MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The previous discussion and other sections of this Form 10-QSB contain forward-looking statements that have been made pursuant to the provisions of the Private Securities Litigation Reform Act of 1995. These forward-looking statements are based on current expectations, estimates and projections about our industry, management's beliefs and certain assumptions made by management. Words such as "anticipates," "expects," "intends," "plans," "believes," "seeks," "estimates," "may," and similar expressions are intended to identify forward-looking statements. These statements are not guarantees of future performance and actual actions or results may differ materially. These statements are subject to certain risks, uncertainties and assumptions that are difficult to predict. The Company undertakes no obligation to update publicly any forward-looking statements as a result of new information, future events or otherwise, unless required by law. Readers should, however, carefully review the risk factors included in other reports or documents filed by the Company from time to time with the Securities and Exchange Commission.

The Company was incorporated under the laws of the State of Nevada on March 2, 1999, and is in the early developmental and promotional stages. To date, the Company's only activities have been organizational ones, directed at developing its business plan and raising its initial capital. The Company has not commenced any commercial operations. The Company has no full-time employees and owns no real estate.

At the end of its fiscal year ending December 31, 2003, the Company has not identified any business opportunity that it plans to pursue, nor has the Company reached any agreement or definitive understanding with any person concerning an acquisition.

No assurance can be given that the Company will be successful in finding or acquiring a desirable business opportunity, given the limited funds that are expected to be available for acquisitions, or that any acquisition that occurs will be on terms that are favorable to the Company or its stockholders.

The Company's search has been directed toward enterprises which have a desire to become a public corporation and which have a business plan designed to allow them to take advantage of opportunities available to public entities. This includes entities which have been recently organized, with no operating history, or a history of losses attributable to under-capitalization or other factors, entities in need of funds to develop a new product or service or to expand into a new market, entities which desire to use their securities to make acquisitions, and entities which have a combination of these characteristics.

Edgar Filing: OSK CAPITAL III CORP - Form 10QSB

In searching for investment opportunities, the Company is not restricted to any particular geographical area or industry. Therefore, subject to economic conditions, limitations on its ability to locate available business opportunities, and other factors, the Company has substantial discretion in selecting an appropriate business opportunity.

In connection with any acquisition, it is highly likely that an amount of stock constituting control of the Company would be issued by the Company or purchased from the Company's current principal shareholders by the target entity or its controlling shareholders.

On March 14, 2005, we completed our acquisition of Ideal Medical Inc., a Texas corporation, pursuant to an Agreement and Plan of Merger, the form of which is attached as Exhibit 2.1 hereto.
