**Item 7.01 Regulation FD Disclosure**

On August 28, 2007, Collectors Universe, Inc. issued a press release announcing that Christie's, one the world's leading Auctioneers of fine art, jewelry, collectibles and antiquities, has approved the inclusion, when auctioning diamonds certified by Collectors Universe's diamond authentication and grading subsidiary, Gem Certification & Assurance Lab (GCAL), of information regarding the GCAL diamond certifications in the description of the GCAL-certified diamonds that Christies sells at its auctions.

As a result of the decision by Christie's, fordiamonds under 2.0 carats submitted for auction with a GCAL grading certificate, other than those with D color and flawless clarity, Christies will list the GCAL certificate in its auction catalog. In the case of D color diamonds with flawless clarity, a Gemological Institute of America (GIA)® certificate would also be required. For diamonds 2.0 carats or larger which are submitted to Christie's for auction with grading certificates from both GCAL and GIA, Christie's will list GCAL's certificate, as well as GIA's, in its auction catalog. GCAL certificates will now be accepted at Christie's along with certificates from other world famous laboratories like Gübelin Gemmological Laboratories, SSEF Swiss Gemological Institute, Gemological Institute of America, HRD Diamond Office, and Collectors Universe subsidiary American Gemological Laboratories (AGL), among other laboratories.

In accordance with General Instruction B. 2 of Form 8-K, the information in this Current Report, including Exhibit 99.1 hereto, is being furnished and shall not be deemed "filed" for purposes of Section 18 of the Securities Exchange Act of 1934, as amended, or otherwise subject to the liabilities of that Section, nor shall such information be deemed incorporated by reference in any filing under the Securities Act of 1933, as amended.
