The Company also owns a portfolio of REIT investment securities.

The Company has elected to be taxed as a REIT under Sections 856-860 of the Internal Revenue Code (the Code), and intends to maintain its qualification as a REIT in the future. As a qualified REIT, with limited exceptions, the Company will not be taxed under Federal and certain state income tax laws at the corporate level on taxable income that it distributes to its shareholders. For special tax provisions applicable to REITs, refer to Sections 856-860 of the Code. The Company is subject to franchise taxes in some of the states in which the Company owns property.

The interim Consolidated Financial Statements furnished herein have been prepared in accordance with accounting principles generally accepted in the United States of America (US GAAP) applicable to interim financial information, the instructions to Form 10-Q, and Article 10 of Regulation S-X. Accordingly, they do not include all of the information and footnotes required by US GAAP for complete financial statements. In the opinion of management, all adjustments (consisting of normal recurring accruals) considered necessary for a fair presentation have been included. Operating results for the three months ended December 31, 2013 are not necessarily indicative of the results that may be expected for the year ending September 30, 2014. For further information, refer to the Consolidated Financial Statements and footnotes thereto included in the Company's annual report on Form 10-K for the fiscal year ended September 30, 2013.

Use of Estimates

In preparing the financial statements in accordance with US GAAP, management is required to make certain estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting periods. Actual results could differ from these estimates and assumptions.

Reclassification

Certain prior period amounts in the accompanying Consolidated Financial Statements have been reclassified to conform to the current period's presentation.

Lease Termination Income

Lease Termination Income is recognized in operating revenues when there is a signed termination agreement, all of the conditions of the agreement have been met, the tenant is no longer occupying the property and the termination consideration is probable of collection. Lease termination amounts are paid by tenants who want to terminate their lease obligations before the end of the contractual term of the lease by agreement with the Company.

Table of Contents

Lease Termination Income for the three months ended December 31, 2012 consists of \$113,784 from the Company's former tenant at its 388,671 square foot building located in St. Joseph, MO and \$576,946 from the Company's former tenant at its 160,000 square foot building located in Monroe, NC.

The Company is currently leasing 256,000 square feet (representing 66% of the space) at its property located in St. Joseph, MO through September 30, 2017.

The Company's lease with its tenant, Graybar Electric Company (Graybar), at its 26,340 square foot building located in Ridgeland (Jackson), MS has an early termination option which may be exercised at any time subsequent to December 2013 provided the Company is given six months of notice. The Company has not received notice nor does the Company anticipate that this tenant will exercise its early termination option. The rent per annum for this location is \$109,275 or \$4.15 per square foot and the lease expires in July 2019.

Other than the Company's lease with Graybar, the Company does not have any other leases that contain an early termination option.

Stock Based Compensation

The Company accounts for awards of stock options and restricted stock in accordance with ASC 718-10, Compensation-Stock Compensation. ASC 718-10 requires that compensation cost for all stock awards be calculated and amortized over the service period (generally equal to the vesting period). The compensation cost for stock option grants is determined using option pricing models, intended to estimate the fair value of the awards at the grant date less estimated forfeitures. The compensation expense for restricted stock is recognized based on the fair value of the restricted stock awards less estimated forfeitures. The fair value of restricted stock awards is equal to the fair value of the Company's stock on the grant date. Included in General and Administrative Expense in the accompanying Consolidated Statements of Operations are compensation costs of \$86,497 and \$79,527 which have been recognized during the three months ended December 31, 2013 and 2012, respectively.

The aggregate intrinsic value of options outstanding as of December 31, 2013 was \$780,185.

Recent Accounting Pronouncements

Management does not believe that any recently issued, but not yet effective accounting pronouncements, if adopted, would have a material effect on the accompanying Consolidated Financial Statements.

NOTE 2 – NET INCOME PER SHARE

Basic Net Income per Share is calculated by dividing Net Income Attributable to Common Shareholders by the weighted-average number of common shares outstanding during the period. Diluted Net Income per Common Share is calculated by dividing Net Income Attributable to Common Shareholders by the weighted-average number of common shares outstanding plus the weighted-average number of net shares that would be issued upon exercise of stock options pursuant to the treasury stock method.

In addition, common stock equivalents of 88,171 and 207,769 shares are included in the diluted weighted average shares outstanding for the three months ended December 31, 2013 and 2012, respectively. In addition to the Company's investments in Securities Available for Sale at Fair Value, the Company is required to disclose certain information about fair values of its other financial instruments. Estimates of fair value are made at a specific point in time based upon, where available, relevant market prices and information about the financial instrument. Such estimates do not include any premium or discount that could result from offering for sale at one time the Company's entire holdings of a particular financial instrument. For a portion of the Company's financial instruments, no quoted market value exists. Therefore, estimates of fair value are necessarily based on a number of significant assumptions (many of which involve events outside the control of management). Such assumptions include assessments of current economic conditions, perceived risks associated with these financial instruments and their counterparties; future expected loss experience and other factors. Given the uncertainties surrounding these assumptions, the reported fair values represent estimates only, and therefore cannot be compared to the historical accounting model. Use of different assumptions or methodologies is likely to result in significantly different fair value estimates.

The fair value of Cash and Cash Equivalents approximates their current carrying amounts since all such items are short-term in nature. The fair value of variable rate Loans Payable approximates their current carrying amounts since such amounts payable are at approximately a weighted-average current market rate of interest. The estimated fair value of fixed rate mortgage notes payable is based on discounting the future cash flows at a year-end risk adjusted borrowing rate currently available to the Company for issuance of debt with similar terms and remaining maturities. These fair value measurements fall within level 2 of the fair value hierarchy. At December 31, 2013, the fair value (estimated based upon expected cash outflows discounted at current market rates) and carrying value of fixed rate Mortgage Notes Payable amounted to \$298,647,324 and \$292,253,665, respectively. When the Company acquires a property, it is required to fair value all of the assets and liabilities, including intangible assets and liabilities, relating to the properties acquired lease (See Note 3). Those fair value measurements fall within level 3 of the fair value hierarchy.

The Company intends to make additional acquisitions in fiscal 2014 and in fiscal 2015 and the funds for these acquisitions may come from mortgages, draws on our unsecured line of credit, cash on hand, sale of marketable securities, other bank borrowings, proceeds from the DRIP, private placements and public offerings of additional common or preferred stock or other securities. The discussion and analysis of the Company's financial condition and results of operations are based upon the Company's Consolidated Financial Statements, which have been prepared in accordance with accounting principles generally accepted in the United States of America. The preparation of these Consolidated Financial Statements requires management to make estimates and judgments that affect the reported amounts of assets and liabilities, revenues and expenses, and related disclosure of contingent assets and liabilities at the date of the Company's Consolidated Financial Statements. Actual results may differ from these estimates under different assumptions or conditions.

On a regular basis, management evaluates our assumptions, judgments and estimates. Management believes there have been no material changes to the items that we disclosed as our significant accounting policies and estimates under Item 7, "Management's Discussion and Analysis of Financial Condition and Results of Operations," in our annual report on Form 10-K for fiscal year ended September 30, 2013.

As of December 31, 2013, the Company's weighted average lease expiration term was approximately 6.8 years as compared to 6.0 years as of December 31, 2012. The Company's occupancy rate was 96.4% as of December 31, 2013 as compared to 93.9% as of December 31, 2012.

Approximately 4% of the Company's gross leasable area, consisting of 6 leases totaling 437,727 square feet was originally set to expire during fiscal 2014. The Company has renewed 3 of the 6 leases which were scheduled to expire in fiscal 2014. The Company has incurred or expects to incur tenant improvement costs of approximately \$275,000 and leasing costs of approximately \$136,000 in connection with these 3 lease renewals. The table summarizes the lease terms of the 3 leases which were renewed and includes both the tenant improvement costs and the leasing costs which are presented on a per square foot (PSF) basis averaged over the renewal term.

(1) Amount calculated based on the total cost divided by the square feet, divided by the renewal term

Of the total 437,727 square feet of gross leasable area originally set to expire during fiscal 2014, 194,327 square feet or 44% has been renewed thus far. The lease renewals have been renewed for a weighted average term of 5.7 years and at a weighted average lease rate of \$5.80 per square foot as compared to \$6.41 per square foot formerly,

representing a weighted average reduction in the lease rate of 9.5%. As discussed previously, we have recently completed work on four property expansions, which resulted in extending their lease expirations and increasing their rents. The expansions consisted of three parking lot expansions and one building expansion at four FedEx Ground facilities. These expansions resulted in an additional ten years of lease term from the date of completion for each property that was expanded. Prior to the lease amendments being executed, these four leases had a remaining weighted average term of 3.8 years at the time of completion of the expansion work. By obtaining an additional ten years of lease term from the date of completion of the expansion work, an additional 6.2 years of weighted average term was added to these four leases. Commencing during the first quarter of fiscal 2014, the lease amendments have resulted in an annual increase in rent totaling approximately \$1,071,000 at a weighted average lease rate of \$8.51 per square foot as compared to \$7.45 per square foot formerly, representing a weighted average increase in the lease rate of 14.3%. The three leases that renewed thus far that were originally set to expire in fiscal 2014 combined with the four leases that were amended due to expansions, results in a weighted average increase in the lease rate of 9.6% and an increase in the weighted average term of 6.1 years.

Table of Contents

Of the remaining three leases set to expire in fiscal 2014, the Company has been informed that two leases, representing 47% of the space coming up for renewal in fiscal 2014, will not be renewed. One tenant that has indicated it will not be renewing its lease is for a 59,400 square foot building at our property located in Carlstadt, NJ. This property is leased to Macys Retail Holdings Inc. through March 31, 2014. The Company owns this property through a 51% controlling equity interest. The second tenant that has indicated it will not be renewing its lease is for a 148,000 square foot building at our property located in Fayetteville, NC. This property was leased to Maidenform Inc. (Maidenform) through December 31, 2013. Maidenform is currently occupying the space on a month-to-month basis and is paying "holdover" annual rent of \$4.50 per square foot, which is 150% of the stated rent per the expired lease. Maidenform has indicated that it intends to stay in our space until March 31, 2014. We anticipate renewing our one remaining lease, which is with FDX, for the property located in Richland, MS. This lease is currently set to expire on March 31, 2014, representing 36,000 square feet or 8% of the space scheduled for renewal in fiscal 2014.

In January 2014, the Company was notified by its tenant, H.E.P. Direct Inc. (HEP), which leases the Company's 106,507 square foot building located in Winston-Salem, NC through December 31, 2017 at an annualized rent of \$305,000 that they have filed for Chapter 11 bankruptcy and that they intend to vacate the Company's building sometime after February 28, 2014. Therefore, the Company does not expect to receive any rental payments from the date HEP vacates the building through the remaining lease term. The Company holds a security deposit equal to one month's base rent and as of January 31, 2014, HEP was current on its rental payments and therefore no amounts were due to the Company.

In January 2014, the Company entered into a fifteen and a half year lease agreement, which will become effective in June 2014, with a franchisee of Pla-Fit Franchise, LLC (Planet Fitness) for 22,682 square feet located at the Company's two-thirds owned 64,138 square foot shopping center located in Somerset, NJ. Initial rent will commence in December 2014 at an annualized rate of \$10.00 per square foot for the first five years, \$11.00 per square foot for years six through ten and \$12.00 per square foot for years eleven through fifteen, resulting in annualized rental revenue of \$241,454 over the fifteen and a half year lease term.

Rental Revenue increased \$2,261,468, or 20%, for the three months ended December 31, 2013 as compared to the three months ended December 31, 2012. The increase for the three months ended December 31, 2013 was due primarily to the increased rental income earned from the acquisition of five properties during fiscal 2013 and five properties purchased during the three months ended December 31, 2013.

Reimbursement Revenue increased \$572,197, or 38%, for the three months ended December 31, 2013 compared to the three months ended December 31, 2012. Real Estate Tax Expense increased \$693,541 or 60% for the three months ended December 31, 2013 as compared to the three months ended December 31, 2012. The increase for Reimbursement Revenue and Real Estate Taxes for the three months ended December 31, 2013 was primarily due to our newly acquired buildings and the Company's ability to obtain refunds in real estate taxes for several properties during the three months ended December 31, 2012. Our single tenant properties are subject to net leases which require the tenants to absorb the cost of Real Estate Taxes as well as insurance and the majority of repairs and maintenance. As such, the Company is reimbursed by the tenants for these Real Estate Taxes.

Lease Termination Income amounted to \$-0- and \$690,730 for the three months ended December 31, 2013 and 2012, respectively. This income represents the payments from former tenants at our St. Joseph, MO and Monroe, NC properties terminating their lease obligations before the end of the contractual term of the leases by agreement with the Company in accordance with the terms of the Lease.

Operating Expenses increased \$167,634, or 30%, for the three months ended December 31, 2013 as compared to the three months ended December 31, 2012. The increase in Operating Expenses for the three months ended December 31, 2013 was due primarily to an increase in insurance costs of approximately \$102,000 and an increase in repair and maintenance costs of approximately \$72,000. The increases were mainly due to the acquisition of five properties during fiscal 2013 and five properties purchased during the three months ended December 31, 2013. Approximately \$145,000 of the increases in Operating Expenses is offset by Reimbursement Revenue.

Table of Contents

General and Administrative Expense decreased \$149,414, or 12%, for the three months ended December 31, 2013 as compared to the three months ended December 31, 2012. The decrease in General and Administrative Expense for the three months ended December 31, 2013 was due primarily to decreased professional fees associated with redeeming the Subordinated Convertible Debentures in 2012 and a decrease in general professional fees.

Interest and Dividend Income decreased \$184,293, or 16%, for the three months ended December 31, 2013 as compared to the three months ended December 31, 2012. This decrease was mainly due to a lower average carrying value of Securities Available for Sale during the three months ended December 31, 2013 as compared to the average carrying value of Securities Available for Sale during three months ended December 31, 2012.

The Company recognized a Gain on Sale of Securities Transactions of \$150,725 and \$2,110,768 for the three months ended December 31, 2013 and 2012, respectively. In addition, the Company had net Unrealized Holding Gains on its Securities Held for Sale of \$439,163 as of December 31, 2013.

Securities Available for Sale increased \$8,143,857 from September 30, 2013 to December 31, 2013. The increase was due to the purchase of securities totaling \$11,539,599, offset by the sale of securities with a cost basis of \$1,845,637 and a decrease in Unrealized Holding Gains of \$1,550,105

Mortgage Notes Payable increased \$42,160,283 from September 30, 2013 to December 31, 2013. Details on the increase in Mortgage Notes Payable are as follows:

The Company has been raising capital through its DRIP, mortgages, draws on its unsecured line of credit, sale of marketable securities and funds generated from its investments in net leased industrial properties. The Company has a concentration of FedEx Corporation (FDX) and FDX subsidiary-leased properties consisting of forty-two separate stand-alone leases. The percentage of FDX leased square footage to the total of the Company's rental space was 42% (9% to FDX and 33% to FDX subsidiaries) as of December 31, 2013. At the quarter end, the only tenants that leased more than 5% of the Company's total square footage were FDX and its subsidiaries and Milwaukee Electric Tool Corporation, which leased 6%. The only tenant that accounted for more than 5% of the Company's total Rental and Reimbursement Revenue for the three months ended December 31, 2013 was FDX and its subsidiaries. Annualized Rental and Reimbursement Revenue from FDX and its subsidiaries is estimated to be approximately 53% (10% to FDX and 43% to FDX subsidiaries) of total Rental and Reimbursement Revenue for fiscal 2014.

FDX and Milwaukee Electric Tool Corporation's ultimate parent, Techtronic Industries Company Limited are publicly-owned companies.

The Company intends to acquire additional net-leased industrial properties on long-term leases, primarily to investment grade tenants, and when needed, expand its current properties. The Company has historically and intends to continue to finance purchases of real estate and expansions primarily through mortgages, draws on our unsecured line of credit, cash on hand, sale of marketable securities, other bank borrowings, proceeds from the DRIP, private placements and public offerings of additional common or preferred stock or other securities. To the extent that funds or appropriate properties are not available, fewer acquisitions will be made.

Off-Balance Sheet Arrangements

The Company does not have any off-balance sheet arrangements.

Funds From Operations and Core Funds From Operations

We assess and measure our overall operating results based upon an industry performance measure referred to as Funds From Operations (FFO), which management believes is a useful indicator of our operating performance. FFO is used

by industry analysts and investors as a supplemental operating performance measure of a REIT. FFO, as defined by The National Association of Real Estate Investment Trusts (NAREIT), represents net income (loss) attributable to common shareholders, as defined by accounting principles generally accepted in the United States of America (US GAAP), excluding extraordinary items, as defined under US GAAP, gains or losses from sales of previously depreciated real estate assets, impairment charges related to depreciable real estate assets, plus certain non-cash items such as real estate asset depreciation and amortization. NAREIT created FFO as a non-US GAAP supplemental measure of REIT operating performance. We define Core Funds From Operations (Core FFO) as FFO plus acquisition costs. FFO and Core FFO should be considered as a supplemental measure of operating performance used by REITs. FFO and Core FFO exclude historical cost depreciation as an expense and may facilitate the comparison of REITs which have a different cost basis. The items excluded from FFO and Core FFO are significant components in understanding the Company's financial performance.

FFO and Core FFO (i) do not represent Cash Flow from Operations as defined by US GAAP; (ii) should not be considered as an alternative to Net Income as a measure of operating performance or to Cash Flows from Operating, Investing and Financing Activities; and (iii) are not an alternative to cash flow as a measure of liquidity. FFO and Core FFO, as calculated by the Company, may not be comparable to similarly titled measures reported by other REITs.

Forward-looking statements provide our current expectations or forecasts of future events. Forward-looking statements include statements about the Company's expectations, beliefs, intentions, plans, objectives, goals, strategies, future events, performance and underlying assumptions and other statements that are not historical facts. Forward-looking statements can be identified by their use of forward-looking words, such as "may," "will," "anticipate," "expect," "believe," "intend," "plan," "should," "seek" or comparable terms, or the negative use of those words. The absence of these words does not necessarily mean that a statement is not forward-looking.

The forward-looking statements are based on our beliefs, assumptions and expectations of our future performance, taking into account all information currently available to us. Forward-looking statements are not predictions of future events. These beliefs, assumptions and expectations can change as a result of many possible events or factors, not all of which are known to us. Some of these factors are described in our Annual Report on Form 10-K for the fiscal year ended September 30, 2013 under the headings "Business", "Risk Factors" and "Management's Discussion and Analysis of Financial Condition and Results of Operations" and in this Quarterly Report on Form 10-Q under the heading "Management's Discussion and Analysis of Financial Condition and Results of Operations". These and other risks, uncertainties and factors could cause our actual results to differ materially from those included in any forward-looking statements we make. Any forward-looking statement speaks only as of the date on which it is made. New risks and uncertainties arise over time, and it is not possible for us to predict those events or how they may affect us. Except as required by law, we are not obligated to, and do not intend to, update or revise any forward-looking statements, whether as a result of new information, future events or otherwise. Important factors that could cause actual results to differ materially from our expectations include, among others:

- the ability of our tenants to make payments under their respective leases, our reliance on certain major tenants and our ability to re-lease properties that are currently vacant or that become vacant;
- our ability to obtain suitable tenants for our properties;
- changes in real estate market conditions, economic conditions in the industrial sector and the market in which our properties are located and general economic conditions;

- our ability to sell properties at an attractive price;
- our ability to repay debt financing obligations;
- our ability to refinance amounts outstanding under our credit facilities at maturity on terms favorable to us;
- the loss of any member of our management team;
- our ability to comply with debt covenants;
- our ability to integrate acquired properties and operations into existing operations;
- continued availability of proceeds from issuances of our debt or equity securities;
- the availability of other debt and equity financing alternatives;
- market conditions affecting our debt and equity securities;
- changes in interest rates under our current credit facility and under any additional variable rate debt arrangements that we may enter into in the future;
- our ability to successfully implement our selective acquisition strategy;
- our ability to maintain internal controls and procedures to ensure all transactions are accounted for properly, all relevant disclosures and filings are timely made in accordance with all rules and regulations, and any potential fraud or embezzlement is thwarted or detected;
- changes in federal or state tax rules or regulations that could have adverse tax consequences;
- declines in the market value of our investment securities; and

- our ability to qualify as a REIT for federal income tax purposes.
