

HALLMARK FINANCIAL SERVICES INC
Form 10-Q
August 16, 2010

UNITED STATES

SECURITIES AND EXCHANGE COMMISSION

WASHINGTON, D.C. 20549

FORM 10-Q

Quarterly report pursuant to Section 13 or 15(d) of the
Securities Exchange Act of 1934

For the quarterly period ended June 30, 2010

Commission file number 001-11252

Hallmark Financial Services, Inc.

(Exact name of registrant as specified in its charter)

Nevada
(State or other jurisdiction of
Incorporation or organization)

87-0447375
(I.R.S. Employer
Identification No.)

777 Main Street, Suite 1000, Fort Worth, Texas

76102

(Address of principal executive offices)

(Zip Code)

Registrant's telephone number, including area code: (817) 348-1600

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See the definitions of "large accelerated filer," "accelerated filer" and "smaller reporting company" in Rule 12b-2 of the Exchange Act.

Large accelerated filer Accelerated filer
Non-accelerated filer Smaller reporting company

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes No

Indicate the number of shares outstanding of each of the issuer's classes of common stock, as of the latest practicable date: Common Stock, par value \$.18 per share – 20,124,169 shares outstanding as of August 12, 2010.

Hallmark Financial Services, Inc. and Subsidiaries

Notes to Consolidated Financial Statements (Unaudited)

1. General

Hallmark Financial Services, Inc. (“Hallmark” and, together with subsidiaries, “we,” “us” or “our”) is an insurance holding company engaged in the sale of property/casualty insurance products to businesses and individuals. Our business involves marketing, distributing, underwriting and servicing our insurance products, as well as providing other insurance related services.

We pursue our business activities through subsidiaries whose operations are organized into five business units, which are supported by our four insurance company subsidiaries. Our Standard Commercial business unit (formerly known as our AHIS Operating Unit) handles commercial insurance products and services in the standard market. Our E&S Commercial business unit (formerly known as our TGA Operating Unit) handles primarily commercial insurance products and services in the excess and surplus lines market. Our General Aviation business unit (formerly known as our Aerospace Operating Unit) handles general aviation insurance products and services. Our Excess & Umbrella business unit (formerly known as our Heath XS Operating Unit) offers low and middle market commercial umbrella and excess liability insurance on both an admitted and non-admitted basis focusing primarily on trucking, specialty automobile and non-fleet automobile coverage. Our Personal Lines business unit (formerly known as our Personal Lines Operating Unit) handles personal insurance products and services. Our insurance company subsidiaries supporting these business units are American Hallmark Insurance Company of Texas (“AHIC”), Hallmark Insurance Company (“HIC”), Hallmark Specialty Insurance Company (“HSIC”) and Hallmark County Mutual Insurance Company (“HCM”).

These five business units are segregated into three reportable industry segments for financial accounting purposes. The Standard Commercial Segment presently consists solely of the Standard Commercial business unit and the Personal Segment presently consists solely of the Personal Lines business unit. The Specialty Commercial Segment includes the E&S Commercial, General Aviation and Excess & Umbrella business units.

2. Basis of Presentation

Our unaudited consolidated financial statements included herein have been prepared in accordance with U.S. generally accepted accounting principles (“GAAP”) and include our accounts and the accounts of our subsidiaries. All significant intercompany accounts and transactions have been eliminated in consolidation. Certain information and footnote disclosures normally included in financial statements prepared in accordance with GAAP have been condensed or omitted pursuant to rules and regulations of the Securities and Exchange Commission (“SEC”) for interim financial reporting. These unaudited consolidated financial statements should be read in conjunction with our audited consolidated financial statements for the year ended December 31, 2009 included in our Annual Report on Form 10-K filed with the SEC.

The interim financial data as of June 30, 2010 and 2009 is unaudited. However, in the opinion of management, the interim data includes all adjustments, consisting of normal recurring adjustments, necessary for a fair statement of the results for the interim periods. The results of operations for the period ended June 30, 2010 are not necessarily indicative of the operating results to be expected for the full year.

Redeemable non-controlling interest

We are accreting the redeemable non-controlling interest to its redemption value from the date of issuance to the earliest determinable redemption date, August 29, 2012, using the interest method. Changes in redemption value are considered a change in accounting estimate. We follow the two class method of computing earnings per share. We treat only the portion of the periodic adjustment to the redeemable non-controlling interest carrying amount that reflects a redemption in excess of fair value as being akin to an actual dividend. (See Note 3, "Business Combinations.")

Reclassification

Certain previously reported amounts have been reclassified in order to conform to our current year presentation. Such reclassification had no effect on net income or stockholders' equity.

Income Taxes

We file a consolidated federal income tax return. Deferred federal income taxes reflect the future tax consequences of differences between the tax bases of assets and liabilities and their financial reporting amounts at each year end. Deferred taxes are recognized using the liability method, whereby tax rates are applied to cumulative temporary differences based on when and how they are expected to affect the tax return. Deferred tax assets and liabilities are adjusted for tax rate changes in effect for the year in which these temporary differences are expected to be recovered or settled.

Use of Estimates in the Preparation of the Financial Statements

Our preparation of financial statements in conformity with GAAP requires us to make estimates and assumptions that affect our reported amounts of assets and liabilities and our disclosure of contingent assets and liabilities at the date of our consolidated financial statements, as well as our reported amounts of revenues and expenses during the reporting period. Refer to "Critical Accounting Estimates and Judgments" in our Annual Report on Form 10-K for the year ended December 31, 2009 for information on accounting policies that we consider critical in preparing our consolidated financial statements. Actual results could differ materially from those estimates.

Fair Value of Financial Instruments

Fair value estimates are made at a point in time, based on relevant market data as well as the best information available about the financial instruments. Fair value estimates for financial instruments for which no or limited observable market data is available are based on judgments regarding current economic conditions, credit and interest rate risk. These estimates involve significant uncertainties and judgments and cannot be determined with precision. As a result, such calculated fair value estimates may not be realizable in a current sale or immediate settlement of the instrument. In addition, changes in the underlying assumptions used in the fair value measurement technique, including discount rate and estimates of future cash flows, could significantly affect these fair value estimates.

Investment Securities: Fair values for debt securities and equity securities are obtained from an independent pricing service or based on quoted market prices. (See Note 4, "Fair Values" and Note 5, "Investments.")

Cash and Cash Equivalents: The carrying amounts reported in the balance sheet for these instruments approximate their fair values.

Restricted Cash and Cash Equivalents: The carrying amount for restricted cash reported in the balance sheet approximates the fair value.

Notes Payable: The carrying value of our bank credit facility of \$2.8 million approximates the fair value based on the current interest rate.

Subordinated Debt Securities: Our trust preferred securities have a carried value of \$56.7 million and a fair value of \$54.6 million as of June 30, 2010. The fair value of our trust preferred securities is based on discounted cash flows using a current yield to maturity of 8.25% based on similar issues to discount future cash flows.

For accrued investment income, amounts recoverable from reinsurers, federal income tax recoverable/payable and other liabilities, the carrying amounts approximate fair value because of the short maturity of such financial instruments.

Variable Interest Entities

On June 21, 2005, we formed Hallmark Statutory Trust I (“Trust I”), an unconsolidated trust subsidiary, for the sole purpose of issuing \$30.0 million in trust preferred securities. Trust I used the proceeds from the sale of these securities and our initial capital contribution to purchase \$30.9 million of subordinated debt securities from Hallmark. The debt securities are the sole assets of Trust I, and the payments under the debt securities are the sole revenues of Trust I.

On August 23, 2007, we formed Hallmark Statutory Trust II (“Trust II”), an unconsolidated trust subsidiary, for the sole purpose of issuing \$25.0 million in trust preferred securities. Trust II used the proceeds from the sale of these securities and our initial capital contribution to purchase \$25.8 million of subordinated debt securities from Hallmark. The debt securities are the sole assets of Trust II, and the payments under the debt securities are the sole revenues of Trust II.

In 2009, the Financial Accounting Standards Board (“FASB”) issued revised accounting standards regarding consolidation of variable interest entities, which was effective for us on January 1, 2010. Accordingly, we reevaluated our investments in Trust I and II (collectively the “Trusts”) and determined that, while the Trusts continue to be variable interest entities, we are not the primary beneficiary. Therefore, the Trusts are not included in our consolidated financial statements.

Recently Issued Accounting Standards

In June 2009, the FASB issued Statement of Financial Accounting Standards No. 168, “The FASB Accounting Standards Codification and the Hierarchy of Generally Accepted Accounting Principles — a replacement of FASB Statement No. 162” (the “Codification”). The Codification reorganized existing U.S. accounting and reporting standards issued by the FASB and other related private sector standard setters into a single source of authoritative accounting principles arranged by topic. The Codification supersedes all existing U.S. accounting standards. All other accounting literature not included in the Codification (other than SEC guidance for publicly-traded companies) is considered non-authoritative. The Codification was effective on a prospective basis for interim and annual reporting periods ending after September 15, 2009. The adoption of the Codification changed our references to GAAP accounting standards but did not impact our financial position or results of operations.

In September 2006, FASB issued Statement of Financial Accounting Standards No. 157, “Fair Value Measurements,” which was codified into FASB Accounting Standards Codification (“ASC”) Topic 820, “Fair Value Measurements and Disclosures” (“ASC 820”). ASC 820 establishes a separate framework for determining fair values of assets and liabilities that are required by other authoritative GAAP pronouncements to be measured at fair value. In addition, ASC 820 incorporates and clarifies the guidance in FASB Concepts Statement 7 regarding the use of present value techniques in measuring fair value. ASC 820 does not require any new fair value measurements. ASC 820 is effective for financial statements issued for fiscal years beginning after November 15, 2007. In January 2010, the FASB updated ASC 820 requiring additional disclosures about fair value measurements regarding transfers between fair value categories as well as purchases, sales, issuances and settlements related to fair value measurements of financial instruments with non-observable inputs. This update was effective for interim and annual periods beginning after December 15, 2009 except for disclosures about purchases, sales, issuances and settlements of financial instruments with non-observable inputs, which are effective for years beginning after December 15, 2010. The adoption of ASC 820 had no impact on our financial position or results of operations but did require additional disclosures. (See Note 4, “Fair Value.”)

In February 2007, FASB issued Statement of Financial Accounting Standards No. 159, “The Fair Value Option for Financial Assets and Liabilities,” which was codified into FASB ASC Topic 825, “Financial Instruments” (“ASC 825”). ASC 825 permits entities to choose to measure many financial instruments and certain other items at fair value with changes in fair value included in current earnings. The election is made on specified election dates, can be made on an instrument-by-instrument basis, and is irrevocable. ASC 825 is effective for financial statements issued for fiscal years beginning after November 15, 2007. The adoption of ASC 825 had no impact on our financial position or results of operations as we did not elect to apply ASC 825 to any eligible items.

In December 2007, the FASB issued Revised Statement of Financial Accounting Standards No. 141R, “Business Combinations,” which was codified into FASB ASC Topic 805, “Business Combinations” (“ASC 805”). ASC 805 provides revised guidance on how an acquirer recognizes and measures in its financial statements the identifiable assets acquired, the liabilities assumed, and any noncontrolling interest in the acquired entity. In addition, it provides revised guidance on the recognition and measurement of goodwill acquired in the business combination. ASC 805 also provides guidance specific to the recognition, classification, and measurement of assets and liabilities related to insurance and reinsurance contracts acquired in a business combination. ASC 805 applies to business combinations for acquisitions occurring on or after January 1, 2009. The adoption of ASC 805 did not have a material effect on our financial position or results of operations. However, ASC 805 will impact the accounting for any future acquisitions.

In December 2007, the FASB issued Statement of Financial Accounting Standards No. 160, “Noncontrolling Interests in Consolidated Financial Statements—an amendment of Accounting Research Bulletin No. 51,” which was codified into FASB ASC Topic 810, “Noncontrolling Interests” (“ASC 810”). ASC 810 amends Accounting Research Bulletin No. 51 to establish accounting and reporting standards for the noncontrolling interest in a subsidiary and for the deconsolidation of a subsidiary. In addition, it clarifies that a noncontrolling interest in a subsidiary is an ownership interest in the consolidated entity that should be reported as a component of equity in the consolidated financial statements. ASC 810 is effective on a prospective basis beginning January 1, 2009, except for the presentation and disclosure requirements which are applied on a retrospective basis for all periods presented. The adoption of ASC 810 did not have a significant impact on our financial position or results of operations.

In April 2009, FASB issued FASB Staff Position No. FAS 157-4, “Determining Fair Value When the Volume and Level of Activity for the Asset or Liability Have Significantly Decreased and Identifying Transactions That Are Not Orderly,” which was codified into ASC 820. ASC 820 provides guidance for estimating fair value when the volume and level of activity for the asset or liability have significantly decreased and identifying circumstances that may indicate that a transaction is not orderly. ASC 820 is effective for interim and annual reporting periods ending after June 15, 2009, and is applied prospectively. The adoption of this guidance did not have a significant impact on our financial position or results of operations.

In April 2009, FASB issued FASB Staff Position No. FAS 115-2 and FAS 124-2, “Recognition and Presentation of Other-Than-Temporary Impairments,” which was codified into FASB ASC Topic 320, “Investment Securities” (“ASC 320”), amending prior other-than-temporary impairment guidance for debt in order to make the guidance more operational and improve the presentation and disclosure of other-than-temporary impairments in the financial statements. ASC 320 did not amend existing recognition and measurement guidance related to other-than-temporary impairments of equity securities. The provisions of ASC 320 are effective for interim periods ending after June 15, 2009. We adopted ASC 320 effective April 1, 2009 which resulted in a cumulative effect adjustment to the beginning balances of retained earnings and accumulated other comprehensive income of approximately \$2.6 million before tax and \$1.7 million net of tax.

In April 2009, FASB issued FASB Staff Position No. FAS 107-1 and APB Opinion No. 28-1, “Interim Disclosures about Fair Value of Financial Instruments,” which was codified into ASC 825. ASC 825 requires disclosures about fair value of financial instruments for interim reporting periods as well as in annual financial statements. This guidance is effective for interim periods ending after June 15, 2009 but did not impact our financial position or results of operations. However, additional footnote disclosures to our interim and annual financial statements were required.

In May 2009, FASB issued Statement of Financial Accounting Standard No. 165, “Subsequent Events,” which was codified into FASB ASC Topic 855, “Subsequent Events” (“ASC 855”), which provides authoritative accounting literature for a topic previously addressed only in the auditing literature. The provisions of ASC 855 are effective for interim financial periods ending after June 15, 2009. The adoption of ASC 855 did not have a significant impact on our financial position or results of operations.

In June 2009, FASB issued Statement of Financial Accounting Standards No. 167, “Amendments to FASB Interpretation No. 46(R)” (“SFAS 167”), which was codified into ASC 810. ASC 810 addresses the effects of eliminating the qualifying special-purpose entity concept and responds to concerns about the application of certain key provisions of FASB Interpretation No. 46(R), “Consolidation of Variable Interest Entities,” including concerns over the transparency of enterprises’ involvement with variable interest entities. SFAS 167 is effective for calendar year end companies beginning on January 1, 2010 with earlier application prohibited. The adoption of ASC Topic 810 did not have a material impact on our financial position or results of operations.

3. Business Combinations

We account for business combinations using the purchase method of accounting pursuant to ASC 805. The cost of an acquired entity is allocated to the assets acquired (including identified intangible assets) and liabilities assumed based on their estimated fair values. The excess of the cost of an acquired entity over the net of the amounts assigned to assets acquired and liabilities assumed is an asset referred to as “goodwill.” Indirect and general expenses related to business combinations are expensed as incurred for acquisitions in 2009 and after. Prior to 2009, indirect and general expenses were capitalized.

Effective August 29, 2008, we acquired 80% of the issued and outstanding membership interests in the subsidiaries now comprising our Excess & Umbrella business unit for consideration of \$15.0 million. In connection with the acquisition, we executed an operating agreement for each subsidiary. The operating agreements grant us the right to purchase the remaining 20% membership interests in the subsidiaries and grant to an affiliate of the seller the right to require us to purchase such remaining membership interests (the “Put/Call Option”). The Put/Call Option becomes exercisable by either us or the affiliate of the seller upon the earlier of August 29, 2012, the termination of the employment of the seller by the Excess & Umbrella business unit or a change of control of Hallmark. If the Put/Call Option is exercised, we will have the right or obligation to purchase the remaining 20% membership interests in the Excess & Umbrella business unit for an amount equal to nine times the average Pre-Tax Income (as defined in the operating agreements) for the previous 12 fiscal quarters. We estimate the ultimate redemption value of the Put/Call Option to be \$2.2 million at June 30, 2010.

Effective June 5, 2009, we acquired all of the issued and outstanding shares of CYR Insurance Management Company (“CYR”). CYR has as its primary asset a management agreement with Hallmark County Mutual Insurance Company, (“HCM”), which provides for CYR to have management and control of HCM. We acquired all of the issued and outstanding shares of CYR for consideration of a base purchase price of \$4.0 million paid at closing plus an override commission in an amount equal to 1% of the net premiums and net policy fees of HCM for the years 2010 and 2011 subject to a maximum of \$1.25 million. The override commission is paid monthly as the subject premiums and policy fees are written. The fair value of the management agreement acquired is \$3.2 million and is being amortized over four years. HCM is used to front certain lines of business in our Specialty Commercial and Personal Segments in Texas where we previously produced policies for third party county mutual insurance companies and reinsured 100% for a fronting fee.

4. Fair Value

ASC 820 defines fair value, establishes a consistent framework for measuring fair value and expands disclosure requirements about fair value measurements. ASC 820, among other things, requires us to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. In addition, ASC 820 precludes the use of block discounts when measuring the fair value of instruments traded in an active market, which were previously applied to large holdings of publicly traded equity securities.

We determine the fair value of our financial instruments based on the fair value hierarchy established in ASC 820. In accordance with ASC 820, we utilize the following fair value hierarchy:

- Level 1: quoted prices in active markets for identical assets;
- Level 2: inputs to the valuation methodology include quoted prices for similar assets and liabilities in active markets, inputs of identical assets for less active markets, and inputs that are observable for the asset or liability, either directly or indirectly, for substantially the full term of the instrument; and

- Level 3: inputs to the valuation methodology that are unobservable for the asset or liability.

This hierarchy requires the use of observable market data when available.

Under ASC 820, we determine fair value based on the price that would be received for an asset or paid to transfer a liability in an orderly transaction between market participants on the measurement date. It is our policy to maximize the use of observable inputs and minimize the use of unobservable inputs when developing fair value measurements, in accordance with the fair value hierarchy described above. Fair value measurements for assets and liabilities where there exists limited or no observable market data are calculated based upon our pricing policy, the economic and competitive environment, the characteristics of the asset or liability and other factors as appropriate. These estimated fair values may not be realized upon actual sale or immediate settlement of the asset or liability.

Where quoted prices are available on active exchanges for identical instruments, investment securities are classified within Level 1 of the valuation hierarchy. Level 1 investment securities include common and preferred stock.

Level 2 investment securities include corporate bonds, municipal bonds and U.S. Treasury securities for which quoted prices are not available on active exchanges for identical instruments. We use a third party pricing service to determine fair values for each Level 2 investment security in all asset classes. Since quoted prices in active markets for identical assets are not available, these prices are determined by the pricing service using observable market information such as quotes from less active markets and/or quoted prices of securities with similar characteristics, among other things. We have reviewed the processes used by the pricing service and have determined that they result in fair values consistent with the requirements of ASC 820 for Level 2 investment securities.

In cases where there is limited activity or less transparency around inputs to the valuation, investment securities are classified within Level 3 of the valuation hierarchy. Level 3 investments are valued based on the best available data in order to approximate fair value. This data may be internally developed and consider risk premiums that a market participant would require. Investment securities classified within Level 3 include other less liquid investment securities.

The following table presents for each of the fair value hierarchy levels, our assets that are measured at fair value on a recurring basis at June 30, 2010 (in thousands):

	Quoted Prices in Active Markets for Identical Assets (Level 1)	Other Observable Inputs (Level 2)	Unobservable Inputs (Level 3)	Total
U.S. Treasury securities and obligations of U.S. Government	\$ -	\$ 6,540	\$ -	\$ 6,540
Corporate debt securities	-	198,551	-	198,551
Municipal bonds	-	135,493	23,500	158,993
Asset backed	-	610	-	610
Total debt securities	-	341,194	23,500	364,694
Financial services	20,067	-	-	20,067
All other	20,891	-	-	20,891
Total equity securities	40,958	-	-	40,958
Total debt and equity securities	\$ 40,958	\$ 341,194	\$ 23,500	\$ 405,652

Due to significant unobservable inputs into the valuation model for certain municipal bonds in illiquid markets, we classified these as Level 3 in the fair value hierarchy. We used an income approach in order to derive an estimated fair value of such securities, which included inputs such as expected holding period, benchmark swap rate, benchmark discount rate and a discount rate premium for illiquidity.

The following table summarizes the changes in fair value for all financial assets measured at fair value on a recurring basis using significant unobservable inputs (Level 3) during the six months ended June 30, 2010 (in thousands):

Beginning balance as of January 1, 2010	\$ 25,272
Net purchases, issuances, sales and settlements	(2,125)
Total realized/unrealized gains included in net income	-
Net gains included in other comprehensive income	353
Transfers in and/or out of Level 3	-
Ending balance as of June 30, 2010	\$ 23,500

5. Investments

We complete a detailed analysis each quarter to assess whether any decline in the fair value of any investment below cost is deemed other-than-temporary. All securities with an unrealized loss are reviewed. We recognize an impairment loss when an investment's value declines below cost, adjusted for accretion, amortization and previous other-than-temporary impairments and it is determined that the decline is other-than-temporary.

Equity Investments: Some of the factors considered in evaluating whether a decline in fair value for an equity investment is other-than-temporary include: (1) our ability and intent to retain the investment for a period of time sufficient to allow for an anticipated recovery in value; (2) the recoverability of cost; (3) the length of time and extent to which the fair value has been less than cost; and (4) the financial condition and near-term and long-term prospects for the issuer, including the relevant industry conditions and trends, and implications of rating agency actions and offering prices. When it is determined that an equity investment is other-than-temporarily impaired, the security is written down to fair value, and the amount of the impairment is included in earnings as a realized investment loss. The fair value then becomes the new cost basis of the investment, and any subsequent recoveries in fair value are recognized at disposition. We recognize a realized loss when impairment is deemed to be other-than-temporary even if a decision to sell an equity investment has not been made. When we decide to sell a temporarily impaired available-for-sale equity investment and we do not expect the fair value of the equity investment to fully recover prior to the expected time of sale, the investment is deemed to be other-than-temporarily impaired in the period in which the decision to sell is made.

Debt Investments: We assess whether we intend to sell, or it is more likely than not that we will be required to sell, a fixed maturity investment before recovery of its amortized cost basis less any current period credit losses. For fixed maturity investments that are considered other-than-temporarily impaired and that we do not intend to sell and will not be required to sell, we separate the amount of the impairment into the amount that is credit related (credit loss component) and the amount due to all other factors. The credit loss component is recognized in earnings and is the difference between the investment's amortized cost basis and the present value of its expected future cash flows. The remaining difference between the investment's fair value and the present value of future expected cash flows is recognized in other comprehensive income.

Major categories of recognized gains on investments are summarized as follows (in thousands):

	Three Months Ended June 30		Six Months Ended June 30	
	2010	2009	2010	2009
U.S. Treasury securities and obligations of U.S. Government	\$ -	\$ -	\$ -	\$ -
Corporate debt securities	74	894	3,368	1,022
Municipal bonds	24	(44)	(72)	(40)
Equity securities-financial services	1,201	(23)	1,767	27
Equity securities-all other	344	40	383	48
Net realized gain before other-than-temporary impairments	1,643	867	5,446	1,057
Other-than-temporary impairments	-	-	-	(538)
Net realized gain	\$ 1,643	\$ 867	\$ 5,446	\$ 519

We realized gross gains on investments of \$1.6 million and \$1.1 million during the three months ended June 30, 2010 and 2009, respectively, and \$5.5 and \$1.3 million for the six months ended June 30, 2010 and 2009, respectively. We did not realize any gross losses on investments for the three months ended June 30, 2010 and realized gross losses of \$0.2 million during the three months ended June 30, 2009 and \$0.1 million and \$0.8 million for the six months ended June 30, 2010 and 2009, respectively. We recorded proceeds from the sale of investment securities of \$26.5 million and \$28.2 million during the three months ended June 30, 2010 and 2009, respectively, and \$73.6 million and \$40.9 million for the six months ended June 30, 2010 and 2009, respectively. Realized investment gains and losses are recognized in operations on the specific identification method.

Edgar Filing: HALLMARK FINANCIAL SERVICES INC - Form 10-Q

The amortized cost and estimated fair value of investments in debt and equity securities by category is as follows (in thousands):

	Amortized Cost	Gross Unrealized Gains	Gross Unrealized Losses	Fair Value
As of June 30, 2010				
U.S. Treasury securities and obligations of				
U.S. Government	\$ 6,510	\$ 29	\$ -	\$ 6,539

	12 months or less		As of December 31, 2009 Longer than 12 months		Total	
	Fair Value	Unrealized Losses	Fair Value	Unrealized Losses	Fair Value	Unrealized Losses
U.S. Treasury securities and obligations of U.S. Government	\$ 3,202	\$ (17)	\$ -	\$ -	\$ 3,202	\$ (17)
Corporate debt securities	18,924	(166)	9,642	(2,035)	28,566	(2,201)
Municipal bonds	28,940	(1,524)	42,183	(1,262)	71,123	(2,786)
Asset backed	51	(1)	-	-	51	(1)
Total debt securities	51,117	(1,708)	51,825	(3,297)	102,942	(5,005)
Financial services	1,417	(232)	-	-	1,417	(232)
All other	658	(16)	-	-	658	(16)
Equity securities	2,075	(248)	-	-	2,075	(248)
Total debt and equity securities	\$ 53,192	\$ (1,956)	\$ 51,825	\$ (3,297)	\$ 105,017	\$ (5,253)

At June 30, 2010, the gross unrealized losses more than twelve months old were attributable to 33 bond positions. At December 31, 2009, the gross unrealized losses more than twelve months old were attributable to 60 bond positions. We consider these losses as a temporary decline in value as they are predominately on bonds that we do not intend to sell and do not believe we will be required to sell prior to recovery of our amortized cost basis. We see no other indications that the decline in values of these securities is other-than-temporary.

Based on evidence gathered through our normal credit evaluation process, we presently expect that all debt securities held in our investment portfolio will be paid in accordance with their contractual terms. Nonetheless, it is at least reasonably possible that the performance of certain issuers of these debt securities will be worse than currently expected resulting in additional future write-downs within our portfolio of debt securities.

Also, as a result of the challenging market conditions, we expect the volatility in the valuation of our equity securities to continue in the foreseeable future. This volatility may lead to additional impairments on our equity securities portfolio or changes regarding retention strategies for certain equity securities.

The amortized cost and estimated fair value of debt securities at June 30, 2010 by contractual maturity are as follows. Expected maturities may differ from contractual maturities because certain borrowers may have the right to call or prepay obligations with or without penalties.

	Amortized Cost	Fair Value
	(in thousands)	
Due in one year or less	\$ 38,209	\$ 38,728
Due after one year through five years	193,268	197,738
Due after five years through ten years	82,786	82,532
Due after ten years	45,526	45,086
Asset backed	585	610
	\$ 360,374	\$ 364,694

Activity related to the credit component recognized in earnings for the six months ended June 30, 2010, on debt securities held by us for which a portion of other-than-temporary impairment was previously recognized in other comprehensive income is as follows (in thousands):

Balance, January 1, 2010	\$ 1,168
Reductions for securities sold or matured during the period	(1,168)
Balance, June 30, 2010	\$ -

6. Pledged Investments

We have certain of our securities pledged for the benefit of various state insurance departments and reinsurers. These securities are included with our available-for-sale debt securities because we have the ability to trade these securities. We retain the interest earned on these securities. These securities had a carrying value of \$31.8 million at June 30, 2010 and a carrying value of \$29.7 million at December 31, 2009.

7. Share-Based Payment Arrangements

Our 2005 Long Term Incentive Plan ("2005 LTIP") is a stock compensation plan for key employees and non-employee directors that was approved by the shareholders on May 26, 2005. There are 2,000,000 shares authorized for issuance under the 2005 LTIP. Our 1994 Key Employee Long Term Incentive Plan (the "1994 Employee Plan") and 1994 Non-Employee Director Stock Option Plan (the "1994 Director Plan") both expired in 2004 but have unexercised options outstanding.

As of June 30, 2010, there were incentive stock options to purchase 1,286,666 shares of our common stock outstanding and non-qualified stock options to purchase 320,000 shares of our common stock outstanding and there were 392,501 shares reserved for future issuance under the 2005 LTIP. As of June 30, 2010, there were incentive stock options to purchase 2,500 shares outstanding under the 1994 Employee Plan and non-qualified stock options to purchase 20,834 shares outstanding under the 1994 Director Plan. The exercise price of all such outstanding stock options is equal to the fair market value of our common stock on the date of grant.

Options granted under the 1994 Employee Plan prior to October 31, 2003, vest 40% six months from the date of grant and an additional 20% on each of the first three anniversary dates of the grant and terminate ten years from the date of grant. Incentive stock options granted under the 2005 LTIP prior to 2009 and the 1994 Employee Plan after October 31, 2003, vest 10%, 20%, 30% and 40% on the first, second, third and fourth anniversary dates of the grant, respectively, and terminate five to ten years from the date of grant. Incentive stock options granted in 2009 under the 2005 LTIP vest in equal annual increments on each of the first seven anniversary dates and terminate ten years from the date of grant. There was one grant of 25,000 incentive stock options in 2010 under the 2005 LTIP that vests in equal annual increments on each of the first three anniversary dates and terminates ten years from the date of grant. Non-qualified stock options granted under the 2005 LTIP generally vest 100% six months after the date of grant and terminate ten years from the date of grant. There was one grant of 200,000 non-qualified stock options in 2009 under the 2005 LTIP that vests in equal annual increments on each of the first seven anniversary dates and terminates ten years from the date of grant. All non-qualified stock options granted under the 1994 Director Plan vested 40% six months from the date of grant and an additional 10% on each of the first six anniversary dates of the grant and terminate ten years from the date of grant.

A summary of the status of our stock options as of and changes during the six months ended June 30, 2010 is presented below:

	Number of Shares	Average Exercise Price	Contractual Term (Years)	Intrinsic Value (\$000)
Outstanding at January 1, 2010	1,614,166	\$ 9.62		
Granted	25,000	\$ 9.12		
Exercised	(9,166)	\$ 2.69		
Forfeited or expired	-	\$ -		
Outstanding at June 30, 2010	1,630,000	\$ 9.65	7.5	\$ 2,390
Exercisable at June 30, 2010	773,427	\$ 10.32	6.8	\$ 837

The following table details the intrinsic value of options exercised, total cost of share-based payments charged against income before income tax benefit and the amount of related income tax benefit recognized in income for the periods indicated (in thousands):

	Three Months Ended June 30,		Six Months Ended June 30,	
	2010	2009	2010	2009
Intrinsic value of options exercised	\$ 3	\$ -	\$ 47	\$ 107
Cost of share-based payments (non-cash)	\$ 291	\$ 614	\$ 589	\$ 876
Income tax benefit of share-based payments recognized in income	\$ 7	\$ 30	\$ 15	\$ 30

As of June 30, 2010, there was \$2.4 million of total unrecognized compensation cost related to non-vested share-based compensation arrangements granted under our plans, of which \$0.5 million is expected to be recognized during the remainder of 2010, \$0.8 million is expected to be recognized in 2011, \$0.4 million is expected to be recognized in 2012, \$0.2 million is expected to be recognized each year from 2013 through 2015 and \$0.1 million is expected to be recognized in 2016.

The fair value of each stock option granted is estimated on the date of grant using the Black-Scholes option pricing model. Expected volatilities are based on the historical volatility of the Company's and similar companies' common stock for a period equal to the expected term. The risk-free interest rates for periods within the contractual term of the options are based on rates for U.S. Treasury Notes with maturity dates corresponding to the options' expected lives on the dates of grant. Expected term is determined based on the simplified method as we do not have sufficient historical exercise data to provide a basis for estimating the expected term.

The following table details the weighted average grant date fair value and related assumptions for the periods indicated:

	Three Months Ended		Six Months Ended	
	June 30,		June 30,	
	2010	2009	2010	2009
Grant date fair value per share	\$ 3.62	\$ 2.84	\$ 3.62	\$ 2.84
Expected term (in years)	6.0	6.2	6.0	6.2
Expected volatility	35.0%	40.0%	35.0%	40.0%
Risk free interest rate	3.2%	2.5%	3.2%	2.5%

8. Segment Information

The following is business segment information for the three and six months ended June 30, 2010 and 2009 (in thousands):

	Three Months Ended		Six Months Ended	
	June 30,		June 30,	
	2010	2009	2010	2009
Revenues:				
Standard Commercial Segment	\$ 17,265	\$ 18,194	\$ 35,299	\$ 38,214
Specialty Commercial Segment	32,124	32,430	64,611	65,255
Personal Segment	24,754	18,701	45,968	36,236
Corporate	1,544	1,419	5,632	1,949
Consolidated	\$ 75,687	\$ 70,744	\$ 151,510	\$ 141,654
Pre-tax income (loss), net of non-controlling interest:				
Standard Commercial Segment	\$ (1,870)	\$ 1,247	\$ (2,809)	\$ 3,823
Specialty Commercial Segment	967	5,010	7,314	10,692
Personal Segment	1,132	2,894	3,782	5,513
Corporate	(1,570)	(2,357)	(452)	(4,782)
Consolidated	\$ (1,341)	\$ 6,794	\$ 7,835	\$ 15,246

The following is additional business segment information as of the dates indicated (in thousands):

	June 30, 2010	December 31, 2009
Assets		
Standard Commercial Segment	\$ 132,292	\$ 136,745
Specialty Commercial Segment	304,109	280,970
Personal Segment	149,232	109,844
Corporate	104,892	101,310
	\$ 690,525	\$ 628,869

9. Reinsurance

We reinsure a portion of the risk we underwrite in order to control the exposure to losses and to protect capital resources. We cede to reinsurers a portion of these risks and pay premiums based upon the risk and exposure of the policies subject to such reinsurance. Ceded reinsurance involves credit risk and is generally subject to aggregate loss limits. Although the reinsurer is liable to us to the extent of the reinsurance ceded, we are ultimately liable as the direct insurer on all risks reinsured. Reinsurance recoverables are reported after allowances for uncollectible amounts. We monitor the financial condition of reinsurers on an ongoing basis and review our reinsurance arrangements periodically. Reinsurers are selected based on their financial condition, business practices and the price of their product offerings.

The following table shows earned premiums ceded and reinsurance loss recoveries by period (in thousands):

	Three Months Ended		Six Months Ended	
	June 30,		June 30,	
	2010	2009	2010	2009
Ceded earned premiums	\$ 9,432	\$ 3,136	\$ 17,257	\$ 5,194
Reinsurance recoveries	\$ 6,842	\$ 1,890	\$ 10,578	\$ 3,222

We presently retain 100% of the risk associated with all policies marketed by our Personal Lines business unit. We currently reinsure the following exposures on business generated by our Standard Commercial, E&S Commercial, Excess & Umbrella, and General Aviation business units:

- Property catastrophe. Our property catastrophe reinsurance reduces the financial impact a catastrophe could have on our commercial and personal property insurance lines. Catastrophes might include multiple claims and policyholders. Catastrophes include hurricanes, windstorms, earthquakes, hailstorms, explosions, severe winter weather and fires. Our property catastrophe reinsurance is excess-of-loss reinsurance, which provides us reinsurance coverage for losses in excess of an agreed-upon amount. We utilize catastrophe models to assist in determining appropriate retention and limits to purchase. The terms of our property catastrophe reinsurance are:

- o We retain the first \$3.0 million of property catastrophe losses; and
- o Our reinsurers reimburse us 100% for any loss in excess of our \$3.0 million retention up to \$35.0 million for each catastrophic occurrence, subject to an aggregate limit of \$64.0 million.
- Commercial property. Our commercial property reinsurance is excess-of-loss coverage intended to reduce the financial impact a single-event or catastrophic loss may have on our results. The terms of our commercial property reinsurance are:
 - o We retain the first \$1.0 million of loss for each commercial property risk;
 - o Our reinsurers reimburse us for the next \$5.0 million for each commercial property risk, and \$10.0 million for all commercial property risk involved in any one occurrence, in all cases subject to an aggregate limit of \$30.0 million for all commercial property losses occurring during the treaty period; and
 - o Individual risk facultative reinsurance is purchased on any commercial property with limits above \$6.0 million.
- Commercial casualty. Our commercial casualty reinsurance is excess-of-loss coverage intended to reduce the financial impact a single-event loss may have on our results. The terms of our commercial casualty reinsurance are:
 - o We retain the first \$1.0 million of any commercial liability risk; and
 - o Our reinsurers reimburse us for the next \$5.0 million for each commercial liability risk.
- Aviation. We purchase reinsurance specific to the aviation risks underwritten by our General Aviation business unit. This reinsurance provides aircraft hull and liability coverage and airport liability coverage on a per occurrence basis on the following terms:
 - o We retain the first \$350,000 of each aircraft hull or liability loss or airport liability loss;
 - o Our reinsurers reimburse us for the next \$3.3 million of each combined aircraft hull and liability loss and for the next \$650,000 of each airport liability loss; and
 - o Other risks with liability limits greater than \$1.0 million are placed in a quota share treaty where we retain 20% of incurred losses.
 - Excess & Umbrella. Effective July 1, 2009, in states where we offer admitted policies, we directly insure policies written by our Excess & Umbrella business unit and reinsure a portion of the risk with third party carriers. In states where we offer non-admitted policies, our Excess & Umbrella business unit writes policies under fronting arrangements pursuant to which we assume all of the risk and then retrocede a portion of the risk to third party reinsurers. We reinsure or retrocede 79% of the risk on policies written by our Excess & Umbrella business unit. Through June 30, 2009, our Excess & Umbrella business unit wrote policies under a fronting arrangement pursuant to which we assumed 35% of the risk.
- Hallmark County Mutual. HCM is used to front certain lines of business in our Specialty Commercial and Personal Segments in Texas where we previously produced policies for third party county mutual insurance companies and reinsured 100% for a fronting fee. In addition, HCM is used to front business produced by unaffiliated third parties. HCM does not retain any business.

10. Note Payable

On January 27, 2006, we borrowed \$15.0 million under our revolving credit facility to fund the cash required to close the acquisition of the subsidiaries comprising our E&S Commercial business unit. As of June 30, 2010, the balance on the revolving note was \$2.8 million, which currently bears interest at 3.03% per annum. (See Note 12, "Credit Facilities.")

11. Subordinated Debt Securities

On June 21, 2005, we entered into a trust preferred securities transaction pursuant to which we issued \$30.9 million aggregate principal amount of subordinated debt securities due in 2035. To effect the transaction, we formed Trust I as a Delaware statutory trust. Trust I issued \$30.0 million of preferred securities to investors and \$0.9 million of common securities to us. Trust I used the proceeds from these issuances to purchase the subordinated debt securities. Our Trust I subordinated debt securities bear an initial interest rate of 7.725% until June 15, 2015, at which time interest will adjust quarterly to the three-month LIBOR rate plus 3.25 percentage points. Trust I pays dividends on its preferred securities at the same rate. Under the terms of our Trust I subordinated debt securities, we pay interest only each quarter and the principal of the note at maturity. The subordinated debt securities are uncollateralized and do not require maintenance of minimum financial covenants. As of June 30, 2010, the balance of our Trust I subordinated debt was \$30.9 million.

On August 23, 2007, we entered into a trust preferred securities transaction pursuant to which we issued \$25.8 million aggregate principal amount of subordinated debt securities due in 2037. To effect the transaction, we formed Trust II as a Delaware statutory trust. Trust II issued \$25.0 million of preferred securities to investors and \$0.8 million of common securities to us. Trust II used the proceeds from these issuances to purchase the subordinated debt securities. Our Trust II subordinated debt securities bear an initial interest rate of 8.28% until September 15, 2017, at which time interest will adjust quarterly to the three-month LIBOR rate plus 2.90 percentage points. Trust II pays dividends on its preferred securities at the same rate. Under the terms of our Trust II subordinated debt securities, we pay interest only each quarter and the principal of the note at maturity. The subordinated debt securities are uncollateralized and do not require maintenance of minimum financial covenants. As of June 30, 2010, the balance of our Trust II subordinated debt was \$25.8 million.

12. Credit Facilities

Our First Restated Credit Agreement with The Frost National Bank dated January 27, 2006 was most recently amended effective May 27, 2010 to extend the term of the facility until May 27, 2012, provide for the repayment of all amounts outstanding at termination on or before April 30, 2015, reduce the revolving commitment to \$5.0 million from \$25.0 million and eliminate the credit sub-facility for premium finance operations. This amendment further revised various affirmative and negative covenants and changed the interest rate, at our election, to either the prime rate or LIBOR plus 2.5%. We pay an annual average fee of 0.25% of the average daily unused balance of the credit facility. We pay letter of credit fees at the rate of 1.00% per annum. Our obligations under the revolving credit facility are secured by a security interest in the capital stock of all of our subsidiaries, guarantees of all of our subsidiaries and the pledge of all of our non-insurance company assets. The revolving credit facility contains covenants that, among other things, require us to maintain certain financial and operating ratios and restrict certain distributions, transactions and organizational changes. As of June 30, 2010, we were in compliance with or had obtained waivers of all of our covenants. As of June 30, 2010, we had \$2.8 million outstanding under this facility.

13. Deferred Policy Acquisition Costs

The following table shows total deferred and amortized policy acquisition cost activity by period (in thousands):

	Three Months Ended June 30,		Six Months Ended June 30,	
	2010	2009	2010	2009
Deferred	\$ (11,842)	\$ (15,559)	\$ (27,697)	\$ (31,085)
Amortized	11,304	13,129	25,753	27,177
Net	\$ (538)	\$ (2,430)	\$ (1,944)	\$ (3,908)

14. Earnings per Share

The following table sets forth basic and diluted weighted average shares outstanding for the periods indicated (in thousands):

	Three Months Ended June 30,		Six Months Ended June 30,	
	2010	2009	2010	2009
Weighted average shares - basic	20,124	20,864	20,122	20,860
Effect of dilutive securities	132	12	52	15
Weighted average shares - assuming dilution	20,256	20,876	20,174	20,875

For the three months and six months ended June 30, 2010, 899,166 shares of common stock potentially issuable upon the exercise of employee stock options were excluded from the weighted average number of shares outstanding on a diluted basis because the effect of such options would be anti-dilutive. For the three months and six months ended June 30, 2009, 987,499 shares of common stock potentially issuable upon the exercise of employee stock options were excluded from the weighted average number of shares outstanding on a diluted basis because the effect of such options would be anti-dilutive.

15. Net Periodic Pension Cost

The following table details the net periodic pension cost incurred by period (in thousands):

	Three Months Ended June 30,		Six Months Ended June 30,	
	2010	2009	2010	2009
Interest cost	\$ 163	\$ 161	\$ 325	\$ 322
Amortization of net loss	56	122	112	244
Expected return on plan assets	(137)	(121)	(273)	(242)
Net periodic pension cost	\$ 82	\$ 162	\$ 164	\$ 324

We contributed \$94 thousand to our frozen defined benefit cash balance plan (“Cash Balance Plan”) during the three months and six months ended June 30, 2010. We did not make any contributions to the Cash Balance Plan during the three months and six months ended June 30, 2009. Refer to Note 13 to the consolidated financial statements in our Annual Report on Form 10-K for the year ended December 31, 2009 for more discussion of our retirement plans.

16. Income Taxes

Our effective income tax rate for the six months ended June 30, 2010 was 24.6%, which varied from the statutory income tax rate utilized primarily due to the increase in the tax exempt income effect relative to lower pre-tax income and the recognition of a tax benefit related to the disposal of certain securities. Our effective income tax rate for the six months ended June 30, 2009 was 27.4%, which varied from the statutory income tax rate utilized primarily because of our investments in tax exempt securities and a reduction in the valuation allowance.

17. Commitments and Contingencies

We are engaged in legal proceedings in the ordinary course of business, none of which, either individually or in the aggregate, are believed likely to have a material adverse effect on our consolidated financial position or results of operations, in the opinion of management. The various legal proceedings to which we are a party are routine in nature and incidental to our business.

18. Subsequent Event

On August 9, 2010 we announced the execution of an agreement for our wholly-owned subsidiary, HIC, to acquire State Auto National Insurance Company (“SAN”) from State Auto Financial Corporation. SAN is an Ohio domiciled insurance company which writes non-standard personal automobile policies through independent agents in 21 states. Closing of the acquisition is subject to regulatory approval and other customary closing conditions.

The purchase price for the acquisition will be \$14.0 million cash at closing plus an earn-out of up to \$2.0 million. We expect to fund the acquisition out of working capital. The cash portion of the purchase price is subject to post-closing adjustment to the extent the statutory capital and surplus of SAN is greater or less than \$10.0 million. The earn-out is payable quarterly in an amount equal to 2% of gross collected premiums on new or renewal personal lines insurance policies written by SAN agents during the three years following closing. In connection with the closing, SAN will enter into reinsurance agreements with an affiliate of the seller pursuant to which the affiliate will handle all claims and assume all liabilities arising under policies issued by SAN prior to the closing and during a transition period of up to six months following the closing.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations.

The following discussion should be read together with our consolidated financial statements and the notes thereto. This discussion contains forward-looking statements. Please see "Risks Associated with Forward-Looking Statements in this Form 10-Q" for a discussion of some of the uncertainties, risks and assumptions associated with these statements.

Introduction

Hallmark Financial Services, Inc. ("Hallmark" and, together with subsidiaries, "we," "us" or "our") is an insurance holding company that, through its subsidiaries, engages in the sale of property/casualty insurance products to businesses and individuals. Our business involves marketing, distributing, underwriting and servicing commercial insurance, personal insurance and general aviation insurance, as well as providing other insurance related services. Our business is geographically concentrated in the southcentral and northwest regions of the United States, except for our General Aviation and Excess & Umbrella business, which is written on a national basis. We pursue our business activities through subsidiaries whose operations are organized into five business units, which are supported by our four insurance company subsidiaries.

Our non-carrier insurance activities are segregated by business units into the following reportable segments:

- **Standard Commercial Segment.** Our Standard Commercial Segment includes the standard lines commercial property/casualty insurance products and services handled by our Standard Commercial business unit (formerly known as our AHIS Operating Unit).
- **Specialty Commercial Segment.** Our Specialty Commercial Segment includes the excess and surplus lines commercial property/casualty insurance products and services handled by our E&S Commercial business unit (formerly known as our TGA Operating Unit), the general aviation insurance products and services handled by our General Aviation business unit (formerly known as our Aerospace Operating Unit), and the low and middle market commercial umbrella and excess liability insurance products handled by our Excess & Umbrella business unit (formerly known as our Heath XS Operating Unit).
- **Personal Segment.** Our Personal Segment includes the non-standard personal automobile insurance and complementary personal insurance products and services handled by our Personal Lines business unit (formerly known as our Personal Lines Operating Unit).

The retained premium produced by our business units is supported by the following insurance company subsidiaries:

- American Hallmark Insurance Company of Texas (“AHIC”) presently retains all of the risks on the commercial property/casualty policies marketed within the Standard Commercial Segment, retains a portion of risks on the personal policies marketed within the Personal Segment and assumes a portion of the risks on the commercial and aviation property/casualty policies marketed within the Specialty Commercial Segment.
- Hallmark Specialty Insurance Company (“HSIC”) presently retains a portion of the risks on the commercial property/casualty policies marketed within the Specialty Commercial Segment.
- Hallmark Insurance Company (“HIC”) presently retains a portion of the risks on both the personal policies marketed within the Personal Segment and commercial and aviation property/casualty products marketed within the Specialty Commercial Segment.
- Hallmark County Mutual Insurance Company (“HCM”) control and management was acquired effective June 5, 2009 through the acquisition of all of the issued and outstanding shares of CYR Insurance Management Company (“CYR”). CYR has as its primary asset a management agreement with HCM, which provides for CYR to have management and control of HCM. HCM is used to front certain lines of business in our Specialty Commercial and Personal Segments in Texas where we previously produced policies for third party county mutual insurance companies and reinsured 100% for a fronting fee. HCM does not retain any business.

AHIC, HSIC, and HIC have entered into a pooling arrangement pursuant to which AHIC retains 46% of the total net premiums written by all of our business units, HIC retains 34% of our total net premiums written and HSIC retains 20% of our total net premiums written. This pooling arrangement has no impact on our consolidated financial statements reported in accordance with U.S. generally accepted accounting principles (“GAAP”).

Results of Operations

Management Overview. During the three and six months ended June 30, 2010, our total revenues were \$75.7 million and \$151.5 million, representing a 7% increase from the \$70.7 million and \$141.7 million in total revenues for the same periods of 2009. This increase in revenue was primarily attributable to increased earned premium due to increased production by our Personal Segment and gains realized on our investment portfolio. These increases in revenue were partially offset by reduced earned premium in our Standard Commercial Segment due to the deterioration of the general economic environment in our major markets.

We reported a net loss attributable to Hallmark of \$0.4 million and net income attributable to Hallmark of \$5.9 million for the three and six months ended June 30, 2010, respectively, which was \$4.7 million and \$5.2 million lower than the \$4.3 million and \$11.1 million net income attributable to Hallmark reported for the same periods of 2009. On a diluted basis per share, net loss was \$0.02 per share and net income was \$0.29 per share for the three and six months ended June 30, 2010, respectively, as compared to net income of \$0.20 and \$0.53 per share for the same periods in 2009. The decrease in net income for the three and six months ending June 30, 2010 was primarily due to increased loss and loss adjustment expenses (“LAE”), including unfavorable prior year loss development of \$4.3 million and \$6.5 million recognized during the three and six months ended June 30, 2010, respectively, as compared to \$1.8 million unfavorable development recognized for the three and six months ended June 30, 2009. Partially offsetting the increased loss and LAE was the increase in revenue for the three and six months ending June 30, 2010, as well as lower operating expenses due to lower production related expenses in our E&S Commercial and General Aviation business units and lower information technology costs in our Standard Commercial Segment. The Company’s effective income tax rate for the six months ending June 30, 2010 was 24.6% as compared to the 27.4% effective income tax rate for the same period during 2009. The decrease in the effective tax rate was primarily due to the increase in the tax exempt income effect relative to lower pre-tax income and the recognition of a tax benefit related to the disposal of certain securities.

Second Quarter 2010 as Compared to Second Quarter 2009

The following is additional business segment information for the three months ended June 30, 2010 and 2009 (in thousands):

Hallmark Financial Services, Inc.
Consolidated Segment Data

	Three Months Ended June 30, 2010				
	Standard Commercial Segment	Specialty Commercial Segment	Personal Segment	Corporate	Consolidated
Produced premium (1)	\$ 18,804	\$ 40,351	\$ 22,613	\$ -	\$ 81,768
Gross premiums written	18,792	41,775	22,613	-	83,180
Ceded premiums written	(909)	(9,123)	(15)	-	(10,047)
Net premiums written	17,883	32,652	22,598	-	73,133
Change in unearned premiums	(1,246)	(2,036)	97	-	(3,185)
Net premiums earned	16,637	30,616	22,695	-	69,948
Total revenues	17,265	32,124	24,754	1,544	75,687
Losses and loss adjustment expenses	13,652	21,231	17,175	-	52,058
Pre-tax income (loss), net of non-controlling interest	(1,870)	967	1,132	(1,570)	(1,341)
Net loss ratio (2)	82.1%	69.3%	75.7%		74.4%
Net expense ratio (2)	32.5%	29.5%	22.5%		30.1%
Net combined ratio (2)	114.6%	98.8%	98.2%		104.5%

	Three Months Ended June 30, 2009				
	Standard Commercial Segment	Specialty Commercial Segment	Personal Segment	Corporate	Consolidated
Produced premium (1)	\$ 20,425	\$ 40,252	\$ 16,918	\$ -	\$ 77,595
Gross premiums written	20,425	37,710	16,918	-	75,053
Ceded premiums written	(1,084)	(2,176)	-	-	(3,260)
Net premiums written	19,341	35,534	16,918	-	71,793
Change in unearned premiums	(1,614)	(8,158)	298	-	(9,474)
Net premiums earned	17,727	27,376	17,216	-	62,319
Total revenues	18,194	32,430	18,701	1,419	70,744

Losses and loss adjustment expenses	11,119	15,848	11,164	-	38,131
Pre-tax income (loss), net of non-controlling interest	1,247	5,010	2,894	(2,357)	6,794
Net loss ratio (2)	62.7%	57.9%	64.8%		61.2%
Net expense ratio (2)	32.1%	30.2%	20.7%		30.5%
Net combined ratio (2)	94.8%	88.1%	85.5%		91.7%

(1) Produced premium is a non-GAAP measurement that management uses to track total premium produced by our operations. Produced premium excludes unaffiliated third party premium fronted on our recently acquired HCM subsidiary. We believe this is a useful tool for users of our financial statements to measure our premium production whether retained by our insurance company subsidiaries or assumed by third party insurance carriers who pay us commission revenue.

(2) The net loss ratio is calculated as incurred losses and LAE divided by net premiums earned, each determined in accordance with GAAP. The net expense ratio is now calculated for our business units that retain 100% of produced premium as total operating expenses for the unit offset by agency fee income divided by net premiums earned, each determined in accordance with GAAP. For the business units that do not retain 100% of the produced premium, the net expense ratio is calculated as underwriting expenses of the insurance company subsidiaries for the unit offset by agency fee income, divided by net premiums earned, each determined in accordance with GAAP. Net combined ratio is calculated as the sum of the net loss ratio and the net expense ratio.

Standard Commercial Segment

Gross premiums written for the Standard Commercial Segment were \$18.8 million for the three months ended June 30, 2010, which was \$1.6 million, or 8%, less than the \$20.4 million reported for the same period in 2009. Net premiums written were \$17.9 million for the three months ended June 30, 2010 as compared to \$19.3 million reported for the same period in 2009. The decrease in premium volume was predominately due to the deterioration of the general economic environment, particularly in the construction industry, reducing the available insured exposures.

Total revenue for the Standard Commercial Segment of \$17.3 million for the three months ended June 30, 2010 was \$0.9 million less than the \$18.2 million reported during the same period in 2009. This 5% decrease in total revenue was mostly due to decreased net premiums earned of \$1.1 million.

Our Standard Commercial Segment reported a pre-tax loss of \$1.9 million for the three months ended June 30, 2010 as compared to pre-tax income of \$1.2 million for the same period of 2009. Higher loss and LAE expenses of \$2.5 million, primarily as a result of weather related losses and unfavorable prior year development, and decreased revenue were the primary drivers of the pre-tax loss for the three months ended June 30, 2010. Partially offsetting the decline in pre-tax results were lower operating expenses of \$0.3 million driven by lower information technology costs and lower production related expenses.

The Standard Commercial Segment reported a net loss ratio of 82.1% for the three months ended June 30, 2010 as compared to 62.7% for 2009. The gross loss ratio before reinsurance for the three months ended June 30, 2010 was 91.4% as compared to the 59.6% reported for the same period of 2009. The higher gross and net loss ratio for the three months ended June 30, 2010 was impacted by an increased number of large property losses including weather related losses. The loss and LAE during the three months ended June 30, 2010 for the Standard Commercial Segment included unfavorable loss reserve development of \$1.1 million as compared to favorable development of \$0.5 million for the same period in 2009.

Specialty Commercial Segment

The \$32.1 million of total revenue for the Specialty Commercial Segment during the three months ended June 30, 2010 was \$0.3 million lower than the \$32.4 million reported for the same period in 2009. This decrease in revenue was primarily comprised of lower commission and fee income of \$3.8 million primarily related to the shift from a third party agency structure to an insurance underwriting structure. This decrease was partially offset by increased net premiums earned of \$3.2 million as a result of the increased retention of business in our E&S Commercial business unit and increased earned premium in our Excess & Umbrella business unit, as well as increased net investment income of \$0.4 million.

Pre-tax income for the Specialty Commercial Segment of \$1.0 million for the second quarter of 2010 was \$4.0 million lower than the \$5.0 million reported for the same period in 2009. The decrease in pre-tax income was primarily due to higher loss and LAE expenses of \$5.4 million primarily as a result of unfavorable prior loss development as well as higher current accident year loss estimates and decreased revenue. This increase in loss and LAE was partially offset by lower operating expenses of \$1.7 million. The decrease in operating expense was the combined result of (i) increased quota share ceding commission of \$1.6 million in our Excess & Umbrella business unit, (ii) lower other production related expenses of \$0.3 million, partially offset by (iii) higher salary related expenses of \$0.1 million, and (iv) increased amortization of intangible assets of \$0.2 million related to our acquisition of CYR on June 5, 2009.

The Specialty Commercial Segment reported a net loss ratio of 69.3% for the three months ended June 30, 2010 as compared to 57.9% for the same period during 2009. The gross loss ratio before reinsurance was 67.0% for the three months ended June 30, 2010 as compared to 59.2% for the same period during 2009. The higher gross and net loss ratio was impacted by (i) late emerging general liability claims and (ii) increased volatility in large liability losses and weather related commercial automobile claims in the current accident year. During the three months ended June 30, 2010 the Specialty Commercial Segment also reported \$2.5 million of unfavorable prior year loss development as compared to \$2.7 million for the same period during 2009.

Personal Segment

Net premiums written for our Personal Segment increased \$5.7 million during the second quarter of 2010 to \$22.6 million as compared to \$16.9 million for the second quarter of 2009. The increase in premium was due mostly to continued geographic expansion.

Total revenue for the Personal Segment increased 32% to \$24.8 million for the second quarter of 2010 from \$18.7 million for the second quarter of 2009. Higher earned premium of \$5.5 million was the primary reason for the increase in revenue for the period. Increased finance charges and net investment income of \$0.4 million and \$0.1 million, respectively, further contributed to the increase in revenue during the second quarter of 2010.

Pre-tax income for the Personal Segment was \$1.1 million for the three months ended June 30, 2010 as compared to \$2.9 million for the same period of 2009. Increased revenue was offset by increased losses and LAE of \$6.0 million and increased operating expenses of \$1.8 million due mostly to increased production and salary expense related to continued geographic expansion.

The Personal Segment reported a net loss ratio of 75.7% for the three months ended June 30, 2010 as compared to 64.8% for the second quarter of 2009. The increase in the net loss ratio was due primarily to continued geographic expansion as the resulting growth has created a larger portion of new and maturing business as compared to our mature legacy business. Our current accident year loss ratio reflects the near term loss ratio penalty associated with this change in mix of seasoned versus less seasoned business. During the three months ended June 30, 2010, the Personal Segment reported \$0.7 million of unfavorable prior loss development driven mostly by legal expense related to a 2001 bad faith claim as compared to \$0.3 million favorable prior year development reported for the same period in 2009.

Corporate

Total revenue for Corporate increased by \$0.1 million for the three months ended June 30, 2010 as compared to the same period the prior year. This increase in total revenue was due primarily to gains of \$1.6 million recognized on our investment portfolio for the three months ended June 30, 2010 as compared to gains of \$0.9 million recognized during the same period in 2009. This increase in revenue was offset by lower net investment income of \$0.6 million for the three months ended June 30, 2010 as compared to the same period of the prior year.

Corporate pre-tax loss was \$1.6 million for the three months ended June 30, 2010 as compared to a \$2.4 million pre-tax loss for the same period the prior year. The decrease in pre-tax loss was the result of the increased revenue as well as lower operating expenses of \$0.7 million due predominately to lower non-cash compensation expense of \$0.4 million related to lower stock option expense to directors and lower pension costs. Also contributing to the lower operating expenses was \$0.4 million related to advances for a cancelled start-up program during the second quarter of 2009.

Edgar Filing: HALLMARK FINANCIAL SERVICES INC - Form 10-Q

Six Months Ended June 30, 2010 as Compared to Six Months Ended June 30, 2009

The following is additional business segment information for the six months ended June 30, 2010 and 2009 (in thousands):

Hallmark Financial Services, Inc.
Consolidated Segment Data

	Six Months Ended June 30, 2010				
	Standard Commercial Segment	Specialty Commercial Segment	Personal Segment	Corporate	Consolidated
Produced premium (1)	\$ 36,901	\$ 75,633	\$ 49,744	\$ -	\$ 162,278

Ceded premiums written	(1,945)	(17,147)	(19)	-	(19,111)
Net premiums written	34,944	61,259	49,725	-	145,928
Change in unearned premiums	(1,426)	80	(7,619)	-	(8,965)
Net premiums earned	33,518	61,339	42,106	-	136,963
Total revenues	35,299	64,611	45,968	5,632	151,510
Losses and loss adjustment expenses	27,268	37,627	30,261	-	95,156
Pre-tax income (loss), net of non-controlling interest	(2,809)	7,314	3,782	(452)	7,835
Net loss ratio (2)	81.4%	61.3%	71.9%		69.5%
Net expense ratio (2)	31.7%	28.8%	22.1%		29.5%
Net combined ratio (2)	113.1%	90.1%	94.0%		99.0%

	Six Months Ended June 30, 2009				
	Standard Commercial Segment	Specialty Commercial Segment	Personal Segment	Corporate	Consolidated
Produced premium (1)	\$ 39,572	\$ 74,534	\$ 37,544	\$ -	\$ 151,650
Gross premiums written	39,572	69,416	37,544	-	146,532
Ceded premiums written	(2,187)	(3,305)	-	-	(5,492)
Net premiums written	37,385	66,111	37,544	-	141,040
Change in unearned premiums	(1,208)	(13,784)	(4,299)	-	(19,291)
Net premiums earned	36,177	52,327	33,245	-	121,749
Total revenues	38,214	65,255	36,236	1,949	141,654

Losses and loss adjustment expenses	22,465	30,781	21,727	-	74,973
Pre-tax income (loss), net of non-controlling interest	3,823	10,692	5,513	(4,782)	15,246
Net loss ratio (2)	62.1%	58.8%	65.4%		61.6%
Net expense ratio (2)	32.2%	30.1%	20.9%		30.6%
Net combined ratio (2)	94.3%	88.9%	86.3%		92.2%

(1) Produced premium is a non-GAAP measurement that management uses to track total premium produced by our operations. Produced premium excludes unaffiliated third party premium fronted on our recently acquired HCM subsidiary. We believe this is a useful tool for users of our financial statements to measure our premium production whether retained by our insurance company subsidiaries or assumed by third party insurance carriers who pay us commission revenue.

(2) The net loss ratio is calculated as incurred losses and LAE divided by net premiums earned, each determined in accordance with GAAP. The net expense ratio is calculated for our business units that retain 100% of produced premium as total operating expenses for the unit offset by agency fee income divided by net premiums earned, each determined in accordance with GAAP. For the business units that do not retain 100% of the produced premium, the net expense ratio is calculated as underwriting expenses of the insurance company subsidiaries for the unit offset by agency fee income, divided by net premiums earned, each determined in accordance with GAAP. Net combined ratio is calculated as the sum of the net loss ratio and the net expense ratio.

Standard Commercial Segment

Gross premiums written for the Standard Commercial Segment were \$36.9 million for the six months ended June 30, 2010, which was \$2.7 million, or 7%, less than the \$39.6 million reported for the same period in 2009. Net premiums written were \$34.9 million for the six months ended June 30, 2010 as compared to \$37.4 million reported for the same period in 2009. The decrease in premium volume was predominately due to the deterioration of the general economic environment, particularly in the construction industry, reducing the available insured exposures.

Total revenue for the Standard Commercial Segment of \$35.3 million for the six months ended June 30, 2010 was \$2.9 million less than the \$38.2 million reported during the same period in 2009. This 8% decrease in total revenue was mostly due to decreased net premiums earned of \$2.7 million.

Our Standard Commercial Segment reported a pre-tax loss of \$2.8 million for the six months ended June 30, 2010 as compared to pre-tax income of \$3.8 million for the same period of 2009. Higher loss and LAE expenses of \$4.8 million, primarily as a result of weather related losses and unfavorable prior year development, and decreased revenue contributed to this pre-tax loss reported for the six months ended June 30, 2010. Partially offsetting the decline in results were lower operating expenses of \$1.1 million driven by lower information technology costs and lower production related expenses.

The Standard Commercial Segment reported a net loss ratio of 81.4% for the six months ended June 30, 2010 as compared to 62.1% for 2009. The gross loss ratio before reinsurance for the six months ended June 30, 2010 was 84.7% as compared to the 61.0% reported for the same period of 2009. The higher gross and net loss ratio for the six months ended June 30, 2010 was impacted by an increased number of large property losses including weather related losses. Further contributing to the higher gross and net loss ratio during the six months ended June 30, 2010 was unfavorable loss reserve development of \$3.3 million, as compared to favorable development of \$0.5 million for the same period during 2009.

Specialty Commercial Segment

The \$64.6 million of total revenue for the Specialty Commercial Segment during the six months ended June 30, 2010 was \$0.7 million lower than the \$65.3 million reported for the same period in 2009. This decrease in revenue was primarily comprised of lower commission and fee income of \$9.9 million primarily related to the shift from a third party agency structure to an insurance underwriting structure. Decreased finance charges of \$0.2 million further contributed to this decrease in revenue. This decrease in revenue was partially offset by increased net premiums earned of \$9.0 million as a result of the increased retention of business in our E&S Commercial business unit and increased earned premium in our Excess & Umbrella business unit and increased net investment income of \$0.4 million.

Pre-tax income for the Specialty Commercial Segment of \$7.3 million for the first six months of 2010 was \$3.4 million lower than the \$10.7 million reported for the same period in 2009. The decrease in pre-tax income was primarily due to decreased revenue and higher loss and LAE expenses of \$6.8 million. The decrease in pre-tax income was partially offset by lower operating expenses of \$4.3 million. The decrease in operating expense was the combined result of (i) increased quota share ceding commission of \$3.0 million in our Excess & Umbrella business unit, (ii) lower other production related expenses of \$1.3 million, and (iii) lower salary related expenses of \$0.2 million, partially offset by (iv) increased amortization of intangible assets of \$0.2 million related to our acquisition of CYR on June 5, 2009.

The Specialty Commercial Segment reported a net loss ratio of 61.3% for the six months ended June 30, 2010 as compared to 58.8% for the same period during 2009. The higher net loss ratio was impacted by (i) late emerging general liability claims and (ii) increased volatility in large liability losses and weather related commercial automobile claims in the current accident year. The Specialty Commercial Segment reported \$2.5 million of unfavorable prior year development for the six months ended June 30, 2010 as compared to \$2.7 million of unfavorable development for the same period during 2009.

Personal Segment

Net premiums written for our Personal Segment increased \$12.2 million during the first six months of 2010 to \$49.7 million compared to \$37.5 million for the first six months of 2009. The increase in premium was due mostly to continued geographic expansion.

Total revenue for the Personal Segment increased 27% to \$46.0 million for the first six months of 2010 from \$36.2 million for the first six months of 2009. Higher earned premium of \$8.9 million was the primary reason for the increase in revenue for the period. Increased finance charges of \$0.8 million further contributed to the increase in revenue during the first six months of 2010.

Pre-tax income for the Personal Segment was \$3.8 million for the six months ended June 30, 2010 as compared to \$5.5 million for the same period of 2009. Increased revenue was offset by increased losses and LAE of \$8.5 million and increased operating expenses of \$2.9 million due mostly to increased production and salary expense related to continued geographic expansion.

The Personal Segment reported a net loss ratio of 71.9% for the six months ended June 30, 2010 as compared to 65.4% for the same period of 2009. The increase in the net loss ratio was due primarily to continued geographic expansion as the resulting growth has created a larger portion of new and maturing business as compared to our mature legacy business. Our current accident year loss ratio reflects the near term loss ratio penalty associated with this change in mix of seasoned versus less seasoned business. During the six months ended June 30, 2010, the Personal Segment reported \$0.7 million of unfavorable prior loss development driven mostly by legal expense related to a 2001 bad faith claim as compared to \$0.3 million favorable prior year development reported for the same period in 2009.

Corporate

Total revenue for Corporate increased by \$3.7 million for the six months ended June 30, 2010 as compared to the same period the prior year. This increase in total revenue was due primarily to gains of \$5.4 million recognized on our investment portfolio for the six months ended June 30, 2010 as compared to \$0.5 million of gains recognized during the same period in 2009. This increase in revenue was offset by lower net investment income of \$1.2 million for the six months ended June 30, 2010 as compared to the same period of the prior year.

Corporate pre-tax loss was \$0.5 million for the six months ended June 30, 2010 as compared to a \$4.8 million pre-tax loss for the same period the prior year. The decrease in pre-tax loss was the result of increased revenue, as well as lower operating expenses of \$0.7 million due predominately to lower non-cash compensation expense of \$0.5 million related to lower stock option expense to directors and lower pension costs. Also contributing to the lower operating expenses were \$0.4 million related to advances for a cancelled start up program during the first six months of 2009.

Financial Condition and Liquidity

Sources and Uses of Funds

Our sources of funds are from insurance-related operations, financing activities and investing activities. Major sources of funds from operations include premiums collected (net of policy cancellations and premiums ceded), commissions, and processing and service fees. As a holding company, Hallmark is dependent on dividend payments and management fees from its subsidiaries to meet operating expenses and debt obligations. As of June 30, 2010, Hallmark had \$13.5 million in unrestricted cash and invested assets at the holding company. Unrestricted cash and invested assets of our non-insurance subsidiaries were \$1.3 million as of June 30, 2010.

AHIC, domiciled in Texas, is limited in the payment of dividends in any 12-month period, without the prior written consent of the Texas Department of Insurance, to the greater of statutory net income for the prior calendar year or 10% of statutory surplus as of the prior year end. Dividends may only be paid from unassigned surplus funds. HIC, domiciled in Arizona, is limited in the payment of dividends to the lesser of 10% of prior year surplus or prior year's net investment income, without prior written approval from the Arizona Department of Insurance. HSIC, domiciled in Oklahoma, is limited in the payment of dividends to the greater of 10% of prior year surplus or prior year's statutory net income, not including realized capital gains, without prior written approval from the Oklahoma Insurance Department. During 2010, our insurance company subsidiaries' ordinary dividend capacity is \$19.4 million, of which \$15.9 million is available to Hallmark. As a county mutual, dividends from HCM are payable to policyholders. None of our insurance company subsidiaries paid a dividend to Hallmark during the first six months of 2010 or the 2009 fiscal year.

Comparison of June 30, 2010 to December 31, 2009

On a consolidated basis, our cash and investments (excluding restricted cash) at June 30, 2010 were \$480.9 million compared to \$439.9 million at December 31, 2009. An increase in the fair market value of our investment portfolio for the period and cash from operating activities were the primary reasons for this increase.

Comparison of Six Months Ended June 30, 2010 and June 30, 2009

Net cash provided by our consolidated operating activities was \$17.4 million for the first six months of 2010 compared to \$28.8 million for the first six months of 2009. The decrease in operating cash flow was primarily due to higher paid losses and lower collected ceding commissions, partially offset by more collected premiums.

Net cash used in investing activities during the first six months of 2010 was \$54.4 million as compared to \$3.4 million for the same period in 2009. Contributing to the increase in cash used in investing activities were an increase of \$87.5 million in purchases of debt and equity securities, a \$0.2 million increase in purchases of property and equipment and a higher net transfer into restricted cash of \$3.4 million, partially offset by (i) a \$32.9 million increase in maturities, sales and redemptions of investment securities during 2010, (ii) a \$3.3 million payment of contingent consideration during the first quarter 2009 to the sellers of the subsidiaries comprising our E&S Commercial business unit, and (iii) a cash payment of \$3.9 million during the second quarter of 2009, net of cash acquired, for the acquisition of a management agreement controlling HCM.

Cash used in financing activities during the first six months of 2010 was \$0.1 million as compared to \$1.3 million for the same period of 2009. The cash used during the first six months of 2009 was primarily for the payment of a note payable by our premium finance operation.

Credit Facilities

Our First Restated Credit Agreement with The Frost National Bank was most recently amended effective May 27, 2010 to extend the term of the facility until May 27, 2012, provide for the repayment of all amounts outstanding at termination on or before April 30, 2015, reduce the revolving commitment to \$5.0 million from \$25.0 million and eliminate the credit sub-facility for premium finance operations. This amendment further revised various affirmative and negative covenants and changed the interest rate, at our election, to either the prime rate or LIBOR plus 2.5%. We pay an annual average fee of 0.25% of the average daily unused balance of the credit facility. We pay letter of credit fees at the rate of 1.00% per annum. Our obligations under the revolving credit facility are secured by a security interest in the capital stock of all of our subsidiaries, guarantees of all of our subsidiaries and the pledge of all of our non-insurance company assets. The revolving credit facility contains covenants that, among other things, require us to maintain certain financial and operating ratios and restrict certain distributions, transactions and organizational changes. As of June 30, 2010, we were in compliance with or had obtained waivers of all of our covenants. As of June 30, 2010, we had \$2.8 million outstanding under this facility.

Trust Preferred Securities

On June 21, 2005, we entered into a trust preferred securities transaction pursuant to which we issued \$30.9 million aggregate principal amount of subordinated debt securities due in 2035. To effect the transaction, we formed a Delaware statutory trust, Hallmark Statutory Trust I ("Trust I"). Trust I issued \$30.0 million of preferred securities to investors and \$0.9 million of common securities to us. Trust I used the proceeds from these issuances to purchase the subordinated debt securities. Our Trust I subordinated debt securities bear an initial interest rate of 7.725% until June 15, 2015, at which time interest will adjust quarterly to the three-month LIBOR rate plus 3.25 percentage points. Trust I pays dividends on its preferred securities at the same rate. Under the terms of our Trust I subordinated debt securities, we pay interest only each quarter and the principal of the note at maturity. The subordinated debt securities are uncollateralized and do not require maintenance of minimum financial covenants. As of June 30, 2010, the balance of our Trust I subordinated debt was \$30.9 million.

On August 23, 2007, we entered into a trust preferred securities transaction pursuant to which we issued \$25.8 million aggregate principal amount of subordinated debt securities due in 2037. To effect the transaction, we formed a Delaware statutory trust, Hallmark Statutory Trust II ("Trust II"). Trust II issued \$25.0 million of preferred securities to investors and \$0.8 million of common securities to us. Trust II used the proceeds from these issuances to purchase the subordinated debt securities. Our Trust II subordinated debt securities bear an initial interest rate of 8.28% until September 15, 2017, at which time interest will adjust quarterly to the three-month LIBOR rate plus 2.90 percentage points. Trust II pays dividends on its preferred securities at the same rate. Under the terms of our Trust II subordinated debt securities, we pay interest only each quarter and the principal of the note at maturity. The subordinated debt securities are uncollateralized and do not require maintenance of minimum financial covenants. As of June 30, 2010, the balance of our Trust II subordinated debt was \$25.8 million.

Item 3. Quantitative and Qualitative Disclosures About Market Risk.

This Item is omitted as permitted for a “smaller reporting company” (as defined by the SEC).

Item 4T. Controls and Procedures.

The principal executive officer and principal financial officer of Hallmark have evaluated our disclosure controls and procedures and have concluded that, as of the end of the period covered by this report, such disclosure controls and procedures were effective in ensuring that information required to be disclosed by us in the reports that we file or submit under the Securities Exchange Act of 1934 is timely recorded, processed, summarized and reported. The principal executive officer and principal financial officer also concluded that such disclosure controls and procedures were effective in ensuring that information required to be disclosed by us in the reports that we file or submit under such Act is accumulated and communicated to our management, including our principal executive officer and principal financial officer, as appropriate, to allow timely decisions regarding required disclosure. During the most recent fiscal quarter, there have been no changes in our internal controls over financial reporting that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

Risks Associated with Forward-Looking Statements Included in this Form 10-Q

This Form 10-Q contains certain forward-looking statements within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934, which are intended to be covered by the safe harbors created thereby. These statements include the plans and objectives of management for future operations, including plans and objectives relating to future growth of our business activities and availability of funds. The forward-looking statements included herein are based on current expectations that involve numerous risks and uncertainties. Assumptions relating to the foregoing involve judgments with respect to, among other things, future economic, competitive and market conditions, regulatory framework, weather-related events and future business decisions, all of which are difficult or impossible to predict accurately and many of which are beyond our control. Although we believe that the assumptions underlying the forward-looking statements are reasonable, any of the assumptions could be inaccurate and, therefore, there can be no assurance that the forward-looking statements included in this Form 10-Q will prove to be accurate. In light of the significant uncertainties inherent in the forward-looking statements included herein, the inclusion of such information should not be regarded as a representation by us or any other person that our objectives and plans will be achieved.

PART II
OTHER INFORMATION

Item 1. Legal Proceedings.

We are engaged in legal proceedings in the ordinary course of business, none of which, either individually or in the aggregate, are believed likely to have a material adverse effect on our consolidated financial position or results of operations, in the opinion of management. The various legal proceedings to which we are a party are routine in nature and incidental to our business.

Item 1A. Risk Factors.

This Item is omitted as permitted for a “smaller reporting company” (as defined by the SEC).

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds.

None.

Item 3. Defaults Upon Senior Securities.

None.

Item 4. (Removed and Reserved.)

Item 5. Other Information.

None.

Item 6. Exhibits.

The following exhibits are filed herewith or incorporated herein by reference:

Exhibit Number	Description
3(a)	Restated Articles of Incorporation of the registrant, as amended (incorporated by reference to Exhibit 3.1 to the registrant’s Registration Statement on Form S-1 [Registration No. 333-136414] filed September 8, 2006).
3(b)	Amended and Restated By-Laws of the registrant (incorporated by reference to Exhibit 3.1 to the registrant’s Current Report on Form 8-K filed October 1, 2007).
4(a)	Specimen certificate for Common Stock, \$0.18 par value per share, of the registrant (incorporated by reference to Exhibit 4.1 to Amendment No. 1 to the registrant’s Registration Statement on Form S-1 [Registration No. 333-136414] filed September 8, 2006).

Exhibit Number	Description
4(b)	Indenture dated as of June 21, 2005, between Hallmark Financial Services, Inc. and JPMorgan Chase Bank, National Association (incorporated by reference to Exhibit 4.1 to the registrant's Current Report on Form 8-K filed June 27, 2005).
4(c)	Amended and Restated Declaration of Trust of Hallmark Statutory Trust I dated as of June 21, 2005, among Hallmark Financial Services, Inc., as sponsor, Chase Bank USA, National Association, as Delaware trustee, and JPMorgan Chase Bank, National Association, as institutional trustee, and Mark Schwarz and Mark Morrison, as administrators (incorporated by reference to Exhibit 4.2 to the registrant's Current Report on Form 8-K filed June 27, 2005).
4(d)	Form of Junior Subordinated Debt Security Due 2035 (incorporated by reference to Exhibit 4.1 to the registrant's Current Report on Form 8-K filed June 27, 2005).
4(e)	Form of Capital Security Certificate (incorporated by reference to Exhibit 4.2 to the registrant's Current Report on Form 8-K filed June 27, 2005).
4(f)	First Restated Credit Agreement dated January 27, 2006, between Hallmark Financial Services, Inc. and The Frost National Bank (incorporated by reference to Exhibit 4.1 to the registrant's Current Report on Form 8-K filed February 2, 2006).
4(g)	Form of Registration Rights Agreement dated January 27, 2006, between Hallmark Financial Services, Inc. and Newcastle Special Opportunity Fund I, L.P. and Newcastle Special Opportunity Fund II, L.P. (incorporated by reference to Exhibit 4.1 to the registrant's Current Report on Form 8-K filed February 2, 2006).
4(h)	Indenture dated as of August 23, 2007, between Hallmark Financial Services, Inc. and The Bank of New York Trust Company, National Association (incorporated by reference to Exhibit 4.1 to the registrant's Current Report on Form 8-K filed August 24, 2007).
4(i)	Amended and Restated Declaration of Trust of Hallmark Statutory Trust II dated as of August 23, 2007, among Hallmark Financial Services, Inc., as sponsor, The Bank of New York (Delaware), as Delaware trustee, and The Bank of New York Trust Company, National Association, as institutional trustee, and Mark Schwarz and Mark Morrison, as administrators (incorporated by reference to Exhibit 4.2 to the registrant's Current Report on Form 8-K filed August 24, 2007).
4(j)	Form of Junior Subordinated Debt Security Due 2037 (incorporated by reference to Exhibit 4.1 to the registrant's Current Report on Form 8-K filed August 24, 2007).
4(k)	Form of Capital Security Certificate (incorporated by reference to Exhibit 4.2 to the registrant's Current Report on Form 8-K filed August 24, 2007).
4(l)	Seventh Restated Credit Agreement dated May 27, 2010, between Hallmark Financial Services, Inc. and The Frost National Bank (incorporated by reference to Exhibit 10.1 to the registrant's Current Report on Form 8-K filed June 17, 2010).
31(a)	Certification of principal executive officer required by Rule 13a-14(a) or Rule 15d-14(a).

31(b) Certification of principal financial officer required by Rule 13a-14(a) or Rule 15d-14(a).

39

Exhibit Number	Description
32(a)	Certification of principal executive officer Pursuant to 18 U.S.C. 1350.
32(b)	Certification of principal financial officer Pursuant to 18 U.S.C. 1350.

SIGNATURES

In accordance with the requirements of the Exchange Act, the registrant has caused this report to be signed on its behalf by the undersigned, thereunto duly authorized.
