------------------------------------	------------	---

#### 1. Organization and Significant Accounting Policies

Western Asset High Income Opportunity Fund Inc. (the Fund ) was incorporated in Maryland and is registered as a diversified, closed-end management investment company under the Investment Company Act of 1940, as amended (the 1940 Act ). The Fund s primary investment objective is to seek high current income. Capital appreciation is a secondary objective.

The following are significant accounting policies consistently followed by the Fund and are in conformity with U.S. generally accepted accounting principles ( GAAP ).

- (a) Investment Valuation. Debt securities are valued at the mean between the last quoted bid and asked prices provided by an independent pricing service that are based on transactions in debt obligations, quotations from bond dealers, market transactions in comparable securities and various other relationships between securities. Equity securities for which market quotations are available are valued at the last reported sales price or official closing price on the primary market or exchange on which they trade. When prices are not readily available, or are determined not to reflect fair value, such as when the value of a security has been significantly affected by events after the close of the exchange or market on which the security is principally traded, but before the Fund calculates its net asset value, the Fund may value these securities at fair value as determined in accordance with the procedures approved by the Fund s Board of Directors. Short-term obligations with maturities of 60 days or less are valued at amortized cost, which approximates fair value.
- (b) Repurchase Agreements. When entering into repurchase agreements, it is the Fund s policy that its custodian or a third party custodian take possession of the underlying collateral securities, the market value of which, at all times, at least equals the principal amount of the repurchase transaction, including accrued interest. To the extent that any repurchase transaction exceeds one business day, the value of the collateral is marked-to-market to ensure the adequacy of the collateral. If the seller defaults, and the market value of the collateral declines or if bankruptcy proceedings are commenced with respect to the seller of the security, realization of the collateral by the Fund may be delayed or limited.
- (c) Credit Default Swaps. The Fund may enter into credit default swap (CDS) contracts for investment purposes, to manage its credit risk or to add leverage. CDS agreements involve one party making a stream of payments to another party in exchange for the right to receive a specified return in the event of a default by a third party, typically corporate issuers or sovereign issuers of an emerging country, on a specified obligation. The Fund may use a CDS to provide a measure of protection against defaults of the issuers (i.e., to reduce risk where a Fund has exposure to the sovereign issuer) or to take an active long or short position with respect to the likelihood of a particular issuer s default. As a seller of protection, the Fund generally receives an upfront payment or a fixed rate of income throughout the term of the swap provided that there is no credit event. If the Fund is a seller of protection and a credit event occurs, as

defined under the terms of that particular swap agreement, the Fund will pay to the buyer of the protection an amount up to the notional value of the swap, and in certain instances take delivery of the security. As the seller, the Fund would effectively add leverage to its portfolio because, in addition to its total net assets, the Fund would be subject to investment exposure on the notional amount of the swap. As a buyer of protection, the Fund generally receives an amount up to the notional value of the swap if a credit event occurs.

(d) Credit and Market Risk. The Fund invests in high yield instruments that are subject to certain credit and market risks. The yields of high yield obligations reflect, among other things, perceived credit and market risks. The Fund s investment in securities rated below investment grade typically involves risks not associated with higher rated securities including, among others, greater risk related to timely and ultimate payment of interest and principal, greater market price volatility and less liquid secondary market trading.

(e) Security Transactions. Security transactions are accounted for on a trade date basis.

#### 2. Investments

At June 30, 2008, the aggregate gross unrealized appreciation and depreciation of investments for federal income tax purposes were substantially as follows:

#### Notes to Schedule of Investments (unaudited) (continued)

Gross unrealized appreciation \$8,193,153
Gross unrealized depreciation (65,880,019)
Net unrealized depreciation \$(57,686,866)

At June 30, 2008, the Fund held the following credit default swap contract:

Swap Counterparty: Referenced Entity: Notional Amount: Payments Received by Fund: Payments Made by Fund: Termination Date:

Unrealized Appreciation

Barclays Capital Inc. CDX.NA.HY.10 \$3,500,000

Payment only if credit event occurs

Fixed Rate, 5.000%

6/20/13 \$45,648

#### 3. Recent Accounting Pronouncements

On September 20, 2006, the Financial Accounting Standards Board (FASB) released Statement of Financial Accounting Standards No. 157, Fair Value Measurements (FAS 157). FAS 157 establishes an authoritative definition of fair value, sets out a framework for measuring fair value, and requires additional disclosures about fair value measurements. The application of FAS 157 is required for fiscal years beginning after November 15, 2007 and interim periods within those fiscal years. Management has determined that there is no material impact to the Funds valuation policies as a result of adopting FAS 157. The Fund will implement the disclosure requirements beginning with its December 31, 2008 Form N-Q.

\*\*\*

In March 2008, the FASB issued the Statement of Financial Accounting Standards No. 161, *Disclosures about Derivative Instruments and Hedging Activities* (FAS 161). FAS 161 is effective for fiscal years and interim periods beginning after November 15, 2008. FAS 161 requires enhanced disclosures about the Funds derivative and hedging activities, including how such activities are accounted for and their effect on the Funds financial position, performance and cash flows. Management is currently evaluating the impact the adoption of FAS 161 will have on the Funds financial statements and related disclosures.

#### ITEM 2. CONTROLS AND PROCEDURES.

(a) The registrant s principal executive officer and principal financial officer have

concluded that the registrant s disclosure controls and procedures (as defined in Rule 30a-3(c) under the Investment Company Act of 1940, as amended (the 1940 Act )) are effective as of a date within 90 days of the filing date of this report that includes the disclosure required by this paragraph, based on their evaluation of the disclosure controls and procedures required by Rule 30a-3(b) under the 1940 Act and

15d-15(b) under the Securities Exchange Act of 1934.

(b) There were no changes in the registrant s internal control over financial reporting (as

defined in Rule 30a-3(d) under the 1940 Act) that occurred during the registrant s last

fiscal quarter that have materially affected, or are likely to materially affect the

registrant s internal control over financial reporting.

#### ITEM 3. EXHIBITS.

Certifications pursuant to Rule 30a-2(a) under the Investment Company Act of 1940, as amended, are attached hereto.

#### **SIGNATURES**

Pursuant to the requirements of the Securities Exchange	Act of 1934 and the Investment	Company Act of 1940	, the registrant has duly caused
this report to be signed on its behalf by the undersigned.	thereunto duly authorized.
