(A Company in the Exploratory Stage)

Notes to the financial statements

For the nine months ended September 30, 2005

(Unaudited- expressed in US dollars)

1. BASIS OF PRESENTATION AND GOING CONCERN

The accompanying unaudited financial statements have been prepared by the Company pursuant to the rules and regulations of the Securities and Exchange Commission (SEC) and, in the opinion of management, include all adjustments (consisting of normal recurring accruals) necessary for fair presentation of financial position, results of operations and cash flows for the interim periods. Certain information and footnote disclosures normally included in financial statements prepared in accordance with United States generally accepted accounting principles have been condensed or omitted pursuant to the rules and regulations of the SEC. The Company believes that the disclosures contained herein are adequate to make the information presented not misleading. The statements of operations for the nine months ended September 30, 2005 are not necessarily indicative of the results to be expected for the full year. These unaudited financial statements should be read in conjunction with the audited financial statements and accompanying notes included in the Company's 2004 Annual Report on Form 10-KSB for the year ended December 31, 2004.

As of September 30, 2005, the Company has not reached a level of operations which would finance day-to-day activities. These financial statements have been prepared on the assumption that the Company is a going concern, meaning it will continue in operation for the foreseeable future and will be able to realize assets and discharge liabilities in the ordinary course of operations. Different bases of measurement may be appropriate when a company is not expected to continue operations for the foreseeable future. The Company's continuation as a going concern is dependent upon its ability to attain profitable operations and generate funds therefrom and/or raise equity capital or borrowings sufficient to meet current and future obligations. The Company incurred losses from operations of \$51,046 and \$37,760 for the nine-month periods ended September 30, 2005 and 2004 respectively. The Company had working capital deficiencies of \$341,910 as of September 30, 2005 and \$319,090 as of December 31, 2004. These conditions give rise to substantial doubt about the Company's ability to continue as a going concern.

2.

RELATED PARTY TRANSACTIONS

During the nine-month period ended September 30, 2005:

(i)

The Company paid or accrued \$19,828 (2004 - \$17,278) for management fees to a director.

(ii)

A total of \$12,808 (2004 - \$10,582) was paid or accrued to a company owned by a director of the Company for accounting fees, office services and rent.

(iii)

Accounts payable related parties of \$49,918 (2004 - \$11,356) is payable to a director and a company owned by a director for services and disbursements advances to the Company.

(iv)

Loan from related parties represents advances made to the Company of \$11,969 (2004 - \$14,647) by directors.

(v)

The Company issued nil (2004 - 385,000) common shares at a value of nil (2004 - \$46,200) to two directors of the Company for services rendered.

3.

SHARE CAPITAL

The Company received \$25,000 during the prior quarter which was originally entered into as a promissory note financing. This was subsequently amended to become part of a private placement for a total of 1,500,000 Units (comprised of one share of common stock and one share purchase warrant) at \$0.05 for total proceeds of \$75,000. Each warrant is exercisable at \$0.10 per share, expiring three years after issuance.

The balance of \$50,000 was received in November, 2005, and the 1,500,000 shares of common stock were issued in December, 2005. The Company also issued 239,380 Units to a director in repayment of advances he had made to the Company, and these shares were also issued in December 2005.

4.

DEFERRED COMPENSATION

On March 5, 2004, the Company issued 475,000 shares of the Company's common stock, valued at \$0.12 per share, being the fair value at the time of issuance, totalling \$57,000 to the Company's directors and attorney for services provided. As of September 30, 2005, total fees and expenses charged to these shares was \$57,000 (September 30, 2004 - \$50,644). The balance of \$nil (September 30, 2004 - \$6,356) represents retainers paid for future services.

5.

COMPARATIVE FIGURES

Certain comparative figures have been reclassified to conform to the current quarter's presentation.

Item 2 Management Discussion and Analysis

(a) Liquidity

The Company is experiencing illiquidity and has been dependent upon shareholders and directors to provide funds to maintain its activities. At September 30, 2005, the balance of funds loaned by the shareholders amounted to \$33,004, which is included in accounts payable. In addition, two directors advanced \$15,765 to the Company, of which \$3,796 was repaid during the nine-month period of 2005, leaving a balance owing to directors of \$11,969 which is shown as loan from related parties. There are no specific terms of repayment.

(b) Capital Resources

The Company had a working capital deficiency of \$341,910 at September 30, 2005. As noted above, the Company is receiving funding from shareholders and directors.

(c) Results of Operations

For the nine-month period ended September 30, 2005, the Company incurred a net loss of \$51,046.

Administration expenses for the nine-month period amounted to \$29,619 compared to \$19,099 in the same period of 2004. The higher expenses in the 2005 period were principally due to increases resulting from the higher value of the Canadian dollar at September 30, 2005. Most of the Company's expenses are incurred in Canadian dollars, which have increased due to the higher rate of exchange for the Canadian dollar. In addition, Canadian dollar denominated accounts payable have increased in US dollars due to the higher exchange rate.

Administration expenses for the three months ended September 30, 2005 were \$18,450 compared to \$10,129 in the same three months of 2004. This increase was primarily due to the higher exchange rate on the Canadian dollar during the 2005 quarter compared to the same quarter of 2004.

(d) Stock Options

During the 2005 nine-month period, 3,000 stock options to purchase shares of the Company were cancelled. The Company currently has 800,000 stock options outstanding priced at \$0.15 with an expiry date of October 31, 2006.

Item 3 - Controls and Procedures

As required by SEC rules, we have evaluated the effectiveness of the design and operation of our disclosure controls and procedures at the end of the period covered by this report. This evaluation was carried out under the supervision and with the participation of our management, including our principal executive officer and principal financial officer. Based upon this evaluation, these officers have concluded that the design and operation of our disclosure controls and procedures are effective. There were no changes in our internal control over financial reporting or in other factors that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

Disclosure controls and procedures are our controls and other procedures that are designed to ensure that information required to be disclosed by us in the reports that we file or submit under the Exchange Act is recorded, processed, summarized and reported, within the time periods specified in the SEC's rules and forms. Disclosure controls and procedures include, without limitation, controls and procedures designed to ensure that information required to be disclosed by us in the reports that we file under the Exchange Act is accumulated and communicated to our management, including principal executive officer and principal financial officer, as appropriate, to allow timely decisions regarding required disclosure.
