TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the transition period from _____ to _____

Commission File Number 000-23125

OSI SYSTEMS, INC.

(Exact name of registrant as specified in its charter)

Delaware
(State or other jurisdiction of
incorporation or organization)

33-0238801
(I.R.S. Employer
Identification No.)

12525 Chadron Avenue

Hawthorne, California 90250

(Address of principal executive offices) (Zip Code)

(310) 978-0516

(Registrant's telephone number, including area code)

N/A

(Former name, former address and former fiscal year, if changed since last report)

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically every Interactive Data File required to be submitted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit such files). Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, a smaller reporting company, or an emerging growth company. See the definitions of large accelerated filer, accelerated filer, smaller reporting company, and

Edgar Filing: OSI SYSTEMS INC - Form 10-Q

emerging growth company in Rule 12b-2 of the Exchange Act.

Large accelerated filer

Accelerated filer

Non-accelerated filer

Smaller reporting company

Emerging growth company

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act.

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes No

As of October 22, 2018, there were 18,153,123 shares of the registrant's common stock outstanding.

OSI SYSTEMS, INC. AND SUBSIDIARIES

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

1. Basis of Presentation

Description of Business

OSI Systems, Inc., together with our subsidiaries, is a vertically integrated designer and manufacturer of specialized electronic systems and components for critical applications. We sell our products in diversified markets, including homeland security, healthcare, defense and aerospace.

We have three reporting segments: (i) Security, providing security inspection systems, turnkey security screening solutions and related services; (ii) Healthcare, providing patient monitoring, and diagnostic cardiology and related services and (iii) Optoelectronics and Manufacturing, providing specialized electronic components and electronic manufacturing services for the Security and Healthcare divisions as well as to external original equipment manufacturer (OEM) customers and end users for applications in the defense, aerospace, medical and industrial markets, among others.

Through our Security segment, we provide security screening products and related services globally. These products fall into the following categories: baggage and parcel inspection; cargo and vehicle inspection; hold (checked) baggage screening; people screening; radiation detection; and explosive and narcotics trace detection. In addition to these products, we also provide site design, installation, training and technical support services to our customers. We also provide turnkey security screening solutions, which can include the construction, staffing and long-term operation of security screening checkpoints for our customers.

Through our Healthcare segment, we design, manufacture, market and service patient monitoring and diagnostic cardiology systems and related supplies and accessories worldwide. These products are used by care providers in critical care, emergency and perioperative areas within hospitals as well as physicians' offices, medical clinics and ambulatory surgery centers, among others.

Through our Optoelectronics and Manufacturing segment, we design, manufacture and market optoelectronic devices and flex circuits and provide electronics manufacturing services worldwide for use in a broad range of applications, including aerospace and defense electronics, X-ray security and inspection systems and medical imaging, chemistry analysis and diagnostics instruments, telecommunications, scanners and industrial automations, automotive diagnostic systems, internet of things (IoT) and consumer wearable products. This division provides products and services to OEM customers and end users as well as to our Security and Healthcare divisions.

Basis of Presentation

The condensed consolidated financial statements include the accounts of OSI Systems, Inc. and our subsidiaries. All significant intercompany accounts and transactions have been eliminated in consolidation. The condensed consolidated financial statements have been prepared by management in accordance with accounting principles generally accepted in the United States of America (GAAP) and in conjunction with the rules and regulations of the Securities and Exchange Commission (SEC). Certain information and footnote disclosures required for annual financial statements have been condensed or excluded in accordance with SEC rules and regulations applicable to interim unaudited financial statements. Accordingly, the condensed consolidated financial statements do not include all of the information and footnotes required by GAAP for audited financial statements. In the opinion of management, the condensed consolidated financial statements reflect all adjustments of a normal and recurring nature that are considered necessary for a fair presentation of the results for the interim periods presented. These condensed consolidated financial statements and the accompanying notes should be read in conjunction with the audited consolidated financial statements and accompanying notes included in our Annual Report on Form 10-K for the fiscal year ended June 30, 2018. The results of operations for the three months ended September 30, 2018 are not necessarily indicative of the operating results to be expected for the full 2019 fiscal year or any future periods.

Use of Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of sales and costs of sales during the reporting period. The most significant of these estimates and assumptions for our company relate to contract revenue, profit and loss recognition, fair values of assets acquired and assumed in business combinations, values for inventories reported at lower of cost or net realizable value, stock-based compensation expense, income taxes, accrued warranty costs, and the recoverability, useful lives and valuation of recorded amounts of long-lived assets, identifiable intangible assets and goodwill. Changes in estimates are reflected in the periods during which they become known. Actual amounts may differ from these estimates and could differ materially.

Table of Contents*Per Share Computations*

We compute basic earnings per share by dividing net income available to common stockholders by the weighted average number of common shares outstanding during the period. We compute diluted earnings per share by dividing net income available to common stockholders by the sum of the weighted average number of common shares and dilutive potential common shares outstanding during the period. Potential common shares consist of the shares issuable upon the exercise of stock options and restricted stock unit awards under the treasury stock method. During the three months ended September 30, 2018, the number of stock options and stock awards excluded from the calculation because they were antidilutive was de minimis. During the three months ended September 30, 2017, stock options and stock awards to purchase 0.1 million shares of common stock were excluded from the calculation because to include such options and awards would have been antidilutive. The underlying equity component of the 1.25% convertible senior notes due 2022 (the Notes) discussed in Note 6 to the condensed consolidated financial statements will have no impact on diluted earnings per share until the average price of our common stock exceeds the conversion price because the principal amount of the Notes is intended to be settled in cash upon conversion.

The following table sets forth the computation of basic and diluted earnings per share (in thousands, except per share amounts):

	Three Months Ended September 30,	
	2017	2018
Net income available to common stockholders	\$ 10,157	\$ 9,402
Weighted average shares outstanding basic	18,778	18,090
Dilutive effect of equity awards	813	646
Weighted average shares outstanding diluted	19,591	18,736
Basic earnings per share	\$ 0.54	\$ 0.52
Diluted earnings per share	\$ 0.52	\$ 0.50

Cash Equivalents

We consider all highly liquid investments with maturities of approximately three months or less as of the acquisition date to be cash equivalents.

Our cash and cash equivalents totaled \$86.4 million at September 30, 2018. The majority of this amount was held by our subsidiaries primarily in the United Kingdom, Malaysia, India and Singapore, and to a lesser extent in Mexico, Canada, and Germany among others. We have cash holdings that exceed insured limits for financial institutions; however, we mitigate this risk by utilizing high credit quality financial institutions throughout the world.

Fair Value of Financial Instruments

Edgar Filing: OSI SYSTEMS INC - Form 10-Q

Our financial instruments consist primarily of cash and cash equivalents, marketable securities, derivative instruments, accounts receivable, accounts payable and debt instruments. The carrying values of financial instruments, other than long term debt instruments, are representative of their fair values due to their short term maturities. The carrying values of our long term debt instruments are considered to approximate their fair values because the interest rates of these instruments are variable or comparable to current rates available to us.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Level 1 category includes assets and liabilities at quoted prices in active markets for identical assets and liabilities. Level 2 category includes assets and liabilities from observable inputs other than quoted market prices. Level 3 category includes assets and liabilities for which valuation techniques are unobservable and significant to the fair value measurement. As of June 30, 2018 and September 30, 2018, there were no assets where Level 3 valuation techniques were used. Our contingent payment obligations related to acquisitions, which are further discussed in Note 9 to the condensed consolidated financial statements, are valued using Level 3 valuation techniques on a recurring basis.

Edgar Filing: OSI SYSTEMS INC - Form 10-Q

Table of Contents

The fair values of the our financial assets and liabilities as of June 30, 2018 and September 30, 2018 are categorized as follows (in thousands):

	June 30, 2018				September 30, 2018			
	Level 1	Level 2	Level 3	Total	Level 1	Level 2	Level 3	Total
Assets:								
Insurance company contracts	\$	\$ 31,897	\$	\$ 31,897	\$	\$ 33,497	\$	\$ 33,497
Interest rate contract		18		18		13		13
Total assets	\$	\$ 31,915	\$	\$ 31,915	\$	\$ 33,510	\$	\$ 33,510
Liabilities Contingent consideration								
	\$	\$	\$ 15,713	\$ 15,713	\$	\$	\$ 21,102	\$ 21,102

Derivative Instruments and Hedging Activity

Our use of derivatives consists of an interest rate swap agreement. The interest rate swap agreement was entered into to improve the predictability of cash flows from interest payments related to variable, LIBOR based debt for the duration of the term loan. The interest rate swap matures in October 2019. The interest rate swap is considered an effective cash flow hedge, and, as a result, the net gains or losses on such instrument were reported as a component of Other comprehensive income in the consolidated financial statements and are reclassified as net income when the hedge transaction settles.

Goodwill Impairment

Goodwill represents the excess purchase price over the estimated fair value of the assets acquired and liabilities assumed in a business combination. Goodwill is allocated to our segments based on the nature of the product line of the acquired business. The carrying value of goodwill is not amortized, but is annually tested for impairment during our second quarter and more frequently if there is an indicator of impairment. We assess qualitative factors of each of our three reporting units to determine whether it is more likely than not that the fair value of a reporting unit is less than its carrying amount, including goodwill.

Revenue Recognition

ASU 2014-09, *Revenue from Contracts with Customers (Topic 606)*. In May 2014, the FASB issued Accounting Standards Update (ASU) 2014-09 and related amendments (ASC 606), which superseded all prior revenue recognition methods and industry-specific guidance. The core principle of ASC 606 is that an entity should recognize revenue to depict the transfer of control for promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. In applying the revenue principles, an entity is required to identify the contract(s) with a customer, identify the performance obligations, determine the transaction price, allocate the transaction price to the performance obligations and recognize revenue when the performance obligation is satisfied (i.e., either over time or at a point in time). ASC 606 further requires that companies disclose sufficient information to enable users of financial statements to understand the nature, amount, timing and uncertainty of revenue and cash flows arising from contracts with customers. On July 1, 2018, we adopted ASC 606 using the

modified retrospective method, whereby the adoption does not impact any prior periods. We identified contracts not yet completed as of July 1, 2018 and applied the new guidance on a prospective basis.

Product Sales. We recognize revenue from sales of products upon shipment or delivery when control of the product transfers to the customer, depending on the terms of each sale, and when collection is probable. In the circumstance where terms of a product sale include subjective customer acceptance criteria, revenue is deferred until we have achieved the acceptance criteria unless the customer acceptance criteria are perfunctory or inconsequential. We generally offer customers payment terms of less than one year. In cases when payment terms extend beyond one year, we consider whether the contract has a significant financing component.

Service Revenue. Revenue from services includes after-market services, installation and implementation of products and turnkey security screening services. Generally, revenue from services is recognized over time as the services are performed. Revenues from out of warranty service maintenance contracts are recognized ratably over the respective terms of such contracts. Deferred revenue for such services arises from payments received from customers for services not yet performed.

Contract Revenue. Sales agreements with customers can be project specific, cover a period of time, and can be renewable periodically. The contracts may contain terms and conditions with respect to payment, delivery, installation, services, warranty and other rights. In certain instances, we consider an accepted customer order, governed by a master sales agreement, to be the contract with the customer when legal rights and obligations exist. Contracts with customers may include the sale of products and services, as discussed in the paragraphs above. In certain instances, contracts can contain multiple performance obligations as discussed in the paragraph below. According to the terms of a sale contract, we may receive consideration from a customer prior to transferring goods to the customer, and we record these prepayments as a contract liability. We also record deferred revenue, typically related to service

Table of Contents

contacts, when consideration is received before the services have been performed. We recognize customer deposits and deferred revenue as net sales after all revenue recognition criteria is met.

When determining revenue recognition for contracts, we will use judgment based on our understanding of the obligations within each contract. We will determine whether or not customer acceptance criteria are perfunctory or inconsequential. The determination of whether or not customer acceptance terms are perfunctory or inconsequential impacts the amount and timing of revenue recognition. Critical judgments also include estimates of warranty reserves, which are established based on historical experience and knowledge of the product under warranty.

Multiple Performance Obligations. Certain agreements with customers include the sale of capital equipment involving multiple elements that may include civil works to prepare a site for the installation of equipment, manufacture and delivery of equipment, installation and integration of equipment, training of customer personnel to operate the equipment and after-market service of the equipment. We generally separate multiple elements in a contract into separate performance obligations if those elements are distinct, both individually and in the context of the contract. If multiple promises comprise a series of distinct services which are substantially the same and have the same pattern of transfer, they are combined and accounted for as a single performance obligation.

In cases where obligations in a contract are distinct and thus require separation into multiple performance obligations, revenue recognition guidance requires that contract consideration be allocated to each distinct performance obligation based on its relative standalone selling price. The value allocated to each performance obligation is then recognized as revenue when the revenue recognition criteria for each distinct promise or bundle of promises has been met.

The standalone selling price for each performance obligation is an amount that depicts the amount of consideration to which the entity expects to be entitled in exchange for transferring the good or service. When there is only one performance obligation associated with a contract, the entire sale value is attributed to that obligation. When a contract contains multiple performance obligations the transaction value is first allocated using the observable price, which is generally a list price net of applicable discount and/or the price used to sell in similar circumstances. In circumstances when a selling price is not directly observable, we will estimate the standalone selling price using information available to us including our market assessment and expected cost plus margin.

The timetable for fulfilment of each of the distinct performance obligations can range from completion in a short amount of time and entirely within a single reporting period to completion over several reporting periods. The general timing of revenue recognition for each performance obligation may be dependent upon several milestones, including physical delivery of equipment, completion of factory acceptance test, completion of site acceptance test, installation and connectivity of equipment, certification of training of personnel and, in the case of after-market service deliverables, the passage of time (typically evenly over the post-warranty period of the service deliverable).

We often provide a guarantee to support our performance under multiple-deliverable arrangements. In the event that customers are permitted to terminate such arrangements, the underlying contract typically requires payment for deliverables and reimbursement of costs incurred through the date of termination.

Edgar Filing: OSI SYSTEMS INC - Form 10-Q

Effect of Adopting ASC 606. Adopting ASC 606 did not require any cumulative effect adjustment to retained earnings as of July 1, 2018 because the impact was immaterial. The impact to our condensed consolidated statements of operations and balance sheet are shown below for the three month period ended September 30, 2018.

Statement of Operations (in thousands)

	Three Months Ended September 30, 2018		
	Results as Reported	Results without Adoption of ASC 606	Effect of Change

Other liabilities	329,629	329,629		
Stockholders' Equity				
Retained earnings	344,147	344,021	126	

We disaggregate revenue by reporting segment (Security, Optoelectronics and Manufacturing, and Healthcare) to depict the nature of revenue in a manner consistent with our business operations and to be consistent with other communications and public filings. Refer to Note 11 to our condensed consolidated financial statements for additional details of revenues by reporting segment.

Contract Assets and Liabilities. We enter into contracts to sell products and provide services, and we recognize contract assets and liabilities that arise from these transactions. We recognize revenue and corresponding accounts receivable according to ASC 606 and, at times, recognize revenue in advance of the time when contracts give us the right to invoice a customer. We may also receive consideration, per terms of a contract, from customers prior to transferring goods to the customer. We record customer deposits as a contract liability. Additionally, we may receive payments, most typically for service and warranty contracts, at the onset of the contract and before the services have been performed. In such instances, we record a deferred revenue liability. We recognize these contract liabilities as sales after all revenue recognition criteria are met. The table below shows the balance of contract assets and liabilities as of June 30, 2018 and September 30, 2018, including the change between the periods.

Contract Assets (in thousands)

	June 30, 2018	September 30, 2018	Change	% Change

Advances from customers	\$	55,761	\$	74,148	\$	18,387	33%
Deferred revenue current		28,899		30,352		1,453	5%
Deferred revenue long-term		9,562		8,011		(1,551)	(16)%

Remaining Performance Obligations. Remaining performance obligations related to ASC 606 represent the aggregate transaction price allocated to performance obligations with an original contract term greater than one year which are fully or partially unsatisfied at the end of the period.

As of September 30, 2018, the aggregate amount of the transaction price allocated to remaining performance obligations was approximately \$191.2 million. We expect to recognize revenue on approximately 47% of the remaining performance obligations over the next 12 months, and the remainder is expected to be recognized thereafter.

Practical Expedients. In cases where we are responsible for shipping after the customer has obtained control of the goods, we have elected to treat these activities as fulfillment activities rather than as a separate performance obligation. Additionally, we have elected to capitalize the cost to obtain a contract only if the period of amortization would be longer than one year. We only consider whether a

Table of Contents

customer agreement as having a financing component if the period of time between transfer of goods and services and customer payment is greater than one year. We also utilize the as invoiced practical expedient in certain cases where performance obligations are satisfied over time and the invoiced amount corresponds directly with the value we are providing to the customer.

Recently Adopted Accounting Pronouncements

Revenue Recognition

In May 2014, the FASB issued ASU 2014-09 and related amendments *Revenue from Contracts with Customers (Topic 606)*, which superseded all prior revenue recognition methods and industry-specific guidance. The core principle of ASC 606 is that an entity should recognize revenue to depict the transfer of control for promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. This ASU is effective for annual reporting periods beginning after December 15, 2017, including interim reporting periods within that reporting period. On July 1, 2018, we adopted ASC 606 using the modified retrospective method, whereby the adoption does not impact any prior periods.

Cash Flow Statement

In August 2016, the FASB issued ASU 2016-15, *Statement of Cash Flows (Topic 230): Classification of Certain Cash Receipts and Cash Payments*. The update was issued with the objective of reducing the existing diversity in practice in how certain cash receipts and cash payments are presented and classified in the statement of cash flows under Topic 230 and other topics. We adopted this ASU effective July 1, 2018 using the retrospective approach and it had no effect on our financial position, results of operations or liquidity.

Income Taxes

In October 2016, the FASB issued ASU 2016-16, *Income Taxes (Topic 740): Intra-Entity Asset Transfers of Assets Other than Inventory*. The new guidance eliminates the exception for intra-entity transfers other than inventory and requires the recognition of current and deferred income taxes resulting from such a transfer when the transfer occurs. This ASU is effective for annual reporting periods beginning after December 15, 2017, including interim reporting periods within those annual reporting periods. We adopted this ASU effective July 1, 2018 using the modified retrospective transition method resulting in a reclassification in the balance sheet of \$3 million to decrease prepaid expenses and other assets and increase deferred tax assets.

Recently Issued Accounting Pronouncements Not Yet Adopted

Leases

In February 2016, the FASB issued ASU 2016-02, *Leases (Topic 842)*. This guidance requires lessees to recognize assets and liabilities on the balance sheet for the rights and obligations created by leases with terms of more than 12 months. The ASU also will require qualitative and quantitative disclosures designed to give financial statement readers information on the amount, timing, and uncertainty of cash flows arising from leases. This ASU is effective for us in the first quarter of fiscal 2020 with early adoption permitted. We have not yet adopted this ASU and are currently evaluating the impact it may have on our financial condition and results of operations.

Comprehensive Income

In February 2018, the FASB issued ASU 2018-02, *Income Statement Reporting Comprehensive Income (Topic 220): Reclassification of Certain Tax Effects from Accumulated Other Comprehensive Income*. The amendments in this update allow a reclassification from accumulated other comprehensive income to retained earnings for stranded tax effects resulting from the U.S. Tax Cuts and Jobs Act (the Tax Act). The new standard is effective for us beginning on July 1, 2020, with early adoption permitted. We have not yet adopted this ASU and are currently evaluating the impact it may have on our financial condition and results of operations.

Retirement Benefit Plans

In August 2018, the FASB issued authoritative guidance under ASU 2018-14, *Compensation Retirement Benefits Defined Benefit Plans General: Disclosure Framework Changes to the Disclosure Requirements for Defined Benefit Plans*. This ASU eliminates requirements for certain disclosures and requires additional disclosures under defined benefit pension plans and other postretirement plans. We are required to adopt this new guidance in the first quarter of fiscal 2021. We are currently evaluating the potential impact of the adoption of this standard.

Intangibles

In August 2018, the FASB issued authoritative guidance under ASU 2018-15, *Intangibles Goodwill and Other Internal-Use Software: Customer's Accounting for Implementation Costs Incurred in a Cloud Computing Arrangement that is a Service Contract*. This ASU requires implementation costs incurred by customers in cloud computing arrangements (i.e., hosting arrangements) to be capitalized under the same premises of authoritative guidance for internal-use software, and deferred over the noncancellable term

Table of Contents

of the cloud computing arrangements plus any option renewal periods that are reasonably certain to be exercised by the customer or for which the exercise is controlled by the service provider. We are required to adopt this new guidance in the first quarter of fiscal 2021. We are currently evaluating the potential impact of adoption of this standard on our consolidated financial statements.

2. Business Combinations

Under ASU 805, *Business Combinations* the acquisition method of accounting requires us to record assets acquired less liabilities assumed in an acquisition at their estimated fair values at the date of acquisition. Any excess of the total estimated purchase price over the estimated fair value of the assets acquired less liabilities assumed should be recorded as goodwill. Such valuations require management to make significant estimates and assumptions, especially with respect to intangible assets. Significant estimates in valuing certain intangible assets include, but are not limited to, future expected cash flows from acquired customers, acquired technology, trade names, useful lives and discount rates. Management's estimates of fair value are based upon assumptions believed to be reasonable but which are inherently uncertain and unpredictable and, as a result, actual results may differ from estimates. During the measurement period, which is one year from the acquisition date, we may record adjustments to the assets acquired and liabilities assumed, with the corresponding adjustments to goodwill, as additional information becomes available. Upon the conclusion of the measurement period, any subsequent adjustments are reflected in reported earnings.

Fiscal Year 2019 Business Acquisitions

On July 31, 2018, we (through our Optoelectronics and Manufacturing division) acquired an optoelectronics solutions business for \$17.5 million, plus up to \$1 million in potential earnout consideration. The acquisition was financed with cash on hand and borrowings under our existing revolving bank line of credit. The goodwill recognized for this business is expected to be deductible for income tax purposes. The purchase price is subject to adjustment for final working capital. The final purchase price allocation which is expected to be completed by the fourth quarter of fiscal 2019 will be based on final appraisals and other analysis of fair values of acquired assets and liabilities.

In August 2018, we (through our Security division) completed an acquisition of a privately held services company for approximately \$0.8 million, plus up to approximately \$5 million in contingent consideration which may be earned over a five year period. The acquisition was financed with cash on hand. The goodwill recognized for this business is not expected to be deductible for income tax purposes.

These business acquisitions were not material to our consolidated financial statements either individually or in the aggregate. Accordingly, pro-forma historical results of operations related to these businesses have not been presented.

Fiscal Year 2018 Business Acquisitions

Edgar Filing: OSI SYSTEMS INC - Form 10-Q

Acquisition of Explosive Trace Detection Business

On July 7, 2017, we acquired the global explosive trace detection business (ETD) from Smiths Group plc. This acquisition was a carve out from a larger entity. We financed the total purchase price of \$80.5 million with a combination of cash on hand and borrowings under our existing revolving bank line of credit. Pro-forma results have not been presented because, based on the date of the acquisition, there was not a material difference between pro-forma and actual results in the condensed consolidated financial statements of operations for the three months ended September 30, 2017 and 2018.

The valuation of certain assets and liabilities of ETD were performed by a third party valuation specialist. The final allocation was as follows:

Cash and cash equivalents	\$	4
Accounts receivable		15,517
Inventories		11,678
Property and equipment		1,599
Intangible assets		30,370
Deferred tax asset		2,738
Other long-term assets		297
Accounts payable		(4,784)
Accrued payroll and related expenses		(2,116)
Deferred revenues - current		(924)
Accrued warranties		(2,068)
Advances from customers		(670)
Other accrued expenses and current liabilities		(1,074)
Deferred revenues - long term		(232)
Net assets acquired		50,335
Goodwill		30,132
Total consideration	\$	80,467

Table of Contents

The goodwill is largely attributable to expected growth, intellectual capital and the assembled workforce of the ETD business. Intangible assets are recorded at estimated fair value, as determined by management based on available information, with assistance from a third party. The fair value attributed to the intangible assets acquired was based on estimates, assumptions and other information compiled by management, and valuations that utilized established valuation techniques. The value attributed to goodwill and intangible assets is partially non-deductible for income tax purposes. The following table summarizes the fair value of acquired identifiable intangible assets as of the acquisition date (amounts in thousands):

	Weighted Average Lives	Fair Value
Amortizable assets:		
Developed technology	10 years	\$ 14,210
Customer relationships/backlog	7 years	16,070
In-process research and development (IPR&D)		90
Total intangible assets		\$ 30,370

Other Fiscal Year 2018 Business Acquisitions

In July 2017, we (through our Security division) completed an acquisition of a privately held technology company. The acquisition was financed with cash on hand and was in an amount including potential earnout consideration determined to be insignificant by management.

In January 2018, we (through our Optoelectronics and Manufacturing division) acquired an electronics component designer and manufacturer for approximately \$22 million, plus up to \$6 million in contingent consideration which may be earned over a three year period. The goodwill recognized for this business is not expected to be deductible for income tax purposes. The acquisition was financed with cash on hand and borrowings under our existing revolving bank line of credit.

3. Balance Sheet Details

The following tables provide details of selected balance sheet accounts (in thousands):

	June 30, 2018	September 30, 2018
Accounts receivable	\$ 221,240	\$ 233,778
Less allowance for doubtful accounts	(10,496)	(11,608)
Total	\$ 210,744	\$ 222,170

	June 30, 2018	September 30, 2018
Raw materials	\$ 156,612	\$ 168,807
Work-in-process	89,468	89,095
Finished goods	67,472	86,072

Edgar Filing: OSI SYSTEMS INC - Form 10-Q

Total	\$	313,552	\$	343,974
-------	----	---------	----	---------

Table of Contents

	June 30, 2018	September 30, 2018
Land	\$ 16,569	\$ 16,569
Buildings, civil works and improvements	56,585	56,533
Leasehold improvements	9,681	9,772
Equipment and tooling	117,294	123,317
Furniture and fixtures	3,331	3,341
Computer equipment	18,759	19,229
Computer software	19,509	19,665
Computer software implementation in process	4,318	5,256
Construction in process	790	1,203
Total	246,836	254,885
Less accumulated depreciation and amortization	(131,312)	(135,121)
Property and equipment, net	\$ 115,524	\$ 119,764

Depreciation expense was \$16.2 million and \$5.1 million for the three months ended September 30, 2017 and 2018, respectively. The decrease in depreciation is primarily related to a transfer of assets.

In January 2018, we entered into a two-year agreement with the Mexican government to continue providing security screening services. Upon inception of the contract, we transferred certain fixed assets with a net book value of \$29.5 million to the customer, and this remaining cost to obtain the contract is amortized on a straightline basis over the term of the contract as corresponding revenues are recognized. During the three months ended September 30, 2018, we recognized \$3.7 million of amortization expense related to such assets. As of September 30, 2018, \$14.7 million and \$4.2 million are recorded within Prepaid expenses and other current assets and Other assets, respectively.

4. Goodwill and Intangible Assets

The changes in the carrying value of goodwill for the three month period ended September 30, 2018 are as follows (in thousands):

	Security Division	Healthcare Division	Optoelectronics and Manufacturing Division	Consolidated
Balance as of June 30, 2018	\$ 191,810	\$ 40,157	\$ 60,246	\$ 292,213
Goodwill acquired or adjusted during the period	4,811		7,415	12,226
Foreign currency translation adjustment	(11)	7	282	278
Balance as of September 30, 2018	\$ 196,610	\$ 40,164	\$ 67,943	\$ 304,717

Intangible assets consisted of the following (in thousands):

	Weighted Average Lives	Gross Carrying Value	June 30, 2018 Accumulated Amortization	Intangibles Net	September 30, 2018 Gross Carrying Value	Accumulated Amortization	Intangibles Net
Amortizable assets:							

Edgar Filing: OSI SYSTEMS INC - Form 10-Q

Software development costs	9 years	\$ 28,174	\$ (9,423)	\$ 18,751	\$ 28,621	\$ (10,159)	\$ 18,462
Patents	19 years	8,401	(1,618)	6,783	7,866	(1,580)	6,286
Developed technology	10 years	52,780	(9,706)	43,074	54,650	(11,091)	43,559
Customer relationships/backlog	7 years	63,398	(17,891)	45,507	68,840	(20,723)	48,117
IPR&D	5 years	2,290		2,290	2,290		2,290
Total amortizable assets		155,043	(38,638)	116,405	162,267	(43,553)	118,714
Non-amortizable assets:							
Trademarks and trade names		25,596		25,596	26,516		26,516
Total intangible assets		\$ 180,639	\$ (38,638)	\$ 142,001	\$ 188,783	\$ (43,553)	\$ 145,230

Amortization expense related to intangible assets was \$4.2 million and \$5.3 million for the three months ended September 30, 2017 and 2018, respectively. At September 30, 2018, the estimated future amortization expense was as follows (in thousands):

2019 (remaining 9 months)	\$ 15,454
2020	19,628
2021	19,111
2022	14,702
2023	13,559
Thereafter, including assets that have not yet begun to be amortized	36,260
Total	\$ 118,714

Table of Contents

Software development costs for software products incurred before establishing technological feasibility are charged to operations. Software development costs incurred after establishing technological feasibility are capitalized on a product by product basis until the product is available for general release to customers at which time amortization begins. Annual amortization, charged to cost of goods sold, is the amount computed using the ratio that current revenues for a product bear to the total current and anticipated future revenues for that product. In the event that future revenues are not estimable, such costs are amortized on a straight line basis over the remaining estimated economic life of the product. Amortizable assets that have not yet begun to be amortized are included in Thereafter in the table above. For the three months ended September 30, 2017 and 2018, we capitalized software development costs in the amount of \$0.1 million and \$0.4 million, respectively.

5. Restructuring and Other Charges

Restructuring and Other Charges

We endeavor to align our global capacity and infrastructure with demand by our customers and also to integrate acquisitions and thereby improve operational efficiency.

In the quarter ended September 30, 2018, we incurred \$3.6 million in legal fees in our Corporate division related to class action litigation and government investigations. Additionally, we incurred costs related to acquisitions completed in the quarter and as a result of employee terminations.

The following table summarizes restructuring and other charges for the periods set forth below (in thousands):

	Three Months Ended September 30, 2017				Total
	Security Division	Healthcare Division	Optoelectronics and Manufacturing Division	Corporate	
Acquisition-related costs	\$	\$	\$	\$ 820	\$ 820
Employee termination costs					240
Facility closures/consolidation					70
Total expensed	\$ 310	\$	\$	\$ 820	\$ 1,130

	Three Months Ended September 30, 2018				Total
	Security Division	Healthcare Division	Optoelectronics and Manufacturing Division	Corporate	
Acquisition-related costs	\$	\$	\$ 267	\$	\$ 267
Employee termination costs		191	107		333
Facility closures/consolidation	10				10
Legal costs				3,586	3,586
Total expensed	\$ 45	\$ 191	\$ 374	\$ 3,586	\$ 4,196

Edgar Filing: OSI SYSTEMS INC - Form 10-Q

The changes in the accrual for restructuring and other charges for the three-month period ended September 30, 2018 were as follows (in thousands):

	Acquisition- related Costs	Employee Termination Costs	Facility Closure/ Consolidation Cost	Legal Costs and Settlements	Total
Balance as of June 30, 2018	\$	\$ 837	\$ 399	\$ 14,065	\$ 15,301
Restructuring and other charges	267	333	10	3,586	4,196
Payments and other adjustments	(267)	(837)	(37)	(4,931)	(6,072)
Balance as of September 30, 2018	\$	\$ 333	\$ 372	\$ 12,720	\$ 13,425

Table of Contents**6. Borrowings***Revolving Credit Facility*

In December 2016, we entered into an amendment to our revolving credit facility, which, among other things, increased the aggregate committed amount available to us from \$450 million to \$525 million and extended the maturity date to December 2021. The credit facility includes a \$300 million sub limit for letters of credit. Under certain circumstances, we have the ability to increase the facility by the greater of \$250 million or such amount as would not cause our secured leverage ratio to exceed a specified level. Borrowings under this facility bear interest at LIBOR plus a margin of 1.50% as of September 30, 2018, but this margin can range from 1.25% to 2.0% based on our consolidated net leverage ratio as defined in the credit facility. Letters of credit reduce the amount available to borrow by their face value. The unused portion of the facility bears a commitment fee of 0.20% as of September 30, 2018, but this fee can range from 0.20% to 0.30% based on our consolidated net leverage ratio as defined in the credit facility. Our borrowings under the credit agreement are guaranteed by certain of our U.S. based subsidiaries and are secured by substantially all of our assets and the assets of certain of our subsidiaries. The agreement contains various representations and warranties, affirmative, negative and financial covenants and conditions of default. As of September 30, 2018, there was \$166.0 million of borrowings outstanding under the revolving credit facility and \$59.1 million outstanding under the letters of credit sub-facility. The amount available to borrow under the credit facility as of September 30, 2018 was \$299.9 million. Loan amounts under the revolving credit facility may be borrowed, repaid and re-borrowed during the term. Although the principal amount of each revolving loan is due and payable in full on the maturity date, we have the right to repay each revolving loan in whole or in part from time to time without penalty. It is our practice to routinely borrow and repay several times per year under this revolving facility. Therefore, borrowings under the credit facility are included in current liabilities. As of September 30, 2018, we are in compliance with all covenants under this credit facility.

1.25% Convertible Senior Notes Due 2022

In February 2017, we issued \$287.5 million of the Notes in a private offering. The Notes are governed by an indenture dated February 22, 2017. The maturity for the payment of principal is September 1, 2022. The Notes bear interest at the rate of 1.25% and are payable in cash semiannually in arrears on each March 1 and September 1. The Notes are senior unsecured obligations and rank senior in right of payment to any of our indebtedness that is expressly subordinated in right of payment to the Notes; equal in right of payment to any of our unsecured indebtedness that is not so subordinated; effectively junior in right of payment to any of our secured indebtedness to the extent of the value of the assets securing such indebtedness; and structurally junior to all indebtedness and other liabilities (including trade payables) of our subsidiaries, as well as any of our existing and future indebtedness that may be guaranteed by our subsidiaries to the extent of such guarantees (including the guarantees of certain of our subsidiaries under our existing revolving credit facility).

The Notes are convertible prior to March 1, 2022 only upon specified events and during specified periods and are, thereafter convertible, at any time, in each case at an initial conversion rate of 9.3056 per \$1,000 principal amount of the Notes, which is equal to an initial conversion price of approximately \$107.46 per share or a 38.5% premium to our stock price at the time of the issuance. The conversion rate is subject to adjustment upon certain events. Upon conversion, the Notes may be settled, at our election, in shares of our common stock, cash or a combination of cash and shares of common stock. We have initially elected a combination settlement method to satisfy the conversion obligation, which allows us to settle the principal amount of the Notes in cash and to settle the excess conversion value, if any, in shares of common stock, as well as cash in lieu of fractional shares.

We may not redeem the Notes prior to March 6, 2020. Thereafter, we may redeem the Notes if the last reported sale price of our common stock has been at least 130% of the conversion price then in effect for at least 20 trading days (whether or not consecutive) during any period of 30

Edgar Filing: OSI SYSTEMS INC - Form 10-Q

consecutive trading days. If we undergo a fundamental change, as defined in the indenture for the Notes, subject to certain conditions, holders of the Notes may require us to repurchase all or part of the Notes for cash at a price equal to 100% of the principal amount of the Notes to be repurchased, plus any accrued and unpaid interest to, but excluding, the fundamental change repurchase date. The occurrence of a fundamental change will also result in the Notes becoming immediately convertible.

Pursuant to ASC 470-20, we allocated the \$287.5 million gross proceeds of the Notes between liability and equity components. The initial \$242.4 million liability component was determined based on the fair value of similar debt instruments excluding the conversion feature for similar terms and priced on the same day the Notes were issued. The initial \$45.1 million equity component represents the debt discount and was calculated as the difference between the fair value of the debt and the gross proceeds of the Notes. Issuance costs of \$7.7 million were allocated between debt (\$6.5 million) and equity (\$1.2 million) components with the portion allocated to the debt presented as an offset against long term debt in the consolidated balance sheet and is amortized as interest expense over the life of the Notes using the effective interest method. The total interest expense recognized for the three months ended September 30, 2018 was \$3.1 million, which consists of \$0.9 million of contractual interest expense, \$1.9 million of debt discount amortization and \$0.3 million of amortization of debt issuance costs. By comparison, the total interest expense recognized for three months ended

Table of Contents

September 30, 2017 was \$3.0 million, which consisted of \$0.9 million of contractual interest expense, \$1.8 million of amortization of the debt discount and \$0.3 million of amortization of debt issuance costs. As of September 30, 2018, the unamortized debt discount was \$33.2 million and is being amortized over the remaining contractual term to maturity of the Notes using an effective interest rate of 4.50%. The unamortized debt issuance cost of \$4.6 million as of September 30, 2018 is amortized on a straight-line basis, which approximates the effective interest method, over the life of the Notes. Based on our September 30, 2018 stock price of \$76.31 per share, the if-converted value of the Notes did not exceed the principal amount.

Other Borrowings

Several of our foreign subsidiaries maintain bank lines of credit, denominated in local currencies and U.S. dollars, primarily for the issuance of letters of credit. As of September 30, 2018, \$60.4 million was outstanding under these credit facilities. As of September 30, 2018, the total amount available under these credit facilities was \$7.9 million.

In September 2012, we entered into a seven year term loan agreement for \$11.1 million to fund the acquisition of land and a building in the state of Washington. The loan, which bears interest at LIBOR plus 1.25%, is payable on a monthly basis over seven years. Concurrent with entering into the floating rate loan, we entered into an interest rate swap agreement that effectively locks the interest rate of the loan to 2.2% per annum for the term of the loan.

Long-term debt consisted of the following (in thousands):

	June 30, 2018	September 30, 2018
1.25% convertible notes due 2022:		
Principal amount	\$ 287,500	\$ 287,500
Unamortized discount	(35,133)	(33,206)
Unamortized debt issuance costs	(4,897)	(4,604)
1.25% convertible notes due 2022, net of unamortized discount and debt issuance costs	247,470	249,690
Term loans	2,114	1,718
Other long-term debt	1,658	1,876
	251,242	253,284
Less current portion of long-term debt	(2,262)	(2,326)
Long-term portion of debt	\$ 248,980	\$ 250,958

7. Stockholders Equity*Stock-based Compensation*

On December 11, 2017, our stockholders approved our Amended and Restated 2012 Incentive Award Plan (the 2012 Plan). As of September 30, 2018, we maintained the 2012 Plan and the Amended and Restated 2006 Equity Participation Plan (2006 Plan) as share-based employee compensation plans. No further grants may be made under the 2006 Plan. In addition, pursuant to the acquisition of American Science and

Edgar Filing: OSI SYSTEMS INC - Form 10-Q

Engineering, Inc. (AS&E), we assumed two share based employee compensation plans: the AS&E 2005 Equity and Incentive Plan (2005 AS&E Plan) and the AS&E 2014 Equity and Incentive Plan (2014 AS&E Plan). No new RSU grants will be made under the 2005 AS&E Plan or the 2014 AS&E Plan. The 2012 Plan, the 2006 Plan, the 2005 AS&E Plan and the 2014 AS&E Plan are collectively referred to as the OSI Plans .

We recorded stock-based compensation expense in the consolidated statement of operations as follows (in thousands):

	Three Months Ended September 30,	
	2017	2018
Cost of goods sold	\$ 241	\$ 207
Selling, general and administrative	5,111	5,111
Research and development	135	145
Stock-based compensation expense, before taxes	5,487	5,463
Less: related income tax benefit	(1,693)	(1,341)
Stock-based compensation expense, net of estimated taxes	\$ 3,794	\$ 4,122

As of September 30, 2018, total unrecognized compensation cost related to share-based compensation grants under the OSI Plans were estimated at \$0.5 million for stock options and \$29.0 million for RSUs. We expect to recognize these costs over a weighted average period of 1.8 years with respect to the stock options and 1.7 years for grants of RSUs.

Edgar Filing: OSI SYSTEMS INC - Form 10-Q

Table of Contents

The following summarizes stock option activity during the three months ended September 30, 2018:

	Number of Options	Weighted Average Exercise Price	Weighted-Average Remaining Contractual Term	Aggregate Intrinsic Value (in thousands)
Outstanding at June 30, 2018	677,525	\$ 32.80		
Granted		\$		
Exercised	(9,034)	\$ 41.32		
Expired or forfeited	(4,741)	\$ 68.64		
Outstanding at September 30, 2018	663,750	\$ 32.43	2.6 years	\$ 29,344
Exercisable at September 30, 2018	632,251	\$ 29.95	2.3 years	\$ 29,317

The following summarizes RSU award activity during the three months ended September 30, 2018:

	Shares	Weighted- Average Fair Value
Nonvested at June 30, 2018	526,377	\$ 71.56
Granted	323,141	\$ 73.80
Vested	(340,082)	\$ 70.68
Forfeited	(8,957)	\$ 72.95
Nonvested at September 30, 2018	500,479	\$ 73.58

As of September 30, 2018, there were approximately 1.7 million shares available for grant under the 2012 Plan. Under the terms of the 2012 Plan, RSUs and restricted stock granted from the pool of shares available for grant reduce the pool by 1.87 shares for each award granted. RSUs and restricted stock forfeited and returned to the pool of shares available for grant increase the pool by 1.87 shares for each award forfeited.

We granted 117,346 and 96,151 performance-based RSUs during the three months ended September 30, 2017 and 2018, respectively. These performance based RSU awards are contingent on the achievement of certain performance metrics. The payout related to these awards can range from zero to 280% of the original number of shares or units awarded.

Share Repurchase Program

In March 2018, the Board of Directors authorized a share repurchase program of up to 1,000,000 shares. This program does not expire unless our Board of Directors acts to terminate the program. The timing and actual number of shares purchased depend on a variety of factors, including stock price, general business and market conditions and other investment opportunities and may be purchased through the open market. Upon repurchase, the shares are restored to the status of authorized but unissued, and we record them as a reduction in the number of shares of common stock issued and outstanding in our consolidated financial statements.

Edgar Filing: OSI SYSTEMS INC - Form 10-Q

During the three months ended September 30, 2018, we repurchased 104,146 shares of our common stock.

8. Retirement Benefit Plans

We sponsor various retirement benefit plans including qualified and nonqualified defined benefit pension plans for our employees. The components of net periodic pension expense are as follows (in thousands):

	Three Months Ended September 30,	
	2017	2018
Service cost	\$ 216	\$ 98
Interest cost	8	8
Amortization of prior service cost	70	14
Net periodic pension expense	\$ 294	\$ 120

For the three months ended September 30, 2017, we made contributions of \$0.7 million to these defined benefit plans. For the three months ended September 30, 2018, we made no contributions to these defined benefit plans.

We also maintain various defined contribution plans. For the three months ended September 30, 2017 and 2018, we made contributions of \$1.6 and \$1.8 million, respectively, to these defined contribution plans.

Table of Contents**9. Commitments and Contingencies***Contingent Acquisition Obligations*

Under the terms and conditions of the purchase agreements associated with certain acquisitions, we may be obligated to make additional payments based on the achievement of certain sales or profitability milestones through the acquired operations. For agreements that contain contingent consideration caps, the maximum amount of such potential future payments is \$36.0 million as of September 30, 2018. In addition, we are required to make royalty payments through 2022 based on the license of, or sales of products containing, the technology of CXR Limited, a company acquired in 2004.

We account for such contingent payments for acquisitions through the end of fiscal year 2009 as additions to the purchase price of the acquired business; and for acquisitions after fiscal 2009, pursuant to Financial Accounting Standard 141R, which was codified into ASC 805, the estimated fair value of these obligations is recorded as a liability at the time of the acquisition with subsequent revisions recorded in Selling, general and administrative expense in the consolidated financial statements. The estimated fair value measurements of contingent earn-out obligations are primarily based on unobservable inputs, which may include projected revenues, gross margins, operating income, estimated probability of achieving the earn-outs and the estimated probability of earn-out payments being made.

These projections and probabilities are used to estimate future contingent earnout payments, which are discounted back to present value to compute contingent earnout liabilities. The following table provides a roll-forward from June 30, 2018 to September 30, 2018 of the contingent consideration liability, which is included in Other accrued expenses and current liabilities, and Other long-term liabilities in our consolidated balance sheets:

Beginning fair value, June 30, 2018	\$	15,713
Addition of contingent earnout obligations		5,173
Changes in fair value for contingent earnout obligations		216
Payments on contingent earnout obligations		
Ending fair value, September 30, 2018	\$	21,102

Environmental Contingencies

We are subject to various environmental laws. Our practice is to conduct appropriate environmental investigations at our manufacturing facilities in North America, Asia Pacific, and Europe, and, to the extent practicable, on all new properties in order to identify, as of the date of such investigation, potential areas of environmental concern related to past and present activities or from nearby operations. In certain cases, we have conducted further environmental assessments consisting of soil and groundwater testing and other investigations deemed appropriate by independent environmental consultants.

We continue to investigate contamination of the soil and groundwater beneath the Hawthorne, California facility that resulted from unspecified on and off site releases occurring prior to our occupancy. We believe the releases are of a historical nature and not uncommon to the region in general. We continue to take voluntary actions, in cooperation with the local governing agency, to fully investigate the site in order to develop

appropriate remedial actions.

We have not accrued for loss contingencies relating to the Hawthorne facility or any other environmental matters because we believe that, although unfavorable outcomes may be possible, they are not considered by our management to be probable and reasonably estimable. If one or more of these environmental matters are resolved in a manner adverse to us, the impact on our business, financial condition, results of operations and cash flow could be material.

Indemnifications and Certain Employment-Related Contingencies

In the normal course of business, we have agreed to indemnify certain parties with respect to certain matters. We have agreed to hold certain parties harmless against losses arising from a breach of representations and warranties or covenants, or intellectual property infringement or other claims made by third parties. These agreements may limit the time within which an indemnification claim can be made and the amount of the claim. In addition, we have entered into indemnification agreements with our directors and certain of our officers. It is not possible to determine the maximum potential indemnification amount under these indemnification agreements due to a limited history of prior indemnification claims and the unique facts and circumstances involved in each particular agreement. We have not recorded any liability for costs related to contingent indemnification obligations as of September 30, 2018.

On December 31, 2017, we and Deepak Chopra, our Chief Executive Officer, entered into an amendment to Mr. Chopra's employment agreement that, among other things, provides for a \$13.5 million bonus payment to Mr. Chopra on or within 45 days of January 1, 2024 contingent upon Mr. Chopra's continued employment with us through that date, subject to accelerated payout terms in

Table of Contents

the event of Mr. Chopra's death or disability after January 1, 2019. The bonus is recorded in the financial statements over the remaining term of the employment agreement.

Product Warranties

We offer our customers warranties on many of the products that we sell. These warranties typically provide for repairs and maintenance of the products if problems arise during a specified time period after original shipment. Concurrent with the sale of products, we record a provision for estimated warranty expenses with a corresponding increase in cost of goods sold. We periodically adjust this provision based on historical experience and anticipated expenses. We charge actual expenses of repairs under warranty, including parts and labor, to this provision when incurred. The warranty provision is included in Other accrued expenses and current liabilities in the consolidated balance sheets.

The following table presents changes in warranty provisions (in thousands):

	Three Months Ended September 30,	
	2017	2018
Balance at beginning of period	\$ 15,178	\$ 21,819
Additions and adjustments	4,259	1,480
Reductions for warranty repair costs	(2,138)	(1,800)
Balance at end of period	\$ 17,299	\$ 21,499

Legal Proceedings

In December 2017, a short seller released a report regarding our compliance with the FCPA. Following that report, we and certain of our executive officers have been named as defendants in several lawsuits in the United States District Court for the Central District of California (the District Court) that were filed in December 2017 and February 2018. Each of the complaints closely tracks the allegations set forth in the short seller's report. All of the actions, which were consolidated by the District Court in March 2018 in an action captioned *Arkansas Teacher Retirement System et al. v. OSI Systems, Inc. et al.*, No. 17 cv 08841, allege violations of Sections 10(b) and 20(a) of Exchange Act, relating to certain of our public statements and filings with the SEC, and seek damages and other relief based upon the allegations in the complaints. In April and May 2018, two shareholder derivative complaints were filed purportedly on behalf of the Company against the current members of our Board of Directors (as individual defendants), a former member of our Board of Directors, and our Chief Financial Officer. The first, captioned *Riley v. Chopra et al.*, No. 18 cv 03371, was filed in the District Court, and the second, captioned *Genesee County Employees Retirement System v. Chopra, et al.*, No. BC705958, was filed in the Superior Court of the State of California, County of Los Angeles. The complaints allege, among other things, breach of fiduciary duties relating to the allegations contained in the above mentioned short seller report. The complaints seek damages, restitution, injunctive relief, attorneys' and experts' fees, costs, expenses, and other unspecified relief. We believe that these actions are without merit and intend to defend them vigorously, and we expect to incur costs associated with defending against these actions. At this early stage of the litigations, the ultimate outcomes are uncertain and we cannot reasonably predict the timing or outcomes, or estimate the amount of loss, if any, or their effect, if any, on our financial statements.

Following the short seller report, both the SEC and the DOJ commenced investigations into our compliance with the FCPA. The SEC has subpoenaed documents from the Company, and we are responding to that subpoena and providing the same documents to the DOJ. At this time, we are unable to predict what, if any, action may be taken by the DOJ or SEC as a result of these FCPA related investigations, or any penalties or remedial measures these agencies may seek. Separately, the SEC and DOJ are also conducting an investigation of trading in our securities and

have each subpoenaed information regarding trading by executives, directors, and employees, as well as our operations and disclosures in and around the time of certain trades. With respect to these trading related matters, we have taken action with respect to a senior level employee. At this time, we are unable to predict what, if any, action may be taken by the DOJ or SEC as a result of these trading related investigations, or any penalties or remedial measures these agencies may seek. We place a high priority on compliance with our anti corruption and securities trading policies and are cooperating with each of the government investigations.

We are involved in various other claims and legal proceedings arising in the ordinary course of business. In our opinion after consultation with legal counsel, the ultimate disposition of such proceedings is not likely to have a material adverse effect on our business, financial condition, results of operations or cash flows. We have not accrued for loss contingencies relating to any such matters because we believe that, although unfavorable outcomes in the proceedings are possible, they are not considered by management to be probable and reasonably estimable. If one or more of these matters are resolved in a manner adverse to our company, the impact on our business, financial condition, results of operations and cash flows could be material.

Table of Contents

10. Income Taxes

The Tax Act enacted in 2017, resulted in the U.S. Federal income tax rate being reduced from 35% to 21% effective January 1, 2018. During the measurement period, which is one year from the date of enactment, or the completion of all estimates made in connection with the Tax Act, companies are permitted to make additional income tax adjustments and revisions of estimates related to the Tax Act. During the quarter ended September 30, 2018, there were no material adjustments made to previously made estimates related to the Tax Act. We are currently in the process of completing our estimates for the transition tax related to our 2018 earnings, which will be finalized during the three months ended December 31, 2018.

Due to the timing of the enactment and the complexity involved in applying the provisions of the Tax Act, in fiscal 2018, we recognized a provisional tax charge for the enactment of the Tax Act. In addition, the Tax Act subjects a U.S. corporation to tax on its GILTI (Global Intangible Low Income Tax), FDII (Foreign-Derived Tangible Income Taxes), and BEAT (Base Erosion Anti-abuse Tax). In the first quarter of fiscal 2019, we included an estimate of the impact of these taxes in our forecast effective tax rate. Interpretive guidance on the accounting for GILTI states that an entity can make an accounting policy election to either recognize deferred taxes for temporary basis differences expected to reverse as GILTI in future years or provide for the tax expense related to GILTI in the year the tax is incurred as a period expense only. Due to the complexity of the GILTI provisions, we are continuing to evaluate the effects of the GILTI provisions and have not yet determined our accounting policy. As of September 30, 2018, because we are still evaluating the GILTI provisions and our analysis of future taxable income that is subject to GILTI, we have included an estimate of GILTI and the FDII related to current-year operations only in our estimated annual effective tax rate and have not provided additional GILTI on deferred items. Due to the complexity of the new GILTI tax rules, we are continuing to evaluate this provision of the Tax Act and the application of GAAP.

As we collect and prepare necessary data and interpret the Tax Act and any additional guidance issued by the U.S. Treasury Department, the Internal Revenue Service, and other standard-setting bodies, we may make adjustments to the provisional amounts. Those adjustments may materially affect our provision for income taxes and effective tax rate in the period in which the adjustments are made. The accounting for the tax effects of the Tax Act is expected to be completed in the quarter ended December 31, 2018.

The determination of the annual effective tax rate is based upon a number of significant estimates and judgments, including the estimated annual pretax income in each tax jurisdiction in which we operate, and the development of tax planning strategies during the year. In addition, as a global commercial enterprise, our tax expense can be impacted by changes in tax rates or laws, such as the Tax Act, the finalization of tax audits and reviews, and other factors that cannot be predicted with certainty. As such, there can be significant volatility in interim tax provisions.

During the three months ended September 30, 2018, we recognized a tax benefit for equity-based compensation of \$1.5 million under ASU 2016-09 resulting in an effective tax rate of 13.9%. During the three months ended September 30, 2017, we recognized a \$5.3 million valuation allowance related to deferred tax assets which was partially offset by a tax benefit for equity-based compensation of \$4.6 million under ASU 2016-09 resulting in an effective tax rate of 32.9%. Excluding the impact of the discrete tax items noted above, our effective tax rate for the three months ended September 30, 2018 was 28.1% as compared to 28.3% in the prior-year period.

11. Segment Information

Edgar Filing: OSI SYSTEMS INC - Form 10-Q

We have determined that we operate in three identifiable industry segments: (a) security and inspection systems (Security division), (b) medical monitoring and diagnostic cardiology systems (Healthcare division) and (c) optoelectronic devices and manufacturing (Optoelectronics and Manufacturing division). We also have a corporate segment (Corporate) that includes executive compensation and certain other general and administrative expenses; expenses related to stock issuances and legal, audit and other professional service fees not allocated to industry segments. Both the Security and Healthcare divisions comprise primarily end-product businesses whereas the Optoelectronics and Manufacturing division primarily supplies components and subsystems to OEM customers, including to the Security and Healthcare divisions. Sales between divisions are at transfer prices that approximate market values. All other accounting policies of the segments are the same as described in Note 1, Summary of Significant Accounting Policies of the Form 10-K for the fiscal year ended June 30, 2018.

Table of Contents

The following tables set forth the results of operations and identifiable assets by industry segment (in thousands):

	Three Months Ended September 30,	
	2017	2018
Revenues (1) by Segment:		
Security division	\$ 162,245	\$ 169,960
Healthcare division	45,529	38,273
Optoelectronics and Manufacturing division, including intersegment revenues	58,926	70,954
Intersegment revenues elimination	(9,567)	(12,938)
Total	\$ 257,133	\$ 266,249

	Three Months Ended September 30,	
	2017	2018
Income (Loss) from Operations by Segment:		
Security division	\$ 22,693	\$ 23,050
Healthcare division	847	(1,875)
Optoelectronics and Manufacturing division	5,175	6,825
Corporate	(8,753)	(11,351)
Intersegment eliminations (2)	(568)	(392)
Total	\$ 19,394	\$ 16,257

	June 30,	September 30,
	2018	2018
Assets by Segment:		
Security division	\$ 804,527	\$ 824,528
Healthcare division	167,611	167,913
Optoelectronics and Manufacturing division	220,373	245,287
Corporate	66,453	93,648
Intersegment eliminations (2)	(3,273)	(3,448)
Total	\$ 1,255,691	\$ 1,327,928

(1) For the three months ended September 30, 2017, one customer, Servicio de Administración Tributaria (SAT) in Mexico, accounted for approximately 13% of total net revenues. For the three months ended September 30, 2018, no customer accounted for greater than 10% of total net revenues.

(2) Eliminations within operating income primarily reflect the change in the elimination of intercompany profit in inventory not-yet-realized. Eliminations in assets reflect the amount of intercompany profits in inventory as of the balance sheet date. Such intercompany profit will be realized when inventory is shipped to the external customers of the Security and Healthcare divisions.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

In this report, OSI, the Company, we, us, our and similar terms refer to OSI Systems, Inc. together with our wholly-owned subsidiaries.

This management's discussion and analysis of financial condition as of September 30, 2018 and results of operations for the three months ended September 30, 2018 should be read in conjunction with management's discussion and analysis of financial condition and results of operations included in our Annual Report on Form 10-K for the year ended June 30, 2018.

Forward-Looking Statements

This report contains forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995, Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended (the Exchange Act). Forward-looking statements relate to current expectations, beliefs, and projections concerning matters that are not historical facts. Words such as project, believe, anticipate, plan, expect, intend, may, should, will, would, and similar words and expressions are intended to identify forward-looking statements. The expectations, beliefs, and projections reflected in the forward-looking statements may prove to be inaccurate, and actual results may differ materially from those reflected in such forward-looking statements. Important factors that could cause our actual results to differ materially from those expectations are disclosed in this report, our Annual Report on Form 10-K for the fiscal year ended June 30, 2018 (including Part I, Item 1, Business, Part I, Item 1A, Risk Factors and Part II, Item 7, Management's Discussion and Analysis of Financial Condition and Results of Operations), and other documents filed by us from time to time with the SEC. Such factors, of course, do not include all factors that might affect our business and financial condition. Although we believe that the assumptions upon which our forward-looking statements are based are reasonable, such assumptions could prove to be inaccurate and actual results could differ materially from those expressed in or implied by the forward-looking statements. For example, we could be exposed to a variety of negative consequences as a result of delays related to the award of domestic and international contracts; failure to secure the renewal of key

Table of Contents

customer contracts; delays in customer programs; delays in revenue recognition related to the timing of customer acceptance; unanticipated impacts of sequestration and other U.S. Government budget control provisions; changes in domestic and foreign government spending, budgetary, procurement and trade policies adverse to our businesses; global economic uncertainty; unfavorable currency exchange rate fluctuations; effect of changes in tax legislation; market acceptance of our new and existing technologies, products and services; our ability to win new business and convert any orders received to sales within the fiscal year; enforcement actions in respect of any noncompliance with laws and regulations including export control and environmental regulations and the matters that are the subject of some or all of our ongoing investigations and compliance reviews, contract and regulatory compliance matters, and actions, if brought, resulting in judgments, settlements, fines, injunctions, debarment or penalties, and other risks and uncertainties, including, but not limited to, those detailed herein and from time to time in our other SEC filings, which could have a material and adverse impact on our business, financial condition and results of operations. All forward-looking statements contained in this report are qualified in their entirety by this statement. Moreover, we operate in a very competitive and rapidly changing environment. New risks emerge from time to time. It is not possible for our management to predict all risks, nor can we assess the impact of all factors on our business or the extent to which any factor, or combination of factors, may cause actual results to differ materially from those contained in any forward-looking statements we may make. In light of these risks, uncertainties, and assumptions, the future events and trends discussed in this report may not occur, and actual results could differ materially and adversely from those anticipated or implied in the forward-looking statements. Investors should not place undue reliance on forward-looking statements as a prediction of actual results. We undertake no obligation other than as may be required under securities laws to publicly update or revise any forward-looking statements, whether as a result of new information, future events or otherwise.

Executive Summary

We are a vertically integrated designer and manufacturer of specialized electronic systems and components for critical applications. We sell our products and provide related services in diversified markets, including homeland security, healthcare, defense and aerospace. We have three operating divisions: (a) Security, providing security and inspection systems and turnkey security screening solutions; (b) Healthcare, providing patient monitoring and diagnostic cardiology systems; and (c) Optoelectronics and Manufacturing, providing specialized electronic components for our Security and Healthcare divisions, as well as to third parties for applications in the defense and aerospace markets, among others.

Security Division. Through our Security division, we provide security screening products and services globally, as well as turnkey security screening solutions. These products and services are used to inspect baggage, parcels, cargo, people, vehicles and other objects for weapons, explosives, drugs, radioactive and nuclear materials and other contraband. Revenues from our Security division accounted for 63% and 64% of our total consolidated revenues for the three months ended September 30, 2017 and 2018, respectively.

Healthcare Division. Through our Healthcare division, we design, manufacture, market and service patient monitoring and diagnostic cardiology systems globally for sale primarily to hospitals and medical centers. Our products monitor patients in critical, emergency and perioperative care areas of the hospital and provide information, through wired and wireless networks, to physicians and nurses who may be at the patient's bedside, in another area of the hospital or even outside the hospital. Revenues from our Healthcare division accounted for 18% and 14% of our total consolidated revenues for the three months ended September 30, 2017 and 2018, respectively.

Optoelectronics and Manufacturing Division. Through our Optoelectronics and Manufacturing division, we design, manufacture and market optoelectronic devices and flex circuits and provide electronics manufacturing services globally for use in a broad range of applications, including aerospace and defense electronics, security and inspection systems, medical imaging and diagnostics, telecommunications, office automation, computer peripherals, industrial automation, automotive diagnostic systems, and consumer products. We also provide our optoelectronic devices and electronics manufacturing services to OEM customers, and our own Security and Healthcare divisions. Revenues from external customers in our Optoelectronics and Manufacturing division accounted for 19% and 22% of our total consolidated revenues for the three months ended September 30, 2017 and 2018, respectively.

Acquisition Activity. During the three months ended September 30, 2018, we (through our Optoelectronics and Manufacturing division) acquired an optoelectronics solutions business for \$17.5 million, plus up to \$1 million in potential earnout consideration, and also completed an acquisition of a small services company in our Security division. The acquisitions were financed with cash on hand and borrowings under our existing revolving bank line of credit.

Trends and Uncertainties

The following is a discussion of certain trends and uncertainties that we believe have and may continue to influence our results of operations.

Table of Contents

Global Economic Considerations. Global macroeconomic factors, coupled with the U.S. political climate, have created uncertainty and impacted demand for certain of our products and services primarily in our Security and Healthcare divisions. We do not know how long this uncertainty will continue. Therefore, we expect that there may continue to be a period of delayed or deferred purchasing by our customers. Purchase delays and deferrals could have a material negative effect on our business, results of operations and financial condition. Additionally, our international operations provide a significant portion of our total revenue and expenses. Many of these revenue and expenses are denominated in currencies other than the U.S. dollar. As a result, changes in foreign exchange rates may significantly affect revenue and expenses.

Global Trade. The current domestic and international political environment, including existing and potential changes to U.S. and foreign policies related to global trade and tariffs, have resulted in uncertainty surrounding the future state of the global economy. Further, the U.S. government has also recently announced that sanctions would be imposed against certain businesses and individuals in select countries. Additional changes may require us to modify our current business practices and could have a material adverse effect on our financial statements in any particular reporting period.

Healthcare Considerations. The results of our operations have been adversely impacted by difficulties associated with product launches in our Healthcare division. These issues may continue to adversely impact our results of operations for additional periods. Additionally, there have been numerous efforts advanced by the Trump administration and Congress to repeal and replace or modify the Affordable Care Act, which has created uncertainty in the healthcare industry that has adversely impacted, and may continue to adversely impact, our results of operations.

European Union Threat Detection Standards. The European Union has implemented regulations for all airports within the EU to have hold baggage screening systems that are compliant with the European Civil Aviation Conference (ECAC) Standard 3 beginning in 2020. However, this deadline could potentially be delayed. Our Security division's real time tomography (RTT) product has passed the ECAC explosive detection system Standard 3 threat detection requirement.

Government Policies. Our net income could be affected by changes in U.S. or foreign government tax policies, such as the Tax Act, the implications and uncertainties of which are described elsewhere in this report. Additionally, we attempt to manage our currency exposure in certain countries. Changes in government policies in these areas might cause an impact to our financial condition and results of operations.

Results of Operations for the Three Months Ended September 30, 2017 (Q1 2018) Compared to Three Months Ended September 30, 2018 (Q1 2019) (amounts in millions)

Net Revenues

Edgar Filing: OSI SYSTEMS INC - Form 10-Q

The table below and the discussion that follows are based upon the way in which we analyze our business. See Note 11 to the condensed consolidated financial statements for additional information about our business segments.

	Q1 2018	% of Net Revenues	Q1 2019	% of Net Revenues	\$ Change	% Change
Security	\$ 162.2	63%	\$ 170.0	64%	\$ 7.8	5%
Healthcare	45.5	18%	38.2	14%	(7.3)	(16)%
Optoelectronics / Manufacturing	58.9	23%	70.9	27%	12.0	20%
Less inter-division sales	(9.5)	(4)%	(12.9)	(5)%	(3.4)	36%
Total net revenues	\$ 257.1	100%	\$ 266.2	100%	\$ 9.1	4%

Revenues for the Security division during the three months ended September 30, 2018 increased as a result of increased revenue from the sale of cargo and vehicle inspection systems as well as increased service maintenance revenues. These increases were partially offset by decreased revenue in our turnkey business as a result of the new contract with SAT in Mexico entered into in January 2018; and reduced sales of explosive trace detection products as compared to the prior year when demand had increased in response to a then recently-implemented U.S. Government initiative.

Revenues for the Healthcare division for the three months ended September 30, 2018 decreased due to a reduction in patient monitoring and cardiology sales in major markets. In addition, anesthesia sales decreased as a result of our de-emphasis of this product line.

Revenues for the Optoelectronics and Manufacturing division for the three months ended September 30, 2018 increased as a result of increased sales by our commercial optoelectronics business and increased sales to the Security division as a result of increased sales

Table of Contents

activity in this division. Sales in our contract manufacturing business were comparable to the prior year. In addition, we recognized sales of approximately \$6.7 million from acquisitions completed in periods following the first quarter of fiscal 2018.

Gross Profit

		Q1 2018	% of Net Revenues		Q1 2019	% of Net Revenues
Gross profit	\$	91.3	35.5%	\$	95.9	36.0%

Gross profit during the three months ended September 30, 2018 increased as a result of increased sales volume combined with a higher consolidated gross margin. The increase in the gross margin was driven in part by a favorable sales mix within the Optoelectronics and Manufacturing division as well as the Healthcare division. This was partially offset by a slight reduction in gross margin in the Security division.

Operating Expenses

		Q1 2018	% of Net Revenues		Q1 2019	% of Net Revenues	\$ Change	% Change
Selling, general and administrative	\$	55.7	21.7%	\$	61.7	23.2%	\$ 6.0	10.7%
Research and development		15.1	5.9%		13.8	5.2%	(1.3)	(8.6)%
Restructuring and other charges		1.1	0.4%		4.2	1.5%	3.1	281.8%
Total operating expenses	\$	71.9	28.0%	\$	79.7	29.9%	\$ 7.8	10.8%

Selling, general and administrative. Selling, general and administrative (SG&A) expenses consist primarily of compensation paid to sales, marketing and administrative personnel, professional service fees and marketing expenses. SG&A expense increased primarily within both our Security and Optoelectronics and Manufacturing divisions as a result of the timing of acquisitions and to support the higher sales level in those divisions. This increase was partially offset by reduced costs in our Healthcare division as a result of lower sales level in that division.

Research and development. Research and development (R&D) expenses include research related to new product development and product enhancement expenditures. The decrease in R&D spending during the three months ended September 30, 2018 reflected reduced spending in our Security division due primarily to consolidation following an acquisition completed in the prior year. Further, R&D expense decreased in our Healthcare division due to the de-emphasis of the anesthesia product line and related development programs.

Restructuring and other charges. Restructuring and other charges generally consist of charges related to reductions in our workforce, facility consolidation, costs related to acquisition activity, legal charges and other non-recurring charges.

Such charges in the 2019 first fiscal quarter included: \$3.6 million of legal charges, \$0.3 million of employee termination costs, and \$0.3 million in cost associated with business acquisition.

Other Income and Expenses

Interest expense, net. For the three months ended September 30, 2018, interest and other expense, net was \$5.3 million as compared to \$4.3 million in the comparable prior-year period. This increase was driven by higher levels of borrowing under our revolving credit facility primarily due to acquisitions and stock buybacks combined with a rising interest rate environment. Interest expense in the current-year period included \$1.9 million of non-cash interest expense related to the Notes (see Note 6 to the condensed consolidated financial statements for further discussion) compared to \$1.8 million during the comparable prior-year period.

Income taxes. The effective tax rate for a particular period varies depending on a number of factors including (i) the mix of income earned in various tax jurisdictions, each of which applies a unique range of income tax rates and income tax credits, (ii) changes in previously established valuation allowances for deferred tax assets (changes are based upon our current analysis of the likelihood that these deferred tax assets will be realized), (iii) the level of non-deductible expenses, (iv) certain tax elections and (v) tax holidays granted to certain of our international subsidiaries. For the three months ended September 30, 2018, our income tax provision was \$1.5 million compared to \$5.0 million for the comparable prior-year period. The effective tax rate for the three months ended September 30, 2017 and 2018 was 32.9% and 13.9%, respectively. Excluding the net impact of discrete tax items, our effective tax rate for the three months ended September 30, 2018 was 28.1%, compared to 28.3% in the prior-year period.

Table of Contents

Liquidity and Capital Resources

Our principal sources of liquidity are our cash and cash equivalents, cash generated from operations and our credit facility. Cash and cash equivalents totaled \$86.4 million as of September 30, 2018, an increase of \$1.6 million, or 2%, from \$84.8 million as of June 30, 2018. During the three months ended September 30, 2018, we utilized \$2.8 million of cash flow from operations. We currently anticipate that our available funds, credit facilities and cash flow from operations will be sufficient to meet our operational cash needs for the next 12 months and the foreseeable future.

We have a five-year revolving credit facility maturing in December 2021 that allows us to borrow up to \$525 million. As of September 30, 2018, there was \$166.0 million outstanding under the revolving credit facility and \$59.1 million outstanding under the letters-of-credit sub-facility.

Cash Provided by (Used in) Operating Activities. Cash flows from operating activities can fluctuate significantly from period to period, as net income, adjusted for non-cash items, and working capital fluctuations impact cash flows. During the three months ended September 30, 2018, we utilized cash from operations of \$2.8 million compared to generating \$35.1 million in the prior-year period. The decline was driven by changes in working capital to support revenue growth.

Cash Used in Investing Activities. Net cash used in investing activities was \$30.5 million for the three months ended September 30, 2018 as compared to \$108.5 million used for the three months ended September 30, 2017. During the three months ended September 30, 2018, we used cash of \$17.5 million for the acquisition of an optoelectronics solutions business and \$7.9 million in capital expenditures. During the three months ended September 30, 2017, we used cash of \$80.5 million for the acquisition of ETD and \$19.8 million to purchase the AS&E facility.

Cash Provided by Financing Activities. Net cash provided by financing activities was \$34.6 million for the three months ended September 30, 2018, compared to \$95.4 million for the three months ended September 30, 2017. During the three months ended September 30, 2018, our primary source of financing was \$53.0 million borrowed under our revolving credit facility. These borrowings were primarily used for the following: (i) \$20.5 million to repurchase shares, including taxes paid related to the net share settlement of equity awards; (ii) \$18.3 million to acquire two companies and (iii) \$7.9 million to acquire capital assets. During the three months ended September 30, 2017, our primary source of financing was \$111 million borrowed under our revolving credit facility. This source of funds was partially offset by \$18.8 million used for taxes paid for the repurchase of our common stock for net share settlement of equity awards.

Borrowings

See Note 6 to the condensed consolidated financial statements for discussion regarding our revolving credit facility and our Notes.

Cash Held by Foreign Subsidiaries

Our cash and cash equivalents totaled \$86.4 million at September 30, 2018. Of this amount, approximately 59% was held by our foreign subsidiaries and subject to repatriation tax considerations. These foreign funds were located primarily in the United Kingdom, Malaysia, India and Singapore, and to a lesser extent in Mexico, Canada, and Germany among others. We intend to permanently reinvest certain earnings from foreign operations, and we currently do not anticipate that we will need this cash in foreign countries to fund our U.S. operations. In the event we repatriate cash from certain foreign operations and if withholding taxes have not been previously provided on the related earnings, we would provide for withholding taxes at the time we change our intention with regard to the reinvestment of those earnings.

Table of Contents**Issuer Purchases of Equity Securities**

The following table contains information about the shares acquired during the quarter ended September 30, 2018:

	Total number of shares (or units) Purchased (1)	Average price paid per share (or unit)	Total number of shares (or units) purchased as part of publicly announced plans or programs	Maximum number (or approximate dollar value) of shares (or units) that may yet be purchased under the plans or programs (2)
July 1 to July 31, 2018		\$		851,023
August 1 to August 31, 2018		\$		
September 1 to September 30, 2018	104,146	\$ 75.32	104,146	746,877
	104,146	\$ 75.32	104,146	

(1) Excludes shares tendered to satisfy minimum statutory withholding obligations related to the vesting of RSUs.

(2) In March 2018, the Board of Directors authorized a stock repurchase program of up to one million shares. This program does not have an expiration date. Upon repurchase, the shares are restored to the status of authorized but unissued, and we record them as a reduction in the number of shares of common stock issued and outstanding in the consolidated financial statements.

Dividend Policy

We have not paid any cash dividends since the consummation of our initial public offering in 1997 and we do not currently intend to pay any cash dividends in the foreseeable future. Our Board of Directors will determine the payment of future cash dividends, if any. Certain of our current bank credit facilities restrict the payment of cash dividends and future borrowings may contain similar restrictions.

Contractual Obligations

During the three months ended September 30, 2018, there were no material changes outside the ordinary course of business in the information regarding specified contractual obligations contained in our Annual Report on Form 10-K for the fiscal year ended June 30, 2018. See Notes 6 and 9 to the condensed consolidated financial statements for additional information regarding our current contractual obligations.

Off-Balance Sheet Arrangements

As of September 30, 2018, we did not have any significant off-balance sheet arrangements, as defined in Item 303(a)(4) of Regulation S-K.

New Accounting Pronouncements

For information with respect to new accounting pronouncements and the impact of those pronouncements on our condensed consolidated financial statements, see Note 1 to the condensed consolidated financial statements.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

For the three months ended September 30, 2018, no material changes occurred with respect to market risk as disclosed in our Annual Report on Form 10-K for the fiscal year ended June 30, 2018.

Market Risk

We are exposed to certain market risks, which are inherent in our financial instruments and arise from transactions entered into in the normal course of business. We may enter into derivative financial instrument transactions in order to manage or reduce market risk in connection with specific foreign currency denominated transactions. We do not enter into derivative financial instrument transactions for speculative purposes.

Foreign Currency

Our international operations are subject to certain opportunities and risks, including foreign currency fluctuations and governmental actions. We conduct business in more than 20 countries. We closely monitor our operations in each country in which we do business and seek to adopt appropriate strategies that are responsive to changing economic and political environments, and to fluctuations in foreign currencies. Weaknesses in the currencies of some of the countries in which we do business are often offset by strengths in others. Foreign currency financial statements are translated into U.S. dollars at period-end rates, except that revenues, costs and expenses are translated at average rates during the reporting period. We include gains and losses resulting from foreign currency transactions in income, while we exclude those resulting from translation of financial statements from income and include them as a component of accumulated other comprehensive loss. Transaction gains and losses, which were included in our condensed consolidated statements of operations, amounted to a loss of \$0.1 million and a loss of \$0.3 million during the three months ended September 30, 2017 and September 30, 2018, respectively. A 10% appreciation of the U.S. dollar relative to the local currency exchange rates would have resulted in a net increase in our operating income of approximately \$1.2 million in the first quarter of fiscal

Table of Contents

2019. Conversely, a 10% depreciation of the U.S. dollar relative to the local currency exchange rates would have resulted in a net decrease in our operating income of approximately \$1.2 million in the first quarter of fiscal 2019.

Use of Derivatives

Our current use of derivatives consists of an interest rate swap agreement. As discussed in Note 1 to the condensed consolidated financial statements, we had an interest rate swap of \$1.7 million outstanding as of September 30, 2018.

Importance of International Markets

International markets provide us with significant growth opportunities but our financial results in subsequent periods could be adversely affected by periodic economic downturns in different regions of the world, changes in trade policies or tariffs, civil or military conflict and other political instability. We monitor economic and currency conditions around the world to evaluate whether there may be any significant effect on our international sales in the future. Due to our overseas investments and the necessity of dealing with local currencies in our foreign business transactions, we are at risk with respect to foreign currency fluctuations.

Inflation

We do not believe that inflation had a material impact on our results of operations.

Interest Rate Risk

We are subject to interest rate risk on our borrowings under our bank lines of credit. Consequently, our interest expense fluctuates with changes in interest rates as we borrow amounts under these facilities.

Item 4. Controls and Procedures

Evaluation of Disclosure Controls and Procedures

As of September 30, 2018, the end of the period covered by this report, our management, including our Chief Executive Officer and our Chief Financial Officer, reviewed and evaluated the effectiveness of our disclosure controls and procedures (as defined in Rule 13a-15(e) or

15d-15(e) of the Exchange Act). Based upon management's review and evaluation, our Chief Executive Officer and Chief Financial Officer have concluded that, as of the end of the period covered by this Quarterly Report on Form 10-Q, our disclosure controls and procedures were effective to provide reasonable assurance that information required to be disclosed in our Exchange Act reports is recorded, processed, summarized and reported within the time periods specified by the SEC and is accumulated and communicated to management, including the Chief Executive Officer and Chief Financial Officer, as appropriate, to allow timely decisions regarding required disclosure.

Changes in Internal Control over Financial Reporting

Except for the implementation of certain internal controls related to the adoption of ASC 606, there were no changes in our internal control over financial reporting during the first quarter of fiscal 2019 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting. We implemented certain internal controls to ensure we adequately evaluated our contracts and properly assessed the impact of the new revenue recognition standard on our financial statements to facilitate its adoption effective July 1, 2018. In addition, we have made some changes to certain internal controls to reflect new processes that were implemented as a result of the adoption of ASC 606.

Limitations on Effectiveness of Controls and Procedures

In designing and evaluating our controls and procedures, management recognizes that any controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving the desired control objectives, and management is required to apply its judgment in evaluating the cost benefit relationship of possible controls and procedures. Because of the inherent limitations in all control systems, no evaluation of controls can provide absolute assurance that all control issues and instances of fraud within the Company have been detected.

PART II OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

The material legal proceedings in which we are involved are discussed in Note 9, Commitments and Contingencies, to our Condensed Consolidated Financial Statements in this Quarterly Report on Form 10-Q, and are hereby incorporated by reference.

ITEM 1A. RISK FACTORS

The discussion of our business and operations in this Quarterly Report on Form 10-Q should be read together with the risk factors contained in our Annual Report on Form 10-K for the fiscal year ended June 30, 2018, filed with the SEC on August 28, 2018, which describe various risks and uncertainties which could materially affect our business, financial condition or future results of operations. There have been no material changes to the risk factors included in our Annual Report on Form 10-K. The risks described in our Annual Report on Form 10-K are not the only risks we face. Additional risks and uncertainties not currently known to us or that we currently deem to be immaterial also may materially adversely affect our business, financial condition and results of operations.

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

See Issuer Purchases of Equity Securities discussion under Item 2 Management's Discussion and Analysis of Financial Condition and Results of Operations, which is hereby incorporated by reference.

ITEM 3. DEFAULTS UPON SENIOR SECURITIES

None

ITEM 4. MINE SAFETY DISCLOSURES

Not applicable

ITEM 5. OTHER INFORMATION

None

ITEM 6. EXHIBITS

- 2.1 Equity Purchase Agreement, dated as of May 31, 2017, by and among OSI Systems, Inc., OSI (Holdings) Company Limited, Smiths Detection, LLC, Smiths Detection United Kingdom Limited, Smiths Detection (Australia) Pty Ltd, and Smiths Detection Group Limited (1)
- 10.1 Offer Letter dated July 3, 2017 between Malcolm Maginnis and OSI Systems, Inc.
- 31.1 Certification pursuant to Section 302 of the Sarbanes-Oxley Act of 2002
