Basis of Presentation. Financial statements for the interim periods included herein are unaudited; however, they contain all adjustments, including normal recurring accruals, which in the opinion of management, are necessary to present fairly the financial position of the Company at June 30, 2014, its results of operations for the three and six months ended June 30, 2014 and 2013, and its cash flows for the six months ended June 30, 2014 and 2013. Diluted net income per share gives effect to all diluted potential common shares outstanding during the period.

Options to purchase approximately 579,000 and 519,000 shares of common stock with a weighted average exercise price of $\$ 4.28$ and $\$ 4.32$, respectively, were outstanding at June 30, 2014 and were not included in the computation of common stock equivalents for the three and six months ended June 30, 2014 because their exercise prices were higher than the average fair market value of the common shares during the reporting period. Options to purchase approximately $1,155,000$ and $1,239,000$ shares of common stock with a weighted average exercise price of $\$ 3.19$ and $\$ 3.33$, respectively, were outstanding at June 30, 2013 and were not included in the computation of common stock equivalents for the three and six months ended June 30, 2013 because their exercise prices were higher than the average fair market value of the common shares during the reporting period.

Weighted average common shares outstanding for the three and six months ended June 30, 2014 and 2013 were as follows:

2. Selling Arrangement. In February 2011, the Company paid News America Marketing In-Store, LLC ( News America ) $\$ 4,000,000$ in exchange for a 10 -year arrangement to sell signs with price into News America s network of retailers as News America s exclusive agent. The $\$ 4,000,000$ is being amortized on a straight-line basis over the 10 -year term of the arrangement. Amortization expense, which was $\$ 100,000$ and $\$ 200,000$ in both the three and six months ended June 30,2014 and 2013, respectively, and is expected to be $\$ 400,000$ per year over the next five years, is recorded within cost of services in the Company s statements of operations. The net carrying amount of the selling arrangement is recorded within other assets on the Company s condensed balance sheets.
3. Retail Access and Distribution Agreement. On February 21, 2014, the Company and Valassis Sales and Marketing Services, Inc. ( Valassis ) signed the Retail Access and Distribution Agreement (the New Valassis Agreement ) that replaced all prior agreements. As a result of this new agreement, Valassis is no longer a reseller of the Company s POPSign and the Company regained access to all consumer packaged goods manufacturers for the sale of POPSigns. On March 24, 2014, the Company received notice of termination from Valassis of the New Valassis Agreement. The termination of all material portions of this agreement will be effective on August 11, 2014. Additionally, as a result of the termination of this agreement, the amount owed to Valassis by the Company was reduced from $\$ 500,000$ to $\$ 250,000$, which is being amortized over the original term of the New Valassis Agreement, which is approximately four years.
4. Income Taxes. For the three and six months ended June 30, 2014, the Company recorded income tax expense of $\$ 48,000$ and $\$ 106,000$, or $40.7 \%$ and $36.4 \%$ of income before taxes, respectively. For the three and six months ended June 30, 2013, the Company recorded income tax expense of $\$ 12,000$ and $\$ 575,000$, or $6.8 \%$ and $49.6 \%$ of income before taxes, respectively. The decrease in the effective tax rate
during the six months ended June 30, 2014 is primarily the result of the tax benefit of disqualifying dispositions of stock options, which decreased the effective tax rate for the six months ended June 30,2014 by $6.3 \%$. The income tax provision for the three and six months ended June 30, 2014 and 2013 is comprised of federal and state taxes. The primary differences between the Company s June 30, 2014 and 2013 effective tax

## Edgar Filing: INSIGNIA SYSTEMS INC/MN - Form 10-Q

rates and the statutory federal rate are expenses related to stock-based compensation and nondeductible meals and entertainment.

As of June 30, 2014 and December 31, 2013, the Company has unrecognized tax benefits totaling $\$ 458,000$, including interest, which relates to state nexus issues. The amount of the unrecognized tax benefits, if recognized, that would affect the effective income tax rates of future periods is $\$ 458,000$. Due to the current statute of limitations regarding the unrecognized tax benefits, the unrecognized tax benefits and associated interest is not expected to change significantly in 2014.
5. Concentrations. During the six months ended June 30, 2014, two customers accounted for $33 \%$ and $11 \%$ of the Company s total net sales. During the six months ended June 30, 2013, two customers accounted for $26 \%$ and $11 \%$ of the Company s total net salesAt June 30, 2014, one customer accounted for $44 \%$ of the Company s total accounts receivable. At December 31, 2013, two customers accounted for $47 \%$ and $14 \%$ of the Company s total accounts receivable.

Although there are a number of customers that the Company sells to, the loss of a major customer could adversely affect operating results. Additionally, the loss of a major retailer from the Company s retail network could adversely affect operating results.
6. Shareholders Equity. On December 3, 2013, the Board of Directors authorized the repurchase of up to $\$ 5,000,000$ of the Company s common stock on or before December 3, 2015. The plan allows the repurchases to be made in open market or privately negotiated transactions. For the three and six months ended June 30, 2014, the Company repurchased approximately 147,000 shares at a total cost of $\$ 455,000$.
7. Recently Issued Accounting Pronouncements. In May 2014, the Financial Accounting Standards Board (FASB) issued guidance creating Accounting Standards Codification (ASC ) Section 606, Revenue from Contracts with Customers . The new section will replace Section 605, Revenue Recognition and creates modifications to various other revenue accounting standards for specialized transactions and industries. The section is intended to conform revenue accounting principles with a concurrently issued International Financial Reporting Standards with previously differing treatment between United States practice and those of much of the rest of the world, as well as, to enhance disclosures related to disaggregated revenue information. The updated guidance is effective for annual reporting periods beginning on or after December 15, 2016, and interim periods within those annual periods. The Company will adopt the new provisions of this accounting standard at the beginning of fiscal year 2017, given that early adoption is not an option. The Company will further study the implications of this statement in order to evaluate the expected impact on the financial statements.

## Company Overview

Insignia Systems, Inc. (referred to in this Quarterly Report on Form 10-Q as Insignia, we, us, our and the Company ) markets in-store adverti products, programs and services to consumer packaged goods manufacturers (customers) and retailers. The Company was incorporated in 1990. Since 1998, the Company has been focusing on providing in-store advertising services through the Insignia Point-Of-Purchase Services (POPS) in-store advertising program. Insignia POPS® includes the Insignia POPSign® program.

Insignia s POPSign is a national, account-specific, in-store, shelf-edge advertising program that we believe delivers significant sales increases. Funded by consumer packaged goods manufacturers, the program allows manufacturers to deliver vital product information to consumers at the point-of-purchase. The brand information is combined with each retailer s store-specific prices and is displayed on the retailer s unique sign format. We believe that combining manufacturer and retailer information provides consumers the information they want and need to make purchasing decisions, while building store and brand equity.

For retailers, Insignia s POPSign program is a source of incremental revenue and is an in-store advertising program that delivers a complete call to action on a product-specific and store-specific basis. For consumer packaged goods manufacturers, Insignia s POPSign program provides access to what we believe is the optimum retail advertising site for their products the retail shelf-edge. In addition, we believe manufacturers benefit from significant sales increases, short lead times, micro-marketing capabilities, such as store-specific and multiple language options, and a wide variety of program features and enhancements that provide unique advertising advantages.

The largest component of the change in operating assets and liabilities was accounts receivable, which increased as a result of the timing of collections on these accounts. The non-cash adjustments consisted of depreciation and amortization expense, stock-based compensation expense, and gain of property and equipment. In the normal course of business, our accounts receivable, accounts payable, accrued liabilities and deferred revenue will fluctuate depending on the level of revenues and related business activity, as well as billing arrangements with customers and payment terms with retailers.

Investing Activities: Net cash used in investing activities during the six months ended June 30, 2014 was $\$ 691,000$. This was primarily related to the acquisition of selling rights under the New Valassis Agreement, acquisition of other business arrangements, purchases of property and equipment, and proceeds from the sale of property and equipment. The Company expects a similar level of capital expenditures in the future
periods in 2014.

Financing Activities: Net cash used in financing activities during the six months ended June 30, 2014 was $\$ 277,000$, which related to proceeds received from the issuance of common stock under our employee stock purchase plan and stock option exercises, offset by the repurchase of common stock under the December 3, 2013 share repurchase plan.

The Company believes that based upon current business conditions, its existing cash balance and future cash generated from operations will be sufficient for its cash requirements for at least the next twelve months.
