products segment of \$1,112,000 to \$7,959,000 as of December 31, 2007 from \$6,847,000 as of December 31, 2006. The balance of the increase can be primarily attributed to an increase in Disposable Protective Apparel segment inventory which was proportional to the sales increase of that segment. Although inventory has increased for the year it has decreased by \$808,000 or 5.4% compared to June 30, 2007. Inventory for the Engineered Products segment is expected to be lower in 2008 as our sales increase in this segment.

Prepaid expenses and other current assets increased by \$393,000 to \$1,588,000 as of December 31, 2007 from \$1,195,000 as of December 31, 2006. The increase of \$393,000 is due to an increase in prepaid inventory from Asia of \$434,000, partially offset by a decrease in prepaid expenses for Engineered Products of \$35,000 and a decrease in general prepaid expenses of \$6,000.

Accounts payable and accrued liabilities as of December 31, 2007 decreased by \$744,000 to \$1,935,000 from \$2,679,000. The net change in 2007 was primarily due a decrease in trade payables of \$756,000 due to lower sales in the fourth quarter partially offset by an increase in accrual liabilities of \$12,000.

Net cash used in investing activities was \$607,000 for the year ended December 31, 2007 compared to net cash provided by investing activities of \$54,000 for the year ended December 31, 2006. Our investing activity in 2007 consisted primarily of expenditures for property and equipment of \$555,000 and the purchase of intangible assets of \$52,000. This compares to the repayment of \$500,000 from our advance to our Harmony joint venture, offset by expenditures for property and equipment of \$386,000 and the purchase of intangible assets of \$60,000 during the year ended December 31, 2006.

For the year ended December 31, 2007, net cash provided by financing activities was \$749,000 compared to cash provided by financing activities of \$1,047,000 for the same period of 2006. Our financing activities in 2007 consisted of cash proceeds of \$1,431,000 from the exercise of 1,646,375 stock options and an income tax benefit from stock options exercised of \$225,000, partially offset by the repurchase of 572,300 common stock at a cost of \$907,000. Our financing activities for 2006 consisted of cash proceeds of \$734,000 from the exercise of 721,625 stock options and an income tax benefit from stock options exercised of \$313,000.

In September 2007, our Board of Directors authorized the repurchase of up to an additional \$1,500,000 worth of our outstanding common stock. In addition to the \$1,500,000, we have approximately \$500,000 available from a previously announced repurchase program, making the total available to repurchase of approximately \$2,000,000. This share repurchase program is the seventh one authorized by the Board of Directors. In all instances, we are retiring the shares. For the year ended December 31, 2007, we repurchased 572,300 shares of common stock at a cost of \$907,000. As of December 31, 2007, we have repurchased a total of 2,906,100 shares of common stock at a cost of \$3,425,000 since the end of 1999. Future repurchases are expected to be funded from cash on hand and cash-flow from operations.

Edgar Filing: ALPHA PRO TECH LTD - Form 10-K

As shown below, at December 31, 2007, our contractual cash obligations totaled approximately \$1,125,000.

Contractual Obligations

	Total	Payments Due by Period			
		1 Year	2-3 Years	4-5 Years	After 5 years
Operating leases	\$ 1,125,000	\$ 660,000	\$ 465,000		
Total contractual cash obligations	\$ 1,125,000	\$ 660,000	\$ 465,000		

We believe that cash generated from operations, our current cash balance and the funds available under our credit facility, will be sufficient to satisfy our projected working capital and planned capital expenditures for the foreseeable future.

New Accounting Standards

In September 2006, the FASB issued SFAS No. 157, *Fair Value Measurements*. SFAS No. 157 defines fair value, establishes a framework for measuring fair value in generally accepted accounting principles, and expands disclosures about fair value measurements. This statement addresses how to calculate fair value measurements required or permitted under other accounting pronouncements. Accordingly, this statement does not require any new fair value measurements. However, for some entities, the application of this statement will change current practice. SFAS No. 157 is effective beginning January 1, 2008. In February 2008, the FASB deferred for one year the effective date of SFAS 157 only with respect to nonfinancial assets and nonfinancial liabilities that are recognized or disclosed at fair value in the financial statements on a nonrecurring basis, and removed certain leasing transactions from the scope of SFAS 157. The Company does not expect SFAS No. 157 to have a material impact on the Company's financials.

In February 2007, the FASB issued SFAS No. 159, *The Fair Value Option for Financial Assets and Financial Liabilities Including an amendment of FASB Statement No. 115*. SFAS No. 159 permits entities to choose to measure many financial instruments and certain other items at fair value. The objective is to improve financial reporting by providing entities with the opportunity to mitigate volatility in reported earnings caused by measuring related assets and liabilities differently without having to apply complex hedge accounting provisions. This Statement is expected to expand the use of fair value measurement, which is consistent with the FASB's long-term measurement objectives for accounting for financial instruments. SFAS No. 159 is effective as of the beginning of an entity's first fiscal year that begins after November 15, 2007. The Company does not expect SFAS No. 159 to have a material impact on the Company's consolidated financial position, results of operations or cash flows.

In December 2007, the FASB issued SFAS No. 160, *Noncontrolling Interests in Consolidated Financial Statements*, which changes the accounting and reporting standards for the noncontrolling interests in a subsidiary in consolidated financial statements. SFAS 160 recharacterizes minority interests as noncontrolling interests and requires noncontrolling interests to be classified as a component of shareholders equity. SFAS 160 is effective January 1, 2009 and requires retroactive adoption of the presentation and disclosure requirements for existing minority interests. We are currently evaluating the impact of SFAS 160 on our consolidated financial statements.

ITEM 7a.**QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK**

We subcontract the manufacture of products in China and to a lesser extent in Mexico and have a joint venture in India. In addition, our executive office, which employs 19 people, is located in Canada. Our results of operations could be negatively affected by changes in foreign currency exchange rates due to stronger economic conditions in those countries. We believe we do not have a material foreign currency exposure due to the fact that our purchase agreements with companies in China, India and Mexico are in US dollars. In Canada our foreign currency exposure is not material due to the fact that we do not manufacture in Canada.

We do not expect any significant effect on our results of operations from inflation or interest and currency rate fluctuations. We do not hedge our interest rate or foreign exchange risks.

ITEM 8.**FINANCIAL STATEMENTS AND SUPPLEMENTARY DATA**

Consolidated financial statements and the Report of our Independent Registered Public Accounting Firm thereon are set forth under Item 15 (a) (1) of this Form 10-K.

QUARTERLY FINANCIAL DATA (UNAUDITED)

Selected quarterly financial data for the years ended December 31, 2007 and 2006 is presented below:

2007 Quarters

		1st		2nd		3rd		4th
Revenue	\$	9,044,000	\$	9,149,000	\$	9,308,000	\$	7,952,000
Gross profit		4,164,000		4,269,000		4,395,000		3,614,000
Net income (1)		535,000		507,000		916,000		457,000
Basic and Diluted income per share (1)		0.02		0.02		0.04		0.02

2006 Quarters

		1st		2nd		3rd		4th
Revenue	\$	7,971,000	\$	9,879,000	\$	8,952,000	\$	10,536,000
Gross profit		3,641,000		4,623,000		4,105,000		4,951,000
Net income		649,000		1,126,000		882,000		1,082,000
Basic and Diluted income per share (1)		0.03		0.05		0.04		0.04

(1) Net income and income per share are computed independently for each of the quarters presented. Therefore, the sum of the quarterly net income and income per share amounts do not necessarily equal the total for the year.

ITEM 9. CHANGES IN AND DISAGREEMENTS WITH ACCOUNTANTS ON ACCOUNTING AND FINANCIAL DISCLOSURE

None.

ITEM 9A.

CONTROLS AND PROCEDURES

Evaluation of Disclosure Controls and Procedures.

Under the supervision and with the participation of our management, including our Chief Executive Officer and Chief Financial Officer, we evaluated the effectiveness of the design and operation of our disclosure controls and procedures (as such term is defined in Rule 13a-15(e) under the Securities Exchange Act of 1934 (the Exchange Act)). Disclosure controls and procedures are the controls and other procedures that we designed to ensure that we record, process, summarize and report in a timely manner the information we must disclose in reports that we file with or submit to the Securities and Exchange Commission under the Exchange Act. Based on this evaluation, our Chief Executive Officer and our Chief Financial Officer concluded that our disclosure controls and procedures were effective as of the end of the period covered by this report.

Changes in Internal Controls.

During the fourth quarter of 2007, there was no change in our internal control over financial reporting (as such term is defined in Rule 13a-15(f) under the Exchange Act) that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

Management Report On Internal Control over Financial Reporting.

Our management is responsible for establishing and maintaining adequate internal control over financial reporting. Internal control over financial reporting is defined in Rule 13a-15(f) under the Exchange Act as a process designed by, or under the supervision of, our principal executive and principal financial officers and effected by our board of directors, management and other personnel, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with accounting principles generally accepted in this United States of America and includes those policies and procedures that:

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

- pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of our assets;
- provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with accounting principles generally accepted in the United States of America, and that our receipts and expenditures are being made only in accordance with authorization of management and directors; and

- provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use or disposition of our assets that could have a material effect on the financial statements.

Under the supervision and with the participation of our management, including our principal executive and principal financial officers, we assessed, as of December 31, 2007, the effectiveness of our internal control over financial reporting. This assessment was based on criteria established in the framework in Internal Control-Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission. Based on our assessment, our management concluded that our internal control over financial reporting was effective as of December 31, 2007.

This annual report does not include an attestation report of the Company's registered public accounting firm regarding internal control over financial reporting. Management's report was not subject to attestation by the Company's registered public accounting firm pursuant to temporary rules of the Securities and Exchange Commission that permit the Company to provide only management's report in this annual report.

ITEM 9B. OTHER INFORMATION

None.

PART III

The information pursuant to Items 10, 11, 12 and 13 is omitted from this report (in accordance with General Instruction G for Form 10-K), since the Company is filing with the Commission (by no later than April 30, 2008), a definitive proxy statement pursuant to Regulation 14A, which involves the election of directors at the annual shareholders' meeting of the Company which is expected to be held in June 2008.

ITEM 14. PRINCIPAL ACCOUNTING FEES AND SERVICES

Information concerning principal accountant fees and services will appear in the Proxy Statement under the heading "Fees Paid to PricewaterhouseCoopers LLP" and is incorporated herein by reference.

PART IV

ITEM 15. EXHIBITS, FINANCIAL STATEMENT SCHEDULES AND REPORTS ON FORM 8-K

Schedule to Consolidated Financial Statements:

Schedule II - Valuation and Qualifying Accounts for the three years in the period ended December 31, 2007

All other schedules are omitted because they are not applicable or the required information is shown in the financial statements or notes thereto.

Report of Independent Registered Public Accounting Firm

To Board of Directors and Shareholders of Alpha Pro Tech, Ltd.

In our opinion, the consolidated financial statements listed in the accompanying index present fairly, in all material respects, the financial position of Alpha Pro Tech, Ltd. and its subsidiaries at December 31, 2007 and December 31, 2006, and the results of their operations and their cash flows for each of the three years in the period ended December 31, 2007 in conformity with accounting principles generally accepted in the United States of America. In addition, in our opinion, the financial statement schedules listed in the accompanying index present fairly, in all material respects, the information set forth therein when read in conjunction with the related consolidated financial statements. These financial statements and financial statement schedules are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements and financial statement schedules based on our audits. We conducted our audits of these statements in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

The accompanying notes are an integral part of these consolidated financial statements.

Alpha Pro Tech, Ltd.

Notes to Consolidated Financial Statements

1. The Company

Alpha Pro Tech, Ltd. (Alpha Pro Tech, the Company) is in the business of protecting people, products and environments. The Company accomplishes this by developing, manufacturing and marketing a line of disposable protective apparel for the cleanroom, industrial and pharmaceutical markets, a line of infection control products for the medical and dental markets and a line of construction weatherization products. The disposable protective apparel consists of a complete line of shoecovers, bouffant caps, coveralls, gowns, frocks and lab coats. The infection control line of products includes a line of face masks and eye shields. The line of construction supply weatherization products consists of house wrap and synthetic roof underlayment. The Company also manufactures and distributes a line of medical bed pads and accessories as well as a line of pet beds. The Company's products are sold both under the Alpha Pro Tech brand name as well as under private label and are predominantly sold in the United States of America.

2. Summary of Significant Accounting Policies

Principles of consolidation

The consolidated financial statements of the Company include the accounts of the Company and its wholly-owned subsidiary, Alpha Pro Tech, Inc. (APT), as well as APT's wholly-owned subsidiary, Alpha ProTech Engineered Products, Inc. (Engineered Products). All significant intercompany accounts and transactions have been eliminated.

Inventories

Inventories include freight-in, materials, labor and overhead costs and are stated at the lower of cost (computed on a standard cost basis, which approximates average cost) or market. Provision is made for slow-moving, obsolete or unusable inventory. The Company assesses inventory for estimated obsolescence or unmarketable inventory and writes down the difference between the cost of inventory and the estimated market value based upon assumptions about future sales and supply on-hand.

Property and equipment

Property and equipment is stated at cost less accumulated depreciation and amortization and is depreciated or amortized using the straight-line method over the shorter of the respective useful lives of the assets or the related lease terms as follows:

Buildings	25 years
Machinery and equipment	5-15 years
Office furniture and equipment	2-7 years
Leasehold improvements	4-5 years

Expenditures for renewals and betterments are capitalized, whereas costs of maintenance and repairs are charged to operations in the period incurred.

Goodwill and Intangible assets

The excess of purchase price over the fair value of assets acquired and liabilities assumed in acquisition transactions is classified as goodwill. Effective January 1, 2002, the Company adopted SFAS No. 142, Goodwill and Other Intangible Assets. SFAS No. 142 primarily addresses the accounting for goodwill and intangible assets subsequent to their acquisition. As prescribed by SFAS

Alpha Pro Tech, Ltd.

Notes to Consolidated Financial Statements

No. 142, goodwill is not amortized, but rather is tested for impairment (Note 5). Patent rights and trademarks are recorded at cost and are amortized using the straight-line method over their estimated useful lives of 5-17 years.

Impairment of long-lived assets

The Company reviews long-lived assets for impairment whenever events or changes in business circumstances indicate that the carrying amounts of the assets may not be fully recoverable. An impairment loss is recognized when the estimated undiscounted future net cash flows expected to result from the use of an asset and its eventual disposition are less than its carrying amount. The Company believes the future net cash flows to be received from its long-lived assets exceed the assets' carrying values, and accordingly, the Company has not recognized any impairment losses during the years ended December 31, 2007, 2006 and 2005.

Revenue recognition

For sales transactions, the Company complies with the provisions of Staff Accounting Bulletin 104 Revenue Recognition, which states that revenue should be recognized when the following revenue recognition criteria are met: (1) persuasive evidence of an arrangement exists; (2) title transfers and the customer assumes the risk of loss; (3) the selling price is fixed or determinable; and (4) collection of the resulting receivable is reasonably assured. These criteria are satisfied upon shipment of product and revenues are recognized accordingly.

Sales are reduced for any anticipated sales returns, rebates and allowances based on historical data.

Shipping and Handling Costs

The costs of shipping product to distributors are classified in cost of goods sold.

Stock Based Compensation

The Company maintains two stock option plans under which the Company may grant incentive stock options and non-qualified stock options to employees and non-employee directors. Stock options have been granted with exercise prices at or above the fair market value of the underlying

Edgar Filing: ALPHA PRO TECH LTD - Form 10-K

shares of common stock on the date of grant. Options vest and expire according to terms established at the grant date.

The Company adopted Statement of Financial Accounting Standards No. 123R, Share-Based Payment (SFAS 123R) effective January 1, 2006, using the modified prospective application method. SFAS 123R requires companies to record compensation expense for the value of all outstanding and unvested share-based payments, including employee stock options and similar awards. As of December 31, 2005, the Company had no outstanding and unvested share-based awards. Stock options granted under the option plan, were 435,000 in 2007 and 490,000 in 2006. As a result, the Company recognized \$158,000 and \$51,000, respectively in share-based compensation expense in its consolidated financial statements for the year ended December 31, 2007 and December 31, 2006.

Prior to the adoption of SFAS 123R, the Company accounted for its stock-based employee compensation plans using the intrinsic value method prescribed by Accounting Principles Board Opinion No. 25, Accounting for Stock Issued to Employees. No stock-based employee compensation cost was reflected in net income as all options granted under those stock-based employee compensation plans had exercise prices equal to the market values of the underlying common shares on the dates of grant.

Alpha Pro Tech, Ltd.**Notes to Consolidated Financial Statements**

The following table illustrates the effect on net income and earnings per share if the Company had applied the fair value recognition provisions of SFAS No. 123, Accounting for Stock-Based Compensation, as amended by SFAS No. 148, to stock-based employee compensation.

For the Year Ended December 31,

	2005	
Net income, as reported	\$	2,450,000
Deduct: Total stock-based employee compensation expense determined using the fair value method for all awards, net of related tax effects		(317,000)
Pro forma net income	\$	2,133,000
Net income per share:		
Basic - as reported	\$	0.10
Basic - pro forma		0.08
Diluted - as reported		0.10
Diluted - pro forma		0.08

Income Taxes

The Company accounts for income taxes in accordance with SFAS No.109, Accounting for Income Taxes. This statement requires an asset and liability approach for accounting for income taxes. A valuation allowance is recorded to reduce the carrying amounts of deferred tax assets unless it is more likely than not such assets will be realized.

The Company and its subsidiaries file income tax returns in the U.S. federal jurisdiction, and various states and foreign jurisdictions. The Company is no longer subject to U.S. federal, state and local, income tax examination by tax authorities for years before 2002. The Company is not currently under examination in any of its jurisdictions in which it operates

Net Income Per Share

The following table provides a reconciliation of both net income and the number of shares used in the computations of basic earnings per share (EPS), which utilizes the weighted average number of shares outstanding without regard to potential shares, and diluted EPS, which includes all

such dilutive shares.

F - 9

Alpha Pro Tech, Ltd.**Notes to Consolidated Financial Statements**

	2007	For the Year Ended December 31, 2006	2005
Net income (Numerator)	\$ 2,417,000	\$ 3,739,000	\$ 2,450,000
Shares (Denominator):

Add: Dilutive effect of stock options and warrants	296,074	987,663	1,563,007
Diluted weighted average shares outstanding	25,615,730	25,129,198	25,247,236
Net income per share:			
Basic	\$ 0.10	\$ 0.15	\$ 0.10
Diluted	\$ 0.09	\$ 0.15	\$ 0.10

Translation of foreign currencies

Transactions in foreign currencies during the reporting periods are translated into U.S. dollars at the exchange rate prevailing at the transaction date. Monetary assets and liabilities in foreign currencies at each period end are translated at the exchange rate in effect at that date. Transaction gains or losses on foreign currencies are reflected in net income for the periods presented and were not material for the years ended December 31, 2007, 2006 and 2005.

Cash Equivalents

The Company considers all highly liquid instruments with a remaining maturity date of three months or less at the date of purchase to be cash equivalents.

Research and Development

Research and development costs are expensed as incurred and are included in selling, general and administrative expenses. Such costs were not material for the years ended December 31, 2007, 2006, and 2005.

Advertising

The Company expenses advertising costs as incurred. These costs are included in selling, general and administrative expenses. Such costs were not material for the years ended December 31, 2007, 2006 and 2005.

Use of estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from these estimates.

Fair value of financial instruments

The fair values of financial instruments, including cash and cash equivalents, accounts receivable and accounts payable, approximate their respective book values at December 31, 2007 and 2006.

Alpha Pro Tech, Ltd.**Notes to Consolidated Financial Statements****New accounting standards**

In September 2006, the FASB issued SFAS No. 157, Fair Value Measurements. SFAS No. 157 defines fair value, establishes a framework for measuring fair value in generally accepted accounting principles, and expands disclosures about fair value measurements. This statement addresses how to calculate fair value measurements required or permitted under other accounting pronouncements. Accordingly, this statement does not require any new fair value measurements. However, for some entities, the application of this statement will change current practice. SFAS No. 157 is effective for the Company beginning January 1, 2008. In February 2008, the FASB deferred for one year the effective date of SFAS 157 only with respect to nonfinancial assets and nonfinancial liabilities that are recognized or disclosed at fair value in the financial statements on a nonrecurring basis, and removed certain leasing transactions from the scope of SFAS 157. The Company does not expect SFAS No. 157 to have a material impact on the Company's financials.

In February 2007, the FASB issued SFAS No. 159, The Fair Value Option for Financial Assets and Financial Liabilities Including an amendment of FASB Statement No. 115. SFAS No. 159 permits entities to choose to measure many financial instruments and certain other items at fair value. The objective is to improve financial reporting by providing entities with the opportunity to mitigate volatility in reported earnings caused by measuring related assets and liabilities differently without having to apply complex hedge accounting provisions. This Statement is expected to expand the use of fair value measurement, which is consistent with the FASB's long-term measurement objectives for accounting for financial instruments. SFAS No. 159 is effective as of the beginning of an entity's first fiscal year that begins after November 15, 2007. The Company does not expect SFAS No. 159 to have a material impact on the Company's consolidated financial position, results of operations or cash flows.

In December 2007, the FASB issued SFAS No. 160, Noncontrolling Interests in Consolidated Financial Statements, which changes the accounting and reporting standards for the noncontrolling interests in a subsidiary in consolidated financial statements. SFAS 160 recharacterizes minority interests as noncontrolling interests and requires noncontrolling interests to be classified as a component of shareholders' equity. SFAS 160 is effective January 1, 2009 and requires retroactive adoption of the presentation and disclosure requirements for existing minority interests. We are currently evaluating the impact of SFAS 160 on our consolidated financial statements.

3. Inventories

Inventories consist of the following:

	December 31,	
	2007	2006
Raw materials	\$ 10,175,000	\$ 9,632,000
Work in process	535,000	182,000
Finished goods	3,728,000	3,217,000
	14,438,000	13,031,000
Less reserve for slow-moving, obsolete or unusable inventory	(327,000)	(318,000)
	\$ 14,111,000	\$ 12,713,000

Alpha Pro Tech, Ltd.

Notes to Consolidated Financial Statements

4. Property and Equipment

Property and equipment consist of the following:

	2007	December 31,	2006
Buildings	\$ 355,000	\$ 355,000	
Machinery and equipment	6,516,000	6,049,000	
Office furniture and equipment	722,000	641,000	
Leasehold improvements	303,000	297,000	
	7,896,000	7,342,000	
Less accumulated depreciation	(4,457,000)	(3,987,000)	
	\$ 3,439,000	\$ 3,355,000	

Depreciation of property and equipment was \$ 470,000, \$420,000 and \$462,000 for the years ended December 31, 2007, 2006 and 2005, respectively.

5. Goodwill and Intangible Assets

The Company adopted SFAS 142 effective January 1, 2002. In accordance with the requirements of SFAS 142, goodwill is not amortized, but is subject to an annual impairment test. The annual impairment tests have been completed and did not result in an impairment charge.

Intangible assets, consisting of patents and trademarks, are amortized over their useful lives. Intangible assets consist of the following:

	Weighted Average Amortization Period (Years)	Gross Carrying Amount	December 31, 2007 Accumulated Amortization	Net Carrying Amount	Gross Carrying Amount	December 31, 2006 Accumulated Amortization	Net Carrying Amount
Patents and Trademarks	15.1	\$ 371,000	\$ (220,000)	\$ 180,000	\$ 347,000	\$ (196,000)	\$ 151,000

Amortization of intangible assets was \$24,000, \$28,000 and \$37,000 for the years ended December 31, 2007, 2006 and 2005 respectively.

F - 12

Alpha Pro Tech, Ltd.**Notes to Consolidated Financial Statements**

Estimated future amortization expense related to intangible assets subject to amortization is as follows:

Year ending December 31,

2008	\$26,000
2009	26,000
2010	20,000
2011	20,000
2012	20,000
After 2012	68,000
	\$180,000

6. Investment in and Advances to Unconsolidated Affiliates

On June 14, 2005, Alpha ProTech Engineered Products, Inc. entered into a joint venture with a manufacturer in India for the production of building products. Under terms of the joint venture agreement, a private company, Harmony Plastics Private Limited (Harmony), was created with ownership interests of 41.66% by Alpha ProTech Engineered Products, Inc. and 58.34% by Maple Industries and Associates. Alpha ProTech Engineered Products, Inc. contributed \$508,000 for share capital and Maple Industries and Associates contributed \$708,000.

This joint venture positions Alpha ProTech Engineered Products to respond to current and expected increased product demand for house wrap and synthetic roofing underlayment, and future capacity for sales of specialty roofing component products and custom products for industrial applications requiring high quality extrusion coated fabrics.

The capital from the initial funding along with a bank loan, which is guaranteed exclusively by Maple Industries and Associates and the assets of Harmony Plastics Private Limited, was utilized to purchase an existing 33,000 square-foot manufacturing facility in India; this facility includes manufacturing equipment necessary to produce synthetic roof underlayment. Harmony has also built a new 60,000 square-foot facility for the manufacturing of house wrap and other building products.

The Company is subject to the provisions of FIN 46 which defines the criteria by which the Company determines the proper accounting for its investments in related entities. Specifically, FIN 46 requires the Company to assess whether or not related entities are variable interest entities (VIEs), as defined. For those related entities that qualify as variable interest entities, FIN 46 requires the Company to determine whether or not the Company is the primary beneficiary of the VIE, and if so, to consolidate the VIE.

Edgar Filing: ALPHA PRO TECH LTD - Form 10-K

The Company has determined that Harmony is not a VIE and is therefore considered to be an unconsolidated affiliate.

The Company records its investment in Harmony as Equity investments in and advances to unconsolidated affiliates on the accompanying Consolidated Balance Sheets. The Company records its equity interest in Harmony's results of operations as Equity in income (loss) of unconsolidated affiliates on the accompanying Consolidated Income Statements.

The Company reviews its investment in Harmony for impairment in accordance with APB No. 18, The Equity Method of Accounting for Investments in Common Stock. APB No. 18 requires recognition of a loss when the decline in an investment is other-than-temporary. In determining

F - 13

Alpha Pro Tech, Ltd.**Notes to Consolidated Financial Statements**

whether the decline is other-than-temporary, the Company considers the nature of the industry in which Harmony operates, their historical performance, their performance in relation to their peers and the current economic environment. The Company has concluded that no impairment was identified.

Alpha ProTech Engineered Products initially invested \$1,450,000 in the joint venture; \$508,000 for share capital and \$942,000 as a long term advance. Fifty percent of the \$942,000 long term advance for materials is to be repaid over a six year term commencing in July 2006 and the balance is to be paid in the seventh year. During the third and fourth quarter of 2006, Harmony repaid \$39,000 in scheduled payments and \$461,000 in additional payments for a total of \$500,000, leaving a balance of \$442,000. Harmony did not make any further payments in 2007. Effective April 2006, interest of 3.5% is to be paid annually in January on this advance and \$19,000 was paid during the first quarter of 2007.

Harmony commenced operations in August of 2005. For the year ended December 31, 2007 and 2006, Alpha ProTech Engineered Products purchased \$3,357,000 and \$5,718,000, respectively from Harmony. For the year ended December 31, 2007 and 2006, the Company recorded equity income in unconsolidated affiliates of \$214,000 and \$60,000, respectively. As of December 31, 2007, the Company's investment in Harmony is \$1,208,000 which comprises its original \$1,450,000 investment and cumulative equity in income of unconsolidated affiliates of \$258,000 less \$500,000 in repayments of the advance.

7. Accrued Liabilities

Accrued liabilities consist of the following:

	2007	December 31,	2006
Payroll expenses	\$ 229,000	\$ 199,000	
Bonuses payable	706,000	986,000	
Accrued professional fees	200,000	153,000	
Accrued rebates and other	343,000	128,000	
	\$ 1,478,000	\$ 1,466,000	

8. Notes Payable

The Company maintains a credit facility which was renewed in May 2007 and expires in May 2009. Pursuant to the terms of the credit facility, the Company has a line of credit for up to \$3,500,000 based on eligible accounts receivable and inventories. The Company's borrowing capacity on the line of credit was \$3,500,000 at December 31, 2007. The credit facility bears interest at prime plus 0.5%, (7.25% and 8.75% at

Edgar Filing: ALPHA PRO TECH LTD - Form 10-K

December 31, 2007 and 2006, respectively) and is collateralized by accounts receivable, inventories, trademarks, patents, property and equipment. Under the terms of the facility, the Company pays a 0.5% loan fee annually.

As of December 31, 2007, the Company had no outstanding balance on the line of credit and no other debt.

F - 14

Alpha Pro Tech, Ltd.**Notes to Consolidated Financial Statements****9. Shareholders' Equity****Option activity**

In 2004 the Company received shareholder approval for the 2004 Stock Option Plan.

Under the 2004 Stock Option Plan (2004 Plan), 2.5 million options have been reserved for issuance and approximately 1,505,000 options have been granted as of December 31, 2007. Under the 2004 Plan, option grants have a three year vesting period and expire no later than the fifth anniversary of the date of grant. The exercise price of the options is determined based on the fair value of the stock on the date of grant.

The following table summarizes option activity for the three years ended December 31, 2007:

	Shares	Weighted Average Exercise Price Per Option
Options outstanding, December 31, 2004	3,144,000	\$ 1.04
Granted to employees and directors	60,000	\$ 1.98
Exercised	(341,000)	\$ 1.23
Canceled/Expired/Forfeited	(50,000)	\$ 1.58
Options outstanding, December 31, 2005	2,813,000	\$ 1.03
Granted to employees and directors	490,000	\$ 1.98
Exercised	(722,000)	\$ 1.02
Options outstanding, December 31, 2006	2,581,000	\$ 1.21
Granted to employees and directors	435,000	\$ 1.50
Exercised	(1,646,000)	\$ 0.87
Canceled/Expired/Forfeited	(50,000)	\$ 1.98
Options outstanding, December 31, 2007	1,320,000	\$ 1.71

Stock options to purchase 1,320,000 and 2,581,000 shares of common stock were outstanding at December 31, 2007 and 2006, respectively. Of the December 31, 2007 outstanding stock options totaling 1,320,000, only 435,000 were included in the computation of diluted earnings per share because the exercise prices of the 435,000 stock options were less than the average share price of the Company's common stock and,

Edgar Filing: ALPHA PRO TECH LTD - Form 10-K

therefore, the effect would have been dilutive. Of the December 31, 2006 outstanding stock options, all of the options to purchase common stock were included in the computation of diluted earnings per share because the exercise prices of the stock options were less than the average share price of the Company's common stock and, therefore, the effect would have been dilutive.

Based on the application of the treasury stock method, the dilutive effect of stock options was 15,543 for the twelve months ended December 31, 2007.

The Company used the Black-Scholes option pricing model to value the options. The table below presents the weighted average expected life in years. The Company used SAB 107's simplified

F - 15

Alpha Pro Tech, Ltd.

Notes to Consolidated Financial Statements

method for estimating the expected life of the options. The risk-free interest rate for periods within the contractual life of the award is based on the US Treasury yield curve in effect at the time of grant. The expected volatility is based on historical volatility of the expected life in years.

The fair value of the share-based payment awards was estimated using the Black-Scholes option pricing method with the following assumptions and weighted average fair values:

Stock Options (1)					
For the Year Ended December 31,					
	2007		2006		2005
Exercise price	\$	1.50	\$	1.98	\$ 1.98
Risk-free interest rate		4.14%		4.78%	4.28%
Expected volatility		33.40%		58.95%	78.20%
Black-Scholes fair value	\$	0.45	\$	0.93	\$ 1.64
Expected life in years		3.5		3.5	10.0

(1) The fair value calculation was based on the stock options granted during the period.

The following table summarizes stock option activity during the twelve months ended December 31, 2007:

	Options	Weighted-Average Exercise Price	Weighted Average Remaining Contractual Term (in years)	Aggregate Intrinsic Value
Options outstanding at December 31, 2006	2,581,000	\$ 1.21		
Exercised	(1,646,000)	.87		
Granted	435,000	1.50		
Canceled, forfeited or expired	(50,000)	1.98		
Options outstanding at December 31, 2007	1,320,000	\$ 1.71	5.02	\$ (71,000)
Options exercisable at December 31, 2007	445,000	\$ 1.63	6.72	\$ 8,000

The intrinsic value is the amount by which the market value of the underlying common stock exceeds the exercise price of the respective stock option. The intrinsic value of stock options exercised during the twelve months ended December 31, 2007 was \$ 2,363,000.

Edgar Filing: ALPHA PRO TECH LTD - Form 10-K

As of December 31, 2007, \$401,000 of total unrecognized compensation cost related to stock options is expected to be recognized over a weighted average remaining period of 2.85 years. Cash received from options exercised for the twelve months ended December 31, 2007 was \$1,430,000.

Alpha Pro Tech, Ltd.

Notes to Consolidated Financial Statements

10. Income Taxes

The provision for income taxes consists of the following:

	2007	Year ended December 31, 2006	2005
Current	\$ 1,268,000	\$ 2,214,000	\$ 1,379,000
Deferred	30,000	76,000	31,000
	\$ 1,298,000	\$ 2,290,000	\$ 1,410,000

Deferred tax assets (liabilities) comprise the following:

	2007	December 31, 2006
Deferred tax assets:		
Alternative minimum tax credits	\$ 3,000	\$ 72,000
Temporary differences:		
Inventory reserve	111,000	108,000
Intangible assets	29,000	37,000
Accrued expenses and inventory	276,000	215,000
Gross deferred tax assets	419,000	432,000
Deferred tax liabilities:		
Temporary differences:		
Property and equipment	(731,000)	(710,000)
State income taxes	(16,000)	(20,000)
Gross deferred tax liabilities	(747,000)	(730,000)
Net deferred tax liability	\$ (328,000)	\$ (298,000)

The provision for income taxes differs from the amount that would be obtained by applying the United States statutory rate to income before income taxes as a result of the following:

Edgar Filing: ALPHA PRO TECH LTD - Form 10-K

	Year ended December 31,		
	2007	2006	2005
Income taxes based on US statutory rate 34%	\$ 1,263,000	\$ 2,050,000	\$ 1,312,000
Non-deductible meals and entertainment	8,000	7,000	14,000
Domestic manufacturer's deduction	(23,000)	(20,000)	(35,000)
State taxes	42,000	200,000	135,000
Other	8,000	53,000	(16,000)
	\$ 1,298,000	\$ 2,290,000	\$ 1,410,000

F - 17

Alpha Pro Tech, Ltd.**Notes to Consolidated Financial Statements****11. Lease Commitments**

The Company leases manufacturing facilities under non-cancelable operating leases expiring through May 30, 2010.

The following summarizes future minimum lease payments required under non-cancelable operating leases:

Year Ending December 31,	Operating Leases
2008	660,000
2009	347,000
2010	118,000
Future minimum lease payments	\$ 1,125,000

Total rent expense under operating leases for the years ended December 31, 2007, 2006 and 2005 was \$721,000, \$710,000 and \$638,000, respectively.

12. Employee Benefit Plans

401(k) Plan: The Company has a 401(k) defined contribution profit sharing plan. Under the plan, employees may contribute up to 12% of their gross earnings subject to certain limitations. The Company contributes an additional 0.5% of gross earnings for those employees contributing 1% of their gross earnings and contributes an additional 1% of gross earnings for those employees contributing 2% to 12% of their gross earnings. The Company contributions become fully vested after five years. The amounts contributed to the plan by the Company were \$34,000, \$31,000 and \$26,000 for the years ended December 31, 2007, 2006 and 2005, respectively.

The Company does not have any other significant pension, profit sharing or similar plans established for its employees; however, the chief executive officer and president are each entitled to a bonus equal to 5% of the pre-tax profits of the Company. Bonuses of \$413,000, \$670,000 and \$429,000 were accrued for the years ended December 31, 2007, 2006 and 2005, respectively.

13. Activity of Business Segments

The Company operates through four segments:

Disposable Protective Apparel Products: consisting of a complete line of disposable protective clothing such as shoecovers (including the Aqua Trak® and spunbond shoecovers), bouffant caps, coveralls, frocks, lab coats and hoods, for the pharmaceutical, cleanroom, industrial and medical markets.

Infection Control Products: consisting of a line of face masks and eye shields principally for the medical, dental and industrial markets.

Extended Care Products: consisting of a line of medical bed pads using Unreal Lambskin® (synthetic lambskin). The Unreal Lambskin® is used to produce medical bed pads, which prevent decubitus ulcers or bedsores on long term care patients. The Unreal Lambskin® is also used to manufacture

Alpha Pro Tech, Ltd.**Notes to Consolidated Financial Statements**

bedrail pads, knee and elbow protectors, as well as wheelchair accessories. The Company also manufactures a line of pet beds with this material.

Engineered Products: consisting of a line of construction supply weatherization. The construction supply weatherization products consist of house wrap and synthetic roof underlayment. Of note, the Company's equity in income (loss) of unconsolidated affiliates (Harmony) is included in the total segment income for Engineered Products in the table below.

The accounting policies of the segments are the same as those described previously under Summary of Significant Accounting Policies. Segment data excludes charges allocated to head office and corporate sales/marketing departments and income taxes. The Company evaluates the performance of its segments and allocates resources to them based primarily on net sales.

The following table shows net sales for each segment:

	2007	Year Ended December 31, 2006	2005
Disposable Protective Apparel	\$ 22,583,000	\$ 21,183,000	\$ 19,444,000
Infection Control	6,512,000	6,944,000	5,136,000
Extended Care	1,131,000	1,430,000	1,802,000
Engineered Products	5,227,000	7,781,000	4,713,000
Consolidated total net sales	\$ 35,453,000	\$ 37,338,000	\$ 31,095,000

The following table shows the reconciliation of total segment income to total consolidated net income.

	2007	Year Ended December 31, 2006	2005
Disposable Protective Apparel	\$ 8,130,000	\$ 7,942,000	\$ 6,917,000
Infection Control	2,786,000	3,233,000	2,163,000
Extended Care	(16,000)	85,000	214,000
Engineered Products	(826,000)	717,000	(54,000)
Total segment income	10,074,000	11,977,000	9,240,000
Unallocated corporate overhead expenses	(6,359,000)	(5,948,000)	(5,380,000)
Provision for income taxes	(1,298,000)	(2,290,000)	(1,410,000)
Consolidated net income	\$ 2,417,000	\$ 3,739,000	\$ 2,450,000

Alpha Pro Tech, Ltd.**Notes to Consolidated Financial Statements**

The following reflects sales and long-lived asset information by geographic area:

	Year Ended December 31,		
	2007	2006	2005
Net sales by region			
United States	\$ 33,234,679	\$ 35,726,000	\$ 29,427,000
International	2,218,321	1,612,000	1,668,000
Consolidated total net sales	\$ 35,453,000	\$ 37,338,000	\$ 31,095,000
Long-lived assets by region			
United States	\$ 3,360,000	\$ 3,293,000	\$ 3,376,000
International	79,000	62,000	13,000
Consolidated total long-lived assets	\$ 3,439,000	\$ 3,355,000	\$ 3,389,000

Net sales by region are based on the countries in which the customers are located. For the years ended December 31, 2007, 2006 and 2005, the Company did not generate sales from any single foreign country that were significant to the Company's consolidated net sales.

14. Concentration of Risk

The Company maintains its cash and cash equivalents in accounts in several banks, the balances which at times may exceed federally insured limits.

The Company sells significant amounts of disposable protective apparel product to a large distributor on credit terms. The Company has had a contractual relationship with this distributor since 1995 and effective January 1, 2006 signed a multiple year contract which provides optional extensions beyond the initial term of the agreement. Previously, this distributor had exclusive rights to sell and distribute Alpha Pro Tech's Critical Cover® trade named products, and exclusive rights to sell and distribute Alpha Pro Tech branded products to domestic and international clean room and industrial customers. Under terms of the new contract, this distributor has the exclusive right to sell and distribute Alpha Pro Tech's Critical Cover® trade named products, but non-exclusive rights to sell and distribute Alpha Pro Tech branded products.

Net sales to this distributor were 45.1%, 45.1% and 53.1% of total sales for the years ended December 31, 2007, 2006 and 2005, respectively. Accounts receivable from this distributor represented 49.1% and 60.0% of total accounts receivable at December 31, 2007 and 2006, respectively. The loss of this customer would have a material adverse effect on the Company's business. Management believes that adequate provision has been made for risk of loss on all credit transactions.

The Company currently buys a significant amount of its disposable protective apparel products from one third party subcontractor located in China. Although there are a limited number of

F - 20

Alpha Pro Tech, Ltd.

Notes to Consolidated Financial Statements

manufacturers of the particular product, management believe that other suppliers could provide similar products at comparable terms. A change in suppliers, however, could cause a delay in shipment and a possible loss of sales, which would affect operating results adversely.

The Engineered Products segment buys semi-finished house wrap and synthetic roof underlayment from its joint venture, Harmony Plastics located in India. Although there are a limited number of manufacturers of the particular product, management believe that other suppliers could provide similar products at comparable terms. A change in suppliers however could cause a delay in shipment and a possible loss of sales, which would affect operating results adversely.

Alpha Pro Tech, Ltd. And Subsidiaries

Schedule II - Valuation and Qualifying Accounts

Description	Balance at Beginning of Period	Charged to Costs and Expenses	Charged to Other Accounts	Deductions	Balance at End of Period
Year Ended December 31, 2007					
Allowance for doubtful accounts	\$ 61,000	\$ 4,000	\$	\$	\$ 65,000
