ISLA International, Ltd.

Notes to Financial Statements

September 30, 2011 and 2010

Note 1 - Organization and Basis of Presentation

The Company

ISLA International, Ltd. (the Company) is a limited partnership located in south Texas. The Company is part of national transportation franchise network and specializes in arranging a wide variety of non-asset based freight transportation and logistics services to customers in south Texas and Mexico.

Basis of presentation

The accompanying financial statements have been prepared on the accrual basis of accounting, which is in conformity with accounting principles generally accepted in the United States of America (US GAAP).

Note 2 - Summary of Significant Accounting Policies

Cash and cash equivalents

For purposes of the statements of cash flows, cash equivalents include all highly-liquid investments with original maturities of three months or less.

Use of estimates

The preparation of financial statements and related disclosures in accordance with US GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Such estimates include accruals for the cost of purchased transportation, accruals for royalty payments, the assessment of the recoverability of long-lived assets, and the establishment of an allowance for doubtful accounts. Estimates and assumptions are reviewed periodically and the effects of revisions are reflected in the period that they are determined to be necessary. Actual results could differ from those estimates.

Fair value of financial instruments

The fair values of the Company's receivables, accounts payable and accrued transportation costs and accrued expenses approximate the carrying values due to the relatively short maturities of these instruments.

Concentrations

The Company maintains its cash in bank deposit accounts which, at times, may exceed federally-insured limits. The Company has not experienced any losses in such accounts.

ISLA International, Ltd.

Notes to Financial Statements

September 30, 2011 and 2010

Accounts receivable

The Company's receivables are recorded when billed and represent claims against third parties that will be settled in cash. The Company does not require collateral from its customers. The carrying value of the Company's receivables, net of the allowance for doubtful accounts, represents their estimated net realizable value. The Company evaluates the collectability of accounts receivable on a customer-by-customer basis. The Company records a reserve for bad debts against amounts due to reduce the net recognized receivable to an amount the Company believes will be reasonably collectible. The reserve is a discretionary amount determined from the analysis of the aging of the accounts receivables, historical experience and knowledge of specific customers. The reserve for bad debts totaled \$115,500 and \$91,400 at September 30, 2011 and 2010, respectively.

Property and equipment

Technology (computer software, hardware, and communications), furniture, equipment, and leasehold improvements are stated at cost, less accumulated depreciation and amortization over the estimated useful lives of the respective assets. Depreciation is computed using five to seven year lives for vehicles, communication, office furniture, and computer equipment on the straight line basis. Computer software is depreciated over a three year life using the straight line method of depreciation. For leasehold improvements, the cost is amortized over the shorter of the lease term or useful life on a straight line basis. Upon retirement or other disposition of these assets, the cost and related accumulated depreciation are removed from the accounts and the resulting gain or loss, if any, is reflected in other income or expense.

Expenditures for maintenance, repairs and renewals of minor items are charged to expense as incurred. Major renewals and improvements are capitalized.

Long-lived assets

The Company reviews long-lived assets to be held-and-used for impairment whenever events or changes in circumstances indicate the carrying amount of the assets may not be recoverable. If the sum of the undiscounted expected future cash flows over the remaining useful life of a long-lived asset is less than its carrying amount, the asset is considered to be impaired. Impairment losses are measured as the amount by which the carrying amount of the asset exceeds the fair value of the asset. When fair values are not available, the Company estimates fair value using the expected future cash flows discounted at a rate commensurate with the risks associated with the recovery of the asset. Assets to be disposed of are reported at the lower of carrying amount or fair value less costs to sell. Management has performed a review of all long-lived assets and has determined no impairment of the respective carrying value has occurred as of September 30, 2011 or 2010.

ISLA International, Ltd.

Notes to Financial Statements

September 30, 2011 and 2010

Income taxes

The Company has elected to be treated as a subchapter S Corporation for federal income tax purposes. Items of income or loss are passed through to the partners in accordance with their respective equity interest and reported in his individual federal and state income tax returns.

Tax positions initially need to be recognized in the financial statements when it is more-likely-than-not the positions will be sustained upon examination by the tax authorities. At September 30, 2011, the Company is no longer subject to income tax examinations by tax authorities for years prior to 2007. Interest and penalties related to uncertain tax positions will be recognized in income tax expense, if applicable. At September 30, 2011 and 2010, no uncertain tax positions have been identified and therefore, no amounts were recognized during the years then ended.

The Company is subject to Texas gross margin tax. No margin tax expense was accrued during the interim periods ended September 30, 2011 or 2010.

Deferred tax assets and liabilities are determined based on the tax effect of differences between the financial statement and tax basis of assets and liabilities as measured by the enacted tax rates. Deferred tax expense (benefit) is the result of changes in deferred tax assets and liabilities. As of September 30, 2011 and 2010, the tax effect of these differences was not material.

Revenue recognition and purchased transportation costs

The Company is the primary obligor responsible for providing the service desired by the customer and is responsible for fulfillment, including the acceptability of the service(s) ordered or purchased by the customer. At the Company's sole discretion, it sets the prices charged to its customers and is not required to obtain approval or consent from any other party in establishing its price. The Company has multiple suppliers for the services it sells to its customers, and has the absolute and complete discretion and right to select the supplier that will provide the product(s) or service(s) ordered by a customer, including changing the supplier on a shipment-by-shipment basis. In most cases, the Company determines the nature, type, characteristics, and specifications of the service(s) ordered by the customer. The Company also assumes credit risk for the amount billed to the customer.

As a non-asset based carrier, the Company does not own transportation assets. The Company generates the major portion of its freight revenues by purchasing transportation services from direct (asset-based) carriers and reselling those services to its customers. Based upon the terms in the contract of carriage, revenues related to shipments where the Company issues a Bill of Lading are recognized at the time the customer is invoiced for the service provided.

ISLA International, Ltd.

Notes to Financial Statements

September 30, 2011 and 2010

Costs related to the shipments are also recognized at this same time based upon anticipated margins, contractual arrangements with direct carriers, and other known factors. The estimates are routinely monitored and compared to actual invoiced costs. The estimates are adjusted as deemed necessary by the Company to reflect differences between the original accruals and actual costs of purchased transportation.

This method generally results in recognition of revenues and purchased transportation costs later than the preferred methods under US GAAP which recognize revenue upon proof of delivery. The Company's method of revenue and cost recognition does not result in a material difference from amounts that would be reported under such other methods.

Shipping and handling costs

Shipping and handling costs are included in cost of goods sold.

Note 3 - Property and Equipment

Property and equipment consisted of the following at September 30:

	2011	2010
Vehicles	\$60,843	\$60,843
Technology and office equipment	42,871	40,116
Furniture and fixtures	67,810	67,810
Leasehold improvements	222,855	222,831
	394,379	391,600
Less accumulated depreciation and amortization	239,395	197,420
Property and equipment, net	\$154,984	\$194,180

Depreciation and amortization expense related to property and equipment was \$32,320 and \$32,070 for the nine month periods ended September 30, 2011 and 2010, respectively.

ISLA International, Ltd.

Notes to Financial Statements

September 30, 2011 and 2010

Note 4 - Leases*Operating leases*

The Company leases its office and warehouse facilities under a non-cancelable operating lease agreement with unrelated third parties expiring July 2013.

Rent expense on these leases was \$95,472 for each of the nine months ended September 30, 2011 and 2010.

Future minimum rentals are summarized below:

Years Ending	Total
2011	\$31,824
2012	127,296
2013	74,256
	\$233,376

Note 5 - Employee Benefit Plans

The Company has adopted an employee benefit plan under Section 401 of the Internal Revenue Code, whereby participants may contribute a percentage of compensation, but not in excess of the maximum allowed. The plan provides for a matching contribution by the Company. Company contributions were \$4,815 and \$4,079 for the nine months ended September 30, 2011 and 2010, respectively.

Note 6 - Franchise Agreement

The Company operates under a franchise agreement with a national transportation franchisor. The agreement requires the payment of royalties to the franchisor by the 10th day of each calendar month equal to 9% to 16.5% of the gross profit margin for the preceding month based on shipment weight and location. In return, the Company receives the benefit of national marketing campaigns and access to proprietary operating systems and referrals from the franchisors website. The agreement, which expired in March 2011, contains an option to extend five additional years. The Company has not exercised its option to extend and is operating under the month to month clause in the franchise agreement.

ISLA International, Ltd.

Notes to Financial Statements

September 30, 2011 and 2010

Note 7 - Subsequent Event

In December 2011, the Company entered into an Asset Purchase Agreement with Radiant Logistics, Inc. and agreed to sell certain Company assets and all of the Company's operations. The consideration for the sale includes cash, assumption of certain liabilities including the exit fee due to franchisor for cancellation of the Company's franchise agreement, and certain additional contingent cash payments based on the Company's future performance.

-10-

Radiant Logistics, Inc.

**Unaudited Pro Forma Condensed
Consolidated Financial Information provided under Item 9.01(b)**

Basis of Presentation

On December 1, 2011, through our Radiant Global Logistics, Inc. operating subsidiary, Radiant Logistics, Inc. acquired Isla International, Ltd., ("ISLA") in an Asset Purchase Agreement which we acquired the assets and business operations of Isla International, Ltd., a privately-held limited partnership based in Laredo, Texas, in a transaction valued up to \$15.0 million.

The assets acquired from ISLA consist of primarily goodwill, other intangible assets such as customer lists, leasehold improvements and office equipment. Accounts receivable were not acquired and Accounts Payable were not assumed. The consideration paid by the company at the closing of the transaction was \$7.7 million in cash; \$1.3 million in Company stock payable on the three-month anniversary of the closing; and an additional \$6.0 million payable over the next four years in a combination of cash and Company common stock based on the future performance of the acquired operation.

The Company may, at its sole option, elect to satisfy up to 25 percent of each of the performance-based payments through the issuance of the Company's common stock valued based upon a 30-day volume weighted average price to be calculated preceding the delivery of the shares. The transaction was financed through the issuance of \$10.0 million in subordinated debt from Caltius Mezzanine. The agreement was entered into on an arm's-length basis as no material relationship otherwise existed between us and Isla International prior to the transaction.

The accompanying unaudited pro forma condensed balance sheet as of September 30, 2011 gives effect to the acquisition of assets from ISLA International, Ltd. ("ISLA") by Radiant Logistics, Inc. (the "Company") as if the acquisition occurred on that date. The accompanying unaudited pro forma condensed statements of operations for the nine months ended September 30, 2011 and the year ended December 31, 2010, give effect to the acquisition as if it occurred on the first day of each period presented.

Pro forma adjustments have been limited to only those adjustments that are: directly attributable to the transaction, factually supportable, and in the case of pro forma income statement adjustments, expected to have a continuing impact on the Company's financial results.

The unaudited pro forma condensed financial information is provided for information purposes only and is not necessarily indicative of the results that would have occurred if the acquisition had occurred on the first day of each period presented. The unaudited pro forma financial statements should not be construed as being representative of future operating results or financial position of the Company and should be read in conjunction with the:

- 1) Accompanying Notes to the Unaudited Pro Forma Condensed Consolidated Financial Statements;
- 2) The Company's historical audited consolidated financial statements and notes thereto included in the Company's annual report on Form 10-K for the fiscal year ended June 30, 2011, as filed with the Securities and Exchange Commission on October 7, 2011; and
- 3)

Edgar Filing: RADIANT LOGISTICS, INC - Form 8-K/A

Current Report on Form 8-K filed with the Securities and Exchange Commission on December 7, 2011, including at Item 9.01(a) the ISLA historical audited financial statements and notes for the fiscal years ended December 31, 2010 and 2009.
