Item 8.01 Other Events

On August 2, 2010, Comstock Mining Inc. (the “Company”) announced that it entered into two separate exploration licenses in July 2010, both with definitive options to purchase patented and unpatented mining claims and patented town site lots totaling over 100 acres, in the Devils Gate and Chinatown Mining District, Lyon County, Nevada.

On July 1, 2010, the Company obtained an exclusive 180-day exploration license with option to purchase four patented lode claims totaling 95 acres known as the Dayton property. Under the purchase option, the price for the Dayton property is \$3,000,000, with an initial payment of \$500,000. The balance of the purchase price will be payable in 20 quarterly payments of \$125,000, with no interest. The former owner of the Dayton property will retain a 3% Net Smelter Royalty on all future mineral production from these claims. The Company will receive a credit for the \$3,000,000 purchase price through a reduction in the Net Smelter Royalty by 75% until such time as the full purchase price is credited.

On July 21, 2010, the Company obtained an exclusive 180-day option to acquire one patented lode claim and two unpatented lode claims, adjoining and consolidating the Dayton property. The license allows the Company to acquire these mineral claims for \$100,000 plus a 2% Net Smelter Royalty to the former owner at any time during the option period.

A copy of a press release announcing the purchase is attached as Exhibit 99.1 to this Form 8-K.

This Form 8-K and Exhibit 99.1 are each being furnished to the Securities and Exchange Commission (the “SEC”) pursuant to Item 8.01 of Form 8-K and are therefore not to be considered “filed” with the SEC.
