To: The Board of Directors and Stockholders of
China Natural Gas, Inc.

Report of Independent Registered Public Accounting Firm

We have reviewed the accompanying consolidated interim balance sheet of China Natural Gas, Inc. as of September 30, 2012, and the related consolidated statements of income, stockholders' equity, and cash flows for the three months and nine months periods ended September 30, 2012. These consolidated interim financial statements are the responsibility of the Company's management.

We conducted our review in accordance with the standards of the Public Company Accounting Oversight Board (United States). A review of interim financial statements consists principally of applying analytical procedures and making inquiries of persons responsible for financial and accounting matters. It is substantially less in scope than an audit conducted in accordance with the standards of the Public Company Accounting Oversight Board, the objective of which is the expression of an opinion regarding the financial statements taken as a whole. Accordingly, we do not express such an opinion.

Based on our review, we are not aware of any material modifications that should be made to the accompanying consolidated interim financial statements for them to be in conformity with U.S. generally accepted accounting principles.

China Natural gas, Inc.
Notes to Consolidated Financial Statements
As of September 30, 2012 and December 31, 2011
(Stated in US Dollars)

Note 1 - Organization

Organization and Line of Business

China Natural Gas, Inc. (the “Company,” “our,” “us” or “we”) was incorporated in the State of Delaware on March 31, 1999. The Company through its wholly owned subsidiaries and variable interest entity (“VIE”), Xi’an Xilan Natural Gas Co., Ltd. (“XXNGC”) and subsidiaries of its VIE, which are located in Hong Kong, Shaanxi Province, Henan Province and Hubei Province in the People’s Republic of China (“PRC”), engages in sales and distribution of natural gas and gasoline to commercial, industrial and residential customers through fueling stations and pipelines, construction of pipeline networks, installation of natural gas fittings and parts for end-users, and conversions of gasoline-fueled vehicles to hybrid (natural gas/gasoline) powered vehicles at automobile conversion sites. The consolidated balance sheets as of September 30, 2012 and December 31, 2011 and the consolidated statements of income and comprehensive income for the three and nine months ended September 30, 2012 and 2011, and cash flows for the nine months ended September 30, 2012 and 2011 include the accounts of China Natural Gas, Inc. and subsidiaries and VIE. Our subsidiaries are: Xilan Energy Co. Ltd. (“XEC”), Shaanxi Xilan Natural Gas Equipment Co. Ltd (“SXNGE”), Hubei Xian Natural Gas Co., Ltd (“HBXNG”), Lingbao Yuxi Natural Gas Co. Ltd. (“LYNG”), Shaanxi Jingbian Liquefied Natural Gas Co. Ltd (“JBLNG”), Henan Xilan Natural Gas Co. Ltd (“HXNGC”), Xi’an Xilan Auto Body Shop Co, Ltd. (“XXABC”), Henan CNPC Kunlun Xilan Compressed Natural Gas Co., Ltd (“JV”), Hanchuan Makou Yuntong Compressed Natural Gas Co., Ltd (“Makou”) and Xiantao City Jinhua Gas And Oil Co., Ltd. (“XTJH”).

Note 2 – Summary of Significant Accounting Policies

Basis of Presentation

The accompanying consolidated financial statements have been prepared in conformity with the accounting principles generally accepted in the United States of America (“U.S. GAAP”).

The consolidated financial statements include all adjustments necessary to present fairly the consolidated financial position, results of operations and cash flows of the Company for the periods presented. The results of operations for

Edgar Filing: China Natural Gas, Inc. - Form 10-Q

the three and nine months ended September 30, 2012 are not necessarily indicative of operating results expected for the full year or future interim periods. These unaudited consolidated financial statements should be read in conjunction with the audited financial statements and notes thereto included in the Company's Annual Report on Form 10-K for the year ended December 31, 2011, filed on April 2, 2012(the "2011 Annual Report").

Use of Estimates

The preparation of the consolidated financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Significant accounting estimates reflected in the Company's consolidated financial statements include revenue recognition, allowance for doubtful accounts, inventory obsolescence, construction in progress, warrants liability and useful lives of property and equipment. Actual results could differ from those estimates.

Principles of Consolidation

The accompanying consolidated financial statements include the accounts of the Company and its wholly owned subsidiaries and its 100% VIE, XXNGC, and XXNGC's subsidiaries. All inter-company accounts and transactions have been eliminated in consolidation.

Consolidation of Variable Interest Entity

VIEs are entities that lack sufficient equity to finance their activities without additional financial support from other parties or whose equity holders lack adequate decision-making ability. Any VIE with which the Company is involved must be evaluated to determine the primary beneficiary of the risks and rewards of the VIE. Management makes ongoing reassessments of whether the Company is the primary beneficiary of XXNGC.

On February 21, 2006, the Company formed SXNGE as a wholly foreign owned enterprise ("WFOE") under the laws of the PRC. Through SXNGE, the Company entered into exclusive arrangements with XXNGC and its shareholders that give the Company the ability to substantially influence XXNGC's daily operations and financial affairs and appoint its senior executives. The Company is considered the primary beneficiary of XXNGC and it consolidates its accounts as a VIE. The Company's arrangements with XXNGC consist of the following agreements:

· *Consulting Service Agreement, dated August 17, 2007.* Under this agreement entered into between SXNGE and XXNGC, SXNGE provides XXNGC exclusive consulting services with respect to XXNGC's general business operations, human resources and research and development. In return, XXNGC pays a quarterly service fee to SXNGE, which is equal to XXNGC's revenue for such quarter. The term of this agreement is indefinite unless SXNGE notifies XXNGC of its intention to terminate this agreement. XXNGC may not terminate this agreement during its term. This agreement is retroactive to March 8, 2006.

· *Operating Agreement, dated August 17, 2007.* Under this agreement entered into between SXNGE, on the one hand, and XXNGC and certain shareholders of XXNGC, on the other hand, SXNGE agrees to fully guarantee XXNGC's performance of all operations-related contracts, agreements or transactions with third parties and, in return, XXNGC agrees to pledge all of its assets, including accounts receivable, to SXNGE. The XXNGC shareholders party to this operating agreement agree to, among other things, appoint as XXNGC's directors, individuals recommended by XXNGC, and appoint SXNGE's senior officers as XXNGC's general manager, chief financial officer and other senior officers. The term of this agreement is indefinite unless SXNGE notifies XXNGC of its intention to terminate this agreement with 30 days prior notice. XXNGC may not terminate this agreement during its term. This agreement is retroactive to March 8, 2006.

· *Equity Pledge Agreement, dated August 17, 2007.* Under this agreement entered into between SXNGE, on the one hand, and XXNGC and certain shareholders of XXNGC, on the other hand, to secure the payment obligations of XXNGC under the consulting service agreement described above, the XXNGC shareholders party to this equity pledge agreement have pledged to SXNGE all of their equity ownership interests in XXNGC. Upon the occurrence of certain events of default specified in this agreement, SXNGE may exercise its rights and foreclose on the pledged equity interest. Under this agreement, the pledgors may not transfer the pledged equity interest without SXNGE's prior written consent. This agreement will also be binding upon successors of the pledgor and transferees of the pledged equity interest. The term of the pledge is two years after the obligations under the Consulting Service Agreement have been fulfilled. This agreement is retroactive to March 8, 2006.

· *Option Agreement, dated August 17, 2007.* Under this agreement entered into between SXNGE, on the one hand, and XXNGC and certain shareholders of XXNGC, on the other hand, the XXNGC shareholders party to this option agreement irrevocably granted to SXNGE, or any third party designated by SXNGE, the right to acquire, in whole or in part, the respective equity interests in XXNGC of these XXNGC shareholders. The option agreement can be terminated by SXNGE by notifying XXNGC of its intention to terminate this agreement with 30 days prior notice. The option agreement is retroactive to March 8, 2006.

· *Addendum to the Option Agreement, dated August 8, 2008.* Under this addendum to the option agreement entered into between SXNGE, on the one hand, and XXNGC and certain shareholders of XXNGC, on the other hand, the XXNGC shareholders irrevocably granted to SXNGE an option to purchase the XXNGC shareholders' additional equity interests in XXNGC (the "Additional Equity Interest") in connection with any increase in XXNGC's registered capital subsequent to the execution of the option agreement described above, at \$1.00 or the lowest price permissible under applicable law at the time that SXNGE exercises the option to purchase the Additional Equity Interest. The option agreement can be terminated by SXNGE by notifying XXNGC of its intention to terminate this agreement with 30 days prior notice. This addendum is retroactive to June 30, 2008.

· *Proxy Agreement, dated August 17, 2007.* Under this agreement entered into between SXNGE, on the one hand, and XXNGC and certain shareholders of XXNGC, on the other hand, the XXNGC shareholders irrevocably granted to SXNGE the right to exercise their shareholder voting rights, including attendance at and voting of their shares at shareholders meetings in accordance with the applicable laws and XXNGC's articles of association. This agreement is retroactive to March 8, 2006.

Foreign Currency Translation

Our reporting currency is the U.S. dollar. The functional currency of XXNGC and the Company's and XXNGC's PRC subsidiaries is the Chinese Renminbi ("RMB"). The results of operations and financial position of XXNGC and the Company's and XXNGC's PRC subsidiaries are translated to U.S. dollars using the period end exchange rates as to assets and liabilities and weighted average exchange rates as to revenues, expenses and cash flows. Capital accounts are translated at their historical exchange rates when the capital transaction occurred. The resulting currency translation adjustments are recorded as a component of accumulated other comprehensive income (loss) within stockholders' equity.

The balance sheet amounts, with the exception of equity, were translated at the September 30, 2012 exchange rate of RMB 6.32 to \$1.00 as compared to RMB 6.35 to \$1.00 at December 31, 2011. The equity accounts were stated at their historical rate. The average translation rates applied to income and cash flow statement amounts for the nine months ended September 30, 2012 and 2011 were RMB 6.31 and RMB 6.49 to \$1.00, respectively.

Cash and Cash Equivalents

Cash and cash equivalents include cash on hand and demand deposits in accounts maintained with state-owned banks within the PRC, and private sector banks in Hong Kong and the United States. The Company considers all highly liquid investments with original maturities of three months or less at the time of purchase to be cash equivalents.

The Company maintains balances at financial institutions which, from time to time, may exceed Hong Kong Deposit Protection Board ("HKDPB") insured limits for the banks located in Hong Kong or may exceed Federal Deposit Insurance Corporation ("FDIC") insured limits for the banks located in the United States. Balances at financial institutions or state-owned banks within the PRC are not covered by insurance. As of September 30, 2012 and December 31, 2011, the Company had total deposits of \$8,100,455 and \$9,236,515, respectively, without insurance coverage or in excess of HKDPB or FDIC insured limits. The Company has not experienced any losses to date as a result of this policy.

Accounts Receivable

Accounts receivable are presented net of an allowance for doubtful accounts. Management periodically reviews the composition of accounts receivable and analyzes historical bad debts, customer concentrations, customer credit-worthiness, current economic trends and changes in customer payment patterns to evaluate the adequacy of the

allowance.

Management considers accounts past due after three months. Delinquent account balances are allowed for when management has determined that the likelihood of collection is not probable. Uncollectible receivables are written off against the allowance for doubtful accounts when identified. The Company recorded allowances for doubtful accounts in the amount of \$12,479 and \$127,619 as of September 30, 2012 and December 31, 2011, respectively.

11

Employee Advances

From time to time, the Company advances predetermined amounts based upon internal Company policy to certain employees and internal units. As of September 30, 2012 and December 31, 2011, the Company had employee advances in the amount of \$812,524 and \$285,270, respectively.

Inventories

Inventories are stated at the lower of cost or market, as determined on a first-in, first-out basis. Management compares the cost of inventories with the market value, and writes down the inventories to their market value, if lower than cost. Inventories consist of material used in the construction of pipelines, material used in repairing and modifying vehicles and material used in processing LNG. Inventory also consists of LNG and gasoline.

The following are the details of the inventories:

	September 30, 2012	December 31, 2011
Materials and supplies	\$ 2,263,761	\$ 1,529,678
Liquefied natural gas	1,180,983	298,016
Gasoline	240,522	111,060
	\$ 3,685,266	\$ 1,938,754

Investments in Unconsolidated Joint Ventures

Investee companies that are not required to be consolidated, but over which the Company exercises significant influence, are accounted for under the equity method of accounting. Whether or not the Company exercises significant influence with respect to an investee depends on an evaluation of several factors including, among others, representation on the investee company's board of directors and ownership level, which is generally a 20% to 50% interest in the voting securities of the investee company. Under the equity method of accounting, the Company's share of the earnings or losses of the investee company is reflected in the caption "other income (expense), net" in the consolidated statements of income and comprehensive income.

The Company's investment in unconsolidated joint ventures that are accounted for on the equity method of accounting represents the Company's 49% interest in the JV. The investment in the JV amounted to \$1,583,000 and \$1,574,000 at September 30, 2012 and December 31, 2011, respectively. The JV has not had any operations to date.

The financial position of the JV is summarized below:

	September 30, 2012	December 31, 2011
Current assets	\$ 3,230,612	\$ 3,212,245
Noncurrent assets	-	-
Total assets	3,230,612	3,212,245
Current liabilities	-	-
Noncurrent liabilities	-	-
Equity	3,230,612	3,212,245
Total liabilities and equity	\$ 3,230,612	\$ 3,212,245

Property and Equipment

Property and equipment are stated at cost. Expenditures for maintenance and repairs are charged to earnings as incurred while additions, renewals and betterments are capitalized. Depreciation of property and equipment is provided using the straight-line method for all assets with estimated lives as follows:

Office equipment	5 years
Operating equipment	5-20 years
Vehicles	5 years
Buildings and improvements	5-30 years

The following are the details of the property and equipment:

	September 30, 2012	December 31, 2011
Office equipment	\$ 891,812	\$ 823,822
Operating equipment	173,309,864	158,183,281
Vehicles	4,110,619	3,540,962
Buildings and improvements	38,233,831	41,713,318
Total property and equipment	216,546,126	204,261,383
Less accumulated depreciation	(37,172,028)	(30,163,629)
Property and equipment, net	\$ 179,374,098	\$ 174,097,754

Depreciation expense for the three months ended September 30, 2012 and 2011 was \$3,375,601 and \$2,464,032, respectively. Depreciation expense for the nine months ended September 30, 2012 and 2011 was \$9,915,078 and

\$6,106,122, respectively.

Disposal of fixed assets

In an effort to utilize the Company's resource and maximize its operation results, the Company decided to reduce the scale of its CNG fueling station business and expand its fueling station development of LNG. During the third quarter of 2012, the Company closed five CNG fueling stations: 1) Tanan fueling station, 2) Donghuan fueling station, 3) Fenghe fueling station, 4) Tongchuan fueling station, and 5) Yan'an fueling station. These five CNG fueling stations suffered accumulated operation loss for the past few years. Simultaneously, the Company disposed all the buildings, equipment, and other fixed assets attached to them.

The following are the details of the disposed fixed assets:

	Original value	Accumulated depreciation	Net value	Proceeds from sales	Loss/(gain) on disposal
Tanan Fueling Station	\$2,377,500	\$ 731,962	\$1,645,538	\$746,169	\$ 899,369
Donghuan Fueling Station	1,927,297	588,774	1,338,523	621,808	716,715
Fenghe Fueling Station	1,981,250	614,145	1,367,105	388,630	978,475
Tongchuan Fueling Station	1,743,500	522,830	1,220,670	466,356	754,314
Yan'an Fueling Station	1,902,000	610,666	1,291,334	621,808	669,527
Other equipments	7,608	2,138	5,470	6,143	(674)
	\$9,939,155	\$ 3,070,515	\$6,868,640	\$2,850,914	\$4,017,726

Construction in Progress

Construction in progress consists of (1) the costs for constructing compressed natural gas (“CNG”) fueling stations, the liquefied natural gas (“LNG”) project in Jingbian County, and the natural gas infrastructure project in Xi’an Fangzhi District and International Port District, and (2) other costs related to construction in progress projects, including technology licensing fees, equipment purchases, land use rights acquisition costs, capitalized interests and other construction fees. No depreciation is provided for construction in progress until such time as the assets are completed and placed into service. To the extent that the borrowings could have been avoided, should the construction in progress projects not be implemented, interest incurred on such borrowings during construction period is capitalized into construction in progress. All other interest is expensed as incurred.

As of September 30, 2012 and December 31, 2011, the Company had construction in progress in the amount of \$51,567,976 and \$45,882,320, respectively. Interest cost capitalized into construction in progress for the three months ended September 30, 2012 and 2011 amounted to \$4,493,138, and \$1,533,071, respectively. Interest cost capitalized into construction in progress for the nine months ended September 30, 2012 and 2011 amounted to \$7,389,545, and \$5,682,273, respectively.

Construction in progress at September 30, 2012 and December 31, 2011 is set forth in the table below. The column of “estimated additional cost to complete” reflects the amounts currently estimated by management to be necessary to complete the relevant project. As of September 30, 2012, the Company was not contractually or legally obligated to expend the estimated additional cost to complete these projects, except to the extent reflected in Note 13 to the consolidated financial statements.

Edgar Filing: China Natural Gas, Inc. - Form 10-Q

Project Description	Location	September 30, 2012	Commencement date	Expected completion date	Estimated additional cost to complete
Phase I of LNG Project	Jingbian County, Shaanxi Province, PRC	\$ 8,246,119 (1)	December 2006	March 2014 (2)	\$ 102,000 (3)
Phases II and III of LNG Project	Jingbian County, Shaanxi Province, PRC	13,901,393 (4)	December 2006	December 2015	193,586,599 (5)
Fangzhi District	Fangzhi District, Xi'an, PRC	8,842,118	October 2010	December 2013	4,181,691
Sa Pu Mother Station	Henan Province, PRC	1,343,923	July 2008	June 2013	6,130,000
International Port(6)	International Port District, Xi'an, PRC	9,835,400	May 2009	December 2020	295,300,000
LNG fueling stations	Shaanxi & Henan Province, PRC	1,564,329	Various	Various	11,099,671
Other Construction in Progress Costs	PRC	7,834,694	Various	Various	1,200,000
		\$ 51,567,976			\$ 511,599,961

Project Description	Location	December 31, 2011	Commencement date	Expected completion date	Estimated additional cost to complete
Phase I of LNG Project	Jingbian County, Shaanxi Province, PRC	\$ 6,531,004	December 2006	September 2012	\$ 385,359
Phases II and III of LNG Project	Jingbian County, Shaanxi Province, PRC	8,849,299	December 2006	December 2015	198,638,693
Fangzhi District	Fangzhi District, Xi'an, PRC	19,346,484	October 2010	June 2012	1,361,198
Sa Pu Mother Station	Henan Province, PRC	1,090,627	July 2008	June 2013	6,300,000
International Port	International Port District, Xi'an, PRC	5,715,443	May 2009	December 2020	299,400,000
LNG fueling stations	Shaanxi & Henan Province, PRC	899,653	Various	Various	11,692,347
Other Construction in Progress Costs	PRC	3,449,810	Various	Various	3,000,000
		\$ 45,882,320			\$ 520,777,597

- (1) Includes \$5,456,625 of construction cost and \$2,789,494 of capitalized interest for Phase I of the LNG Project.

The Company completed most of the construction of Phase I of the LNG plant and initiated commercial production and sale on July 16, 2011. Phase I of the LNG plant has a processing capacity of 500,000 cubic meters of LNG per day, or approximately 150 million cubic meters of LNG per year. Construction of Phase I of the LNG plant experienced delays due to policy changes with respect to tariff exemptions for core equipments imported by the Company and the increased international shipment time for ordered equipments. As certain facilities, including the staff dormitory building are still under construction due to shortage of funds, the project hasn't been completely transferred from construction in progress to property and equipment, though a substantial amount of construction in progress has been transferred to property and equipment.

- (2) Includes costs the Company expected to expend to complete test runs and make installment payments to contractors. The total expected cost of \$68.7million for the construction of Phase I of the LNG project exceeded the amount originally anticipated by the Company. The increased costs were attributable to unforeseen cost overruns and escalations, including increased material and labor costs incurred to reinforce pilings based upon modified engineering analysis, and increased prices for land use rights, which the Company believes resulted from the energy resource exploration activities in nearby areas.
- (3) Includes \$9,198,835 of construction cost and \$4,702,558 of capitalized interest for Phases II and III of the LNG project.

(4) This amount reflects the estimated costs of Phases II and III of the LNG project from September 30, 2012 to December 31, 2015, including an estimated \$178 million of construction costs and \$15 million of capitalized interest. Such costs should be able to finance the construction of a facility capable of processing 3 million cubic meters of LNG per day, or approximately 900 million cubic meters of LNG per year.

- (5) Xi'an International Port District Committee, a local government agency in the PRC, pursuant to a conditional non-binding agreement, has appointed XXNGC to be the developer of natural gas infrastructure for Xi'an International Port District, a former agricultural area that has been zoned for urbanization. If XXNGC chooses to proceed with the project, it will be responsible for the construction and all costs related thereof a natural gas pipeline network that will service residential, commercial and industrial buildings and users, as well as fueling stations and related infrastructure. The estimated cost of \$295,300,000 was based on a third-party feasibility study and management's estimate. The Company is the only natural gas provider in the surrounding area and expects that it would supply natural gas to the International Port District once construction is completed. If the Company decides not to proceed with this project, it expects to be able to obtain a refund from subcontractors of the \$9,835,400 invested as of September 30, 2012 or sell the construction-in-progress assets to third parties.

Goodwill

The excess of the cost of an acquired entity over the net of the amounts assigned to assets acquired and liabilities assumed is recognized as goodwill. Goodwill is tested for impairment at the reporting unit level (operating segment or one level below an operating segment) on an annual basis in the fourth quarter or more frequently if indicators of impairment exist. The Company uses a two-step goodwill impairment test to identify the potential impairment and to measure the amount of goodwill impairment, if any. The first step is to compare the fair value of the reporting unit with its carrying amount, including goodwill. If the fair value of the reporting unit exceeds its carrying amount, goodwill is considered not impaired. If the carrying amount of a reporting unit exceeds its fair value, the second step of the goodwill impairment test is performed to measure the amount of impairment loss, if any. Under step two, the impairment loss is measured by comparing the implied fair value of the reporting unit goodwill with the carrying amount of that goodwill. If the carrying amount of the reporting unit goodwill exceeds the implied fair value of that goodwill, an impairment loss is recognized in an amount equal to that excess.

Long-Lived Assets

We evaluate the carrying value of long-lived assets to be held and used whenever events or changes in circumstances indicate that the assets might be impaired. Impairment losses are recorded on long-lived assets used in operations when indicators of impairment are present and the undiscounted cash flows estimated to be generated by those assets are less than the assets' carrying amounts. In that event, a loss is recognized based on the amount by which the carrying amount exceeds the fair market value of the long-lived assets. Loss on long-lived assets to be disposed of is determined in a similar manner, except that fair market values are reduced for the cost of disposal. Based on our review, no impairment indicators were noted at September 30, 2012.

Fair Value of Financial Instruments

The accounting standards regarding fair value of financial instruments and related fair value measurements define fair value, establish a three-level valuation hierarchy for disclosures of fair value measurement, and provide disclosure requirements for fair value measures. The carrying amounts reported in the consolidated balance sheets for current receivables and payables qualify as financial instruments. Management concluded the carrying values are a reasonable estimate of fair value because of the short period of time between the origination of such instruments and their expected realization and, if applicable, their stated interest rate approximates current rates available. The three levels are defined as follows:

Level 1 inputs to the valuation methodology are quoted prices (unadjusted) for identical assets or liabilities in active markets.

Level 2 inputs to the valuation methodology include quoted prices for similar assets and liabilities in active markets, and inputs that are observable for the asset or liability, either directly or indirectly, for substantially the full term of the financial instrument.

Level 3 inputs to the valuation methodology are unobservable.

The accounting standard regarding derivatives and hedging specifies that a contract that would otherwise meet the definition of a derivative but is both (a) indexed to the Company's own stock and (b) classified to stockholders' equity in the statement of financial position would not be considered a derivative financial instrument. This Financial Accounting Standards Board's ("FASB") accounting standard also provides a new two-step model to be applied in determining whether a financial instrument or an embedded feature is indexed to an issuer's own stock and thus able to qualify for the exception.

These common stock purchase warrants do not trade in an active securities market and, as such, the Company estimates the fair value of these warrants using the Black-Scholes Option Pricing Model, using the following assumptions:

	September 30, 2012	December 31, 2011		
Annual dividend yield	-	-		
Expected life (years)	0.07	0.82		
Risk-free interest rate	0.06	% 0.10	%	%
Expected volatility	77	% 55	%	%

The following table sets forth by level within the fair value hierarchy the Company's financial assets and liabilities that were accounted for at fair value on a recurring basis as of September 30, 2012.

	Carrying Value at September 30, 2012	Fair Value Measurement at September 30, 2012		
		Level 1	Level 2	Level 3
Redeemable liability – warrants	17,500,000	-	17,500,000	-

Other than the assets and liabilities set forth in the table above, the Company did not identify any other assets or liabilities that are required to be accounted for at fair value on the balance sheet. The carrying value of long-term debt with variable interest rate approximates its fair value based on market rates available to the Company with similar terms (See Notes 5 and 6).

The following is a reconciliation of the beginning and ending balance of warrants liability measured at fair value on a recurring basis as of September 30, 2012:

Beginning balance	\$4
Change in fair value	(4)
Ending balance	\$-

18

The fair value of the warrants was \$0 and \$4 as of September 30, 2012 and December 31, 2011, respectively. The Company recognized a gain of \$1,233 and \$11,971 for the three months ended September 30, 2012 and 2011, respectively, and recognized a gain of \$4 and \$251,781 for the nine months ended September 30, 2012 and 2011, respectively to reflect the change in fair value of the warrants.

Revenue Recognition

Revenue is recognized when services are rendered to customers and when a formal arrangement exists, the price is fixed or determinable, the delivery is completed, no other significant obligations of the Company exist and collectability is reasonably assured. Payments received before all of the relevant criteria for revenue recognition are satisfied are recorded as unearned revenue. Revenue from gas and gasoline sales is recognized when gas and gasoline is pumped through pipelines to the end users. Revenue from installation of pipelines is recorded when the contract is completed and accepted by the customers. Construction contracts for installation of pipelines are usually completed within one to two months. Revenue from repairing and modifying vehicles is recorded when services are rendered to and accepted by the customers.

Stock-Based Compensations

The Company records and reports stock-based compensation based on a fair-value-based method of accounting for stock-based employee compensation and transactions in which an entity issues its equity instruments to acquire goods and services from non-employees. Compensation for stock granted to non-employees is determined as the fair value of the consideration received or the fair value of equity instruments issued, whichever is more reliably measured.

Income Taxes

FASB's accounting standard regarding income taxes requires the recognition of deferred tax assets and liabilities for the expected future tax consequences of events that have been included in the financial statements or tax returns. Under this method, deferred income taxes are recognized for the tax consequences in future years of temporary differences between the tax bases of assets and liabilities and their financial reporting amounts at each period end based on enacted tax laws and statutory tax rates applicable to the periods in which the differences are expected to affect taxable income. Valuation allowances are established, when necessary, to reduce deferred tax assets to the amount expected to be realized. As at September 30, 2012 and December 31, 2011, there were no significant book to tax differences except for warrants liability and stock based compensation. An uncertain tax position is recognized as a benefit only if it is "more likely than not" that the tax position would be sustained in a tax examination, with a tax examination being presumed to occur. Penalties and interest incurred related to underpayment of income tax are classified as income tax expense in the year incurred. No significant penalties or interest relating to income taxes have

been incurred during the three and nine months ended September 30, 2012 and 2011.

XXNGC, the Company's PRC VIE, and XXNGC's subsidiaries operate in the PRC. Pursuant to the tax laws of PRC, general enterprises are subject to income tax at an effective rate of 25%. However, under PRC income tax regulation, any company deemed to be engaged in the natural gas industry under such regulation enjoys a favorable income tax rate. Thus, XXNGC's income is subject to a reduced tax rate of 15%. All of XXNGC's subsidiaries are not deemed to be engaged in the natural gas industry under PRC income tax regulation and, accordingly, are subject to a 25% income tax rate.

The estimated tax savings as a result of the reduced tax rate enjoyed by XXNGC for the three months ended September 30, 2012 and 2011 amounted to approximately \$0 and \$565,315, respectively. The net effect on earnings per share had the income tax been applied would reduce basic and diluted earnings (loss) per share for the three months ended September 30, 2012 and 2011, from \$(0.07) to \$(0.07) and \$0.21 to \$0.19, respectively.

The estimated tax savings as a result of the reduced tax rate enjoyed by XXNGC for the nine months ended September 30, 2012 and 2011 amounted to approximately \$851,491 and \$1,691,566, respectively. The net effect on earnings per share, had the income tax been applied, would decrease basic and diluted earnings per share for the nine months ended September 30, 2012 and 2011, from \$0.27 to \$0.23 and \$0.53 to \$0.45, respectively.

China Natural Gas, Inc. was incorporated in the United States and has incurred net operating loss for income tax purpose for the period ended September 30, 2012. The estimated net operating loss carry-forwards for United States income tax purposes amounted to \$12,583,150 as of September 30, 2012, which may be available to reduce future years' taxable income. These carry-forwards will expire, if not utilized through 2032. Management believes that the realization of the benefits arising from this loss appear to be uncertain due to Company's limited operating history and continuing losses for U.S. income tax purposes. Accordingly, the Company has provided a 100% valuation allowance at September 30, 2012 and December 31, 2011 for net deferred tax assets resulting from net operating loss carry forwards, stock based compensation and warrants liability. Management reviews this valuation allowance periodically and makes adjustments as warranted. The valuation allowances were as follows:

Valuation allowance	For the nine months ended September 30, 2012	Year ended December 31, 2011
Balance, beginning of period	\$ 4,222,489	\$ 759,872
Increase	968,558	3,462,617
Balance, end of period	\$ 5,191,047	\$ 4,222,489

Provision for income tax is as follow:

	For the three months ended September 30,		For the nine months ended September 30,	
	2012	2011	2012	2011
Current	\$ 87,239	\$ 1,529,451	\$ 2,129,838	\$ 3,549,122
Deferred	-	-	-	-
	\$ 87,239	\$ 1,529,451	\$ 2,129,838	\$ 3,549,122

The following is a reconciliation of the provision for income tax at the PRC tax rate, to the income tax reflected in the Consolidated Statement of Income and Comprehensive Income:

	For the three months ended September 30,				For the nine months ended September 30,			
	2012		2011		2012		2011	
Tax expense at statutory rate-US	35.0	%	35.0	%	35.0	%	35.0	%
Changes in valuation allowance-US	(35.0))%	(35.0))%	(35.0))%	(35.0))%
Foreign income tax rate-PRC	25.0	%	25.0	%	25.0	%	25.0	%
Effect of favorable tax rate	-		(7.4))%	(7.5))%	(8.4))%
Other item (1)	(31.2))%	7.6	%	10.3	%	7.1	%
Total provision for income taxes	(6.2))%	25.2	%	27.8	%	23.7	%

(1) The 31.2% represents loss of \$261,626 incurred by XXNGC for the three months ended September 30, 2012. The 7.6% represents \$1,918,536 in expenses incurred by the Company that are not deductible in the PRC for the three months ended September 30, 2011. The 10.3% represents \$2,767,311 in expenses incurred by the Company that are not deductible in the PRC for the nine months ended September 30, 2012. The 7.1% represents \$4,309,840 in expenses incurred by the Company that are not deductible in the PRC for the nine months ended September 30, 2011.

The Company has cumulative undistributed earnings of foreign subsidiaries of approximately \$69,416,649 as of September 30, 2012, which is included in consolidated retained earnings and will continue to be indefinitely reinvested in international operations. Accordingly, no provision has been made for U.S. deferred taxes related to future repatriation of these earnings, nor is it practicable to estimate the amount of income taxes that would have to be provided if the Company concluded that such earnings will be remitted in the future.

Franchise Tax

According to the laws of the State of Delaware, we are required to pay annual franchise tax to the state government based on the number of the authorized shares.

Basic and Diluted Earnings Per Share

Basic net earnings per share are based upon the weighted average number of common shares outstanding. Diluted net earnings per share are based on the assumption that all dilutive convertible shares and stock options were converted or exercised, unless this results in anti-dilution. Dilution is computed by applying the treasury stock method. Under this method, options and warrants are assumed to be exercised at the beginning of the period (or at the time of issuance, if later), and as if funds obtained thereby were used to purchase common stock at the average market price during the period.

Reclassification

Certain reclassifications have been made to the prior year financial statements to confirm with the current year presentation.

Recent Accounting Pronouncements

In July 2012, the FASB issued ASU No. 2012-02, *“Intangibles-Goodwill and Other (Topic 350): Testing Indefinite-Lived Intangible Assets for Impairment”* (“ASU 2012-02”). Under the amendments in this Update, an organization has the option first to assess qualitative factors to determine if a quantitative impairment test of the indefinite-lived intangible asset is necessary. If the qualitative assessment reveals that it’s more likely than not that the asset is impaired, a calculation of the asset’s fair value is required. Otherwise, no quantitative calculation is necessary. The amendments will be effective for annual and interim impairment tests performed for fiscal years beginning after September 15, 2012. Management does not expect the adoption of this standard will have a significant effect on the Company’s consolidated financial position or results of operations.

In October, 2012, the FASB issued ASU No. 2012-04, *“Technical Corrections and Improvements”* (“ASU 2012-04”). The amendments cover a wide range of topics in the FASB ASC. The amendments are incorporated into two sections: a. Technical corrections and improvements. b. Conforming amendments related to fair value measurements.

a. The amendments in the technical corrections and improvements section are categorized as follows:

Source literature amendments. These amendments are considered necessary due to differences between source literature and the FASB ASC. The amendments primarily carry forward legacy document guidance and/or subsequent amendments into the FASB ASC. Often, either writing style or phrasing in the legacy documents did not directly relate to the FASB ASC format and style so that the meaning of certain guidance might have been unintentionally altered.

Guidance clarification and reference corrections. These amendments include updated wording or corrected references, or a combination of both.

Relocated guidance. These amendments primarily move authoritative literature guidance from one location to another location that is deemed more appropriate within the FASB ASC.

- b. On the fair value measurements issue, the guidance in ASU 2012-04 identifies when the use of the term “fair value” should be linked to the definition of fair value included in FASB ASC 820, entitled Fair Value Measurement. Most of the amendments are of a nonsubstantive nature. Many of the amendments relate to conforming wording to be consistent with the terminology in FASB ASC 820 for example, references to market value and current market value have been changed to appropriately refer to fair value so that the literature is consistent throughout.

For public entities, the amendments that are subject to the transition guidance will be effective for fiscal periods beginning after Dec. 15, 2012. Management does not expect the adoption of this standard will have a significant effect on the Company's consolidated financial position or results of operations.

In October, 2012, the FASB issued ASU No. 2012-06, "Subsequent Accounting for an Indemnification Asset Recognized at the Acquisition Date as a Result of a Government-Assisted Acquisition of a Financial Institution" ("ASU 2012-06"). This amendment requires that indemnification assets recognized in accordance with Subtopic 805-20, Business Combinations—Identifiable Assets and Liabilities, and Any Noncontrolling Interest, as a result of a government-assisted acquisition of a financial institution involving an indemnification agreement should be subsequently measured on the same basis as the asset subject to indemnification. For public and nonpublic entities, the amendments in this Update are effective for fiscal years, and interim periods within those years, beginning on or after December 15, 2012. Management does not expect the adoption of this standard will have a significant effect on the Company's consolidated financial position or results of operations.

Note 3 –Goodwill and Other intangible Assets

Goodwill is the amount the Company paid to acquire 100% of the equity interests of Makou and 58.5284% of the equity interests of XTJH in excess of the fair value of Makou and XTJH's identifiable assets and liabilities, respectively. Annual impairment testing is performed during the fourth quarter of each year unless events or circumstances indicate earlier impairment testing is required. No impairment loss was recognized during the three and nine months ended September 30, 2012.

Other intangible assets include primarily the technical license related to liquefied natural gas business, which consisted of the following:

	September 30, 2012	December 31, 2011
Operating rights	\$ 5,337,839	\$ 5,221,635
Technical license (LNG)	10,181,942	10,527,223
Land use rights	4,830,525	3,147,108
Other	15,739	14,278
Total	\$ 20,366,045	\$ 18,910,244

The operating rights are deemed to have an indefinite useful life as cash flows are expected to continue indefinitely. The operating rights will not be amortized until their useful life is deemed to be no longer indefinite.

The technical license (LNG) is being amortized over its estimated useful life of 20 years. Amortization expense for the three months ended September 30, 2012 and 2011 was \$134,988 and \$87,715, respectively. Amortization expense for the nine months ended September 30, 2012 and 2011 was \$405,988 and \$87,715, respectively. Accumulated amortization at September 30, 2012 was \$630,740.

The land use rights are being amortized over their estimated useful life of 30 years. For the three months ended September 30, 2012 and 2011, amortization expense amounted to \$40,567 and \$28,668, respectively. For the nine months ended September 30, 2012 and 2011, amortization expense amounted to \$121,700 and \$87,018, respectively. As of September 30, 2012, accumulated amortization was approximately \$294,409.

Estimated amortization for the next five years and thereafter is as follows:

2012	\$ 175,896
2013	703,583
2014	703,583
2015	703,583
2016	692,872
thereafter	10,251,978
	\$ 13,231,495

Note 4 – Prepaid Expenses and Other Assets

Prepaid expenses and other assets consisted of the following:

	September 30, 2012	December 31, 2011
Prepaid rent – natural gas stations	\$ 487,508	\$ 2,497,681
Prepayment for acquiring land use right	1,266,400	4,596,080
Advances on purchasing equipment and construction in progress	3,704,774	2,297,909
Refundable security deposits	956,484	592,913
Long term investment deposit	-	991,620
Total	\$ 6,415,166	\$ 10,976,203

Prepaid rent represents prepayments for leasing the land of our fueling stations. In China, land rental usually need to be paid in advance and then amortized into expense on a straight-line basis over the term of the land lease.

All land in the PRC is government owned. However, the government grants users land use rights. The Company is in the process of negotiating the final purchase price with relevant local government and the land use rights have not yet been granted to the Company. Therefore, the Company did not amortize these amounts for land use rights.

Advances for purchasing equipment and construction in progress are monies deposited or advanced to outside vendors or subcontractors for the purchase of operating equipment or for services to be provided for construction in progress.

Refundable security deposits are monies deposited with one of the Company's major vendors and a gas station landlord. These amounts will be returned to the Company if the other party terminates the business relationship or upon the expiration of the lease.

Long term investment deposit represents for the acquisition of Xiantao City Jinhua Gas and Oil Co., Ltd. ("XTJH") by Xi'an Xilan Natural Gas Co., Ltd., Ltd. ("XXNGC").

Note 5 –Senior Notes

The Company's securities purchase agreement with Abax Lotus Ltd. ("Abax") was amended on January 29, 2008 (as amended, the "Purchase Agreement"). Under the Purchase Agreement, on January 29, 2008, the Company sold to Abax \$20,000,000 in principal amount of its 5.0% Guaranteed Senior Notes due January 30, 2014 (the "Senior Notes") and warrants to purchase 1,450,000 shares of its common stock (the "Abax Warrants") and, on March 3, 2008, the Company issued to Abax an additional \$20,000,000 in principal amount of Senior Notes.

On the dates set forth in the table below, the Company will be required to make repayments of the corresponding percentage of the principal amount (or such lesser principal amount as shall be outstanding then) in respect of the aggregate outstanding principal amount of the Senior Notes:

Date	Repayment Percentage
July 30, 2011 (paid on August 5, 2011)	8.3333 %
January 30, 2012 (paid on March 7, 2012)	8.3333 %
July 30, 2012	16.6667 %
January 30, 2013	16.6667 %
July 30, 2013	25.0000 %
January 30, 2014	25.0000 %

The second repayment for 8.3333% of the principal of the Senior Notes was due on January 30, 2012. After negotiation with Abax, the note-holders agreed that the Company could make the payment on or before March 9, 2012. On March 7, 2012, the Company paid the principal due on January 30, 2012 in full plus accrued interest for the period from July 30, 2011 to January 29, 2012, as well as a penalty interest of \$28,416 for the period from February 6, 2012 to March 7, 2012. Abax issued a waiver to exempt the Company from any other consequences of the late payment.

Edgar Filing: China Natural Gas, Inc. - Form 10-Q

The repayment of 16.6666% of the principal of the notes payable plus accrued interest of the period from January 29, 2012 to July 30, 2012 was due on July 30, 2012. The company didn't make the payment on time.

The holders of a majority of the Senior Notes (the “Holders”) notified the Company on August 21, 2012 (the “Default Notice”) that the Company was in default of the Senior Notes for failure to make the interest payment due and a mandatory redemption of the Senior Notes on July 30, 2012 (the “Default”). In the notice, the Holders also demanded that the Company make all payments due as of July 30, 2012 under the Senior Notes to avoid acceleration of all payments under the Senior Notes and foreclosure of collaterals pledged to secure the Senior Notes.

On September 5, 2012, the Company received another notice from the Holders that the Holders have elected to exercise their right to accelerated payment of the Senior Notes as a result of the continued Default (the “Acceleration Notice”). The immediate acceleration of all amounts owing under the Senior Notes totals approximately RMB 249,450,516.

Further, on September 10, 2012, the Company received a demand notice from the Holders’ legal counsel on behalf of the Holder for the payment of all amounts owing under the Senior Notes (the “Demand Notice”) within 15 days from the date of the Demand Notice. If the Company does not meet the demand, the Holders intend to pursue all of its legal rights under the transaction documents, including, without limitation:

1 requiring the Trustee to initiate suit in the courts of New York with respect to the Company’s failure to pay the entire amount due to the Holders under the Senior Notes;

initiate involuntary bankruptcy proceedings with respect to the Company under the U.S. Federal Bankruptcy Code;

1 initiate arbitration in Hong Kong against the Company for breaches of the Company’s obligations under the SPA;

1 exercising its rights under the Warrant Agreement to require the redemption of all Warrants held by it at the Redemption Price (as defined therein); and

1 all other rights under the transaction documents relating to the Senior Notes in relation to the Default, which may include, foreclosing on the security interest in 65% of all outstanding equity interest of the Company’s wholly owned subsidiary, Shaanxi Xilan Natural Gas Equipment Co., Ltd., and all funds in the account where the proceeds from the Senior Notes were deposited.

As of now the Company has not meet the demand, and the Holders have not taken any legal action. The Company is currently negotiating possible resolutions to the foregoing demands relating to the Senior Notes with the Holders. There is no assurance that the Company will be successful in completing such negotiations or even if it does complete them, such resolutions will be on the terms favorable to the Company. The Company reclassified all outstanding amounts of the Senior Notes to current liabilities as of September 30, 2012.

Senior notes consist of the following:

	September 30, 2012	December 31, 2011
Notes payable	\$ 38,255,832	\$ 41,053,100
Less discount	-	(5,590,267)
	38,255,832	35,462,833
Less current portion	(38,255,832)	(9,671,682)
	\$-	\$ 25,791,151

The Company has the option to redeem all, but not less than all, of the Senior Notes at the redemption prices set forth below (in each case expressed as a percentage of the outstanding unpaid principal amount), plus accrued and unpaid interest, if redeemed during the twelve-month period commencing on January 29 of the years set forth below:

Year	% of Outstanding Unpaid Principal	
2012	102	%
2013	100	%

Upon the occurrence of certain events defined in the indenture, the Company must offer the holders of the Senior Notes the right to require the Company to purchase the Senior Notes in an amount equal to 105% of the aggregate principal amount purchased plus accrued and unpaid interest on the Senior Notes purchased.

The terms of the Indenture obligated the Company to complete a qualifying listing, as defined therein, by January 29, 2009. As the Company did not complete a qualifying listing by such date, the Company was obligated to pay to Abax an additional interest at the rate of 3.0% per annum, calculated from and including January 29, 2009 to the date of its qualifying listing. However, Abax caused the Trustee to waive the Company's obligation to pay such additional interest in February 2009. The waiver extended the deadline for a qualifying listing to May 4, 2009, but provided that if a qualifying listing were not completed by such date, additional interest of 3.0% per annum would be payable from January 29, 2009 to the date of the Company's qualifying listing. The Company completed its NASDAQ listing, which constituted a qualifying listing, on June 1, 2009, after the extended deadline of May 4, 2009. Therefore, under the terms of the initial waiver, the Company was required to pay additional interest at a rate of 3.0% per annum for the period from January 29, 2009 to June 1, 2009, or \$406,667. However, in August 2009, the Company reached an agreement with Abax whereby the Company agreed to pay Abax \$113,214, which reflected additional interest at the rate of 3.0% per annum for the period from April 30, 2009 to May 31, 2009, and \$50,000, which reflected out-of-pocket expenses incurred by Abax in connection with a financing transaction proposed in 2008, but never consummated.

The indenture limits the Company's ability to incur debt and liens, make dividend payments and stock repurchases, make investments, reinvest proceeds from asset sales and enter into transactions with affiliates, among other things. The indenture also requires the Company to maintain certain financial ratios.

In connection with the issuance of the Senior Notes, the Company paid \$2,122,509 in debt issuance costs, which are being amortized over the life of the Senior Notes. The Company amortized all outstanding amounts of debt issuance costs during the third quarter of 2012. For the three months ended September 30, 2012 and 2011, the Company amortized \$312,418 and \$102,458 of the issuance costs in each of the periods, which were recorded as capitalized interest included in construction in progress. For the nine months ended September 30, 2012 and 2011, the Company amortized \$517,334 and \$307,374 of the issuance costs in each of the periods, which were recorded as capitalized interest included in construction in progress.

The Abax Warrants are presently exercisable and have an exercise price of \$7.37 per share, although Abax has not exercised any of the Abax Warrants. The Company reclassified the Warrants to current liabilities as of September 30, 2012.

The Abax Warrants are considered derivative instruments required to be bifurcated from the original security because there is a redemption requirement if the holder does not exercise the Warrants. If Abax does not exercise the Abax Warrants prior to their expiration date of January 29, 2015, Abax can require the Company to repurchase the Abax Warrants for \$17,500,000. This amount is shown as a debt discount and is being amortized over the term of the Senior Notes. The Company amortized all outstanding amounts of debt discount during the third quarter of 2012. For the three months ended September 30, 2012 and 2011, the Company amortized \$3,754,794 and \$948,669 of the discounts, respectively, which were capitalized into construction in progress. For the nine months ended September 30, 2012 and 2011, the Company amortized \$5,590,267 and \$2,834,983 of the discounts, respectively, which were capitalized into construction in progress.

Note 6 –Bank Loan Payable

The Company's bank loan payable as of September 30, 2012 consists of:

A loan from Pudong Development Bank Xi'an Branch, due various dates from 2012 to 2014	\$ 13,455,500
Less current portion	(5,540,500)
	\$7,915,000

The loan is secured by XXNGC's equipment and vehicles located within the PRC. The carrying net value of the assets pledged is \$10,291,844 as of September 30, 2012. Interest expense for the three and nine months ended September 30, 2012 was \$236,958 and \$718,541, respectively (interest rate applied at September 30, 2012 was 6.90%). Interest expense for the three and nine months ended September 30, 2011 was \$297,928 and \$873,467, respectively (6.22% at September 30, 2011). During the first half of 2011, interest expense of \$575,539 was capitalized into construction in progress. According to the loan agreement, the interest rate is fixed throughout each single year and will only be adjusted at the beginning of the next year, based on the base interest rate on the same category of loans for the same term published by the People's Bank of China. XXNGC also entered into a guaranty with the lender to guarantee the repayment of the loans. As the People's Bank of China lowered the interest rate twice in June and July 2012, beginning January 1, 2013 the interest rate of these loans will reduce. According to an amendment to the loan agreement with the Bank, which was signed on October 2011, the Company is required to make repayments on the long term loan as follows:

Date	Repayment Percentage	Repayment Amount
October 5, 2011 (paid on October 10, 2011)	4.2	% \$791,500
December 5, 2011 (paid on December 5, 2011)	20.8	% 3,957,500
March 5, 2012 (paid on March 5, 2012)	4.2	% 791,500
December 5, 2012	20.8	% 3,957,500
March 5, 2013	8.3	% 1,583,000
December 5, 2013	16.7	% 3,166,000
March 5, 2014	8.3	% 1,583,000
December 5, 2014	16.7	% 3,166,000
	100.0	% \$18,996,000

If the default of the Senior Notes is not resolved, the Company may be deemed to be in default on its fixed asset loan from Shanghai Pudong Development Bank (“SPDB”) if the Holders initiate involuntary bankruptcy proceedings with respect to the Company and the Company does not obtain prior written approval from SPDB. The default of the loan with SPDB may result in full or partial acceleration of the repayment of the loan.

Note 7 – Warrants

No warrants were granted, forfeited or exercised during the three and nine months ended September 30, 2012.

The following is a summary of warrants outstanding and exercisable as of September 30, 2012:

Warrants Outstanding and Exercisable as of September 30, 2012

Exercise Price	Number	Average Remaining Contractual Life
\$ 14.86	383,654	0.07
\$ 7.37	1,450,000	2.33
	1,833,654	

Note 8 – Defined Contribution Plan

The Company is required to participate in a defined contribution plan operated by the local municipal government in accordance with PRC law and regulations. The contribution was \$171,241 and \$350,060 for the three months ended September 30, 2012 and 2011, respectively. The contribution was \$473,463 and \$530,142 for the nine months ended September 30, 2012 and 2011, respectively.

Note 9 – Stockholders' Equity

a) Statutory Reserve

The PRC Company Law, which is applicable to PRC companies with foreign ownership, stipulates that net income after taxation can only be distributed as dividends after appropriation has been made for the following:

- i. making up cumulative prior years' losses, if any;
- ii. allocations to the "statutory surplus reserve" of at least 10% of income after tax, as determined under PRC accounting rules and regulations, until the fund amounts to 50% of the Company's registered capital; and
- iii. allocations to the discretionary surplus reserve, if approved in the shareholders' general meeting.

As of September 30, 2012 and December 31, 2011, the remaining amount needed to fulfill the 50% registered capital requirement was approximately \$62,740,696 and \$63,202,798, respectively.

b) Stock-based Compensation

2009 Stock Option and Stock Award Plan

On March 11, 2009, the Board approved by written consent the China Natural Gas, Inc. 2009 Employee Stock Option and Stock Award Plan (the "Plan"). Pursuant to the Plan, there are currently 1,460,000 shares of common stock of the Company authorized for issuance and the Company has granted 669,900 stock options as of September 30, 2012, of which 274,750 have been exercised and 176,700 have been cancelled and are available for reissuance. Thus, there are currently 966,800 shares of common stock of the Company available for future issuance under the Plan and 218,450 options outstanding. The exercise price for all of the outstanding options is \$4.90 per share.

Compensation expense of \$148,038 and \$250,911 was recorded during the three months ended September 30, 2012 and 2011, respectively, relating to options granted under the Plan. Compensation expense of \$444,114 and \$479,622 was recorded during the nine months ended September 30, 2012 and 2011, respectively, relating to options granted

under the Plan.

As of September 30, 2012, \$296,076 of estimated expense with respect to non-vested stock-based compensation has yet to be recognized and will be recognized in expense over the optionee's remaining weighted average service period of approximately 0.5 year.

30

The following is a summary of the status of stock options outstanding and exercisable as of September 30, 2012:

Outstanding Options			Exercisable Options		
Exercise Price	Number	Average Remaining Contractual Life	Exercise Price	Number	Average Remaining Contractual Life
\$4.90	218,450	2.5 years	\$4.90	111,100	2.5 years

Note 10 – Earnings per Share

The following is a calculation of basic and diluted earnings per common share:

	For the three months ended September 30,		For the nine months ended September 30,	
	2012	2011	2012	2011
Basic earnings per share				
Net income	\$(1,523,597)	\$4,545,093	\$5,697,914	\$11,424,610
Weighted shares outstanding-Basic	21,458,654	21,458,654	21,458,654	21,403,052
Earnings per share-Basic	\$(0.07)	\$0.21	\$0.27	\$0.53
Diluted earnings per share				
Net income	\$(1,523,597)	\$4,545,093	\$5,697,914	\$11,424,610
Weighted shares outstanding-Basic	21,458,654	21,458,654	21,458,654	21,403,052
Effect of diluted securities-Warrants	-	-	-	-
Effect of diluted securities-Options	-	-	-	-
Weighted shares outstanding-Diluted	21,458,654	21,458,654	21,458,654	21,403,052
Earnings per share –Diluted	\$(0.07)	\$0.21	\$0.27	\$0.53

The Company had outstanding warrants of 1,833,654 as of September 30, 2012 and 2011. For the three and nine months ended September 30, 2012 and 2011, all 1,833,654 outstanding warrants were excluded from the diluted earnings per share calculation as the exercise price was greater than the average stock price during these periods.

The Company had 218,450 outstanding employee stock options as of September 30, 2012. For the three and nine months ended September 30, 2012 and 2011, the outstanding options were excluded from the diluted earnings per share calculation as the exercise price was greater than the average option price during this period.

Note 11 – Related Party Transactions

a) Other payable - related party

On February 24, 2011, the Company borrowed \$791,500 from the JV for working capital purposes. This payable is due on demand with no interest rate.

b) Borrowings from related party

As of September 30, 2012, the Company borrowed a total of \$2,679,945 from Mr. Hao Qu, a former employee of XXNGC and a shareholder of the Company, for working capital purposes. The loans were originally due in one year and required interest of 4.4075% per year, which is the annual USD lending rate applied by the Bank of China. The principal and interest was required to be paid on specified due dates beginning on February 16, 2012 through October 31, 2012. On March 22, May 17 and May 18, 2012, the Company entered into an agreement with Mr. Qu, pursuant to which certain borrowings would be due in 2013, rather than in 2012, and would bear a higher rate of interest. The Company hasn't repaid any principal of the borrowings to date.

Borrowings from Mr. Qu at September 30, 2012, consist of the following:

Short-term maturing on	
October 31, 2012, at 4.4075%	\$360,000
February 15, 2013, at 6.2250%	\$900,000
March 27, 2013, at 6.2250%	\$420,000
May 16, 2013, at 6.2250%	\$699,975
May 17, 2013, at 6.2250%	\$299,970
	\$2,679,945

c) The Wang loan

Demaoxing was formed in November 2007 by relatives of Mr. Qinan Ji, the Company's former Chief Executive Officer and current Chairman of the Company's Board of Directors (the "Demaoxing Promoters"). In January 2010, SXNGE, one of the Company's major subsidiaries, extended a loan of US\$9,858,240 to Ms. Taoxiang Wang (the "Wang Loan"), who obtained a 40% ownership interest in Demaoxing on January 21, 2010. Ms. Taoxiang Wang used her 40% ownership interest in Demaoxing and its assets as collateral for the Wang Loan. On January 26, 2010, the Wang Loan funds were remitted by SXNGE to an account of Demaoxing. Management of the Company believed that the Wang Loan was adequately secured by collateral. On January 21, 2010, the Demaoxing Promoters also transferred 30% of their ownership interests in Demaoxing to Shaanxi Rongxin Real Estate Co., Ltd. ("Rongxin"). The Board of Directors has determined that the Demaoxing Promoters retained indirect beneficial interests in Demaoxing after transferring their ownership interests and thus the Wang Loan was a related party transaction.

The Company's Board of Directors was not notified of the extension of the Wang Loan by the Company, and did not approve the Wang Loan. Upon learning of the existence of the Wang Loan in April 2010, the Board of Directors required that the Wang Loan be immediately repaid. In April 2010, Demaoxing repaid the principal of the Wang Loan and made an interest payment of US\$140,722, settling the Wang Loan in full.

Note 12 – Concentrations

Concentration of natural gas vendors:

	Three months ended		Nine months ended	
	September 30,		September 30,	
	2012	2011	2012	2011
Number of natural gas vendors	4	4	4	4
Percentage of total natural gas purchases	80 %	89 %	82 %	83 %

As of September 30, 2012 and December 31, 2011, the Company had \$0 and \$450,553, respectively, prepayment to its major suppliers.

The Company maintained long-term natural gas purchase agreements with two of its vendors, Huojia Hualong Petrochemical Co., Ltd. (“Huojia Hualong”) and Qinshui Lanyan Coal Bed Methane Co., Ltd (“Qinshui Lanyan”), as of September 30, 2012. Company's management reports that it does not expect any issues or difficulty in renewing the supply contracts with these vendors going forward.

Note 13 – Commitments and Contingencies

Lease Commitments

The Company entered into a series of long-term lease agreements with outside parties to lease land use rights for the Company's CNG fueling stations located in the PRC. The agreements have terms ranging from 10 to 30 years. The Company makes annual prepayments for most of these lease agreements. The Company also entered into five office leases in Xi'an, PRC, one office lease in Wuhan, PRC, one office lease in Yichang, PRC, one office lease in Huangshi, PRC and one office lease in New York, New York, USA. The minimum future payments for leasing land use rights and offices at September 30, 2012 are follows:

Year ending December 31, 2012	221,295
Year ending December 31, 2013	1,927,951
Year ending December 31, 2014	2,340,314
Year ending December 31, 2015	1,985,266
Year ending December 31, 2016	1,932,733
Thereafter	31,854,595
Total	\$40,262,154

For the three months ended September 30, 2012 and 2011, the land use right and office lease expenses were \$582,885 and \$583,542, respectively. For the nine months ended September 30, 2012 and 2011, the land use right and office lease expenses were \$1,703,549 and \$1,484,225, respectively.

Property and Equipment Purchase Commitments

As of September 30, 2012, the Company has purchase commitments totaling \$8,486,589 for materials, supplies, services and property and equipment for constructing the LNG plant and other construction projects.

Natural Gas Purchase Commitments

The Company has existing long-term natural gas purchase agreements with its major suppliers.

The Company continued to seek lower-cost sources of supply and did not have commitments for the purchasing volume of natural gas with any suppliers except Qinshui Lanyan. According to the agreement with Qinshui Lanyan, the Company should purchase from Qinshui Lanyan a daily volume of approximately 200,000 cubic meters of coal bed gas. Prices of natural gas are strictly controlled by the PRC government.

Capital Contribution

We failed to comply with PRC law in our recent contribution of capital to JBLNG and will be subject to possible fines, penalties and administrative actions until the capital contribution is registered in compliance with PRC law.

In August 2008, the board of directors of XXNGC passed a resolution to increase the registered capital of JBLNG to RMB118,305,000 through the form of intangible asset contributions. In September 2008, JBLNG obtained its updated business license reflecting the increased registered capital. Pursuant to XXNGC's board resolution, China Natural Gas, Inc. transferred its right to use the two licenses it obtained relating to the design of our LNG facility directly to JBLNG as JBLNG's registered capital. However, we are not a shareholder of JBLNG and are therefore not permitted under PRC law to contribute capital to JBLNG. In addition, PRC law does not allow the contribution of capital in the form of an intangible asset, such as the licenses in issue, where the assets are not owned by the contributor. We are restructuring the capital contribution as a cash contribution and revising our LNG licenses so that the licensee is JBLNG and believe that this capital contribution and license restructuring will comply with PRC laws.

However, until we have completed this process, the relevant regulatory authorities may impose fines or penalties, or require us to cease the operations of JBLNG, until such time as these defects are remedied. Any such fines, penalties or delay in operations could have a material and adverse effect on our LNG business in terms of our future growth, financial conditions and results of operations. Currently we do not estimate such fines, penalties and administrative actions to be probable, so we do not recognize them as contingent liabilities in our consolidated financial statements.

VIE Structure

In order to comply with PRC laws limiting foreign ownership of Chinese companies, we conduct our natural gas business through Xi'an Xilan Natural Gas Co., Ltd. by means of contractual arrangements which may not be as effective as direct ownership or may be deemed in violation of PRC restrictions on foreign investment in our industry.

The government of the PRC restricts foreign investment in natural gas businesses in China. Accordingly, we operate our business in China through our VIE, XXNGC. XXNGC holds the licenses, approvals and assets necessary to operate our natural gas business in China. We have no equity ownership interest in XXNGC and rely on contractual arrangements with XXNGC and its shareholders that allow us to substantially control and operate XXNGC. These contractual arrangements may not be as effective in providing control over XXNGC as direct ownership would be. For example, XXNGC could fail to take actions required for our business despite its contractual obligation to do so. If XXNGC fails to perform under its agreements with us, we may have to spend substantial costs and resources to enforce such arrangements and may have to rely on legal remedies under the laws of the PRC, which may not be effective. In addition, we cannot assure you that XXNGC's shareholders and management would always act in our best interests.

Although we believe that we comply with current regulations of the PRC, we cannot assure you that the PRC government would agree that our structure or operating arrangements comply with the PRC's licensing, registration or other regulatory requirements under existing policies or with requirements or policies that may be adopted in the future. If the PRC government determines that our structure or operating arrangements do not comply with applicable laws, it could revoke our business and operating licenses, require us to discontinue or restrict our operations, restrict our right to collect revenues, require us to restructure our operations, impose additional conditions or requirements with which we may not be able to comply, impose restrictions on our business operations or on our customers, or take other regulatory or enforcement actions against us that could be harmful to our business. In addition, the equity pledge in the Equity Pledge Agreement between SXNGE and XXNGC and XXNGC's shareholders has not been registered and may be deemed to be unenforceable under PRC laws.

Other than the proxy agreement between SXNGE, XXNGC and XXNGC's chairman and shareholders, which does not contain a choice of law or jurisdictional clause, our contractual arrangements with XXNGC are governed by PRC laws and they provide for the resolution of disputes through arbitration in the PRC. Accordingly, these contracts would be interpreted in accordance with PRC laws and any disputes would be resolved in accordance with PRC legal procedures. If XXNGC or its shareholders fail to perform their respective obligations under these contractual arrangements, we may have to (i) spend substantial costs and resources to enforce such arrangements, and (ii) rely on legal remedies under PRC laws, including seeking specific performance or injunctive relief, and claiming damages, which we cannot be sure would be effective. However, the legal environment in the PRC is not as developed as in the United States and uncertainties in the Chinese legal system could limit our ability to enforce these contractual arrangements. In the event that we are unable to enforce these contractual arrangements, our business, financial condition and results of operations could be materially and adversely affected. Currently we do not estimate the possibility of such defaults in enforcing the contractual arrangements to be probable, and it will be extremely difficult

to make any reliable to the amounts of the potential losses that may be caused by such defaults, so we do not recognize it as a contingent liability in our consolidated financial statements.

Individuals Claims to Certain Shares

Certain shares in XXNGC, our VIE, may be subject to adverse claims.

Six individuals have previously claimed to own 1,200,000 shares of XXNGC's common stock, our main operating company and VIE. They have claimed that they acquired these shares from other shareholders of XXNGC. Based on XXNGC's registered capital of RMB69,000,000 when it became a joint stock limited company in 2004, we believe that the 1,200,000 shares represented 1.74% of XXNGC's outstanding common stock at the time when the six individuals claimed to have acquired the 1,200,000 shares of XXNGC. While we and XXNGC dispute their claim of ownership over the 1,200,000 shares, there is no assurance that XXNGC will prevail if these six individuals pursue their claim in legal proceedings. If these six individuals are found to have legitimate ownership over these shares, XXNGC's shareholding structure may change and our revenues from our contractual arrangements with XXNGC may be reduced. Currently we do not estimate the possibility of such change to the shareholding structure to be probable, so we do not recognize it as a contingent liability in our financial statements.

Legal Proceedings

Other than described below, there have been no material developments in the legal proceedings in which we were involved during the year ended December 30, 2011. For a description of previously reported legal proceedings refer to Part I, Item 3, "Legal Proceedings" of the Company's Annual Report on Form 10-K for the year ended December 31, 2010.

a) *Vandavelde v. China Natural Gas, Inc., et al.* (Case No. 1:10CV00728, United States District Court for the District of Delaware). As previously disclosed, on August 26, 2010, an individual investor filed a putative class action complaint against the Company and certain of its current and former officers and directors alleging that the defendants violated the U.S. securities laws. The Court appointed another individual investor as lead plaintiff, and he then filed an amended complaint. The Company filed a motion to dismiss which, on July 6, 2012, the Court granted in its entirety. In its order, the Court also granted the plaintiffs leave to amend their complaint. In the second amended complaint, the plaintiffs allege that, in violation of Section 10(b) of the Securities Exchange Act of 1934 (and Rule 10b-5 thereunder), the defendants made false or misleading statements in the Company's Annual Reports on Form 10-K for the years ended December 31, 2009, and December 31, 2010, and in various quarterly reports, by purportedly failing to disclose a series of loans and related party transactions. The second amended complaint also asserts claims against certain of the Company's current and former officers and directors for violations of Section 20(a) of the Securities Exchange Act of 1934. The suit seeks unspecified monetary damages. On September 25, 2012, the Company filed a motion to dismiss the second amended complaint, which is currently pending before the Court. The Company cannot at this time provide any assurance that the outcome of this suit will not be materially adverse to its financial condition, consolidated results of operations, cash flows or business

prospects.

36

On December 5, 2011, plaintiff Haitham J. Kousa filed an action in the U.S. District Court for the District of Delaware against Qinan Ji, Zhiqiang Wang, Lawrence W. Leighton, Frank Waung, Yang Xiang Dong, China Natural Gas, Inc. (the “Company”) and The Nasdaq Stock Market, LLC, as defendants (C.A. No. 11-1202-SLR), and on January 17, 2012, plaintiff Robert Mallano also filed an action in the U.S. District Court for the District of Delaware against Qinan Ji, Zhiqiang Wang, Lawrence W. Leighton, Frank Waung, Yang Xiang Dong, and the Company, as defendants (C.A. No. 12-0048-SLR) (the “Constituent Actions”). The Constituent Actions alleged, inter alia, breach of fiduciary duties, self-dealing, and misconduct by management for related-party loans to management and the failure to disclose such loans. The Constituent Actions were consolidated on February 14, 2012 and bore the following caption, *In re China Natural Gas, Inc. Shareholder and Derivative Litigation* (Consol. C.A. No. 11-1202-SLR). On February 8, 2012, plaintiff Rick Steinmetz, filed an action in the U.S. District Court for the District of Delaware against Qinan Ji, Zhiqiang Wang, Lawrence W. Leighton, Frank Waung, David She, Carl Yeung, Yang Xiang Dong, China Natural Gas, Inc., alleging the same or similar claims as in the Constituent Actions. This case was consolidated with the Constituent Actions on March 27, 2012. On March 19, 2012 the court granted Nasdaq’s motion to dismiss, denied plaintiff’s motion for appointment of a receiver and dismissed plaintiff’s motion for expedited discovery. On April 10, 2012, the parties stipulated to the voluntary dismissal of the b) consolidated Constituent Actions as, in light of the removal of Nasdaq from the matter, no federal question remained and only state law issues remained. As part of the dismissal order, the plaintiffs undertook to file an action in the Delaware Court of Chancery asserting the claims arising out of the matters set forth in the Constituent Actions. The dismissal of the Constituent Actions was ordered on May 31, 2012. On May 22, 2012, the plaintiffs filed a Verified Shareholder Class Action and Derivative Complaint in the Delaware Court of Chancery, captioned *Haitham J. Kousa, et al vs. Qinan Ji, et al* (Case No. 7559-VCL). The Complaint alleges that each of the Director Defendants, Zhiqiang Wang, Lawrence W. Leighton, Frank Waung, Yang Xiang Dong, breached his fiduciary duties to CHNG and its shareholders by preserving Qinan Ji’s control over the Company in light of the threatened delisting of the Company’s shares by NASDAQ and that Director Defendants hereby caused CHNG’s stock to be delisted, injuring the Company and its shareholders. The Complaint also alleges that Qinan Ji breached his fiduciary obligations of care, good faith, loyalty and candor to the Company. The Company is actively defending that case. Upon motion filed by counsel for Director Defendants and China Natural Gas, Inc. to stay the case, the Delaware Court of Chancery ordered that count asserting direct claims against Qinan Ji be stayed pending the outcome of the SEC action (disclosed below) and the Federal Securities Action (Case No. 1:10CV00728, United States District Court for the District of Delaware) disclosed above, that the parties proceed with briefing a motion to dismiss, and that discovery be stayed as to the remaining counts of the complaint pending the outcome of the motion to dismiss.

On May 14, 2012, the Securities and Exchange Commission (“SEC”) filed an action in the U.S. District Court for the Southern District of New York against Qinan Ji and the Company, captioned Securities and Exchange Commission v. China Natural Gas, Inc. and Qinan Ji (12 CV 3824) (the “SEC Action”). The SEC Action alleges that the Company violated Section 17(a)(2) of the Securities Act of 1933 (“Securities Act”), and Sections 10(b), 13(a), 13(b)(2)(A), 13(b)(2)(B) and 14(a) of the Securities Exchange Act of 1934 (“Exchange Act”), and that Qinan Ji violated Section 17(a) of the Securities Act, Sections 10(b), 13(b)(5) and 14(a) of the Exchange Act (as well as certain rules promulgated under such sections), Section 304 of the Sarbanes Oxley Act of 2002 and aiding and abetting certain of the Company’s alleged violations. The allegations in the SEC Action stem from the Company making two related c) party loans in 2010 and from the acquisition by the Company of a natural gas company in 2008. The SEC Action seeks a judgment (i) permanently enjoining the Company and Qinan Ji from future violations of the above provisions of the federal securities laws; (ii) imposing civil monetary penalties on the Company and Qinan Ji; (iii) prohibiting Qinan Ji from acting as an officer or director of a public company; and (iv) requiring Qinan Ji to reimburse the Company for his bonuses and stock sale profits. The Company's response to the complaint in the SEC Action is currently due but the Company and the SEC have jointly requested that the Court extend the date for a responsive pleading to January 31, 2013 to allow the parties to attempt to conclude a settlement. The Company is in serious settlement negotiations with the Staff of the SEC but there can be no assurance that a settlement will be concluded. In the absence of a settlement the Company intends to defend this case vigorously.

In addition, the Company is involved in disputes and legal actions from time to time in the ordinary course of our business. The Company does not believe that any of these matters, individually or in the aggregate, will have a material adverse effect on our operations.

Note 14– Subsequent Event

In August 2012, our VIE, XXNGC had sign a contract with Zhangjiagang CIMC Sanctum Cryogenic Equipment Co., Ltd to buy 50 smart semi-trailer for \$10,131,200 (RMB 64 million).

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

Forward-Looking Statements

This Quarterly Report contains statements that are forward-looking and, as such, are not historical facts. Rather, these statements constitute projections, forecasts and forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. These statements are not guarantees of performance. They involve known and unknown risks, uncertainties, assumptions and other factors which may cause the actual results, performance or achievements of the Company to be materially different from any future results, performance or achievements expressed or implied by these statements. Such statements can be identified by the fact that they do not relate strictly to historical or current facts. These statements use words such as “believe,” “expect,” “should,” “strive,” “plan,” “intend,” “estimate,” “anticipate” or similar expressions. When the Company discusses its strategies or plans, it is making projections, forecasts or forward-looking statements. Actual results and stockholders’ value will be affected by a variety of risks and factors, including, without limitation, the recent crisis in worldwide financial markets, international, national and local economic conditions, merger, acquisition and business combination risks, financing risks, geo-political risks, and acts of terror or war. Many of the risks and factors that will determine these results and stockholder values are beyond the Company’s ability to control or predict. These statements are necessarily based upon various assumptions involving judgment with respect to the future. You should carefully read the risk factor disclosure contained in “Item 1A. Risk Factors” of our Annual Report on Form 10-K for the year ended December 31, 2011, where many of the important factors currently known to management that could cause actual results to differ materially from those in our forward-looking statements are discussed.

All such forward-looking statements speak only as of the date of this Quarterly Report. We are under no obligation to, nor do we intend to, release publicly any updates or revisions to any forward-looking statements contained herein to reflect any change in our expectations with regard thereto or any change in events, conditions or circumstances on which any such statement is based.

Overview

We are an integrated natural gas operator in the People’s Republic of China (referred to herein as China or the PRC), primarily involved in distribution of compressed natural gas, or CNG, through the CNG fueling stations owned by our variable interest entity, or VIE, Xi’an Xilan Natural Gas Co., Ltd. (referred to as XXNGC). As of September 30, 2012 our VIE owned and operated 32 CNG fueling stations, including 21 CNG fueling stations in Shaanxi Province, 10 CNG fueling stations in Henan Province and 1 CNG fueling station in Hubei Province. Our VIE owns our CNG fueling stations while we lease the land upon which our VIE-owned CNG fueling stations operate. For the three months ended September 30, 2012, we sold 31,749,431 cubic meters of CNG through our fueling stations, compared to 40,796,977 cubic meters for the three months ended September 30, 2011. For the nine months ended September 30, 2012, we sold 103,169,517 cubic meters of CNG through our fueling stations, compared to 122,134,065 cubic meters

for the nine months ended September 30, 2011. Our VIE and its subsidiary, Lingbao Yuxi Natural Gas Co. Ltd. (“LYNG”), also install natural gas pipelines for, and distribute and sell piped natural gas to, residential and commercial customers in the city of Xi’an in Shaanxi Province, including Lantian County, and the districts of Lintong and Baqiao, and in the city of Lingbao in Henan Province, through a high pressure pipeline network of approximately 120 kilometers.

In addition, we have expanded into liquefied natural gas (“LNG”) business and generate significant revenue from the LNG business. Our first LNG production facility, Shaanxi Jingbian Liquefied Natural Gas Co. Ltd. (“JBLNG”), located in Jingbian County, Shaanxi Province, commenced commercial production and sales on July 16, 2011. As of September 30, 2012, we had begun construction of ten LNG fueling stations in Shaanxi and Henan Provinces.

We are pursuing multiple, synergistic paths of growth through our VIE, XXNGC, and XXNGC’s subsidiaries, all of which are based in the PRC. We intend to:

continue to grow our LNG business through the ongoing construction of JBLNG and through the construction of LNG fueling stations in Shaanxi, Henan and Hubei Provinces;

capitalize on the opportunities arising from the busy shipping activities on the Yangtze River by expanding into Hubei Province through the construction of LNG fueling stations located in harbors along the Yangtze River, inland LNG fueling stations and reserve LNG stations along the course of the Yangtze River, as well as continued development of conversion technologies and operations to modify river vessels to run on a mixture of LNG and diesel; and

continue to expand our CNG business into Hubei Province by acquiring existing stations. We are currently evaluating additional sites for CNG fueling stations in Hubei Province.

For additional information regarding these growth initiatives, please see “*Recent Developments*” below.

Current Operations

We currently operate five main business lines:

distribution and sales of CNG through our VIE-owned CNG fueling stations serving hybrid (natural gas/gasoline) powered vehicles. As of September 30, 2012, our VIE owned and operated 32 fueling stations in total;

installation, distribution and sales of piped natural gas to residential and commercial customers through our VIE-owned pipelines. We distributed and sold piped natural gas to approximately 119,710 residential customers as of September 30, 2012;

production and sales of LNG through our LNG production facility in Jingbian County, Shaanxi Province. Revenues from commercial production and sales of LNG started on July 16, 2011.

distribution and sales of gasoline through our VIE-owned CNG fueling stations for gasoline and hybrid (natural gas/gasoline) powered vehicles (three of our VIE-owned CNG fueling stations were selling gasoline as of September 30, 2012); and

conversion of gasoline-fueled vehicles to hybrid (natural gas/gasoline) powered vehicles at our automobile conversion workshops.

We purchase all of the natural gas that we sell and distribute to our customers from our suppliers, and we are not directly involved in the mining or production of natural gas. We currently sell our natural gas in three forms: (i) we compress natural gas into CNG and sell it to our customers through CNG fueling stations, (ii) we distribute natural gas through pipelines to commercial and residential customers and (iii) we liquefy natural gas into LNG and sell and distribute to our customers.

We had total revenues of \$31,061,782 and \$36,897,375 for the three months ended September 30, 2012 and 2011, respectively, and revenues of \$101,240,795 and \$88,318,652 for the nine months ended September 30, 2012 and 2011, respectively. We had net loss of \$1,500,003 and income of \$4,545,093 for the three months ended September 30, 2012 and 2011, respectively, and net income of \$5,522,324 and \$11,424,610 for the nine months ended September 30, 2012 and 2011, respectively.

Recent Developments

LNG Business

As of September 30, 2012, we had invested \$68.5 million in Phase I of the LNG project located in Jingbian County, Shaanxi Province and expected to invest approximately an additional \$0.2 million to satisfy installment payments to contractors. We commenced test runs of Phase I of the LNG plant during 2010 and, in December 2010, we conducted and completed further test runs, including testing the operation of various components and equipments of the plant. We completed production preparation and trial production in June 2011. On July 16, 2011, we completed most of the construction of Phase I of the LNG plant and began commercial production and sale of LNG. Phase I of the LNG plant has a processing capacity of 500,000 cubic meters of LNG per day, or approximately 150 million cubic meters of LNG per year. Customers of our LNG business mainly include city gas companies supplying industrial, commercial and residential pipeline end users, such as ENN Energy Holdings Ltd., Kunlun Energy Company Ltd. and Hunan Ruihua Energy Equipment Ltd.. The launch of the LNG plant is an important part of our integration strategies, which include strategic plans to develop our own network of LNG fueling stations in Shaanxi, Henan and Hubei Provinces.

The total expected cost of \$68.7 million for the construction of Phase I of the LNG project is higher than what we originally anticipated. The increased costs were attributable to unforeseen cost overruns and escalations, including increased material and labor costs incurred to reinforce pilings based upon modified engineering analysis, and increased prices for land use rights, which we believe resulted from the energy resource exploration activities in nearby areas. Construction of Phase I of the LNG plant experienced delays due to policy changes with respect to tariff exemptions for core equipment imported by the Company and the increased international shipment time for ordered equipment.

In addition, as of September 30, 2012, we had invested \$47.6 million for the construction of phases II and III of Jingbian LNG plant. We estimate that a further aggregate investment of \$193.6 million will need to be made through December 2015 to finance the construction of Phase II and III of the LNG plant, which, upon completion, will have a processing capacity of 3,000,000 cubic meters of LNG per day, or approximately 900 million cubic meters of LNG per year. The expected completion date of Phase II and III of the LNG plant is December 2015.

On September 2, 2010, we announced the completion of our first LNG fueling station. The station is located in Hongqing District, Xi'an, and we believe it is the first LNG fueling station in Shaanxi Province. The LNG fueling station initially serves as a working model to showcase the market potential of LNG to future users rather than to generate revenues. As of September 30, 2012, ten LNG fueling stations were under construction in various locations in Shaanxi and Henan Provinces, and our VIE, XXNGC had sign a contract with Zhangjiagang CIMC Sanctum Cryogenic Equipment Co., Ltd to buy 50 smart semi-trailer as of September 30, 2012.

We successfully completed the regular maintenance of our Jingbian LNG factory which spanned a period of 28 days. The factory resumed full operational on August 12, 2012.

Hubei Province and Yangtze River

As of September 30, 2012, we had made certain progress in the expansion of both our CNG and LNG businesses into Hubei Province. In April 2010, we received the approval from local government authorities in Hubei Province to build LNG fueling stations, both inland and in harbors, and reserve LNG stations, along the Yangtze River. We are currently going through necessary procedures to prepare for the building of these LNG stations.

During the third quarter of 2010, we completed the acquisition of Hanchuan Makou Yuntong Compressed Natural Gas Co., Ltd., or Makou, for a purchase price of \$3,648,080. Makou owns and operates a CNG compressor station in Hanchuan City, Hubei Province, and purchases natural gas through pipelines, conducts compressing and sells natural gas on a wholesale basis through tankers to fueling stations in Hubei Province. Makou's compressor station currently has sufficient capacity to process 80,000 to 100,000 cubic meters of natural gas daily and is advantageously located near railways and arterial highways. We believe that the Makou acquisition laid the foundation for expanding our CNG business into Hubei Province.

On June 28, 2011, our VIE, XXNGC, entered into an Equity Transfer Agreement (the "Transfer Agreement") with five individual shareholders of Xiantao City Jinhua Gas and Oil Co., Ltd. ("XTJH"). Pursuant to the Transfer Agreement, XXNGC acquired a 58.5284% ownership of XTJH for a total purchase price of approximately \$1,905,099 (RMB 12,290,964). During the first quarter of 2012, we completed the acquisition of XTJH, and have our own fueling station available locally, which increases our revenue and share in the local market.

As of September 30, 2012, we also engaged in developing market demand for our natural gas products along the Yangtze River. By leveraging our automobile conversion know-how, we are developing conversion technologies and operations to modify river vessels so that they can be powered by a mixture of LNG and diesel. In August 2010, a tugboat, modified by us to operate on a mixture consisting of 70% LNG and 30% diesel, completed its maiden voyage on the Yangtze River. We believe it was the first time that an LNG-powered ship navigated China's domestic waterways.

Shaanxi and Henan Provinces

During the first quarter of 2011, we closed one CNG fueling station in Shaanxi Province due to changes in market conditions, in October, 2011, we closed another CNG fueling station in Shaanxi Province because the district will be demolished for urban redevelopment, in March 2012, we acquired one CNG fueling station in Hubei Province, in April 2012, we closed one fueling station in Shaanxi Province due to the construction of main subway lines in Xi'an, in May 2012, we ceased operations of two fueling stations in Henan province due to adverse market conditions, and in the third quarter of 2012, we closed three fueling stations in Shaanxi Province due to the change of the Company's strategy to reduce the scale of our CNG fueling stations, and focus on establishing of LNG fueling stations. As a result, as of September 30, 2012, XXNGC and its subsidiary operated 21 CNG fueling stations in Shaanxi Province, 10 CNG fueling stations in Henan Province and one CNG fueling station in Hubei Province. Four gasoline fueling stations were closed in November and December 2010, due to changes in market conditions in their respective local areas. During the first quarter of 2011, we reopened one of the previously closed gasoline fueling stations and during the second quarter of 2011, we closed another station. During the fourth quarter of 2011, we closed another two of our gasoline fueling stations due to changes in market situations. In March 2012, we acquired one station in Hubei Province. As of September 30, 2012, we operated three gasoline fueling stations.

Factors Affecting Our Results of Operations

Significant factors affecting our results of operations are:

Successful launch and development of our LNG business. On July 16, 2011, we completed most of the construction of Phase I of our LNG plant in Jingbian County, Shaanxi Province and began commercial production and sale of LNG. Phase I of the LNG plant has a processing capacity of 500,000 cubic meters of LNG per day, or approximately 150 million cubic meters of LNG per year. Revenues from the completed Phase I of the LNG plant have been realized during the third quarter of 2011. In addition, Phases II and III of the LNG plant are planned to be completed by December 2015, adding processing capacity of 3,000,000 cubic meters of LNG per day, or approximately 900 million cubic meters of LNG per year. We anticipate significant revenues from the LNG business in the future.

Regulation of natural gas prices in the PRC. The prices at which we purchase our natural gas supplies and sell CNG and pipeline natural gas products are strictly regulated by the PRC central government, including the National Development and Reform Commission, or the NDRC. Local pricing administrations have the discretion to set natural gas prices within the price range set by the PRC central government. In addition, natural gas procurement and sales prices are not uniform across China and may vary from province to province. Accordingly, our results of operations and, in particular, our revenue, cost of revenue and gross profit and gross margin are affected significantly by factors that are outside of our control, including the regulation of natural gas products both on the national and local levels. As we expand our natural gas business into other provinces, we expect our results of operations to continue to be affected significantly by the regulations over natural gas prices in the PRC.

Government policies encouraging the adoption of cleaner burning fuels. Our results of operations for the periods covered by this report have benefited from environmental regulations and programs in the PRC that promote the use of cleaner burning fuels, including natural gas, for vehicles. As an enterprise engaged in the natural gas industry, our VIE, XXNGC, benefits from a reduced income tax rate of 15% compared to the standard 25% enterprise income tax rate in the PRC. In addition, the PRC government has encouraged companies to invest in and build the necessary transportation, distribution and sales infrastructure for natural gas in various policy pronouncements, such as by officially including CNG/gasoline hybrid vehicles in the PRC's "encouraged development" category. These policies have benefitted our results of operations by encouraging the demand for our natural gas products and also by lowering our expenses. As we intend to continue to expand into the LNG business, and our LNG plant in Jingbian has commenced commercial production and sale, we anticipate that our results of operations will continue to be affected by government policies encouraging the adoption of cleaner burning fuels and the increased adoption of CNG and LNG technologies.

The overall economic growth of China. We do not export our products and our results of operations are thus substantially affected by various economic factors, including the growth of the natural gas industry in the PRC, the increase in domestic residential, commercial and vehicular consumption, the overall growth of the economy of the PRC and related developments. While the PRC economy has experienced significant growth in the past 30 years, growth has been uneven across different regions and economic sectors. The PRC government has implemented various economic and political policies and laws and regulations to encourage economic development and to guide the allocation of resources. Some of these measures may benefit the overall PRC economy but may also have a negative effect on us. For example, our financial results may be adversely affected by government control over capital investments or changes in tax regulations that apply to us. The PRC government has also implemented certain measures recently, including interest rate increases, to control the rate of economic growth to prevent the aggravation of inflation. These measures may suppress the level of economic activities in the PRC, possibly including slowing the growth of the PRC's domestic commodity markets. Any adverse changes to the policies of the PRC government or the laws and regulations of the PRC could have a material adverse effect on the overall economic growth of the PRC, which could adversely affect our business in turn.

Taxation

United States

We are incorporated in the State of Delaware and are subject to the tax laws of the United States. We incurred a net operating loss for income tax purposes for the nine months ended September 30, 2012 and the estimated net operating loss carry-forwards for United States income tax purposes amounted to \$12,583,150 as of September 30, 2012, which may be available to reduce future years' taxable income. These carry-forwards will expire, if not utilized, through 2032. Our management believes that the realization of the benefits arising from these net operating loss carry-forwards appears to be uncertain due to our limited operating history and continuing losses for United States income tax purposes. Accordingly, we have provided a 100% valuation allowance at September 30, 2012.

The PRC

Our subsidiary, VIE and its subsidiaries operate in the PRC. Starting January 1, 2008, pursuant to the tax laws of the PRC, general enterprises are subject to income tax at an effective rate of 25%. Based on certain income tax regulations adopted in 2001 to encourage the development of certain industries, including the natural gas industry, in the western regions of the PRC such as Shaanxi Province, XXNGC is subject to a reduced tax rate of 15%. Accordingly, except for income from XXNGC, which is subject to the reduced tax rate of 15%, income from Shaanxi Xilan Natural Gas Equipment Co., Ltd. (referred to as SXNGE, a wholly foreign owned enterprise), Jingbian Xilan LNG Co., Ltd (referred to as SJLNG, a wholly owned subsidiary of XXNGC), Xi'an Xilan Auto Body Shop Co., Ltd. (referred to as XXABC, a wholly owned subsidiary of XXNGC), Henan Xilan Natural Gas Co., Ltd. (referred to as HXNGC, a wholly owned subsidiary of XXNGC), Lingbao Yuxi Natural Gas Co., Ltd (referred to as Lingbao Yuxi, a wholly owned subsidiary of XXNGC), Hubei Xilan Natural Gas Co., Ltd. (referred to as HBXNGC, a wholly owned subsidiary of XXNGC), Hanchuan Makou Yuntong Compressed Natural Gas Co., Ltd. (referred to as Makou, a wholly owned subsidiary of HBXNGC) and Xiantao City Jinhua Gas and Oil Co., Ltd. (referred to as XTJH, a holding subsidiary of HBXNGC) are subject to the 25% PRC income tax rate. Our effective income tax rate for the nine months ended September 30, 2012 and 2011 were approximately 27.8% and 23.7% , respectively.

Value-Added Tax. Sales revenue represents the invoiced value of goods, net of a value-added tax, or VAT. The products of our VIE, XXNGC, and three of XXNGC's subsidiaries, Lingbao Yuxi, Makou and XTJH, that are sold in the PRC are subject to a PRC VAT at a rate of 13% of the gross sales price. Under PRC tax laws, the VAT may be offset by VAT paid by XXNGC or Lingbao Yuxi or Makou or XTJH, as applicable, on purchased raw materials and other materials included in the cost of producing their finished products. XXNGC recorded VAT payable and VAT receivable net of payments in our financial statements. The VAT tax return is filed offsetting the payables against the receivables. When output tax of VAT is greater than input tax of VAT, the tax difference will be paid to the tax bureaus at different government levels.

All revenues from XXNGC's wholly owned subsidiary, XXABC, are subject to a PRC VAT at a rate of 6%. This VAT cannot be offset with VAT paid for purchased materials included in the cost of revenues.

RESULTS OF OPERATIONS**Three Months Ended September 30, 2012 Compared to Three Months Ended September 30, 2011***Sales Revenues*

The following table sets forth a breakdown of our revenues for the periods indicated:

	Three Months Ended		Increase (decrease) in dollar amount	Increase (decrease) in percentage	
	September 30, 2012	September 30, 2011			
Natural gas from fueling stations	\$ 15,522,116	\$ 19,726,152	\$ (4,204,036))	(21.3)%
Natural gas from pipelines	1,622,916	1,656,049	(33,133))	(2.0)%
Liquefied natural gas	10,758,490	10,843,280	(84,790))	(0.8)%
Gasoline	647,061	1,508,657	(861,596))	(57.1)%
Installation	2,040,806	2,646,749	(605,943))	(22.9)%
Automobile conversion	470,393	516,488	(46,095))	(8.9)%
Total	\$ 31,061,782	\$ 36,897,375	\$ (5,835,593))	(15.8)%

Overall. Total revenue for the three months ended September 30, 2012 decreased to \$31,061,782 from \$36,897,375 for the three months ended September 30, 2011, a decrease of \$5,835,593 or 15.8%, due to the reasons discussed below. We sold 66,911,892 cubic meters of natural gas, including 36,827,491 cubic meters of CNG and 30,084,401 cubic meters (19,002.9 tons) of LNG, during the three months ended September 30, 2012, compared to 76,910,810 cubic meters of natural gas, including 46,238,846 cubic meters of CNG and 30,671,964 cubic meters (18,973.6 tons) of LNG during the three months ended September 30, 2011. For the three months ended September 30, 2012, 91.9% of our revenues was generated from the sale of natural gas and gasoline, and the remaining 8.1% was generated from our installation and auto conversion services.

Natural Gas from Fueling Stations. Natural gas revenue from our fueling stations decreased by 21.3%, or \$4,204,036, to \$15,522,116 for the three months ended September 30, 2012, from \$19,726,152 for the three months ended September 30, 2011, and contributed 50.0% of our total revenue for the three months ended September 30, 2012, which was the largest contributor to revenue among our major business lines. During the three months ended September 30, 2012, we sold 31,749,431 cubic meters of CNG, compared to 40,796,977 cubic meters during the three months ended September 30, 2011, through our fueling stations, due to the closure of three fueling stations in the second quarter of 2012 and three fueling stations in the third quarter of 2012. The average unit selling price per cubic meter of CNG remained stable at \$0.50 (RMB 3.13) during the three months ended September 30, 2012 and 2011, net of VAT. With respect to average sales revenue and volume per station, in the three months ended September 30, 2012, we sold approximately \$456,533 or 933,807 cubic meters of CNG per station, respectively, compared to approximately \$519,109 or 1,073,605 cubic meters, respectively, in the three months ended September 30, 2011. The reason for the decline in per station sales was primarily due to the construction of main subway lines in Xi'an, which caused certain bus routes to deviate from our stations and resulted in decreased sales. The subway construction is expected to be completed by 2017.

Natural Gas from Pipelines. Natural gas revenue from our pipelines decreased by 2.0%, or \$33,133, to \$1,622,916 for the three months ended September 30, 2012, from \$1,656,049 for the three months ended September 30, 2011, and contributed 5.2% of our total revenue for the three months ended September 30, 2012. As of September 30, 2012, we had 119,710 pipeline customers, an increase of 3,375 customers from 116,335 customers as of September 30, 2011. We sold 5,078,060 cubic meters of natural gas through our pipelines for the three months ended September 30, 2012, compared to 5,441,869 cubic meters for the three months ended September 30, 2011, a decrease of 6.7%, primarily due to the lost of a major commercial customer in Xi'an.

Liquefied Natural Gas. Our LNG production facility in Jingbian County, Shaanxi Province started operations in July 2011. Revenue from LNG decreased by 0.8%, or \$84,790, to \$10,758,490 for the three months ended September 30, 2012, from \$10,843,280 for the three months ended September 30, 2011, and contributed 34.6% of our total revenues for the three months ended September 30, 2012. We sold 30,084,401 cubic meters (18,902.9 tons) of LNG for the three months ended September 30, 2012, compared to 30,671,964 cubic meters (18,973.6 tons) for the three months ended September 30, 2011, a decrease of 1.9%, primarily due to the temporarily closure of Jingbian LNG factory for a period of 28 days for regular maintenance during the third quarter of 2012, and the average unit selling price per cubic meter decreased from \$0.35 (RMB 2.31), net of VAT, during the three months ended September 30, 2011, to \$0.35 (RMB 2.26), net of VAT, during the three months ended September 30, 2012.

Gasoline. Revenue from gasoline sales decreased by 57.1% or \$861,596 to \$647,061 for the three months ended September 30, 2012, from \$1,508,657 for the three months ended September 30, 2011, and contributed 2.1% of our total revenue for the three months ended September 30, 2012. The decrease was primarily attributable to the sales volume decrease of 60.4% from 1,571,485 liters to 622,347 liters, because of the closure of two gasoline fueling stations during the fourth quarter of 2011 due to the low gross margin of gasoline. The average unit sales price of gasoline increased by 10.5%, from \$0.95 (RMB 6.14) per liter, net of VAT, in the three months ended September 30, 2011 to \$1.04 (RMB 6.56) per liter in the three months ended September 30, 2012, compensating for the significant decrease in sales volume to a certain degree.

Installation Services. Revenue from installation services decreased by 22.9% or \$605,943 to \$2,040,806, for the three months ended September 30, 2012 from \$2,646,749 for the three months ended September 30, 2011, and contributed 6.6% of our total revenue for the three months ended September 30, 2012. We believe the decrease was primarily due to a slowdown in the property market, which led to a decrease in demand for installation services. Revenue from our five largest customers accounted for 24.4%, 17.0%, 12.9%, 10.0% and 8.8%, respectively, of our total installation revenue for the three months ended September 30, 2012.

Automobile Conversion Services. Revenue from our automobile conversion division decreased by 8.9% or \$46,095 to \$470,393 for the three months ended September 30, 2012, from \$516,488 for the three months ended September 30, 2011, mainly due to the decrease of customers, and contributed 1.5% of our total revenue for the three months ended September 30, 2012.

Cost of Revenue

The following table sets forth a breakdown of our cost of revenue for the years indicated:

	Three Months Ended		Increase	Increase		
	September 30,	September 30,	(decrease) in dollar	(decrease)	in	
	2012	2011	amount	percentage		
Natural gas from fueling stations	\$8,576,475	\$ 10,955,337	\$ (2,378,862)	(21.7)%
Natural gas from pipelines	1,245,820	1,264,861	(19,041)	(1.5)%
Liquefied natural gas	9,127,753	7,673,445	1,454,308		19.0	%
Gasoline	616,290	1,461,302	(845,012)	(57.8)%
Installation	721,621	1,044,178	(322,557)	(30.9)%
Automobile conversion	292,026	319,328	(27,302)	(8.5)%
Total	\$20,579,985	\$ 22,718,451	\$ (2,138,466)	(9.4)%

Overall. Our cost of revenue consists of the cost of natural gas and gasoline sold, installation costs and other costs. Costs of natural gas sold from fueling stations and pipelines as well as costs of gasoline sold consist mainly of procurement costs from our suppliers. Costs of LNG consist mainly of procurement costs of natural gas and processing costs. Costs of installation and others include the expenditures that were incurred to connect customers to our pipeline system, and the cost for converting gasoline-fueled vehicles into natural gas-fueled hybrid vehicles.

Our cost of revenue for the three months ended September 30, 2012 was \$20,579,985, a decrease of \$2,138,466 or 9.4% from \$22,718,451 for the three months ended September 30, 2011, mainly attributable to the decrease of costs of revenue of natural gas sold through our fueling stations. As a comparison, our total revenues decreased by 15.8% for the three months ended September 30, 2012 from the three months ended September 30, 2011.

Natural Gas from Fueling Stations. Cost of revenue of natural gas sold through our fueling stations decreased by 21.7%, or \$2,378,862 to \$8,576,475 for the three months ended September 30, 2012, from \$10,955,337 for the three months ended September 30, 2011, mainly due to the decrease in sales volume. The average procurement costs per cubic meter of our natural gas for our fueling stations decreased from \$0.27 (RMB 1.72), net of VAT, for the three months ended September 30, 2011, to \$0.27 (RMB 1.68), net of VAT, for the three months ended September 30, 2012. The average procurement cost remained materially below the natural gas retail price of \$0.50 (RMB 3.13) per cubic meter, net of VAT, for the three months ended September 30, 2012.

Natural Gas from Pipelines. Cost of revenue of our natural gas sold through our pipelines decreased by 1.5% or \$19,041 to \$1,245,820 for the three months ended September 30, 2012, from \$1,264,861 for the three months ended September 30, 2011. The decrease was primarily due to the decrease in sales volume.

Liquefied Natural Gas. Cost of revenue from LNG increased by 19.0% or \$1,454,308 to \$9,127,753 for the three months ended September 30, 2012, from \$7,673,445 for the three months ended September 30, 2011. The average cost of revenue per cubic meter was \$0.30 (RMB 1.91), net of VAT, during the three months ended September 30, 2012, compared to \$0.25 (RMB 1.62), net of VAT, during the three months ended September 30, 2011, due to inflation of material price.

Gasoline. Cost of gasoline revenue decreased by 57.8% or \$845,012 to \$616,290 for the three months ended September 30, 2012, from \$1,461,302 for the three months ended September 30, 2011. The decrease of cost of gasoline revenue was primarily due to the closure of two gasoline fueling stations of ours during the fourth quarter of 2011. The average procurement cost per liter increased from \$0.91 (RMB 5.91), net of VAT, for the three months ended September 30, 2011 to \$0.99 (RMB 6.25), net of VAT, for the three months ended September 30, 2012.

Installation Services. Cost of revenue from our installation services decreased by 30.9% or \$322,557 to \$721,621 for the three months ended September 30, 2012 from \$1,044,178 for the three months ended September 30, 2011, primarily as a result of the decrease in the number of our installation customers.

Automobile Conversion Services. Cost of our automobile conversion revenue decreased by 8.5% or \$27,302 to \$292,026 for the three months ended September 30, 2012 from \$319,328 for the three months ended September 30, 2011, which is consistent with the decrease in sales revenue.

Gross Profit

The following table sets forth a breakdown of our gross profit for the years indicated:

	Three Months Ended		Increase (decrease) in dollar amount	Increase (decrease) in percentage	
	September 30, 2012	September 30, 2011			
Natural gas from fueling stations	\$6,945,641	\$ 8,770,815	\$ (1,825,174)	(20.8)%
Natural gas from pipelines	377,096	391,188	(14,092)	(3.6)%
Liquefied natural gas	1,630,737	3,169,835	(1,539,098)	(48.6)%
Gasoline	30,771	47,355	(16,584)	(35.0)%
Installation	1,319,185	1,602,571	(283,386)	(17.7)%
Automobile conversion	178,367	197,160	(18,793)	(9.5)%
Total	\$10,481,797	\$ 14,178,924	\$ (3,697,127)	(26.1)%

We earned a gross profit of \$10,481,797 for the three months ended September 30, 2012, a decrease of \$3,697,127 or 26.1%, from \$14,178,924 for the three months ended September 30, 2011. The decrease in gross profit was primarily attributable to the decrease in natural gas revenue from our fueling stations and increase in processing costs of LNG.

Gross Margin

Gross margin for natural gas sold through our fueling stations increased from 44.5% for the three months ended September 30, 2011 to 44.7% for the three months ended September 30, 2012, primarily due to lower purchasing cost of natural gas.

Gross margin for natural gas sold through pipelines was 23.2% for the three months ended September 30, 2012, decreased slightly from 23.6% for the three months ended September 30, 2011.

Gross margin for our LNG business was 15.2% for the three months ended September 30, 2012, decreased from 29.2% for the three months ended September 30, 2011, primarily attributable to the increase in processing costs of LNG. This gross margin is lower than that of CNG sold through fueling stations, because till September 30, 2012, we had been selling LNG only to industrial customers at wholesale price. We expect that the gross margin of LNG sales may be improved after our own LNG fueling stations start operations and sell LNG at retail price.

Gross margin for gasoline sales increased from 3.1% for the three months ended September 30, 2011 to 4.8% for the three months ended September 30, 2012, primarily due our average sales price of gasoline had increased at a greater rate than that of our average purchasing costs of gasoline.

Gross margin for our installation business increased to 64.6% for the three months ended September 30, 2012, from 60.5% for the three months ended September 30, 2011.

Gross margin for our automobile conversion business decreased from 38.2% for the three months ended September 30, 2011 to 37.9% for the three months ended September 30, 2012.

Our total gross margin decreased from 38.4% for the three months ended September 30, 2011 to 33.7% for the three months ended September 30, 2012, primarily due to the current lower gross margin level of our LNG business, as compared to the gross margins of those business lines making greatest contribution to revenue.

Operating Expenses

We incurred operating expenses of \$7,759,064 for the three months ended September 30, 2012, an increase of \$578,636 or 8.1%, from \$7,180,428 for the three months ended September 30, 2011.

Selling expenses increased by \$1,836,596 or 39.4% to \$6,503,728 for the three months ended September 30, 2012, from \$4,667,132 for the three months ended September 30, 2011, primarily due to the increase of \$753,109 in transportation expense and \$332,929 in depreciation mainly associated with our LNG business, which started in July 2011. Transportation cost during the three months ended September 30, 2012 was approximately \$3,305 per million cubic meters of natural gas, compared to \$3,326 per million cubic meters of natural gas for the three months ended September 30, 2011.

General and administrative expenses decreased by \$1,257,960 or 50.1% from \$2,513,296 for the three months ended September 30, 2011 to \$1,255,336 for the three months ended September 30, 2012, primarily attributable to the decrease of \$516,217 in preliminary expenses, and \$386,673 in legal fees.

Income from Operations and Operating Margin

Income from operations decreased by \$4,275,763, or 61.1%, to \$2,722,733 for the three months ended September 30, 2012 from \$6,998,496 for the three months ended September 30, 2011, primarily attributable to the decrease in gross profit of natural gas and increase in selling expenses as discussed above. Our operating margin for the three months ended September 30, 2012 was 8.8%, as compared to 19.0% for the three months ended September 30, 2011.

Non-Operating Income (Expense)

Non-operating expense was \$4,135,497 for the three months ended September 30, 2012, as compared to non-operating expense of \$923,952 for the three months ended September 30, 2011, primarily due to the loss of \$4,017,726 on disposal of five fueling stations during the third quarter of 2012.

Provision for Income Tax

Income tax was \$87,239 for the three months ended September 30, 2012, as compared to \$1,529,451 for the three months ended September 30, 2011.

Net income (loss)

Net loss was \$1,500,003 for the three months ended September 30, 2012, compared to net income of \$4,545,093 for the three months ended September 30, 2011.

Nine Months Ended September 30, 2012 Compared to Nine Months Ended September 30, 2011***Sales Revenues***

The following table sets forth a breakdown of our revenues for the periods indicated:

	Nine Months Ended		Increase (decrease) in	Increase	
	September 30, 2012	September 30, 2011	dollar amount	(decrease) in percentage	
Natural gas from fueling stations	\$50,657,018	\$ 58,255,556	\$ (7,598,538)	(13.0)%
Natural gas from pipelines	5,845,657	5,760,205	85,452	1.5	%
Liquefied natural gas	35,728,338	10,843,280	24,885,058	229.5	%
Gasoline	2,174,124	4,790,207	(2,616,083)	(54.6)%
Installation	5,471,884	7,238,738	(1,766,854)	(24.4)%
Automobile conversion	1,363,774	1,430,666	(66,892)	(4.7)%
Total	\$101,240,795	\$ 88,318,652	\$ 12,922,143	14.6	%

Overall. Total revenue for the nine months ended September 30, 2012 increased to \$101,240,795 from \$88,318,652 for the nine months ended September 30, 2011, an increase of \$12,922,143 or 14.6%, due to the reasons discussed below. We sold 219,208,931 cubic meters of natural gas, including 121,631,023 cubic meters of CNG and 97,577,908 cubic meters (61,304.8 tons) of LNG, during the nine months ended September 30, 2012, compared to 172,040,575 cubic meters of natural gas, including 141,368,611 cubic meters of CNG and 30,671,964 cubic meters (18,973.6 tons) of LNG, during the nine months ended September 30, 2011. For the nine months ended September 30, 2012, 93.2% of our revenues was generated from the sale of natural gas and gasoline, and the remaining 6.8% was generated from our installation and auto conversion services.

Natural Gas from Fueling Stations. Natural gas revenue from our fueling stations decreased by 13.0% or \$7,598,538, to \$50,657,018 for the nine months ended September 30, 2012, from \$58,255,556 for the nine months ended September 30, 2011, and contributed 50.0% of our total revenue for the nine months ended September 30, 2012, which was the largest contributor to revenue among our major business lines. During the nine months ended September 30, 2012, we sold 103,169,517 cubic meters of CNG, compared to 122,134,065 cubic meters during the nine months ended September 30, 2011, through our fueling stations, due to the closure of three fueling stations in the second quarter of 2012 and three fueling stations in the third quarter of 2012. The average unit selling price per cubic meter of CNG remained stable at \$0.50 (RMB 3.13) during the nine months ended September 30, 2012 and 2011, net of VAT. With respect to average sales revenue and volume per station, in the nine months ended September 30, 2012, we sold approximately \$1,420,158 or 2,892,333 cubic meters of CNG per station, respectively, compared to approximately \$1,533,041 or 3,214,054 cubic meters, respectively, in the nine months ended September 30, 2011. The reason for the decline in per station sales was primarily due to the construction of main subway lines in Xi'an, which caused certain bus routes to deviate from our stations and resulted in decreased sales.

Natural Gas from Pipelines. Natural gas revenue from our pipelines increased by 1.5% or \$85,452 to \$5,845,657 for the nine months ended September 30, 2012, from \$5,760,205 for the nine months ended September 30, 2011, and contributed 5.8% of our total revenue for the nine months ended September 30, 2012. As of September 30, 2012, we had 119,710 pipeline customers, an increase of 3,375 customers from 116,335 customers as of September 30, 2011. We sold 18,461,506 cubic meters of natural gas through our pipelines for the nine months ended September 30, 2012, compared to 19,234,546 cubic meters for the nine months ended September 30, 2011, a decrease of 4.0%, primarily due to the lost of a major commercial customer in Xi'an.

Liquefied Natural Gas. Revenue from LNG was \$35,728,338 for the nine months ended September 30, 2012, and contributed 35.3% of our total revenues for the nine months ended September 30, 2012. We sold 97,577,908 cubic meters (61,304.8 tons) of LNG for the nine months ended September 30, 2012. The average unit selling price per cubic meter was \$0.37 (RMB 2.31), net of VAT, during the nine months ended September 30, 2012. As our LNG production facility in Jingbian County, Shaanxi Province started operations in July 2011, there was no comparable historical data of the nine months ended September 30, 2011.

Gasoline. Revenue from gasoline sales decreased by 54.6% or \$2,616,083 to \$2,174,124 for the nine months ended September 30, 2012, from \$4,790,207 for the nine months ended September 30, 2011, and contributed 2.1% of our total revenue for the nine months ended September 30, 2012. The decrease was primarily attributable to the sales volume decrease of 59.4% from 5,111,933 liters to 2,074,840 liters, because of the closure of two gasoline fueling stations during the fourth quarters of 2011. The average unit sales price of gasoline increased by 11.8%, from \$0.94 (RMB 6.12) per liter, net of VAT, in the nine months ended September 30, 2011 to \$1.05 (RMB 6.61) per liter in the nine months ended September 30, 2012, compensating for the significant decrease in sales volume to a certain degree.

Installation Services. Revenue from installation services decreased by 24.4% or \$1,766,854 to \$5,471,884, for the nine months ended September 30, 2012 from \$7,238,738 for the nine months ended September 30, 2011, and contributed 5.4% of our total revenue for the nine months ended September 30, 2012. We believe the decrease was primarily due to a slowdown in the property market, which led to a decrease in demand for installation services. Revenue from our five largest customers accounted for 16.2%, 9.1%, 7.3%, 6.4% and 5.4%, respectively, of our total installation revenue for the nine months ended September 30, 2012.

Automobile Conversion Services. Revenue from our automobile conversion division decreased by 4.7% or \$66,892 to 1,363,774 for the nine months ended September 30, 2012, from \$1,430,666 for the nine months ended September 30, 2011, mainly due to the decrease of customers, and contributed 1.3% of our total revenue for the nine months ended September 30, 2012.

Cost of Revenue

The following table sets forth a breakdown of our cost of revenue for the years indicated:

	Nine Months Ended		Increase (decrease) in	Increase	
	September 30, 2012	September 30, 2011	dollar amount	(decrease) in percentage	
Natural gas from fueling stations	\$27,954,486	\$ 32,778,787	\$(4,824,301)	(14.7)	%
Natural gas from pipelines	4,466,950	4,411,311	55,639	1.3	%
Liquefied natural gas	28,265,987	7,673,445	20,592,542	268.4	%
Gasoline	2,060,048	4,588,735	(2,528,687)	(55.1)	%
Installation	1,980,086	2,847,099	(867,013)	(30.5)	%
Automobile conversion	841,089	888,955	(47,866)	(5.4)	%
Total	\$65,568,646	\$ 53,188,332	\$ 12,380,314	23.3	%

Overall. Our cost of revenue consists of the cost of natural gas and gasoline sold, installation costs and other costs. Costs of natural gas sold from fueling stations and pipelines as well as costs of gasoline sold consist mainly of procurement costs from our suppliers. Costs of LNG consist mainly of procurement costs of natural gas and processing costs. Costs of installation and others include the expenditures that were incurred to connect customers to our pipeline system, and the cost for converting gasoline-fueled vehicles into natural gas-fueled hybrid vehicles.

Our cost of revenue for the nine months ended September 30, 2012 was \$65,568,646, an increase of \$12,380,314 or 23.3% , from \$53,188,332 for the nine months ended September 30, 2011, mainly attributable to the addition of costs of revenue of LNG, which started in July 2011. As a comparison, our total revenues increased by 14.6% for the nine months ended September 30, 2012 from the nine months ended September 30, 2011.

Natural Gas from Fueling Stations. Cost of revenue of our natural gas sold through our fueling stations decreased by 14.7% or \$4,824,301 to \$27,954,486 for the nine months ended September 30, 2012, from \$32,778,787 for the nine months ended September 30, 2011. The average procurement costs per cubic meter of our natural gas for our fueling stations decreased from \$0.27 (RMB 1.74) net of VAT, for the nine months ended September 30, 2011, to \$0.27 (RMB 1.69), net of VAT, for the nine months ended September 30, 2012. The average procurement cost remained materially below the natural gas retail price of \$0.50 (RMB 3.13) per cubic meter, net of VAT, for the nine months ended September 30, 2012.

Natural Gas from Pipelines. Cost of revenue of our natural gas sold through our pipelines increased by 1.3% or \$55,639 to \$4,466,950 for the nine months ended September 30, 2012, from \$4,411,311 for the nine months ended September 30, 2011. The increase was primarily due to the increase in procurement cost.

Liquefied Natural Gas. Cost of revenue from LNG was \$28,265,987 for the nine months ended September 30, 2012. The average cost of revenue per cubic meter was \$0.29 (RMB 1.83), net of VAT, during the nine months ended September 30, 2012. As our LNG production facility in Jingbian County, Shaanxi Province started operations in July 2011, there was no comparable historical data of the nine months ended September 30, 2011.

Gasoline. Cost of gasoline revenue decreased by 55.1% or \$2,528,687 to \$2,060,048 for the nine months ended September 30, 2012, from \$4,588,735 for the nine months ended September 30, 2011. The decrease of cost of gasoline revenue was primarily due to the closure of three gasoline fueling stations of ours during the first and fourth quarter of 2011. The average procurement cost per liter increased from \$0.90 (RMB 5.86), net of VAT, for the nine months ended September 30, 2011 to \$0.99 (RMB 6.26), net of VAT, for the nine months ended September 30, 2012.

Installation Services. Cost of revenue from our installation services decreased by 30.5% or \$867,013 to \$1,980,086 for the nine months ended September 30, 2012 from \$2,847,099 for the nine months ended September 30, 2011, primarily

as a result of the decrease in the number of our installation customers.

Automobile Conversion Services. Cost of our automobile conversion revenue decreased by 5.4% or \$47,866 to \$841,089 for the nine months ended September 30, 2012 from \$888,955 for the nine months ended September 30, 2011, which is consistent with the decrease in sales revenue.

Gross Profit

The following table sets forth a breakdown of our gross profit for the years indicated:

	Nine Months Ended		Increase (decrease) in	Increase	
	September 30, 2012	September 30, 2011	dollar amount	(decrease) in percentage	
Natural gas from fueling stations	\$22,702,532	\$ 25,476,769	\$ (2,774,237)	(10.9)	%
Natural gas from pipelines	1,378,707	1,348,894	29,813	2.2	%
Liquefied natural gas	7,462,351	3,169,835	4,292,516	135.4	%
Gasoline	114,076	201,472	(87,396)	(43.4)	%
Installation	3,491,798	4,391,639	(899,841)	(20.5)	%
Automobile conversion	522,685	541,711	(19,026)	(3.5)	%
Total	\$35,672,149	\$ 35,130,320	\$ 541,829	1.5	%

We earned a gross profit of \$35,672,149 for the nine months ended September 30, 2012, an increase of \$541,829 or 1.5%, from \$35,130,320 for the nine months ended September 30, 2011. The increase in gross profit was primarily attributable to the increase in sales revenues, despite the decrease in gross profit margin, as discussed below.

Gross Margin

Gross margin for natural gas sold through our fueling stations increased from 43.7% for the nine months ended September 30, 2011 to 44.8% for the nine months ended September 30, 2012, primarily due to lower purchasing cost of natural gas.

Gross margin for natural gas sold through pipelines was 23.6% for the nine months ended September 30, 2012, increased from 23.4% for the nine months ended September 30, 2011, primarily due to our average sales price of natural gas sold through pipelines had increased at a greater rate than that of our average purchasing costs.

Gross margin for our LNG business was 20.9% for the nine months ended September 30, 2012, decreased from 29.2% for the few months period when our LNG plant was in operation as of September 30, 2011, primarily attributable to the increase in processing costs of LNG. This gross margin is lower than that of CNG sold through fueling stations, because till the end of the third quarter of 2012, we had been selling LNG only to industrial customers at wholesale price. We expect that the gross margin of LNG sales may be improved after our own LNG fueling stations start operations and sell LNG at retail price.

Gross margin for gasoline sales increased from 4.2% for the nine months ended September 30, 2011 to 5.2% for the nine months ended September 30, 2012, primarily due our average sales price of gasoline had increased at a greater rate than that of our average purchasing costs of gasoline.

Gross margin for our installation business increased to 63.8% for the nine months ended September 30, 2012, from 60.7% for the nine months ended September 30, 2011.

Gross margin for our automobile conversion business increased from 37.9% for the nine months ended September 30, 2011 to 38.3% for the nine months ended September 30, 2012.

Our total gross margin decreased from 39.8% for the nine months ended September 30, 2011 to 35.2% for the nine months ended September 30, 2012, primarily due to the current lower gross margin level of our LNG business, as compared to the gross margins of those business lines making greatest contribution to revenue.

Operating Expenses

We incurred operating expenses of \$22,677,403 for the nine months ended September 30, 2012, an increase of \$3,112,886 or 15.9%, from \$19,564,517 for the nine months ended September 30, 2011.

Selling expenses increased by \$4,785,927 or 38.9% to \$17,074,392 for the nine months ended September 30, 2012, from \$12,288,465 for the nine months ended September 30, 2011, primarily due to the increase of \$1,583,829 in depreciation and \$1,521,084 in transportation expense mainly associated with the operations of our LNG business, which started in July 2011, and \$507,072 in preliminary expenses associate with our acquisition of XTJH. Transportation cost during the nine months ended September 30, 2012 was approximately \$2,925 per million cubic meters of natural gas, compared to \$3,505 per million cubic meters of natural gas for the nine months ended September 30, 2011. The decrease was mainly attributable to the lower average transportation cost of LNG due to the decrease in its unit volume as a result of liquification.

General and administrative expenses decreased by \$1,673,041 or 23.0%, from \$7,276,052 for the nine months ended September 30, 2011 to \$5,603,011 for the nine months ended September 30, 2012, primarily attributable to the decrease of \$1,191,553 in legal fees, and \$336,485 in consulting fee.

Income from Operations and Operating Margin

Income from operations decreased by \$2,571,057, or 16.5%, to \$12,994,746 for the nine months ended September 30, 2012 from \$15,565,803 for the nine months ended September 30, 2011, primarily attributable to the increase in selling expenses. Our operating margin for the nine months ended September 30, 2012 was 12.8%, as compared to 17.6% for the nine months ended September 30, 2011.

Non-Operating Income (Expense)

Non-operating expense was \$5,342,583 for the nine months ended September 30, 2012, as compared to \$592,071 for the nine months ended September 30, 2011, primarily due to the loss of \$4,017,726 on disposal of five fueling stations during the third quarter of 2012, and the interest expense of \$718,541 related to the loan from Pudong Development Bank during the nine months ended September 30, 2012, which was capitalized during the first half of 2011.

Provision for Income Tax

Income tax was \$2,129,838 for the nine months ended September 30, 2012, as compared to \$3,549,122 for the nine months ended September 30, 2011. The effective income tax rate increased from 23.7% to 27.8% over this period.

Net income

Net income decreased to \$5,522,325 for the nine months ended September 30, 2012, by \$5,902,285, or 51.7% , from \$11,424,610 for the nine months ended September 30, 2011. Net margin decreased to 5.5% for the nine months ended September 30, 2012 from 12.9% for the nine months ended September 30, 2011, primarily due to the increase in non-operating expenses.

Liquidity and Capital Resources

Historically, our primary sources of liquidity consisted of cash generated from our operations, debt financing and proceeds from equity offerings. Our principal uses of cash have been, and are expected to continue to be, working

capital for operational purposes, as well as for satisfying capital investment, such as constructing our LNG plant in Jingbian County, Shaanxi Province and other projects. Due to accelerated repayment of the Abax Senior Notes, 29.2% of the principal of the loan from SPDB, and the short-term loans from Mr. Hao Qu, all of which are payable within one year from September 30, 2012, our current liabilities were larger than current assets as of September 30, 2012, resulting in negative working capital. On March 22, May 17 and May 18, 2012, we entered into an agreement with Mr. Hao Qu to extend the maturity dates of certain borrowing totaling \$2.32 million to 2013. We will continue to obtain new short-term bank loans to finance our working capital, and long term loans to fund our capital expenditure projects, if necessary.

As of September 30, 2012, we had \$8,604,906 of cash and cash equivalents on hand, compared to \$9,622,883 of cash and cash equivalents as of December 31, 2011. The decrease was primarily attributable to the construction of the LNG plant and other projects, and the repayment of the loans from SPDB and of the principal of the Abax Senior Notes.

Net cash provided by operating activities was \$21,076,965 for the nine months ended September 30, 2012, compared to net cash provided by operating activities of \$15,746,982 for the nine months ended September 30, 2011. The increase was primarily due to the decrease in prepaid expense and other current assets, increase in unearned revenue and decrease in accounts receivable, and adjustments for non-cash expense items, including depreciation and amortization expenses, offset mainly by the increase in advance to suppliers and decrease in tax payable.

Net cash used in investing activities increased from \$15,431,571 for the nine months ended September 30, 2011 to \$17,229,230 for the nine months ended September 30, 2012, primarily due to the increase in additions to construction in progress in Xi'an.

Net cash used in financing activities was \$4,865,918 for the nine months ended September 30, 2012, primarily due to the repayment of the principals of the Abax Senior Notes and of the long term loan from SPDB, and increase in restricted cash. On a comparable basis, net cash provided by financing activities was \$427,388 for the nine months ended September 30, 2011, due to the short-term loans borrowed from Mr. Hao Qu and our joint venture company, Henan CNPC Kunlun Xilan Compressed Natural Gas Co., Ltd.

Based on our past performance and current expectations, we believe our cash and cash equivalents, as well as cash generated from operations, will satisfy only a small part of our working capital needs. We will try to obtain new short-term bank loans to finance our working capital and to satisfy other liquidity requirements associated with our operations. As for capital expenditures, we will evaluate the availability of long-term bank loans or strategic investment, and negotiate possible debt restructuring of the Senior Notes with Abax.

The majority of our revenues and expenses were denominated primarily in RMB, the currency of the PRC. There is no assurance that exchange rates between the RMB and United States dollars will remain stable. Historically, inflation has not had a material impact on our business.

Off-Balance Sheet Arrangements

We do not have any off-balance sheet arrangements that have or are reasonably likely to have a current or future effect on our financial conditions, changes in financial condition, revenues or expenses, results of operations, liquidity, capital expenditures or capital resources that are material to our investors.

Capital Expenditures

Our planned capital expenditures as of September 30, 2012 were approximately \$216.3 million through December 2015, the majority of which were to be incurred in connection with Phase II and III of the LNG facility in Jingbian County, Shaanxi Province, the construction or acquisition of additional fueling stations and compressor stations, and the expansion of our operations in Hubei Province. We expect to fund the planned capital expenditures mainly through cash flows from operations as well as through potential bank loans or other forms of borrowing.

Outstanding Indebtedness

On December 30, 2007, we entered into a securities purchase agreement with Abax Lotus Ltd. (“Abax”) and, on January 29, 2008, we entered into an amendment to such agreement with Abax (the “Purchase Agreement”, as amended). Under the Purchase Agreement, on January 29, 2008, we sold to Abax \$20,000,000 in principal amount of our 5.0% Guaranteed Senior Notes due 2014 (the “Senior Notes”) and warrants to purchase 1,450,000 shares of our common stock and, on March 3, 2008, we issued to Abax an additional \$20,000,000 in principal amount of Senior Notes.

We are required to make mandatory prepayments on the Senior Notes on certain dates and we are subject to customary covenants for financings of this type, including restrictions on the incurrence of liens, payment of dividends and disposition of properties as well as being obligated to maintain certain financial ratios. On August 5, 2011, the Company paid the first balance due equal to 8.3333% of the principal amount outstanding. The second repayment for 8.3333% of the principal of the Senior Notes was due on January 30, 2012. After negotiations with Abax, the note-holders agreed that the Company could make the payment on or before March 9, 2012. On March 7, 2012, the Company paid \$4,946,541 to Abax, including \$3,838,949 of the principal due on January 30, 2011 in full (with foreign currency exchange loss of \$505,615), plus accrued interest of \$1,079,176, as well as penalty interest of \$28,416. Abax issued a waiver to exempt the Company from any other consequences of the late payment. The repayment of 16.6666% of the principal of the notes payable plus accrued interest of the period from January 29, 2012 to July 30, 2012 was due on July 30, 2012. The company didn't make the payment on time.

The holders of a majority of the Senior Notes (the “Holders”) notified the Company on August 21, 2012 (the “Default Notice”) that the Company was in default of the Senior Notes for failure to make the interest payment due and a mandatory redemption of the Senior Notes on July 30, 2012 (the “Default”). In the notice, the Holders also demanded that the Company make all payments due as of July 30, 2012 under the Senior Notes to avoid acceleration of all payments under the Senior Notes and foreclosure of collaterals pledged to secure the Senior Notes.

On September 5, 2012, the Company received another notice from the Holders that the Holders have elected to exercise their right to accelerated payment of the Senior Notes as a result of the continued Default (the “Acceleration Notice”). The immediate acceleration of all amounts owing under the Senior Notes totals approximately RMB 249,450,516.

Further, on September 10, 2012, the Company received a demand notice from the Holders' legal counsel on behalf of the Holder for the payment of all amounts owing under the Senior Notes (the “Demand Notice”) within 15 days from the date of the Demand Notice. If the Company does not meet the demand, the Holders intend to pursue all of its legal rights under the transaction documents, including, without limitation:

· requiring the Trustee to initiate suit in the courts of New York with respect to the Company's failure to pay the entire amount due to the Holders under the Senior Notes;

· initiate involuntary bankruptcy proceedings with respect to the Company under the U.S. Federal Bankruptcy Code;

· initiate arbitration in Hong Kong against the Company for breaches of the Company's obligations under the SPA;

· exercising its rights under the Warrant Agreement to require the redemption of all Warrants held by it at the Redemption Price (as defined therein); and

· all other rights under the transaction documents relating to the Senior Notes in relation to the Default, which may include, foreclosing on the security interest in 65% of all outstanding equity interest of the Company's wholly owned subsidiary, Shaanxi Xilan Natural Gas Equipment Co., Ltd., and all funds in the account where the proceeds from the Senior Notes were deposited.

As of now the Company has not met the demand, and the Holders have not taken any legal action. The Company is currently negotiating possible resolutions to the foregoing demands relating to the Senior Notes with the Holders. There is no assurance that the Company will be successful in completing such negotiations or even if it does complete them, such resolutions will be on the terms favorable to the Company.

Long-Term Loan

On February 26, 2010, JBLNG entered into a fixed assets loan contract with SPDB, pursuant to which the SPDB agreed to lend \$18,564,000 to JBLNG. SPDB transferred \$13,923,000 and \$4,641,000 to JBLNG on March 17 and May 28, 2010, respectively. The applicable interest rate of this loan is the standard three- to five-year rate issued by the People's Bank of China's, 5.76% for the first year and subject to adjustment commencing the second year. As the People's Bank of China adjusted the standard interest rate several times in 2011 and 2010, beginning January 1, 2012 the interest rate of these loans had been adjusted to 6.90%. As the People's Bank of China lowered the standard interest rate twice in June and July 2012, beginning January 1, 2013 the interest rate of these loans will reduce. The repayment term was amended in October 2011. According to the amended contract, the loan period is 58 months from the date of effectiveness of the contract, and will be repaid twice a year, with the last repayment no later than December 5, 2014. The loan is guaranteed by XXNGC and secured by XXNGC's equipment and vehicles located within PRC. Pursuant to the long-term loan agreement with Pudong Development Bank Xi'an Branch, the Company repaid the principal of \$775,000 (RMB 5,000,000), \$3,875,000 (RMB 25,000,000) and \$792,500 (RMB 5,000,000) to the SPDB on October 10, 2011, December 31, 2011 and March 5, 2012, respectively.

If the default of the Senior Notes is not resolved, the Company may be deemed to be in default on its fixed asset loan from Shanghai Pudong Development Bank (“SPDB”) if the Holders initiate involuntary bankruptcy proceedings with respect to the Company and the Company does not obtain prior written approval from SPDB. The default of the loan with SPDB may result in full or partial acceleration of the repayment of the loan.

Contractual Obligations

Our contractual obligations are as follows:

Contractual obligations	Total	Payments due by period			
		Less than 1 year	1-3 Years	3-5 years	More than 5 years
	(in thousands)				
Long-term debt obligations(1)	\$38,256	\$38,256	\$-	\$-	\$-
Operating lease obligations(2)	40,262	2,149	4,326	4,122	29,665
Purchase obligations (3)	8,487	8,487	-	-	-
Other long-term liabilities reflected on balance sheet (4)	17,500	17,500	-	-	-
Related party debt (5)	2,680	2,680	-	-	-
Long-term loan	13,456	5,541	7,915	-	-
Total	\$120,641	\$74,613	\$12,241	\$4,122	\$29,665

(1) Please refer to Note 5 to our consolidated financial statements for the nine months ended September 30, 2012.

(2) The Company entered into a series of long-term lease agreements with outside parties to lease land use rights for the Company's CNG fueling stations located in the PRC. The agreements have terms ranging from 10 to 30 years. The Company makes annual prepayments for most of these lease agreements. The Company also entered into five office leases in Xi'an, PRC, one office lease in Wuhan, PRC, one office lease in Yichang, PRC, one office lease in Huangshi, PRC and one office lease in New York, United States of America ("USA").

(3) We have purchase commitments for materials, supplies, services and property and equipment for constructing the LNG plant and other construction in progress projects.

(4) The \$17,500,000 reflects derivative liability related to the embedded put option in the 1,450,000 warrants we issued to Abax in January 2008. Abax is entitled to require us to purchase back the portion of warrants not exercised upon expiration.

(5) The \$2,680,000 reflects related party debt to Mr. Hao Qu, a former employee of XXNGC and shareholder of the Company.

Natural Gas Purchase Commitments

We have existing long-term natural gas purchase agreements with our major suppliers. As of September 30, 2012, we maintained long-term natural gas purchase agreements with one of our vendors, Qinshui Lanyan Coal Bed Methane Co., Ltd. (“Qinshui Lanyan”) which expires on December 31, 2015. We do not expect any issues or difficulties in renewing our supply contracts with the vendor going forward.

We continued to seek lower-cost sources of supply and did not have commitments for the purchasing volume of natural gas to any suppliers except Qinshui Lanyan. Pursuant to the agreement with Qinshui Lanyan, we should purchase from Qinshui Lanyan a daily volume of approximately 200,000 cubic meters of coal bed gas. Prices of natural gas are strictly controlled by the PRC government.

The sales prices of both pipeline natural gas in Shaanxi Province and vehicular fuel in the city of Xi’an were raised on October 20, 2010. The sales price of pipeline natural gas in Shaanxi Province increased by \$0.03 (RMB 0.23) per cubic meter for residential use. The sales prices for commercial and industrial use were increased by \$0.05 and \$0.08 (RMB 0.35 and RMB 0.55) per cubic meter, respectively. Additionally, the sales price of CNG for vehicular fuel in Xi’an was adjusted based on the target ratio of 0.6:1 to the retail price of Grade 90 gasoline. The retail price of CNG increased by \$0.14 (RMB 0.90) per cubic meter. The adjusted prices took effect on October 20, 2010.

The sales prices of vehicular fuel in the cities of Kaifeng and Xuchang, Henan Province were raised on July 20, 2010 and August 1, 2010, respectively. The sales price of vehicular fuel in Kaifeng increased from \$0.42 (RMB 3.30) to \$0.46 (RMB 3.60) per cubic meter. The sales price of vehicular fuel in Xuchang increased from \$0.41 (RMB 3.20) to \$0.47 (RMB 3.65) per cubic meter. Additionally, the sale prices of CNG for vehicular fuel in Kaifeng was adjusted based on the target ratio of no less than 0.6:1 to the retail price of Grade 90 gasoline. The sale prices of CNG for vehicular fuel in Xuchang was adjusted to no less than 0.6:1 to the retail price of Grade 90 gasoline and would gradually be raised to the target ratio of no less than 0.75:1.

Foreign Currency Translations

Our reporting currency is the U.S. dollar (“USD”). The functional currency of XXNGC and XXNGC’s PRC subsidiaries and, therefore, our functional currency, is the RMB. The results of operations and financial position of XXNGC and XXNGC’s PRC subsidiaries are translated to USD using the period end exchange rates as to assets and liabilities and weighted average exchange rates as to revenues, expenses and cash flows. Capital accounts are translated at their historical exchange rates when the capital transaction occurred. The resulting currency translation adjustments are recorded as a component of accumulated other comprehensive income (loss) within stockholders’ equity.

The balance sheet amounts, with the exception of equity, were translated at the September 30, 2012 exchange rate of RMB 6.32 to \$1.00 as compared to RMB 6.35 to \$1.00 at December 31, 2011. The equity accounts were stated at their historical rate. The average translation rates applied to income and cash flow statement amounts for the nine months ended September 30, 2012 and 2011 were RMB 6.31 and RMB 6.49 to \$1.00, respectively.

Critical Accounting Policies

Our discussion and analysis of our financial position and results of operations contained in this Form 10-Q is based on our consolidated financial statements, contained elsewhere herein. The preparation of these financial statements in conformity with generally accepted accounting principles requires that we make estimates and assumptions that affect the reported amounts of assets and liabilities, and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates. There have been no material changes in the development of our accounting estimates or the assumptions underlying those estimates, or the accounting policies that we disclosed as our Critical Accounting Policies in our Annual Report on Form 10-K for the year ended December 31, 2011.

Use of Estimates and assumptions

The preparation of the consolidated financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Significant accounting estimates reflected in the Company's consolidated financial statements include revenue recognition, allowance for doubtful accounts, inventory obsolescence, warrants liability and useful lives of property and equipment. Actual results could differ from those estimates.

Consolidation of Variable Interest Entity

In accordance with the accounting standard regarding consolidations, VIEs are entities that lack sufficient equity to finance their activities without additional financial support from other parties or whose equity holders lack adequate decision-making ability. Any VIE with which the Company is involved must be evaluated to determine the primary beneficiary of the risks and rewards of the VIE. Management makes ongoing reassessments of whether the Company is the primary beneficiary of XXNGC.

Property and Equipment

Property and equipment are stated at cost. Expenditures for maintenance and repairs are charged to earnings as incurred while additions, renewals and betterments are capitalized. When property and equipment are retired or otherwise disposed of, the related cost and accumulated depreciation are removed from the respective accounts, and any gain or loss is included in operations. Depreciation of property and equipment is provided using the straight-line

method for all assets with estimated lives as follows:

Office equipment	5 years
Operating equipment	5-20 years
Vehicles	5 years
Buildings and improvements	5-30 years

Construction in Progress

Construction in progress consists of (1) the costs for constructing CNG fueling stations, the liquefied natural gas, or LNG, project in Jingbian County, and the natural gas infrastructure project in Xi'an International Port District and (2) other construction in progress costs, including technology licensing fees, equipment purchases, land use rights requisition cost, capitalized interest and other construction fees. No depreciation is provided for construction in progress until such time as the assets are completed and placed into service. Interest incurred during construction is capitalized into construction in progress. All other interest is expensed as incurred.

Revenue Recognition

Revenue is recognized when services are rendered to customers and when a formal arrangement exists, the price is fixed or determinable, the delivery is completed, no other significant obligations of ours exist and collectability is reasonably assured. Payments received before all of the relevant criteria for revenue recognition are satisfied are recorded as unearned revenue. Revenue from gas and gasoline sales is recognized when gas and gasoline is pumped through pipelines to the end users. Revenue from installation of pipelines is recorded when the contract is completed and accepted by the customers. Construction contracts are usually completed within one to two months. Revenue from repairing and modifying vehicles is recorded when services are rendered to and accepted by the customers.

Fair Value of Financial Instruments

The accounting standards regarding fair value of financial instruments and related fair value measurements define fair value, establish a three-level valuation hierarchy for disclosures of fair value measurement, and provide disclosure requirements for fair value measures. The carrying amounts reported in the consolidated balance sheets for current receivables and payables qualify as financial instruments. Management concluded the carrying values are a reasonable estimate of fair value because of the short period of time between the origination of such instruments and their expected realization and, if applicable, their stated interest rate approximates current rates available. The three levels are defined as follows:

· Level 1 inputs to the valuation methodology are quoted prices (unadjusted) for identical assets or liabilities in active markets.

· Level 2 inputs to the valuation methodology include quoted prices for similar assets and liabilities in active markets, and inputs that are observable for the asset or liability, either directly or indirectly, for substantially the full term of

the financial instrument.

·Level 3 inputs to the valuation methodology are unobservable.

65

Financial assets and liabilities are classified in their entirety based on the lowest level of input that is significant to the fair value measurement. Depending on the product and the terms of the transaction, the fair value of our notes payable and derivative liabilities were modeled using a series of techniques, including closed-form analytic formula, such as the Black-Scholes option-pricing model, which does not entail material subjectivity because the methodology employed does not necessitate significant judgment, and the pricing inputs are observed from actively quoted markets.

A contract that would otherwise meet the definition of a derivative but is both (a) indexed to the company's own stock and (b) classified in stockholders' equity in the balance sheet would not be considered a derivative financial instrument. There is a two-step model to be applied in determining whether a financial instrument or an embedded feature is indexed to an issuer's own stock and thus able to qualify for the exception. Changes in the fair value of warrants are recognized in the income statement.

Income Taxes

Deferred tax assets and liabilities are recognized for the expected future tax consequences of events that have been included in the financial statements or tax returns. Under this method, deferred income taxes are recognized for the tax consequences in future years of temporary differences between the tax bases of assets and liabilities and their financial reporting amounts at each period end based on enacted tax laws and statutory tax rates applicable to the periods in which the differences are expected to affect taxable income. Valuation allowances are established, when necessary, to reduce deferred tax assets to the amount expected to be realized. At September 30, 2012 and December 31, 2011, there were no significant book to tax differences except for warrants liability and stock based compensation. An uncertain tax position is recognized as a benefit only if it is "more likely than not" that the tax position would be sustained in a tax examination, with a tax examination being presumed to occur. The amount recognized is the largest amount of tax benefit that is greater than 50% likely of being realized on examination. For tax positions not meeting the "more likely than not" test, no tax benefit is recorded. Penalties and interest incurred related to underpayment of income tax are classified as income tax expense in the year incurred. No significant penalties or interest relating to income taxes have been incurred during the nine months ended September 30, 2012 and 2011.

Long-Lived Assets

We evaluate the carrying value of long-lived assets to be held and used whenever events or changes in circumstances indicate that the assets might be impaired. Impairment losses are recorded on long-lived assets used in operations when indicators of impairment are present and the undiscounted cash flows estimated to be generated by those assets are less than the assets' carrying amounts. In that event, a loss is recognized based on the amount by which the carrying amount exceeds the fair market value of the long-lived assets. Loss on long-lived assets to be disposed of is determined in a similar manner, except that fair market values are reduced for the cost of disposal.

RECENT ACCOUNTING PRONOUNCEMENTS

See “*Note 2. Summary of Significant Accounting Policies*” in “*Item 1. Financial Statements*” herein for a discussion of the new accounting pronouncements adopted in this Quarterly Report on Form 10-Q.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Natural Gas Price Risk

Our major market risk exposure continues to be the pricing applicable to our purchases and value-added reselling of CNG. Our revenues and profitability depend substantially upon the applicable prices of natural gas, which in China are regulated and fixed by central and local governments and do not fluctuate significantly. Such price stability is expected to continue for operations in China. We currently do not have any hedge positions in place to reduce our exposure to changes in natural gas wholesale and retail prices.

Interest Rate Risk

We are subject to interest rate risk on our long-term fixed-interest rate debt. Fixed rate debt, where the interest rate is fixed over the life of the instrument, exposes us to changes in market interest rates reflected in the fair value of the debt and to the risk that we may need to refinance maturing debt with new debt at a higher rate. All other things being equal, the fair value of our fixed rate debt will increase or decrease as interest rates change. We had interest-bearing long-term and short-term debts outstanding in an aggregate of \$54,391,277 at September 30, 2012. The fixed-rate long-term debt, or the notes payable to Abax of \$38,255,832, is due on demand by Abax as a result of the default of the Senior Notes. On September 10, 2012, the Company received a demand notice from the Holders’ legal counsel on behalf of the Holder for the payment of all amounts owing under the Senior Notes (the “Demand Notice”) within 15 days from the date of the Demand Notice. As of now the Company has not meet the demand, and the Holders have not taken any legal action. The Company is currently negotiating possible resolutions to the foregoing demands relating to the Senior Notes with the Holders. The fixed-rate loan from a related party of \$2,679,945 is due during 2012 and 2013. The remaining balance in the amount of \$13,455,500, or the loan from Pudong Development Bank, bears interest at floating rates, and is due between 2012 and 2014. We repaid principal of \$792,500 (RMB 5,000,000) due on March 5, 2012. We currently have no interest rate hedge positions in place to reduce our exposure to changes in interest rates.

Foreign Currency Exchange Rates Risk

We operate using China's local currency and the effects of foreign currency fluctuations are largely mitigated because local expenses in China are also denominated in the same currency.

Our assets and liabilities, of which the functional currency is the RMB, are translated into USD using the exchange rates in effect at the balance sheet date, resulting in translation adjustments that are reflected as cumulative translation adjustment in the stockholders' equity section on our consolidated balance sheets. A portion of our net assets are impacted by changes in foreign currencies translation rates in relation to the U.S. dollar. We recorded a foreign currency translation gain of \$896,392 for the nine months ended September 30, 2012, to reflect the impact of the fluctuation of RMB against USD.

Legal Proceedings Risk

Vandavelde v. China Natural Gas, Inc., et al. (Case No. 1:10CV00728, United States District Court for the District of Delaware). As previously disclosed, on August 26, 2010, an individual investor filed a putative class action complaint against the Company and certain of its current and former officers and directors alleging that the defendants violated the U.S. securities laws. The Court appointed another individual investor as lead plaintiff, and he then filed an amended complaint. The Company filed a motion to dismiss which, on July 6, 2012, the Court granted in its entirety. In its order, the Court also granted the plaintiffs leave to amend their complaint. In the second amended complaint, the plaintiffs allege that, in violation of Section 10(b) of the Securities Exchange Act of 1934 (and Rule 10b-5 thereunder), the defendants made false or misleading statements in the Company's Annual Reports on Form 10-K for the years ended December 31, 2009, and December 31, 2010, and in various quarterly reports, by purportedly failing to disclose a series of loans and related party transactions. The second amended complaint also asserts claims against certain of the Company's current and former officers and directors for violations of Section 20(a) of the Securities Exchange Act of 1934. The suit seeks unspecified monetary damages. On September 25, 2012, the Company filed a motion to dismiss the second amended complaint, which is currently pending before the Court. The Company cannot at this time provide any assurance that the outcome of this suit will not be materially adverse to its financial condition, consolidated results of operations, cash flows or business prospects.

a) On December 5, 2011, plaintiff Haitham J. Kousa filed an action in the U.S. District Court for the District of Delaware against Qinan Ji, Zhiqiang Wang, Lawrence W. Leighton, Frank Waung, Yang Xiang Dong, China Natural Gas, Inc. (the "Company") and The Nasdaq Stock Market, LLC, as defendants (C.A. No. 11-1202-SLR), and on January 17, 2012, plaintiff Robert Mallano also filed an action in the U.S. District Court for the District of Delaware against Qinan Ji, Zhiqiang Wang, Lawrence W. Leighton, Frank Waung, Yang Xiang Dong, and the Company, as defendants (C.A. No. 12-0048-SLR) (the "Constituent Actions"). The Constituent Actions alleged, inter alia, breach of fiduciary duties, self-dealing, and misconduct by management for related-party loans to management and the failure to disclose such loans. The Constituent Actions were consolidated on February 14, 2012 and bore the following caption, In re China Natural Gas, Inc. Shareholder and Derivative Litigation (Consol. C.A. No. 11-1202-SLR). On February 8, 2012, plaintiff Rick Steinmetz, filed an action in the U.S. District Court for the District of Delaware against Qinan Ji, Zhiqiang Wang, Lawrence W. Leighton, Frank Waung, David She, Carl Yeung, Yang Xiang Dong, China Natural Gas, Inc., alleging the same or similar claims as in the Constituent Actions. This case was consolidated with the Constituent Actions on March 27, 2012. On March 19, 2012 the court granted Nasdaq's motion to dismiss, denied plaintiff's motion for appointment of a receiver and dismissed plaintiff's motion for expedited discovery. On April 10, 2012, the parties stipulated to the voluntary dismissal of the consolidated Constituent Actions as, in light of the removal of Nasdaq from the matter, no federal question remained and only state law issues remained. As part of the dismissal order, the plaintiffs undertook to file an action in the Delaware Court of Chancery asserting the claims arising out of the matters set forth in the Constituent Actions. The dismissal of the Constituent Actions was ordered on May 31, 2012. On May 22, 2012, the plaintiffs filed a Verified Shareholder Class Action and Derivative Complaint in the Delaware Court of Chancery, captioned Haitham J. Kousa, et al vs. Qinan Ji, et al (Case No. 7559-VCL). The Complaint alleges that each of the Director Defendants, Zhiqiang Wang, Lawrence W. Leighton, Frank Waung, Yang Xiang Dong, breached his fiduciary duties to CHNG and its shareholders by preserving Qinan Ji's control over the Company in light of the threatened delisting of the Company's shares by NASDAQ and that Director Defendants hereby caused CHNG's stock to be delisted, injuring the Company and its shareholders. The Complaint also alleges that Qinan Ji breached his fiduciary

obligations of care, good faith, loyalty and candor to the Company. The Company is actively defending that case. Upon motion filed by counsel for Director Defendants and China Natural Gas, Inc. to stay the case, the Delaware Court of Chancery ordered that count asserting direct claims against Qinan Ji be stayed pending the outcome of the SEC action (disclosed below) and the Federal Securities Action (Case No. 1:10CV00728, United States District Court for the District of Delaware) disclosed above, that the parties proceed with briefing a motion to dismiss, and that discovery be stayed as to the remaining counts of the complaint pending the outcome of the motion to dismiss.

On May 14, 2012, the Securities and Exchange Commission (“SEC”) filed an action in the U.S. District Court for the Southern District of New York against Qinan Ji and the Company, captioned Securities and Exchange Commission v. China Natural Gas, Inc. and Qinan Ji (12 CV 3824) (the “SEC Action”). The SEC Action alleges that the Company violated Section 17(a)(2) of the Securities Act of 1933 (“Securities Act”), and Sections 10(b), 13(a), 13(b)(2)(A), 13(b)(2)(B) and 14(a) of the Securities Exchange Act of 1934 (“Exchange Act”), and that Qinan Ji violated Section 17(a) of the Securities Act, Sections 10(b), 13(b)(5) and 14(a) of the Exchange Act (as well as certain rules promulgated under such sections), Section 304 of the Sarbanes Oxley Act of 2002 and aiding and abetting certain of the Company’s alleged violations. The allegations in the SEC Action stem from the Company making two related c)party loans in 2010 and from the acquisition by the Company of a natural gas company in 2008. The SEC Action seeks a judgment (i) permanently enjoining the Company and Qinan Ji from future violations of the above provisions of the federal securities laws; (ii) imposing civil monetary penalties on the Company and Qinan Ji; (iii) prohibiting Qinan Ji from acting as an officer or director of a public company; and (iv) requiring Qinan Ji to reimburse the Company for his bonuses and stock sale profits. The Company's response to the complaint in the SEC Action is currently due but the Company and the SEC have jointly requested that the Court extend the date for a responsive pleading to January 31, 2013 to allow the parties to attempt to conclude a settlement. The Company is in serious settlement negotiations with the Staff of the SEC but there can be no assurance that a settlement will be concluded. In the absence of a settlement the Company intends to defend this case vigorously.

We intend to defend these cases vigorously. We currently cannot estimate the outcome of these matters as of the date of this Report.

ITEM 4. CONTROLS AND PROCEDURES

Disclosure Controls and Procedures

During and subsequent to the reporting period covered by this Report, and under the supervision and with the participation of our management, including our principal executive officer and our principal financial officer, we conducted an evaluation of our disclosure controls and procedures that were in effect at the end of the period covered by this report. Disclosure controls and procedures is defined under Rule 13a-15(e) of the Securities Exchange Act of 1934, as amended (the “Exchange Act”), as those controls and other procedures of an issuer that are designed to ensure that information required to be disclosed by an issuer in the reports that it files or submits under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the rules and forms of the Securities and Exchange Commission. Disclosure controls and procedures include, without limitation, controls and procedures designed to ensure that information required to be disclosed by an issuer in the reports that it files or submits under the Exchange Act is accumulated and communicated to the issuer’s management, including its principal executive officer and principal financial officer, as appropriate, to allow timely decisions regarding required disclosure.

During management’s evaluation of the effectiveness of internal control over financial reporting in connection with this quarterly report for the nine months ended September 30, 2012, management concluded that the Company continues to have the following material weakness in its internal control over financial reporting for the nine months ended September 30, 2012:

The Company does not maintain personnel with a sufficient level of accounting knowledge, experience and training in the application of the accounting principles generally accepted in the United States of America (“U.S. GAAP”) and SEC requirements in the application thereof.

The Company entered into a related party transaction without appropriate authorization and failed to correctly disclose the Wang Loan as a related party transaction.

The Company failed to communicate to the Board of Directors the Wang Loan and the loan made to JunTai Hosing Purchase Ltd. and had entered into the Loans without approval of the Board of Directors.

The Company did not have a formal process to analyze the Company’s goodwill for possible impairment.

The Company did not initially translate the proceeds from the Senior Notes in USD into RMB, the functional currency of the Company, and failed to recognize the foreign currency change gain or loss at the end of each

reporting period, when the Company should translate its amount back into USD, the reporting currency of the Company.

The Company failed to have a written policy that documents the internal control procedures over its revenue and purchase cycles relating to its liquefied natural gas business.

The Company did not obtain the Board of Director's resolution prior to sign a contract with Zhangjiagang CIMC Sanctum Cryogenic Equipment Co., Ltd to buy 50 smart semi-trailer for \$10,131,200 (RMB 64 million).

The Company did not obtain the Board of Director's resolution prior to close five stations and dispose these fixed assets.

Based on their evaluation (and considering the material weaknesses previously identified and discussed in our internal control over financial reporting, Item 9A, Controls and Procedures, in our Annual Report on Form 10-K for the year ended December 31, 2011), our principal executive officer and principal financial officer have concluded that our disclosure controls and procedures at September 30, 2012 were not effective.

Management's Remediation Initiatives

In response to the above identified material weaknesses in general and to strengthen our internal control over financial reporting, we have taken or will take the following remediation initiatives:

Developing a comprehensive training and development plan for our accounting personnel, including our Chief
1) Financial Officer, Financial Controller and others, in the knowledge of the principles and rules of U.S. GAAP and the SEC requirements in the application thereof.

The Company appointed Mr. Shuwen Kang to replace Mr. Qinan Ji as Chief Executive Officer of the Company.
2) Mr. Shuwen Kang is familiar with the Company's management and operations and has extensive experience in the natural gas industry and we believe he is qualified and competent to serve effectively as the Company's CEO.

3) Resignation in August 2011 of certain employees involved in concealing the related party nature of the Wang Loan;

4) Appointment of an Independent Controller reporting to the Audit Committee of the Board of Directors;

Adopting a policy that restricts the signing authority of the Chairman and other executives. The policy mandates
5) two signing parties for any obligation outside the normal scope of operations set forth in the Company's business plan, as reviewed and approved from time to time by the Company's Board of Directors; and

6) Formulation of a formal process of analyzing goodwill and testing it for impairment.

- 7) Formulation of a formal process of identifying items for which foreign exchange gain or loss may occur specifically and recognizing such gain or loss in our financial statements.

- 8) Development of a formal policy that documents the internal control procedures over the revenue and purchase cycles relating to the liquefied natural gas business.

Of the above items, Item 1 through to Item 7 have been completed.

In addition, the Company continues to reassess its internal controls and procedures in light of these recent events and is in the process of determining additional appropriate actions to take to remediate these material weaknesses.

Changes in Internal Control over Financial Reporting

Other than the remediation measures described above, there was no change in our internal control over financial reporting during the nine months ended September 30, 2012 that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

Part II. OTHER INFORMATION

Item 1. Legal Proceedings

Vandeveld v. China Natural Gas, Inc., et al. (Case No. 1:10CV00728, United States District Court for the District of Delaware). As previously disclosed, on August 26, 2010, an individual investor filed a putative class action complaint against the Company and certain of its current and former officers and directors alleging that the defendants violated the U.S. securities laws. The Court appointed another individual investor as lead plaintiff, and he then filed an amended complaint. The Company filed a motion to dismiss which, on July 6, 2012, the Court granted in its entirety. In its order, the Court also granted the plaintiffs leave to amend their complaint. In the second amended complaint, the plaintiffs allege that, in violation of Section 10(b) of the Securities Exchange Act of 1934 (and Rule 10b-5 thereunder), the defendants made false or misleading statements in the Company's Annual Reports on Form 10-K for the years ended December 31, 2009, and December 31, 2010, and in various quarterly reports, by purportedly failing to disclose a series of loans and related party transactions. The second amended complaint also asserts claims against certain of the Company's current and former officers and directors for violations of Section 20(a) of the Securities Exchange Act of 1934. The suit seeks unspecified monetary damages. On September 25, 2012, the Company filed a motion to dismiss the second amended complaint, which is currently pending before the Court. The Company cannot at this time provide any assurance that the outcome of this suit will not be materially adverse to its financial condition, consolidated results of operations, cash flows or business prospects.

- On December 5, 2011, plaintiff Haitham J. Kousa filed an action in the U.S. District Court for the District of Delaware against Qinan Ji, Zhiqiang Wang, Lawrence W. Leighton, Frank Waung, Yang Xiang Dong, China Natural Gas, Inc. (the “Company”) and The Nasdaq Stock Market, LLC, as defendants (C.A. No. 11-1202-SLR), and on January 17, 2012, plaintiff Robert Mallano also filed an action in the U.S. District Court for the District of Delaware against Qinan Ji, Zhiqiang Wang, Lawrence W. Leighton, Frank Waung, Yang Xiang Dong, and the Company, as defendants (C.A. No. 12-0048-SLR) (the “Constituent Actions”). The Constituent Actions alleged, inter alia, breach of fiduciary duties, self-dealing, and misconduct by management for related-party loans to management and the failure to disclose such loans. The Constituent Actions were consolidated on February 14, 2012 and bore the following caption, In re China Natural Gas, Inc. Shareholder and Derivative Litigation (Consol. C.A. No. 11-1202-SLR). On February 8, 2012, plaintiff Rick Steinmetz, filed an action in the U.S. District Court for the District of Delaware against Qinan Ji, Zhiqiang Wang, Lawrence W. Leighton, Frank Waung, David She, Carl Yeung, Yang Xiang Dong, China Natural Gas, Inc., alleging the same or similar claims as in the Constituent Actions. This case was consolidated with the Constituent Actions on March 27, 2012. On March 19, 2012 the court granted Nasdaq’s motion to dismiss, denied plaintiff’s motion for appointment of a receiver and dismissed plaintiff’s motion for expedited discovery. On April 10, 2012, the parties stipulated to the voluntary dismissal of the
- b) consolidated Constituent Actions as, in light of the removal of Nasdaq from the matter, no federal question remained and only state law issues remained. As part of the dismissal order, the plaintiffs undertook to file an action in the Delaware Court of Chancery asserting the claims arising out of the matters set forth in the Constituent Actions. The dismissal of the Constituent Actions was ordered on May 31, 2012. On May 22, 2012, the plaintiffs filed a Verified Shareholder Class Action and Derivative Complaint in the Delaware Court of Chancery, captioned Haitham J. Kousa, et al vs. Qinan Ji, et al (Case No. 7559-VCL). The Complaint alleges that each of the Director Defendants, Zhiqiang Wang, Lawrence W. Leighton, Frank Waung, Yang Xiang Dong, breached his fiduciary duties to CHNG and its shareholders by preserving Qinan Ji’s control over the Company in light of the threatened delisting of the Company’s shares by NASDAQ and that Director Defendants hereby caused CHNG’s stock to be delisted, injuring the Company and its shareholders. The Complaint also alleges that Qinan Ji breached his fiduciary obligations of care, good faith, loyalty and candor to the Company. The Company is actively defending that case. Upon motion filed by counsel for Director Defendants and China Natural Gas, Inc. to stay the case, the Delaware Court of Chancery ordered that count asserting direct claims against Qinan Ji be stayed pending the outcome of the SEC action (disclosed below) and the Federal Securities Action (Case No. 1:10CV00728, United States District Court for the District of Delaware) disclosed above, that the parties proceed with briefing a motion to dismiss, and that discovery be stayed as to the remaining counts of the complaint pending the outcome of the motion to dismiss.
- c) On May 14, 2012, the Securities and Exchange Commission (“SEC”) filed an action in the U.S. District Court for the Southern District of New York against Qinan Ji and the Company, captioned Securities and Exchange Commission v. China Natural Gas, Inc. and Qinan Ji (12 CV 3824) (the “SEC Action”). The SEC Action alleges that the Company violated Section 17(a)(2) of the Securities Act of 1933 (“Securities Act”), and Sections 10(b), 13(a), 13(b)(2)(A), 13(b)(2)(B) and 14(a) of the Securities Exchange Act of 1934 (“Exchange Act”), and that Qinan Ji violated Section 17(a) of the Securities Act, Sections 10(b), 13(b)(5) and 14(a) of the Exchange Act (as well as certain rules promulgated under such sections), Section 304 of the Sarbanes Oxley Act of 2002 and aiding and abetting certain of the Company’s alleged violations. The allegations in the SEC Action stem from the Company making two related party loans in 2010 and from the acquisition by the Company of a natural gas company in 2008. The SEC Action seeks a judgment (i) permanently enjoining the Company and Qinan Ji from future violations of the above provisions of the federal securities laws; (ii) imposing civil monetary penalties on the Company and Qinan Ji; (iii) prohibiting Qinan Ji from acting as an officer or director of a public company; and (iv) requiring Qinan Ji to reimburse the Company for his bonuses and stock sale profits. The Company’s response to the complaint in the SEC Action is currently due but the Company and the SEC have jointly requested that the Court extend the date for a responsive pleading to January 31, 2013 to allow the parties to attempt to conclude a settlement. The Company is in serious settlement negotiations with the Staff of the SEC but there can be no assurance that a settlement will be

concluded. In the absence of a settlement the Company intends to defend this case vigorously.

We intend to defend these cases vigorously. We currently cannot estimate the outcome of these matters as of the date of this Report.

Item 1A. Risk Factors

As of the date of this filing, there have been no material changes from the risk factors disclosed in Part I, Item 1A (Risk Factors) contained in the Annual Report on Form 10-K for the year ended December 31, 2011, other than as set forth below. We operate in a changing environment that involves numerous known and unknown risks and uncertainties that could materially affect our operations. The risks, uncertainties and other factors set forth in the 2011 Annual Report on Form 10-K may cause our actual results, performances and achievements to be materially different from those expressed or implied by our forward-looking statements. If any of these risks or events occurs, our business, financial condition or results of operations may be adversely affected.

We have made errors in the preparation of certain of our historical financial statements and our internal control over financial reporting and disclosure controls and procedures have not been effective.

Because of the material weaknesses in our internal control over financial reporting and the ineffectiveness of our disclosure controls and procedures, we could be subject to sanctions or investigations by the exchange on which we list our shares, the SEC or other regulatory authorities. The SEC has commenced an investigation into the matters surrounding the Wang Loan and the acquisition of Lingbao Yuxi Natural Gas Co., Ltd. The Company has been cooperating with the investigation. The Company has restated quarterly reports on Form 10-Q/A for the three months ended March 31, 2010, six months ended June 30, 2010 and the nine months ended September 30, 2010 and the annual report on Form 10-K/A for the year ended December 31, 2010, and quarterly reports on Form 10-Q/A for the three months ended March 31, 2011, six months ended June 30, 2011 and the nine months ended September 30, 2011, regarding the above matters. In addition, NASDAQ has delisted the Company's common stock and, as a result, the Company's common stock is now quoted on the OTC Markets. The SEC may take enforcement action against the Company. On May 14, 2012, SEC filed a complaint against the company. The update of legal status of the SEC case is described in (c) part of item 1 legal proceedings. The market price of our common stock has declined and because of these events, investor perceptions of the Company may suffer, and this could cause a further decline in the market price of our stock. If we are unable to remediate the material deficiencies in our internal control effectively or efficiently, it could harm our operations, financial reporting or financial results and could result in an adverse opinion on internal controls from our independent registered public accounting firm. In addition, we may identify additional material weaknesses in the future. Any additional failures of internal controls could have a material adverse effect on our results of operations and harm our reputation.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

None.

Item 3. Defaults Upon Senior Securities

None.

Item 4. Mine Safety Disclosures

None.
