Prior year EPS was favorably impacted by a \$10.4 million gain on the sale of 2,692 apartment units; whereas, no apartment homes were sold by the Company this quarter. EPS for the first nine months of 2001 was \$0.23 per share compared to \$0.26 for the comparable period a year ago.

### Highlights

- o 5.4% Growth in FFO over Third Quarter 2000
- o Earnings in line with First Call consensus estimates
- o 2.7% Growth in Same Community Net Operating Income
- o \$200 Million Fannie Mae Revolver Facility closed with initial rate of 3.99%

"I am pleased with the performance and continued improvement of our Company," cites Thomas W. Toomey, President and Chief Executive Officer. "As we highlighted earlier this year in our earnings call, the management team has been focusing on positioning the company to operate in a slowing environment. While we have much work ahead of us, we are highly confident that we will continue to generate positive growth for the remainder of this year and for 2002 that will meet earnings estimates. We will continue to focus on improving property operations and Balance Sheet strength. The Company's product type of garden style, middle market apartments is well positioned to outperform other property types during periods of economic slowdown, and management believes that over the long run, our portfolio of apartment communities continues to benefit from positive demographic trends."

### Portfolio Operating Performance and Same Community Results

During the third quarter, 73,557 apartment homes (96% of total apartment homes) were classified as same community.

### Same Community Results (\$ in thousands, except monthly rent)

Avg. monthly rent per home	\$ 706	\$ 676	4.4%
Avg. monthly rent per SF	0.81	0.77	4.4%
Avg. physical occupancy	93.8%	94.5%	(0.7)%
Operating margin	63.3%	63.0%	0.3%

On a year-over-year basis, third quarter 2001 same community NOI growth of 2.7% was the result of a 2.3% increase in revenues from rental and other income and a 1.5% increase in operating expenses.

Currently, the Company operates in 62 markets, and of those markets, 46 markets, or 74%, saw positive Same Store Sales increases. Moving forward, there is a continued emphasis on aggressive lease management, expense controls, increased resident retention efforts and realignment of employee incentive plans tied to bottom line performance. This plan of operations, coupled with the portfolio's strengths in targeting the middle market of renters across a national platform, should position the Company for continued operational improvement.

### Development Activity

The Company began the year with 2,426 apartment units under development and has now delivered 1,876 units with a projected stabilized return on average of 10%. The Company currently has three communities under construction containing a total of 794 apartment units (of which 244 units have previously been delivered) with two of those communities expected to be completed by January 2002. The remaining development community is scheduled for completion in May 2002.

"I am pleased that we completed nearly 77% of the development pipeline ahead of schedule and under budget. We expect first year stabilized returns on these communities to be at attractive returns," said Mark Wallis, Senior Executive Vice President. Two development sites were sold this quarter for a total of \$5.6 million and the Company has three other development sites under contract for sale totaling \$8.3 million.

### Capitalization

In August, the Company closed on a \$200 million Fannie Mae Revolving Credit Facility with an initial funding of \$139 million. The adjustable rate loan was provided by ARCS through a Fannie Mae DMBS for a five-year term with an initial interest rate of 3.99%. The Company has the option to extend for an additional five-year term at market rates. The proceeds of the loan were used principally for the redemption of the \$100 million 9.25% Series A Cumulative Preferred Stock that occurred in the second quarter of this year and to reduce the balance on the Line of Credit.

Throughout the quarter, the Company purchased a total of 1.4 million common shares and OP units at an average purchase price of \$14.10. As of September 30, year-to-date purchases total 3.8 million common shares at an average purchase price of \$13.20.

The Company sold two tracts of land during the quarter for a total sales price in aggregate of \$5.6 million. The proceeds from the sale of these non-earning assets were used towards the re-purchase of the Company's common shares and OP units.
