Atlantic Power Corporation Announces Cdn\$70 Million Offering of Convertible Unsecured Subordinated Debentures

DEDHAM, Mass., January 22, 2018 Atlantic Power Corporation (NYSE: ATP) (TSX: ATP) (Atlantic Power or the Company) announced today that it has entered into an agreement with a syndicate of underwriters, led by RBC Capital Markets, for the purchase by the underwriters of Cdn\$70 million aggregate principal amount of 6.00% convertible unsecured subordinated debentures due January 31, 2025 (the Debentures). The Debentures will be convertible, at the option of the holder, into common shares of Atlantic Power at a conversion price of Cdn\$4.20 per common share, being a ratio of approximately 238.0952 common shares per Cdn\$1,000 principal amount of Debentures, subject to customary adjustments. Atlantic Power has granted an over-allotment option to the underwriters, exercisable at any time up to 30 days after completion of the initial offering, to acquire up to Cdn\$10.5 million aggregate principal amount of additional Debentures to cover the underwriters over-allotment position as of the closing date, if any.

Atlantic Power intends to file a prospectus supplement to its short form base shelf prospectus dated December 19, 2017 with the securities commissions and other similar regulatory authorities in each of the provinces and territories of Canada and to its base prospectus dated December 19, 2017 with the U.S. Securities and Exchange Commission (the SEC), containing details relating to the issuance of the Debentures. The offering is expected to close on or about January 29, 2018, subject to customary closing conditions, including stock exchange approvals.

Atlantic Power intends to use the net proceeds from the offering of the Debentures to fund the redemption of all of the Company's 5.75% Series C convertible unsecured subordinated debentures (current outstanding balance of US\$42.5 million) that mature on June 30, 2019 and have a par call date of June 30, 2017. The Company intends to use the remainder of the net proceeds, if any, to fund the partial redemption of the Company's 6.00% Series D extendible convertible unsecured subordinated debentures (current outstanding balance of Cdn\$81.0 million) that mature on December 31, 2019 and have a par call date of December 31, 2017. The foregoing does not constitute a notice of redemption or an obligation to issue a notice of redemption for either the Series C or Series D debentures.

About Atlantic Power

Atlantic Power owns and operates a diverse fleet of power generation assets across nine states in the United States and two provinces in Canada. The Company's power generation projects sell electricity to utilities and other large commercial customers largely under long-term power purchase agreements (PPAs), which seek to minimize exposure to changes in commodity prices. The aggregate electric generating capacity of this portfolio on a gross ownership basis is approximately 1,793 megawatts (MW), and on a net ownership basis is approximately 1,440 MW. Eighteen of the projects are currently

operational, totaling 1,633 MW on a gross ownership basis and 1,280 MW on a net ownership basis. Four projects, all in Ontario, are not operational, three due to revised contractual arrangements with the offtaker and another, Tunis, has a forward-starting 15-year PPA that will commence with the commercial operation of the plant before June 2019. Eighteen of the power generation projects are majority-owned and directly operated and maintained by the Company.

Atlantic Power's common shares trade on the New York Stock Exchange under the symbol AT and on the Toronto Stock Exchange under the symbol ATP. For more information, please contact:
