However, non-operating income recorded an increase due to refund from and reduction of the civil aviation infrastructure levies. In addition, there was a loss reversal of RMB 422 million due to fair value movements of fuel hedging.

The Company strengthened its efforts in controlling controllable costs, so that the administrative expenses decreased. The decrease in asset impairment loss was mainly attributable to the decrease in bad debt provision in the current period.

2. As at 31 March 2009, other payables of the Company increased RMB546 million as compared with the beginning of the year, which was mainly due to the increase in refund of the civil aviation levies receivable.
