FORM 10-Q

QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the quarterly period ended June 30, 2015

OR

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the transition period from \_\_\_\_\_ to \_\_\_\_\_

COMMISSION FILE NUMBER 001-35633

Sound Financial Bancorp, Inc.  
(Exact Name of Registrant as Specified in its Charter)

Maryland 45-5188530  
(State or other jurisdiction of incorporation or organization) (I.R.S. Employer Identification No.)

2005 5th Avenue, Suite 200, Seattle, Washington 98121  
(Address of principal executive offices) (Zip Code)

Registrant's telephone number, including area code: (206) 448-0884

None

(Former name, former address and former fiscal year, if changed since last report)

Indicate by checkmark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. YES NO

Indicate by checkmark whether the registrant has submitted electronically and posted on its corporate website, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§ 232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). YES NO

Indicate by checkmark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer or a smaller reporting Company. See definition of "large accelerated filer," "accelerated filer" and "smaller reporting company" in Rule 12b-2 of the Exchange Act.

Large accelerated filer Accelerated filer Non-accelerated filer Smaller reporting company  
(Do not check if smaller reporting company)

Edgar Filing: Sound Financial Bancorp, Inc. - Form 10-Q

Indicate by checkmark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act).  
YES      NO

Indicate the number of shares outstanding of each of the registrant's classes of common stock as of the latest practicable date.

As of August 6, 2015, there were 2,465,730 shares of the registrant's common stock outstanding.

SOUND FINANCIAL BANCORP, INC. AND SUBSIDIARY  
Notes to Condensed Consolidated Financial Statements (unaudited)

Note 1 – Basis of Presentation

The accompanying financial information is unaudited and has been prepared from the consolidated financial statements of Sound Financial Bancorp, Inc., and its wholly owned subsidiary, Sound Community Bank. References in this document to Sound Financial Bancorp refer to Sound Financial Bancorp, Inc. and its predecessor, Sound Financial, Inc., a federal corporation, and references to the “Bank” refer to Sound Community Bank. References to “we,” “us,” and “our” or the “Company” means Sound Financial Bancorp and its wholly-owned subsidiary, Sound Community Bank unless the context otherwise requires.

These unaudited consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States (“GAAP”) for interim financial information and in accordance with the instructions to Form 10-Q and Article 10 of Regulation S-X as promulgated by the Securities and Exchange Commission (“SEC”). In the opinion of management, all adjustments (consisting of normal recurring accruals) considered necessary for a fair presentation of the financial position and results of operations for the periods presented have been included. Certain information and disclosures normally included in financial statements prepared in accordance with GAAP have been condensed or omitted pursuant to the rules and regulations of the SEC. These unaudited financial statements should be read in conjunction with the Company’s Annual Report on Form 10-K for the year ended December 31, 2014, as filed with the SEC on March 31, 2015 (“2014 Form 10-K”). The results for the interim periods are not necessarily indicative of results for a full year. For further information, refer to the consolidated financial statements and footnotes for the year ended December 31, 2014, included in the 2014 Form 10-K. Certain amounts in the prior quarters’ consolidated financial statements have been reclassified to conform to the current presentation. These classifications do not have an impact on previously reported consolidated net income, retained earnings, stockholders’ equity or earnings per share.

Note 2 – Accounting Pronouncements Recently Issued or Adopted

In January 2015, the Financial Accounting Standards Board (“FASB”) issued Accounting Standards Update (“ASU”) FASB issued ASU No.2015-1, Income Statement-Extraordinary and Unusual Items (Subtopic 225-20). The objective of this ASU is to simplify the income statement presentation requirements in Subtopic 225-20 by eliminating the concept of extraordinary items. Extraordinary items are events and transactions that are distinguished by their unusual nature and by the infrequency of their occurrence. Eliminating the extraordinary classification simplifies income statement presentation by altogether removing the concept of extraordinary items from consideration. This ASU is effective for annual periods and interim periods within those annual periods beginning after December 15, 2015 with early adoption permitted. The adoption of ASU 2015-1 is not expected to have a material impact on the Company’s consolidated financial statements.

In February 2015, the FASB issued ASU No. 2015-02, Consolidation (Topic 810): Amendments to the Consolidation Analysis, which is intended to improve targeted areas of consolidation guidance for legal entities such as limited partnerships, limited liability corporations, and securitization structures (collateralized debt obligations, collateralized loan obligations, and mortgage-backed security transactions). The ASU focuses on simplifying the consolidation evaluation for reporting organizations that are required to evaluate whether they should consolidate certain legal entities by reducing the number of consolidation model from four to two, among other changes. The ASU will be effective for periods beginning after December 31, 2015, while early adoption is permitted. The Company does not expect this ASU to have a material impact on the Company's consolidated financial statements.

In April 2015, the FASB issued ASU No. 2015-03, Interest - Imputation of Interest (Subtopic 835-30): Simplifying the Presentation of Debt Issuance Costs. The amendments in this ASU require that debt issuance costs related to a

recognized debt liability be presented in the balance sheet as a direct deduction from the carrying amount of that debt liability, consistent with debt discounts. The recognition and measurement guidance for debt issuance costs are not affected. ASU No 2015-03 is effective for financial statements issued for fiscal years beginning after December 15, 2015, and interim periods within those fiscal years. ASU No. 2015-03 should be applied on a retrospective basis. The Company is currently evaluating the impacts of this ASU on the Company's consolidated financial statements.

In April 2015, FASB issued ASU No. 2015-05, Customer's Accounting for Fees Paid in a Cloud Computing Arrangement. The amendments in this ASU provide guidance to customers in cloud computing arrangements about whether a cloud computing arrangement includes a software license. If a cloud computing arrangement includes a software license, the customer should account for the software license element of the arrangement consistent with the acquisition of other software licenses. If a cloud computing arrangement does not include a software license, the customer should account for the arrangement as a service contract. The amendments are effective for annual periods, including interim periods within those annual periods, beginning after December 15, 2015. Early adoption is permitted. This ASU is not expected to have a material effect on the Company's consolidated financial statements.

In June 2015, FASB issued ASU No. 2015-10, Technical Corrections and Improvements. On November 10, 2010 FASB added a standing project that will facilitate the FASB Accounting Standards Codification ("Codification") updates for technical corrections, clarifications, and improvements. These amendments are referred to as Technical Corrections and Improvements. Maintenance updates include non-substantive corrections to the Codification, such as editorial corrections, various link-related changes, and changes to source fragment information. This update contains amendments that will affect a wide variety of Topics in the Codification. The amendments in this ASU will apply to all reporting entities within the scope of the affected accounting guidance and generally fall into one of four categories: amendments related to differences between original guidance and the Codification, guidance clarification and reference corrections, simplification, and minor improvements. In summary, the amendments in this ASU represent changes to clarify the Codification, correct unintended application of guidance, or make minor improvements to the Codification that are not expected to have a significant effect on current accounting practice. Transition guidance varies based on the amendments in this ASU. The amendments in this ASU that require transition guidance are effective for fiscal years and interim reporting periods after December 15, 2015. Early adoption is permitted including adoption in an interim period. All other amendments are effective upon the issuance of this ASU. ASU 2015-10 did not have a material impact on the Company's consolidated financial statements.

Edgar Filing: Sound Financial Bancorp, Inc. - Form 10-Q

Table of Contents

Note 3 – Investments

The amortized cost and fair value of our available-for-sale (“AFS”) securities and the corresponding amounts of gross unrealized gains and losses at the dates indicated were as follows (in thousands):

	Amortized Cost	Gross Unrealized Gains	Gross Unrealized Losses	Estimated Fair Value
June 30, 2015				
Municipal bonds	\$ 1,912	\$ 138	\$ -	\$ 2,050
Agency mortgage-backed securities	5,259	135	(26 )	5,368
Non-agency mortgage-backed securities	506	-	(23 )	483
Total	\$ 7,677	\$ 273	\$ (49 )	\$ 7,901
December 31, 2014				
Municipal bonds	\$ 1,911	\$ 172	\$ -	\$ 2,083
Agency mortgage-backed securities	7,024	110	(38 )	7,096
Non-agency mortgage-backed securities	2,312	83	(50 )	2,345
Total	\$ 11,247	\$ 365	\$ (88 )	\$ 11,524

The amortized cost and fair value of AFS securities at June 30, 2015, by contractual maturity, are shown below (in thousands). Expected maturities of AFS securities may differ from contractual maturities because borrowers may have the right to call or prepay obligations with or without call or prepayment penalties.

	At June 30, 2015	
	Amortized Cost	Fair Value
Due in five to ten years	\$1,912	\$2,050
Due after ten years	5,765	5,851
Total	\$7,677	\$7,901

No securities were pledged to secure Washington State Public Funds as of June 30, 2015.

There were no sales of AFS securities during the three months ended June 30, 2015. We sold \$1.7 million of non-agency mortgage-backed securities generating gross losses of \$31,000 and no gross gains during the six months ended June 30, 2015. There were no sales of AFS securities during the three or six months ended June 30, 2014.

The following tables summarize at the dates indicated the aggregate fair value and gross unrealized loss by length of time of those investments that have been continuously in an unrealized loss position (in thousands):

	June 30, 2015					
	Less Than 12 Months		12 Months or Longer		Total

Table of Contents

## SOUND FINANCIAL BANCORP, INC. AND SUBSIDIARY

## Notes to Condensed Consolidated Financial Statements (unaudited)

The following table presents the cumulative roll forward of credit losses recognized in earnings during the three and six months ended June 30, 2015 and 2014 relating to the Company's non-U.S. agency mortgage-backed securities (in thousands):

	Three Months Ended June 30, 2015		Six Months Ended June 30, 2014	
Estimated credit losses, beginning balance	\$-	\$450	\$450	\$450
Additions for credit losses not previously recognized	-	-	-	-
Reduction for increases in cash flows	-	-	-	-
Reduction of related OTTI due to sales	-	-	(450)	-
Reduction for realized losses	-	-	-	-
Estimated credit losses, ending balance	\$-	\$450	\$-	\$450

At June 30, 2015, our securities portfolio consisted of 14 agency mortgage-backed securities, one non-agency mortgage-backed security and five municipal securities with a fair value of \$7.9 million. At December 31, 2014, our securities portfolio consisted of 15 agency mortgage-backed securities, five non-agency mortgage-backed securities and five municipal bonds with a fair value of \$11.5 million. At June 30, 2015, one of the 14 agency mortgage-backed securities was in an unrealized loss position compared to three of the 15 agency mortgage-backed securities at December 31, 2014. All of the agency mortgage-backed securities in an unrealized loss position at June 30, 2015 and December 31, 2014 were issued or guaranteed by U.S. governmental agencies. The unrealized losses were caused by changes in market interest rates or the widening of market spreads subsequent to the initial purchase of these securities, and not related to the underlying credit of the issuers or the underlying collateral. It is expected that these securities will not be settled at a price less than the amortized cost of each investment. Because the decline in fair value is attributable to changes in interest rates or widening market spreads and not credit quality, and because we do not intend to sell the securities in this class and it is not likely that we will be required to sell these securities before recovery of their amortized cost basis, which may include holding each security until contractual maturity, the unrealized losses on these investments are not considered an other-than-temporary impairment ("OTTI").

As of June 30, 2015, the only non-agency mortgage-backed security in our portfolio was in an unrealized loss position compared to one of the five non-agency mortgage-backed securities contained in our portfolio at December 31, 2014. The unrealized loss was caused by changes in interest rates and market illiquidity causing a decline in the fair value subsequent to the purchase. The contractual term of this investment does not permit the issuer to settle the security at a price less than par. Because the decline in fair value is attributable to changes in interest rates or widening market spreads and not credit quality, and because we do not intend to sell the security and it is not likely that we will be required to sell this security before recovery of its amortized cost basis, which may include holding the security until contractual maturity, the unrealized loss on this investment is not considered an OTTI.

## Note 4 – Loans

The composition of the loan portfolio at the dates indicated, excluding loans held for sale, was as follows (in thousands):

At June 30,	At December
----------------	----------------

Edgar Filing: Sound Financial Bancorp, Inc. - Form 10-Q

	2015	31, 2014
Real estate loans:

## Notes to Condensed Consolidated Financial Statements (unaudited)

Credit Quality Indicators. Federal regulations provide for the classification of lower quality loans as substandard, doubtful or loss. An asset is considered substandard if it is inadequately protected by the current net worth and payment capacity of the borrower or of any collateral pledged. Substandard assets include those characterized by the distinct possibility that we will sustain some loss if the deficiencies are not corrected. Assets classified as doubtful have all the weaknesses of currently existing facts, conditions and values. Assets classified as loss are those considered uncollectible and of such little value that their continuance as assets without establishment of a specific loss reserve is not warranted.

When we classify problem loans as either substandard or doubtful, we may establish a specific allowance in an amount we deem prudent to address the risk specifically (if the loan is impaired) or we may allow the loss to be addressed in the general allowance (if the loan is not impaired). General allowances represent loss reserves which have been established to recognize the inherent risk associated with lending activities, but which, unlike specific allowances, have not been specifically allocated to particular problem loans. When the Company classifies problem loans as a loss, we charge off such assets in the period in which they are deemed uncollectible. Assets that do not currently expose us to sufficient risk to warrant classification as substandard, doubtful or loss but possess identified weaknesses are classified as either watch or special mention assets. Our determination as to the classification of our assets and the amount of our valuation allowances is subject to review by the Federal Deposit Insurance Corporation ("FDIC"), which can order the establishment of additional loss allowances. Pass rated loans are loans that are not otherwise classified or criticized.

The following table represents the internally assigned grades as of June 30, 2015 by type of loan (in thousands):

Grade:	One- to four- family	Home equity	Commercial and multifamily	Construction and land	Manufactured homes	Other consumer	Commercial business	Total

Nonaccrual and Past Due Loans. Loans are considered past due if the required principal and interest payments have not been received as of the date such payments were due. Loans are automatically placed on nonaccrual once the loan is 90 days past due or sooner if, in management's opinion, the borrower may be unable to meet payment of obligations as they become due, as well as when required by regulatory authorities.

The following table presents the recorded investment in nonaccrual loans as of June 30, 2015 and December 31, 2014, by type of loan (in thousands):

	June 30, 2015	December 31, 2014

**Nonperforming Loans.** Loans are considered nonperforming when they are placed on nonaccrual and/or when they are considered to be nonperforming troubled debt restructurings (“TDRs”) and/or when they are 90 days or greater past due and still accruing. A TDR is a loan to a borrower that is experiencing financial difficulty that has been modified from its original terms and conditions in such a way that the Company is granting the borrower a concession of some kind. Nonperforming TDRs include TDRs that do not have sufficient payment history (typically greater than six months) to be considered performing or TDRs that have become 31 or more days past due.

The following table represents the credit risk profile of our loan portfolio based on payment activity as of June 30, 2015 by type of loan (in thousands):

Impaired Loans. A loan is considered impaired when we have determined that we may be unable to collect payments of principal or interest when due under the terms of the loan. In the process of identifying loans as impaired, we take into consideration factors which include payment history and status, collateral value, financial condition of the borrower, and the probability of collecting scheduled payments in the future. Minor payment delays and insignificant payment shortfalls typically do not result in a loan being classified as impaired. The significance of payment delays and shortfalls is considered on a case by case basis, after taking into consideration the totality of circumstances surrounding the loans and the borrowers, including payment history. Impairment is measured on a loan by loan basis for all loans in the portfolio. All TDRs are also classified as impaired loans and are included in the loans individually evaluated for impairment in the calculation of the allowance for loan losses.

The following table presents loans individually evaluated for impairment as of June 30, 2015 by type of loan (in thousands):

Forgone interest on nonaccrual loans was \$40,000 and \$57,000 for the six months ended June 30, 2015 and 2014, respectively. There were no commitments to lend additional funds to borrowers whose loans were classified as nonaccrual, TDR or impaired at June 30, 2015 or December 31, 2014.

Troubled debt restructurings. Loans classified as TDRs totaled \$7.3 million and \$7.7 million at June 30, 2015 and December 31, 2014, respectively, and are included in impaired loans. The Company has granted in its TDRs a variety of concessions to borrowers in the form of loan modifications. The modifications granted can generally be described in the following categories:

**Rate Modification:** A modification in which the interest rate is changed.

Term Modification: A modification in which the maturity date, timing of payments or frequency of payments is changed.

Payment Modification: A modification in which the dollar amount of the payment is changed. Interest only modifications in which a loan is converted to interest only payments for a period of time are included in this category.

Combination Modification: Any other type of modification, including the use of multiple categories above.

17

---

Table of ContentsSOUND FINANCIAL BANCORP, INC. AND SUBSIDIARY  
Notes to Condensed Consolidated Financial Statements (unaudited)

There were no new TDRs that occurred during the six months ended June 30, 2015 and three months ended June 30, 2014.

The following table presents new TDRs by type of modification that occurred during the six months ended June 30, 2014 (in thousands):

	Six months ended June 30, 2014					
	Number of Rate Con-Modifications	Term Modifications	Payment Modifications	Combination Modifications	Total Modifications	
One-to four- family	1 \$ -	\$ -	\$ -	\$ 176	\$ 176	
Total	1 \$ -	\$ -	\$ -	\$ 176	\$ 176	

There were no post-modification changes for the recorded investment in loans that were recorded as a result of the TDRs for the three and six months ended June 30, 2015 and 2014, respectively. At June 30, 2015 and June 30, 2014, the Company had no commitments to extend additional credit to borrowers whose loan terms have been modified in TDRs. The allowance for loan losses allocated to TDRs at June 30, 2015 and December 31, 2014 was \$838,000 and \$349,000, respectively.

The following table represents loans modified as TDRs within the previous 12 months for which there was a payment default during the three and six months ended June 30, 2014 and 2013, respectively (in thousands):

	Three Months Ended June 30, 2015		Six Months Ended June 30, 2014	
	2015	2014	2015	2014
Home equity	\$-	\$-	\$-	\$-
Commercial and multifamily	-	582	-	582
Total	\$-	\$582	\$-	\$582

For the preceding tables, a loan is considered in default when a payment is 31 days past due. At June 30, 2015, there were no TDRs modified within the previous 12 months that were delinquent or on nonaccrual status.

Mortgage servicing rights	3,028	-	-	3,028

For the three and six months ended June 30, 2015 and 2014 there were no transfers between Level 1 and Level 2 nor between Level 2 and Level 3.

Table of Contents

## SOUND FINANCIAL BANCORP, INC. AND SUBSIDIARY

## Notes to Condensed Consolidated Financial Statements (unaudited)

The following table provides a description of the valuation technique, unobservable input, and qualitative information about the unobservable inputs for the Company's assets and liabilities classified as Level 3 and measured at fair value on a recurring basis at June 30, 2015:

Financial Instrument	Valuation Technique	Unobservable Input(s)	Range (Weighted Average)
Mortgage Servicing Rights	Discounted cash flow	Prepayment speed assumption Discount rate	105-462% (177%) 8-12% (10%)
Non-agency mortgage-backed securities	Discounted cash flow	Discount rate	(8%)

Generally, any significant increases in the constant prepayment rate and discount rate utilized in the fair value measurement of the mortgage servicing rights will result in a negative fair value adjustment (and decrease in the fair value measurement). Conversely, a decrease in the constant prepayment rate and discount rate will result in a positive fair value adjustment (and increase in the fair value measurement). An increase in the weighted average life assumptions will result in a decrease in the constant prepayment rate and conversely, a decrease in the weighted average life will result in an increase of the constant prepayment rate.

The following table provides a reconciliation of assets and liabilities measured at fair value using significant unobservable inputs (Level 3) on a recurring basis during the three and six months ended June 30, 2015 and 2014 (in thousands):

	Three Months Ended June		Six Months Ended June 30,	
	2015	2014	2015	2014
Beginning balance, at fair value	\$496	\$2,393	\$2,345	\$2,419
OTTI impairment losses	-	-	-	-
Principal payments	(26)	(70)	(187)	(147)
Sales			(1,702)	
Change in unrealized loss	13	260	27	311
Ending balance, at fair value	\$483	\$2,583	\$483	\$2,583

Mortgage servicing rights are measured at fair value using significant unobservable input (Level 3) on a recurring basis and a reconciliation of this asset can be found in Note 6 – Mortgage Servicing Rights.

The following tables present the balance of assets measured at fair value on a nonrecurring basis at the dates indicated (in thousands):

	Fair Value at June 30, 2015			
	Total	Level 1	Level 2	Level 3
OREO and repossessed assets	\$382	\$ -	\$ -	\$382
Impaired loans	10,160	-	-	10,160

Fair Value at December 31,  
2014

Edgar Filing: Sound Financial Bancorp, Inc. - Form 10-Q

	Total	Level 1	Level 2	Level 3
OREO and repossessed assets	\$323	\$ -	\$ -	\$323
Impaired loans	9,148	-	-	9,148

There were no liabilities carried at fair value, measured on a recurring or nonrecurring basis, at June 30, 2015 or December 31, 2014.

The following table provides a description of the valuation technique, observable input, and qualitative information about the unobservable inputs for the Company's assets and liabilities classified as Level 3 and measured at fair value on a nonrecurring basis at June 30, 2015:

Financial Instrument	Valuation Technique(s)	Unobservable Input(s)	Range (Weighted Average)
OREO	Market approach	Adjustment for differences between comparable sales	5-48% (21%)
Impaired loans	Market approach	Adjustment for differences between comparable sales	0-100% (7%)

Table of Contents

SOUND FINANCIAL BANCORP, INC. AND SUBSIDIARY

Notes to Condensed Consolidated Financial Statements (unaudited)

A description of the valuation methodologies used for impaired loans and OREO is as follows:

**Impaired Loans** - The fair value of collateral dependent loans is based on the current appraised value of the collateral or internally developed models utilizing a calculation of expected discounted cash flows which contain management's assumptions.

**OREO and Repossessed Assets** – The fair value of OREO and repossessed assets is based on the current appraised value of the collateral.

The following methods and assumptions were used to estimate the fair value of other financial instruments:

**Cash and cash equivalents, accrued interest receivable and payable, and advance payments from borrowers for taxes and insurance** - The estimated fair value is equal to the carrying amount.

**Available-for-sale (“AFS”) Securities** – AFS securities are recorded at fair value based on quoted market prices, if available. If quoted market prices are not available, management utilizes third-party pricing services or broker quotations from dealers in the specific instruments. Level 2 securities include those traded on an active exchange, as well as U.S. government and its agencies securities. Level 3 securities include private label mortgage-backed securities.

**Loans Held for Sale** - Residential mortgage loans held for sale are recorded at the lower of cost or fair value. The fair value of fixed-rate residential loans is based on whole loan forward prices obtained from government sponsored enterprises. At June 30, 2015 and December 31, 2014, loans held for sale were carried at cost.

**Loans** - The estimated fair value for all fixed rate loans is determined by discounting the estimated cash flows using the current rate at which similar loans would be made to borrowers with similar credit ratings and maturities. The estimated fair value for variable rate loans is the carrying amount. The fair value for all loans also takes into account projected loan losses as a part of the estimate.

**Mortgage Servicing Rights** –The fair value of mortgage servicing rights is determined through a discounted cash flow analysis, which uses interest rates, prepayment speeds, discount rates, and delinquency rate assumptions as inputs.

**FHLB stock** - The estimated fair value is equal to the par value of the stock, which approximates fair value.

**Deposits** - The estimated fair value of deposit accounts (savings, demand deposit, and money market accounts) is the carrying amount. The fair values of fixed-maturity time certificates of deposit are estimated by discounting the estimated cash flows using the current rate at which similar certificates would be issued.

**Borrowings** - The fair value of borrowings are estimated using discounted cash flow analyses, based on the Company's current incremental borrowing rates for similar types of borrowing arrangements.

**Off-balance-sheet financial instruments** - The fair value for the Company's off-balance-sheet loan commitments are estimated based on fees charged to others to enter into similar agreements taking into account the remaining terms of the agreements and credit standing of the Company's customers. The estimated fair value of these commitments is not significant.

We assume interest rate risk (the risk that general interest rate levels will change) as a result of our normal operations. As a result, the fair values of our financial instruments will change when interest rate levels change, which may be favorable or unfavorable to us. Management attempts to match maturities of assets and liabilities to the extent necessary or possible to minimize interest rate risk. However, borrowers with fixed-rate obligations are less likely to prepay in a rising rate environment and more likely to prepay in a falling rate environment. Conversely, depositors who are receiving fixed rates are more likely to withdraw funds before maturity in a rising rate environment and less likely to do so in a falling rate environment. Management monitors rates and maturities of assets and liabilities and attempts to minimize interest rate risk by establishing early withdrawal penalties for certificates of deposit, creating interest rate floors for certain variable rate loans, adjusting terms of new loans and deposits, by borrowing at fixed rates for fixed terms and investing in securities with terms that mitigate our overall interest rate risk.

## Note 6 – Mortgage Servicing Rights

The unpaid principal balances of loans serviced for Federal National Mortgage Association at June 30, 2015 and December 31, 2014, totaled approximately \$369.6 million and \$357.8 million, respectively, and was not included in the Company's financial statements. We also service loans for other financial institutions.

A summary of the change in the balance of mortgage servicing rights during the three and six months ended June 30, 2015 and 2014 were as follows (in thousands):

	Three Months Ended June 30,		Six Months Ended June 30,	
	2015	2014	2015	2014
Beginning balance, at fair value	\$2,890	\$2,948	\$3,028	\$2,984
Servicing rights that result from transfers of financial assets	214	129	431	185
Changes in fair value:				
Due to changes in model inputs or assumptions <sup>(1)</sup>	352	144	174	284
Other <sup>(2)</sup>	(185 )	(228 )	(362 )	(460 )
Ending balance, at fair value	\$3,271	\$2,993	\$3,271	\$2,993

<sup>(1)</sup> Represents changes in discount rates and prepayment speed assumptions, which are primarily affected by changes in interest rates

<sup>(2)</sup> Represents changes due to collection or realization of expected cash flows over time.

The key economic assumptions used in determining the fair value of mortgage servicing rights at the dates indicated are as follows:

	At June 30,	
	2015	2014
Prepayment speed (Public Securities Association "PSA" model)	177 %	210 %
Weighted-average life (years)	6.7	6.1
Yield to maturity discount rate	10.0%	10.0%

The amount of contractually specified servicing, late and ancillary fees earned and recorded in mortgage servicing income on the Condensed Consolidated Statements of Income was \$214,000 and \$469,000 for the three and six months ended June 30, 2015, respectively and \$80,000 and \$33,000 for the three and six months ended June 30, 2014, respectively.

## Note 7 – Commitments and Contingencies

In the normal course of operations, the Company engages in a variety of financial transactions that are not recorded in our financial statements. These transactions involve varying degrees of off-balance sheet credit, interest rate and liquidity risks. These transactions are used primarily to manage customers' requests for funding and take the form of loan commitments and lines of credit.

## Note 8 – Borrowings and FHLB Stock

The Company utilizes a loan agreement with the FHLB of Seattle. The terms of the agreement call for a blanket pledge of a portion of the Company's mortgage and commercial and multifamily portfolio based on the outstanding balance. At June 30, 2015 and December 31, 2014, the amount available to borrow under this credit facility was \$172.0 million and \$133.3 million, respectively. At June 30, 2015, the credit facility was collateralized as follows: one- to four- family mortgage loans with a market value of \$72.8 million, commercial and multifamily mortgage loans with a market value of \$84.0 million and home equity loans with a market value of \$5.8 million. The Company had outstanding borrowings under this arrangement of \$26.3 million and \$30.6 million at June 30, 2015 and December 31, 2014, respectively. Additionally, the Company had outstanding letters of credit from the FHLB with a notional amount of \$42.5 million at June 30, 2015 and December 31, 2014 to secure public deposits which exceeded the collateral requirements established by the Washington Public Deposit Protection Commission. The remaining amount available to borrow as of June 30, 2015 and December 31, 2014, was \$103.2 million and \$60.3 million, respectively.

Table of Contents

SOUND FINANCIAL BANCORP, INC. AND SUBSIDIARY

Notes to Condensed Consolidated Financial Statements (unaudited)

As a member of the FHLB system, the Bank is required to maintain a minimum level of investment in FHLB stock based on specific percentages of its outstanding FHLB advances. At June 30, 2015 and December 31, 2014, the Company had an investment of \$1.6 million and \$2.2 million, respectively, in FHLB stock. Management periodically evaluates FHLB stock for impairment. Management's determination of whether this investment is impaired is based on its assessment of the ultimate recoverability of cost rather than by recognizing temporary declines in value. The determination of whether a decline affects the ultimate recoverability of cost is influenced by criteria such as (1) the significance of any decline in net assets of the FHLB as compared to the capital stock amount for the FHLB and the length of time this situation has persisted, (2) commitments by the FHLB to make payments required by law or regulation and the level of such payments in relation to the operating performance of the FHLB, (3) the impact of legislative and regulatory changes on institutions and, accordingly, the customer base of the FHLB, and (4) the liquidity position of the FHLB.

On September 25, 2014, the FHLB of Seattle entered into an Agreement and Plan of Merger with and into the FHLB of Des Moines. The merger was approved by the members of both the Seattle and Des Moines Federal Home Loan Banks on February 27, 2015 and the merger was completed effective May 31, 2015. Based on the above, the Company has determined there was no impairment on its FHLB stock investment as of June 30, 2015.

The Company participates in the Federal Reserve Bank Borrower-in-Custody program, which gives the Company access to the discount window. The terms of the program call for a pledge of specific assets. The Company had unused borrowing capacity of \$18.0 million and \$21.8 million and no outstanding borrowings under this program at June 30, 2015 and December 31, 2014, respectively.

The Company has access to a Fed Funds line of credit from the Pacific Coast Banker's Bank. The line has a two-year term maturing on June 30, 2016 and is renewable biannually. The Company had unused borrowing capacity of \$2.0 million and no outstanding borrowings under this agreement at June 30, 2015 and December 31, 2014.

The Company has access to a Fed Funds line of credit from Zions Bank under a Fed Funds Sweep and Line Agreement established September 26, 2013. The agreement allows access to a Fed Funds line of up to \$9.0 million and requires the Company to maintain cash balances with Zions Bank of \$250,000. The agreement has no maturity date. There were no outstanding borrowings on this line of credit at June 30, 2015 or December 31, 2014.

Note 9 – Earnings Per Common Share

Basic earnings per common share is computed by dividing net income (which has been adjusted for distributed and undistributed earnings to participating securities) by the weighted-average number of common shares outstanding for the period, reduced for average unallocated ESOP shares and average unvested restricted stock awards. Unvested share-based awards that contain non-forfeitable rights to dividends or dividend equivalents (whether paid or unpaid) are participating securities and shall be included in the computation of earnings per share pursuant to the two-class method described in ASC 260-10-45-60B. Diluted earnings per common share reflects the potential dilution that could occur if securities or other contracts to issue common stock (such as stock awards and options) were exercised or converted to common stock, or resulted in the issuance of common stock that then shared in the Company's earnings. Diluted earnings per common share is computed by dividing net income by the weighted-average number of common shares outstanding for the period increased for the dilutive effect of unexercised stock options and unvested restricted stock awards. The dilutive effect of the unexercised stock options and unvested restricted stock awards is calculated under the treasury stock method utilizing the average market value of the Company's stock for the period.

Edgar Filing: Sound Financial Bancorp, Inc. - Form 10-Q

Earnings per common share are summarized for the periods presented in the following table (dollars in thousands, except per share data):

	Three Months Ended		Six Months Ended	
	June 30,		June 30,	
	2015	2014	2015	2014
Net income	\$1,247	\$1,216	\$2,455	\$2,203
Less net income attributable to participating securities <sup>(1)</sup>	44	20	80	37
Net income available to common shareholders	\$1,203	\$1,196	\$2,375	\$2,166
Weighted average number of shares outstanding, basic	2,510,673	2,509,551	2,517,734	2,508,122
Effect of potentially dilutive common shares <sup>(2)</sup>	91,311	91,212	85,043	94,285
Weighted average number of shares outstanding, diluted	2,601,984	2,600,763	2,602,777	2,602,407
Earnings per share, basic	\$0.50	\$0.48	\$0.98	\$0.88
Earnings per share, diluted	\$0.48	\$0.47	\$0.94	\$0.85

<sup>(1)</sup> Represents dividends paid and undistributed earnings allocated to non-vested restricted stock awards.

<sup>(2)</sup> Represents the effect of the assumed exercise of stock options and vesting of non-participating restricted shares, based on the treasury stock method.

There were no shares considered anti-dilutive for the three and six months ended June 30, 2015 or 2014.

Table of ContentsSOUND FINANCIAL BANCORP, INC. AND SUBSIDIARY  
Notes to Condensed Consolidated Financial Statements (unaudited)

## Note 10 – Stock-based Compensation

## Stock Options and Restricted Stock

The Company currently has two existing Equity Incentive Plans, a 2008 Equity Incentive Plan (the "2008 Plan") and a 2013 Equity Incentive Plan (the "2013 Plan"), and together with the 2008 Plan, (the "Plans"), both of which were approved by shareholders. The Plans permit the grant of restricted stock, restricted stock units, stock options, and stock appreciation rights. Under the 2008 Plan, 126,287 shares of common stock were approved for awards for stock options and stock appreciation rights and 50,514 shares of common stock were approved for awards for restricted stock and restricted stock units. Under the 2013 Plan, 141,750 shares of common stock were approved for awards for stock options and stock appreciation rights and 56,700 shares of common stock were approved for awards for restricted stock and restricted stock units.

As of June 30, 2015, awards for stock options totaling 228,090 shares and awards for restricted stock totaling 96,082 shares of Company common stock have been granted, net of any forfeitures, to participants in the Plans. During the three and six months ended June 30, 2015 and June 30, 2014, share-based compensation expense totaled \$104,000, \$46,000, \$207,000 and \$244,000, respectively.

## Stock Option Awards

All of the stock option awards granted under the Plans to date provide for the recipient's award to vest in 20 percent annual increments commencing one year from the grant date. All of the options granted are exercisable for a period of 10 years from the date of grant, subject to vesting. The following is a summary of the Company's stock option plan awards during the six months ended June 30, 2015:

	Shares	Weighted-Average Exercise Price	Weighted-Average Remaining Contractual Term In Years	Aggregate Intrinsic Value
Outstanding at the beginning of the year	152,018	\$ 13.20	7.21	\$858,902
Granted	40,782	\$ 18.36		
Exercised	(1,783 )	\$ 9.53		
Forfeited	-	\$ -		
Expired	-	-		
Outstanding at June 30, 2015	191,017	\$ 14.41	7.84	\$ 1,023,502
Exercisable	89,984	\$ 12.07	6.37	\$ 704,234
Expected to vest, assuming a 0% forfeiture rate over the vesting term	191,017	\$ 14.34	7.84	\$ 1,023,502

As of June 30, 2015, there was \$772,000 of total unrecognized compensation cost related to non-vested stock options granted under the Plans. The cost is expected to be recognized over the remaining weighted-average vesting period of 1.4 years.

The fair value of each option award granted is estimated on the date of grant using a Black-Scholes model. The assumptions used for the six months ended June 30, 2015 are presented in the table below:

Annual dividend yield	1.20	%
-----------------------	------	---

Edgar Filing: Sound Financial Bancorp, Inc. - Form 10-Q

Expected volatility	24.80	%
Risk-free interest rate	1.35	%
Expected term	7.25	years
Weighted-average grant date fair value per option granted	\$3.83	

Table of ContentsSOUND FINANCIAL BANCORP, INC. AND SUBSIDIARY  
Notes to Condensed Consolidated Financial Statements (unaudited)

## Restricted Stock Awards

The fair value of the restricted stock awards is equal to the fair value of the Company's stock at the date of grant. Compensation expense is recognized over the vesting period that the awards are based. The restricted stock awards granted under the 2008 Plan to date provide for vesting in 20 percent annual increments commencing one year from the grant date. The restricted stock awards under the 2013 Plan to date vested 20% of a recipient's award immediately with the balance of an individual's award vesting in four equal annual installments commencing one year from the grant date.

The following is a summary of the Company's outstanding restricted stock awards during the six months ended June 30, 2015:

	Shares	Weighted-Average Grant-Date Fair Value Per Share
Non-vested Shares		
Non-vested at January 1, 2015	33,243	\$ 2.49
Granted	10,208	3.83
Vested	(11,416)	1.94
Forfeited	(482 )	1.31
Expired	-	-
Non-vested at June 30, 2015	31,553	\$ 1.87
Expected to vest assuming a 0% forfeiture rate over the vesting term	31,553	\$ 1.87

As of June 30, 2015, there was \$605,000 of unrecognized compensation cost related to non-vested restricted stock granted under the Plan remaining. The cost is expected to be recognized over the weighted-average vesting period of 1.45 years. The total fair value of shares vested for the six months ended June 30, 2015 and 2014 was \$240,000 and \$269,000, respectively.

## Employee Stock Ownership Plan

In January 2008, the ESOP borrowed \$1.2 million from the Company to purchase common stock of the Company. In August 2012, in conjunction with the Company's "second step" conversion to become a fully converted public company, the ESOP borrowed \$1.1 million from the Company to purchase additional common stock of the Company. Both loans are being repaid principally by the Bank through contributions to the ESOP over a period of ten years. The interest rate on the loans is fixed at 4.0% and 2.25%, per annum, respectively. As of June 30, 2015, the remaining balances of the ESOP loans were \$398,000 and \$808,000, respectively.

Neither the loan balances nor the related interest expense are reflected on the condensed consolidated financial statements.

At June 30, 2015, the ESOP was committed to release 21,443 shares of the Company's common stock to participants and held 88,243 unallocated shares remaining to be released in future years. The fair value of the 195,528 shares of Company common stock held by the ESOP trust was \$4.1 million at June 30, 2015. ESOP compensation expense included in salaries and benefits was \$102,000 and \$204,000 for the three and six months ended June 30, 2015 and \$76,000 and \$155,000 for the three and six months ended June 30, 2014, respectively.

Note 11 – Subsequent Event

On July 30, 2015, the Company declared a quarterly cash dividend of \$0.06 per common share, payable August 26, 2015 to shareholders of record at the close of business August 12, 2015.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operation

MANAGEMENT'S DISCUSSION AND ANALYSIS OF

FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Special Note Regarding Forward-Looking Statements

Certain matters discussed in this Form 10-Q constitute forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. These statements relate to our financial condition, results of operations, plans, objectives, future performance or business. Forward-looking statements are not statements of historical fact, are based on certain assumptions and are generally identified by use of the words "believes," "expects," "anticipates," "estimates," "forecasts," "intends," "plans," "targets," "potentially," "probably," "projects," "outlook" or similar expressions or future or conditional verbs such as "may," "will," "should," "would" and "could." Forward-looking statements include statements with respect to our beliefs, plans, objectives, goals, expectations, assumptions and statements about, among other things, expectations of the business environment in which we operate, projections of future performance or financial items, perceived opportunities in the market, potential future credit experience, and statements regarding our mission and vision. These forward-looking statements are based upon current management expectations and may, therefore, involve risks and uncertainties. Our actual results, performance, or achievements may differ materially from those suggested, expressed, or implied by forward-looking statements as a result of a wide variety or range of factors including, but not limited to:

- changes in economic conditions, either nationally or in our market area;
- fluctuations in interest rates;
- the risks of lending and investing activities, including changes in the level and direction of loan delinquencies and write-offs and changes in estimates of the adequacy of our allowance for loan losses;
- the possibility of other-than-temporary impairments of securities held in our securities portfolio;
- our ability to access cost-effective funding;
- fluctuations in the demand for loans, the number of unsold homes, land and other properties, and fluctuations in real estate values and both residential and commercial and multifamily real estate market conditions in our market area;
- secondary market conditions for loans and our ability to sell loans in the secondary market;
- our ability to attract and retain deposits;
- our ability to successfully integrate any assets, liabilities, customers, systems, and management personnel we may acquire into our operations and our ability to realize related revenue synergies and expected cost savings and other benefits within the anticipated time frames or at all, including, in particular, our recent acquisition of three branches from Columbia State Bank;
- legislative or regulatory changes such as the Dodd-Frank Wall Street Reform and Consumer Protection Act and its implementing regulations that adversely affect our business, as well as changes in regulatory policies and principles, or the interpretation of regulatory capital or other rules including changes related to Basel III;
- monetary and fiscal policies of the Board of Governors of the Federal Reserve System ("Federal Reserve") and the U.S. Government and other governmental initiatives affecting the financial services industry;

results of examinations of Sound Financial Bancorp and Sound Community Bank by their regulators, including the possibility that the regulators may, among other things, require us to increase our allowance for loan losses or to write-down assets, change Sound Community Bank's regulatory capital position or affect our ability to borrow funds or maintain or increase deposits, which could adversely affect our liquidity and earnings;

·increases in premiums for deposit insurance;

Table of Contents

- our ability to control operating costs and expenses;
- the use of estimates in determining fair value of certain of our assets, which estimates may prove to be incorrect and result in significant declines in valuation;
- difficulties in reducing risks associated with the loans on our balance sheet;
- staffing fluctuations in response to product demand or the implementation of corporate strategies that affect our workforce and potential associated charges;
- computer systems on which we depend could fail or experience a security breach;
- our ability to retain key members of our senior management team;
- costs and effects of litigation, including settlements and judgments;
- our ability to implement our business strategies;
- increased competitive pressures among financial services companies;
- changes in consumer spending, borrowing and savings habits;
- the availability of resources to address changes in laws, rules, or regulations or to respond to regulatory actions;
- our ability to pay dividends on our common stock;
- adverse changes in the securities markets;
- the inability of key third-party providers to perform their obligations to us;
- changes in accounting policies and practices, as may be adopted by the financial institution regulatory agencies or the Financial Accounting Standards Board, including additional guidance and interpretation on accounting issues and details of the implementation of new accounting methods; and
- other economic, competitive, governmental, regulatory, and technological factors affecting our operations, pricing, products and services and the other risks described from time to time in this Form 10-Q and our 2014 Form 10-K and other filings with the SEC.

We wish to advise readers not to place undue reliance on any forward-looking statements and that the factors listed above could materially affect our financial performance and could cause our actual results for future periods to differ materially from any such forward-looking statements expressed with respect to future periods and could negatively affect our stock price performance.

We do not undertake and specifically decline any obligation to publicly release the result of any revisions which may be made to any forward-looking statements to reflect events or circumstances after the date of such statements or to reflect the occurrence of anticipated or unanticipated events.

## Table of Contents

### General

References in this document to Sound Financial Bancorp or the Company refer to Sound Financial Bancorp, Inc. and its predecessor, Sound Financial, Inc., a federal corporation, and references to the "Bank" refer to Sound Community Bank. References to "we," "us," and "our" means Sound Financial Bancorp and its wholly-owned subsidiary, Sound Community Bank, unless the context otherwise requires.

Sound Financial Bancorp, a Maryland corporation, is a bank holding company for its wholly owned subsidiary, Sound Community Bank. Substantially all of Sound Financial Bancorp's business is conducted through Sound Community Bank, a Washington state-chartered commercial bank. As a Washington commercial bank, the Bank's regulators are the Washington State Department of Financial Institutions ("WDFI") and the Federal Deposit Insurance Corporation ("FDIC"). The Federal Reserve is the primary federal regulator for Sound Financial Bancorp.

Sound Community Bank's deposits are insured up to applicable limits by the FDIC. At June 30, 2015, Sound Financial Bancorp had total consolidated assets of \$503.4 million, net loans of \$430.0 million, deposits of \$418.6 million and stockholders' equity of \$51.8 million. The shares of Sound Financial Bancorp are traded on The NASDAQ Capital Market under the symbol "SFBC." Our executive offices are located at 2005 5<sup>th</sup> Avenue, Suite 200, Seattle, Washington, 98121.

Our principal business consists of attracting retail and commercial deposits from the general public and investing those funds, along with borrowed funds, in loans secured by first and second mortgages on one- to four-family residences (including home equity loans and lines of credit), commercial and multifamily, consumer and commercial business loans and construction and land loans. We offer a variety of secured and unsecured consumer loan products, including manufactured home loans, floating home loans, automobile loans, boat loans and recreational vehicle loans. As part of our business, we focus on residential mortgage loan originations, many of which we sell to Fannie Mae. We sell the majority of these loans with servicing retained to maintain the direct customer relationship and to continue providing strong customer service to our borrowers. We originate and retain a significant amount of commercial real estate loans, including those secured by owner-occupied and non owner-occupied commercial real estate, multifamily property, manufactured home parks and construction and land development loans.

### Critical Accounting Policies

Certain of our accounting policies are important to an understanding of our financial condition, since they require management to make difficult, complex or subjective judgments, which may relate to matters that are inherently uncertain. Estimates associated with these policies are susceptible to material changes as a result of changes in facts and circumstances. Facts and circumstances that could affect these judgments include, but are not limited to, changes in interest rates, changes in the performance of the economy and changes in the financial condition of borrowers. Management believes that its critical accounting policies include determining the allowance for loan losses, accounting for other-than-temporary impairment of securities, accounting for mortgage servicing rights, accounting for other real estate owned and accounting for deferred income taxes. Our methodologies for analyzing the allowance for loan losses, mortgage servicing rights, other real estate owned and deferred tax asset accounts are described in our 2014 Form 10-K. There have been no significant changes in the Company's application of accounting policies since December 31, 2014.

### Comparison of Financial Condition at June 30, 2015 and December 31, 2014

General. Total assets increased \$8.2 million, or 1.7%, to \$503.4 million at June 30, 2015 from \$495.2 million at December 31, 2014. This increase was primarily the result of a \$4.8 million, or 16.4%, increase in cash and cash equivalents, a \$2.3 million, or 277.9%, increase in loans held for sale and a \$4.1 million, or 1.0%, increase in the net loan portfolio. These increases were primarily offset by a \$3.6 million, or 31.4%, decrease in our available-for-sale securities. Excess liquidity from a \$10.8 million, or 2.7%, increase in deposits was primarily used to fund \$6.4

million of loan growth including loans held for sale and pay down borrowings by \$4.3 million.

**Cash and Securities.** Cash and cash equivalents increased \$4.8 million, or 16.4%, to \$34.1 million at June 30, 2015 from \$29.3 million at December 31, 2014. Available-for-sale securities, which consist primarily of agency mortgage-backed securities, decreased \$3.6 million, or 31.4%, from \$11.5 million at December 31, 2014 to \$7.9 million at June 30, 2015 as a result of principal repayments and a \$1.7 million sale of non-agency mortgage-backed securities during the first quarter of 2015.

**Loans.** Our gross loan portfolio increased \$4.2 million, or 1.0%, to \$436.1 million at June 30, 2015 from \$431.9 million at December 31, 2014.

The following table reflects the changes in the types of loans in our portfolio at June 30, 2015, as compared to December 31, 2014 (dollars in thousands):

	June 30, 2015	December 31, 2014	Amount Change	Percent Change	
One-to-four-family	\$131,362	\$133,031	\$(1,669)	(1.3)	)%
Home equity	32,844	34,675	(1,831)	(5.3)	)
Commercial and multifamily	176,025	168,952	7,073	4.2	
Construction and land	44,348	46,279	(1,931)	(4.2)	)
Manufactured homes	12,945	12,539	406	3.2	
Other consumer	17,542	16,875	667	4.0	
Commercial business	21,058	19,525	1,533	7.9	
Total loans, before deferred fees and allowance for loan losses	\$436,124	\$431,876	4,248	1.0	%

Table of Contents

The increases in our loan portfolio were primarily a result of our loan production exceeding loan pay downs and pay-offs. At June 30, 2015, our loan portfolio remained well-diversified with commercial and multifamily real estate loans accounting for 40.4% of the portfolio. Residential real estate loans account for 30.1% of the portfolio. Home equity, manufactured and other consumer loans account for 14.5% of the portfolio. Construction and land loans account for 10.2% of the portfolio and commercial business loans account for the remaining 4.8% of total loans.

Loans held for sale increased \$2.3 million, or 277.9%, to \$3.1 million at June 30, 2015 from \$810,000 at December 31, 2014. The increase in loans held for sale was a result of a \$25.5 million increase in loan originations during the six months ended June 30, 2015 compared to the same period last year. The loan origination volume has increased from the previous year because mortgage interest rates have declined spurring an increase in refinance activity.

Mortgage Servicing Rights. At June 30, 2015 and December 31, 2014, we had \$3.3 million and \$3.0 million, respectively, in mortgage servicing rights recorded at fair value. We record mortgage servicing rights on loans sold to Fannie Mae and other financial institutions with servicing retained and upon acquisition of a servicing portfolio. We stratify our capitalized mortgage servicing rights based on the type, term and interest rates of the underlying loans. Mortgage servicing rights are carried at fair value. If the fair value of our mortgage servicing rights fluctuates significantly, our financial results could be materially impacted.

Nonperforming Assets. At June 30, 2015, nonperforming assets totaled \$2.6 million, or 0.52% of total assets, compared to \$4.2 million, or 0.84% of total assets at December 31, 2014.

The table below sets forth the amounts and categories of nonperforming assets at the dates indicated (dollars in thousands):

	Nonperforming Assets			
	At June 30, 2015	At December 31, 2014	Amount Change	Percent Change
Nonaccrual loans	\$1,422	\$ 1,464	\$(42 )	(2.9 )%
Accruing loans 90 days or more delinquent	-	114	32	28.1
Nonperforming TDRs	811	2,264	(1,599 )	(70.6 )
Total nonperforming loans	2,233	3,842	(1,609 )	(41.9 )
OREO and repossessed assets	382	323	59	18.3
Total nonperforming assets	\$2,615	\$ 4,165	\$(1,550 )	(37.2 )%

Nonperforming loans, consisting of nonaccrual loans, accruing loans 90 days or more delinquent and nonperforming TDRs, to total loans decreased to \$2.2 million or 0.51% of total loans at June 30, 2015 from \$3.8 million or 0.89% of total loans at December 31, 2014. This decrease reflects a \$1.6 million decline in nonperforming TDRs during the six months ended June 30, 2015 primarily due to a nonperforming TDR being paid off during the period. Our largest nonperforming loan at June 30, 2015 was a \$173,000 one- to four- family residence and is performing as agreed under the new loan terms.

OREO and repossessed assets decreased during the three months ended June 30, 2015, due to the sale of three properties in the portfolio. During the six months ended June 30, 2015, we repossessed one manufactured home valued at \$36,000 and we sold three one- to four- family properties valued at \$272,000. The aggregate gain (loss) on all sales during the three and six months ended June 30, 2015 was \$16,000 and \$(22,000), respectively. Our largest OREO property at June 30, 2015 consisted of a one- to four- family property with a recorded value of \$201,000 located in King County, Washington. Our next largest OREO at June 30, 2015 property was a \$124,000 one- to four- family property located in King County, Washington.

Allowance for Loan Losses. The allowance for loan losses is maintained to cover losses that are probable and can be estimated on the date of evaluation in accordance with generally accepted accounting principles in the United States. It is our best estimate of probable incurred credit losses in our loan portfolio. The increase in the allowance for loan losses compared to the comparable period last year was necessary due to increased loan balances.

Our allowance for loan losses at June 30, 2015 was \$4.6 million, or 1.05% of gross loans receivable compared to \$4.4 million, or 1.02% of total loans receivable at December 31, 2014. The allowance for loan losses includes the \$300,000 provision for loan losses established during the six months ended June 30, 2015.

Table of Contents

The following table reflects the adjustments in our allowance during the periods indicated (dollars in thousands):

	At and For the Three Months Ended June 30, 2015		At and For the Six Months Ended June 30, 2014	
Balance at beginning of period	\$ 4,436	\$ 4,176	\$ 4,387	\$ 4,177
Charge-offs	(75 )	(197 )	(139 )	(433 )
Recoveries:	11	12	24	47
Net charge-offs	(64 )	(185 )	(115 )	(386 )
Provisions charged to operations	200	200	300	400
Balance at end of period	\$ 4,572	\$ 4,191	\$ 4,572	\$ 4,191

RaRatio of net charge-offs during the period to average loans outstanding during the period	0.06 %	0.18 %	0.05 %	0.19 %
---	--------	--------	--------	--------

	At June 30, 2015	At December 31, 2014
AllAllowance as a percentage of nonperforming loans	204.75%	114.19 %
AllAllowance as a percentage of total loans (end of period)	1.05	1.02

Specific loan loss reserves increased \$482,000 at June 30, 2015 compared to December 31, 2014, while general loan loss reserves decreased \$297,000 at June 30, 2015, compared to December 31, 2014. The increase in specific loan loss reserves was primarily due to a change in valuation methods on a commercial real estate loan from cash flow to collateral resulting in a lower evaluation. The decrease in general loan loss reserves was due to the improved credit quality of the loan portfolio. Net charge-offs for the six months ended June 30, 2015 were \$115,000, or 0.05%, of average loans on an annualized basis, compared to \$386,000, or 0.19% of average loans on an annualized basis for the same period in 2014. The decrease in net charge-offs was primarily due to improving economic conditions in our market area and continued efforts in credit administration. As of June 30, 2015, the allowance for loan losses as a percentage of total loans receivable and nonperforming loans was 1.05% and 204.75%, respectively, compared to 1.02% and 114.19%, respectively, at December 31, 2014. The allowance for loan losses as a percentage of nonperforming loans improved due to a \$1.6 million decrease in nonperforming loans to \$2.2 million at June 30, 2015 from \$3.8 million at December 31, 2014.

Deposits. Total deposits increased \$10.8 million, or 2.7%, to \$418.6 million at June 30, 2015 from \$407.8 million at December 31, 2014, primarily as a result of a \$6.5 million, or 6.3%, increase in interest-bearing demand accounts, a \$6.8 million, or 16.3% increase in noninterest-bearing demand accounts, and a \$3.6 million, or 10.7%, increase in savings accounts. These increases were partially offset by a \$3.0 million, or 5.4%, decrease in money market accounts and a \$3.4 million, or 2.0%, decrease in certificates of deposit. The increases were the result of retail sales efforts during the period as we continued our emphasis on attracting low-cost core deposit accounts. The decrease in money market and certificate of deposit accounts was primarily the result of some customers shifting these funds into interest-bearing demand accounts. At June 30, 2015, brokered deposits were \$3.4 million compared to \$5.0 million at December 31, 2014.

A summary of deposit accounts with the corresponding weighted average cost of funds is presented below (dollars in thousands):

	As of June 30, 2015		As of December 31, 2014	
	Amount	Wtd. Avg. Rate	Amount	Wtd. Avg. Rate
Noninterest-bearing demand	\$48,562	0.00 %	\$41,773	0.00 %
Interest-bearing demand	109,568	0.39	103,048	0.43
Savings	36,787	0.17	33,233	0.16
Money market	52,265	0.25	55,236	0.27
Certificates	168,551	1.09 <sup>(1)</sup>	171,939	1.03
Escrow	2,896	0.00	2,580	0.00
Total deposits	\$418,629	0.66 % <sup>(1)</sup>	\$407,809	0.60 %

---

<sup>(1)</sup> Includes the amortization expense from the deposit premium paid on the purchase of deposits from Columbia State Bank in the third quarter of 2014.

Borrowings. FHLB advances decreased \$4.3 million, or 14.1%, to \$26.3 million at June 30, 2015, with a weighted-average cost of 0.42%, from \$30.6 million at December 31, 2014, with a weighted-average cost of 0.64%. The decrease in average rate was due to a greater percentage of short term borrowings in the current period compared to December 31, 2014. Excess funds from increased deposits and loan repayments during the six months ended June 30, 2015 were used to reduce borrowings. We rely on FHLB advances to fund interest-earning assets when deposits alone cannot fully fund interest-earning asset growth. This reliance on borrowings, rather than deposits, may increase our overall cost of funds.

Table of Contents

Stockholders' Equity. Total stockholders' equity increased \$1.2 million, or 2.3%, to \$51.8 million at June 30, 2015 from \$50.6 million at December 31, 2014. This increase primarily reflects \$2.5 million in net income for the six months ended June 30, 2015, partially offset by \$1.3 million in stock repurchases (at an average price of \$19.84 per share) and the payment of cash dividends of \$277,000 to common stockholders.

Comparison of Results of Operation for the Three and Six Months Ended June 30, 2015 and 2014

General. Net income was \$1.2 million, or \$0.48 per diluted common share, for the three months ended June 30, 2015, an increase of \$31,000 from the three months ended June 30, 2014. The primary reasons for the improvement in the three months ended June 30, 2015 compared to the same period last year were increases in net interest income and noninterest income which were partially offset by an increase in noninterest expense. Net income increased \$252,000 to \$2.5 million, or \$0.94 per diluted common share, for the six months ended June 30, 2015, compared to \$2.2 million, or \$0.85 per diluted common share, for the six months ended June 30, 2014. The primary reasons for the improvement in net income was an increase in net interest income, a lower provision for loan losses and an increase in noninterest income which was partially offset by an increase in noninterest expense.

Interest Income. Interest income increased \$170,000, or 3.2%, to \$5.4 million for the three months ended June 30, 2015, from \$5.2 million for the three months ended June 30, 2014. Interest income increased \$344,000, or 3.3%, to \$10.8 million for the six months ended June 30, 2015, from \$10.4 million for the six months ended June 30, 2014. The increase in interest income for both the three and six months ended June 30, 2015, primarily reflected the increase in the average balance of interest-earning assets. In particular, our average balance of loans receivable outpaced the decline in the weighted average yield on our interest-earning assets during the three and six months ended June 30, 2015 as compared to the same periods last year.

Our weighted average yield on interest-earning assets was 4.70% for both the three and six months ended June 30, 2015, compared to 4.97% and 5.00% for the three and six months ended June 30, 2014, respectively. The weighted average yield on loans decreased to 5.01% and 4.97% for the three and six months ended June 30, 2015, respectively, from 5.17% and 5.21% for the three and six months ended June 30, 2014, respectively. The weighted average yield on available-for-sale securities (including OTTI) was 0.62% and 0.70% for the three and six months ended June 30, 2015, respectively, compared to 1.70% and 1.30% for the three and six months ended June 30, 2014, respectively. The declines in the average yields for both the loan and securities portfolio was due to the lower interest rate environment.

Interest Expense. Interest expense increased \$84,000, or 14.1%, to \$680,000 for the three months ended June 30, 2015, from \$596,000 for the three months ended June 30, 2014. Interest expense increased \$163,000, or 13.5%, to \$1.4 million for the six months ended June 30, 2015, from \$1.2 million for the six months ended June 30, 2014. We also had a \$1.8 million and a \$6.6 million decrease in the average balances of FHLB advances for the three and six months ended June 30, 2015, respectively from December 31, 2014. Our weighted average cost of interest-bearing liabilities was 0.70% and 0.71% for the three and six months ended June 30, 2015, respectively, compared to 0.67% and 0.55% for the three and six months ended June 30, 2014, respectively.

Table of Contents

Interest expense on deposits increased \$109,000, or 19.8%, to \$661,000 for the three months ended June 30, 2015, from \$552,000 for the three months ended June 30, 2014. Interest expense on deposits increased \$210,000, or 18.9%, to \$1.3 million for the six months ended June 30, 2015, from \$1.1 million for the six months ended June 30, 2014. These increases resulted from higher average balances of deposits outstanding in the period. Our weighted average cost of deposits during the three and six months ended June 30, 2015 was 0.63% and 0.64%, respectively, as compared to 0.61% and 0.62% during the three and six months ended June 30, 2014, respectively. The increase in average rates during the three and six months ended June 30, 2015 was primarily a result of the re-pricing of matured certificates of deposit.

Interest expense on borrowings decreased \$25,000, or 56.8%, to \$19,000 for the three months ended June 30, 2015, from \$44,000 for the three months ended June 30, 2014. Interest expense on borrowings decreased \$47,000, or 50.0%, to \$47,000 for the six months ended June 30, 2015, from \$94,000 for the six months ended June 30, 2014. The decrease was a result of a decrease in our cost of borrowings which was 0.50% and 0.48% for the three and six months ended June 30, 2015, respectively, as compared to 0.56% and 0.55% for the three and six months ended June 30, 2014, respectively.

Net Interest Income. Net interest income increased \$86,000, or 1.9%, to \$4.7 million for the three months ended June 30, 2015, from \$4.6 for the three months ended June 30, 2014. Net interest income increased \$181,000, or 2.0%, to \$9.4 million for the six months ended June 30, 2015, from \$9.2 million for the six months ended June 30, 2014. The increase for three and six months ended June 30, 2015 resulted from increased interest income due to higher average loan balances. Our average yield on loans receivable decreased during the three and six months ended June 30, 2015 as compared to the same periods last year as new loan originations are pricing lower than pay downs and paid loans which reflects the continued low rate environment. Our net interest margin was 4.11% for both the three and six months ended June 30, 2015, respectively, compared to 4.40% and 4.43% for the three and six months ended June 30, 2014, respectively.

Provision for Loan Losses. We establish provisions for loan losses, which are charged to earnings, at a level required to reflect management's best estimate of the probable incurred credit losses in the loan portfolio. In evaluating the level of the allowance for loan losses, management considers historical loss experience, the types of loans and the amount of loans in the loan portfolio, adverse situations that may affect borrowers' ability to repay, estimated value of any underlying collateral, peer group data, prevailing economic conditions, and current factors. Large groups of smaller balance homogeneous loans, such as one-to four-family, small commercial and multifamily, home equity and consumer loans, are evaluated in the aggregate using historical loss factors adjusted for current economic conditions and other relevant data. Loans for which management has concerns about the borrowers' ability to repay, are evaluated individually, and specific loss allocations are provided for these loans when necessary.

A provision of \$200,000 and \$300,000 was made during the three and six months ended June 30, 2015, respectively, compared to a provision of \$200,000 and \$400,000 during the three and six months ended June 30, 2014, respectively. The reduced provision during the six months ended June 30, 2015 as compared to the same period last year, primarily reflects declines in loan charge-offs and improvements in our credit metrics partially offset by higher average loan balances and changes in the composition of our loan portfolio.

For the three months ended June 30, 2015, the annualized percentage of net charge-offs to average loans decreased 12 basis points to 0.06%, from 0.18% for the three months ended June 30, 2014. For the six months ended June 30, 2015, the annualized percentage of net charge-offs to average loans decreased 14 basis points to 0.05%, from 0.19% for the six months ended June 30, 2014.

The ratio of nonperforming loans to total loans decreased two basis points to 0.51% at June 30, 2015 from 0.53% at June 30, 2014.

While we believe the estimates and assumptions used in our determination of the adequacy of the allowance are reasonable, there can be no assurance that such estimates and assumptions will not be proven incorrect in the future, or that the actual amount of future provisions will not exceed the amount of past provisions or that any increased provisions that may be required will not adversely impact our financial condition and results of operations. In addition, the determination of the amount of our allowance for loan losses is subject to review by bank regulators as part of the routine examination process, which may result in the adjustment of reserves based upon their judgment of information available to them at the time of their examination.

Noninterest Income. Noninterest income increased \$586,000, or 52.3%, to \$1.7 million for the three months ended June 30, 2015, as compared to \$1.1 million for the three months ended June 30, 2014 as reflected below (dollars in thousands):

	Three Months		Amount Change	Percent Change
	Ended June 30, 2015	2014		
Service charges and fee income	\$671	\$700	\$ (29 )	4.1 %
Earnings on cash surrender value of BOLI	84	86	(2 )	(2.3 )
Mortgage servicing income	214	80	134	167.5
Fair value adjustment on mortgage servicing rights	347	144	203	141.0
Net gain on sale of loans	390	110	280	254.5
Total noninterest income	\$1,706	\$1,120	\$ 586	52.3 %

Mortgage servicing income increased due to the increase in volume of loans being serviced by the Bank. The increase in the fair value adjustment on mortgage servicing rights was primarily a result of the duration on the underlying loans being projected to lengthen due to reduced refinance activity. The increase in gain on sale of loans was primarily reflective of higher volumes and average premiums on loans sold.

Edgar Filing: Sound Financial Bancorp, Inc. - Form 10-Q

Table of Contents

Noninterest income increased \$972,000, or 51.0%, to \$2.9 million for the six months ended June 30, 2015, as compared to \$1.9 million for the six months ended June 30, 2014 as reflected below (dollars in thousands):

	Six Months			
	Ended June 30,		Amount	Percent
	2015	2014	Change	Change
Service charges and fee income	\$1,317	\$1,234	\$ 83	6.7 %
Earnings on cash surrender value of BOLI	167	167	-	-
Mortgage servicing income	469	33	436	1321.2
Fair value adjustment on mortgage servicing rights	169	284	(115 )	(40.5 )
Other-than-temporary impairment losses	(31 )	-	(31 )	NM
Net gain on sale of loans	786	187	599	320.3
Total noninterest income	\$2,877	\$1,905	\$ 972	51.0 %

NM-not meaningful.

Mortgage servicing income increased due to the increase in volume of loans being serviced by the Bank. The increase in the fair value adjustment on mortgage servicing rights was primarily a result of the duration on the underlying loans being projected to lengthen due to the reduced refinance activity. The increase in gain on sale of loans was primarily reflective of higher volumes and average premiums on loans sold.

Noninterest Expense. Noninterest expense increased \$625,000, or 16.6%, to \$4.4 million during the three months ended June 30, 2015 as compared to \$3.7 million during the three months ended June 30, 2014, as reflected below (dollars in thousands):

	Three Months			
	Ended June 30,		Amount	Percent
	2015	2014	Change	Change
Salaries and benefits	\$2,205	\$1,958	\$ 247	12.6 %
Operations	1,053	1,009	44	4.4
Regulatory assessments	230	75	155	206.7
Occupancy	448	327	121	37.0
Data processing	454	328	126	38.4
Losses and expenses on OREO and repossessed assets	10	78	(68 )	(87.2 )
Total noninterest expense	\$4,400	\$3,775	\$ 625	16.6 %

Salaries and benefits expense increased during the three months ended June 30, 2015, primarily due to an increase of three full time equivalent employees during the period. Data processing expenses increased primarily due to the expansion of online and mobile banking offerings. Regulatory assessments increased due to the fee structure utilized by the Washington State Department of Financial Institutions, for providing services to the Bank compared to the former regulatory agency that provided those services. Losses and expenses on OREO and repossessed assets decreased primarily due to lower levels of OREO and other repossessed assets during the three months ended June 30, 2015 as compared to the same period last year and improving values for real estate in the markets where we lend.

Noninterest expense increased \$917,000, or 12.2%, to \$8.4 million during the six months ended June 30, 2015 as compared to \$7.5 million during the six months ended June 30, 2014, as reflected below (dollars in thousands):

	Six Months			
	Ended June 30,		Amount	Percent
	2015	2014	Change	Change

Edgar Filing: Sound Financial Bancorp, Inc. - Form 10-Q

Salaries and benefits	\$4,460	\$4,025	\$ 435	10.8	%
Operations	1,957	1,901	56	2.9	
Regulatory assessments	296	135	161	119.3	
Occupancy	773	613	160	26.1	
Data processing	856	672	184	27.4	
Losses and expenses on OREO and repossessed assets	82	161	(79 )	(49.1 )	
Total noninterest expense	\$8,424	\$7,507	\$ 917	12.2	%

Salaries and benefits expense increased during the six months ended June 30, 2015, primarily due to an increase of three full time equivalent employees during the period and \$207,000 of share based compensation expense. Data processing expenses increased primarily due to the expansion of online and mobile banking offerings. Regulatory assessments increased due to the fee structure utilized by the Washington State Department of Financial Institutions, for providing services to the Bank compared to the former regulatory agency that provided those services. Losses and expenses on OREO and repossessed assets decreased primarily due to lower levels of OREO and other repossessed assets during the six months ended June 30, 2015 as compared to the same period last year and improving values for real estate in the markets where we lend.

Income Tax Expense. For the three and six months ended June 30, 2015, we incurred income tax expense of \$589,000 and \$1.1 million on our pre-tax income as compared to \$573,000 and \$1.0 million for the three and six months ended June 30, 2014, respectively. The effective tax rates for the three and six months ended June 30, 2015 were 32.1% and 31.3%, respectively. The effective tax rates for the three and six months ended June 30, 2014 were 32.0% and 31.9%, respectively.

## Liquidity

The Management Discussion and Analysis in Item 7 of the Company's 2014 Form 10-K contains an overview of the Company's and the Bank's liquidity management, sources of liquidity and cash flows. This discussion updates that disclosure for the six months ended June 30, 2015.

The Bank's primary sources of funds are deposits, principal and interest payments on loans and borrowings. While maturities and scheduled amortization of loans are a predictable source of funds, deposit flows and loan prepayments are greatly influenced by general interest rates, economic conditions and competition. The Bank's primary investing activity is loan originations. The Bank maintains liquidity levels it believes to be adequate to fund loan commitments, investment opportunities, deposit withdrawals and other financial commitments. At June 30, 2015, the Bank had \$42.0 million in cash and investment securities available for sale and \$3.1 million in loans held for sale generally available for its cash needs. Also, based on existing collateral pledged, the Bank had the ability to borrow an additional \$93.8 million in Federal Home Loan Bank advances, \$18.0 million through the Federal Reserve's Discount Window, \$9.0 million through a Fed Funds line at Zions Bank and \$2.0 million through a Fed Funds line at Pacific Coast Banker's Bank. The Bank uses these sources of funds primarily to meet ongoing commitments, pay maturing deposits and fund withdrawals, and to fund loan commitments. At June 30, 2015, outstanding loan commitments, including unused lines and letters of credit totaled \$64.1 million. Certificates of deposit scheduled to mature in one year or less at June 30, 2015, totaled \$83.1 million. Based on our competitive pricing, we believe that a majority of maturing deposits will remain with the Bank.

Cash and cash equivalents increased \$4.8 million to \$34.1 million as of June 30, 2015, from \$29.3 million as of December 31, 2014. Net cash used by operating activities was \$631,000 for the six months ended June 30, 2015. Net cash of \$817,000 was used in investing activities during the six months ended June 30, 2015 and consisted principally of loan originations, net of principal repayments. The \$5.0 million of cash provided by financing activities during the six months ended June 30, 2015 was primarily a result of a \$10.8 million net increase in deposits which was primarily used to fund loan growth, pay down \$4.3 million in FHLB advances and increase on-balance sheet cash.

As a separate legal entity from the Bank, the Company must provide for its own liquidity. At June 30, 2015, the Company, on an unconsolidated basis, had \$51.3 million in cash, noninterest-bearing deposits and liquid investments generally available for its cash needs. The Company's principal source of liquidity is dividends from the Bank.

Except as set forth above, management is not aware of any trends, events, or uncertainties that will have, or that are reasonably likely to have a material impact on liquidity, capital resources or operations.

## Off-Balance Sheet Activities

In the normal course of operations, we engage in a variety of financial transactions that are not recorded in our financial statements. These transactions involve varying degrees of off-balance sheet credit, interest rate and liquidity risks. These transactions are used primarily to manage customers' requests for funding and take the form of loan commitments and lines of credit. For the six months ended June 30, 2015, we engaged in no off-balance sheet transactions likely to have a material effect on our financial condition, results of operations or cash flows.

A summary of our off-balance sheet loan commitments at June 30, 2015, is as follows (in thousands):

	At
	June 30,
<u>Off-balance sheet loan commitments:</u>	2015
Residential mortgage commitments	\$7,044
Undisbursed portion of loans originated	38,279

Edgar Filing: Sound Financial Bancorp, Inc. - Form 10-Q

Unused lines of credit	31,020
Irrevocable letters of credit	197
Total loan commitments	\$76,540

Table of Contents

Capital

Sound Community Bank is subject to minimum capital requirements imposed by regulations of the FDIC. Effective January 1, 2015 (with some changes transitioned into full effectiveness over two to four years), the Bank became subject to new minimum capital adequacy adopted by the FDIC, which creates a new required ratio for common equity Tier 1 ("CET1") capital, increases the leverage and Tier 1 capital ratios, changes the risk-weightings of certain assets for purposes of the risk-based capital ratios, creates an additional capital conservation buffer over the required capital ratios and changes what qualifies as capital for purposes of meeting these various capital requirements. Failure to meet minimum capital requirements can initiate certain mandatory and possibly additional discretionary actions by bank regulators that, if undertaken, could have a direct material effect on the Company's financial statements. The Bank is also required to maintain additional levels of CET1 over the minimum risk-based capital levels before it may pay dividends, repurchase shares or pay discretionary bonuses.

The new minimum requirements are a ratio of CET1 to total risk-weighted assets ("CET1 risk-based ratio") of 4.5%, a Tier 1 capital ratio of 6.0%, a total capital ratio of 8.0%, and a leverage ratio of 4.0%.

In addition to the capital requirements, there are a number of changes in what constitutes regulatory capital, subject to a certain transition periods. These changes include the phasing-out of certain instruments as qualifying capital. The Bank does not have any of these instruments. Mortgage servicing and deferred tax assets over designated percentages of CET1 are be deducted from capital, subject to a transition period ending December 31, 2017. CET1 consists of Tier 1 capital less all capital components that are not considered common equity. In addition, Tier 1 capital includes accumulated other comprehensive income, which includes all unrealized gains and losses on available for sale debt and equity securities, subject to a transition period end December 31, 2017. Because of our asset size, we are not are considered an "advanced approaches banking organization" and have elected to permanently opt-out of the inclusion of unrealized gains and losses on available for sale debt and equity securities in our capital calculations.

The new requirements also include changes in the risk-weighting of assets to better reflect credit risk and other risk exposure. These include a 150% risk weight (up from 100%) for certain high volatility commercial real estate acquisition, development and construction loans and for non-residential mortgage loans that are 90 days past due or otherwise in nonaccrual status; a 20% (up from 0%) credit conversion factor for the unused portion of a commitment with an original maturity of one year or less that is not unconditionally cancellable (currently set at 0%); and a 250% risk weight (up from 100%) for mortgage servicing and deferred tax assets that are not deducted from capital.

In addition to the minimum CET1, Tier 1 and total capital ratios, the Bank will be required to maintain a capital conservation buffer consisting of additional CET1 capital equal to 2.5% of risk-weighted assets above the required minimum levels in order to avoid limitations on paying dividends, engaging in share repurchases, and paying discretionary bonuses based on percentages of eligible retained income that could be utilized for such actions. This new capital conservation buffer requirement is to be phased in beginning in January 2016 at 0.625% of risk-weighted assets and increasing each year until fully implemented in January 2019.

Under the new standards, in order to be considered well-capitalized, the Bank must have to have a CET1 risk-based ratio of 6.5% (new), a Tier 1 risk-based ratio of 8% (increased from 6%), a total risk-based capital ratio of 10% (unchanged) and a leverage ratio of 5% (unchanged).

Based on its capital levels at June 30, 2015, Sound Community Bank exceeded these requirements as of that date. Consistent with our goals to operate a sound and profitable organization, our policy is for Sound Community Bank to maintain a "well-capitalized" status under the regulatory capital categories of the FDIC. Based on capital levels at June 30, 2015, Sound Community Bank was considered to be well-capitalized under applicable regulatory requirements. Management monitors the capital levels to provide for current and future business opportunities and to maintain Sound Community Bank's "well-capitalized" status.

Edgar Filing: Sound Financial Bancorp, Inc. - Form 10-Q

The actual regulatory capital amounts and ratios calculated for Sound Community Bank at June 30, 2015 were as follows (dollars in thousands):

	Actual		For Capital Adequacy Purposes		To Be Well Capitalized Under Prompt Corrective Action Provisions	
	Amount	Ratio	Amount	Ratio	Amount	Ratio
<u>As of June 30, 2015</u>						
Tier 1 Capital to average assets	\$50,264	10.21 %	\$19,700 >	4.0 %	\$24,626 >	5.0 %
Common Equity Tier 1 risk-based capital ratio	\$50,264	12.51 %	\$22,163 >	4.5 %	\$26.116 >	6.5 %
Tier 1 Capital to risk-weighted assets	\$54,836	12.51 %	\$24,107 >	6.0 %	\$32,142 >	8.0 %
Total Capital to risk-weighted assets	\$54,836	13.65 %	\$32,142 >	8.0 %	\$40,178 >	10.0 %

## Table of Contents

For a bank holding company with less than \$1.0 billion in assets, the capital guidelines apply on a bank only basis and the Federal Reserve expects the holding company's subsidiary banks to be well capitalized under the prompt corrective action regulations. If Sound Financial Bancorp was subject to regulatory guidelines for bank holding companies with \$1.0 billion or more in assets, at June 30, 2015 Sound Financial Bancorp would have exceeded all regulatory capital requirements. The estimated regulatory capital ratios calculated for Sound Financial Bancorp as of June 30, 2015 were 10.23% for Tier 1 leverage-based capital, 12.51% for both Common Equity Tier 1 risk-based capital, Tier 1 Capital to risk-based assets and 13.63% for total risk-based capital.

### Item 3. Quantitative and Qualitative Disclosures About Market Risk

The Company provided information about market risk in Item 7A of its 2014 Form 10-K. There have been no material changes in our market risk since our 2014 Form 10-K.

### Item 4. Controls and Procedures

#### (a) Evaluation of Disclosure Controls and Procedures.

An evaluation of the Company's disclosure controls and procedures (as defined in Rule 13a -15(e) under the Securities Exchange Act of 1934 (the "Act")), as of June 30, 2015, was carried out under the supervision and with the participation of the Company's Chief Executive Officer, Chief Financial Officer and several other members of the Company's senior management. The Chief Executive Officer and Chief Financial Officer concluded that, as of June 30, 2015, the Company's disclosure controls and procedures were effective in ensuring that the information required to be disclosed by the Company in the reports it files or submits under the Act is: (i) accumulated and communicated to the Company's management (including the Chief Executive Officer and the Chief Financial Officer) in a timely manner, and (ii) recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms.

We intend to continually review and evaluate the design and effectiveness of the Company's disclosure controls and procedures and to improve the Company's controls and procedures over time and to correct any deficiencies that we may discover in the future. The goal is to ensure that senior management has timely access to all material financial and non-financial information concerning the Company's business. While we believe the present design of the disclosure controls and procedures is effective to achieve this goal, future events affecting our business may cause the Company to modify its disclosure controls and procedures.

The Company does not expect that its disclosure controls and procedures will prevent all error and all fraud. A control procedure, no matter how well conceived and operated, can provide only reasonable, not absolute, assurance that the objectives of the control procedure are met. Because of the inherent limitations in all control procedures, no evaluation of controls can provide absolute assurance that all control issues and instances of fraud, if any, within the Company have been detected. These inherent limitations include the realities that judgments in decision-making can be faulty, and that breakdowns can occur because of simple error or mistake. Additionally, controls can be circumvented by the individual acts of some persons, by collusion of two or more people, or by management override of the control. The design of any control procedure is also based in part upon certain assumptions about the likelihood of future events, and there can be no assurance that any design will succeed in achieving its stated goals under all potential future conditions; over time, controls may become inadequate because of changes in conditions, or the degree of compliance with the policies and procedures may deteriorate. Because of the inherent limitations in a cost-effective control procedure, misstatements due to error or fraud may occur and not be detected.

#### (b) Changes in Internal Control over Financial Reporting.

There were no changes in our internal control over financial reporting (as defined in Rule 13a - 15(f) under the Act) that occurred during the three months ended June 30, 2015, that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

## PART II OTHER INFORMATION

## Item 1 Legal Proceedings

In the normal course of business, the Company occasionally becomes involved in various legal proceedings. In the opinion of management, any liability from such proceedings would not have a material adverse effect on the business or financial condition of the Company.

## Item 1A Risk Factors

Not required; the Company is a smaller reporting company.

## Item 2 Unregistered Sales of Equity Securities and use of Proceeds

(a) Not applicable

(b) Not applicable

(c) The table below sets forth information regarding the Company's common stock repurchases during the six months ended June 30, 2015:

<u>Period</u>	Total Number Of Shares Purchased	Average Price Paid per Share	Total Number Of Shares Purchased as Part of Publicly Announced Plans	Maximum Number of Shares that May Yet Be Purchased Under the Plans
March 1- March 31, 2015	2,500	\$ 18.95	2,500	60,871
April 1- April 30, 2015	8,400	\$ 19.50	8,400	52,471
May 1 – May 31, 2015	4,000	19.85	4,000	48,471
June 1 – June 30, 2015	48,471	19.95	48,471	-
<u>Total</u>	63,371	\$ 19.84	63,371	

The above repurchase plan was announced on January 31, 2015, authorizing the repurchase of up to 2.5% of the Company's outstanding shares. The term of the plan covered a twelve month period. All shares repurchased were done in the open market and the plan was completed in June 2015. No other repurchase plans have been authorized.

## Item 3 Defaults Upon Senior Securities

Nothing to report.

## Item 4 Mine Safety Disclosures

Not Applicable

## Item 5. Other Information

Nothing to report.
