Certain statements contained in this announcement may be regarded as "forward-looking statements" within the meaning of the U.S. Securities Exchange Act of 1934, as amended. Such forward-looking statements involve known and unknown risks, uncertainties and other factors, which may cause the actual performance, financial condition or results of operations of the Company to be materially different from any future performance, financial condition or results of operations implied by such forward-looking statements. Further information regarding these risks, uncertainties and other factors is included in the Company's filings with the U.S. Securities and Exchange Commission. The forward-looking statements included in this announcement represent the Company's views as of the date of this announcement. While the Company anticipates that subsequent events and developments may cause the Company's views to change, the Company specifically disclaims any obligation to update these forward-looking statements, unless required by applicable laws. These forward-looking statements should not be relied upon as representing the Company's views as of any date subsequent to the date of this announcement.

The board of directors (the “Board”) of China Eastern Airlines Corporation Limited (the “Company”) hereby presents the unaudited interim condensed consolidated financial information of the Company and its subsidiaries (collectively, the “Group”) for the six months ended 30 June 2011 (which were reviewed and approved by the Board and the audit and risk management committee of the Company (the “Audit Committee”) on 29 August 2011), with comparative figures for the corresponding financial information in 2010. The Company’s external auditors have conducted a review of the 2011 interim condensed consolidated financial information in accordance with the International Standard on Review Engagements 2410.

The interim condensed consolidated financial information of the Group for the six months ended 30 June 2011 is unaudited and does not necessarily indicate annual or future results.

REPORT ON REVIEW OF INTERIM CONDENSED FINANCIAL INFORMATION

TO THE SHAREHOLDERS OF CHINA EASTERN AIRLINES CORPORATION LIMITED
(incorporated in the People's Republic of China with limited liability)

Introduction

We have reviewed the interim condensed consolidated financial information set out on pages 3 to 43, which comprises the condensed consolidated balance sheet of China Eastern Airlines Corporation Limited (the "Company") and its subsidiaries (together, the "Group") as at 30 June 2011 and the related interim condensed consolidated statements of comprehensive income, changes in equity and cash flows for the six-month period then ended, and a summary of significant accounting policies and other explanatory notes. The Rules Governing the Listing of Securities on the Stock Exchange of Hong Kong Limited require the preparation of a report on interim financial information to be in compliance with the relevant provisions thereof and International Accounting Standard 34 "Interim Financial Reporting". The Board is responsible for the preparation and presentation of this interim financial information in accordance with International Accounting Standard 34 "Interim Financial Reporting". The condensed consolidated statements of comprehensive income, changes in equity and cash flows for the six-month period ended 30 June 2010 and related explanatory notes were not reviewed. Our responsibility is to express a conclusion on this interim financial information based on our review and to report our conclusion solely to you, as a body, in accordance with our agreed terms of engagement and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report.

Scope of Review

We conducted our review in accordance with International Standard on Review Engagements 2410, "Review of Interim Financial Information Performed by the Independent Auditor of the Entity". A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the interim financial information is not prepared, in all material respects, in accordance with International Accounting Standard 34 "Interim Financial Reporting".

NOTES TO THE CONDENSED CONSOLIDATED INTERIM FINANCIAL INFORMATION

1. Corporate Information

China Eastern Airlines Corporation Limited (the “Company”), a joint stock company limited by shares, was incorporated in the People’s Republic of China (the “PRC”) on 14 April 1995. The address of the Company’s registered office is 66 Airport Street, Pudong International Airport, Shanghai, the PRC. The Company and its subsidiaries (together, the “Group”) are principally engaged in the operation of civil aviation, including the provision of passenger, cargo, mail delivery, tour operations and other extended transportation services.

The Company is majority owned by China Eastern Air Holding Company (“CEA Holding”), a state-owned enterprise incorporated in the PRC.

The Company’s shares are traded on The Stock Exchange of Hong Kong Limited, The New York Stock Exchange and The Shanghai Stock Exchange.

This condensed consolidated interim financial information was approved for issue by the Company’s Board on 29 August 2011.

This condensed consolidated interim financial information has not been audited.

2. Basis of preparation

This unaudited condensed consolidated interim financial information for the six months ended 30 June 2011 (the “Current Period”) has been prepared in accordance with International Accounting Standard (“IAS”) 34 “Interim Financial Reporting”. The unaudited condensed consolidated interim financial information should be read in conjunction with the annual financial statements for the year ended 31 December 2010, which have been prepared in accordance with IFRS as issued by the International Accounting Standard Board (“IASB”).

In preparing the interim financial information, the Board has given careful consideration to the going concern status of the Group in the context of the Group’s current working capital deficit.

NOTES TO THE CONDENSED CONSOLIDATED INTERIM FINANCIAL INFORMATION

2. Basis of preparation (cont'd)

As at 30 June 2011, the Group's accumulated losses were approximately RMB10.68 billion; and its current liabilities exceeded its current assets by approximately RMB30.95 billion.

Against this background, the Board has taken active steps to seek additional sources of finance and improve the Group's liquidity position. As at 30 June 2011, the Group had total unused credit facilities of approximately RMB25.4 billion from certain banks. The Board believes that, based on experience to date, it is likely that these facilities will be rolled over in future years if required.

With the credit facilities and based on the Group's history of obtaining finance and its relationships with its bankers and creditors, the Board considers that the Group will be able to obtain sufficient financing to enable it to operate, as well as to meet its liabilities as and when they become due and its capital expenditure requirements. Accordingly, the Board believes that it is appropriate to prepare these financial information on a going concern basis without including any adjustments that would be required should the Company and the Group fail to continue as a going concern.

3. Accounting policies

Except as described in note 3(a) below, the accounting policies applied are consistent with those of the annual financial statements for the year ended 31 December 2010, as described in those annual financial statements.

3.Accounting policies (cont'd)

(a)New standards, amendments and interpretations to existing standards which are effective for accounting periods beginning on or after 1 January 2011 and adopted by the Group

The Group has adopted the following new standards and amendments to existing standards which are relevant for the Group's existed business and mandatory for the first time for the financial year beginning 1 January 2011:

•The improvement related to IAS 34 “Interim financial reporting” in the Third Improvement Project is an amendment which emphasises the existing disclosure principles in IAS 34 and adds further guidance to illustrate how to apply these principles. Greater emphasis has been placed on the disclosure principles for significant events and transactions. Additional requirements cover disclosure of changes to fair value measurement (if significant), and the need to update relevant information from the most recent annual report. The improvement only results in additional disclosures.

The following new standards and amendments to standards are mandatory for the first time for the financial year beginning 1 January 2011 and have no material impact for the Group:

- The improvement related to IAS 1 Presentation of financial statements
- The improvement related to IFRS 7 Financial instruments: Disclosures
- The improvement related to IFRIC–Int 13 Customer loyalty programmes
- The improvement related to IAS 27 Consolidated and separate financial statements
- The improvement related to IFRS 3 (revised) Business combinations

NOTES TO THE CONDENSED CONSOLIDATED INTERIM FINANCIAL INFORMATION

3.Accounting policies (cont'd)

(a)(cont'd)

The following new standards, amendments and interpretations to existing standards are mandatory for the first time for the financial year beginning 1 January 2011, but are not currently relevant for the Group:

- IAS 32 (Amendment) Financial Instruments: Disclosure and Presentation – Classification of Rights Issue
- IFRS 1 (Amendment) First-time Adoption of IFRSs – Limited Exemptions from Comparative IFRS 7 Disclosures for First-time Adopters
- IFRIC–Int 14 (Amendment) Prepayments of a Minimum Funding Requirement
- IFRIC–Int 19 Extinguishing Financial Liabilities with Equity Instruments

(b) Standards, amendments and interpretations to existing standards that are not yet effective for the financial year beginning 1 January 2011 and have not been early adopted

The IASB has also issued certain new/revised standards, amendments or interpretations to existing standards (collectively the “New or Revised IFRSs”). The New or Revised IFRSs are not yet effective for the financial year beginning 1 January 2011. The Group has not early adopted the “New and Revised IFRSs” and is assessing the impact but is not yet in a position to state whether any substantial changes to the Group’s accounting policies or to the presentation of the financial statements will be resulted.

4. Estimates

The preparation of interim financial information requires management to make judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets and liabilities, income and expense. Actual results may differ from these estimates.

In preparing these condensed consolidated interim financial information, the significant judgements made by management in applying the Group’s accounting policies and the key sources of estimation uncertainty were the same as those that applied to the consolidated financial statements for the year ended 31 December 2010.

5. Financial risk management

(a) Financial Risk Factors

The Group's activities expose to a variety of financial risks: market risk (including currency risk, interest rate risk and fuel price risk), credit risk and liquidity risk.

The interim condensed consolidated financial information do not include all financial risk management information and disclosures required in the annual financial statements, and should be read in conjunction with the Group's annual financial statements for the year ended 31 December 2010.

There have been no changes in risk management policies since year ended 31 December 2010.

(b) Liquidity Risk

The Group's primary cash requirements have been for additions of and upgrades to aircraft, engines and flight equipment and repayments of related borrowings. The Group finances its working capital requirements through a combination of funds generated from operations and both short and long term bank loans. The Group generally finances the acquisition of aircraft through long-term finance leases and bank loans.

The Group operates with a working capital deficit. As at 30 June 2011, the Group's net current liabilities amounted to RMB30,954 million (2010: RMB27,184 million). For six months ended 30 June 2011, the Group recorded a net cash inflow from operating activities of RMB5,515 million (2010: inflow of RMB4,821 million), a net cash outflow from investing activities and financing activities of RMB4,296 million (2010: outflow of RMB2,074 million), and an increase in cash and cash equivalents of RMB1,219 million (2010: increase of RMB2,747 million).

NOTES TO THE CONDENSED CONSOLIDATED INTERIM FINANCIAL INFORMATION

5. Financial risk management (cont'd)

(b) Liquidity Risk (cont'd)

The Board believes that cash from operations and short and long term bank borrowings will be sufficient to meet the Group's operating cash flow. Due to the dynamic nature of the underlying businesses, the Group's treasury policy aims at maintaining flexibility in funding by keeping credit lines available. The Board believes that the Group has obtained sufficient general credit facilities from PRC banks for financing future capital commitments and for working capital purposes.

Management monitors rolling forecasts of the Group's liquidity reserves on the basis of expected cash flows.

The table below analyses the Group's financial liabilities that will be settled by relevant maturity groupings based on the remaining period at the balance sheet date to the contractual maturity date. The amounts disclosed in the table are the contractual undiscounted cash flows. Balances due within 12 months equal their carrying balances, as the impact of discounting is not significant.

The different levels are defined as follows:

- Quoted prices (unadjusted) in active markets for identical assets or liabilities (level 1).
- Inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly (that is, as prices) or indirectly (that is, derived from prices) (level 2).
- Inputs for the asset or liability that are not based on observable market data (that is, unobservable inputs) (level 3).

5. Financial risk management (cont'd)

For the six months ended 30 June 2011, there were no significant changes in the business or economic circumstances that affect the fair value of the Group's financial assets and financial liabilities.

For the six months ended 30 June 2011, there was no reclassification of financial assets.

6. Revenues

The Group is principally engaged in operation of civil aviation, including the provision of passenger, cargo, mail delivery, tour operations and other extended transportation services.

Others	650,299	1,374,996
	38,079,190	33,127,332

Note:

Pursuant to the notice of exemption of business tax on the provision of international transportation services (Cai Shui [2010] No. 8) jointly issued by Ministry of Finance and the State Administration of Taxation, the Group's revenues from the provision of international transportation services are exempt from business tax from 1 January 2010.

NOTES TO THE CONDENSED CONSOLIDATED INTERIM FINANCIAL INFORMATION

6.Revenues (cont'd)

Pursuant to the relevant tax rules and regulations in the PRC, the Group's domestic traffic revenues are subject to business tax levied at rate of 3% and majority of the Group's tour operations income, ground service income, commission income and other revenues are subject to business tax levied at rates of 3% or 5%.

The business tax incurred and set off against the above Group's revenues for the six months ended 30 June 2011 amounted to approximately RMB776 million (2010: approximately RMB661 million).

7. Segment information

(a) Chief Operation Decision Maker ("CODM"), Office of the General Manager, Reviews the Group's Internal Reporting in order to Assess Performance and Allocate Resources.

The Group has one major reportable operating segment, the "airline operations". The "airline operations" comprises the provision of air passenger, air cargo services, mail and ground logistics.

Other services including tour operations, aviation training, air catering and other miscellaneous services are not included within the airline operations segment, as their internal reports are separately provided to the CODM. The results of these operations are included in the "other segments" column.

Inter-segment transactions are entered into under normal commercial terms and conditions that would be available to unrelated third parties.

In accordance with IFRS 8, segment disclosure has been presented in a manner that is consistent with the information used by the Group's CODM. The Group's CODM monitors the results, assets and liabilities attributable to each reportable segment based on financial results prepared under the PRC Accounting Standards for Business Enterprises (the "PRC Accounting Standards"), which differ from IFRS in certain aspects. The amount of each material reconciling items from the Group's reportable segment revenue, profit and loss, assets and liabilities arising from different accounting policies are set out in Note 7(c) below.

Reportable segment liabilities	83,387,701	1,038,146	(191,907)	–	84,233,940

*Unallocated assets primarily represent investments in associates and jointly controlled entities, and available-for-sale financial assets. Unallocated results primarily represent the share of results of associates and jointly controlled entities.

(b) The Group's Business Segments Operate in Three Main Geographical Areas, even though They are Managed on a Worldwide Basis.

The Group's revenues (under PRC Accounting Standards) by geographical segment are analysed based on the following criteria:

- (1) Traffic revenue from services within the PRC (excluding the Hong Kong Special Administrative Region ("Hong Kong"), Macau Special Administrative Region ("Macau") and Taiwan (collectively known as "Regional")) is classified as domestic operations. Traffic revenue from inbound and outbound services between the PRC, Regional or overseas markets is attributed to the segments if either the origin or destination of each flight segment is in Regional or overseas.

(b)

(cont'd)

(2) Revenue from ticket handling services, airport ground services, and other miscellaneous services are classified on the basis of where the services are performed.

	(Unaudited) Six months ended 30 June	
	2011 RMB'000	2010 RMB'000
Domestic (the PRC, excluding Hong Kong, Macau and Taiwan)	26,665,770	22,891,501
International	10,260,432	8,962,373
Regional (Hong Kong, Macau and Taiwan)	1,855,952	1,782,299
Total	38,782,154	33,636,173

The major revenue-earning assets of the Group are its aircraft, all of which are registered in the PRC. Since the Group's aircraft are deployed flexibly across its route network, there is no suitable basis of allocating such assets and the related liabilities by geography, and hence segment assets and capital expenditure by geographic have not been presented.

7. Segment information (cont'd)

(c)(cont'd) Notes:

- (i) The difference represents the different classification of business tax and expired sales in advance of carriage under PRC Accounting Standards and IFRS.
- (ii) The difference represents the differences in the useful lives and residual values of aircraft, engines and rotatable adopted for depreciation purpose in prior years under PRC Accounting Standards and IFRS. Despite the depreciation policies of these assets have been unified under IFRS and the PRC Accounting Standards in recent years, the changes were applied prospectively as changes in accounting estimates which results in the differences in the carrying amounts and related depreciation charges under IFRS and PRC Accounting Standards.
- (iii) In accordance with the PRC Accounting Standards, certain employees' post-retirement benefits are recognised upon actually incurred. Under IFRS, such post-retirement benefits under defined benefit schemes are required to be recognised over the employees' service period using projected unit credit method.
- (iv) Under the PRC Accounting standards, land use rights injected by parent company as capital contribution are stated at valuation less accumulated amortisation. Under IFRS, land use rights are recorded as prepaid operating leases at historical cost which was nil at the time of listing.
- (v) The determination of the fair values of the acquisition costs and identifiable assets and liabilities of Shanghai Airlines acquired is different under IFRS and the PRC Accounting Standards, which results in difference in the intangibles/ goodwill recognised arising from the acquisition.

	119,967	45,889

Under the Corporate Income Tax Law of the People's Republic of China (the "New CIT Law"), which was approved by the National People's Congress and became effective from 1 January 2008, the Company and certain of its subsidiaries (the "Pudong Subsidiaries") are entitled to a transitional arrangement to gradually increase the applicable corporate income tax rate to from 15% to 25% over a five-year period from 2008. For the six months ended 30 June 2011, the corporate income tax rate applicable to the Company and the Pudong Subsidiaries was 24% (2010: 22%). Other subsidiaries, except for those incorporated in Hong Kong which subject to the Hong Kong corporate income tax rate of 16.5% (2010: 16.5%), are generally subject to the PRC standard corporate tax rate of 25% (2010: 25%) under the New CIT Law.

The Group operates international flights to overseas destinations. There was no material overseas taxation for the six months ended 30 June 2011, as there are double tax treaties between the PRC and the corresponding jurisdictions (including Hong Kong) relating to aviation businesses.

12. Earnings per share

The calculation of basic earnings per share is based on the unaudited consolidated profit attributable to owners of the parent of approximately RMB2,279 million (2010: RMB1,761 million) and the weighted average number of shares of 11,276,538,860 (2010:11,020,893,000) in issue during the six months ended 30 June 2011.

The Company has no potentially dilutive option or other instruments relating to ordinary shares.

13. Cash flow hedges, net of tax

Cash flow hedges, net of tax, represent unrealised gains and losses arising from the valuation of interest rate swaps contracts and forward foreign exchange contracts.

14. Dividend

The Board has not recommended any interim dividend for the six months ended 30 June 2011 (2010: Nil).

15. Profit appropriation

No appropriation to the statutory reserves has been made during the six months ended 30 June 2011. Such appropriations will be made at year end in accordance with the PRC regulations and the Articles of Association of individual group companies.

MANAGEMENT DISCUSSION AND ANALYSIS

Review of operations

In the first half of 2011, confronted by the complex domestic and international economic and social environment, such as high oil prices, high inflation, interest rate hikes and concerns over Japan's nuclear safety, the Group paid much attention to market changes and acted prudently yet proactively based on latest market development to facilitate its hub construction on the basis of its enhanced safety management, further optimizing its route network in adherence to our approach of organic growth. It took full advantage of the opportunity brought by its accession to SkyTeam by vigorously facilitating the construction of its service product system and enhance the quality of the Group's services. Efforts were made to continue to gain depth in the restructuring of the Company and Shanghai Airlines Co., Ltd. ("Shanghai Airlines"), completing the restructuring of the three major cargo airlines (namely China Cargo Airlines Co., Ltd. ("China Cargo Airlines"), Shanghai Airlines Cargo International Co., Ltd. ("Shanghai Cargo Airlines") and Great Wall Airlines) to increase the efficiency of resource utilization. In addition to the reform of the Group's position-based pay scale, the Group strengthened its core management, boosted its competitiveness and generated sound results of operations despite the complexity of the operating environment.

In the first half of 2011, the Group completed (i) the purchase and finance lease of seven aircraft in total, including five A320 aircraft and two A321 aircraft; (ii) the operating-lease of three aircraft, including two B737-800 aircraft and one B777F aircraft; (iii) the disposal of six aircraft, including surrender of the lease of four MD11F aircraft, one CRJ200 aircraft and one B767 aircraft; (iv) the purchase of assets of Great Wall Airlines by China Cargo Airlines, adding three B747 aircraft. As at 30 June 2011, the Group operated a fleet of 362 aircraft, including 344 passenger aircraft and 18 freighters.

During the first half of 2011, the Group introduced eight new domestic routes including Shanghai-to-Lijiang and Hangzhou-to-Urumqi routes; an international route of Shanghai- to-Rome; and increased the frequency of flights in its international routes such as Shanghai- to-Sydney and Shanghai-to-Melbourne. In response to the change in the Japanese market following the Japan earthquake, the Group redeployed its capacity promptly by diverting some capacity away from Japanese routes to domestic routes through measures such as cancellation of routes, reduction of flight frequency and replacement of aircraft models. Furthermore, in terms of freight transportation, the Group opened two new (one domestic and one international) freight routes, namely Shanghai-to-Beijing and Shanghai-to-Singapore. The development and adjustment of routes have extended the coverage of the Group's route network in mainland China as well as other regions in Asia, while at the same time adding to the variety of routes of the Group in the European and the United States markets.

The major business developments of the Group for the first half of 2011 are presented as follows:

Safety Management

In the first half of 2011, with the core theme of “Enhancing Safety Management Level through the Safety Management System (SMS)”, the Company strengthened its fundamentals such as safety education, training and operation, with the aim of ensuring aviation safety. As of July 2011, the Company had attained 5 million hours of safe flying in a row, and was awarded the “Flight Safety Five-star Award” by the Civil Aviation Administration of China.

Passenger Traffic Business

In the first half of 2011, the Group actively adjusted the deployment of its capacity, through enlarging the capacity deployed in core markets and major markets such as Shanghai, Xi'an and Kunming, while at the same time, striving to raise the operating capability of international routes, increase high end cabin prices for international long haul routes, increase the proportion of pre-sold seats of the first class and business class cabins, thereby increasing the sales revenue of the two cabins. The Group has also accelerated the integration of the markets of the Company and Shanghai Airlines. The control of the Group over target passenger traffic market was significantly strengthened resulting in significant synergetic effect. Furthermore, the Group actively developed air-rail transportation products to push ahead the implementation of “Integration of Yangtze River Delta Market” strategy.

MANAGEMENT DISCUSSION AND ANALYSIS

Freight Business

In the first half of 2011, amid the overall downturn of the freight market, the Group completed the integration of the three major cargo airlines (China Cargo Airlines, Shanghai Cargo Airlines and Great Wall Airlines). Upon completion of the restructuring, the fleet size of the new China Cargo Airlines reached 18 aircraft, China Cargo Airlines also aligned its market organization and sales policies, while optimizing its deployment of capacity, and consolidated the Group's market share in Shanghai's freight transportation market. At the same time, the new China Cargo Airlines through enriching its sales and marketing, including stepping up sales efforts at key transit points to raise the pre-sold proportion of transits; expanding the sales range for the transportation of special cargoes and opening up new sales channels of special cargoes such as gauge cargoes; facilitating the pre-sale model to stabilize level of revenue; closely managing the detailed marketing arrangement of the Yangtze River Delta and strengthened the sales capability in Yangtze River Delta markets, thereby had increased the sources of income.

Costs Control

During the first half of 2011, the Group adjusted its fleet structure to lower operating costs; adjusted its debt structure to save finance costs; maintained its overall budget management to reduce controllable expenses; commenced its cost optimizing management to lower costs and focused on implementing the three major projects namely catering and in-flight supplies, aircraft maintenance and general expenses; and accelerated the disposal of non-performing assets and idle assets to improve liquidity of assets for raising the efficiency of asset utilization.

Joining SkyTeam

The Company officially joined the SkyTeam on 21 June 2011. To date, the Company has signed code-sharing agreements with 11 SkyTeam member airlines, and entered into VIP lounges and frequent flyer co-operation agreements with 13 member airlines. The Company actively participated in the development of projects relating to the SkyTeam to strengthen international cooperation in order to provide quality and extensive air transport services to both domestic and overseas passengers.

Raising Service Quality

During the first half of 2011, the Group optimised its service standards and business processes and striving to improve its service quality. With respect to soft services, the Group amended and enhanced its cabin service standard, optimised ground service processes and meal delivery service processes, strengthened the training of staff's service skills, and improved staff's communication skills in serving travellers. With respect to hard services, the Group accelerated the retirement of old aircraft; established and optimised the standards of the Group's cabin facilities configuration; integrated and upgraded the VIP lounges at major airports to provide travellers with a more comfortable pre-flight environment; accelerated the upgrade of in-flight entertainment to add varieties to the system; carried out the design of in-flight supplies system and provided more meal choices to raise standards; and optimise catering and in-flight supplies in first class and business class cabins.

Information Technology

In the first half of 2011, the Group was committed to enhancing its ability to support its IT strategy. In terms of sales and marketing, it completed the integration of the e-commerce websites of the Company, Shanghai Airlines and China United Airlines Co., Ltd., released overseas websites with various language versions in order to better support the Group's promotional and marketing activities in overseas markets. In terms of services, efforts were made to provide travellers with additional better quality services and with more features through upgrading and renovating a number of projects, such as the three major systems (i.e. reservations, departure and frequent flyers) and call centers, the further expansion of self-service projects including pioneering the use of a customized departure system at the Hongqiao hub, and the gradual expansion of the coverage of self-service check-in and mobile check-in services. In terms of operational management, the Group completed the integration of the operational control systems of the Company and Shanghai Airlines, as well as the integration of their respective aircraft maintenance systems.

MANAGEMENT DISCUSSION AND ANALYSIS

Fulfilling Social Responsibilities

In the first half of 2011, the Group was actively involved in important world events, such as the evacuation of Chinese citizens from Egypt and Libya, as well as emergency earthquake transport support in Yunnan and Japan. With the Group's quick response, precise arrangements and its courage to overcome hardship and difficulties, 53 overtime charter flights were successfully sent to evacuate 12,000 passengers and provide 143 tonnes of supplies for the purposes of evacuation, disaster relief and peacekeeping.

Operating revenues

In the first half of 2011, the total traffic volume of the Group was 6,251 million tonne-kilometres, representing an increase of 5.33% from the same period last year, while traffic revenues were RMB35,375 million, representing an increase of 17% from the same period last year.

In the first half of 2011, passenger traffic volume was 48,564 million passenger-kilometres, representing an increase of 13.62% from the same period last year. Compared to the same period last year, passenger revenues increased by 22.58% to RMB31,794 million, accounting for 89.88% of the Group's transportation revenues.

In the first half of 2011, passenger traffic volume on domestic routes was 34,140 million passenger-kilometres, representing an increase of 10.46% from the same period last year. Compared to the same period last year, domestic passenger revenues increased by 20.50% to RMB22,653 million, accounting for 71.25% of total passenger revenues.

In the first half of 2011, passenger traffic volume on international routes was 12,511 million passenger-kilometres, representing an increase of 25.74% from the same period last year. Compared to the same period last year, international passenger revenues increased by 33.39% to RMB7,611 million, accounting for 23.94% of total passenger revenues.

In the first half of 2011, passenger traffic volume on regional routes was 1,913 million passenger-kilometres, representing an increase of 1.48% from the same period last year. Compared to the same period last year, regional passenger revenues increased by 6.77% to RMB1,530 million, accounting for 4.81% of total passenger revenues.

In the first half of 2011, cargo and mail traffic volume was 1,921 million tonne-kilometres, representing a decrease of 9.48% from the same period last year. Freight transport revenues were RMB3,581 million, representing a decrease of 14.96% from the same period last year, accounting for 10.12% of the Group's transportation revenue.

In the first half of 2011, other major operating revenues of the Group amounted to RMB2,704 million, representing a decrease of 9.23% compared to the same period last year. The decrease was mainly attributable to the decrease in total revenue of the subsidiaries of the Group due to the disposal of certain subsidiaries of the Company, including Shanghai Aviation Import & Export Co., Ltd., in 2010.

Operating expenses

The total operating costs of the Group for the first half of 2011 increased by 17.10% to RMB36,188 million compared to the same period last year.

In the first half of 2011, the Group's expenditure on aircraft fuel was RMB13,377 million, representing an increase of 33.51% compared to the same period last year and accounting for 36.97% of operating costs. This increase was mainly attributable to an increase of approximately 6.05% in the aviation oil consumption of the Group as well as an increase of 25.89% in average oil prices both compared to the same period last year.

In the first half of 2011, net gain on changes in fair value of the Company was approximately RMB85 million, representing a decrease of 61.92% compared to the same period last year, which primarily consisted of a net gain on changes in fair value arising from crude oil option contracts of approximately RMB66 million, representing a decrease of 70.36% compared to the same period last year. It was primarily attributable to the decrease in fair value arising from aviation oil hedging option contracts, which in turn resulted from the year-on-year decrease in the exposure of unsettled crude oil options at the end of June 2011. In the first half of 2011, cash inflow upon settlement of crude oil option contracts of the Company was approximately RMB34 million. As at 31 December 2011, the crude oil option contracts of the Group will expire.

MANAGEMENT DISCUSSION AND ANALYSIS

In the first half of 2011, the Group's take-off and landing charges were RMB3,889 million, representing an increase of 14.33% from the same period last year, and was mainly attributable to the year-on-year increase in the number of take-offs and landings, as well as an increase in unit price of the average costs of take-offs and landings.

In the first half of 2011, the Group's depreciation and amortisation were RMB3,360 million, representing an increase of 4.45% compared to the same period last year.

In the first half of 2011, the Group's wages, salaries and benefits expenses were RMB4,194 million, representing an increase of 19.66% compared to the same period last year and accounting for 11.59% of the operating costs. This was primarily due to an increase in salaries for staff members, an increase in the hourly flying costs and an increase in performance-based bonuses paid to staff members resulted from better performance of the Company.

In the first half of 2011, the Group's aircraft maintenance expenses were RMB1,853 million, representing a decrease of 7.03% compared to the same period last year.

In the first half of 2011, the Group's in-flight food and beverages expenses were RMB963 million, representing an increase of 37.39% compared to the same period last year, primarily due to the improvement of food quality and an increase in food prices.

In the first half of 2011, the Group's aircraft operating lease rentals were RMB1,935 million, representing an increase of 0.94% compared to the same period last year.

In the first half of 2011, the Group's selling and marketing expenses were RMB1,770 million, representing an increase of 11.17% compared to the same period last year.

In the first half of 2011, the Group's payment of civil aviation infrastructure levies increased by 6.73% to RMB655 million compared to the same period last year.

In the first half of 2011, the Group's office, administrative and other expenses were RMB3,716 million, which remain the same level as compared to the same period last year.

Other operating income

In the first half of 2011, the Group's other operating income increased by 19.55% to RMB379 million, compared to the same period last year, mainly as a result of the increase in government subsidies received by the Company in the first half of 2011 for various routes as compared to the same period last year.

Finance income and finance costs

In the first half of 2011, the Group's finance income was RMB855 million, primarily due to the steady decrease in the USD to RMB foreign exchange rate during the period, and resulted in a net foreign exchange gain of RMB818 million, representing an increase of 425.27% as compared to the same period last year. Finance costs for the current period were RMB716 million, representing a decrease of 8.41%, as compared to the same period last year. This is primarily comprised a decrease of interest accrued on loans from banks and other financial institutions as well as decreased interest accrued on finance lease obligations.

The Group generally utilises foreign exchange hedging contracts to reduce the risks in exchange rate risks for foreign currency revenues from ticket sales and expenses that are settled in foreign currencies. The Group's foreign currency exchange mainly involves the sales of Japanese Yen or the purchase of US dollars at fixed exchange rates. As at 30 June 2011, the foreign currency hedging contracts held by the Group that are still open amounted to a notional amount of USD41 million (31 December 2010: USD48 million), which will expire during the period between 2011 and 2017.

The wages of the Group's employees generally consisted of basic salaries and performance bonuses. In the first half of 2011, the Group was not involved in any major labour disputes with its employees, nor did it experience a substantial decrease in employees headcount. In addition, the Group did not encounter any difficulty in recruiting new employees.

MANAGEMENT DISCUSSION AND ANALYSIS

Outlook for the second half of 2011

The Group would like to caution readers that this report contains certain forward-looking statements, including descriptions of the Group's future operating plans for the second half of 2011 and beyond, and forward-looking statements relating to the global and Chinese economies and the aviation markets. Such forward-looking statements are subject to many uncertainties and risks, and actual events may be materially different from that which is described in these forward-looking statements.

Despite the sound operating efficiency of the Group in the first half of 2011, the Group is fully aware of the challenges ahead, which may hinder its future development. These factors include the increased uncertainty and volatility of the global economy, as the effects of inflation may affect economic recovery and result in a negative impact on the growth of the aviation industry. In addition, the expectation of future interest rate increases in the PRC may further increase the Group's finance costs. Lastly, pressures relating to the Group's fuel costs pressure is still relatively high, despite recent decreases in international crude oil prices.

Taking into account the complexity of the current economic environment and the day-to-day conditions of the Group, the following are some of the Group's planned measures:

- (1) Adhering to the "Safety First, Prevention as Priority, Comprehensive Management, Continuous Improvement" approach, the Group will continue to improve the quality of SMS operations, operations firmly implement measures, strengthen supervision and inspection, further enhance its safety responsibility system and reinforce the foundations of safety management.
- (2) Continue to optimize the deployment of capacity, reasonably adjust the structure of route networks, seek potential destinations for domestic flights, and strengthen the Group's operating capabilities for international routes by utilising alliance resources available from SkyTeam.
- (3) Firmly implement the strategy of "Integration of the Yangtze River Delta Market" in order to thoroughly explore air-rail transportation products; deepen structural reform and strengthen sales and marketing in passenger and cargo transportation markets to diversify the operating capabilities of the Group.

- (4) Endeavour to enhance the service quality, enhance the service management system, optimise service products, improve service standards, standardize service processes, strengthen service awareness, enhance integrated service capabilities, reasonably increase resources deployment and improve hardware facilities.
- (5) Based on a cost optimisation strategy, adopt various measures to reduce costs and expenses; strengthen capital strategies and lower finance costs.
- (6) Based on the formation of a risk management and internal control system established in the first half of 2011, the Company will continue to thoroughly optimise and enhance our risk management and internal control, with a view of providing strong support for the implementation of the Company's mid and long-term development strategies.
