SENSIENT TECHNOLOGIES CORPORATION
NOTES TO CONSOLIDATED CONDENSED FINANCIAL STATEMENTS
(Unaudited)

1. Accounting Policies

In the opinion of Sensient Technologies Corporation (the “Company”), the accompanying unaudited consolidated condensed financial statements contain all adjustments (consisting of only normal recurring adjustments) which are necessary to present fairly the financial position of the Company as of June 30, 2015, and December 31, 2014, the results of operations and comprehensive income for the three and six months ended June 30, 2015 and 2014, and cash flows for the six months ended June 30, 2015 and 2014. The results of operations for any interim period are not necessarily indicative of the results to be expected for the full year.

The preparation of financial statements in conformity with U.S. generally accepted accounting principles (“GAAP”) requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Expenses are charged to operations in the period incurred. However, for interim reporting purposes, certain expenses are charged to operations based on a proportionate share of estimated annual amounts rather than as they are actually incurred. In interim periods, depreciation expense is estimated using actual depreciation on fixed assets that have been placed in service at the beginning of the year, combined with an estimate of depreciation expense on expected current year additions.

On July 9, 2015, the Financial Accounting Standards Board (“FASB”) affirmed its proposed one-year deferral of the effective date for Accounting Standards Update (“ASU”) No. 2014-09, Revenue from Contracts with Customers. Under this proposal, the requirements of the new standard are effective for interim and annual periods beginning after December 15, 2017. The proposal also permits entities to adopt the standard for interim and annual reporting periods beginning after December 15, 2016. We are currently evaluating the expected impact of this standard.

Refer to the notes in the Company’s annual consolidated financial statements for the year ended December 31, 2014, for additional details of the Company's financial condition and a description of the Company’s accounting policies, which have been continued without change.

2. Acquisitions

On June 29, 2015, the Company completed the acquisition of the net assets and business of Xennia Technology Ltd. (“Xennia”). The Company paid \$8.4 million of cash for this acquisition. Xennia is a European manufacturer of specialty inks used in digital printing. Xennia’s operations are included in the Color segment.

The assets acquired and liabilities assumed were recorded at their fair values as of the acquisition date. The purchase price exceeded the carrying value of the net assets by approximately \$6 million. The excess was allocated to intangible assets, principally technological know-how, and goodwill. The Company recorded \$0.9 million of acquisition related costs.

3. Fair Value

Accounting Standards Codification (“ASC”) 820, Fair Value Measurements and Disclosures, defines fair value for financial assets and liabilities, establishes a framework for measuring fair value in GAAP and expands disclosures about fair value measurements. As of June 30, 2015, and December 31, 2014, the Company’s assets and liabilities subject to this standard are forward exchange contracts and investments in a money market fund and municipal

investments. The fair value of the forward exchange contracts based on current pricing obtained for comparable derivative products (Level 2 inputs) was a liability of \$0.5 million and \$0.1 million as of June 30, 2015 and December 31, 2014, respectively. The fair value of the investments based on June 30, 2015, and December 31, 2014, market quotes (Level 1 inputs) was an asset of \$2.7 million and \$1.9 million, respectively, and is reported in Other Assets in the Consolidated Condensed Balance Sheets.

Index

The carrying values of the Company's cash and cash equivalents, trade accounts receivable, accounts payable, accrued expenses and short-term borrowings approximated fair values as of June 30, 2015. The fair value of the Company's long-term debt, including current maturities, is estimated using discounted cash flows based on the Company's current incremental borrowing rates for similar types of borrowing arrangements (Level 2 inputs). The carrying value of the long-term debt at June 30, 2015, was \$549.5 million. The fair value of the long-term debt at June 30, 2015, was \$562.6 million.

7. Shareholders' Equity

The Company repurchased 1.0 million and 1.9 million shares of its common stock for an aggregate cost of \$66.3 million and \$127.2 million during the three and six months ended June 30, 2015, respectively, and 1.8 million and 2.0 million shares of its common stock for an aggregate price of \$97.8 million and \$108.8 million during the three and six months ended June 30, 2014, respectively. The amount of treasury stock purchases reported in the Company's Consolidated Condensed Statements of Cash Flow represent purchases that have settled within each respective quarter.

8. Derivative Instruments and Hedging Activity

The Company may use forward exchange contracts and foreign currency denominated debt to manage its exposure to foreign exchange risk by reducing the effect of fluctuating foreign currencies on short-term foreign currency denominated intercompany transactions, non-functional currency raw material purchases, non-functional currency sales and other known foreign currency exposures. These forward exchange contracts have maturities of less than twelve months. The Company's primary hedging activities and their accounting treatment are summarized below:

Forward exchange contracts – The forward exchange contracts that have been designated as hedges are accounted for as cash flow hedges. The Company had \$28.4 million and \$17.8 million of forward exchange contracts, designated as hedges, outstanding as of June 30, 2015, and December 31, 2014, respectively. Due to the short-term nature of these contracts, the results of these transactions are not material to the financial statements. In addition, the Company utilizes forward exchange contracts that are not designated as cash flow hedges and the results of these transactions are not material to the financial statements.

Net investment hedges – The Company has certain debt denominated in Euros and Swiss Francs. These debt instruments have been designated as partial hedges of the Company’s Euro and Swiss Franc net asset positions. Changes in the fair value of this debt attributable to changes in the spot foreign exchange rates are recorded in foreign currency translation in other comprehensive income (“OCI”). As of June 30, 2015, and December 31, 2014, the total value of the Company’s Euro and Swiss Franc debt was \$93.5 million and \$97.3 million, respectively. For the three and six months ended June 30, 2015, the impact of foreign exchange rates on these debt instruments increased debt by \$3.5 million and decreased debt by \$3.8 million, respectively, and has been recorded as foreign currency translation in OCI.

9. Income Taxes

The effective income tax rates for continuing operations for the quarters ended June 30, 2015 and 2014, were 27.9% and 34.5%, respectively. For the six-month periods ended June 30, 2015 and 2014, the effective income tax rates for continuing operations were 27.8% and 35.1%, respectively. The rates in both periods were impacted by the respective restructuring costs which were more significant in 2014. In addition, the 2015 rate was lower due to the mix of foreign earnings. Both the 2015 and 2014 rates were also impacted by changes in estimates associated with the finalization of prior year foreign and domestic tax items and audit settlements.

10. Accumulated Other Comprehensive Income

The following table summarizes the changes in Accumulated Other Comprehensive Income (OCI) during the three- and six-month periods ended June 30, 2015:

11. Restructuring

The Company incurred restructuring costs in both continuing and discontinued operations. The discussion in this note relates to the combination of both continuing and discontinued operations unless otherwise noted. Restructuring costs

related to discontinued operations are recorded in discontinued operations within the Company's Consolidated Condensed Statements of Earnings and are discussed in more detail in Note 12, Discontinued Operations.

Index

In March of 2014, the Company announced that it was initiating a restructuring plan (2014 Restructuring Plan or “Plan”) to eliminate underperforming operations, consolidate manufacturing facilities and improve efficiencies within the Company. The Company determined that it had redundant manufacturing capabilities in both North America and Europe and that it could lower costs and operate more efficiently by consolidating into fewer facilities. The Company also discontinued one of the businesses in the Color Group because it did not fit with the Company’s long term strategic plan and it had generated losses for several years. Based on this Plan, the Company determined that certain long-lived assets associated with the underperforming operations were impaired. The Company reduced the carrying amounts of these assets to their aggregate respective fair values which were determined based on independent market valuations for these assets. The fair values of the remaining long-lived assets are estimated to be approximately \$22.0 million. Also, certain machinery and equipment has been identified to be disposed of at the time of the facility closures and the associated depreciation for these assets has been accelerated. In addition, certain intangible assets and inventory were also determined to be impaired and were written down.

The Company has also incurred employee separation and other restructuring costs as a result of this Plan. The Company will reduce headcount by approximately 377 positions at impacted facilities, primarily in the Flavors & Fragrances Group, related to direct and indirect labor at manufacturing sites. As of June 30, 2015, approximately 180 positions have been eliminated as a result of this Plan. For the three and six months ended June 30, 2015, the Company recorded total restructuring costs of \$9.7 million and \$16.9 million, respectively, in accordance with GAAP and based on an internal review of the affected facilities and consultation with legal and other advisors. Since initiating the 2014 Restructuring Plan, the Company has incurred \$115.4 million of restructuring costs through June 30, 2015. During the current quarter, the Company identified an additional opportunity to consolidate certain manufacturing operations at one of the Color Group’s facilities in Europe. Including the costs related to this facility, the Company expects to incur approximately \$16 million of additional restructuring costs by the end of 2015 and approximately \$9 million of additional restructuring costs by the end of 2016. For the three and six months ended June 30, 2014, the Company recorded restructuring and other costs of \$13.0 million and \$65.7 million, respectively. Included within the restructuring and other costs, the Company incurred \$2.2 million and \$3.1 million, respectively, related to the 2014 proxy contest during the three and six months ended June 30, 2014.

The closure of these operations will significantly lower the Company’s operating costs, which will be realized over the next few years. The full benefit of the restructuring will be achieved after 2016. For the three and six months ended June 30, 2015, the Company achieved approximately \$1.6 million and \$3.1 million of savings in continuing operations, respectively, related to the 2014 Restructuring Plan. Upon implementing the Plan, the Company estimated the cost reductions to be approximately \$30 million, but the actual cost reductions could vary based upon changes in exchange rates and other assumptions. The Company achieved cost savings of approximately \$3 million in 2014. Based on current exchange rates, the annual cost savings are estimated to be approximately \$7 million in 2015, for total cost savings of \$9 to \$10 million through the end of 2015. ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

OVERVIEW

The following discussion of the financial condition and results of operations exclude the results of discontinued operations unless otherwise indicated.

Revenue

Revenue was \$346.0 million and \$373.4 million for the three months ended June 30, 2015 and 2014, respectively, a decrease of 7.3%. Revenue for the first six months of 2015 was \$692.2 million compared to \$740.5 million in the first six months of 2014, a decrease of 6.5%. The impact of foreign exchange rates decreased consolidated revenue by approximately 8.1% and 7.7% for the three and six months ended June 30, 2015, respectively.

Gross Profit

The gross profit margin decreased 60 basis points to 34.1% for the three months ended June 30, 2015, from 34.7% for the three months ended June 30, 2014. For the six months ended June 30, 2015, the gross profit margin decreased 30 basis points to 34.0% from 34.3% in the comparable period of 2014. Included in the cost of products sold are \$0.1 million and \$0.3 million of restructuring costs for the three and six months ended June 30, 2015, respectively. The decrease in the gross profit margin in both periods is primarily due to the lower volumes in the specialty inks business. Before the restructuring costs, gross margin decreased 50 basis points and 20 basis points for the three and six months ended June 30, 2015, respectively, from the comparable periods of 2014. The decrease in both periods is primarily due to the lower volumes in the specialty inks business.

Selling and Administrative Expenses

Selling and administrative expenses as a percent of revenue decreased 20 basis points to 21.1% for the three months ended June 30, 2015, from 21.3% for the three months ended June 30, 2014. Restructuring and other costs of \$10.4 million and \$11.6 million were included in selling and administrative expenses for the three months ended June 30, 2015 and 2014, respectively. The decrease is primarily due to the decrease in restructuring and other expense in the current year. Before the restructuring and other costs, selling and administrative expenses decreased 10 basis points in the current quarter from the comparable quarter of 2014. For the six months ended June 30, 2015, selling and administrative expenses as a percent of revenue decreased 560 basis points to 20.8% from 26.4% for the six months ended June 30, 2014. Restructuring and other costs of \$17.3 million and \$57.8 million were included in selling and administrative expenses for the six months ended June 30, 2015 and 2014, respectively. The decrease in selling and administrative expense as a percent of revenue is primarily due to the decrease in restructuring and other expense partially offset by savings associated with the restructuring plan. Excluding restructuring costs, selling and administrative expenses as a percent of revenue decreased 30 basis points to 18.3% for the six months ended June 30, 2015, primarily due to the savings associated with the restructuring plan.

Operating Income

Operating income was \$45.1 million and \$49.7 million for the three months ended June 30, 2015 and 2014, respectively. Operating margins decreased 30 basis points to 13.0% for the three months ended June 30, 2015, from 13.3% for the comparable period of 2014. Before the restructuring costs in both years, operating income for the current quarter decreased 9.4% to \$55.5 million. The impact of foreign exchange rates decreased operating income in the current quarter by 7.3%. Before the impact of the restructuring costs, operating margins were 16.1% and 16.4%, for the three months ended June 30, 2015 and 2014, respectively. Operating income was \$91.5 million and \$58.3 million for the six months ended June 30, 2015 and 2014, respectively. Operating margins increased 530 basis points to 13.2% for the six months ended June 30, 2015, from 7.9% for the comparable period of 2014. Before the restructuring costs in both years, operating income decreased 6.0% to \$109.1 million for the six months ended June 30, 2015, from \$116.1 million in the comparable period of 2014. The impact of foreign exchange rates decreased

operating income by 7.0%. Before the restructuring costs in both years, operating margin increased 10 basis points to 15.8% for the six months ended June 30, 2015, from the comparable period in 2014.

Index

Interest Expense

Interest expense was \$4.1 million and \$3.7 million for the three months ended June 30, 2015 and 2014, respectively. Interest expense was \$8.0 million and \$7.8 million for the six months ended June 30, 2015 and 2014, respectively. The increase in the expense in both the three and six-month periods is primarily due to the increase in the average debt outstanding which is partially offset by the lower average interest rates.

Income Taxes

The effective income tax rates were 27.9% and 34.5% for the three months ended June 30, 2015 and 2014, respectively. Before the restructuring costs, the effective tax rates were 27.6% and 30.8% for the three months ended June 30, 2015 and 2014, respectively. The effective tax rates in both 2015 and 2014 were reduced by changes in estimates associated with the finalization of prior year tax items and audit settlements. For the six months ended June 30, 2015 and 2014, the effective income tax rates were 27.8% and 35.1%, respectively. Before the restructuring costs in both years, the effective tax rates were 27.3% and 30.2%, respectively.

During the three months ended June 30, 2015, the Company completed the acquisition of the business and net assets of Xennia Technology Ltd. ("Xennia") for \$8.4 million. The Xennia business will be integrated with the specialty inks business in the Color segment. The Company acquired goodwill and intangibles of approximately \$6.0 million and incurred acquisition related costs of \$0.9 million. The acquisition related costs are included in the restructuring and other costs for the three and six months ended June 30, 2015, in the table that reconciles the GAAP and non-GAAP that follows on page 15.

Restructuring and Other Costs

In March of 2014, the Company announced that it was initiating a restructuring plan (2014 Restructuring Plan or "Plan") to eliminate underperforming operations, consolidate manufacturing facilities and improve efficiencies within the Company. The Company determined that it had redundant manufacturing capabilities in both North America and Europe and that it could lower costs and operate more efficiently by consolidating into fewer facilities. The Company also discontinued one of the businesses in the Color Group because it did not fit with the Company's long term strategic plan and it had generated losses for several years. Based on this Plan, the Company determined that certain long-lived assets associated with the underperforming operations were impaired. The Company reduced the carrying amounts of these assets to their aggregate respective fair values which were determined based on independent market valuations for these assets. The fair values of the remaining long-lived assets are estimated to be approximately \$22.0 million. Also, certain machinery and equipment has been identified to be disposed of at the time of the facility closures and the associated depreciation for these assets has been accelerated. Since initiating the Plan, the Company has recorded long-lived asset impairments of \$77.7 million, including the impairment charges and the accelerated depreciation. In addition, certain intangible assets and inventory were also determined to be impaired and were written down.

The Company has also incurred employee separation and other restructuring costs as a result of this Plan. The Company will reduce headcount by approximately 377 positions at impacted facilities, primarily in the Flavors & Fragrances Group, related to direct and indirect labor at manufacturing sites. As of June 30, 2015, approximately 180 positions have been eliminated as a result of this Plan. For the three and six months ended June 30, 2015, the Company recorded total restructuring costs of \$9.7 million and \$16.9 million, respectively, in accordance with GAAP and based on an internal review of the affected facilities and consultation with legal and other advisors. Since initiating the 2014 Restructuring Plan, the Company has incurred \$115.4 million of restructuring costs through June 30, 2015. During the current quarter, the Company identified an additional opportunity to consolidate certain manufacturing operations at one of the Color Group's facilities in Europe. Including the costs related to this facility, the Company expects to incur approximately \$16 million of additional restructuring costs by the end of December 2015 and approximately \$9 million of additional restructuring costs by the end of 2016.

The closure of these operations will significantly lower the Company's operating costs, which will be realized over the next few years. The full benefit of the restructuring will be achieved after 2016. For the three and six months ended June 30, 2015, the Company achieved approximately \$1.6 million and \$3.1 million of savings in continuing operations, respectively, related to the 2014 Restructuring Plan. Upon implementing the Plan, the Company estimated the cost reductions to be approximately \$30 million, but the actual cost reductions could vary based upon changes in exchange rates and other assumptions. The Company achieved cost savings of approximately \$3 million in 2014. Based on current exchange rates, the annual cost savings are estimated to be approximately \$7 million in 2015, for total cost savings of \$9 to \$10 million through the end of 2015. Furthermore, the Company expects to realize incremental savings of approximately \$6 million in 2016 and an additional \$8 to \$9 million in 2017. In cases where the estimated cost savings have been reduced because of changes in foreign currency exchange rates, the Company has implemented price increases to reduce the impact of foreign currency movements.

Index

In connection with the 2014 Restructuring Plan, the Company approved a plan to dispose of a certain business within the Color segment. Production ceased in 2014 and the business met the criteria for discontinued operations. The pre-tax loss from discontinued operations, which includes restructuring costs, was \$0.1 million and \$1.5 million for the three months ended June 30, 2015 and 2014, respectively, and \$0.4 million and \$8.5 million for the six months ended June 30, 2015 and 2014, respectively.

The Company also incurred costs during 2014 related to the 2014 proxy contest, which were included in restructuring and other costs in 2014. The Company incurred \$2.2 million and \$3.1 million of proxy related costs for the three and six months ended June 30, 2014.
