## **Emclair Financial Corp**

Notes to Consolidated Financial Statements (Unaudited)

### **1. Nature of Operations and Basis of Presentation**

Emclair Financial Corp (the Corporation) is a Pennsylvania corporation and the holding company of The Farmers National Bank of Emlenton (the Bank) and Emclair Settlement Services, LLC (the Title Company). The Corporation provides a variety of financial services to individuals and businesses through its offices in Western Pennsylvania. Its primary deposit products are checking, savings and term certificate accounts and its primary lending products are residential and commercial mortgages, commercial business loans and consumer loans.

The consolidated financial statements include the accounts of the Corporation and its wholly owned subsidiaries, the Bank and the Title Company. All significant intercompany transactions and balances have been eliminated in preparing the consolidated financial statements.

The accompanying unaudited consolidated financial statements for the interim periods include all adjustments, consisting of normal recurring accruals, which are necessary, in the opinion of management, to fairly reflect the Corporation's consolidated financial position and results of operations. Additionally, these consolidated financial statements for the interim periods have been prepared in accordance with instructions for the Securities and Exchange Commission's (SEC's) Form 10-Q and Article 10 of Regulation S-X and therefore do not include all information or footnotes necessary for a complete presentation of financial condition, results of operations and cash flows in conformity with accounting principles generally accepted in the United States of America (GAAP). For further information, refer to the audited consolidated financial statements and footnotes thereto for the year ended December 31, 2015, as contained in the Corporation's Annual Report on Form 10-K for the year ended December 31, 2015 filed with the SEC.

The balance sheet at December 31, 2015 has been derived from the audited financial statements at that date but does not include all the information and footnotes required by GAAP for complete financial statements.

The preparation of financial statements, in conformity with GAAP, requires management to make estimates and assumptions that affect the reported amounts in the consolidated financial statements and accompanying notes. Actual results could differ from those estimates. The results of operations for interim quarterly or year-to-date periods are not necessarily indicative of the results that may be expected for the entire year or any other period. Certain amounts previously reported may have been reclassified to conform to the current year's financial statement presentation.

**2. Issuance of Common Stock**

On June 10, 2015, the Corporation sold 350,000 shares of common stock, par value \$1.25 per share, in a private offering to accredited individual and institutional investors at \$23.50 per share. The Corporation realized \$8.2 million in proceeds from the offering, net of \$63,000 of direct costs relating to the offering.

**3. Participation in the Small Business Lending Fund (SBLF) of the U.S. Treasury Department (U.S. Treasury)**

On August 18, 2011, the Corporation entered into a Securities Purchase Agreement (the Agreement) with the U.S. Treasury Department, pursuant to which the Corporation issued and sold to the U.S. Treasury 10,000 shares of Senior Non-Cumulative Perpetual Preferred Stock, Series B (Series B Preferred Stock), having a liquidation preference of \$1,000 per share, for aggregate proceeds of \$10.0 million, pursuant to the U.S. Treasury's SBLF program. On September 17, 2013, with the approval of the Corporation's primary federal banking regulator, the Corporation redeemed 5,000 shares, or 50%, of its Series B Preferred Stock held by the U.S. Treasury at an aggregate redemption price of \$5.0 million, plus accrued but unpaid dividends. On September 30, 2015, the Corporation redeemed the remaining 5,000 shares of its Series B Preferred Stock held by the U.S. Treasury at an aggregate redemption price of \$5.0 million, plus accrued but unpaid dividends. Following this redemption, the Corporation does not have any Series B Preferred Stock outstanding.

**4. Earnings per Common Share**

Basic earnings per common share (EPS) excludes dilution and is computed by dividing net income available to common stockholders by the weighted average number of common shares outstanding during the period. Diluted EPS includes the dilutive effect of additional potential common shares for assumed issuance of restricted stock and shares issued under stock options.

The factors used in the Corporation's earnings per common share computation follow:

(Dollar amounts in thousands, except for per share amounts)	For the three months ended	
	March 31, 2016	2015
Earnings per common share - basic		
Net income	\$802	\$781
Less: Preferred stock dividends	-	25
Net income available to common stockholders	\$802	\$756
Average common shares outstanding	2,144,808	1,781,416
Basic earnings per common share	\$0.37	\$0.42
Earnings per common share - diluted		

Edgar Filing: EMCLAIRE FINANCIAL CORP - Form 10-Q

Net income available to common stockholders	\$802	\$756
Average common shares outstanding	2,144,808	1,781,416
Add: Dilutive effects of assumed issuance of restricted stock and exercise of stock options	8,817	11,550
Average shares and dilutive potential common shares	2,153,625	1,792,966
Diluted earnings per common share	\$0.37	\$0.42
Stock options not considered in computing earnings per share because they were antidilutive	67,000	67,000

**5. Securities**

The following table summarizes the Corporation's securities as of March 31, 2016 and December 31, 2015:

(Dollar amounts in thousands)	Amortized Cost	Gross Unrealized Gains	Gross Unrealized Losses	Fair Value
Available for sale:				
March 31, 2016:				
U.S. Treasury and federal agency	\$ 1,493	\$ 7	\$ -	\$ 1,500
U.S. government sponsored entities and agencies	10,396	5	(4)	10,397
U.S. agency mortgage-backed securities: residential	31,891	808	-	32,699
U.S. agency collateralized mortgage obligations: residential	29,595	5	(416)	29,184
State and political subdivisions	28,355	422	(3)	28,774
Corporate debt securities	8,015	26	(3)	8,038
Equity securities	1,769	159	(51)	1,877
	\$ 111,514	\$ 1,432	\$ (477)	\$ 112,469
December 31, 2015:				
U.S. Treasury and federal agency	\$ 1,493	\$ -	\$ (27)	\$ 1,466
U.S. government sponsored entities and agencies	8,998	2	(47)	8,953
U.S. agency mortgage-backed securities: residential	32,947	256	(53)	33,150
U.S. agency collateralized mortgage obligations: residential	32,289	23	(872)	31,440
State and political subdivisions	28,352	264	(25)	28,591
Corporate debt securities	7,507	1	(21)	7,487
Equity securities	1,769	188	(63)	1,894
	\$ 113,355	\$ 734	\$ (1,108)	\$ 112,981

The following table summarizes scheduled maturities of the Corporation's debt securities as of March 31, 2016. Expected maturities may differ from contractual maturities because issuers may have the right to call or prepay obligations with or without call or prepayment penalties. Mortgage-backed securities and collateralized mortgage obligations are not due at a single maturity and are shown separately.

(Dollar amounts in thousands)	Available for sale Amortized Cost	Fair Value
Due in one year or less	\$ 1,711	\$ 1,721
Due after one year through five years	18,652	18,745
Due after five through ten years	23,251	23,581
Due after ten years	4,645	4,662

Edgar Filing: EMCLAIRE FINANCIAL CORP - Form 10-Q

Mortgage-backed securities: residential	31,891	32,699
Collateralized mortgage obligations: residential	29,595	29,184
	\$109,745	\$110,592

**5. Securities (continued)**

Information pertaining to securities with gross unrealized losses at March 31, 2016 and December 31, 2015, aggregated by investment category and length of time that individual securities have been in a continuous loss position are included in the table below:

(Dollar amounts in thousands)	Less than 12 Months		12 Months or More		Total	
	Fair Value	Unrealized Loss	Fair Value	Unrealized Loss	Fair Value	Unrealized Loss
Description of Securities						
March 31, 2016:						
U.S. government sponsored entities and agencies	\$ 2,395	\$ (4 )	\$ -	\$ -	\$ 2,395	\$ (4 )

	\$ 21,604	\$ (215 )	\$ 31,110	\$ (893 )	\$ 52,714	\$ (1,108 )

Gains on sales of available for sale securities for the three months ended March 31 were as follows:

(Dollar amounts in thousands)	For the three months ended March 31,	
	2016	2015
Proceeds	\$3,679	\$ -
Gains	2	-

Tax provision related to gains 1 -

Management evaluates securities for other-than-temporary impairment at least on a quarterly basis, and more frequently when economic, market or other conditions warrant such evaluation. Consideration is given to: (1) the length of time and the extent to which the fair value has been less than cost, (2) the financial condition and near-term prospects of the issuer, (3) whether the market decline was affected by macroeconomic conditions and (4) whether the Corporation has the intent to sell the security or more likely than not will be required to sell the security before recovery of its amortized cost basis. If the Corporation intends to sell an impaired security, or if it is more likely than not the Corporation will be required to sell the security before its anticipated recovery, the Corporation records an other-than-temporary loss in an amount equal to the entire difference between fair value and amortized cost. Otherwise, only the credit portion of the estimated loss on debt securities is recognized in earnings, with the other portion of the loss recognized in other comprehensive income. For equity securities determined to be other-than-temporarily impaired, the entire amount of impairment is recognized through earnings.

**5. Securities (continued)**

There were two equity securities in an unrealized loss position for less than 12 months as of March 31, 2016. Equity securities owned by the Corporation consist of common stock of various financial service providers. The investment securities are in unrealized loss positions as a result of recent market volatility. The Corporation does not invest in these securities with the intent to sell them for a profit in the near term. For investments in equity securities, in addition to the general factors mentioned above for determining whether the decline in market value is other-than-temporary, the analysis of whether an equity security is other-than-temporarily impaired includes a review of the profitability, capital adequacy and other relevant information available to determine the financial position and near term prospects of each issuer. The results of analyzing the aforementioned metrics and financial fundamentals suggest recovery of amortized cost as the sector improves. Based on that evaluation, and given that the Corporation's current intention is not to sell any impaired security and it is more likely than not it will not be required to sell these securities before the recovery of their amortized cost basis, the Corporation does not consider the equity securities with unrealized losses as of March 31, 2016 to be other-than-temporarily impaired.

There were 31 debt securities in an unrealized loss position as of March 31, 2016, of which 23 were in an unrealized loss position for more than 12 months. Of these 23 securities, 20 were government-backed collateralized mortgage obligations and 3 were state and political subdivision securities. The unrealized losses associated with these securities were not due to the deterioration in the credit quality of the issuer that would likely result in the non-collection of contractual principal and interest, but rather have been caused by a rise in interest rates from the time the securities were purchased. Based on that evaluation and other general considerations, and given that the Corporation's current intention is not to sell any impaired securities and it is more likely than not it will not be required to sell these securities before the recovery of its amortized cost basis, the Corporation does not consider the debt securities with unrealized losses as of March 31, 2016 to be other-than-temporarily impaired.

**6. Loans Receivable and Related Allowance for Loan Losses**

The Corporation's loans receivable as of the respective dates are summarized as follows:

(Dollar amounts in thousands)	March 31, 2016	December 31, 2015
Mortgage loans on real estate:		
Residential first mortgages	\$ 150,996	\$ 139,305
Home equity loans and lines of credit	87,231	87,410
Commercial real estate	127,139	129,691
	365,366	356,406
Other loans:		
Commercial business	67,150	71,948

Edgar Filing: EMCLAIRE FINANCIAL CORP - Form 10-Q

Consumer	6,660	6,742
	73,810	78,690
Total loans, gross	439,176	435,096
Less allowance for loan losses	5,352	5,205
Total loans, net	\$ 433,824	\$ 429,891

Included in total loans above are net deferred fees and costs of \$1.2 million and \$835,000 at March 31, 2016 and December 31, 2015, respectively.

**6. Loans Receivable and Related Allowance for Loan Losses (continued)**

The following table presents impaired loans by class, segregated by those for which a specific allowance was required and those for which a specific allowance was not necessary as of March 31, 2016:

*(Dollar amounts in thousands)*

	Impaired Loans with Specific Allowance

Unpaid principal balance includes any loans that have been partially charged off but not forgiven. Accrued interest is not included in the recorded investment in loans presented above or in the tables that follow based on the amounts not being material.

***Troubled debt restructurings (TDR).*** The Corporation has certain loans that have been modified in order to maximize collection of loan balances. If, for economic or legal reasons related to the customer's financial difficulties, management grants a concession compared to the original terms and conditions of the loan that it would not have otherwise considered, the modified loan is classified as a TDR. Concessions related to TDRs generally do not include forgiveness of principal balances. The Corporation generally does not extend additional credit to borrowers with loans classified as TDRs.

At March 31, 2016 and December 31, 2015, the Corporation had \$414,000 and \$835,000, respectively, of loans classified as TDRs, which are included in impaired loans above. At March 31, 2016 and December 31, 2015, the Corporation had \$19,000 and \$63,000 of the allowance for loan losses allocated to these specific loans.

During the three month periods ended March 31, 2016 and 2015, the Corporation did not modify any loans as TDRs.

A loan is considered to be in payment default once it is 30 days contractually past due under the modified terms. During the three month periods ended March 31, 2016 and 2015, the Corporation did not have any loans which were modified as TDRs for which there was a payment default within twelve months following the modification.

## 6. Loans Receivable and Related Allowance for Loan Losses (continued)

**Credit Quality Indicators.** Management categorizes loans into risk categories based on relevant information about the ability of borrowers to service their debt such as: current financial information, historical payment experience, credit documentation, public information and current economic trends, among other factors.

Commercial real estate and commercial business loans not identified as impaired are evaluated as risk rated pools of loans utilizing a risk rating practice that is supported by a quarterly special asset review. In this review process, strengths and weaknesses are identified, evaluated and documented for each criticized and classified loan and borrower, strategic action plans are developed, risk ratings are confirmed and the loan's performance status is reviewed.

Management has determined certain portions of the loan portfolio to be homogeneous in nature and assigns like reserve factors for the following loan pool types: residential real estate, home equity loans and lines of credit, and consumer installment and personal lines of credit.

The reserve allocation for risk rated loan pools is developed by applying the following factors:

**Historic:** Management utilizes a computer model to develop the historical net charge-off experience which is used to formulate the assumptions employed in the migration analysis applied to estimate losses in the portfolio. Outstanding balance and charge-off information are input into the model and historical loss migration rate assumptions are developed to apply to pass, special mention, substandard and doubtful risk rated loans. A twelve-quarter rolling weighted-average is utilized to estimate probable incurred losses in the portfolios.

**Qualitative:** Qualitative adjustment factors for pass, special mention, substandard and doubtful ratings are developed and applied to risk rated loans to allow for: quality of lending policies and procedures; national and local economic and business conditions; changes in the nature and volume of the portfolio; experiences, ability and depth of lending management; changes in trends, volume and severity of past due, nonaccrual and classified loans and loss and recovery trends; quality of loan review systems; concentrations of credit and other external factors.

Management uses the following definitions for risk ratings:

Pass: Loans classified as pass typically exhibit good payment performance and have underlying borrowers with acceptable financial trends where repayment capacity is evident. These borrowers typically would have a sufficient cash flow that would allow them to weather an economic downturn and the value of any underlying collateral could withstand a moderate degree of depreciation due to economic conditions.

Special Mention: Loans classified as special mention are characterized by potential weaknesses that could jeopardize repayment as contractually agreed. These loans may exhibit adverse trends such as increasing leverage, shrinking profit margins and/or deteriorating cash flows. These borrowers would inherently be more vulnerable to the application of economic pressures.

Substandard: Loans classified as substandard exhibit weaknesses that are well-defined to the point that repayment is jeopardized. Typically, the Corporation is no longer adequately protected by both the apparent net worth and repayment capacity of the borrower.

Doubtful: Loans classified as doubtful have advanced to the point that collection or liquidation in full, on the basis of currently ascertainable facts, conditions and value, is highly questionable or improbable.

**6. Loans Receivable and Related Allowance for Loan Losses (continued)**

The following table presents the classes of the loan portfolio summarized by the aggregate pass and the criticized categories of special mention, substandard and doubtful within the Corporation's internal risk rating system as of March 31, 2016 and December 31, 2015:

*(Dollar amounts in thousands)*

	Not Rated	Pass	Special Mention	Substandard	Doubtful	Total
March 31, 2016:

Consumer	-	-	-	-	-
Total loans	\$ 1,402	\$ -	\$ 79	\$ 1,588	\$3,069

An allowance for loan losses (ALL) is maintained to absorb probable incurred losses from the loan portfolio. The ALL is based on management's continuing evaluation of the risk characteristics and credit quality of the loan portfolio, assessment of current economic conditions, diversification and size of the portfolio, adequacy of collateral, past and anticipated loss experience and the amount of nonperforming loans.

Management reviews the loan portfolio on a quarterly basis using a defined, consistently applied process in order to make appropriate and timely adjustments to the ALL. When information confirms all or part of specific loans to be uncollectible, these amounts are promptly charged off against the ALL.

**6. Loans Receivable and Related Allowance for Loan Losses (continued)**

The following table details activity in the ALL and the recorded investment by portfolio segment based on impairment method:

*(Dollar amounts in thousands)*

	Residential Mortgages	Home Equity & Lines of Credit	Commercial Real Estate	Commercial Business	Consumer	Total
Three months ended March 31, 2016:						
Allowance for loan losses:						
Beginning Balance	\$ 1,429	\$ 586	\$ 2,185	\$ 960	\$ 45	\$ 5,205

Provision	137	128	(110 )	4	10	169
Ending Balance	\$ 1,088	\$ 611	\$ 2,233	\$ 1,360	\$ 48	\$ 5,340
At March 31, 2016:						
Ending ALL balance attributable to loans:						
Individually evaluated for impairment	\$ 19	\$ -	\$ -	\$ 78	\$ -	\$ 97
Collectively evaluated for impairment	1,558	636	1,926	1,084	51	5,255
Total	\$ 1,577	\$ 636	\$ 1,926	\$ 1,162	\$ 51	\$ 5,352
Total loans:						
Individually evaluated for impairment	\$ 136	\$ -	\$ 857	\$ 704	\$ -	\$ 1,697
Collectively evaluated for impairment	150,860	87,231	126,282	66,446	6,660	437,479
Total	\$ 150,996	\$ 87,231	\$ 127,139	\$ 67,150	\$ 6,660	\$ 439,176
At December 31, 2015:						
Ending ALL balance attributable to loans:						
Individually evaluated for impairment	\$ 29	\$ -	\$ 5	\$ 76	\$ -	\$ 110
Collectively evaluated for impairment	1,400	586	2,180	884	45	5,095

Edgar Filing: EMCLAIRE FINANCIAL CORP - Form 10-Q

Total	\$ 1,429	\$ 586	\$ 2,185	\$ 960	\$ 45	\$5,205
Total loans:						
Individually evaluated for impairment	\$ 169	\$ -	\$ 839	\$ 999	\$ -	\$2,007
Collectively evaluated for impairment	139,136	87,410	128,852	70,949	6,742	433,089
Total	\$ 139,305	\$ 87,410	\$ 129,691	\$ 71,948	\$ 6,742	\$435,096

The allowance for loan losses is based on estimates and actual losses may vary from current estimates. Management believes that the granularity of the homogeneous pools and the related historical loss ratios and other qualitative factors, as well as the consistency in the application of assumptions, result in an ALL that is representative of the risk found in the components of the portfolio at any given date.

## 7. Goodwill and Intangible Assets

The following table summarizes the Corporation's acquired goodwill and intangible assets as of March 31, 2016 and December 31, 2015:

(Dollar amounts in thousands)	March 31, 2016		December 31, 2015	
	Gross Carrying Amount	Accumulated Amortization	Gross Carrying Amount	Accumulated Amortization
Goodwill	\$3,664	\$ -	\$ 3,664	\$ -
Core deposit intangibles	4,027	3,522	4,027	3,473
Total	\$7,691	\$ 3,522	\$ 7,691	\$ 3,473

Goodwill resulted from three previous branch acquisitions. Goodwill represents the excess of the total purchase price paid for the branch acquisitions over the fair value of the assets acquired, net of the fair value of the liabilities assumed. Goodwill is not amortized but is evaluated for impairment on an annual basis or whenever events or changes in circumstances indicate the carrying value may not be recoverable. Impairment exists when a reporting unit's carrying value of goodwill exceeds its fair value. The Corporation has selected November 30 as the date to perform the annual impairment test. No goodwill impairment charges were recorded during 2015 or in the first three months of 2016. The core deposit intangible asset is amortized using the double declining balance method over a weighted average estimated life of nine years and is not estimated to have a significant residual value. During the three month periods ending March 31, 2016 and 2015, the Corporation recorded intangible amortization expense totaling \$49,000.

## 8. Stock Compensation Plans

In April 2014, the Corporation adopted the 2014 Stock Incentive Plan (the 2014 Plan), which is shareholder approved and permits the grant of restricted stock awards and options to its directors, officers and employees for up to 176,866 shares of common stock. As of March 31, 2016, 75,483 shares of restricted stock and 88,433 stock options remain available for issuance under the plan.

In addition, the Corporation's 2007 Stock Incentive Plan and Trust (the 2007 Plan), which is shareholder approved, permits the grant of restricted stock awards and options to its directors, officers and employees for up to 177,496 shares of common stock. As of March 31, 2016, 1,313 shares of restricted stock and 45,283 stock options remain available for issuance under the plan.

Incentive stock options, non-incentive or compensatory stock options and share awards may be granted under the Plans. The exercise price of each option shall at least equal the market price of a share of common stock on the date of grant and have a contractual term of ten years. Options shall vest and become exercisable at the rate, to the extent and subject to such limitations as may be specified by the Corporation. Compensation cost related to share-based payment transactions must be recognized in the financial statements with measurement based upon the fair value of the equity instruments issued.

A summary of option activity under the Plans as of March 31, 2016, and changes during the period then ended is presented below:

	Options	Weighted-Average Exercise Price	Aggregate Intrinsic Value (in thousands)	Weighted-Average Remaining Term (in years)
Outstanding as of January 1, 2016	73,000	\$ 25.71	\$ 9,000	1.6
Granted	-	-	-	-
Exercised	-	-	-	-
Forfeited	-	-	-	-
Outstanding as of March 31, 2016	73,000	\$ 25.71	\$ 15,000	1.3
Exercisable as of March 31, 2016	73,000	\$ 25.71	\$ 15,000	1.3

**8. Stock Compensation Plans (continued)**

A summary of the status of the Corporation's nonvested restricted stock awards as of March 31, 2016, and changes during the period then ended is presented below:

	Shares	Weighted-Average Grant-date Fair Value
Nonvested at January 1, 2016	23,450	\$ 24.38
Granted	-	-
Vested	-	-
Forfeited	-	-
Nonvested as of March 31, 2016	23,450	\$ 24.38

For the three month period ended March 31, 2016, the Corporation recognized \$46,000 in stock compensation expense, compared to \$53,000 for the same period in 2015. As of March 31, 2016, there was \$344,000 of total unrecognized compensation cost related to nonvested share-based compensation arrangements granted under the Plans. That cost is expected to be recognized over a weighted-average period of 1.8 years. It is the Corporation's policy to issue shares on the vesting date for restricted stock awards. Unvested restricted stock awards do not receive dividends declared by the Corporation.

**9. Fair Value**

Fair value is the exchange price that would be received for an asset or paid to transfer a liability (exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. There are three levels of inputs that may be used to measure fair value.

*Level 1:* Quoted prices (unadjusted) for identical assets or liabilities in active markets that the Corporation has the ability to access at the measurement date.

*Level 2:* Significant other observable inputs other than Level 1 prices such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data.

*Level 3:* Significant unobservable inputs that reflect the Corporation's own assumptions about the assumptions that market participants would use in pricing an asset or liability.

An asset or liability's level is based on the lowest level of input that is significant to the fair value measurement.

The Corporation used the following methods and significant assumptions to estimate fair value:

*Cash and cash equivalents* – The carrying value of cash and due from banks and interest earning deposits with banks approximates fair value and are classified as Level 1.

*Securities available for sale* – The fair value of all investment securities are based upon the assumptions market participants would use in pricing the security. If available, investment securities are determined by quoted market prices (Level 1). Level 1 includes U.S. Treasury, federal agency securities and certain equity securities. For investment securities where quoted market prices are not available, fair values are calculated based on market prices on similar securities (Level 2). Level 2 includes U.S. Government sponsored entities and agencies, mortgage-backed securities, collateralized mortgage obligations, state and political subdivision securities and corporate debt securities. For investment securities where quoted prices or market prices of similar securities are not available, fair values are calculated by using unobservable inputs (Level 3) and may include certain equity securities held by the Corporation. The Level 3 equity security valuations were supported by an analysis prepared by the Corporation which relies on inputs such as the security issuer's publicly attainable financial information, multiples derived from prices in observed transactions involving comparable businesses and other market, financial and nonfinancial factors.

## 9. Fair Value (continued)

*Loans* – The fair value of loans receivable was estimated based on the discounted value of the future cash flows using the current rates being offered for loans with similar terms to borrowers of similar credit quality resulting in a Level 3 classification.

*Impaired loans* – At the time a loan is considered impaired, it is valued at the lower of cost or fair value. Impaired loans carried at fair value generally receive a specific allowance for loan losses. For collateral dependent loans, fair value is commonly based on real estate appraisals. These appraisals may utilize a single valuation approach or a combination of approaches including comparable sales and the income approach. Adjustments are routinely made in the appraisal process by the independent appraisers to adjust for differences between the comparable sales and income data available. Such adjustments are usually significant and typically result in a Level 3 classification of the inputs for determining fair value. Non-real estate collateral may be valued using an appraisal, net book value per the borrower's financial statements, or aging reports, adjusted or discounted based on management's historical knowledge, changes in market conditions from the time of the valuation, and management's expertise and knowledge of the client and client's business, resulting in a Level 3 classification. Impaired loans are evaluated on a quarterly basis for additional impairment and adjusted accordingly. As of March 31, 2016, the fair value of impaired loans measured using the fair value of collateral consisted of loan balances of \$629,000, net of a valuation allowance of \$78,000, compared to loan balances of \$643,000, net of a valuation allowance of \$47,000, at December 31, 2015. There was no additional provision for loan losses recorded for impaired loans during the three month periods ended March 31, 2016 and 2015.

*Other real estate owned (OREO)* – Assets acquired through or instead of foreclosure are initially recorded at fair value less costs to sell when acquired, establishing a new cost basis. These assets are subsequently accounted for at lower of cost or fair value less estimated costs to sell. Fair value is commonly based on recent real estate appraisals. Management's ongoing review of appraisal information may result in additional discounts or adjustments to the valuation based upon more recent market sales activity or more current appraisal information derived from properties of similar type and/or locale. Such adjustments are usually significant and typically result in a Level 3 classification of the inputs for determining fair value. As of March 31, 2016, the Corporation had no OREO measured at fair value. At December 31, 2015, OREO measured at fair value less costs to sell had a net carrying amount of \$13,000, which consisted of the outstanding balance of \$22,000 less write-downs of \$9,000. There was no expense recorded during the three months ended March 31, 2016 associated with the write-down of OREO, compared to \$3,000 for the same period in 2015.

Appraisals for both collateral-dependent impaired loans and OREO are performed by certified general appraisers (for commercial properties) or certified residential appraisers (for residential properties) whose qualifications and licenses have been reviewed by the Corporation. Once received, management reviews the assumptions and approaches utilized in the appraisal as well as the overall resulting fair value in comparison with independent data sources such as recent market data or industry-wide statistics. On an annual basis, the Corporation compares the actual selling price of OREO that has been sold to the most recent appraisal to determine what additional adjustment should be made to the appraisal value to arrive at fair value. The most recent analysis performed indicated that a discount of 10% should be

applied.

*Federal bank stock* – It is not practical to determine the fair value of federal bank stocks due to restrictions placed on its transferability.

*Deposits* – The fair value of deposits with no stated maturity, such as non-interest bearing demand deposits, checking with interest, savings and money market accounts, is equal to the amount payable on demand resulting in either a Level 1 or Level 2 classification. The fair values of time deposits are based on the discounted value of contractual cash flows. The discount rate is estimated using the rates currently offered for deposits of similar maturities resulting in a Level 2 classification.

**9. Fair Value (continued)**

*Borrowings* – The fair value of borrowings with the FHLB is estimated using discounted cash flows based on current incremental borrowing rates for similar types of borrowing arrangements resulting in a Level 2 classification.

*Accrued interest receivable and payable* – The carrying value of accrued interest receivable and payable approximates fair value. The fair value classification is consistent with the related financial instrument.

For assets measured at fair value on a recurring basis, the fair value measurements by level within the fair value hierarchy are as follows:

Description	Total	(Level 1)	(Level 2)	(Level 3)
		Quoted Prices in Active Markets for Identical Assets	Significant Other Observable Inputs	Significant Unobservable Inputs
March 31, 2016:				
U.S. Treasury and federal agency	\$ 1,500	\$ 1,500	\$ -	\$ -
U.S. government sponsored entities and agencies	10,397	-	10,397	-
U.S. agency mortgage-backed securities: residential	32,699	-	32,699	-
U.S. agency collateralized mortgage obligations: residential	29,184	-	29,184	-
State and political subdivision	28,774	-	28,774	-
Corporate debt securities	8,038	-	8,038	-
Equity securities	1,877	1,803	-	74
	\$ 112,469	\$ 3,303	\$ 109,092	\$ 74
December 31, 2015:				
U.S. Treasury and federal agency	\$ 1,466	\$ 1,466	\$ -	\$ -
U.S. government sponsored entities and agencies	8,953	-	8,953	-
U.S. agency mortgage-backed securities: residential	33,150	-	33,150	-
U.S. agency collateralized mortgage obligations: residential	31,440	-	31,440	-
State and political subdivisions	28,591	-	28,591	-
Corporate debt securities	7,487	-	7,487	-
Equity securities	1,894	1,820	-	74
	\$ 112,981	\$ 3,286	\$ 109,621	\$ 74

The Corporation's policy is to transfer assets or liabilities from one level to another when the methodology to obtain the fair value changes such that there are more or fewer unobservable inputs as of the end of the reporting period.

Edgar Filing: EMCLAIRE FINANCIAL CORP - Form 10-Q

During the three month periods ended March 31, 2016 and 2015, the Corporation had no transfers between levels. The following table presents changes in Level 3 assets measured on a recurring basis for the three month period ended March 31, 2016 and 2015:

(Dollar amounts in thousands)	Three months ended	
	March 31,	
	2016	2015
Balance at the beginning of the period	\$ 74	\$ 898
Total gains or losses (realized/unrealized):	-	-
Included in earnings	-	-
Included in other comprehensive income	-	(70 )
Issuances	-	-
Transfers in and/or out of Level 3	-	-
Balance at the end of the period	\$ 74	\$ 828

**9. Fair Value (continued)**

For assets measured at fair value on a non-recurring basis, the fair value measurements by level within the fair value hierarchy are as follows:

(Dollar amounts in thousands)		(Level 1) Quoted Prices in Active Markets for Identical Assets	(Level 2) Significant Other Observable Inputs	(Level 3) Significant Unobservable Inputs
Description	Total			
March 31, 2016:				
Impaired commercial business loans	\$551	\$ -	\$ -	\$ 551
December 31, 2015:				
Impaired commercial business loans	\$596	\$ -	\$ -	\$ 596
Other residential real estate owned	13	-	-	13
	\$609	\$ -	\$ -	\$ 609

The following table presents quantitative information about Level 3 fair value measurements for assets measured at fair value on a non-recurring basis:

(Dollar amounts in thousands)		Valuation Techniques(s)	Unobservable Input (s)	Range
March 31, 2016:				
Impaired commercial business loans	\$551	Liquidation value of business assets	Adjustment for differences between comparable business assets	66 %
December 31, 2015:				
Impaired commercial business loans	\$596	Liquidation value of business assets	Adjustment for differences between comparable business assets	65 %
Other residential real estate owned	13	Sales comparison approach	Adjustment for differences between comparable sales	10 %

The two tables above exclude an impaired residential mortgage loan totaling \$78,000 classified as a TDR which was measured using a discounted cash flow methodology at March 31, 2016. Excluded at December 31, 2015 were two

impaired residential mortgage loans totaling \$140,000, an \$89,000 impaired commercial real estate loan and a \$250,000 impaired commercial business loan classified as TDRs which were measured using a discounted cash flow methodology.

**9. Fair Value (continued)**

The following table sets forth the carrying amount and estimated fair values of the Corporation's financial instruments included in the consolidated balance sheet as of March 31, 2016 and December 31, 2015:

(Dollar amounts in thousands)

Description	Carrying Amount	Fair Value Total	Measurements using: Level 1	Level 2	Level 3
March 31, 2016:					
Financial Assets:					
Cash and cash equivalents	\$16,902	\$16,902	\$16,902	\$-	\$-

**10. Accumulated Other Comprehensive Income (Loss)**

The following tables summarize the changes within each classification of accumulated other comprehensive income (loss), net of tax, for the three months ended March 31, 2016 and 2015 and summarizes the significant amounts reclassified out of each component of accumulated other comprehensive income:

(Dollar amounts in thousands)	Unrealized Gains and Losses on Available-for-Sale Securities	Defined Benefit Pension Items	Totals
Accumulated Other Comprehensive Income (Loss) at January 1, 2016	\$ (248	) \$(3,514)	\$(3,762)
Other comprehensive income before reclassification	879	-	879
Amounts reclassified from accumulated other comprehensive income (loss)	(1	) -	(1 )
Net current period other comprehensive income	878	-	878
Accumulated Other Comprehensive Income (Loss) at March 31, 2016	\$ 630	\$(3,514)	\$(2,884)

(Dollar amounts in thousands)	Amount Reclassified from Accumulated Other Comprehensive Income For the three months ended March 31, 2016	Affected Line Item in the Statement Where Net Income is Presented
Details about Accumulated Other Comprehensive Income Components		
Unrealized gains and losses on available-for-sale securities	\$ 2	Net gain on sale of available-for-sale securities
Total reclassifications for the period	\$ (1	) Provision for income taxes Net of tax

(Dollar amounts in thousands)	Unrealized Gains and Losses on Available-for-Sale Securities	Defined Benefit Pension Items	Totals
Accumulated Other Comprehensive Income (Loss) at January 1, 2015	\$ 198	\$(3,196)	\$(2,998)

Edgar Filing: EMCLAIRE FINANCIAL CORP - Form 10-Q

Other comprehensive income before reclassification	685	-	685
Amounts reclassified from accumulated other comprehensive income (loss)	-	-	-
Net current period other comprehensive income	685	-	685
Accumulated Other Comprehensive Income (Loss) at March 31, 2015	\$ 883	\$(3,196)	\$(2,313)

There were no amounts reclassified out of accumulated other comprehensive income for the three months ended March 31, 2015.

## 11. New Accounting Standards

In January 2016, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2016-01, “*Recognition and Measurement of Financial Assets and Financial Liabilities.*” This ASU requires that all equity investments be measured at fair value with changes in the fair value to be recognized through net income unless accounted for under the equity method of accounting or those that result in consolidation of the investee. This ASU also requires that an entity present separately in other comprehensive income the portion of the total change in the fair value of a liability resulting from a change in the instrument-specific credit risk when the entity has elected to measure the liability at fair value in accordance with the fair value option for financial instruments. In addition, this ASU eliminates the requirement to disclose the fair value of financial instruments measured at amortized cost for entities that are not public business entities and the requirement to disclose the methods and significant assumptions used to estimate the fair value that is required to be disclosed for financial instruments measured at amortized cost on the balance sheet for public business entities. This ASU is effective for annual periods beginning after December 15, 2017, and interim periods therein. The Company is evaluating the impact of this ASU on its financial statements and disclosures.

In February 2016, the FASB issued ASU 2016-02, “*Leases.*” This ASU requires lessees to record most leases on their balance sheet but recognize expenses in the income statement in a manner similar to current accounting treatment. This ASU changes the guidance on sale-leaseback transactions, initial direct costs and lease execution costs, and, for lessors, modifies the classification criteria and the accounting for sales-type and direct financing leases. This ASU is effective for annual periods beginning after December 15, 2018, and interim periods therein. Entities are required to use a modified retrospective approach for leases that exist or are entered into after the beginning of the earliest comparative period in the financial statements. The Company is evaluating the impact of this ASU on its financial statements and disclosures.

In March 2016, the FASB issued ASU 2016-09, “*Improvements to Employee Share-Based Payment Accounting.*” This ASU simplifies certain aspects of the accounting for employee share-based payment transactions, including the income tax consequences, classification of awards as either equity or liabilities, and classification on the statement of cash flows. This ASU is effective for financial statements issued for fiscal years beginning after December 15, 2016, and interim periods therein. The Company is evaluating the impact of this ASU on its financial statements and disclosures.

## 12. Subsequent Events

On April 30, 2016, the Corporation completed its acquisition of United American Savings Bank (United American) in accordance with the terms of the Agreement and Plan of Merger, dated as of December 30, 2015, by and among the Corporation, the Bank and United American (the Merger Agreement). Pursuant to the Merger Agreement, the Corporation acquired United American through a reverse merger of a newly created, wholly-owned subsidiary of the Bank, into United American. Immediately after the merger, United American merged with and into The Farmers

National Bank of Emlenton, with Farmers National being the surviving bank. At December 31, 2015, United American had reported assets of \$89.3 million. The Corporation acquired all of the outstanding shares of common stock of United American for aggregate cash consideration of approximately \$14.1 million (\$42.67 per share). The initial accounting for the acquisition is incomplete as the fair value adjustments to the acquired assets and assumed liabilities are not finalized.

**Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations**

This section discusses the consolidated financial condition and results of operations of Emclair Financial Corp and its wholly owned subsidiaries for the three months ended March 31, 2016, compared to the same periods in 2015 and should be read in conjunction with the Corporation's Annual Report on Form 10-K for the year ended December 31, 2015, filed with the SEC and with the accompanying consolidated financial statements and notes presented on pages 1 through 25 of this Form 10-Q.

This Form 10-Q, including the financial statements and related notes, contains forward looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, or the Securities Act, and Section 21E of the Securities Exchange Act of 1934, as amended, or the Exchange Act. These forward looking statements represent plans, estimates, objectives, goals, guidelines, expectations, intentions, projections and statements of our beliefs concerning future events, business plans, objectives, expected operating results and the assumptions upon which those statements are based. Forward looking statements include without limitation, any statement that may predict, forecast, indicate or imply future results, performance or achievements, and are typically identified with words such as “may,” “could,” “should,” “will,” “would,” “believe,” “anticipate,” “estimate,” “expect,” “intend,” “plan” or words or phrases of similar meaning. We caution that the forward looking statements are based largely on our expectations and are subject to a number of known and unknown risks and uncertainties that are subject to change based on factors which are, in many instances, beyond our control. Actual results, performances or achievements could differ materially from those contemplated, expressed or implied by the forward looking statements. Therefore, we caution you not to place undue reliance on our forward looking information and statements. Except as required by applicable law or regulation, we will not update the forward looking statements to reflect actual results or changes in factors affecting the forward looking statements.

## **CHANGES IN FINANCIAL CONDITION**

Total assets increased \$7.0 million, or 1.2%, to \$607.6 million at March 31, 2016 from \$600.6 million at December 31, 2015. This increase resulted primarily from an increase in cash and equivalents and loans receivable of \$5.4 million and \$3.9 million, respectively. Loan growth was achieved through the purchase of \$6.9 million in residential mortgage loans. Asset growth was funded by a \$20.8 million increase in customer deposits.

Total liabilities increased \$5.8 million, or 1.1%, to \$553.6 million at March 31, 2016 from \$547.8 million at December 31, 2015, resulting primarily from a \$20.8 million increase in customer deposits partially offset by a \$14.3 million decrease in short-term borrowed funds. Deposit growth consisted of a \$19.7 million, or 5.3%, increase in interest bearing deposits and a \$1.1 million, or 0.9%, increase in noninterest-bearing deposits.

Stockholders' equity increased \$1.2 million, or 2.2%, to \$54.0 million at March 31, 2016 from \$52.8 million at December 31, 2015. Book value and tangible book value per common share were \$25.18 and \$23.24, respectively, at March 31, 2016, compared to \$24.64 and \$22.67, respectively, at December 31, 2015.

At March 31, 2016, the Bank was considered “well-capitalized” with a Tier 1 leverage ratio, Common Equity Tier 1 ratio, Tier 1 risk-based capital ratio and total risk-based capital ratio of 8.62%, 12.79%, 12.79% and 14.04%, respectively. The Bank was also considered “well-capitalized” at December 31, 2015 with a Tier 1 leverage ratio, Common Equity Tier 1 ratio, Tier 1 risk-based capital ratio and total risk-based capital ratio of 8.83%, 12.74%, 12.74% and 13.99%, respectively.

## RESULTS OF OPERATIONS

### Comparison of Results for the Three Months Ended March 31, 2016 and 2015

**General.** Net income increased \$21,000, or 2.7%, to \$802,000 for the three months ended March 31, 2016 from \$781,000 for the same period in 2015. This increase was the result of increases in net interest income and noninterest income of \$211,000 and \$1,000, respectively, and a \$12,000 decrease in provision for loan losses, partially offset by increases in noninterest expense and provision for income taxes of \$54,000 and \$125,000, respectively.

**Net interest income.** Tax equivalent net interest income increased \$185,000, or 4.1%, to \$4.7 million for the three months ended March 31, 2016 from \$4.5 million for the three months ended March 31, 2015. This increase can be attributed to an increase in tax equivalent interest income of \$289,000, partially offset by an increase in interest expense of \$104,000.

**Interest income.** Tax equivalent interest income increased \$289,000, or 5.5%, to \$5.5 million for the three months ended March 31, 2016 from \$5.2 million for the same period in 2015. This increase can be attributed to increases in interest earned on loans and interest earning deposits with banks of \$505,000 and \$5,000, respectively, partially offset by decreases in interest earned on securities and dividends on federal bank stocks of \$181,000 and \$40,000, respectively.

Tax equivalent interest earned on loans receivable increased \$505,000, or 11.8%, to \$4.8 million for the three months ended March 31, 2016 compared to \$4.3 million for the same period in 2015. This increase resulted from a \$52.8 million, or 13.7% increase in average loans, accounting for an increase of \$582,000 in interest income. Partially offsetting this favorable volume variance, the average yield on loans decreased 11 basis points to 4.42% for the three months ended March 31, 2016, versus 4.53% for the same period in 2015. This unfavorable yield variance accounted for a \$77,000 decrease in interest income.

Tax equivalent interest earned on securities decreased \$181,000, or 21.7%, to \$653,000 for the three months ended March 31, 2016 compared to \$834,000 for the three months ended March 31, 2015. This decrease resulted from a \$38.9 million, or 25.9%, decrease in the average balance of securities, accounting for a \$226,000 decrease in interest income. Partially offsetting the unfavorable volume variance, the average yield on securities increased 11 basis points to 2.36% for the three months ended March 31, 2016 versus 2.25% for the same period in 2015. This favorable yield variance accounted for a \$45,000 increase in interest income.

Interest earned on deposits with banks increased \$5,000, or 33.3%, to \$20,000 for the three months ended March 31, 2016 compared to \$15,000 for the three months ended March 31, 2015. This increase resulted from a \$2.5 million increase in the average balance of interest-earning deposits, accounting for an increase of \$3,000 in interest income. The average yield on these accounts increased 4 basis points to 0.55% for the three months ended March 31, 2016, versus 0.51% for the same period in 2015, accounting for a \$2,000 increase in interest income.

Dividends on federal bank stocks decreased \$40,000, or 54.1%, to \$34,000 for the three months ended March 31, 2016 from \$74,000 for the same period in 2015. This decrease was primarily due to a one-time special dividend paid in the first quarter of 2015 by the Federal Home Loan Bank of Pittsburgh, partially offset by an increase in the average balance of federal bank stocks of \$986,000, or 44.2%, to \$3.2 million compared to \$2.2 million for the same period in 2015, accounting for a \$24,000 increase in interest income.

**Interest expense.** Interest expense increased \$104,000, or 14.3%, to \$832,000 for the three months ended March 31, 2016 from \$728,000 for the same period in 2015. This increase in interest expense can be attributed to increases in interest incurred on borrowed funds and deposits of \$62,000 and \$42,000, respectively.

Interest expense incurred on deposits increased \$42,000, or 7.7%, to \$588,000 for the three months ended March 31, 2016 compared to \$546,000 for the same period in 2015. The average cost of interest-bearing deposits increased 5 basis points to 0.61% for the three months ended March 31, 2016, compared to 0.56% for the same period in 2015, resulting in a \$47,000 increase in interest expense. Partially offsetting the unfavorable cost variance, the average balance of interest-bearing deposits decreased \$3.4 million, or 0.9%, to \$389.5 million for the three months ended March 31, 2016, compared to \$392.9 million for the same period in 2015 causing a \$5,000 decrease in interest expense. In addition, average noninterest bearing deposits increased \$3.1 million, or 2.8%, to \$116.4 million from

\$113.3 million.

Interest expense incurred on borrowed funds increased \$62,000, or 34.1%, to \$244,000 for the three months ended March 31, 2016, compared to \$182,000 for the same period in the prior year. The average balance of borrowed funds increased \$17.0 million, or 87.7%, to \$36.5 million for the three months ended March 31, 2016, compared to \$19.4 million for the same period in 2015 causing a \$136,000 increase in interest expense. Partially offsetting this unfavorable variance, the average cost of borrowed funds decreased 112 basis points, or 29.4%, to 2.69% for the three months ended March 31, 2016 compared to 3.81% for the same period in 2015 causing a \$74,000 decrease in interest expense.

**Average Balance Sheet and Yield/Rate Analysis.** The following table sets forth, for the periods indicated, information concerning the total dollar amounts of interest income from interest-earning assets and the resulting average yields, the total dollar amounts of interest expense on interest-bearing liabilities and the resulting average costs, net interest income, interest rate spread and the net interest margin earned on average interest-earning assets. For purposes of this table, average loan balances include nonaccrual loans and exclude the allowance for loan losses and interest income includes accretion of net deferred loan fees. Interest and yields on tax-exempt loans and securities (tax-exempt for federal income tax purposes) are shown on a fully tax equivalent basis. The information is based on average daily balances during the periods presented.

(Dollar amounts in thousands)	Three months ended March 31,

<b>Interest rate spread</b> (difference between weighted average rate on interest-earning assets and interest-bearing liabilities)			3.13 %			3.14 %
<b>Net interest margin</b> (net interest income as a percentage of average interest-earning assets)			3.32 %			3.32 %

**Analysis of Changes in Net Interest Income.** The following table analyzes the changes in interest income and interest expense in terms of: (1) changes in volume of interest-earning assets and interest-bearing liabilities and (2) changes in yields and rates. The table reflects the extent to which changes in the Corporation's interest income and interest expense are attributable to changes in volume (changes in volume multiplied by prior year rate), rate (change in rate multiplied by prior year volume) and changes attributable to the combined impact of volume/rate (change in rate multiplied by change in volume). The changes attributable to the combined impact of volume/rate are allocated on a consistent basis between the volume and rate variances. Changes in interest income on loans and securities reflect the changes in interest income on a fully tax equivalent basis.

(Dollar amounts in thousands)	Three months ended March 31, 2016 versus 2015 Increase (Decrease) due to

**Provision for loan losses.** The Corporation records provisions for loan losses to maintain a level of total allowance for loan losses that management believes, to the best of its knowledge, covers all probable incurred losses estimable at each reporting date. Management considers historical loss experience, the present and prospective financial condition of borrowers, current conditions (particularly as they relate to markets where the Corporation originates loans), the status of nonperforming assets, the estimated underlying value of the collateral and other factors related to the collectability of the loan portfolio.

Information pertaining to the allowance for loan losses and nonperforming assets for the three months ended March 31, 2016 and 2015 is as follows:

(Dollar amounts in thousands)	As of or for the three months ended			
	March 31,			
	2016		2015	
Balance at the beginning of the period	\$ 5,205		\$ 5,224	
Provision for loan losses	181		169	
Charge-offs	(42	)	(90	)
Recoveries	8		37	
Balance at the end of the period	\$ 5,352		\$ 5,340	
Nonperforming loans	\$ 3,228		\$ 7,473	
Nonperforming assets	3,393		7,725	
Nonperforming loans to total loans	0.74	%	1.96	%
Nonperforming assets to total assets	0.56	%	1.31	%
Allowance for loan losses to total loans	1.22	%	1.40	%
Allowance for loan losses to non-performing loans	165.80	%	71.46	%

Nonperforming loans increased \$92,000 to \$3.2 million at March 31, 2016 from \$3.1 million at December 31, 2015. The increase in nonperforming loans was primarily due to a commercial real estate loan placed on nonaccrual status during the quarter ended March 31, 2016. Of the \$3.2 million in nonperforming loans, \$1.4 million were not past due at March 31, 2016.

As of March 31, 2016, the Corporation's classified and criticized assets amounted to \$12.7 million, or 2.1% of total assets, with \$6.7 million classified as substandard and \$6.0 million identified as special mention. This compares to classified and criticized assets of \$8.0 million, or 1.3% of total assets, with \$6.9 million classified as substandard and \$1.0 million identified as special mention at December 31, 2015. This increase was related to one commercial loan relationship consisting of three loans totaling \$5.0 million being identified as special mention during the quarter ended March 31, 2016.

The provision for loan losses increased \$12,000, or 7.1%, to \$181,000 for the three months ended March 31, 2016 from \$169,000 for the same period in the prior year.

**Noninterest income.** Noninterest income increased \$1,000, or 0.1%, to \$780,000 for the three months ended March 31, 2016, compared to \$779,000 for the same period in the prior year. This increase resulted from a \$6,000 increase in other interest income, partially offset by a \$5,000 decrease in commissions on financial services.

**Noninterest expense.** Noninterest expense increased \$54,000, or 1.4%, to \$4.0 million for the three months ended March 31, 2016 and 2015. This increase in noninterest expense can be attributed to increases in acquisition costs and premises and equipment of \$309,000 and \$17,000, respectively, partially offset by decreases in other noninterest expense, compensation and benefits, professional fees and federal deposit insurance of \$229,000, \$21,000, \$18,000 and \$4,000, respectively.

Costs related to the acquisition of United American Savings Bank totaled \$309,000 for the three months ended March 31, 2015. These costs include legal fees, system conversion costs and other costs of \$144,000, \$100,000 and \$65,000, respectively.

Compensation and employee benefits expense decreased \$21,000, or 1.0%, to \$2.0 million for the three months ended March 31, 2016 compared to \$2.1 million for the same period in the prior year. This decrease was primarily the result of decreases in employee retirement benefits and training expense of \$17,000 and \$11,000, respectively, and a \$20,000 increase in deferred loan costs, a contra expense, partially offset by increases in incentive and other employee expenses of \$21,000 and \$12,000, respectively.

Other noninterest expense decreased \$229,000, or 26.0%, to \$651,000 for the three months ended March 31, 2016 compared to \$880,000 for the same period in the prior year. The decrease was primarily related to a non-recurring adjustment related to deferred loan costs.

The Corporation recognized \$49,000 of core deposit intangible amortization expense during the first quarter of 2016 and 2015. This amortization relates to a branch acquisition completed in the third quarter of 2009. Further discussion of goodwill and intangible assets related to the branch office acquisition can be found in the “Notes to Consolidated Financial Statements” beginning on page 6.

**Provision for income taxes.** The provision for income taxes increased \$125,000, or 73.1%, to \$296,000 for the three months ended March 31, 2016 compared to \$171,000 for the same period in the prior year. This increase was driven primarily by an increase in the Corporation’s effective tax rate to 27.0% for the three months ended March 31, 2016 compared to 18.0% for the same period in the prior year. The Corporation’s effective tax rate increased primarily due to certain non-deductible acquisition related expenses.

## **LIQUIDITY**

The Corporation's primary sources of funds generally have been deposits obtained through the offices of the Bank, borrowings from the FHLB and Federal Reserve, and amortization and prepayments of outstanding loans and maturing securities. During the three months ended March 31, 2016, the Corporation used its sources of funds primarily to fund loan purchases and advances and repay short term borrowed funds. As of March 31, 2016, the Corporation had outstanding loan commitments, including undisbursed loans and amounts available under credit lines, totaling \$61.8 million, and standby letters of credit totaling \$146,000.

At March 31, 2016, time deposits amounted to \$122.6 million, or 24.0% of the Corporation's total consolidated deposits, including approximately \$29.4 million of which are scheduled to mature within the next year. Management of the Corporation believes (i) it has adequate resources to fund all of its commitments, (ii) all of its commitments will be funded as required by related maturity dates and (iii) based upon past experience and current pricing policies, it can adjust the rates of time deposits to retain a substantial portion of maturing liabilities if necessary.

Aside from liquidity available from customer deposits or through sales and maturities of securities, the Corporation has alternative sources of funds such as a term borrowing capacity from the FHLB and the Federal Reserve's discount window. At March 31, 2016, the Corporation had borrowed funds of \$35.0 million consisting of long-term FHLB advances. At March 31, 2016, the Corporation's borrowing capacity with the FHLB, net of funds borrowed and other commitments, was \$153.9 million.

Management is not aware of any conditions, including any regulatory recommendations or requirements, which would adversely impact its liquidity or its ability to meet funding needs in the ordinary course of business.

## **RECENT REGULATORY DEVELOPMENTS**

The final rules implementing the Basel Committee on Banking Supervision's (BCBS) capital guidelines for U.S. banks were approved by the FRB and FDIC. Under the final rules, minimum requirements increased for both the quantity and quality of capital. The rules include a new common equity Tier 1 capital to risk-weighted assets minimum ratio of 4.5%, raise the minimum ratio of Tier 1 capital to risk-weighted assets from 4.0% to 6.0%, require a minimum ratio of Total Capital to risk-weighted assets of 8.0% and require a minimum Tier 1 leverage ratio of 4.0%. A new capital conservation buffer comprised of common equity Tier 1 capital was also established above the regulatory minimum capital requirements. This capital conservation buffer was phased in beginning January 1, 2016 at 0.625% of risk-weighted assets and will increase each subsequent year by an additional 0.625% until reaching its final level of 2.5% on January 1, 2019. Eligibility criteria for regulatory capital instruments were also implemented under the final

rules. The final rules also revised the definition and calculation of Tier 1 capital, Total Capital and risk-weighted assets. The phase-in period for the final rules became effective on January 1, 2015 with full compliance with all of the final rules' requirements phased in over a multi-year schedule to be fully phased-in by January 1, 2019.

## **CRITICAL ACCOUNTING POLICIES**

The Corporation's consolidated financial statements are prepared in accordance with accounting principles generally accepted in the United States of America and follow general practices within the industry in which it operates. Application of these principles requires management to make estimates or judgments that affect the amounts reported in the financial statements and accompanying notes. These estimates are based on information available as of the date of the financial statements; accordingly, as this information changes, the financial statements could reflect different estimates or judgments. Certain policies inherently have a greater reliance on the use of estimates, and as such have a greater possibility of producing results that could be materially different than originally reported. Estimates or judgments are necessary when assets and liabilities are required to be recorded at fair value, when a decline in the value of an asset not carried on the financial statements at fair value warrants an impairment write-down or valuation reserve to be established or when an asset or liability needs to be recorded contingent upon a future event. Carrying assets and liabilities at fair value inherently results in more financial statement volatility. The fair values and the information used to record valuation adjustments for certain assets and liabilities are based either on quoted market prices or are provided by third-party sources, when available. When third-party information is not available, valuation adjustments are estimated in good faith by management primarily through the use of internal cash flow modeling techniques.

The most significant accounting policies followed by the Corporation are presented in Note 1 to the consolidated financial statements included in the Corporation's Annual Report on Form 10-K for the year ended December 31, 2015. These policies, along with the disclosures presented in the other financial statement notes provide information on how significant assets and liabilities are valued in the financial statements and how those values are determined. Management views critical accounting policies to be those which are highly dependent on subjective or complex judgments, estimates and assumptions and where changes in those estimates and assumptions could have a significant impact on the financial statements. Management has identified the following as critical accounting policies.

***Allowance for loan losses.*** The Corporation considers that the determination of the allowance for loan losses involves a higher degree of judgment and complexity than its other significant accounting policies. The balance in the allowance for loan losses is determined based on management's review and evaluation of the loan portfolio in relation to past loss experience, the size and composition of the portfolio, current economic events and conditions and other pertinent factors, including management's assumptions as to delinquencies, recoveries and losses. All of these factors may be susceptible to significant change. Among the many factors affecting the allowance for loan losses, some are quantitative while others require qualitative judgment. Although management believes its process for determining the allowance adequately considers all of the potential factors that could potentially result in credit losses, the process includes subjective elements and may be susceptible to significant change. To the extent actual outcomes differ from management's estimates, additional provisions for loan losses may be required that would adversely impact the Corporation's financial condition or earnings in future periods.

***Other-than-temporary impairment.*** Management evaluates securities for other-than-temporary impairment at least on a quarterly basis, and more frequently when economic, market or other concerns warrant such evaluation. Consideration is given to (1) the length of time and the extent to which the fair value has been less than cost, (2) the financial condition and near term prospects of the issuer, (3) whether the market decline was affected by macroeconomic conditions and (4) whether the Corporation has the intent to sell the debt security or more likely than not will be required to sell the debt security before its anticipated recovery.

***Goodwill and intangible assets.*** Goodwill represents the excess cost over fair value of assets acquired in a business combination. Goodwill and intangible assets acquired in a purchase business combination and determined to have an indefinite useful life are not amortized, but instead tested for impairment at least annually. The impairment test is a two-step process that begins with an initial impairment evaluation. If the initial evaluation suggests that an impairment of the asset value exists, the second step is to determine the amount of the impairment. If the tests conclude that goodwill is impaired, the carrying value is adjusted and an impairment charge is recorded. As of November 30, 2015, the required annual impairment test of goodwill was performed and management concluded that no impairment existed as of that date. Intangible assets with estimable useful lives are amortized over their respective estimated useful lives to their estimated residual values.

### **Item 3. Quantitative and Qualitative Disclosures About Market Risk**

Market risk for the Corporation consists primarily of interest rate risk exposure and liquidity risk. Since virtually all of the interest-earning assets and interest-bearing liabilities are at the Bank, virtually all of the interest rate risk and liquidity risk lies at the Bank level. The Bank is not subject to currency exchange risk or commodity price risk, and has no trading portfolio, and therefore, is not subject to any trading risk. In addition, the Bank does not participate in hedging transactions such as interest rate swaps and caps. Changes in interest rates will impact both income and expense recorded and also the market value of long-term interest-earning assets and interest-bearing liabilities. Interest rate risk and liquidity risk management is performed at the Bank level. Although the Bank has a diversified loan portfolio, loans outstanding to individuals and businesses depend upon the local economic conditions in the immediate trade area.

One of the primary functions of the Corporation's asset/liability management committee is to monitor the level to which the balance sheet is subject to interest rate risk. The goal of the asset/liability committee is to manage the relationship between interest rate sensitive assets and liabilities, thereby minimizing the fluctuations in the net interest margin, which achieves consistent growth of net interest income during periods of changing interest rates.

Interest rate sensitivity is the result of differences in the amounts and repricing dates of the Bank's rate sensitive assets and rate sensitive liabilities. These differences, or interest rate repricing "gap", provide an indication of the extent that the Corporation's net interest income is affected by future changes in interest rates. A gap is considered positive when the amount of interest rate-sensitive assets exceeds the amount of interest rate-sensitive liabilities and is considered negative when the amount of interest rate-sensitive liabilities exceeds the amount of interest rate-sensitive assets. Generally, during a period of rising interest rates, a negative gap would adversely affect net interest income while a positive gap would result in an increase in net interest income. Conversely, during a period of falling interest rates, a negative gap would result in an increase in net interest income and a positive gap would adversely affect net interest income. The closer to zero that gap is maintained, generally, the lesser the impact of market interest rate changes on net interest income.

Assumptions about the timing and variability of cash flows are critical in gap analysis. Particularly important are the assumptions driving mortgage prepayments and the expected attrition of the core deposits portfolios. These assumptions are based on the Corporation's historical experience, industry standards and assumptions provided by a federal regulatory agency, which management believes most accurately represents the sensitivity of the Corporation's assets and liabilities to interest rate changes. As of March 31, 2016, the Corporation's interest-earning assets maturing or repricing within one year totaled \$178.9 million while the Corporation's interest-bearing liabilities maturing or repricing within one-year totaled \$140.5 million, providing an excess of interest-earning assets over interest-bearing liabilities of \$38.4 million. At March 31, 2016, the percentage of the Corporation's assets to liabilities maturing or repricing within one year was 127.3%.

For more information, see "Market Risk Management" in the Corporation's Annual Report on Form 10-K for the year ended December 31, 2015.

#### **Item 4. Controls and Procedures**

The Corporation maintains disclosure controls and procedures that are designed to ensure that information required to be disclosed in the Corporation's Exchange Act reports is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms, and that such information is accumulated and communicated to the Corporation's management, including its Chief Executive Officer (CEO) and Chief Financial Officer (CFO), as appropriate, to allow timely decisions regarding required disclosure based on the definition of "disclosure controls and procedures" in Rule 13a-15(e).

As of March 31, 2016, the Corporation carried out an evaluation, under the supervision and with the participation of the Corporation's management, including the Corporation's CEO and CFO, of the effectiveness of the design and operation of the Corporation's disclosure controls and procedures. Based on the foregoing, the Corporation's CEO and CFO concluded that the Corporation's disclosure controls and procedures were effective. There have been no

significant changes in the Corporation's internal controls or in other factors that could significantly affect the internal controls subsequent to the date the Corporation completed its evaluation.

There has been no change made in the Corporation's internal control over financial reporting during the period covered by this report that has materially affected, or is reasonably likely to materially affect, the Corporation's internal control over financial reporting.

## **PART II - OTHER INFORMATION**

### **Item 1. Legal Proceedings**

The Corporation is involved in various legal proceedings occurring in the ordinary course of business. It is the opinion of management, after consultation with legal counsel, that these matters will not materially affect the Corporation's consolidated financial position or results of operations.

### **Item 1A. Risk Factors**

Not applicable.

**Item 2. Unregistered Sales of Equity Securities and Use of Proceeds**

None.

**Item 3. Defaults Upon Senior Securities**
