AAR CORP. and Subsidiaries

Notes to Condensed Consolidated Financial Statements

February 28, 2013

(Unaudited)

(Dollars in millions, except per share amounts)

### **Note 1 Basis of Presentation**

AAR CORP. and its subsidiaries are referred to herein collectively as "AAR," "Company," "we," "us," and "our," unless the context indicates otherwise. The accompanying condensed consolidated financial statements include the accounts of AAR and its subsidiaries after elimination of intercompany accounts and transactions.

We have prepared these statements without audit, pursuant to the rules and regulations of the United States Securities and Exchange Commission ( "SEC" ). The condensed consolidated balance sheet as of May 31, 2012 has been derived from audited financial statements. To prepare the financial statements in conformity with U.S. generally accepted accounting principles ( "GAAP" ), management has made a number of estimates and assumptions relating to the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities. Actual results could differ from those estimates. Certain information and note disclosures, normally included in comprehensive financial statements prepared in accordance with GAAP, have been condensed or omitted pursuant to such rules and regulations of the SEC. These condensed consolidated financial statements should be read in conjunction with the consolidated financial statements and notes thereto included in our latest annual report on Form 10-K.

In the opinion of management, the condensed consolidated financial statements reflect all adjustments (which consist only of normal recurring adjustments) necessary to present fairly the condensed consolidated financial position of AAR CORP. and its subsidiaries as of February 28, 2013, the condensed consolidated statements of income and the condensed consolidated statements of comprehensive income for the three- and nine-month periods ended February 28, 2013 and February 29, 2012, the condensed consolidated statements of cash flows for the nine-month periods ended February 28, 2013 and February 29, 2012 and the condensed consolidated statement of changes in equity for the nine-month period ended February 28, 2013. The results of operations for such interim periods are not necessarily indicative of the results for the full year.

### **Note 2 Revenue Recognition**

Sales and related cost of sales for product sales are recognized upon shipment of the product to the customer. Our standard terms and conditions provide that title passes to the customer when the product is shipped to the customer. Sales of certain defense products are recognized upon customer acceptance, which includes transfer of title. Under the majority of our expeditionary airlift services contracts, we are paid and record as revenue a fixed daily amount per aircraft for each day an aircraft is available to perform airlift services. In addition, we are paid and record as revenue an amount which is based on number of hours flown. Sales from services and the related cost of services are generally recognized when customer-owned material is shipped back to the customer. We have adopted this accounting policy because at the time the customer-owned material is shipped back to the customer, all services related to that material are complete as our service agreements generally do not require us

## Edgar Filing: AAR CORP - Form 10-Q

to provide services at customer sites. Furthermore, serviced units are typically shipped to the customer immediately upon completion of the related services. Sales and related cost of sales for certain long-term manufacturing contracts and certain large airframe maintenance contracts and performance-based logistics programs are recognized by the percentage of completion method, either based on the relationship of costs incurred to date to estimated total costs or the units of delivery method. Lease revenues are recognized as earned. Income from monthly or quarterly rental payments is recorded in the pertinent period according to the lease agreement. However, for leases that provide variable rents, we recognize lease income on a straight-line basis. In addition to a monthly lease rate, some engine leases require an additional rental amount based on the number of hours the engine is used in a particular month. Lease income associated with these contingent rentals is recorded in the period in which actual usage is reported to us by the lessee, which is normally the month following the actual usage.

Certain supply chain management programs we provide our customers contain multiple elements or deliverables, such as program and warehouse management, parts distribution and maintenance and repair services. We recognize revenue for each element or deliverable that can be identified as a separate unit of accounting at the time of delivery based upon the relative fair value of the products and services.

Included in accounts receivable as of February 28, 2013 and May 31, 2012, are \$31.4 million and \$36.2 million, respectively, of unbilled accounts receivable related to our KC10 supply agreement. These unbilled accounts receivable relate to costs we have incurred on parts that were requested and accepted by our customer to support the program. These costs have not been billed by us because the customer has not approved and issued the final paperwork necessary to allow for billing.

# Edgar Filing: AAR CORP - Form 10-Q

## Table of Contents

AAR CORP. and Subsidiaries

Notes to Condensed Consolidated Financial Statements

February 28, 2013

(Unaudited)

(Dollars in millions, except per share amounts)

In addition to the unbilled accounts receivable, included in *Other* on the condensed consolidated balance sheet as of February 28, 2013 and May 31, 2012, are \$35.8 million and \$27.9 million, respectively, of costs in excess of amounts billed for the same KC10 supply agreement. We expect to recover costs in excess of amounts billed through future billings over the life of the program.

### **Note 3 Accounting for Stock-Based Compensation**

#### *Stock Options*

In July 2012, as part of our annual long-term stock incentive compensation, we granted 958,180 stock options to eligible employees at an exercise price of \$12.90 and fair value of \$4.6 million. The fair value of stock options is estimated on the date of grant using the Black-Scholes option pricing model with the following assumptions:

	Nine Months Ended February 28/29,	
	2013	2012
Risk-free interest rate	0.6%	1.5%
Expected volatility of common stock	51%	46%
Dividend yield	2.3%	1.0%
Expected option term in years	5.4	5.7

The total intrinsic value of stock options exercised during the nine-month periods ended February 28, 2013 and February 29, 2012 was \$0.3 million and \$3.3 million, respectively. Expense charged to operations for stock options was \$1.0 million and \$1.1 million during the third quarters of fiscal years 2013 and 2012, respectively, and \$2.6 million and \$3.3 million during the nine months ended February 28, 2013 and February 29, 2012, respectively.

#### *Restricted Stock*

## Edgar Filing: AAR CORP - Form 10-Q

In July 2012, as part of our annual long-term stock incentive compensation, we granted 53,280 shares of performance-based restricted stock and 65,780 restricted shares to eligible employees. The grant date fair value per share was \$12.90. We also granted 45,000 restricted shares to members of the Board of Directors with a grant date fair value per share of \$11.56. Expense charged to operations for restricted stock was \$2.3 million and \$2.7 million during the third quarters of fiscal years 2013 and 2012, respectively, and \$5.4 million and \$6.6 million during the nine months ended February 28, 2013 and February 29, 2012, respectively.

### Note 4 Inventory

The summary of inventories is as follows:

	February 28, 2013	May 31, 2012
Raw materials and parts	\$ 96.2	\$ 101.3
Work-in-process	85.7	64.7
Purchased aircraft, parts, engines and components held for sale	306.4	295.2
	\$ 488.3	\$ 461.2

### Note 5 Supplemental Cash Flow Information

	2013	Nine Months Ended February 28/29,		2012
Interest paid	\$ 24.7	\$	11.9	
Income taxes paid	20.2		8.5	
Income tax refunds received	5.9		5.1

### **Note 6 Financing Arrangements**

A summary of the carrying amount of our debt is as follows:

	<b>February 28, 2013</b>	<b>May 31, 2012</b>
Revolving credit facility expiring April 12, 2016 with interest payable monthly	\$ 305.0	\$ 280.0
Revolving credit facility (secured by aircraft and related engines and components) due April 23, 2015 with floating interest rate, payable monthly	27.4	33.0
Revolving credit facility subject to annual review in March with interest payable quarterly	0.6	0.6
Note payable due July 19, 2012 with interest at 7.22%, payable monthly		8.4
Note payable due March 15, 2014 with floating interest rate, payable monthly	1.6	2.6
Note payable due March 9, 2017 with floating interest rate, payable quarterly	40.0	50.0
Note payable due January 15, 2022 with interest at 7.25%, payable semi-annually on January 15 and July 15	172.2	172.1
Mortgage loan (secured by Wood Dale, Illinois facility) due August 1, 2015 with interest at 5.01%	11.0	11.0
Convertible notes payable due March 1, 2014 with interest at 1.625%, payable semi-annually on March 1 and September 1	65.0	68.5
Convertible notes payable due February 1, 2015 with interest at 1.75%, payable semi-annually on February 1 and August 1	29.3	
Convertible notes payable due March 1, 2016 with interest at 2.25%, payable semi-annually on March 1 and September 1	43.0	46.1
Convertible notes payable due February 1, 2026 with interest at 1.75%, payable semi-annually on February 1 and August 1	2.7	94.9
Industrial revenue bond (secured by trust indenture on property, plant and equipment) due August 1, 2018 with floating interest rate, payable monthly	25.0	25.0
Total debt	722.8	792.2
Current maturities of debt	(22.2)	(122.8)
Long-term debt	\$ 700.6	\$ 669.4

During the third quarter of fiscal 2013, pursuant to the terms of the indenture, certain holders of our 1.75% Convertible Senior Notes due 2026 (the "Securities") exercised the right to surrender their Securities for purchase by us (the "Put Option"). The Put Option entitled each holder of the Securities to surrender to us for purchase all or any part of such holder's Securities at a purchase price equal to 100% of the principal amount, plus accrued interest. The aggregate purchase price including principal, accrued and unpaid interest for the Securities surrendered for purchase pursuant to the Put Option was \$63.6 million. The purchases were funded primarily by cash on hand and free cash flow.

## Edgar Filing: AAR CORP - Form 10-Q

On February 14, 2013, we completed an exchange agreement with an institutional holder to exchange \$22.7 million aggregate principal amount of the Securities, plus cash in the amount of \$7.3 million for a new \$30.0 million convertible note (the "New Note"). The New Note was issued in a private placement, is subject to customary resale restrictions, and has no registration rights. The New Note matures on February 1, 2015 unless redeemed earlier by us with a 30 days' notice to the holder at a call price reflecting a yield to maturity of 3.75% from inception. We may redeem the New Note at any time before February 1, 2014 in the event of a change in control or at any time from February 1, 2014 through February 1, 2015 with a call price at maturity of 104.038. Upon conversion, the holder of the New Note shall be entitled to receive only cash and not shares of common stock. The New Note bears interest at a coupon rate of 1.75% per year, payable semi-annually on February 1 and August 1.

Those holders that did not surrender their Securities for purchase pursuant to the Put Option retained the right to convert their Securities, subject to the terms, conditions and adjustments applicable to the Securities. At February 28, 2013, the Securities remaining outstanding were \$2.7 million. We expect to repurchase the remaining portion during the fourth quarter of fiscal 2013.

# Edgar Filing: AAR CORP - Form 10-Q

## Table of Contents

### AAR CORP. and Subsidiaries

#### Notes to Condensed Consolidated Financial Statements

February 28, 2013

(Unaudited)

(Dollars in millions, except per share amounts)

During the nine-month period ended February 28, 2013, we repurchased \$6.4 million par value of our 1.625% convertible notes due March 1, 2014, \$5.5 million par value of our 2.25% convertible notes due March 1, 2016 and \$11.0 million par value of our 1.75% convertible notes due February 1, 2026. The 1.625% notes, 2.25% notes and 1.75% notes were repurchased for \$6.1 million, \$4.9 million and \$11.0 million cash, respectively, with a total loss of \$0.3 million after consideration of unamortized discount and debt issuance costs. The losses on the debt repurchases for the 1.625%, 2.25% and 1.75% convertible notes are recorded in *Loss on extinguishment of debt* on the condensed consolidated statements of income.

During the nine-month period ended February 28, 2013, we paid \$8.4 million principal amount of our 7.22% notes payable due July 19, 2012.

At February 28, 2013, the face value of our debt was \$736.5 million and the estimated fair value was approximately \$743.8 million. The fair value amounts of our long-term debt securities are estimated using significant other observable inputs including quoted prices for similar assets or liabilities in active markets and quoted prices for identical or similar assets or liabilities in markets that are not active. The debt is classified as Level 2 in the fair value hierarchy.

On January 22, 2013, we exchanged all of the outstanding unregistered 7.25% Senior Notes due 2022, which we issued in an exempt offering on January 23, 2012, for substantially identical notes that were registered under the Securities Act of 1933. These notes are now fully and unconditionally guaranteed, jointly and severally, on a senior unsecured basis by substantially all of our existing domestic and foreign subsidiaries.

We are subject to a number of covenants under our financing arrangements, including restrictions which relate to the payment of cash dividends, maintenance of minimum net working capital and minimum net worth levels, fixed charge coverage ratio, sales of assets, additional financing, purchase of our shares and other matters. We are in compliance with all financial covenants under our financing arrangements.

### *Convertible Notes*

As of February 28, 2013 and May 31, 2012, the long-term debt and equity components (recorded in capital surplus, net of income tax benefit) consisted of the following:

Edgar Filing: AAR CORP - Form 10-Q

	February 28, 2013	May 31, 2012
Long-term debt:		
Principal amount	\$ 150.9	\$ 229.3
Unamortized discount	(10.9)	(19.8)
Net carrying amount	\$ 140.0	\$ 209.5
Equity component, net of tax	\$ 75.3	\$ 74.8

The discount on the liability component of long-term debt is being amortized using the effective interest method based on an effective rate of 6.82% for our 1.625% convertible notes, 5.00% for our 1.75% convertible notes due February 1, 2015 and 7.41% for our 2.25% convertible notes. For our 1.625%, 1.75% and 2.25% convertible notes, the discount is being amortized through their respective maturity dates of March 1, 2014, February 1, 2015 and March 1, 2016. For our 1.75% convertible notes due February 1, 2026, the discount was amortized through February 1, 2013, which was the first put date for those notes.

As of February 28, 2013 and February 29, 2012, for each of our convertible note issuances, the if converted value does not exceed its principal amount.

Table of Contents

## AAR CORP. and Subsidiaries

## Notes to Condensed Consolidated Financial Statements

February 28, 2013

(Unaudited)

(Dollars in millions, except per share amounts)

The interest expense associated with the convertible notes was as follows:

	Three Months Ended February 28/29,				Nine Months Ended February 28/29,			
	2013	2012	2013	2012	2013	2012	2013	2012
Coupon interest	\$	0.8	\$	1.3	\$	2.8	\$	3.7
Amortization of deferred financing fees		0.1		0.2		0.4		0.6
Amortization of discount		2.3		3.3		7.9		9.8
Interest expense related to convertible notes	\$	3.2	\$	4.8	\$	11.1	\$	14.1

**Note 7 Derivative Instruments and Hedging Activities**

We are exposed to interest rate risk associated with fluctuations in interest rates on our variable rate debt. We utilize two derivative financial instruments to manage our variable interest rate exposure over a medium- to long-term period. We have a floating-to-fixed interest rate swap and an interest rate cap agreement to each hedge \$50.0 million of notional principal balance under our revolving credit agreement.

We do not hold or issue derivative instruments for trading purposes and are not a party to any instruments with leverage or prepayment features. In connection with derivative financial instruments, there exists the risk of the possible inability of counterparties to meet the terms of their contracts. We mitigate this risk by performing financial reviews before the contract is entered into, as well as on-going periodic evaluations. We do not expect any significant losses from counterparty defaults.

We classify the derivatives as assets or liabilities on the balance sheet. Accounting for the change in fair value of the derivatives is a function of whether the instrument qualifies for, and has been designated as, a hedging relationship, and the type of hedging relationship. As of February 28, 2013, all of our derivative instruments were classified as cash flow hedges. The fair value of the interest rate swap and interest cap agreements represents the difference in the present values of cash flows calculated at the contracted interest rates and at current market interest rates at the end of the reporting period.

We record the fair value of assets and liabilities in accordance with the hierarchy established by the authoritative guidance for fair value measurements. The fair value of our interest rate derivatives are classified as Level 2, which refers to fair values estimated using significant other observable inputs including quoted prices for similar assets or liabilities in active markets and quoted prices for identical or similar assets

Edgar Filing: AAR CORP - Form 10-Q

or liabilities in markets that are not active. The following table summarizes the classification and fair values of our interest rate derivative instruments reported in the condensed consolidated balance sheet as of February 28, 2013.

Derivatives designated as hedging instruments	Balance Sheet Classification	Derivative Assets February 28, 2013	Derivative Liabilities February 28, 2013
Interest rate cap	Long-term assets	\$ 0.1	\$
Interest rate swap	Long-term liabilities		(4.4)

Interest rate cap	Long-term assets	\$ 0.2	\$
Interest rate swap	Long-term liabilities		(4.5)

We include gains and losses on the derivative instruments in other comprehensive income. We recognize the gains and losses on our derivative instruments as an adjustment to interest expense in the period the hedged interest payment affects earnings. The impact of the interest rate swap and interest cap agreement on the condensed consolidated statement of comprehensive income for the three-month periods ended February 28, 2013 and February 29, 2012 was an unrealized gain of \$0.4 million and an unrealized loss of \$0.9 million, respectively. The impact of the interest rate swap and interest cap agreement on the condensed consolidated statement of comprehensive income for the nine-month periods ended February 28, 2013 and February 29, 2012 was zero and an unrealized loss of \$5.1 million, respectively.

AAR CORP. and Subsidiaries

Notes to Condensed Consolidated Financial Statements

February 28, 2013

(Unaudited)

(Dollars in millions, except per share amounts)

We expect minimal gain or loss to be reclassified into earnings within the next 12 months.

**Note 8 Earnings per Share**

The computation of basic earnings per share is based on the weighted average number of common shares outstanding during each period. The computation of diluted earnings per share is based on the weighted average number of common shares outstanding during the period plus, when their effect is dilutive, incremental shares consisting of shares subject to stock options, shares issuable upon vesting of restricted stock awards and shares to be issued upon conversion of convertible debt.

We use the if-converted method in calculating the diluted earnings per share effect of the assumed conversion of our contingently convertible debt issued in fiscal 2006 because the principal for that issuance can be settled in stock, cash or a combination thereof. Under the if converted method, the after-tax effect of interest expense related to the convertible securities is added back to net income, and the convertible debt is assumed to have been converted into common shares at the beginning of the period.

In accordance with ASC 260-10-45, *Share-Based Payment Arrangements and Participating Securities and the Two-Class Method*, our unvested restricted stock awards are deemed participating securities since these shares are entitled to participate in dividends declared on common shares. During periods of net income, the calculation of earnings per share for common stock exclude income attributable to unvested restricted stock awards from the numerator and exclude the dilutive impact of those shares from the denominator. During periods of net loss, no effect is given to the participating securities because they do not share in the losses of the Company.

(Unaudited)

(Dollars in millions, except per share amounts)

### **Note 9 Acquisitions**

On December 2, 2011, we acquired Telair International GmbH ( Telair ) and Nordisk Aviation Products, AS ( Nordisk ). Telair is a leader in the design, manufacture and support of cargo loading systems for wide-body and narrow-body aircraft with established positions on the world's most popular current and next-generation passenger and freighter aircraft. Telair operates from facilities in Germany, Sweden and Singapore. Nordisk designs and manufactures heavy duty pallets and lightweight cargo containers for commercial airlines from facilities in Norway and China. The purchase price of the acquisition was \$280.0 million paid at closing, plus or minus a working capital adjustment. During the fourth quarter of fiscal 2012, the working capital adjustment was finalized, which increased the purchase price to \$296.5 million. The \$16.5 million was paid in the first quarter of fiscal 2013. The businesses operate as part of our Technology Products segment.

During the second quarter of fiscal 2013, we completed the final purchase price allocation for Telair and Nordisk. We made an adjustment between goodwill and identified intangibles of \$11.0 million as part of the final purchase price allocation. Our balance sheet at May 31, 2012 has not been retrospectively adjusted to reflect the adjustment as it is not material. The results of the final purchase price allocation are as follows:

Cash	\$	1.5
Accounts receivable		47.1
Inventories		54.5
Prepaid expenses		4.1
Property, plant and equipment		17.0
Deferred tax assets		34.3
Goodwill		103.9
Identified intangibles		120.0
Notes payable		(1.6)
Accounts payable		(14.7)
Deferred tax liabilities		(34.3)
Accrued liabilities		(27.5)
Other long-term liabilities		(7.8)

On October 11, 2011, we acquired Airinmar Holdings Limited ( Airinmar ), a sophisticated repair, outsourcing and warranty claim manager. Airinmar operates as part of our Aviation Services segment. Total consideration was estimated to be \$43.5 million, which included \$23.2 million cash paid at closing, and a potential earn-out payment of \$20.3 million. The potential earn-out payment was to be based upon Airinmar achieving certain EBITDA (earnings before interest, taxes, depreciation and amortization) levels over a two-year period, as well as retaining certain key customers. In accordance with GAAP, a liability of \$20.3 million was recognized as an estimate of the acquisition date fair value of the earn-out and was included in *Other liabilities and deferred income* on our consolidated balance sheet as of February 29, 2012. During the

## Edgar Filing: AAR CORP - Form 10-Q

fourth quarter of 2012, this estimate was reduced by \$3.4 million and this change in the fair value of the earn-out was recognized in earnings. During the third quarter of fiscal 2013, we agreed with Airinmar to a \$4.6 million final settlement for the earn-out. The \$9.0 million change in the fair value of the earn-out liability was recognized in earnings. We expect the settlement payment to be made during the fourth quarter of fiscal 2013.

During the first quarter of fiscal 2013, we completed the final purchase price allocation for Airinmar and the results are as follows:

Cash	\$	3.7
Prepaid expenses		0.9
Deferred tax assets		5.3
Identified intangibles		20.8
Deferred tax liabilities		(5.3)

(Unaudited)

(Dollars in millions, except per share amounts)

**Note 10 Program Development Costs**

Our Cargo Systems business was selected in June 2005 to provide cargo loading systems for the new Airbus A400M Military Transport Aircraft ( A400M ). We expect our portion of the revenue from this program to exceed \$300 million over the period beginning with the first shipment of the aircraft through fiscal 2021, based on current sales projections for the A400M and expected pricing increases in the cargo loading system to be negotiated with Airbus due to changes in contract specifications. As of February 28, 2013 and May 31, 2012, we have capitalized, net of reimbursements, \$125.4 million and \$91.9 million, respectively, of costs associated with the engineering and development of the cargo system. Sales and related cost of sales will be recognized on the units of delivery method. In determining the recoverability of the capitalized program development costs, we have made certain judgments and estimates concerning expected revenues and the cost to manufacture the A400M cargo system. We are currently engaged in discussions with Airbus to modify the contract as a result of disputes between the parties. These contract modifications may result in reductions in our role and responsibilities as well as reductions in our expected revenues under the contract. Failure to reach agreement on contract modifications may lead to arbitration of the parties' disputes under the dispute resolution provisions of the contract. Differences between actual results and our assumptions may result in our not fully recovering some or all of our program development costs, which could adversely affect our operating results and financial condition.

**Note 11 Aircraft Portfolio**

Within our Aviation Services segment, we own commercial aircraft with joint venture partners as well as aircraft that are wholly-owned. These aircraft are available for lease or sale to commercial air carriers.

*Aircraft Owned through Joint Ventures*

As of February 28, 2013, we had ownership interests in four aircraft with joint venture partners. As of February 28, 2013 and May 31, 2012, our equity investment in aircraft owned with joint venture partners was approximately \$26.7 million and \$41.3 million, respectively, and is included in *Investment in joint ventures* on the condensed consolidated balance sheet. Included in these amounts are notes receivables for six aircraft which the joint ventures have sold. Our aircraft joint ventures represent investments in limited liability companies that are accounted for under the equity method of accounting. Our membership interest in each of these limited liability companies is 50%, and the primary business of these companies is the acquisition, ownership, lease and disposition of certain commercial aircraft. Aircraft are purchased with cash contributions by the members of the companies and debt financing provided to the limited liability companies on a limited recourse basis. Under the terms of servicing agreements with certain of the limited liability companies, we provide administrative services and technical advisory services, including aircraft evaluations, oversight and logistical support of the maintenance process and records management. We also provide

## Edgar Filing: AAR CORP - Form 10-Q

remarketing services with respect to the divestiture of aircraft by the limited liability companies. For the nine-month periods ended February 28, 2013 and February 29, 2012, we were paid \$0.4 million and \$0.5 million, respectively, for such services. The income tax benefit or expense related to the operations of the ventures is recorded by the member companies.

Distributions from joint ventures are classified as operating or investing activities in the condensed consolidated statements of cash flows based upon an evaluation of the specific facts and circumstances of each distribution.

Summarized financial information for these limited liability companies is as follows:

	Three Months Ended February 28/29,				Nine Months Ended February 28/29,			
	2013		2012		2013		2012	
Sales	\$	83.0	\$	7.6	\$	113.1	\$	29.1
Income before provision for income taxes		6.7		0.4		12.1		1.5

During the third quarter of fiscal 2013, the joint ventures partners sold ten aircraft for \$64.0 million and during the second quarter the joint venture partners sold two aircraft for \$13.9 million.

1	737-300	1997	Small Planet Airlines	2015	Re-lease
2					

**Note 12 Business Segment Information**

Prior to the second quarter of fiscal year 2013, we reported our activities in the following four business segments: Aviation Supply Chain; Government and Defense Services; Maintenance, Repair and Overhaul and Structures and Systems. During the second quarter, we changed our segment presentation to reflect the way our Chief Executive Officer now evaluates performance and the way we are organized internally. We now report our activities in the following two business segments: Aviation Services and Technology Products. The new Aviation Services segment includes our former Aviation Supply Chain and Maintenance, Repair and Overhaul segments and most of the former Government and Defense Services segment, and the new Technology Products segment represents our former Structures and Systems business segment and our small shelter integration business, which

# Edgar Filing: AAR CORP - Form 10-Q

## Table of Contents

AAR CORP. and Subsidiaries

Notes to Condensed Consolidated Financial Statements

February 28, 2013

(Unaudited)

(Dollars in millions, except per share amounts)

previously was part of the Government and Defense Services segment. We have recast all prior periods presented to conform to the new segment presentation.

In conjunction with the change in segments, a goodwill impairment test was required to be performed. We used a two-step process to evaluate goodwill for impairment. In the first step, we compared the fair value of each reporting unit with the carrying value of the reporting unit, including goodwill. We estimated the fair value of each reporting unit using a valuation technique based on a multiple of earnings or discounted cash flows. If the estimated fair value of the reporting unit is less than the carrying value of the reporting unit, we would be required to complete a second step to determine the amount of goodwill impairment. In the second step, we would determine an implied fair value of the reporting unit's goodwill by allocating the reporting unit's fair value to all of the assets and liabilities other than goodwill. We then would compare the implied fair value of goodwill to the carrying amount and recognize the difference as an impairment charge.

The assumptions we used to estimate the fair value of our reporting units are based on historical performance as well as forecasts used in our current business plan and require considerable management judgment. The fair value measurements used for our goodwill impairment testing use significant unobservable inputs which reflect our own assumptions about the inputs that market participants would use in measuring fair value. The fair value of our reporting units is also impacted by our overall market capitalization and may be impacted by volatility in our stock price and assumed control premium, among other items.

Based on the results of the step one impairment test performed as of November 30, 2012, we determined that the estimated fair value of each reporting unit prepared on a pre- and post-segment change basis exceeded its net asset carrying value. Accordingly, there was no indication of impairment and the second step was not performed.

A description of the products and services of our two business segments, Aviation Services, and Technology Products, is as follows.

Sales in the Aviation Services segment are derived from the sale and lease of a wide variety of new, overhauled and repaired engine and airframe parts and components to the commercial aviation and government and defense markets. We provide customized inventory supply chain management, performance based logistics programs, aircraft component repair management services, and aircraft modifications. The segment also includes repair, maintenance and overhaul of aircraft and landing gear and expeditionary airlift services. Cost of sales consists principally of the cost of product, direct labor, overhead, aircraft maintenance costs, and the cost of lease revenue (primarily depreciation and insurance).

## Edgar Filing: AAR CORP - Form 10-Q

Sales in the Technology Products segment are derived from the engineering, designing and manufacturing of containers, pallets and shelters used to support the U.S. military's requirements for a mobile and agile force and system integration services for specialized command and control systems. The segment also manufactures heavy-duty pallets and lightweight cargo containers for the commercial market, in-plane cargo loading and handling systems for commercial and military applications, and steel and composite machined and fabricated parts, components and sub-systems for various aerospace and defense programs. Cost of sales consists principally of the cost of product, direct labor and overhead.

The accounting policies for the segments are the same as those described in Note 1 of Notes to Consolidated Financial Statements included in our annual report on Form 10-K for the year ended May 31, 2012. Our chief operating decision making officer (Chief Executive Officer) evaluates performance based on the reportable segments and utilizes gross profit as a primary profitability measure. The expenses and assets related to corporate activities are not allocated to the segments. Our reportable segments are aligned principally around differences in products and services.

Interest income	0.4	0.5	1.1	0.9
Income before provision for income taxes	\$ 27.8	\$ 25.6	\$ 83.0	\$ 77.8

Table of Contents**Item 2 Management's Discussion and Analysis of Financial Condition and Results of Operations (Dollars in millions)****General Overview**

Prior to the second quarter of fiscal year 2013, we reported our activities in the following four business segments: Aviation Supply Chain; Maintenance, Repair and Overhaul; Government and Defense Services and Structures and Systems. During the second quarter, we changed our segment presentation to reflect the way our Chief Executive Officer now evaluates performance and the way we are organized internally. We now report our activities in the following two business segments: Aviation Services and Technology Products. The new Aviation Services segment includes our former Aviation Supply Chain and Maintenance, Repair and Overhaul segments and most of the former Government and Defense Services segment, and the new Technology Products segment represents our former Structures and Systems segment and our small shelter integration business, which previously was part of the Government and Defense Services segment. We have recast all prior periods presented to conform to the new segment presentation.

The table below sets forth consolidated sales for our two business segments for the three- and nine-month periods ended February 28, 2013 and February 29, 2012.

	Three Months Ended February 28/29,		Nine Months Ended February 28/29,	
	2013	2012	2013	2012
Sales:				
Aviation Services	\$ 408.2	\$ 373.3	\$ 1,197.2	\$ 1,146.3
Technology Products	112.0	160.9	386.3	355.4
	\$ 520.2	\$ 534.2	\$ 1,583.5	\$ 1,501.7

During the first nine months of fiscal 2013, sales to commercial customers increased 18.9% compared to the prior year and represented 60% of consolidated sales. Commercial sales growth during the first nine months of fiscal 2013 was primarily driven by the inclusion of sales at Telair International GmbH ( Telair ) and Nordisk Aviation Products, AS ( Nordisk ), acquired during the third quarter of fiscal 2012. In addition, we had strong organic growth at our airframe maintenance centers, parts supply and engineering services businesses. The prior year included approximately \$49.0 million in wholly-owned aircraft sales. There were no wholly-owned aircraft sales in the first nine months of the current fiscal year.

During the first nine months of fiscal 2013, sales to global government and defense customers decreased 9.8% compared to the prior year and for the nine months ended February 28, 2013 represented 40% of consolidated sales. Overall sales to government and defense customers declined due to lower logistics program activity and lower volumes at our mobility products business, partially offset by increased sales at our Airlift business.

Airlift derives most of its revenue from providing supplemental airlift in Afghanistan for the U.S. Department of Defense. The U.S. has announced plans to cease military activities in Afghanistan in 2014, and withdraw its troops, although the timing and number of troops to be withdraw is not precisely known. Airlift has multiple contracts with option renewals in May, October and November 2013 with an aggregate annual sales value of approximately \$325 million. Based on our conversations with our customers, we believe it is likely that some or all of these options will be exercised; however, we have not received official notification, which typically comes within 30 days of option renewal.

## Edgar Filing: AAR CORP - Form 10-Q

Our Airlift business is performing exceptionally well and is meeting or exceeding all of its customers' operational metrics. We are pursuing other opportunities outside of Afghanistan with the Department of Defense, other branches of the U.S. government, non-governmental organizations and in the commercial sector.

Defense funding is currently facing pressure due to U.S. budget deficit challenges. Congress enacted the Budget Control Act of 2011 ( Budget Act ), which reduced defense spending by a minimum of \$487 billion over a ten-year period that began in government fiscal year 2012. Considering the Budget Act and deficit reduction pressures, it is likely that discretionary spending by the federal government will remain constrained for several years.

Table of Contents

The American Taxpayer Relief Act of 2012 ( Taxpayer Relief Act ) delayed the pending sequestration of appropriations imposed by the Budget Act by two months, from January 2, 2013 to March 1, 2013, and reduced the amount of the government fiscal year 2013 budget cuts. In addition, Congress passed a continuing resolution funding measure for the government fiscal year 2013 to finance all U.S. Government activities through March 27, 2013. Under this continuing resolution, partial-year funding at amounts consistent with appropriate levels for the government fiscal year 2012 are available, subject to other restrictions, but new spending initiatives are not authorized. Sequestration went into effect March 1, 2013.

While the specific effects of sequestration still cannot be determined, the automatic across-the-board cuts would approximately double the amount of the ten-year \$487 billion reduction in defense spending that began in government fiscal year 2012 already required by the Budget Act. At this time, we have no information from our defense customers or otherwise that would allow us to estimate the impact of sequestration on our defense sales; however, our government-related business could be adversely impacted if no legislative or other solution is reached in the near future and sequestration remains in effect for an extended period.

**Results of Operations**

**Three-Month Period Ended February 28, 2013**

Consolidated sales for the third quarter ended February 28, 2013 decreased \$14.0 million compared to the prior year period. Sales to commercial customers increased 6.6% compared to the prior year due to strong organic growth at our airframe maintenance centers, parts supply and engineering services businesses. Sales to government and defense customers decreased 14.7% compared to the prior year. We had very strong sales growth in our Airlift business; however, overall sales to government and defense customers declined primarily due to lower volumes at our mobility products business.

In the Aviation Services segment, sales increased \$34.9 million or 9.3% over the prior year. The sales increase was driven by a number of factors, including increased program activity in our parts support business as a result of a component support contract executed in the fourth quarter of fiscal 2012; growth at our airframe maintenance centers reflecting new contract wins and expanded relationships with existing customers; and the favorable impact on sales of fleet utilization improvement at Airlift. The sales increases were partially offset by weaker sales in our defense logistics business due to lower program activity driven by reduced flight hours.

Gross profit in the Aviation Services segment increased \$0.6 million or 1.0%, and the gross profit margin percentage decreased to 14.5% from 15.6% in the prior year. The decrease in the gross margin percentage was primarily due to an agreement with a buyer to dispose of certain inventory that supported our airframe parts trading business unit, which resulted in a \$9.1 million loss on inventory. Partially offsetting this impact, we had increased gross profit and improved margins at our Airlift business due to the improved rate of fully mission critical fixed and rotary wing aircraft. In addition, we improved operational efficiencies and increased volume at our MRO airframe centers.

In the Technology Products segment, sales decreased \$48.9 million or 30.4% over the prior year primarily driven by the completion of a large contract and lower demand for shelters and containers due to the drawdown of the war effort and lower demand on certain other programs as the Department of Defense has reduced spending for types of products we produce.

## Edgar Filing: AAR CORP - Form 10-Q

Gross profit in the Technology Products segment decreased \$11.3 million or 39.6%, and the gross profit margin percentage decreased to 15.4% from 17.7% in the prior year. The decline in margin percentage resulted from the decline in our high margin mobility business.

Selling, general and administrative expenses decreased \$9.4 million due to the final settlement on the Airinmar earn-out payment. We negotiated a final payment on the earn-out liability related to the Airinmar acquisition. The final negotiated settlement was \$9.0 less than the estimated amount of the obligation (See Note 9 of Notes to Condensed Consolidated Financial Statements).

Operating income increased \$1.8 million or 5.0% compared with the prior year, while net interest expense decreased \$0.4 million or 3.9% compared to the prior year due to reduced outstanding debt obligations.

Table of Contents

Our effective income tax rate was approximately 33.5%, compared to 18.8% last year. During the third quarter of the prior year, we recorded a \$4.0 million reduction in income tax expense, primarily related to the reduction in our state income tax rate from the implementation of state income tax planning strategies, which included a new corporate structure and the relocation of one of our significant businesses.

Net income was \$18.4 million compared to \$20.6 million in the prior year due to the factors discussed above.

**Nine-Month Period Ended February 28, 2013**

Consolidated sales for the nine months ended February 28, 2013 increased \$81.8 million or 5.4% compared to the prior year period. Sales to commercial customers increased 18.9% compared to the prior year due to sales from the newly acquired businesses, Telair and Nordisk. In addition, we had strong organic growth at our airframe maintenance centers, parts supply and engineering services businesses. Sales to government and defense customers decreased 9.8% compared to the prior year. We had strong sales growth in our Airlift business; however, overall sales to government and defense customers declined due to lower logistics programs activity and expected lower volumes at our mobility products business.

In the Aviation Services segment, sales increased \$50.9 million or 4.4% over the prior year. The sales increase was driven by a number of factors, including increased program activity in our parts support business as a result of a component support contract executed in the fourth quarter of fiscal 2012; growth at our airframe maintenance centers reflecting new contract wins and expanded relationships with existing customers; and the favorable impact on sales of fleet utilization improvement at Airlift. The sales increases were offset by weaker part sales in our defense logistics business due to lower program activity driven by decreased flight hours. In addition, the prior year we sold four wholly-owned aircraft which contributed to approximately \$49.0 million in aircraft sales. There were no wholly-owned aircraft sales during the current fiscal year.

Gross profit in the Aviation Services segment increased \$2.6 million or 1.4%, and the gross profit margin percentage decreased to 15.7% from 16.2% in the prior year. The decrease in the gross margin percentage was primarily due to an agreement with a buyer to dispose of certain inventory that supported our airframe parts trading business unit, which resulted in a \$9.1 million loss on inventory. In addition, we also had a decline in our defense logistics business which further suppressed our gross profit. Partially offsetting this decline, we had increased gross profit and improved margins at our Airlift business due to the improved rate of fully mission critical fixed and rotary wing aircraft and increased flight hours. In addition, our high margin engineering service business contributed to a strong gross profit due to the addition of a new program during fiscal 2013.

In the Technology Products segment, sales increased \$30.9 million or 8.7% over the prior year due to the inclusion of Telair and Nordisk, which contributed \$114.3 million of non-comparative revenue over the nine-month period of fiscal 2013. These sales were partially offset by completion of a large contract and lower demand for shelters and containers due to the drawdown of the war effort and lower demand on certain other programs as the Department of Defense has reduced spending for types of products we produce.

Gross profit in the Technology Products segment increased \$10.1 million or 18.0%, and the gross profit margin percentage increased to 17.1% from 15.8% in the prior year. The increase in gross profit margin percentage was primarily due to improved product mix resulting from the acquisitions. The increase was partially offset by a decline in gross profit in our mobility businesses due to lower sales.

## Edgar Filing: AAR CORP - Form 10-Q

Selling, general and administrative expenses increased \$7.0 million or 5.0% due to the inclusion of the three acquired companies, partially offset by the final settlement on the Airinmar earn-out payment (See Note 9 of Notes to Condensed Consolidated Financial Statements).

Operating income increased \$10.9 million or 10.6% and net interest expense increased \$5.4 million or 21.5% compared to the prior year primarily due to the inclusion of \$175.0 million of 7.25% Senior Notes issued in January 2012 to fund the fiscal 2012 acquisitions.

Our effective income tax rate was approximately 34.1%, compared to 29.3% last year. During the third quarter of the prior year, we recorded a \$4.0 million reduction in income tax expense, primarily related to the reduction in our state income tax rate from the implementation of state income tax planning strategies, which included a new corporate structure and the relocation of one of our significant businesses.

Table of Contents

Net income was \$54.4 million compared to \$54.8 million in the prior year due to the factors discussed above.

**Liquidity, Capital Resources and Financial Position**

Our operating activities are funded and commitments met through the generation of cash from operations. Periodically, we may raise capital through the issuance of common stock and debt financing in the public and private markets. In addition to these cash sources, our current capital resources include an unsecured credit facility, as well as a separate secured credit facility. We continually evaluate various financing arrangements, including the issuance of common stock or debt, which would allow us to improve our liquidity position and finance future growth on commercially reasonable terms. Our continuing ability to borrow from our lenders and issue debt and equity securities to the public and private markets in the future may be negatively affected by a number of factors, including the overall health of the credit markets, general economic conditions, airline industry conditions, geo-political events, and our operating performance. Our ability to generate cash from operations is influenced primarily by our operating performance and changes in working capital. Under our universal shelf registration statement filed with the Securities and Exchange Commission that became effective May 4, 2012, we registered an indeterminate number of principal amount of shares of common stock, shares of preferred stock, debt securities, warrants, stock purchase contracts and stock purchase units which may be sold from time to time, subject to market conditions.

At February 28, 2013, our liquidity and capital resources included cash of \$47.4 million and working capital of \$713.3 million. We have an agreement with various financial institutions, as lenders, and Bank of America, N.A., as administrative agent for the lenders (as amended, the Credit Agreement ), providing for an unsecured revolving credit facility of \$580.0 million that we can draw upon for general corporate purposes. Under certain circumstances, we may request an increase to the revolving commitment by an aggregate amount of up to \$100.0 million, not to exceed \$680.0 million in total. The Credit Agreement expires on April 12, 2016. Borrowings under the Credit Agreement bear interest at the offered Eurodollar Rate (defined as the British Bankers Association LIBOR Rate) plus 125 to 225 basis points based on certain financial measurements if a Eurodollar Rate loan, or at the offered fluctuating Base Rate plus 25 to 125 basis points based on certain financial measurements if a Base Rate loan.

Borrowings outstanding under the Credit Agreement at February 28, 2013 were \$305.0 million, and there was approximately \$31.4 million of outstanding letters of credit which reduced the availability of this facility to \$243.6 million. There are no other terms or covenants limiting the availability of this facility. We also have \$4.5 million available under a foreign line of credit.

In addition to our unsecured Credit Agreement, we have a \$65.0 million secured revolving credit facility with The Huntington National Bank (the Huntington Loan Agreement ). Borrowings under the Huntington Loan Agreement are secured by aircraft and related engines and components owned by us. The Huntington Loan Agreement expires on April 23, 2015. Borrowings bear interest at LIBOR plus 325 basis points. As of February 28, 2013, \$27.4 million was outstanding under this agreement resulting in \$37.6 million remaining available. There are no other terms or covenants limiting the availability of this facility.

On January 22, 2013, we exchanged all of the outstanding unregistered 7.25% Senior Notes due 2022, which we issued in an exempt offering on January 23, 2012, for substantially identical notes that we registered under the Securities Act of 1933. These notes are now fully and unconditionally guaranteed, jointly and severally, on a senior unsecured basis by substantially all of our existing domestic and foreign subsidiaries.

## Edgar Filing: AAR CORP - Form 10-Q

During the third quarter of fiscal 2013, pursuant to the terms of the indenture, certain holders of our 1.75% Convertible Senior Notes due 2026 (the Securities ) exercised the right to surrender their Securities for purchase by us (the Put Option ). The Put Option entitled each holder of the Securities to surrender to us for purchase all or any part of such holder s Securities at a purchase price equal to 100% of the principal amount, plus accrued interest. The aggregate purchase price including principal, accrued and unpaid interest for the Securities surrendered for purchase pursuant to the Put Option was \$63.6 million. The purchases were funded primarily by cash on hand and free cash flow during the three-month period ended February 28, 2013.

Table of Contents

On February 14, 2013, we completed an exchange agreement with an institutional holder to exchange \$22.7 million aggregate principal amount of the Securities, plus cash in the amount of \$7.3 million for a new \$30.0 million convertible note (the New Note ). The New Note was issued in a private placement, is subject to customary resale restrictions, and has no registration rights. The New Note matures on February 1, 2015 unless redeemed earlier by us with a 30 days notice to the holder at a call price reflecting a yield to maturity of 3.75% from inception. We may redeem the New Note at any time before February 1, 2014 in the event of a change in control or at any time from February 1, 2014 through February 1, 2015 with a call price at maturity of 104.038. Upon conversion, the holder of the New Note shall be entitled to receive only cash and not shares of common stock. The New Note bears interest at a coupon rate of 1.75% per year, payable semi-annually on February 1 and August 1.

Those holders that did not surrender their Securities for purchase pursuant to the Put Option retained the right to convert their Securities, subject to the terms, conditions and adjustments applicable to the Securities. At February 28, 2013, the Securities remaining outstanding were \$2.7 million. We expect to repurchase the remaining portion during the fourth quarter of fiscal 2013.

We are in compliance with all financial covenants under each of our financing arrangements.

*Cash Flows from Operating Activities*

During the nine-month period ended February 28, 2013, our cash flow from operations was \$87.8 million primarily as a result of net income and aggregate depreciation and amortization. These positive impacts were partially offset by increases in capitalized program and overhaul costs and a decrease in accounts payable associated with the mobility business decline.

The cash flow from operations increased \$69.6 million from the prior year nine-month period due to lower investments in inventory and reduced program and overhaul costs.

*Cash Flows from Investing Activities*

During the nine-month period ended February 28, 2013, our investing activities used \$13.9 million of cash. The cash outflow related to capital expenditures of \$23.9 million, which mainly relates to helicopters and other equipment purchases in our Aviation Services segment, and a \$16.5 million final payment for the acquisition of Telair and Nordisk. These cash outflows were partially offset by proceeds from the sale of ten joint venture aircraft and equipment.

The cash flow from investing activities improved \$347.2 million from the prior year nine-month period as the prior year included cash flow for the Telair and Nordisk acquisition, and a decrease in our capital expenditures in all of our businesses as we focus on the generation of cash.

*Cash Flows from Financing Activities*

## Edgar Filing: AAR CORP - Form 10-Q

During the nine-month period ended February 28, 2013, our financing activities used \$95.5 million of cash primarily due to a net reduction in borrowings, the repurchase of common stock under our share repurchase program and payment of dividends. In the prior year we had a cash inflow primarily due to increased borrowings for the Telair and Nordisk acquisitions.

Table of Contents

**Critical Accounting Policies and Significant Estimates**

We make a number of significant estimates, assumptions and judgments in the preparation of our financial statements. See *Management's Discussion and Analysis of Financial Condition and Results of Operations* in our 2012 Form 10-K for a discussion of our critical accounting policies. There have been no significant changes to the application of our critical accounting policies during the third quarter of fiscal 2013.

**Forward-Looking Statements**

This report contains certain forward-looking statements as that term is defined in the Private Securities Litigation Reform Act of 1995. These forward-looking statements are based on beliefs of our management, as well as assumptions and estimates based on information available to us as of the dates such assumptions and estimates are made, and are subject to certain risks and uncertainties that could cause actual results to differ materially from historical results or those anticipated, depending on a variety of factors, including those factors discussed under Part II, Item 1A under the heading "Risk Factors" and to those set forth under Part I, Item 1A in our Annual Report on Form 10-K for the year ended May 31, 2012. Should one or more of those risks or uncertainties materialize adversely, or should underlying assumptions or estimates prove incorrect, actual results may vary materially from those described. Those events and uncertainties are difficult or impossible to predict accurately and many are beyond our control. We assume no obligation to update any forward-looking statements to reflect events or circumstances after the date of such statements or to reflect the occurrence of anticipated or unanticipated events.

**Item 3 Quantitative and Qualitative Disclosures About Market Risk**

Our exposure to market risk includes fluctuating interest rates under our credit agreements and changes in foreign exchange rates.

*Foreign Currency Risk.* Revenues and expenses of our foreign operations are translated at average exchange rates during the period, and balance sheet accounts are translated at period-end exchange rates. Balance sheet translation adjustments are excluded from the results of operations and are recorded in stockholders' equity as a component of accumulated other comprehensive loss. A hypothetical 10 percent devaluation of the U.S. dollar against foreign currencies would decrease our earnings by approximately \$1 million.

*Interest Rate Risk.* Refer to the section Quantitative and Qualitative Disclosures about Market Risk in our Annual Report on Form 10-K for the year ended May 31, 2012. There were no significant changes during the quarter ended February 28, 2013.

**Item 4 Controls and Procedures**

As required by Rules 13a-15(e) and 15d-15(e) of the Securities Exchange Act of 1934, we conducted an evaluation of the effectiveness of the design and operation of our disclosure controls and procedures as of February 28, 2013. This evaluation was carried out under the supervision

## Edgar Filing: AAR CORP - Form 10-Q

and with participation of our Chief Executive Officer and Chief Financial Officer. There are inherent limitations to the effectiveness of any system of disclosure controls and procedures. Therefore, effective disclosure controls and procedures can only provide reasonable assurance of achieving their control objectives. Based upon our evaluation, our Chief Executive Officer and Chief Financial Officer concluded that our disclosure controls and procedures are effective as of February 28, 2013, ensuring that information required to be disclosed in the reports that are filed under the Act is recorded, processed, summarized and reported in a timely manner.

There were no changes in our internal control over financial reporting during the third quarter ended February 28, 2013 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

Table of Contents

**PART II OTHER INFORMATION**

**Item 1A Risk Factors**

There have been no material changes to our risk factors as set forth in our Annual Report on Form 10-K for the year ended May 31, 2012, except for the following updated risk factor:

**Significant cost issues may develop in connection with the A400M cargo loading system.**

Our Cargo Systems business was selected in June 2005 to provide cargo loading systems for the Airbus A400M Military Transport Aircraft ( A400M ). We have incurred, and are expected to continue to incur, significant development costs in connection with this program. Under our contract with Airbus and based on sales projections provided by Airbus, our revenue on the cargo loading systems is expected to exceed \$300 million. We are currently engaged in discussions with Airbus to modify the contract as a result of disputes between the parties. These contract modifications may result in reductions in our role and responsibilities as well as reductions in our expected revenues under the contract. Failure to reach agreement on contract modifications may lead to arbitration of the parties' disputes under the dispute resolution provisions of the contract.

Based on the foregoing, we may not be able to recover some or all of our development costs, which could adversely affect our operating results and financial condition, under certain circumstances, including the following: (i) the A400M program experiences significant additional delivery delays or order cancellations; (ii) we fail to achieve expected pricing increases in the cargo loading systems; (iii) we fail to deliver the system in accordance with contract specifications; (iv) the parties fail to reach agreement on modifications to the contract; or (v) the contract is amended to change our role and responsibilities for the cargo loading systems.

**Item 6 Exhibits**

The exhibits to this report are listed on the Exhibit Index included elsewhere herein. Management contracts and compensatory arrangements, if any, have been marked with an asterisk (\*) on the Exhibit Index.
