SFAS No. 157

In September 2006, the FASB issued Statement of Financial Accounting Standards No. 157, “Fair Value Measurements” (“SFAS No. 157”). SFAS No. 157 establishes a new definition of fair value, provides guidance on how to measure fair value and establishes new disclosure requirements of assets and liabilities at their fair value measurements. SFAS No. 157 is effective for fiscal years beginning after November 15, 2007. The Company has not determined whether the adoption of SFAS No. 157 will have a material effect on the Company’s financial statements.

SFAS No. 159

In February 2007, the FASB issued Statement of Financial Accounting Standards No. 159, “The Fair Value Option for Financial Assets and Financial Liabilities—Including an amendment of FASB Statement No. 115” (“SFAS 159”). SFAS 159 permits entities to choose to measure many financial instruments and certain other items at fair value and requires certain disclosures for amounts for which the fair value option is applied. This standard is effective as of the beginning of an entity’s first fiscal year that begins after November 15, 2007. Early adoption is permitted as of the beginning of a fiscal year that begins on or before November 15, 2007, provided the entity also elects to apply the provisions of Statement 157. The Company has not determined whether the adoption of SFAS No. 159 will have a material effect on the Company’s financial statements.

We account for our investment in the following unconsolidated joint ventures using the equity method of accounting. As of March 31, 2007 and December 31, 2006 our investment in unconsolidated joint ventures consists of the following:

	Percent Owned	March 31, 2007	December 31, 2006
PRA Glastonbury, LLC	40.0%	469	463
Inn American Hospitality at Ewing, LLC	50.0%	1,182	1,414

Metro 29th Street Associates, LLC	50.0%	6,768	-
		\$ 55,077	\$ 50,234

Any difference between the carrying amount of these investments and the underlying equity in net assets is amortized over the expected useful lives of the properties and other intangible assets.

On February 1, 2007 we acquired a 50.0% interest in Metro 29th Street Associates, LLC (“Metro 29th”), the lessee of the 228 room Holiday Inn Express-Manhattan, New York, NY, for approximately \$6,817. Metro 29th holds a twenty five year lease with certain renewal options at the end of the lease term. We also acquired an option to acquire a 50% interest in the entity that owns the Holiday Inn Express-Manhattan. The option is exercisable after February 1, 2012 or upon termination of Metro 29th Street’s lease of the hotel and expires at the end of the lease term. The fair value of the option was \$933 at the time of acquisition and is recorded in other assets on our consolidated balance sheet. We issued 694,766 units in our operating partnership valued at \$11.15 per unit for our interest in Metro 29th and the option. Metro 29th Street entered into an agreement with Metro 29th Sublessee, LLC, a joint venture owned by 44 New England and our joint venture partner, to sublease the hotel property. The hotel is managed by HHMLP.

NOTE 7 — COMMITMENTS AND CONTINGENCIES AND RELATED PARTY TRANSACTIONS

We are the sole general partner in our operating partnership, Hersha Hospitality Limited Partnership (the “Partnership”), which is indirectly the sole general partner of the subsidiary partnerships. The Company does not anticipate any losses as a result of our obligations as general partner in the Partnership.

Management Agreements

Our wholly owned TRS, 44 New England, engages eligible independent contractors, including HHMLP, as the property managers for hotels it leases from us pursuant to management agreements. Our management agreements with HHMLP provide for five-year terms and are subject to early termination upon the occurrence of defaults and certain other events described therein. As required under the REIT qualification rules, HHMLP must qualify as an “eligible independent contractor” during the term of the management agreements. Under the management agreements, HHMLP generally pays the operating expenses of our hotels. All operating expenses or other expenses incurred by HHMLP in performing its authorized duties are reimbursed or borne by our TRS to the extent the operating expenses or other expenses are incurred within the limits of the applicable approved hotel operating budget. HHMLP is not obligated to advance any of its own funds for operating expenses of a hotel or to incur any liability in connection with operating a hotel. Management agreements with other unaffiliated hotel management companies have similar terms.

As of March 31, 2007, HHMLP managed forty four of the properties leased to our TRS. HHMLP also managed two consolidated joint venture hotel properties and four unconsolidated joint venture hotel properties in which we maintain an investment. For its services, HHMLP receives a base management fee, and if a hotel exceeds certain thresholds, an incentive management fee. The base management fee for a hotel is due monthly and is equal to 3% of gross revenues associated with each hotel managed for the related month. The incentive management fee, if any, for a hotel is due annually in arrears on the ninetieth day following the end of each fiscal year and is based upon the financial performance of the hotel. There were no incentive management fees for the three months ended March 31, 2007 and 2006. For the three months ended March 31, 2007 and 2006, management fees incurred totaled \$1,039 and \$789, respectively, and are recorded as Hotel Operating Expenses.

Accounting and Information Technology Fees

Each of the wholly owned hotels managed by HHMLP incurs a monthly accounting and information technology fee. Monthly fees for accounting services are \$2 per property and monthly information technology fees are \$0.5 per property. For the three months ended March 31, 2007 and 2006, the Company incurred accounting fees of \$352 and \$227, respectively, and incurred information technology fees of \$82 and \$57, respectively. Accounting and information technology fees are included in General and Administrative expenses.

Franchise Agreements

The hotel properties are operated under franchise agreements assumed by the hotel property lessee. The franchise agreements have 10 to 20 year terms but may be terminated by either the franchisee or franchisor on certain anniversary dates specified in the agreements. The franchise agreements require annual payments for franchise royalties, reservation, and advertising services, and such payments are based upon percentages of gross room revenue. These payments are paid by the hotels and charged to expense as incurred. Franchise fee expense for the three months

ended March 31, 2007 and 2006 was \$3,273 and \$1,932 respectively. The initial fees incurred to enter into the franchise agreements are amortized over the life of the franchise agreements.

Acquisitions from Affiliates

We have entered into an option agreement with each of our officers and affiliated trustees such that we obtain a first right of refusal to purchase any hotel owned or developed in the future by these individuals or entities controlled by them at fair market value. This right of first refusal would apply to each party until one year after such party ceases to be an officer or trustee of our Company. Since our initial public offering in 1999, we have acquired, wholly or through joint ventures, a total of 76 hotels, including 22 hotels acquired from entities controlled by our officers or affiliated trustees. Of the 22 acquisitions from these entities, 18 were newly-constructed or newly-renovated by these entities prior to our acquisition. Our Acquisition Committee of the Board of Trustees is comprised solely of independent trustees, and the purchase prices and all material terms of the purchase of hotels from related parties are negotiated with the Acquisition Committee.

Hotel Supplies

For the three months ended March 31, 2007 and 2006, we incurred expenses of \$346 and \$226, respectively, for hotel supplies from Hersha Hotel Supply, an unconsolidated related party, which are expenses included in Hotel Operating Expenses. Approximately \$200 and \$66 is included in accounts payable at March 31, 2007 and December 31, 2006, respectively.

Capital Expenditure Fees

Beginning April 1, 2006, HHMLP began to charge a 5% fee on all capitalized expenditures and pending renovation projects at the properties as compensation for procurement services related to capital expenditures and for project management of renovation projects. For the three months ended March 31, 2007 we incurred fees of \$39 which were capitalized in with the cost of fixed asset additions.

Due From Related Parties

The Due from Related Party balance as of March 31, 2007 and December 31, 2006 was approximately \$717 and \$4,059 respectively. The majority of the balance as of March 31, 2007 and December 31, 2006 were receivables owed from our unconsolidated joint ventures.

Hotel Ground Rent

During 2003, in conjunction with the acquisition of the Hilton Garden Inn, Edison, NJ, we assumed a land lease from a third party with an original term of 75 years. Monthly payments as determined by the lease agreement are due through the expiration in August 2074. On February 16, 2006, in conjunction with the acquisition of the Hilton Garden Inn, JFK Airport, we assumed a land lease with an original term of 99 years. Monthly payments are determined by the lease agreement and are due through the expiration in July 2100. Both land leases provide rent increases at scheduled intervals. We record rent expense on a straight-line basis over the life of the lease from the beginning of the lease term. For the three months ended March 31, 2007 and 2006, we incurred \$249 and \$162, in hotel ground rent under the agreement.

We maintain an interest rate swap that fixes our interest rate on a variable rate mortgage. Under the terms of this interest rate swap, we pay fixed rate interest of 4.73% of the notional amount and we receive floating rate equal to the one month U.S. dollar LIBOR. The notional amount amortizes in tandem with the amortization of the underlying hedged debt and is \$7,902 as of March 31, 2007.

At March 31, 2007 and December 31, 2006, the fair value of the interest rate swap was \$19 and \$47, respectively, and is included in other assets on the face of the consolidated balance sheets. The change in net unrealized gains/losses was a loss of \$46 and gain of \$117 for the three months ended March 31, 2007 and 2006, respectively, for derivatives designated as cash flow hedges which were reflected on our Balance Sheet in Accumulated Other Comprehensive Income. General

As of March 31, 2007, we owned interests in 71 hotels located primarily in the eastern United States including 19 hotels owned through joint ventures. For purposes of the REIT qualification rules, we cannot directly operate any of our hotels. Instead, we must lease our hotels. The REIT qualification rules allow a hotel REIT to lease its hotels to a taxable REIT subsidiary, or TRS, provided that the TRS engages an eligible independent contractor to manage the hotels. As of March 31, 2007, we have leased all but one of our hotels to a wholly-owned TRS, a joint venture owned TRS, or a corporate entity owned by our wholly-owned TRS. The hotel not leased to a TRS entity is leased to an unrelated third party lessee. Each of these TRS entities pay qualifying rent, and the TRS entities have entered into management contracts with qualified independent managers, including Hershha Hospitality Management, LP, or HHMLP, to operate our hotels. The TRS directly receives all revenue from, and funds all expenses relating to hotel operations. The TRS is also subject to income tax on its earnings. We intend to lease all newly acquired hotels to a TRS.

Comparison of the three month period ended March 31, 2007 and 2006**(dollars in thousands, except per share data).*****Revenues***

Our total revenues for the three months ended March 31, 2007 consisted of hotel operating revenues, interest income from our development loan program, land lease revenue, hotel lease revenue and other revenue. Hotel operating revenue is recorded for wholly owned hotels that are leased to our wholly owned TRS and hotels owned through joint venture interests that are consolidated in our financial statements. Hotel operating revenue increased \$22,458, or 93.9%, from \$23,925 for the three months ended March 31, 2006 to \$46,383 for the same period in 2007. The increase in revenues is primarily attributable to the acquisitions consummated in 2006 and improved RevPAR at certain of our hotels. We acquired interests in the following 19 consolidated hotels since March 31, 2006:

We invest in hotel development projects by providing secured first mortgage or mezzanine financing to hotel developers and through the acquisition of land that is then leased to hotel developers. Interest income is earned on our development loans at rates 10%. Interest income from development loans receivable was \$1,303 for the three months ended March 31, 2007 compared to \$365 for the same period in 2006. The average balance of development loans receivable outstanding during the three months ended March 31, 2006 was lower than the average balance outstanding during the same period in 2007 resulting in a \$938 increase in interest income. In June and July of 2006 we acquired two parcels of land which are being leased to hotel developers. Our net investment in these parcels is approximately \$18,946. The land is leased to hotel developers at a minimum rental rate of 10% of our net investment in the land. Additional rents are paid by the lessee for the principal and interest on the mortgage, real estate taxes and insurance.

During the three months ended March 31, 2007, we recorded \$1,088 in land lease revenue from these parcels. We incurred \$614 in expense related to these land leases resulting in a contribution of \$474 to our operating income during the three months ended March 31, 2007.

Table of Contents

Total revenues for the three months ended March 31, 2007 also included hotel lease revenue for the lease of the Holiday Inn Conference Center, New Cumberland, Pennsylvania which has a fixed rent over the five year term. Beginning on July 1, 2006 this hotel was leased to an unrelated party. Prior to July 1, 2006, this hotel was leased to our wholly owned TRS and operating revenues and expenses of the hotel were recorded in hotel operating revenue and hotel operating expenses. Hotel lease revenue of \$137 was recorded in the three months ended March 31, 2007 related to the lease of this property.

Other revenue consists primarily of fees earned for asset management services provided to certain properties owned by our unconsolidated joint ventures.

Expenses

Total hotel operating expenses increased 82.2% to approximately \$29,069 for the three months ended March 31, 2007 from \$15,958 for the three months ended March 31, 2006. Consistent with the increase in hotel operating revenues, hotel operating expenses increased primarily due to the acquisitions consummated since the comparable period in 2005, as mentioned above. The acquisitions also resulted in an increase in depreciation and amortization from \$3,796 for the three months ended March 31, 2006 to \$8,240 for the three months ended March 31, 2007. Similarly, real estate and personal property tax and property insurance increased \$1,409, or 94.8%, in the three months ended March 31, 2007 when compared to the same period in 2006.

General and administrative expense increased by approximately \$1,047 from \$1,164 in 2006 to \$2,211 in 2007. General and administrative expenses increased primarily due to higher compensation expense related to the accrual of bonuses and compensation increases which were determined and approved by the board of trustees in May of 2007. This increase in cost has been partially offset by the reduction in costs related to enhancing our process to evaluate internal controls that were incurred during the three months ended March 31, 2006.

Unconsolidated Joint Venture Investments

Loss from unconsolidated joint venture investments decreased \$272 from \$1,110 for the three months ended March 31, 2006 to \$838 for the three months ended March 31, 2007. Since March 31, 2006, we have acquired unconsolidated joint venture interests in the following two properties:

Joint Venture	Brand	Name	Acquisition Date	Rooms	Ownership %	Hersha Preferred Equity Return
Metro 29th Street Associates, LLC	Holiday Inn Express	New York, NY	2/1/2007	228	50.0%	N/A
PRA Suites at Glastonbury, LLC	Homewood Suites	Glastonbury, CT	6/15/2006	136	40.0%	10.0%

In addition, we acquired joint venture interests in the following property during the three months ended March 31, 2006:

Joint Venture	Brand	Name	Acquisition Date	Rooms	Ownership %	Hersha Preferred Equity Return
Mystic Partners, LLC	Marriott	Hartford, CT	2/8/2006	409	15.0%	8.5%

Loss from unconsolidated joint venture investments during the three months ended March 31, 2007 was favorably impacted by the continued stabilization of these properties which were newly constructed when acquired. On September 28, 2006 we acquired the remaining 66.7% interest in the joint venture that owned the Hampton Inn-Chelsea, New York, NY. Prior to acquiring the remaining interest in this hotel, we owned a 33.3% interest and income was recorded in income from investments in unconsolidated joint ventures. After this acquisition, results of operations of this hotel property were included in our consolidated hotel operating results.

Net Loss

Net loss applicable to common shareholders for the three months ended March 31, 2007 was approximately \$5,438 compared to net loss applicable to common shareholders of \$5,084 for the same period in 2006.

Operating income for the three months ended March 31, 2007 was \$5,774 compared to operating income of \$1,901 during the same period in 2006. The \$3,873 increase in operating income resulted from improved performance of our portfolio and acquisitions that have increased the scale of our operations enabling us to leverage the absorption of administrative costs.

The increase in our operating income was partially offset by increases in interest expense, which increased \$4,692 from \$5,618 for the three months ended March 31, 2006 to \$10,310 for the three months ended March 31, 2007. The increase in interest expense is the result of mortgages placed on newly acquired properties and increased average balances on our line of credit. Mortgages and notes payable increased from \$256,146 as of December 31, 2005 to \$556,542 as of December 31, 2006. As of March 31, 2007, we had \$619,109 in mortgages and notes payable. During the three months ended March 31, 2006, we also replaced our line of credit with an increased credit facility. We incurred \$255 in debt extinguishment expense due to early termination fees and to write-off deferred loan costs associated with the retired credit facility.

Liquidity and Capital Resources

We expect to meet our short-term liquidity requirements generally through net cash provided by operations, existing cash balances and, if necessary, short-term borrowings under our line of credit. We believe that the net cash provided by operations will be adequate to fund the Company's operating requirements, debt service and the payment of dividends in accordance with REIT requirements of the federal income tax laws. We expect to meet our long-term liquidity requirements, such as scheduled debt maturities and property acquisitions, through long-term secured and unsecured borrowings, the issuance of additional equity securities or, in connection with acquisitions of hotel properties, the issuance of units of operating partnership interest in our operating partnership subsidiary.

We maintain a revolving credit loan and security agreement with Commerce Bank, N.A. with a maximum amount of \$100,000 and interest rate terms, at our discretion, of either the bank's prime rate of interest minus 0.75% or LIBOR available for the periods of 1, 2, 3, or 6 months plus 2.00%. The line of credit is collateralized by a first lien-security interest in all existing and future assets of HHLP, and title-insured, first-lien mortgages on certain hotel properties and collateral assignment of all hotel management contracts from which HHLP or its affiliates derive revenue. The line of credit includes certain financial covenants and requires that we maintain (1) a minimum tangible net worth of \$110.0 million; (2) a maximum accounts and other receivables from affiliates of \$75.0 million; and (3) certain financial ratios. The Company is in compliance with each of these covenants as of March 31, 2007.

We intend to invest in additional hotels only as suitable opportunities arise and adequate sources of financing are available. Our bylaws require the approval of a majority of our Board of Trustees, including a majority of the independent trustees, to acquire any additional hotel in which one of our affiliated trustees or officers, or any of their affiliates, has an interest (other than solely as a result of his status as our trustee, officer or shareholder). We expect that future investments in hotels will depend on and will be financed by, in whole or in part, our existing cash, the proceeds from additional issuances of common shares, issuances of operating partnership units or other securities or borrowings. We make available to the TRS of our hotels 4% (6% for full service properties) of gross revenues per quarter, on a cumulative basis, for periodic replacement or refurbishment of furniture, fixtures and equipment at each of our hotels. We believe that a 4% (6% for full service hotels) reserve is a prudent estimate for future capital expenditure requirements. We intend to spend amounts in excess of the obligated amounts if necessary to comply with the reasonable requirements of any franchise license under which any of our hotels operate and otherwise to the extent

we deem such expenditures to be in our best interests. We are also obligated to fund the cost of certain capital improvements to our hotels. We will use undistributed cash or borrowings under credit facilities to pay for the cost of capital improvements and any furniture, fixture and equipment requirements in excess of the set aside referenced above.

Cash Flow Analysis

Net cash provided by operating activities for the three months ended March 31, 2007 and 2006 was \$4,147 and \$3,315, respectively. The increase in net cash provided by operating activities was primarily the result of an increase in income before depreciation and amortization and decreases in due from related parties. This was offset by an increase in hotel accounts receivable and other assets and a decrease in due to related parties.

Table of Contents

Net cash used in investing activities for the three months ended March 31, 2007 decreased \$27,505 from \$73,585 in the three months ended March 31, 2006 compared to \$46,080 for the three months ended March 31, 2007. Net cash used for the purchase of hotel properties decreased \$64,033 in 2006 over 2005. Cash used for deposits on hotel acquisitions in 2007 increased by \$6,981 over the same period in 2006. We also increased our capital expenditures from \$1,565 in 2006 to \$3,459 in 2007 as a result of continuing property improvement plans at certain properties in 2007 that begin in the second half of 2006 in addition to capital expenditures in the ordinary course of business. Cash used to invest in development loans receivable, net of repayments, increased by \$26,350 in 2007 compared to 2006, as the originations of new development loans exceeded repayments in 2007.

Net cash provided by financing activities for the three months ended March 31, 2007 was \$39,986 compared to cash provided by financing activities of \$66,169 for the three months ended March 31, 2006. This decrease was, in part, the result of proceeds from mortgages and notes payable, net of repayments, of \$27,727 in 2007 compared to net proceeds of \$34,745 in 2006. Net cash provided by borrowing under our line of credit facility was \$37,243 in 2007 compared to \$21,550 in 2006. Net borrowings under the line of credit were used in 2007 and 2006 to fund the acquisition of hotel properties.

Funds From Operations

The National Association of Real Estate Investment Trusts (“NAREIT”) developed Funds from Operations (“FFO”) as a non-GAAP financial measure of performance of an equity REIT in order to recognize that income-producing real estate historically has not depreciated on the basis determined under GAAP. We calculate FFO applicable to common shares and Partnership units in accordance with the April 2002 National Policy Bulletin of NAREIT, which we refer to as the White Paper. The White Paper defines FFO as net income (loss) (computed in accordance with GAAP) excluding extraordinary items as defined under GAAP and gains or losses from sales of previously depreciated assets, plus certain non-cash items, such as depreciation and amortization, and after adjustments for unconsolidated partnerships and joint ventures. Our interpretation of the NAREIT definition is that minority interest in net income (loss) should be added back to (deducted from) net income (loss) as part of reconciling net income (loss) to FFO. Our FFO computation may not be comparable to FFO reported by other REITs that do not compute FFO in accordance with the NAREIT definition, or that interpret the NAREIT definition differently than we do.

The GAAP measure that we believe to be most directly comparable to FFO, net income (loss) applicable to common shares, includes depreciation and amortization expenses, gains or losses on property sales, minority interest and preferred dividends. In computing FFO, we eliminate these items because, in our view, they are not indicative of the results from our property operations.

FFO does not represent cash flows from operating activities in accordance with GAAP and should not be considered an alternative to net income as an indication of Hersha’s performance or to cash flow as a measure of liquidity or ability to make distributions. We consider FFO to be a meaningful, additional measure of operating performance because it excludes the effects of the assumption that the value of real estate assets diminishes predictably over time, and because it is widely used by industry analysts as a performance measure. We show both FFO from consolidated hotel operations and FFO from unconsolidated joint ventures because we believe it is meaningful for the investor to understand the relative contributions from our consolidated and unconsolidated hotels. The display of both FFO from consolidated hotels and FFO from unconsolidated joint ventures allows for a detailed analysis of the operating performance of our hotel portfolio by management and investors. We present FFO applicable to common shares and Partnership units because our Partnership units are redeemable for common shares. We believe it is meaningful for the investor to understand FFO applicable to all common shares and Partnership units.

The following table reconciles FFO for the periods presented to the most directly comparable GAAP measure, net income, for the same periods.

(2) Adjustment made to add depreciation of purchase price in excess of historical cost of the assets in the unconsolidated joint venture at the time of our investment.

(3) Adjustment made to add our interest in real estate related depreciation and amortization of our unconsolidated joint ventures. Allocation of depreciation and amortization is consistent with allocation of income and loss.

FFO was \$3,687 for the three month period ended March 31, 2007, which was an increase of \$4,120 over FFO in the comparable period in 2006. The increase in FFO was primarily a result of a strengthened economy; the benefits of acquiring assets and interests in joint ventures since March 31, 2006; continued stabilization and maturation of the existing portfolio; and continued attention to the average daily rate.

FFO was negatively impacted by increases in our interest expense during the period ended March 31, 2007.

Critical Accounting Policies

The estimates and assumptions made by management in applying critical accounting policies have not changed materially during 2007 and 2006, and none of the estimates or assumptions have proven to be materially incorrect or

resulted in our recording any significant adjustments relating to prior periods. See our Annual Report on Form 10-K for the year ended December 31, 2006 for a summary of the accounting policies that management believes are critical to the preparation of the consolidated financial statements.

Subsequent Events

On April 1, 2007, we increased our investment in PRA Glastonbury, LLC, the owner of the Hilton Garden Inn, Glastonbury, CT, and PRA Suites at Glastonbury, LLC, the owner of the Homewood Suites, Glastonbury, CT. We contributed \$780 and \$716 to PRA Glastonbury, LLC and PRA Suites at Glastonbury, LLC, respectively and received an additional 8% preferred interest in each venture.

On May 7, 2007, the Compensation Committee of the Board of Trustees approved non-equity incentive awards to each of the named executive officers, with respect to the fiscal year ended December 31, 2006, payable in May 2007. We recorded \$701 in compensation expense related to the non-equity incentive awards during the quarter ended March 31, 2007. We also entered into amendments to the employment agreements with our named executive officers and entered into an employment agreement with our Chief Accounting Officer. The Compensation Committee determined the 2007 compensation for our named executive officers, which includes the issuance of restricted shares.

Table of Contents**Item 3. Quantitative and Qualitative Disclosures About Market Risk.****(dollars in thousands, except per share data)**

Our primary market risk exposure is to changes in interest rates on our variable rate Line of Credit and other floating rate debt. At March 31, 2007, we maintained a balance of \$45,550 under our Line of Credit. The total floating rate mortgages payable of \$32,096 had a current weighted average interest rate of 6.22%. The total fixed rate mortgages and notes payable of \$587,101 had a current weighted average interest rate of 6.22%.

Our interest rate risk objectives are to limit the impact of interest rate fluctuations on earnings and cash flows and to lower our overall borrowing costs. To achieve these objectives, we manage our exposure to fluctuations in market interest rates for a portion of our borrowings through the use of fixed rate debt instruments to the extent that reasonably favorable rates are obtainable with such arrangements. We may enter into derivative financial instruments such as interest rate swaps or caps and treasury options or locks to mitigate our interest rate risk on a related financial instrument or to effectively lock the interest rate on a portion of our variable rate debt. Currently, we have one interest rate swap related to debt on the Four Points by Sheraton, Revere, MA. We do not intend to enter into derivative or interest rate transactions for speculative purposes.

Approximately 94.8% of our outstanding mortgages payable are subject to fixed rates, including the debt whose rate is fixed through a derivative instrument, while approximately 5.2% of our outstanding mortgages payable are subject to floating rates. The total weighted average interest rate on our debt and Line of Credit as of March 31, 2007 was approximately 6.42%. If the interest rate for our Line of Credit and other variable rate debt was 100 basis points higher or lower during the period ended March 31, 2007, our interest expense for the three month period ended March 31, 2006 would have been increased or decreased by approximately \$158 and \$158, respectively.

Changes in market interest rates on our fixed-rate debt impact the fair value of the debt, but it has no impact on interest incurred for cash flow. If interest rates raise 100 basis points and our fixed rate debt balance remains constant, we expect the fair value of our debt to decrease, the same way the price of a bond declines as interest rates rise. The sensitivity analysis related to our fixed-rate debt assumes an immediate 100 basis point move in interest rates from their March 31, 2007 levels, with all other variables held constant. A 100 basis point increase in market interest rates would result in the fair value of our fixed-rate debt approximating \$537 million, and a 100 basis point decrease in market interest rates would result in the fair value of our fixed-rate debt approximating \$652 million.

We regularly review interest rate exposure on our outstanding borrowings in an effort to minimize the risk of interest rate fluctuations. For debt obligations outstanding at March 31, 2007, the following table presents expected principal repayments and related weighted average interest rates by expected maturity dates (in thousands):

	2007	2008	2009	2010	2011	Thereafter	Total
Fixed Rate Debt	2,359	29,804	29,900	24,749	6,765	493,524	587,101
Average Interest Rate	6.22%	6.19%	6.17%	6.07%	6.06%	6.06%	
Floating Rate Debt	286	445	21,704	7,031	182	2,448	32,096
Average Interest Rate	8.17%	8.18%	7.65%	8.00%	8.00%	8.00%	
	\$ 2,645	\$ 30,249	\$ 51,604	\$ 31,780	\$ 6,947	\$ 495,972	\$ 619,197

The table incorporates only those exposures that existed as of March 31, 2007 and does not consider exposure or positions that could arise after that date. As a result, our ultimate realized gain or loss with respect to interest rate fluctuations will depend on the exposures that arise during the future period, prevailing interest rates, and our hedging strategies at that time.

2006 Non-Equity Incentive Plan Compensation

On May 7, 2007, the Compensation Committee of the Board of Trustees approved incentive awards to the Chief Executive Officer (“CEO”) and each of the other named executive officers, with respect to the fiscal year ended December 31, 2006, payable in May 2007. The incentive awards were made pursuant to the Company’s 2006 Annual Incentive Compensation Plan (the “2006 Incentive Plan”) approved on May 25, 2006.

For the 2006 fiscal year, the Compensation Committee established opportunities for certain executive officers to receive an incentive award of between 15% to 75% of their annual base salary pursuant to the 2006 Incentive Plan. Such awards could be earned on the basis of the Company’s attainment of certain financial metrics together with the satisfaction of specific individual performance objectives that were determined by the Compensation Committee. Eligibility for the minimum incentive award occurred when adjusted funds from operations, or AFFO, per share reached 95% of the budgeted AFFO for 2006. Eligibility for the higher tier incentive award occurred when AFFO per share reached 105% of the budgeted AFFO for 2006. An additional consideration for eligibility for an incentive award by the Chief Executive Officer, President and Chief Operating Officer and the Chief Financial Officer included the Company’s achievement of a dividend payout ratio of less than or equal to 95% of AFFO. The Compensation Committee established additional position-specific quantitative and qualitative performance goals for each of the named executive officers. Position-specific performance goals have included, but have not been limited to, growing the size of the Company’s portfolio, maintaining institutional ownership of the Company common shares at certain levels, complying with disclosure obligations pursuant to the federal securities laws and achieving clearance with the Company’s independent public accountants with regard to internal controls and procedures.

The Compensation Committee determined that the Company had increased annual AFFO per share by more than 105% of the budgeted AFFO per share for 2006 and was able to bring the dividend payout ratio below 95%. All named executive officers met a majority of their individual goals that were set by the Compensation Committee. In addition, the Compensation Committee noted that senior management had grown the asset base substantially and had achieved numerous other accomplishments during the year.

Based upon the foregoing, the Compensation Committee determined that the 2006 incentive awards were as follows: Hasu P. Shah, Chairman of the Board of Trustees, received an incentive award in the amount of \$62,500 which is equal to 50% of his 2006 annual base salary. Jay H. Shah, Chief Executive Officer, received an incentive award in the amount of \$262,500 which is equal to 75% of his 2006 annual base salary. Neil H. Shah, President and Chief Operating Officer, received an incentive award in the amount of \$240,000 which is equal to 75% of his 2006 annual base salary. Ashish R. Parikh, Chief Financial Officer, received an incentive award in the amount of \$112,500 which is equal to 50% of his 2006 annual base salary. Michael R. Gillespie, Chief Accounting Officer, received an incentive award in the amount of \$23,250 which is equal to 15% of his 2006 annual base salary. All incentive awards are scheduled to be paid in cash to the named executive officer on May 11, 2007.

The following table presents information relating to total compensation of the Named Executive Officers for the fiscal year ended December 31, 2006.

Employment Agreements

On May 7, 2007, we entered into amendments to our employment agreements (individually, an "Agreement" collectively, the "Agreements") with Hasu P. Shah (Chairman of the Board of Trustees), Jay H. Shah (Chief Executive Officer), Neil H. Shah (President and Chief Operating Officer), and Ashish R. Parikh (Chief Financial Officer) as well as an employment agreement with Michael R. Gillespie (Chief Accounting Officer) (individually, an "Executive" and collectively, the "Executives"). These Agreements supercede all prior employment agreements between each Executive and the Company. The following description of the material terms of the Agreements is qualified in its entirety by reference to the terms of the actual Agreements, which are attached hereto as Exhibits 10.6 through Exhibit 10.10 and incorporated by reference herein.

The Agreements expire on December 31, 2008 if written notice of non-renewal by either party is given to the other party by July 3, 2008. If no such notice is given, the Agreement continues until terminated by either party upon not less than one hundred eighty (180) days notice to the other party setting forth the effective date of termination. The Agreements provide for a minimum base salary and eligibility to receive certain incentive compensation, including but not limited to, stock options or shares of stock of the Company. The Agreements contain provisions that provide for the payments and provisions of other benefits by the Company to the effected Executive upon the occurrence of certain triggers. These triggers include the termination of such Executive's employment with the Company due to voluntary termination, termination with cause, death or disability, termination without cause and termination without cause or resignation for good reason following a change of control. Specifically, the Agreements also provide for the payment of certain compensation to each Executive in the event of a voluntary or involuntary termination of such Executive's employment by the Company or upon a change of control of the Company, including the following:

- Upon a termination without cause (as defined in the Agreements), the Company shall make a lump sum payment to the Executive within ten (10) days after termination without cause equal to the sum of the Executive's accrued but unused vacation to the date of termination plus the amount of the Executive's monthly base salary then in effect for the lesser of 12 months or the number of months (including a fractional month) remaining in the term of the Agreement.

Table of Contents

- Upon a termination without cause or an Executive's resignation for good reason (as defined in the Agreements) within twelve months following a change of control of the Company (as defined in the Agreement), the Company shall (i) fully vest the Executive's share awards and option grants, regardless of any vesting schedule, (ii) pay all base salary and any reimbursable expenses incurred and accrued vacation through the termination date, (iii) pay an amount equal to a multiple of the sum of (x) the Executive's then annual base salary, (y) the maximum annual bonus that the Executive could earn for the year that includes the date of termination (or if no maximum bonus amount has been set, the Executive's target bonus for that year) and (z) the fair market value (determined as of the date of the change of control) of the share award(s) received by the Executive for the year that includes the date of termination (or if no share awards were made in that year, the next preceding year in which the Executive received a share award), and (iv) pay the Executive's insurance benefits for a period of eighteen (18) months after termination. If the insurance benefit would constitute an "excess parachute payment" under Section 280G of the Internal Revenue Code of 1986, as amended, it will be reduced, if and only to the extent that, a reduction will allow the Executive to receive a greater net after tax amount than the Executive would receive absent a reduction. For purposes of calculating the payment described in (iii) above, the Agreements provide for the following multiples: Hasu P. Shah - 2x; Jay H Shah - 4x; Neil H. Shah 3x; Ashish R. Parikh; 2x and Michael R. Gillespie - 1x. Payments made in accordance with the change of control provisions shall be made in one lump within ten days following such termination.

The Agreements also contain certain provisions concerning confidential information, non-competition and non-recruitment.

On May 7, 2007, the Company delivered a notice of termination of the employment agreement it had entered into with David Desfor. The terms of the employment agreement provide that the agreement will terminate 180 days after either party has provided the other with written notice of termination. After termination of the employment agreement, Mr. Desfor will continue to be employed by the Company.

2007 Named Executive Officer Compensation

On May 7, 2007, the Compensation Committee reviewed the total compensation packages (including annual salary, restricted stock awards and potential bonus awards) for each of the CEO and the other named executive officers of the Company and made the following compensation determinations for fiscal year 2007: Hasu P. Shah, Chairman of the Board, will receive \$150,000 in annual compensation and shares of restricted stock equal to \$100,000. Jay H. Shah, Chief Executive Officer, will receive \$400,000 in annual compensation and shares of restricted stock equal to \$1,000,000. Neil H. Shah, President and Chief Operating Officer, will receive \$375,000 in annual compensation and shares of restricted stock equal to \$1,000,000. Ashish R. Parikh, Chief Financial Officer, will receive \$250,000 in annual compensation and shares of restricted stock equal to \$400,000. Michael R. Gillespie, Chief Accounting Officer, will receive \$175,000 in annual compensation and shares of restricted stock equal to \$75,000. Twenty-five percent of the restricted shares vest on each anniversary of the date of grant resulting in 100% of such restricted shares being fully vested on the fourth anniversary of the date of grant. The value of the restricted shares was calculated using a volume weighted average of the closing price of the Company's common shares for the 30 days immediately preceding May 7, 2007 and resulted at a price per share of \$12.00.

2007 Non-Equity Incentive Plan Compensation

In addition, on May 7, 2007, the Compensation Committee, approved the 2007 Annual Incentive Compensation Plan for the CEO and each of the other named executive officers, with respect to the fiscal year ending December 31, 2007 (the "2007 Incentive Plan"). The 2007 Incentive Plan is not set forth in a written agreement.

For fiscal 2007, the Compensation Committee established opportunities for the CEO and each of the named executive officers to receive an incentive award in amounts equal to a percentage of their respective annual base salary pursuant to the 2007 Incentive Plan. Such incentive awards could be earned on the basis of the Company's attainment of certain financial metrics together with the satisfaction of specific individual performance objectives that have been determined by the Compensation Committee.

Eligibility for the minimum incentive award occurs when AFFO per share increases by at least 5% from AFFO for 2006. Eligibility for the higher tier incentive award occurs when AFFO per share increases by at least 10% from AFFO for 2006. An additional consideration for eligibility for a cash award by the Chief Executive Officer, President and Chief Operating Officer and the Chief Financial Officer includes the Company's achievement of a dividend payout ratio of less than or equal to 95% of AFFO. The Compensation Committee established additional position-specific quantitative and qualitative performance goals for the CEO each of the named executive officers. Position-specific performance goals have included, but have not been limited to, growing the size of the Company's portfolio, maintaining institutional ownership of the Company common shares at certain levels, complying with disclosure obligations pursuant to the federal securities laws and achieving clearance with the Company's independent public accountants with regard to internal controls and procedures.
