Notes to the Financial Statements

June 30, 2008

(Unaudited)

Note 1. Basis of Presentation

The accompanying unaudited interim financial statements have been prepared in accordance with United States generally accepted accounting principles for interim financial information and with the instructions to Form 10-Q of Regulation S-X. They may not include all information and footnotes required by United States generally accepted accounting principles for complete financial statements. However, except as disclosed herein, there have been no material changes in the information disclosed in the notes to the financial statements for the period ended September 30, 2007 included in the Company's Registration Statement on Form SB-2 filed with the Securities and Exchange Commission. The interim unaudited financial statements should be read in conjunction with those financial statements included in the Registration Statement on Form SB-2. In the opinion of management, all adjustments considered necessary for a fair presentation, consisting solely of normal recurring adjustments, have been made. Operating results for the three and nine months ended June 30, 2008 are not necessarily indicative of the results that may be expected for the year ending September 30, 2008.

Note 2: Going Concern

The accompanying financial statements have been prepared on the basis of accounting principles applicable to a going concern; accordingly, they do not give effect to adjustment that would be necessary should the Company be unable to continue as a going concern and therefore be required to realize its assets and retire its liabilities in other than the normal course of business and at amounts different from those in the accompanying financial statements. Management plans to raise cash from public or private debt or equity financing on an as needed basis and in the longer term, to generate revenues from the acquisition, exploration and development of mineral interests, if found. The Company's ability to continue as a going concern is dependent upon achieving profitable operations and/or upon obtaining additional financing. The outcome of these matters cannot be predicted at this time.

Item 2.

Management's Discussion and Analysis.

Plan of Operation

About Our Claims and Our Company

Our mineral claim (the Goldhawk Property) is in the Omineca Mining Division in the Province of British Columbia, Canada was in good standing until July 15, 2008 and we have staked new claim adjacent as a replacement. The Goldhawk Property covers an area of 177.83 hectares.

Exploration Plan

Our initial plan as filed in our SB-2 registration statement on November 14, 2007, calls for performing exploration work on the Goldhawk Property of approximately \$19,100. Due to unavailability of professional geologist or engineers, specifically Mr. Ostler, we plan to commence the first phase in June/July 2009, and expect that the program will take approximately one month to complete. We anticipate covering part of the costs of the program from our existing cash reserve.

We anticipate that we will be able to conduct our Phase One exploration on our claims during the 2008 exploration season. The first phase is estimated to cost \$19,100.

After completing the exploration program, our consulting geologist will prepare a report discussing the results and conclusions of the program. He will also provide us with a recommendation for additional exploration work on the Goldhawk Property, which may include a soil geochemical survey. We will require additional funding to cover costs associated with a geochemical survey, and anticipate raising such funding through the sale of our common stock, although we currently do not have any specific financing arranged.

Results of Operations

We did not earn any revenues for the three months ended June 30, 2008 and from inception on April 30, 2007 to June 30, 2008. We do not anticipate earning revenues until such time as we have entered into commercial production of our mineral properties. We are presently in the exploration stage of our business and we can provide no assurance that we will discover commercially exploitable levels of mineral resources on our properties, or if such resources are discovered, that we will enter into commercial production of our mineral properties.

We incurred operating expenses in the amount of \$3,186 for the three months ended June 30, 2008, and total operating expenses in the amount of \$33,404 from inception on April 30, 2007. These operating expenses comprised mainly of accounting and legal expenses of \$3,000 for the three months ended June 30, 2008.

Liquidity and Capital Resources

As at June 30, 2008, we had a cash balance of \$11,871.

We do not anticipate generating any revenue for the foreseeable future. When additional funds become required, the additional funding will come from equity financing from the sale of our common stock or sale of part of our interest in our mineral claims. If we are successful in completing an equity financing, existing shareholders will experience dilution of their interest in our company.

We do not have any financing arranged and we cannot provide investors with any assurance that we will be able to raise sufficient funding from the sale of our common stock to fund Phase One or Phase Two. In the absence of such financing, our business will fail.

Based on the nature of our business, we anticipate incurring operating losses in the foreseeable future. We base this expectation, in part, on the fact that very few mineral claims in the exploration stage ultimately develop into producing, profitable mines. Our future financial results are also uncertain due to a number of factors, some of which are outside our control. These factors include, but are not limited to:

- .
- our ability to raise additional funding;
- .
- the results of our proposed exploration programs on the mineral property; and
- .

our ability to find joint venture partners for the development of our property interests

Due to our lack of operating history and present inability to generate revenues, our auditors have stated in their opinion that there currently exists a substantial doubt about our ability to continue as a going concern. Even if we complete our current exploration program, and it is successful in identifying a mineral deposit, we will have to spend substantial funds on further drilling and engineering studies before we will know if we have a commercially viable mineral deposit or reserve.

Accounting and Audit Plan

Our independent auditor is expected to charge approximately \$1,000 to review our quarterly financial statements and approximately \$4,000 to audit our annual financial statements. In the next twelve months, management anticipates spending approximately \$7,000.

Legal Expense Plan

Management expects to incur legal costs of approximately \$500 per quarter to support three quarterly 10-Q filings and \$1,000 to support one annual 10-K filing. In the next twelve months, management anticipates spending approximately \$2,500.

Risks and Uncertainties

Our operations and financial results are subject to various risks and uncertainties that could adversely affect our business, financial condition and results of operations. Risk Related to Our Business section of our Form SB-2 dated November 14, 2007, includes a detailed discussion of these factors which have not changed materially from those included in this Form 10-Q,

Off-Balance Sheet Arrangements

We have no off-balance sheet arrangements including arrangements that would affect our liquidity, capital resources, market risk support and credit risk support or other benefits.

Forward Looking Statements

The information in this quarterly report contains forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended (the Exchange Act). These forward-looking statements involve risks and uncertainties, including statements regarding the Company's capital needs, business strategy and expectations. Any statements contained herein that are not statements of historical facts may be deemed to be forward-looking statements. In some cases, you can identify forward-looking statements by terminology such as may, will, should, expect, plan, intend, anticipate, believe, potential or continue, the negative of such terms or other comparable terminology. Actual events or results may differ materially. In evaluating these statements, you should consider various factors, including the risks outlined from time to time, in other reports we file with the Securities and Exchange Commission (the SEC). These factors may cause our actual results to differ materially from any forward-looking statement. We disclaim any obligation to publicly update these statements, or disclose any difference between its actual results and those reflected in these statements. The information constitutes forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995.

Item 3. Qualitative and Quantitative Disclosure about Market Risks

We are a smaller reporting company as defined by Rule 12b-2 of the Securities Exchange Act of 1934 and are not required to provide the information under this item.

Item 4. Controls and Procedures.

Evaluation of Disclosure Controls and Procedures

Our Principal Executive Officer and Principal Financial Officer, after evaluating the effectiveness of our disclosure controls and procedures (as defined in Rule 13a-15(e) and 15d-15(e) under the Exchange Act) as of the end of the period covered by this report, have concluded that, based on the evaluation of these controls and procedures, that our disclosure controls and procedures were effective.

Controls and Procedures over Financial Reporting

Edgar Filing: VALSPAR CORP - Form 8-K

We are a smaller reporting company as defined by Rule 12b-2 of the Securities Exchange Act of 1934 and are not required to provide the information under this item.
