PART I

ITEM 1. BUSINESS:

GENERAL

The Company, founded in 1946, operated 859 women's fashion specialty stores at February 3, 2001 under the names "Cato," "Cato Fashions," "Cato Plus" and "It's Fashion!" in 23 states, principally in the Southeast. The Company offers quality fashion apparel and accessories at everyday low prices in junior/missy and plus sizes. Additionally, the Company offers clothing and accessories for girls ages 7 - 16 in selected locations. With the objective of offering head-to-toe dressing for its customers, the Company's stores feature a broad assortment of apparel and accessories, including casual and dressy sportswear, dresses, careerwear, coats, hosiery, shoes, costume jewelry, handbags and millinery. A substantial portion of the Company's merchandise is sold under its private labels and is produced by various vendors in accordance with the Company's specifications. Most stores range in size from 3,000 to 6,000 square feet and are located primarily in strip shopping centers anchored by national discounters or dominant grocery stores. The Company emphasizes customer service and coordinated merchandise presentations in an appealing store environment. The Company offers its own credit card and layaway plan. Credit and layaway sales represented 18% of retail sales in fiscal 2000. See Note 12 to the Consolidated Financial Statements, "Reportable Segment Information" for a discussion of segment information.

BUSINESS

The Company's primary objective is to be the leading fashion specialty retailer for fashion conscious low-to-middle income females in its markets. Management believes the Company's success is dependent upon its ability to differentiate its stores from department stores, mass merchandise discount stores and competing women's specialty stores. The key elements of the Company's business strategy are:

Merchandise Assortment. The Company's stores offer a wide assortment of apparel and accessory items in regular and large sizes and emphasize color, product coordination and selection.

Value Pricing. The Company offers quality merchandise that is generally priced below comparable merchandise offered by department stores and mall specialty apparel chains but is generally more fashionable than merchandise offered by discount stores. The Company has positioned itself as the everyday low price leader in its segment.

## Edgar Filing: CATO CORP - Form 10-K405

Strip Shopping Center Locations. The Company locates its stores principally in strip centers convenient to customers anchored by national discounters or dominant grocery stores that attract large numbers of potential customers.

Customer Service. Store managers and sales associates are trained to provide prompt and courteous service and to assist customers in merchandise selection and wardrobe coordination.

Credit and Layaway Programs. The Company offers its own credit card and a layaway plan to make the purchase of its merchandise more convenient.

Expansion. The Company plans to open new stores and relocate existing stores in rural, middle and metro markets in northern, midwestern and western adjacent states, as well as continuing to "fill-in" existing southeastern core geography.

### MERCHANDISING

#### Merchandising

The Company offers a broad selection of high quality and exceptional value apparel and accessories to suit the various lifestyles of the fashion conscious low-to-middle income female, ages 18 to 50. In addition, the Company offers on-trend fashion in exciting colors with consistent fit and quality.

The Company's merchandise lines include dressy, career, and casual sportswear, dresses, coats, shoes, lingerie, hosiery, costume jewelry, handbags and millinery. Apparel and accessories for girls ages 7 - 16 are offered in selected stores. Most of the Company's merchandise is sold under its private labels.

The collaboration of the merchandising team with an expanded in-house product development and direct sourcing function has enhanced merchandise offerings delivering quality private label products at lower costs. Product development and the direct sourcing operation provide research on emerging fashion and color trends, technical services and direct sourcing capabilities.

Page 4

#### ITEM 1. BUSINESS: (CONTINUED)

As a part of its merchandising strategy, members of the Company's merchandising staff frequently visit selected stores, monitor the merchandise offerings of other retailers, regularly communicate with store operations associates and frequently confer with key vendors. The Company tests most new fashion-sensitive items in selected stores to aid it in determining their appeal before making a substantial purchasing commitment. The Company also takes aggressive markdowns on slow-selling merchandise and does not carry over merchandise to the next season.

#### Purchasing, Allocation and Distribution

Although the Company purchases merchandise from approximately 1,500 suppliers, most of its merchandise is purchased from approximately 100 primary vendors. In fiscal 2000, purchases from the Company's largest vendor accounted for approximately 6% of the Company's total purchases. No other vendor

## Edgar Filing: CATO CORP - Form 10-K405

accounted for more than 3% of total purchases. The Company is not dependent on its largest vendor or any other vendor for merchandise purchases and the loss of any single vendor or group of vendors would not have a material adverse effect on the Company's operating results or financial condition. A substantial portion of the Company's merchandise is sold under its private labels and is produced by various vendors in accordance with the Company's specifications. The Company purchases most of its merchandise from domestic importers and vendors, which typically minimizes the time necessary to purchase and obtain shipments in order to enable the Company to react to merchandise trends in a more timely fashion. Although a significant portion of the Company's merchandise is manufactured overseas, principally in the Far East, any economic, political or social unrest in that region is not expected to have a material adverse effect on the Company's ability to obtain adequate supplies of merchandise.

An important component of the Company's strategy is the allocation of merchandise to individual stores based on an analysis of sales trends by merchandise category, customer profiles and climatic conditions. A merchandise control system provides current information on the sales activity of each merchandise style in the Company's stores. Point-of-sale terminals in the stores collect and transmit sales and inventory information to the Company's central database, permitting timely response to sales trends on a store-by-store basis.

All merchandise is shipped directly to the Company's distribution center in Charlotte, North Carolina where it is inspected and allocated by the merchandise distribution staff for shipment to individual stores. The flow of merchandise from receipt at the distribution center to shipment to stores is controlled by an on-line system. Shipments are made by common carrier, and each store receives at least one shipment per week.

### ITEM 1. BUSINESS: (CONTINUED)

#### Advertising

The Company uses direct mail, radio and in-store advertising as its primary advertising media. The Company uses radio advertising throughout its trade areas. The Company's total advertising expenditures were approximately .9% of retail sales in fiscal 2000.

#### STORE OPERATIONS

The Company's store operations management team consists of two directors of stores, two territorial managers, fourteen regional managers and eighty-nine district managers. Regional managers receive a salary plus a bonus based on achieving targeted goals for sales, payroll expense, shrinkage control and store profitability. District managers receive a salary plus a bonus based on achieving targeted objectives for district sales increases and shrinkage control. Stores are staffed with a manager, two assistant managers and additional part-time sales associates depending on the size of the store and seasonal personnel needs. Store managers receive a salary and all other store personnel are paid on an hourly basis. Store managers and assistant managers are eligible for monthly and semi-annual bonuses based on achieving targeted goals for their store's sales increases and shrinkage control.

The Company is constantly improving its training programs to develop associates. Nearly 80% of the store and field management are promoted from

## Edgar Filing: CATO CORP - Form 10-K405

within, allowing the Company to internally staff an expanding store base. The Company has training programs at each level of store operations. New store managers are trained in training stores managed by experienced associates who have achieved superior results in meeting the Company's goals for store sales, payroll expense and shrinkage control. The type and extent of district manager training varies depending on whether the manager is promoted from within or recruited from outside the Company. All district managers receive at a minimum a one-week orientation program at the Company's corporate office.

### STORE LOCATIONS

Most of the Company's stores are located in the Southeast in small to medium-sized towns, with populations of 10,000 to 50,000 and retail trade areas of 25,000 to 100,000. Stores range in size from 3,000 to 6,000 square feet and average approximately 4,100 square feet.

7

Page 6

### ITEM 1. BUSINESS: (CONTINUED)

All of the Company's stores are leased. Approximately 93% are located in strip shopping centers, 1% in downtown locations and 6% in enclosed shopping malls. Where lease terms are acceptable and a potential location meets the Company's demographic and other site-selection criteria, the Company locates stores in strip shopping centers anchored by national discounters or dominant grocery stores. The Company's strip center locations provide ample parking and shopping convenience for its customers.

The Company's store development activities consist of opening new stores and relocating other existing stores to more desirable locations in the same market area. The following table sets forth information with respect to the Company's development activities since fiscal 1996.

### STORE DEVELOPMENT

Fiscal Year -----	Number of Stores Beginning of Year -----	Number Opened -----	Number Closed -----
1996.....	671	28	44
1997.....	655	55	17
1998.....	693	52	13
1999.....	732	83	6
2000.....	809	65	15

In Fiscal 2001 the Company plans to open approximately 85 new stores, relocate 30 stores, close 10 stores, and remodel 25 stores.

The Company periodically reviews its store base to determine whether any particular store should be closed based on its sales trends and profitability. The Company intends to continue this review process to close

## Edgar Filing: CATO CORP - Form 10-K405

underperforming stores. In addition, the Company opportunistically relocates selected stores to more desirable locations in their existing market.

### CREDIT AND LAYAWAY

#### Credit Card Program

The Company offers its own credit card, which accounted for approximately 14% of retail sales in fiscal 2000. The Company's net bad debt expense in fiscal 2000 was 5.5% of credit sales.

8

Page 7

### ITEM 1. BUSINESS: (CONTINUED)

Customers applying for the Company's credit card are approved for credit if they have a satisfactory credit record and meet minimum income criteria. Customers are required to make minimum monthly payments based on their account balances. If the balance is not paid in full each month, the Company assesses the customer a finance charge.

#### Layaway Plan

Under the Company's layaway plan, merchandise is set aside for customers who agree to make periodic payments. The Company adds a nonrefundable administrative fee to each layaway sale. If no payment is made for four weeks, the customer is considered to have defaulted, and the merchandise is returned to the selling floor and again offered for sale, often at a reduced price. All payments made by customers who subsequently default on their layaway purchase are returned to the customer upon request, less the administrative fee and a restocking fee. In fiscal 1999, the Company changed its method of accounting for layaway sales. This change is the result of the issuance of Staff Accounting Bulletin No.101, "Revenue Recognition in Financial Statements" ("SAB 101"). Under the new accounting method the Company defers recognition of layaway sales and its related fees to the accounting period when the customer picks up layaway merchandise. Layaway sales represented approximately 4% of retail sales in fiscal 2000.

### MANAGEMENT INFORMATION SYSTEMS

The Company's systems provide daily financial and merchandising information that is used by management to enhance the timeliness and effectiveness of purchasing and pricing decisions. Management uses a daily report comparing actual sales with planned sales and a weekly best seller/worst seller report to monitor and control purchasing decisions. Weekly reports are also produced which reflect sales, weeks of supply of inventory and other critical data by product categories, by store and by various levels of responsibility reporting. Purchases are made based on projected sales but can be modified to accommodate unexpected increases or decreases in demand for a particular item.

Sales information is projected by merchandise category and, in some cases, is further projected and actual performance measured by stockkeeping unit. Merchandise allocation models are used to distribute merchandise to individual stores based upon historical sales trends, climatic differences, customer demographic differences and targeted inventory turnover rates.

### COMPETITION

## Edgar Filing: CATO CORP - Form 10-K405

The women's retail apparel industry is highly competitive. The Company believes that the principal competitive factors in its industry include merchandise assortment and presentation, fashion, price, store location and customer service. The Company competes with retail chains that operate similar women's apparel specialty stores. In addition, the Company competes with local apparel specialty stores, mass merchandise chains, discount store chains and, to some degree, with major department stores. To the extent that the Company opens stores in larger cities and metropolitan areas, competition is expected to be more intense in those markets.

### ITEM 1. BUSINESS: (CONTINUED)

#### REGULATION

A variety of laws affect the revolving credit program offered by the Company. The Federal Consumer Credit Protection Act (Truth-in Lending) and Regulation Z promulgated thereunder require written disclosure of information relating to such financing, including the amount of the annual percentage rate and the finance charge. The Federal Fair Credit Reporting Act also requires certain disclosures to potential customers concerning credit information used as a basis to deny credit. The Federal Equal Credit Opportunity Act and Regulation B promulgated thereunder prohibit discrimination against any credit applicant based on certain specified grounds. The Federal Trade Commission has adopted or proposed various trade regulation rules dealing with unfair credit and collection practices and the preservation of consumers' claims and defenses. The Company is also subject to the provisions of the Fair Debt Collection Practices Act, which regulates the manner in which the Company collects payments on revolving credit accounts.

#### ASSOCIATES

As of February 3, 2001, the Company employed approximately 9,000 full-time and part-time associates. The Company also employs additional part-time associates during the peak retailing seasons. The Company is not a party to any collective bargaining agreements and considers that its associate relations are good.

### ITEM 2. PROPERTIES:

The Company's distribution center and general offices are located in a Company-owned building of approximately 492,000 square feet located on a 15-acre tract in Charlotte, North Carolina. The Company's automated merchandise handling and distribution activities occupy approximately 418,000 square feet of this building and its general offices and corporate training center are located in the remaining 74,000 square feet. In Fiscal 2000, the Company purchased a building of approximately 24,000 square feet located on a 2-acre tract adjacent to the Company's existing location. The new building is used for receiving and staging shipments prior to processing.

Substantially all of the Company's retail stores are leased from unaffiliated parties. Most of the leases have an initial term of five years, with two to three five-year renewal options. Substantially all of the leases provide for fixed rentals plus a percentage of sales in excess of a specified volume.

### FISCAL 2000 COMPARED TO FISCAL 1999

Retail sales increased by 11% to \$648.5 million in fiscal 2000 from \$585.1 million in fiscal 1999. The fiscal year ended February 3, 2001 contained 53 weeks versus 52 weeks in fiscal year ended January 29, 2000. On a comparable 53 week basis, total sales for the fiscal year ended February 3, 2001 increased 9%, and comparable store sales increased 3% from the prior year. Total revenues, comprised of retail sales and other income (principally finance charges and late fees on customer accounts receivable, interest income and layaway fees), increased by 11% to \$669.1 million in fiscal 2000 from \$605.0 million in fiscal 1999. The Company operated 859 stores at February 3, 2001 compared to 809 stores operated at January 29, 2000.

The increase in retail sales in fiscal 2000 resulted from the Company's continuation of an everyday low pricing strategy, improved merchandise offerings, and an increase in store development activity. In fiscal 2000, the Company opened 65 new stores, relocated 33 stores, closed 15 stores and remodeled 105 stores.

Other income in fiscal 2000 increased \$.7 million or 4% over fiscal 1999. The increase resulted primarily from increased earnings from finance charges and late fee income.

Cost of goods sold was \$445.4 million, or 68.7% of retail sales, in fiscal 2000 compared to \$403.7 million, or 69.0% of retail sales, in fiscal 1999. The decrease in cost of goods sold as a percent of retail sales resulted primarily by maintaining timely and aggressive markdowns on slow moving merchandise and improving inventory flow. Total gross margin dollars (retail sales less cost of goods sold) increased by 12% to \$203.1 million in fiscal 2000 from \$181.4 million in fiscal 1999.

Selling, general and administrative expenses (SG&A) were \$154.2 million in fiscal 2000 compared to \$140.7 million in fiscal 1999, an increase of 10%. As a percent of retail sales, SG&A was 23.8% compared to 24.0% in the prior year. The overall increase in SG&A resulted primarily from increased selling-related expenses and increased infra-structure expenses attributable to the Company's store development activities.

Depreciation expense was \$9.5 million in fiscal 2000 compared to \$8.6 million in fiscal 1999. The 10% increase in fiscal 2000 resulted primarily from the Company's store development.

### FISCAL 1999 COMPARED TO FISCAL 1998

Retail sales increased by 12% to \$585.1 million in fiscal 1999 from \$524.4 million in fiscal 1998. Comparable store sales increased 4% from the prior year.

## Edgar Filing: CATO CORP - Form 10-K405

Total revenues increased by 11% to \$605.0 million in fiscal 1999 from \$543.7 million in fiscal 1998. The Company operated 809 stores at January 29, 2000 compared to 732 stores operated at January 30, 1999.

14

Page 13

### ITEM 7. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS: (CONTINUED)

The increase in retail sales in fiscal 1999 resulted from the Company's adoption of an everyday low pricing strategy, improved merchandise offerings, and an increase in store development activity. In fiscal 1999, the Company increased its number of stores 11% by opening 83 new stores, relocating 21 stores while closing 6 existing stores.

Other income in fiscal 1999 increased \$.7 million or 3% over fiscal 1998. The increase resulted primarily from increased earnings from higher finance charges, late fee income and income from cash equivalents and short-term investments partially offset by decreased layaway service charges.

Cost of goods sold was \$403.7 million, or 69.0% of retail sales, in fiscal 1999 compared to \$371.0 million, or 70.8% of retail sales, in fiscal 1998. The decrease in cost of goods sold as a percent of retail sales resulted primarily by maintaining timely and aggressive markdowns on slow moving merchandise, eliminating unprofitable promotions and improving inventory flow. Total gross margin dollars increased by 18% to \$181.4 million in fiscal 1999 from \$153.4 million in fiscal 1998.

SG&A expenses were \$140.7 million in fiscal 1999 compared to \$128.2 million in fiscal 1998, an increase of 10%. As a percent of retail sales, SG&A was 24.0% compared to 24.4% in the prior year. The overall increase in SG&A resulted primarily from increased selling-related expenses and increased infrastructure expenses attributable to the Company's store development activities.

Depreciation expense was \$8.6 million in fiscal 1999 compared to \$7.6 million in fiscal 1998. The 13% increase in fiscal 1999 resulted primarily from the Company's store development.

Effective for fiscal 1999, the Company changed its policy for recognizing revenues related to layaway sales to comply with the Securities and Exchange Commission's Staff Accounting Bulletin No. 101, "Revenue Recognition in Financial Statements" (SAB 101). Revenues for layaway sales and related fees are recognized when the layaway merchandise is delivered to the customer. Previously, revenues were recognized at the time of the sale. The Company accounted for the adoption of SAB 101 as a change in accounting principle and recorded a cumulative effect in the first quarter of fiscal 1999. The cumulative effect of this accounting change resulted in an increase in net income of \$147,000, net of income tax of \$79,000, or \$.01 per share. This increase was driven by the release of the Company's layaway reserve, which slightly exceeded the associated margin on previously recognized layaway sales. The proforma effect of retroactive application of the accounting change on fiscal 1998 is immaterial to the financial statements.

### LIQUIDITY, CAPITAL RESOURCES AND MARKET RISK

The Company believes that its cash, cash equivalents and short-term investments, together with cash flow from operations and borrowings available under its revolving credit agreement, will be adequate to fund the Company's proposed capital expenditures and other operating requirements over the next twelve months.

## Edgar Filing: CATO CORP - Form 10-K405

At February 3, 2001, the Company had working capital of \$125.7 million compared to \$125.0 million at January 29, 2000. Cash provided by operating activities was \$44.1 million in fiscal 2000 compared to \$44.5 million in fiscal 1999. The decrease in cash provided by operating activities in fiscal 2000 resulted primarily from an increase in net income, depreciation, provision for doubtful accounts, deferred income taxes, loss on disposal of property and equipment offset by an increase in accounts receivable, inventories and other assets and a decrease in accounts payable and other liabilities. At February 3, 2001, the Company had \$83.1 million in cash, cash equivalents and short-term investments, compared to \$87.3 million at January 29, 2000.

The Company had \$1.3 million invested in privately managed investment funds at February 3, 2001, which are reported under other assets of the consolidated balance sheets.

15

Page 14

### ITEM 7. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS: (CONTINUED)

At February 3, 2001, the Company had an unsecured revolving credit agreement which provided for borrowings of up to \$35 million. The revolving credit agreement is committed until July 2003. The credit agreement contains various financial covenants and limitations, including maintenance of specific financial ratios with which the Company was in compliance. There were no borrowings outstanding under the agreement during the fiscal year ended February 3, 2001 or January 29, 2000.

The Company has a master lease agreement with a lessor to lease \$19.5 million of store fixtures, point-of-sale devices and warehouse equipment. The operating leases are for a term of seven years but may be cancelled annually upon proper notice to the lessor. Upon notice of cancellation, the Company would be obligated to purchase the equipment at a prescribed termination value from the lessor. If the Company had cancelled the leases at February 3, 2001, the purchase price for the equipment would have been approximately \$5,929,000.

Expenditures for property and equipment totaled \$27.2 million, \$24.0 million and \$13.5 million in fiscal 2000, 1999 and 1998, respectively. The expenditures for fiscal 2000 were primarily for store development, store remodels and investments in new technology for an enterprise-wide information system for merchandising, distribution and finance. In fiscal 2001, the Company is planning to invest approximately \$31 million for capital expenditures. This includes expenditures to open 85 new stores, relocate 30 stores and close 10 stores. In addition, the Company plans to remodel 25 stores and has planned for investments in technology including an enterprise-wide information system scheduled to be implemented over the next 12 to 24 months.

During 2000, the Company repurchased 1,468,800 shares of Class A Common Stock for \$15.4 million, or an average price of \$10.52 per share. Over the course of fiscal 2000, the Company increased its quarterly dividend from \$.075 per share to \$.125 per share. In February 2000, the Board of Directors increased the quarterly dividend by 33% from \$.075 per share to \$.10 per share. In December 2000, the Board of Directors further increased the quarterly dividend by 25% from \$.10 per share to \$.125 per share.

The Company does not use derivative financial instruments in its investment portfolio. At February 3, 2001, the Company's investment portfolio was invested in governmental debt securities with maturities of up to 36 months. These

Edgar Filing: CATO CORP - Form 10-K405

securities are classified as available-for-sale and are recorded on the balance sheet at fair value with unrealized gains and losses reported as accumulated other comprehensive income.

In June 1998, the Financial Accounting Standards Board (FASB) issued Statement of Financial Accounting Standards (SFAS) No. 133, "Accounting for Derivative Instruments and Hedging Activities". In June 2000, the FASB issued SFAS No. 138, which amended certain provisions of SFAS 133. The Company adopted SFAS 133 and the corresponding amendments under SFAS 138 on February 4, 2001. Management believes that the adoption of this statement has no impact on the Company's consolidated results of operations and financial position.

The Annual Report includes "forward-looking statements" within the meaning of Section 27A of the Securities Act and Section 21E of the Exchange Act. All statements other than statements of historical facts included in the Annual Report and located elsewhere herein regarding the Company's financial position and business strategy may constitute forward-looking statements. Although the Company believes that the expectations reflected in such forward-looking statements are reasonable; it can give no assurance that such expectations will prove to be correct.

INDEPENDENT AUDITORS' REPORT

To The Board of Directors and Stockholders of The Cato Corporation

We have audited the accompanying consolidated balance sheets of The Cato Corporation and subsidiaries (the Company) as of February 3, 2001 and January 29, 2000, and the related consolidated statements of income, stockholders' equity, and cash flows for each of the three years in the period ended February 3, 2001. Our audits also included the financial statement schedule listed in the index at Item 14(A). These financial statements and the financial statement schedule are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

Edgar Filing: CATO CORP - Form 10-K405

In our opinion, such consolidated financial statements present fairly, in all material respects, the financial position of the Company at February 3, 2001 and January 29, 2000, and the results of its operations and its cash flows for each of the three years in the period ended February 3, 2001, in conformity with accounting principles generally accepted in the United States of America. Also, in our opinion, such financial statement schedule, when considered in relation to the basic consolidated financial statements taken as a whole, presents fairly in all material respects the information set forth herein.

THE CATO CORPORATION  
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES:

**Principles of Consolidation:** The consolidated financial statements include the accounts of The Cato Corporation and its wholly-owned subsidiaries ("the Company"). All significant intercompany accounts and transactions have been eliminated.

**Description of Business and Fiscal Year:** The Company has two business segments -- the operation of women's fashion specialty stores and a credit card division. The apparel specialty stores operate under the names "Cato", "Cato Fashions", "Cato Plus" and "It's Fashion!" and are located primarily in strip shopping centers in the Southeast. The Company's fiscal year ends on the Saturday nearest January 31. Fiscal year 2000 included 53 weeks, and fiscal years 1999 and 1998 each included 52 weeks.

**Use of Estimates:** The preparation of the Company's financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates. Significant accounting estimates reflected in the Company's financial statements include the allowance for doubtful accounts receivable, reserves relating to workers' compensation, general and auto insurance liabilities and reserves for inventory markdowns.

## Edgar Filing: CATO CORP - Form 10-K405

Cash and Cash Equivalents and Short-Term Investments: Cash equivalents consist of highly liquid investments with original maturities of three months or less. Investments with original maturities beyond three months are classified as short-term investments. The fair values of short-term investments are based on quoted market prices.

The Company's short-term investments are classified as available-for-sale. Available-for-sale securities are carried at fair value, with unrealized gains and losses, net of income taxes, reported as a component of accumulated other comprehensive income. The cost of debt securities is adjusted for amortization of premiums and accretion of discounts to maturity. The amortization of premiums, accretion of discounts and realized gains and losses are included in other income.

Concentration of Credit Risk: Financial instruments that potentially subject the Company to a concentration of credit risk principally consist of cash equivalents and accounts receivable. The Company places its cash equivalents with high credit qualified institutions and, by practice, limits the amount of credit exposure to any one institution. Concentrations of credit risks with respect to accounts receivable are limited due to the dispersion across different geographies of the Company's customer base.

Supplemental Cash Flow Information: Income tax payments, net of refunds received, for the fiscal years ended February 3, 2001, January 29, 2000 and January 30, 1999 were \$17,435,000, \$13,895,000 and \$13,394,000, respectively.

Inventories: Merchandise inventories are stated at the lower of cost (first-in, first-out method) or market as determined by the retail method.

Property and Equipment: Property and equipment are recorded at cost. Maintenance and repairs are charged to operations as incurred; renewals and betterments are capitalized. Depreciation is provided on the straight-line method over the estimated useful lives of the related assets, as follows:

CLASSIFICATION	ESTIMATED USEFUL LIVES
Land improvements	10 years
Buildings	30-40 years
Leasehold improvements	5-10 years
Fixtures and equipment	3-10 years

Retail Sales: Revenues from retail sales, net of returns, are recognized upon delivery of the merchandise to the customer and exclude sales taxes.

Advertising: Advertising costs are expensed in the period in which they are incurred. Advertising expense was \$5,812,000, \$5,109,000 and \$5,755,000 for the fiscal years ended February 3, 2001, January 29, 2000 and January 30, 1999, respectively.

The weighted-average number of shares used in the basic earnings per share computations was 24,988,844, 26,486,407 and 27,522,582 for the fiscal years ended February 3, 2001, January 29, 2000 and January 30, 1999, respectively. The weighted-average number of shares representing the dilutive effect of stock options was 476,388, 467,541 and 659,003 for the fiscal years ended February 3, 2001, January 29, 2000 and January 30, 1999, respectively. The weighted-average number of shares used in the diluted earnings per share computations was 25,465,232, 26,953,948 and 28,181,585 for the fiscal years ended February 3, 2001, January 29, 2000 and January 30, 1999, respectively.

**Income Taxes:** The Company files a consolidated federal income tax return. Income taxes are provided based on the asset and liability method of accounting, whereby deferred income taxes are provided for temporary differences between the financial reporting basis and the tax basis of the Company's assets and liabilities.

**Store Opening and Closing Costs:** Costs relating to the opening of new stores or the relocating or expanding of existing stores are expensed as incurred. The Company evaluates all long-lived assets for impairment. Impairment losses are recognized when expected future cash flows from the use of the assets are less than the assets' carrying values.

**Closed Store Lease Obligations:** At the time stores are closed, provision is made for the rentals required to be paid over the remaining lease terms. Rentals due the Company under non-cancelable subleases are offset against the related obligations in the year the sublease is signed. There is no offset for assumed sublease revenues.

**Insurance:** The Company is self-insured with respect to employee health, workers compensation and general liability claims. Employee health claims are funded through a VEBA trust to which the Company makes periodic contributions. The Company has stop-loss insurance coverage for individual claims in excess of \$250,000.

**Fair Value of Financial Instruments:** The Company's carrying values of financial instruments, such as cash and cash equivalents, approximate their fair values due to their short terms to maturity and/or their variable interest rates.

**Recent Accounting Pronouncements:** In June 1998, the Financial Accounting Standards Board (FASB) issued Statement of Financial Accounting Standards (SFAS) No. 133, "Accounting for Derivative Instruments and Hedging Activities". In June 2000, the FASB issued SFAS No. 138, which amended certain provisions of SFAS 133. The Company adopted SFAS 133 and the corresponding amendments under SFAS 138 on February 4, 2001. Management believes that the adoption of this statement has no impact on the Company's consolidated results of operations and financial position.

Effective for fiscal 1999, the Company changed its policy for recognizing revenues related to layaway sales to comply with the Securities and Exchange Commission's Staff Accounting Bulletin No. 101, "Revenue Recognition in Financial Statements" (SAB 101). Revenues for layaway sales and related fees are recognized when the layaway merchandise is delivered to the customer. Previously, revenues were recognized at the time of the sale. The Company accounted for the adoption of SAB 101 as a change in accounting principle and recorded a cumulative effect in the first quarter of fiscal 1999. The cumulative effect of this accounting change resulted in an increase in net income of \$147,000, net of income tax of \$79,000, or \$.01 per share. This increase was driven by the release of the Company's layaway reserve, which slightly exceeded the associated margin on previously recognized layaway sales. The proforma effect of retroactive application of the accounting change on fiscal 1998 is immaterial to the financial statements.

6. FINANCING ARRANGEMENTS:

At February 3, 2001, the Company had an unsecured revolving credit agreement which provided for borrowings of up to \$35 million. The revolving credit agreement is committed until July 2003. The credit agreement contains various financial covenants and limitations, including the maintenance of specific financial ratios with which the Company was in compliance. There were no borrowings outstanding during the fiscal year ended February 3, 2001 or January 29, 2000.

The Company had approximately \$3,977,000 and \$4,594,000 at February 3, 2001 and January 29, 2000, respectively, of outstanding irrevocable letters of credit relating to purchase commitments.

7. STOCKHOLDERS' EQUITY:

The holders of Class A Common Stock are entitled to one vote per share, whereas the holders of Class B Common Stock are entitled to ten votes per share. Each share of Class B Common Stock may be converted at any time into one share of Class A Common Stock. Subject to the rights of the holders of any shares of Preferred Stock that may be outstanding at the time, in the event of liquidation, dissolution or winding up of the Company, holders of Class A Common Stock are entitled to receive a preferential distribution of \$1.00 per share of the net assets of the Company. Cash dividends on the Class B Common Stock cannot be paid unless cash dividends of at least an equal amount are paid on the Class A Common Stock.

The Company's charter provides that shares of Class B Common Stock may be transferred only to certain "Permitted Transferees" consisting generally of the lineal descendants of holders of Class B Stock, trusts for their benefit, corporations and partnerships controlled by them and the Company's employee benefit plans. Any transfer of Class B Common Stock in violation of these

## Edgar Filing: CATO CORP - Form 10-K405

restrictions, including a transfer to the Company, results in the automatic conversion of the transferred shares of Class B Common Stock held by the transferee into an equal number of shares of Class A Common Stock.

In October 1993, the Company registered 250,000 shares of Class A Common Stock available for issuance under an Employee Stock Purchase Plan (the "Plan"). In May 1998, the shareholders approved an amendment to the Plan to increase the maximum number of Class A shares of Common Stock authorized to be issued from 250,000 to 500,000 shares. Under the terms of the Plan, substantially all employees may purchase Class A Common Stock through payroll deductions of up to 10% of their salary. The Class A Common Stock is purchased at the lower of 85% of market value on the first or last business day of a six-month payment period. Additionally, each April 15, employees are given the opportunity to make a lump sum purchase of up to \$10,000 of Class A Common Stock at 85% of market value. The number of shares purchased by participants through the plan were 44,590 shares, 53,811 shares and 37,122 shares for the years ended February 3, 2001, January 29, 2000 and January 30, 1999, respectively.

The Company has an Incentive Stock Option Plan and a Non-Qualified Stock Option Plan for key employees of the Company. Total shares issuable under the plans are 3,900,000, of which 825,000 shares are issuable under the Incentive Stock Option Plan and 3,075,000 shares are issuable under the Non-Qualified Stock Option Plan. The purchase price of the shares under the option must be at least 100 percent of the fair market value of Class A Common Stock at the date of the grant. Options granted under these plans vest over a 5-year period and expire 10 years after the date of the grant unless otherwise expressly authorized by the Board of Directors.

34

Page 33

### THE CATO CORPORATION NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

In August 1999, the Board of Directors adopted the 1999 Incentive Compensation Plan, of which 1,000,000 shares are issuable. No awards shall be granted after July 31, 2004 and shares must be exercisable not later than 10 years after the date of the grant unless otherwise expressly authorized by the Board of Directors.

In August 1999, the Board of Directors granted under the 1999 Incentive Compensation Plan, restricted stock awards of 100,000 shares of Class B Common Stock, with a per share fair value of \$11.81 to a key executive. These stock awards vest over four years and the unvested portion is included in stockholders' equity as unearned compensation in the accompanying financial statements. The charge to compensation expense for these stock awards in 2000 was \$295,000 and in 1999 was \$196,000.

shares of Class A Common Stock. Options available to be granted under the option plans were 535,468 at February 3, 2001 and 526,018 at January 29, 2000.

The Company applies APB Opinion No. 25, "Accounting for Stock Issued to Employees", and related interpretations in accounting for its stock options plans. Accordingly, no compensation expense has been recognized for stock-based compensation where the option price of the stock approximated the fair market value of the stock on the date of grant. Had compensation expense for fiscal 2000, 1999 and 1998 stock options granted been determined consistent with SFAS No. 123, "Accounting for Stock-Based Compensation", the Company's net income and basic and diluted earnings per share amounts for fiscal 2000, 1999 and 1998 would approximate the following proforma amounts (dollars in thousands, except per share data):

The weighted-average fair value of each option granted during fiscal 2000, 1999 and 1998 is estimated as \$5.45, \$6.12 and \$6.71 per share, respectively. The fair value of each option grant is estimated using the Black-Scholes option-pricing model with the following assumptions for grants issued in 2000, 1999 and 1998, respectively: expected dividend yield of 2.42%, 2.62% and 2.20%; expected volatility of 60.34%, 62.10% and 66.44%, adjusted for expected dividends; risk-free interest rate of 4.71%, 6.40% and 5.07%; and an expected life of 5 years for 2000, 1999 and 1998. The effects of applying SFAS 123 in this proforma disclosure are not indicative of future amounts.

In February 2000, the Board of Directors increased the quarterly dividend by 33% from \$.075 per share to \$.10 per share. In December 2000, the Board of Directors further increased the quarterly dividend by 25% from \$.10 per share to \$.125 per share.

Total comprehensive income for the years ended February 3, 2001, January 29, 2000 and January 30, 1999 is as follows (in thousands):

8. EMPLOYEE BENEFIT PLANS:

The Company has a defined contribution retirement savings plan (401(k)) which covers all employees who meet minimum age and service requirements. The 401(k) plan allows participants to contribute up to 16% of their annual compensation. The Company is obligated to make a minimum contribution to cover plan administrative expenses. Further Company contributions are at the discretion of the Board of Directors. The Company's contributions for the years ended February 3, 2001, January 29, 2000 and January 30, 1999 were approximately \$2,348,000, \$2,145,000 and \$1,606,000, respectively.

The Company has an Employee Stock Ownership Plan (ESOP), which covers substantially all employees who meet minimum age and service requirements. The Board of Directors determines contributions to the ESOP. No contribution was made to the ESOP for the year ended February 3, 2001. The contributions for the fiscal years ended January 29, 2000 and January 30, 1999 were \$1,913,000 and \$531,000, respectively.

36

Page 35

THE CATO CORPORATION  
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

The Company is self-insured with respect to employee health, workers compensation and general liability claims. The Company has stop-loss insurance coverage for individual claims in excess of \$250,000 for workers compensation and employee health and \$100,000 for general liability. Employee health claims are funded through a VEBA trust to which the Company makes periodic contributions. Contributions to the VEBA trust were \$6,964,000, \$5,214,000 and \$4,177,000 in fiscal 2000, 1999 and 1998, respectively.

9. LEASES:

The Company has operating lease arrangements for store facilities and equipment. Facility leases generally are for periods of five years with renewal options and most provide for additional contingent rentals based on a percentage of store sales in excess of stipulated amounts. Equipment leases are generally for three to seven year periods. The Company has a master lease agreement with a lessor to lease \$19.5 million of store fixtures, point-of-sale devices and warehouse equipment, which do not meet criteria for capital lease accounting and are being accounted for as operating leases with terms of seven years. However, these leases may be cancelled annually upon proper notice to the lessor. Upon notice of cancellation, the Company would be obligated to purchase the equipment at a prescribed termination value from the lessor. If the Company had cancelled the leases at February 3, 2001, the purchase price for the equipment would have been approximately \$5,929,000.

12. REPORTABLE SEGMENT INFORMATION:

The Company has two reportable segments: retail and credit. The Company operates its women's fashion specialty retail stores in 23 states, principally in the Southeast. The Company offers its own credit card to its customers and all credit authorizations, payment processing, and collection efforts are performed by a separate division of the Company.

The accounting policies of the segments are the same as those described in the summary of significant accounting policies. The Company evaluates performance based on profit or loss from operations before income taxes. The Company does not allocate certain corporate expenses or income taxes to the segments.

The following schedule summarizes certain segment information (in thousands):

13. COMMITMENTS AND CONTINGENCIES:

Workers compensation and general liability claims are settled through a claims administrator and are limited by stop-loss insurance coverage for individual claims in excess of \$250,000 and \$100,000, respectively. The Company paid claims of \$1,486,000, \$1,074,000 and \$1,347,000 in fiscal 2000, 1999 and 1998, respectively. The Company had no outstanding letters of credit relating to such claims at February 3, 2001 or at January 29, 2000. See Note 6 for letters of credit related to purchase commitments, Note 8 for 401(k) plan contribution obligations and Note 9 for lease commitments.

The Company is a defendant in legal proceedings considered to be in the normal course of business and none of which, singularly or collectively, are considered to be material to the Company as a whole.
