ITEM 8.01. OTHER EVENTS.

Northrop Grumman Corporation (“we” or the “company”) is filing this Current Report on Form 8-K to recast the presentation of its consolidated financial statements that were filed on February 1, 2016 with the Securities and Exchange Commission (“SEC”) in the company’s Annual Report on Form 10-K for the year ended December 31, 2015 (the “2015 Form 10-K”) to reflect the changes in the company’s organizational structure and reportable segments that are described immediately below. This Form 8-K recasts disclosures in certain portions of the 2015 Form 10-K to reflect these changes in each of the periods presented.

At December 31, 2015, the company was aligned in four sectors: Aerospace Systems, Electronic Systems, Information Systems and Technical Services. Effective January 1, 2016, the company streamlined our sectors from four to three to better align our business with the evolving needs of our customers and enhance innovation across the company. The three current sectors are Aerospace Systems, Mission Systems and Technology Services. Mission Systems and Technology Services were created by merging elements of our former Electronic Systems, Information Systems and Technical Services sectors. The new Mission Systems sector is composed of the majority of our former Electronic Systems sector and the businesses from our former Information Systems sector focused on the development of new capabilities for our military and intelligence customers. The new Technology Services sector was formed by combining the services portfolio in the former Information Systems sector with the former Technical Services sector. Among other operations that were realigned, the military and civil space hardware business in Azusa, California, previously reporting to the Electronic Systems sector, moved to the Aerospace Systems sector, and the electronic attack business previously in the Aerospace Systems sector moved to the Mission Systems sector.

The company’s financial statements and other disclosures included in our Quarterly Report on Form 10-Q for the quarter ended March 31, 2016 (the “First Quarter 2016 Form 10-Q”) reflect this new reporting structure. The company is including in this Form 8-K the following items from the 2015 Form 10-K and revising portions of the disclosures contained in these items, for each of the periods presented, to reflect this change in the company’s organizational structure and reportable segments: Business (Item 1), Properties (Item 2), Management’s Discussion and Analysis of Financial Condition and Results of Operations (Item 7) and Financial Statements and Supplementary Data (Item 8, solely to reflect changes in Notes 1, 3 and 7 to the consolidated financial statements).

This Form 8-K should not be read to modify or update disclosures as presented in the 2015 Form 10-K to reflect any changes, events or activities occurring after the date of the filing of the 2015 Form 10-K, except for the segment changes described above. Therefore, this Form 8-K should be read in conjunction with the 2015 Form 10-K and the company’s filings made with the SEC subsequent to the filing of the 2015 Form 10-K, including the First Quarter 2016 Form 10-Q.
