## Notes to Consolidated Financial Statements

In the opinion of management, the accompanying unaudited financial statements include all adjustments (consisting of only normal adjustments) necessary for a fair presentation of the results for the interim periods. Certain reclassifications have been made to the previous year's results to present comparable financial statements.

Other Income:

During the quarter, the Company reached a settlement for \$300,000 with one of the parties to its patent infringement claim. The settlement calls for an initial payment of \$50,000 (which has been collected), \$125,000 due in January 2007 and the \$125,000 balance due in January 2008. The present value of the settlement, discounted at 5%, of \$284,238 is recorded as Other Income during the quarter with a \$119,861 receivable balance in "Other [Current Assets]" and \$114,377 in Other Non-Current Assets as of March 31, 2006.

Segment Reporting:

The Company operates two primary business segments. The Company evaluates the segments by revenues, total expenses and earnings before taxes. Corporate Overhead is excluded from the business segments as to not distort the contribution of each segment.

The results for the nine months ended March 31, by segment are:

	Polymer Research	Medical Products	Corporate Overhead	Total
2006				
Revenues	\$ 3,222,757	\$ 2,442,664	-	\$ 5,665,421
Expenses	(2,558,212)	(2,687,553)	\$ (1,118,343)	(6,364,108)
Pre-tax Income (Loss)	\$ 664,545	\$ (244,889)	\$ (1,118,343)	\$ (698,687)
2005				
Revenues	\$ 4,065,309	\$ 2,331,055		\$ 6,396,364.
Expenses	(2,501,289)	(2,747,266)	\$ (934,643)	(6,183,198)
Pre-tax Income (Loss)	\$ 1,564,021	\$ (416,211)	\$ (934,643)	\$ 213,167

The prior period segment information has been restated to conform to the current year presentation.

Geographic revenues were as follows for the nine months ended March 31,

	2006	2005
Domestic	83%	82%
Foreign	17%	18%

Subsequent Events:

In April 2006, the Company reached a settlement with the remaining parties to its patent infringement action, successfully enforcing its patents. This settlement, the value of which is not material unless the terms of the settlement is breached, concludes the action initiated in 2004 in which \$500,000 in legal fees were expended, \$247,000 this fiscal year. Closing this infringement action means that any additional legal costs would be minimal.

**Item #2**

**MANAGEMENT'S DISCUSSION AND ANALYSIS OF THE  
FINANCIAL CONDITION AND RESULTS OF OPERATIONS**

**Results of Operations**

The Company's revenues for the quarter ended March 31, 2006 were \$1,921,085 as compared to \$2,268,338 for the same period last year or a 15.3% decrease. Revenues for the nine months ended March 31, 2006 were \$5,665,421, down 11.4% from \$6,396,364 the corresponding period a year ago. Revenues are comprised of the sale of Products and Services and Royalty and Contract payments.

Product sales and services were \$1,481,973 for the quarter ended March 31, 2006 as compared to \$1,616,838 for the same period last year, a decrease of \$134,865 or 8.3% lower. For the nine months ended March 31, 2006, product sales and services were \$4,188,866 as compared to \$4,475,905 the prior year, a 6.4% decrease or \$287,039. The primary variance was due to lower product sales and the absence of billable R&D projects, offset by higher contract coating services.

Royalty and Contract revenues includes royalties received and the payments from license, option and other agreements which calls for periodic recurring payments for other than product and services. Included in Royalty and Contract revenues are revenues from support and supply agreements. For the quarter, Royalty and Contract revenues were \$439,112, down 32.6% from \$651,500 the same period a year ago. For the nine months ended March 31, 2006, Royalty and Contract revenues were \$1,476,555, down 23.1% from \$1,920,459 the same period a year ago. The expiration of the Company's '267 patent in May 2005 eliminated approximately \$1,645,762 in royalty revenues, offset by approximately \$1,248,426 in support fees. Excluded is \$117,000 in support fees for this fiscal year-to-date that has been reserved while we reconcile the fees due with our customer (their preliminary calculations were significantly lower than our estimates).

As of March 31, 2006, our open sales order book was approximately \$1,198,000. Although some of these orders are subject to cancellation, the Company is of the opinion that no substantial cancellations will occur. Our open order book excludes though, future orders that would come up during the normal course of business for immediate delivery.

Total Expenses for the quarter ended March 31, 2006 were \$2,008,480 as compared with \$2,178,132 the year before, a decrease of 7.8%. For the nine months ended March 31, 2006, total Expenses were \$6,126,554 as compared with \$6,272,753 the same period the year before, a decrease of 2.3%.

The Company's Cost of Goods Sold was \$851,911 for the quarter ended March 31, 2006 as compared with \$869,268 the year prior, a decrease of 2.0%. On a year-to-date basis, cost of goods sold was \$2,472,643 this year as compared with \$2,325,431 the corresponding period a year ago, an increase of 6.3%. The change in the mix of higher cost margin products sold this year, higher direct labor costs (including fringe benefits) and increased supplies resulted in a higher cost of goods sold.

Operating expenses were \$1,448,766 for the quarter ended March 31, 2006 as compared with \$1,203,428 the year before, higher by \$245,338 or 20.4%. For the nine month periods, operating expenses were \$4,072,855 this year as compared with \$3,783,314 the previous year, higher by \$289,541 or 7.7%. The Company expended an additional \$82,000 in litigation costs this quarter and \$247,000 year-to-date in its continued infringement claim against a former licensee and other parties. This compares with \$20,400 and \$100,000, respectively for the corresponding periods a year ago. The Company reached a settlement with one of the parties during the quarter. The discounted value of the \$300,000 settlement is recorded as Other Income.

Interest expense, included for the nine months ended March 31, 2006 and March 31, 2005 were \$120,814 and \$78,200, respectively, higher as a result of the mortgage refinance on June 30, 2005.

A net loss of \$87,395 (\$0.02 per share) is reported for the quarter ended March 31, 2006 as compared to net income of \$90,206 (\$0.02 per share) the year before. For the nine months ended March 31, 2006, a net loss of \$461,133 (\$0.10 per share) is reported as compared to Net Income of \$123,611 (\$0.03 per share) the year before.

Lower product sales and Royalty and Contract revenues this fiscal year-to-date, combined with increased operating expenses, including \$247,000 in litigation expenses as offset by the settlement with one party in this matter, resulted in the net loss this year. We view the lower product sales as a temporary market demand variation. Our expenses, aside of the litigation expenses which should be minimal going forward (cumulative spent since 2004 was \$500,000) as a settlement was reached with the remaining parties in April 2006, though does not mirror the downturn in sales, as they include expenditures on developmental projects and other new business expenses which are needed for future revenues.

Financial Condition

Working capital decreased \$941,618 during the nine months ended March 31, 2006.

Net operating activities used \$823,302 for the nine month period ended March 31, 2006.

The net loss as adjusted for non-cash expenses, used \$477,010 in net cash, including an income tax benefit of \$192,600 recorded as a deferred tax asset, mostly non-current. The changes in assets and liabilities used cash of \$346,292: primarily from the increase in Other Assets (current and non-current) by \$314,772 (litigation settlement), prepaid expenses of \$106,428, and deferred income of \$77,364, off-set by the decrease in accounts receivables by \$144,700.

Investing activities used \$259,729 and financing activities provided \$86,449 during the nine months ended March 31, 2006.

During the nine months, the Company purchased \$392,633 in 6-month U.S. Treasury Bills, recorded as short-term investments which matured during the period for \$400,000, and expended \$267,096 on capital expenditures. The Company also repaid down long-term borrowings by \$129,446 while utilizing an additional \$208,195 from its revolving line of credit during the period.

Management believes that its current working capital and available line of credit, along with expected income and expense streams, are sufficient to maintain its current level of operations.

**Item # 3**
